Commission Regulation (EC) No 749/97 of 25 April 1997 amending Annexes I, II and III of Council Regulation (EEC) No 2377/90 laying down a Community procedure for the establishment of maximum residue limits of veterinary medicinal products in foodstuffs of animal origin

COMMISSION REGULATION (EC) No 749/97

of 25 April 1997

amending Annexes I, II and III of Council Regulation (EEC) No 2377/90 laying down a Community procedure for the establishment of maximum residue limits of veterinary medicinal products in foodstuffs of animal origin

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 2377/90 of 26 June 1990 laying down a Community procedure for the establishment of maximum residue limits of veterinary medicinal products in foodstuffs of animal origin⁽¹⁾, as last amended by Commission Regulation (EC) No 748/97⁽²⁾, and in particular Articles 6, 7 and 8 thereof,

Whereas, in accordance with Regulation (EEC) No 2377/90, maximum residue limits must be established progressively for all pharmacologically active substances which are used within the Community in veterinary products intended for administration to food-producing animals;

Whereas maximum residue limits should be established only after the examination within the Committee for Veterinary Medicinal Products of all the relevant information concerning the safety of residues of the substance concerned for the consumer of foodstuffs of animal origin and the impact of residues on the industrial processing of foodstuffs;

Whereas, in establishing maximum residue limits for residues of veterinary medicinal products in foodstuffs of animal origin, it is necessary to specify the animal species in which residues may be present, the levels which may be present in each of the relevant meat tissues obtained from the treated animal (target tissue) and the nature of the residue which is relevant for the monitoring of residues (marker residue);

Whereas, for the control of residues, as provided for in appropriate Community legislation, maximum residue limits should usually be established for the target tissues of liver or kidney; whereas, however, the liver and kidney are frequently removed from carcasses moving in international trade, and maximum residue limits should therefore also always be established for muscle or fat tissues;

Whereas, in the case of veterinary medicinal products intended for use in laying birds, lactating animals or honey bees, maximum residue limits must also be established for eggs, milk or honey;

Whereas, difloxacin and vedaprofen should be inserted into Annex I to Regulation (EEC) No 2377/90;

Whereas thiomersal and timerfonate should be inserted into Annex II to Regulation (EEC) No 2377/90;

Whereas, in order to allow for the completion of scientific studies, clavulanic acid should be inserted into Annex III to Regulation (EEC) No 2377/90;

Whereas, in order to allow for the completion of the scientific studies in progress, the duration of the validity of the provisional maximum residue limits previously defined in Annex III of Regulation (EEC) No 2377/90 should be extended for dexamethasone;

Whereas a period of 60 days should be allowed before the entry into force of this Regulation in order to allow Member States to make any adjustment which may be necessary to the authorisations to place the veterinary medicinal products concerned on the market which have been granted in accordance with Council Directive 81/851/EEC⁽³⁾, as last amended by Directive 93/40/EEC⁽⁴⁾, to take account of the provisions of this Regulation;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Veterinary Medicinal Products,

HAS ADOPTED THIS REGULATION:

Article 1

Annexes I, II and III of Regulation (EEC) No 2377/90 are hereby amended as set out in the Annex hereto.

Article 2

This Regulation shall enter into force on the sixtieth day following its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 25 April 1997.

For the Commission

Martin BANGEMANN

Member of the Commission

ANNEX

The Annexes to Regulation (EEC) No 2377/90 are amended as follows:

- A. Annex I is amended as follows:
 - 1. Anti-infectious agents
 - 1.2. Antibiotics
 - 1.2.3. Quinolones

Pharma active substan	residue	llyAnimal species	MRLs	Target tissues	Other provisions
·1.2.3.3.	Difloxac Difloxac	i6hicken in turkey	,1 900 μg/kg	Liver	
			600 μg/ kg	Kidney	
			300 μg/ kg	Muscle	
			400 μg/ kg	Skin/ fat'	

4. Anti-inflammatory agents

- 4.1. Nonsteroidal anti-inflammatory agents
 - 4.1.1. Arylpropionic acid derivative

Pharma active substan	ic Magica residue ce		MRLs	Target tissues	Other provisions
'4.1.1.1.	Vedapro Vedapro	f e nquidae fen	1 000 μg/kg	Kidney	
			100 μg/ kg	Liver	
			50 μg/ kg	Muscle	
			20 μg/ kg	Fat'	

- B. Annex II is amended as follows:
 - 2. Organic compounds

Pharmacologically active substance(s)		Animal species	Other provisions	
ʻ2.82.	Thiomersal	All food producing species	For use only as preservatives in multidose vaccines at	

			a concentration not exceeding 0,02 %
2.83.	Timerfonate	All food producing species	For use only as preservatives in multidose vaccines at a concentration not exceeding 0,02 %'

- C. Annex III is amended as follows:
 - 1. Anti-infectious agents

1.2. Antibiotics

1.2.10. Beta-lactamase inhibitors

Pharma active substan		llyAnimal species	MRLs	Target tissues	Other provisions
ʻ1.2.10.1	Clavular Clavular actid actid	i B ovine, Svine, porcine	200 μg/ kg	Muscle, liver, kidney, fat	Provisional MRLs expire on 1. 7.
		Bovine, ovine	200 µg/ kg	Milk	1999'

4. Corticoids

4.1. Glucocorticoids

Pharm active substar	aco MgickHy residue 1ce(s)	Animal species	MRLs	Target tissues	Other provisions
'4.1.1.	4.1.1. Dexamethase	a Borv ene, porcine, equidae	2,5 μg/ kg	Liver	Provisional MRLs
			0,5 μg/ kg	Muscle, kidney	expire on 1. 7. 1997'
	Bovine	Bovine	0,3 µg/ kg	Milk
