

Commission Regulation (EC) No 1622/2000 of 24 July 2000 laying down certain detailed rules for implementing Regulation (EC) No 1493/1999 on the common organisation of the market in wine and establishing a Community code of oenological practices and processes (repealed)

TITLE II

OENOLOGICAL PRACTICES AND PROCESSES

CHAPTER I

RESTRICTIONS AND REQUIREMENTS PERTAINING TO THE USE OF CERTAIN SUBSTANCES AUTHORISED FOR OENOLOGICAL PURPOSES

Article 5

Restrictions on the use of certain substances

The substances authorised for oenological purposes listed in Annex IV to Regulation (EC) No 1493/1999 may be used only subject to the limits laid down in Annex IV hereto.

[^{F1}Article 6

The purity and identification specifications of substances used in oenological practices referred to in Article 46(2)(c) of Regulation (EC) No 1493/1999 shall be those laid down in Directive 96/77/EC. Where necessary, those purity criteria shall be supplemented by the specific requirements provided for in this Regulation.]

Textual Amendments

- F1** Substituted by [Commission Regulation \(EC\) No 1410/2003 of 7 August 2003 amending Regulation \(EC\) No 1622/2000 laying down certain detailed rules for implementing Council Regulation \(EC\) No 1493/1999 on the common organisation of the market in wine and establishing a Community code of oenological practices and processes.](#)

Article 7

Calcium tartrate

Calcium tartrate, the use of which in assisting the precipitation of tartar is provided for in Annex IV(3)(v) to Regulation (EC) No 1493/1999, may be used only if it meets the requirements set out in Annex VI hereto.

Status: Point in time view as at 01/08/2004.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1622/2000 (repealed), CHAPTER I. (See end of Document for details)

Article 8

Tartaric acid

Tartaric acid, the use of which for deacidification purposes is provided for in Annex IV(1)(m) and Annex IV(3)(l) to Regulation (EC) No 1493/1999, may be used only for products that:

- are from the Elbling and Riesling vine varieties, and
- are obtained from grapes harvested in the following wine-growing regions in the northern part of wine-growing zone A:
 - Ahr,
 - Rheingau,
 - Mittelrhein,
 - Mosel-Saar-Ruwer,
 - Nahe,
 - Rheinhessen,
 - [^{F1}Pfalz],
 - Moselle luxembourgeoise.

[^{F2}Tartaric acid, the use of which is provided for in Annex IV(1)(l) and (m) and Annex IV(3)(k) and (l) to Regulation (EC) No 1493/1999, also called L-tartaric acid, must be of agricultural origin and extracted specifically from wine products. It must also comply with the purity criteria laid down in Commission Directive 96/77/EC⁽¹⁾.]

Textual Amendments

- F1** Substituted by [Commission Regulation \(EC\) No 1410/2003 of 7 August 2003 amending Regulation \(EC\) No 1622/2000 laying down certain detailed rules for implementing Council Regulation \(EC\) No 1493/1999 on the common organisation of the market in wine and establishing a Community code of oenological practices and processes.](#)
- F2** Inserted by [Commission Regulation \(EC\) No 2244/2002 of 16 December 2002 amending Regulation \(EC\) No 1622/2000 as regards the use of tartaric acid in wine products.](#)

Article 9

Aleppo pine resin

Aleppo pine resin, the use of which is provided for in Annex IV(1)(n) to Regulation (EC) No 1493/1999, may be used only to produce ‘retsina’ table wine. This oenological practice may be carried out only:

- in the geographical territory of Greece,
- using grape must from grape varieties, areas of production and wine-making areas as specified in the Greek provisions in force at 31 December 1980,
- by adding 1 000 grams or less of resin per hectolitre of the product used, before fermentation or, where the actual alcoholic strength by volume does not exceed one third of the overall alcoholic strength by volume, during fermentation.

Status: Point in time view as at 01/08/2004.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1622/2000 (repealed), CHAPTER I. (See end of Document for details)

Greece shall notify the Commission in advance if it intends to amend the provisions referred to in the second indent. If the Commission does not respond within two months of such notification, Greece may implement the planned amendments.

Article 10

Beta-glucanase

Beta-glucanase, the use of which is provided for in Annex IV(1)(j) and (3)(m) to Regulation (EC) No 1493/1999, may be used only if it meets the requirements set out in Annex VII hereto.

Article 11

Lactic bacteria

Lactic bacteria, the use of which is provided for in Annex IV(1)(q) and (3)(z) to Regulation (EC) No 1493/1999, may be used only if they meet the requirements set out in Annex VIII hereto.

f³ Article 11a

Lysozyme

Lysozyme, the use of which is provided for in Annex IV(1)(r) and (3)(zb) to Regulation (EC) No 1493/1999, may be used only if it meets the requirements set out in Annex VIIIa hereto.]

Textual Amendments

- F3** Inserted by [Commission Regulation \(EC\) No 2066/2001 of 22 October 2001 amending Regulation \(EC\) No 1622/2000 as regards the use of lysozyme in wine products.](#)

Article 12

Ion exchange resins

The ion exchange resins which may be used in accordance with Annex IV(2)(h) to Regulation (EC) No 1493/1999 shall be styrene and divinylbenzene copolymers containing sulphonic acid or ammonium groups. They must comply with the requirements laid down in Council Directive 89/109/EEC of 21 December 1988 on the approximation of the laws of the Member States relating to materials and articles intended to come into contact with foodstuffs⁽²⁾ and Community and national provisions adopted in implementation thereof. In addition, when tested by the method of analysis laid down in Annex IX hereto, they must not lose more than 1 mg/l of organic matter into any of the solvents listed. They must be regenerated with substances permitted for use in the preparation of foodstuffs.

These resins may be used only under the supervision of an oenologist or technician and in installations approved by the authorities of the Member States on whose territory

Status: Point in time view as at 01/08/2004.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1622/2000 (repealed), CHAPTER I. (See end of Document for details)

they are used. Such authorities shall lay down the duties and responsibility incumbent on approved oenologists and technicians.

Article 13

Potassium ferrocyanide

Potassium ferrocyanide, the use of which is provided for in Annex IV(3)(p) to Regulation (EC) No 1493/1999, may be used only under the supervision of an oenologist or technician officially approved by the authorities of the Member State in whose territory the process is carried out, the extent of whose responsibility shall be fixed, if necessary, by the Member State concerned.

After treatment with potassium ferrocyanide wine must contain traces of iron.

Supervision of the use of the product covered by this Article shall be governed by the provisions adopted by the Member States.

Article 14

Calcium phytate

Calcium phytate, the use of which is provided for in Annex IV(3)(p) to Regulation (EC) No 1493/1999, may be used only under the supervision of an oenologist or technician officially approved by the authorities of the Member State in whose territory the process is carried out, the extent of whose responsibility shall be fixed, if necessary, by the Member State concerned.

After treatment wine must contain traces of iron.

Supervision of the use of the product referred to in the first paragraph shall be governed by the provisions adopted by the Member States.

Article 15

DL-tartaric acid

DL-tartaric acid, the use of which is provided for in Annex IV(3)(s) to Regulation (EC) No 1493/1999, may be used only under the supervision of an oenologist or technician officially approved by the authorities of the Member State in whose territory the process is carried out, the extent of whose responsibility shall be fixed, if necessary, by the Member State concerned.

Supervision of the use of the product covered by this Article shall be governed by the provisions adopted by the Member States.

Article 16

Electrodialysis treatment

Electrodialysis treatment, the use of which to ensure the tartaric stabilisation of wine is provided for in Annex IV(4)(b) to Regulation (EC) No 1493/1999, may be used only

Status: Point in time view as at 01/08/2004.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1622/2000 (repealed), CHAPTER I. (See end of Document for details)

if it meets the requirements set out in Annex X hereto. It shall be used solely for table wine until 31 July 2001.

Article 17

Urease

Urease, the use of which to reduce the level of urea in wine is provided for in Annex IV(4)(c) to Regulation (EC) No 1493/1999, may be used only if it meets the requirements and purity criteria set out in Annex XI hereto.

Article 18

Addition of oxygen

Addition of oxygen, which is provided for in Annex IV(4)(a) to Regulation (EC) No 1493/1999, must be carried out using pure gaseous oxygen.

^{F4}Article 18a

Pouring of wine or grape must to lees or grape marc or pressed aszú pulp

The pouring of wine or grape must to lees or grape marc or pressed aszú pulp, provided for in point 4(d) of Annex IV to Regulation (EC) No 1493/1999, shall be carried out as follows, in accordance with the Hungarian provisions in force on 1 May 2004:

- (a) the Tokaji fordítás shall be prepared by pouring must or wine on the pressed aszú pulp;
- (b) the Tokaji másolás shall be prepared by pouring must or wine on the lees of szamorodni or aszú.]

Textual Amendments

- F4** Inserted by [Commission Regulation \(EC\) No 1427/2004 of 9 August 2004 amending Regulation \(EC\) No 1622/2000 laying down certain detailed rules for implementing Regulation \(EC\) No 1493/1999 on the common organisation of the market in wine and establishing a Community code of oenological practices and processes.](#)

Status: Point in time view as at 01/08/2004.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1622/2000 (repealed), CHAPTER I. (See end of Document for details)

- (1) [^{F2}OJ L 339, 30.12.1996, p. 1.]
- (2) OJ L 40, 11.2.1989, p. 38.

Textual Amendments

- F2** Inserted by Commission Regulation (EC) No 2244/2002 of 16 December 2002 amending Regulation (EC) No 1622/2000 as regards the use of tartaric acid in wine products.

Status:

Point in time view as at 01/08/2004.

Changes to legislation:

There are currently no known outstanding effects for the Commission Regulation (EC) No 1622/2000 (repealed), CHAPTER I.
