Article 148

Where, in applying Article 29 (1) (b) of the Code, it is established that the sale or price of imported goods is subject to a condition or consideration the value of which can be determined with respect to the goods being valued, such value shall be regarded as an indirect payment by the buyer to the seller and part of the price actually paid or payable provided that the condition or consideration does not relate to either:

- (a) an activity to which Article 29 (3) (b) of the Code applies; or
- (b) a factor in respect of which an addition is to be made to the price actually paid or payable under the provisions of Article 32 of the Code.

Article 149

1 For the purposes of Article 29 (3) (b) of the Code, the term ‘marketing activities’ means all activities relating to advertising and promoting the sale of the goods in question and all activities relating to warranties or guarantees in respect of them.

Article 150

1 In applying Article 30 (2) (a) of the Code (the transaction value of identical goods), the customs value shall be determined by reference to the transaction value of identical goods in a sale at the same commercial level and in substantially the same quantity as the goods being valued. Where no such sale is found, the transaction value of identical goods sold at a different commercial level and/or in different quantities, adjusted to take account of differences attributable to commercial level and/or to quantity, shall be used, provided that such adjustments can be made on the basis of demonstrated evidence which clearly establishes the reasonableness and accuracy of the adjustment, whether the adjustment leads to an increase or a decrease in the value.

2 Where the costs and charges referred to in Article 32 (1) (e) of the Code are included in the transaction value, an adjustment shall be made to take account of significant differences in such costs and charges between the imported goods and the identical goods in question arising from differences in distances and modes of transport.

3 If, in applying this Article, more than one transaction value of identical goods is found, the lowest such value shall be used to determine the customs value of the imported goods.

4 In applying this Article, a transaction value for goods produced by a different person shall be taken into account only when no transaction value can be found under paragraph 1 for identical goods produced by the same person as the goods being valued.

Status: Point in time view as at 04/03/2007.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EEC) No 2454/93 (repealed), TITLE V. (See end of Document for details)

5 For the purposes of this Article, the transaction value of identical imported goods means a customs value previously determined under Article 29 of the Code, adjusted [^{X1}as provided for in paragraphs 1 and 2]of this Article.

Article 151

1 In applying Article 30 (2) (b) of the Code (the transaction value of similar goods), the customs value shall be determined by reference to the transaction value of similar goods in a sale at the same commercial level and in substantially the same quantity as the goods being valued. Where no such sale is found, the transaction value of similar goods sold at a different commercial level and/or in different quantities, adjusted to take account of differences attributable to commercial level and/or to quantity, shall be used, provided that such adjustments can be made on the basis of demonstrated evidence which clearly establishes the reasonableness and accuracy of the adjustment, whether the adjustment leads to an increase or a decrease in the value.

2 Where the costs and charges referred to in Article 32 (1) (e) of the Code are included in the transaction value, an adjustment shall be made to take account of significant differences in such costs and charges between the imported goods and the similar goods in question arising from differences in distances and modes of transport.

3 If, in applying this Article, more than one transaction value of similar goods is found, the lowest such value shall be used to determine the customs value for the imported goods.

4 In applying this Article, a transaction value for goods produced by a different person shall be taken into account only when no transaction value can be found under paragraph 1 for similar goods produced by the same person as the goods being valued.

5 For the purposes of this Article, the transaction value of similar imported goods means a customs value previously determined under Article 29 of the Code, adjusted [^{X1}as provided for in paragraphs 1 and 2 of]this Article.

Article 152

1

- a If the imported goods or identical or similar imported goods are sold in the Community in the condition as imported, the customs value of imported goods, determined in accordance with Article 30 (2) (c) of the Code, shall be based on the unit price at which the imported goods or identical or similar imported goods are so sold in the greatest aggregate quantity, at or about the time of the importation of the goods being valued,

Status: Point in time view as at 04/03/2007.

- (ii) the usual costs of transport and insurance and associated costs incurred within the Community;
- (iii) the import duties and other charges payable in the Community by reason of the importation or sale of the goods.

[^{F5}(a)a] The customs value of certain perishable goods imported on consignment may be directly determined in accordance with Article 30(2)(c) of the Code. For this purpose the unit prices shall be notified to the Commission by the Member States and disseminated by the Commission via TARIC in accordance with Article 6 of Council Regulation (EEC) No 2658/87⁽¹⁾.

The unit prices shall be calculated and notified as follows:

- (i) After the deductions provided for in point (a), a unit price per 100 kg net for each category of goods shall be notified by the Member States to the Commission. The Member States may fix standard amounts for the costs referred to in point (a)(ii) which shall be made known to the Commission.
- (ii) The unit price may be used to determine the customs value of the imported goods for periods of 14 days, each period beginning on a Friday.
- (iii) The reference period for determining the unit prices shall be the preceding period of 14 days which ends on the Thursday preceding the week during which new unit prices are to be established.
- (iv) The unit prices shall be notified by the Member States to the Commission in euro not later than 12 noon on the Monday of the week in which they are disseminated by the Commission. If that day is a non-working day, notification shall be made on the working day immediately preceding that day. Unit prices shall only apply if this notification is disseminated by the Commission.

The goods referred to in the first subparagraph of this point are set out in Annex 26.]

- b If neither the imported goods nor identical nor similar imported goods are sold at or about the time of importation of the goods being valued, the customs value of imported goods determined under this Article shall, subject otherwise to the provisions of paragraph 1 (a), be based on the unit price at which the imported goods or identical or similar imported goods are sold in the Community in the condition as imported at the earliest date after the importation of the goods being valued but before the expiration of 90 days after such importation.

2 If neither the imported goods nor identical nor similar imported goods are sold in the Community in the condition as imported, then, if the importer so requests, the customs value shall be based on the unit price at which the imported goods, after further processing, are sold in the greatest aggregate quantity to persons in the Community who are not related to the persons from whom they buy such goods, due allowance being made for the value added by such processing and the deductions provided for in paragraph 1 (a).

Status: Point in time view as at 04/03/2007.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EEC) No 2454/93 (repealed), TITLE V. (See end of Document for details)

3 For the purposes of this Article, the unit price at which imported goods are sold in the greatest aggregate quantity is the price at which the greatest number of units is sold in sales to persons who are not related to the persons from whom they buy such goods at the first commercial level after importation at which such sales take place.

4 Any sale in the Community to a person who supplies directly or indirectly free of charge or at reduced cost for use in connection with the production and sale for export of the imported goods any of the elements specified in Article 32 (1) (b) of the Code should not be taken into account in establishing the unit price for the purposes of this Article.

5 For the purposes of paragraph 1 (b), the ‘earliest date’ shall be the date by which sales of the imported goods or of identical or similar imported goods are made in sufficient quantity to establish the unit price.

Article 153

1 In applying Article 30 (2) (d) of the Code (computed value), the customs authorities may not require or compel any person not resident in the Community to produce for examination, or to allow access to, any account or other record for the purposes of determining this value. However, information supplied by the producer of the goods for the purposes of determining the customs value under this Article may be verified in a non-Community country by the customs authorities of a Member State with the agreement of the producer and provided that such authorities give sufficient advance notice to the authorities of the country in question and the latter do not object to the investigation.

2 The cost or value of materials and fabrication referred to in the first indent of Article 30 (2) (d) of the Code shall include the cost of elements specified in Article 32 (1) (a) (ii) and (iii) of the Code.

3 Where information other than that supplied by or on behalf of the producer is used for the purposes of determining a computed value, the customs authorities shall inform the declarant, if the latter so requests, of the source of such information, the data used and the calculations based on such data, subject to Article 15 of the Code.

4 The ‘general expenses’ referred to in the second indent of Article 30 (2) (d) of the Code, cover the direct and indirect costs of producing and selling the goods for export which are not included under the first indent of Article 30 (2) (d) of the Code.

to be determined on the basis of appropriate and specific criteria.

In such cases, the declared customs value is not to be considered as provisional within the meaning of the second indent of Article 254.

- 2 The authorization shall be granted under the following conditions:

CHAPTER 2

Provisions concerning royalties and licence fees

Article 157

1 For the purposes of Article 32 (1) (c) of the Code, royalties and licence fees shall be taken to mean in particular payment for the use of rights relating:

- to the manufacture of imported goods (in particular, patents, designs, models and manufacturing know-how), or
- to the sale for exportation of imported goods (in particular, trade marks, registered designs), or
- to the use or resale of imported goods (in particular, copyright, manufacturing processes inseparably embodied in the imported goods).

2 Without prejudice to Article 32 (5) of the Code, when the customs value of imported goods is determined under the provisions of Article 29 of the Code, a royalty or licence fee shall be added to the price actually paid or payable only when this payment:

- is related to the goods being valued, and
- constitutes a condition of sale of those goods.

Article 158

1 When the imported goods are only an ingredient or component of goods manufactured in the Community, an adjustment to the price actually paid or payable for the imported goods shall only be made when the royalty or licence fee relates to those goods.

2 Where goods are imported in an unassembled state or only have to undergo minor processing before resale, such as diluting or packing, this shall not prevent a royalty or licence fee from being considered related to the imported goods.

3 If royalties or licence fees relate partly to the imported goods and partly to other ingredients or component parts added to the goods after their importation, or to post-importation activities or services, an appropriate apportionment shall be made only on the basis of objective and quantifiable data, in accordance with the interpretative note to Article 32 (2) of the Code in Annex 23.

Article 159

A royalty or licence fee in respect of the right to use a trade mark is only to be added to the price actually paid or payable for the imported goods where:

- the royalty or licence fee refers to goods which are resold in the same state or which are subject only to minor processing after importation,
- the goods are marketed under the trade mark, affixed before or after importation, for which the royalty or licence fee is paid, and
- the buyer is not free to obtain such goods from other suppliers unrelated to the seller.

Article 160

When the buyer pays royalties or licence fees to a third party, the conditions provided for in Article 157 (2) shall not be considered as met unless the seller or a person related to him requires the buyer to make that payment.

Status: Point in time view as at 04/03/2007.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EEC) No 2454/93 (repealed), TITLE V. (See end of Document for details)

Article 161

Where the method of calculation of the amount of a royalty or licence fee derives from the price of the imported goods, it may be assumed in the absence of evidence to the contrary that the payment of that royalty or licence fee is related to the goods to be valued.

However, where the amount of a royalty or licence fee is calculated regardless of the price of the imported goods, the payment of that royalty or licence fee may nevertheless be related to the goods to be valued.

Article 162

In applying Article 32 (1) (c) of the Code, the country of residence of the recipient of the payment of the royalty or licence fee shall not be a material consideration.

CHAPTER 3

Provisions concerning the place of introduction into the Community

Article 163

1 For the purposes of Article 32 (1) (e) and Article 33 (a) of the Code, the place of introduction into the customs territory of the Community shall be:

- b for goods carried by sea and then, without transhipment, by inland waterway, the first port where unloading can take place either at the mouth of the river or canal or further inland, subject to proof being furnished to the customs office that the freight to the port of unloading is higher than that to the first port;
- c for goods carried by rail, inland waterway, or road, the place where the first customs office is situated;
- d for goods carried by other means, the place where the land frontier of the customs territory of the Community is crossed.

[^{F72} The customs value of goods introduced into the customs territory of the Community and then carried to a destination in another part of that territory through the territories of Belarus, Russia, Switzerland, Bosnia and Herzegovina, Croatia, the Federal Republic of Yugoslavia or the former Yugoslav Republic of Macedonia shall be determined by reference to the first place of introduction into the customs territory of the Community, provided that goods are carried direct through the territories of those countries by a usual route across such territory to the place of destination.]

3 The customs value of goods introduced into the customs territory of the Community and then carried by sea to a destination in another part of that territory shall be determined by reference to the first place of introduction into the customs territory of the Community, provided the goods are carried direct by a usual route to the place of destination.

[^{F74} Paragraphs 2 and 3 of this Article shall also apply where the goods have been unloaded, transhipped or temporarily immobilised in the territories of Belarus, Russia, Switzerland, Bosnia and Herzegovina, Croatia, the Federal Republic of Yugoslavia or the former Yugoslav Republic of Macedonia for reasons related solely to their transport.]

Status: Point in time view as at 04/03/2007.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EEC) No 2454/93 (repealed), TITLE V. (See end of Document for details)

5 For goods introduced into the customs territory of the Community and carried directly from one of the French overseas departments to another part of the customs territory of the Community or vice versa, the place of introduction to be taken into consideration shall be the place referred to in paragraphs 1 and 2 situated in that part of the customs territory of the Community from which the goods came, if they were unloaded or transhipped there and this was certified by the customs authorities.

6 When the conditions specified at paragraphs 2, 3 and 5 are not fulfilled, the place of introduction to be taken into consideration shall be the place specified in paragraph 1 situated in that part of the customs territory of the Community to which the goods are consigned.

CHAPTER 4

Provisions concerning transport costs

Article 164

In applying Article 32 (1) (e) and 33 (a) of the Code:

- (a) where goods are carried by the same mode of transport to a point beyond the place of introduction into the customs territory of the Community, transport costs shall be assessed in proportion to the distance covered outside and inside the customs territory of the Community, unless evidence is produced to the customs authorities to show the costs that would have been incurred under a general compulsory schedule of freight rates for the carriage of the goods to the place of introduction into the customs territory of the Community;
- (b) where goods are invoiced at a uniform free domicile price which corresponds to the price at the place of introduction, transport costs within the Community shall not be deducted from that price. However, such deduction shall be allowed if evidence is produced to the customs authorities that the free-frontier price would be lower than the uniform free domicile price;
- (c) where transport is free or provided by the buyer, transport costs to the place of introduction, calculated in accordance with the schedule of freight rates normally applied for the same modes of transport, shall be included in the customs value.

Article 165

1 All postal charges levied up to the place of destination in respect of goods sent by post shall be included in the customs value of these goods, with the exception of any supplementary postal charge levied in the country of importation.

2 No adjustment to the declared value shall, however, be made in respect of such charges in determining the value of consignments of a non-commercial nature.

Status: Point in time view as at 04/03/2007.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EEC) No 2454/93 (repealed), TITLE V. (See end of Document for details)

Community Customs Code (Official Journal of the European Communities No L 253 of 11 October 1993).

Article 169

1 Where factors used to determine the customs value of goods are expressed at the time when that value is determined in a currency other than that of the Member State where the valuation is made, the rate of exchange to be used to determine that value in terms of the currency of the Member State concerned shall be the rate recorded on the second-last Wednesday of a month and published on that or the following day.

2 The rate recorded on the second-last Wednesday of a month shall be used during the following calendar month unless it is superseded by a rate established under Article 171.

3 Where a rate of exchange is not recorded on the second-last Wednesday indicated in paragraph 1, or, if recorded, is not published on that or the following day, the last rate recorded for the currency in question published within the preceding 14 days shall be deemed to be the rate recorded on that Wednesday.

Article 170

Where a rate of exchange cannot be established under the provisions of Article 169, the rate of exchange to be used for the application of Article 35 of the Code shall be designated by the Member State concerned and shall reflect as effectively as possible the current value of the currency in question in commercial transactions in terms of the currency of that Member State.

Article 171

1 Where a rate of exchange recorded on the last Wednesday of a month and published on that or the following day differs by 5 % or more from the rate established in accordance with Article 169 for entry into use the following month, it shall replace the latter rate from the first Wednesday of that month as the rate to be applied for the application of Article 35 of the Code.

The replacement rate shall remain in use for the remainder of the current month, provided that this rate is not superseded due to operation of the provisions of the first sentence of this paragraph.

3 Where, in a Member State, a rate of exchange is not recorded on a Wednesday or, if recorded, is not published on that or the following day, the rate recorded shall, for the application in that Member State of paragraphs 1 and 2, be the rate most recently recorded and published prior to that Wednesday.

Article 172

When the customs authorities of a Member State authorize a declarant to furnish or supply at a later date certain details concerning the declaration for free circulation of the goods in the form of a periodic declaration, this authorization may, at the declarant's request, provide that a single rate be used for conversion into that Member State's currency of elements forming part of the customs value as expressed in a particular currency. In this case, the rate to be used shall be the rate, established in accordance with
