THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1255/1999 of 17 May 1999 on the common organisation of the market in milk and milk products⁽¹⁾, as last amended by Regulation (EC) No 1670/2000⁽²⁾, and in particular Article 26(3) and Article 29(1) thereof,

Whereas:

- (1) Commission Regulation (EC) No 1374/98 of 29 June 1998 laying down detailed rules for the application of the import arrangements and opening tariff quotas for milk and milk products⁽³⁾, as last amended by Regulation (EC) No 594/2001⁽⁴⁾, has been substantially amended several times. Since further amendments are to be made, in the interests of clarity and efficiency the said Regulation should be recast to include also the provisions of Commission Regulation (EEC) No 2967/79 of 18 December 1979 laying down the conditions under which certain cheeses benefiting from preferential import treatment are to be processed⁽⁵⁾, as last amended by Regulation (EC) No 1599/95⁽⁶⁾, Commission Regulation (EC) No 2508/97 of 15 December 1997 laying down detailed rules for the application to milk and milk products of the schemes provided for in the Europe Agreements between the Community and the Republic of Hungary, the Republic of Poland, the Czech Republic, the Slovak Republic, Bulgaria, Romania and Slovenia and the Agreements on free trade between the Community and the Baltic States⁽⁷⁾, as last amended by Regulation (EC) No 2856/2000⁽⁸⁾, and Commission Regulation (EC) No 2414/98 of 9 November 1998 laying down detailed rules for the application of the arrangements applicable to imports of milk products originating in the African, Caribbean and Pacific States (ACP States) and repealing Regulation (EEC) No 1150/90⁽⁹⁾.

- (2) Articles 26 and 29 of Regulation (EC) No 1255/1999 stipulate that the Commission is to ensure that import licences are issued to all applicants irrespective of where in the Community they are established and that all discrimination between importers must be avoided, whilst taking into account all the relevant provisions.
- (3) In order to take account of certain features specific to the importation of milk products, additional provisions should be adopted as well as, where necessary, derogations from Commission Regulation (EC) No 1291/2000 of 9 June 2000 laying down common detailed rules for the application of the system of import and export licences and advance fixing certificates for agricultural products⁽¹⁾, as last amended by Regulation (EC) No 2299/2001⁽²⁾.
- (4) Specific provisions are needed for imports into the Community of milk products at reduced duty under the tariff concessions provided for in the following texts:
- (a) the concessions set out in schedule CXL drawn up in the wake of the Uruguay Round of multilateral trade negotiations and the negotiations conducted under Article XXIV.6 of GATT following the accession to the European Community of Austria, Finland and Sweden (hereinafter called ‘the CXL schedule’);
- (b) the tariff agreement with Switzerland concerning certain cheeses listed in position ex 0404 of the Common Customs Tariff, concluded on behalf of the Community by Council Decision 69/352/EEC⁽³⁾, as last amended by the Agreement in the form of an Exchange of Letters between the European Economic Community, of the one part, and the Swiss Confederation, of the other part, concerning certain agricultural products, approved by Council Decision 95/582/EC⁽⁴⁾ (hereinafter called the ‘Agreement with Switzerland’);
- (c) the Agreement in the form of an Exchange of Letters between the European Community and the Kingdom of Norway concerning certain agricultural products, approved by Decision 95/582/EC (hereinafter called ‘the Agreement with Norway’);
- (d) Decision No 1/98 of the EC-Turkey Association Council of 25 February 1998 on the trade regime for agricultural products⁽⁵⁾;
- (e) Council Regulation (EC) No 1706/98 of 20 July 1998 on the arrangements applicable to agricultural products and goods resulting from the processing of agricultural products originating in the African, Caribbean and Pacific States (ACP States) and repealing Regulation (EEC) No 715/90⁽⁶⁾;

- (f) the Agreement on trade, development and cooperation between the European Community and its Member States, of the one part, and the Republic of South Africa, of the other part, provisionally applied under the Agreement in the Form of an Exchange of Letters concluded between the European Community and South Africa and approved by Council Decision 1999/753/EC ⁽¹⁾ (hereinafter called ‘the Agreement with South Africa’);
- (g) Council Regulations (EC) No 1349/2000 ⁽²⁾, as amended by Regulation (EC) No 2677/2000 ⁽³⁾, (EC) No 1727/2000 ⁽⁴⁾, (EC) No 2290/2000 ⁽⁵⁾, (EC) No 2341/2000 ⁽⁶⁾, (EC) No 2433/2000 ⁽⁷⁾, (EC) No 2434/2000 ⁽⁸⁾, (EC) No 2435/2000 ⁽⁹⁾, (EC) No 2475/2000 ⁽¹⁰⁾, (EC) No 2766/2000 ⁽¹¹⁾ and (EC) No 2851/2000 ⁽¹²⁾, establishing certain concessions in the form of Community tariff quotas for certain agricultural products and providing for the adjustment, as an autonomous and transitional measure, of certain agricultural concessions provided for in the Europe Agreements with Estonia, Hungary, Bulgaria, Latvia, the Czech Republic, the Slovak Republic, Romania, Slovenia, Lithuania and the Republic of Poland, respectively;
- (h) the Agreement establishing an Association between the European Economic Community and the Republic of Cyprus, signed on 19 December 1972, concluded on behalf of the Community by Council Regulation (EEC) No 1246/73 ⁽¹³⁾, and in particular the Protocol laying down the conditions and procedures for the implementation of the second stage of the Agreement establishing an Association between the European Economic Community and the Republic of Cyprus, signed on 19 December 1987 and concluded by Council Decision 87/607/EEC ⁽¹⁴⁾ (hereinafter called ‘the Agreement with Cyprus’).
- (5) The CXL schedule provides for certain tariff quotas under the arrangements for current and minimum access. Those quotas should be opened and rules laid down for administering them.

the countries of central and eastern Europe, the ACP States, Turkey and the Republic of South Africa, licence applications should be subject to the lodging of a security greater than that required for normal imports and certain rules should be laid down for the submission of licence applications. The quotas should be spread out over the year and the procedure for allocating licences and their period of validity should be laid down.

- (7) In order to ensure that applications for import licences are genuine, to prevent speculation and ensure maximum utilisation of the quotas opened, individual applications should be restricted to 10 % of the quota concerned, applicants should no longer be permitted to refuse licences where the allocation factor is less than 0,8, quotas should be open only to importers who have imported or exported the products covered by those quotas, criteria should be laid down to restrict eligibility to apply for licences by requiring all applicants to provide documents proving their status and regular activity as traders and each importer should be allowed to lodge only one licence application per quota. To facilitate the selection and admission of eligible applicants by the national authorities, a procedure should be introduced for approving eligible applicants and drawing up a list of approved applicants valid for one year. To ensure that the restrictions on the number of applications are effective, there should be a penalty where such restrictions are not complied with.

- (8) Products subject to inward- and outward-processing transactions are neither imported, and consequently released for free circulation, nor exported and have therefore never been taken into account for the purposes of establishing the eligibility of applicants under the arrangements governed by Regulation (EC) No 1374/98. In the interests of clarity, it should be specified that these transactions may not be taken into account when calculating the reference quantity provided for in this Regulation.

- (9) For the purposes of administering the tariff quotas opened for specified countries of origin fixed in the CXL schedule and the quotas provided for under the Agreement with Norway, in particular the check that imported products comply with the description of the goods concerned and with the tariff quota, use should be made of the arrangements under which import licences are issued in a prescribed form on presentation of

IMA 1 certificates (inward monitoring arrangements) on the responsibility of the exporting country. These arrangements, under which the exporting country gives an assurance that the exported products conform with their description, considerably simplify the import procedure. They are also used by third countries to monitor compliance with tariff quotas.

- (10) In order to protect the Community's financial interests, however, declarations under the IMA 1 certificate arrangements must be verified at Community level by the random sampling of lots and the use of internationally recognised testing and statistical methods.
- (11) Additional detailed rules are necessary for implementing the IMA 1 certificate system, in particular regarding the completion, issue, cancellation, amendment and replacement of certificates by the issuing body, the period of validity of certificates and the conditions for their use with a corresponding import licence. End-of-year provisions are also needed, linked to normal shipping times, for releasing for free circulation products covered by an IMA 1 certificate and intended for import in the following year. To ensure compliance with the quota, import declarations should be monitored and an end-of-year audit carried out.
- (12) New Zealand butter imported under the current access quota must be identified to ensure that the full export refund and certain aid amounts are not paid. To that end, certain definitions are needed, along with instructions on how to complete the IMA 1 certificate, how to check the weight and fat content and what procedure to follow in the event of a dispute concerning the composition of the butter.
- (13) As an exception to Regulation (EC) No 1291/2000, imports of New Zealand butter under the current access quota should also be subject to additional conditions, in particular to link the quantity covered by an IMA 1 certificate to that covered by a corresponding import licence and require that both documents be used only once together with a declaration of release for free circulation.
- (14) Canadian cheddar is now the only product covered by the IMA 1 certificate system for which a minimum free-at-frontier value must be complied with. For this purpose the buyer and the Member State of destination must be indicated on the IMA 1 certificate.

▼B

- (15) As a result of poor management by the bodies issuing IMA 1 certificates in Norway, which led to a quota overrun, Norway has asked to replace the two issuing bodies indicated in Annex VII to Regulation (EC) No 1374/98 with a single body answering directly to the Ministry of Agriculture. The necessary changes should therefore be made to comply with Norway's request.
- (16) Importers who intend to import certain cheeses originating in Switzerland must undertake to comply with a minimum free-at-frontier value in order to benefit from preferential treatment for those cheeses. In the past this undertaking was given in box 17 of the obligatory IMA 1 certificate, but this is no longer the case. In the interests of clarity, therefore, the notion of the free-at-frontier value and the conditions for ensuring that it is complied with should be specified in some other way.
- (17) In the case of the specific provisions relating to preferential imports not subject to quotas as referred to in Regulation (EC) No 1706/98, Annex I to Protocol 1 to Decision No 1/98 of the EC-Turkey Association Council, Annex IV to the Agreement with South Africa, and under the Agreement with Switzerland, it should be specified that the reduced rate of duty is to be applied only on presentation of the proof of origin provided for in the relevant Protocols to those Agreements.
- (18) In order better to protect the Community's own resources, and in the light of the experience gained, detailed rules are needed for import checks. In particular, the procedure to be followed in certain cases where the lot covered by a declaration of release for free circulation does not conform to that declaration should be specified in order to ensure adequate surveillance of quantities actually released for free circulation against quotas.
- (19) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Milk and Milk Products,

HAS ADOPTED THIS REGULATION:

TITLE 1

GENERAL PROVISIONS

Article 1

Except where otherwise stated, this Title shall apply to all imports into the Community of any of the products listed in Article 1 of Regulation (EC) No 1255/1999 (hereinafter called 'milk products'), including imports without quantitative restrictions or measures having

▼ B*Article 6***▼ M33**

Annex I sets out the tariff quotas, the duties to be applied, the maximum quantities to be imported each year, the import tariff quota periods and their division into subperiods.

▼ M1

The quantities set out in Annex I, Parts B, D and F, for each import year shall be divided into two equal parts for the six-month periods commencing on 1 July and 1 January of each year.

▼ B*Section 2**Article 7*

Applicants for import licences must be approved in advance by the competent authority of the Member State in which they are established.

The authority concerned shall assign an approval number to each approved importer.

▼ M17**▼ C7***Article 8*

1. By way of derogation from the first paragraph of Article 5 of Regulation (EC) No 1301/2006, approval shall be granted to applicants who, before 1 April each year, submit a request to the competent authorities of the Member State in which they are established and in which they are registered for VAT purposes, accompanied by proof that during both of the previous two calendar years they imported into or exported from the Community at least 25 tonnes of milk products covered by Chapter 04 of the Combined Nomenclature.

1. Before 20 May each year, the Member States shall send their lists of approved importers, in accordance with paragraph 3 below, to the Commission, which shall forward them to the competent authorities of the other Member States.

Only importers included on a list shall be authorised to apply for licences from 1 June following, for imports during the period from 1 July to 30 June following, in accordance with Articles 11 to 14.

▼ M1

2. The Commission may, at the request of the countries applying for membership for which an import quota is opened, forward a list of approved importers on condition that it obtains the consent to the proposed forwarding of the importers appearing on the list. The Member States shall take the necessary steps to seek the consent of the importers.

▼ M32

3. Member States shall notify the Commission of their lists of approved importers broken down by the approved importers who have given their consent in accordance with paragraph 2, and the other approved importers. That notification shall contain the approval number, name, address, telephone number and email address of the approved importers.

Section 2

▼M18*Article 34*

1. This section shall apply to imports of butter from New Zealand under the quota numbers 09.4195 and 09.4182 as referred to in Annex III.A to this Regulation.
2. The provisions of Articles 27, 30, 31(1), 32(2) and (3) and Article 33(1) points (a) to (d) shall apply.
3. The words ‘at least six weeks old’ in the description of the quota for New Zealand butter shall mean at least six weeks old on the date on which a declaration of release for free circulation is presented to the customs authorities.

▼M33

4. Annex III.A sets out the tariff quotas, the duty to be applied, the maximum quantities to be imported each year, the import tariff quota periods and their division into subperiods.

Article 34a

1. The quotas shall be divided into two parts as referred to in Annex III.A:
 - (a) quota No 09.4195 (hereafter called Part A) shall be distributed among Union importers who are approved according to the provisions of Article 7 and who can prove that they have imported under one of the quotas 09.4195 or 09.4182 in the course of the 24 months prior to the month of November preceding the quota year;
 - (b) quota No 09.4182 (hereafter called Part B) shall be reserved for applicants:
 - (i) who are approved according to the provisions of Article 7; and
 - (ii) who can prove that during the 12-month period prior the month of November preceding the quota year that they imported into and/or exported from the Union at least 100 tonnes of milk or milk products covered by Chapter 04 of the Combined Nomenclature in at least four separate operations.
2. Applications for import licences may be lodged only:
 - (a) from 20 to 30 November, for imports during the period from 1 January to 30 June following;
 - (b) from 1 to 10 June, for imports during the period from 1 July to 31 December following;
 - (c) from 1 to 10 September, for imports during the period from 1 October to 31 December following.

▼ M33

3. To be admissible, applications for import licences may cover, per applicant:

- (a) for Part A, no more than 125 % of the quantities that they have imported under the quotas 09.4195 or 09.4182, in the course of the 24-month period prior to the month of November preceding the quota year;
- (b) for Part B, not less than 20 tonnes and no more than 10 % of the available quantity for the subperiod and provided they are able to prove to the satisfaction of the competent authority of the Member State concerned that they fulfil the conditions laid down in point (b) of paragraph 1.

Subject to complying with the eligibility conditions, applicants may apply simultaneously under both parts of the quota.

The applications for import licences must be separate for Part A and for Part B.

4. Applications for import licences may be lodged only in the Member State where the approval pursuant to Article 7 has been granted, and must bear the importer's approval number.

5. The proofs referred to in paragraphs 1 and 3 shall be furnished in accordance with the second subparagraph of Article 5 of Regulation (EC) No 1301/2006.

Those proofs shall be submitted at the time the applications for import licences are lodged and shall be valid for the relevant quota year.

▼ M18*Article 35*

The security referred to in Article 15(2) of Regulation (EC) No 1291/2000 shall be EUR 35 per 100 kilograms net of product.

*Article 35a***▼ M26**

1. At the latest on the fifth working day following the end of the period for lodging applications, Member States shall notify the Commission of the applications lodged for each of the products concerned.

▼ M18

2. Notifications shall include the quantities applied for under each quota number, broken down by CN code.

▼ M26

At the latest on the fifth working day following the end of the period for lodging applications, the Member States shall also communicate to the Commission the names and the addresses of the applicants, broken down by quota number. This notification shall be made by electronic means using the form made available to the Member States by the Commission.

▼M18

3. The Commission shall decide within five working days after the notification period referred to in paragraph 1 to what extent applications may be accepted. Where the applied quantities do not exceed the available quota quantities, no decision is taken by the Commission and licences are issued for the quantities applied for.

Where applications for licences for a subquota exceed the available quantity for the quota period in question, the Commission shall apply a uniform allocation coefficient to the quantities for which application is made. The part of the security corresponding to the quantities not allocated shall be released.

Where, for one of the subquotas, the result of applying the allocation coefficient would be to allocate licences for less than 20 tonnes per application, the corresponding quantities available shall be awarded by the Member State concerned by drawing lots for licences of 20 tonnes each amongst the applicants who would have been allocated less than 20 tonnes as a result of applying the allocation coefficient.

Where the result of establishing lots of 20 tonnes leads to a residual quantity of less than 20 tonnes, that quantity shall be considered a single lot.

The security for applications which are not successful in the allocation by drawing lots shall be released immediately.

4. The issue of licences shall be made no more than five working days after the decision referred to in paragraph 3.

5. Import licences issued under this Regulation shall be valid until the last day of the half yearly period referred to in Annex III.A.

6. Import licences issued under this section may be transferred only to natural or legal persons approved in accordance with Article 7. Together with the request for transfer, the transferor shall notify the issuing body of the approval number of the transferee.

Article 35b

Licence applications and licences shall contain the references provided for in Article 28, except the references to the IMA 1 certificate.

Box 16 of licence applications may show one or more of the CN codes listed in Annex III.A.

Box 20 of the licences shall show the subquota period for which the licences are issued.

If a licence application indicates more than one CN code, it must specify the quantity requested for each code and a separate licence shall be issued for each code.

Article 36

Where the New Zealand butter does not meet the compositional requirements, the quota benefit shall not be granted for the whole quantity subject to the relevant customs declaration.

▼ M18

Once non-conformity has been established, where the declaration of release for free circulation has been accepted the customs authorities shall collect the import duty set in Annex I to Council Regulation (EEC) No 2658/87. For that purpose an import licence at full duty shall be issued for the non-conform quantity.

The quantity shall not be attributed to the licence.

Article 37

1. The duty rate provided for in Annex III.A shall be applied to New Zealand butter imported under the present section only on presentation of the declaration of release for free circulation accompanied by an import licence, issued in accordance with the provisions of Article 35a, and an IMA 1 certificate as referred to in Annex X issued by an issuing body listed in Annex XII, proving the eligibility requirements and the origin of the product covered by that declaration. Customs authorities shall indicate the serial number of the IMA 1 certificate on the import licence.

2. The quantity shown on the IMA 1 certificate shall be equal to the quantity shown on the customs import declaration.

3. IMA 1 certificates shall be valid from the date of issue up to the last day of the yearly import quota period.

4. The import licence can be used for one or more import declarations.

The restrictions provided for in Article 16(4) shall not apply to transfers of import licences as referred to in Chapter I of Title 2 issued during the period from 1 January to 30 June 2002.

For the periods from 1 January to 30 June 2002 and from 1 July to 31 December 2002, the reference year referred to in Article 8(1)(a) shall be 2001, or 2000 if the importer concerned can prove that it was not able to import or export the required quantities of milk products during 2001 as a result of exceptional circumstances.

Article 48

Regulations (EEC) No 2967/79, (EC) No 2508/97, (EC) No 1374/98 and (EC) No 2414/98 are hereby repealed.

They shall continue to apply to licences applied for before 1 January 2002.

References to the repealed Regulations shall be construed as references to this Regulation.

Article 49

This Regulation shall enter into force on the seventh day following its publication in the *Official Journal of the European Communities*.

It shall apply to import licences applied for from 1 January 2002.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

▼ B*ANNEX IV***►⁽⁶⁾ CHECKING THE WEIGHT AND THE FAT CONTENT OF BUTTER ORIGINATING IN NEW ZEALAND IMPORTED UNDER SECTION 2 OF CHAPTER III OF REGULATION (EC) No 2535/2001 ◀**

1. DEFINITIONS

For the purpose of this Annex the definitions set out below apply:

- ⁽⁶⁾ (a) 'producer': a single production plant or factory in which butter is produced for export to the Community under the tariff quotas referred to in Annex III.A; ◀
- (b) 'cypher': the quantity of butter produced according to one product-purchasing specification in one production plant during a single manufacturing run;
- ⁽⁶⁾ (c) 'lot': a quantity of butter covered by an IMA 1 certificate presented to the competent customs authority for entry for free circulation under the tariff quotas referred to in Annex III.A; ◀
- (d) 'competent authorities': the authorities in the Member States responsible for controls on imported products;
- ⁽⁷⁾ ——— ◀
- (f) 'product identification list': a list which identifies, for each lot, the quota number of its corresponding IMA 1 certificate, the production plant or factory and the cypher or cyphers, and which also provides a description of the butter. It may also identify the specification to which the butter was manufactured, the production season, the number of cartons corresponding to each cypher, the total number of cartons, the nominal weight of the cartons, the exporter's serial number, the means of transport from New Zealand to the European Community and the voyage number.

2. COMPLETION AND VERIFICATION OF THE IMA 1 CERTIFICATE

- 2.1. An IMA 1 certificate shall cover butter manufactured according to one product-purchasing specification in one plant. It may cover more than one cypher of the same product-purchasing specification from the same plant.
- 2.2. The IMA 1 certificate shall be considered to be duly completed within the meaning of Article 32(2) only if it contains all the following information:
 - (a) in box 1, the name and address of the seller;
 - ⁽⁶⁾ (b) in box 2, the serial number of issue ◀ identifying the country of origin, the import arrangements, the product, the quota year and the individual certificate number, starting again from one each year;
 - (c) in box 4, the number and date of the invoice;
 - (d) in box 5, 'New Zealand';
 - (e) in box 7:
 - reference to the product identification list (product ID list), which must be attached,
 - the CN code preceded by 'ex' and the detailed description as given in Annex III(A),
 - ⁽⁶⁾ ——— ◀
 - the factory registration number,
 - the date of manufacture of the butter, and
 - the arithmetic mean of the tare weight of the wrapper;
 - (f) in box 8, the gross weight in kilograms;
 - (g) in box 9:
 - the net nominal weight ►⁽⁶⁾ per box, ◀

- (j) in box 16: 'New Zealand butter quota for . . . [year] in accordance with Regulation (EC) No . . . / . . .';
- (k) in box 17:
 - the date on which the most recently manufactured butter covered by the IMA 1 was or will be six weeks old,
 - the total quota for the year in question,
 - the date of issue and, where appropriate, the last day of validity,
 - signature and stamp of the issuing body;
- (l) in box 18, exact address and contact details of the issuing body.

▶⁽⁷⁾ — ◀**3. CHECKING THE WEIGHT****3.1. Community controls**

Controls by the competent authorities shall be carried out on one lot.

The competent authorities shall take a random sample from the lot. The sample size shall be determined according to the following formula:

$$n = \sqrt[3]{N}$$

where n is ▶⁽⁶⁾the sample size; ◀ and

N is the number of ▶⁽⁶⁾boxes ◀ in the lot.

▶⁽⁶⁾ However, ◀ the minimum sample size, n , shall be 10.

The competent authorities shall calculate the arithmetic mean and standard deviation of the net weights obtained from the sample.

The competent authorities shall make appropriate checks to verify the information on tare weight given on the IMA 1 certificate, which may include a comparison with the weight of plastic wrappers used in the Community or examination of a certificate from the manufacturer of the ▶⁽⁶⁾plastic wrappers ◀ used on the lot.

3.2. Interpretation of control results — standard deviation

The standard deviation of the net weight of the ▶⁽⁶⁾boxes ◀ specified in the IMA 1 certificate shall be checked according to the following procedure.

The ratio s/σ shall be compared with the minimum ratio specified for a given sample size in the following table, where s is the sample standard deviation and σ is the standard deviation of the net weight of the ▶⁽⁶⁾boxes ◀ specified in the IMA 1 certificate.

Where the ratio s/σ is lower than the appropriate minimum ratio in the reference data table then s shall be used when the control results are interpreted under point 3.3 rather than σ .

(*) The minimum ratios have been calculated using tabulated Chi2-values (5 % quantile; n-1 degrees of freedom).

(**) The minimum sample size, n, shall be 10.

3.3. Interpretation of control resolution — arithmetic mean

The competent authorities shall compare the results of sampling with the information on the IMA 1 certificate using the following formula:

$$w \leq W + \frac{2,326\sigma}{\sqrt{n}}$$

where w is the arithmetic mean of the net weight of the sample ►⁽⁶⁾ boxes ◀

W is the mean net weight per ►⁽⁶⁾ box ◀ specified on the IMA 1 certificate,

σ is the standard deviation of the net weight per carton specified on the IMA 1 certificate. However, the sample standard deviation of the net weight per ►⁽⁶⁾ box(es) ◀ shall be used instead of σ where required under point 3.2, and

n is the sample size.

Where w satisfies the above formula, the mean net weight specified on the IMA 1 certificate (W) shall be used to determine the net weight of the lot imported into the Community.

Where w does not satisfy the above formula, w shall be used to determine the net weight of the lot imported into the Community. The declared weight shall be attributed in part 2 of column 29 of the import licence and the excess over the declared weight shall be imported in accordance with article 26 of Council Regulation (EC) No 1255/1999.

4. CHECKING THE FAT CONTENT

4.1. Community controls

The competent authorities shall check the percentage fat content on half of the ►⁽⁶⁾ boxes ◀ which are sampled under point 3. However, the minimum sample size, n , shall be 5.

The sampling method to be used shall be International Dairy Federation (IDF) Standard 50C/1995.

The method for determining the fat content to be used shall be that laid down in Annexes IX, X and XI to Commission Regulation (EC) No 213/2001 (OJ L 37, 7.2.2001).

►⁽⁶⁾ The competent authorities shall draw duplicate samples, one of which shall be held in secure custody in case of dispute.

The laboratory undertaking the tests shall be authorised by a Member State to carry out official analyses and be recognised by that Member State as having competence in applying the method referred to above, as demonstrated by meeting the repeatability criterion when analysing blind duplicates and by successful participation in proficiency tests. ◀

The competent authorities shall notify the Commission without delay of each case of non-compliance.

- (b) In case the compliance requirement under a) is not met, the lot covered by the relevant import declaration and IMA 1 certificate shall be imported in accordance with Article 36, except where the results of the analysis of the duplicate samples as referred to under point 4,5 do comply with the requirements. ◀

►⁽³⁾ 4.5. Disputed results

The importer concerned may challenge the results of the analysis obtained by a competent authorities' laboratory within seven working days of receiving these results, undertaking to pay for the costs of testing the duplicate samples. In this case the competent authorities shall send sealed duplicates of the samples analysed by its laboratory to a second laboratory. This second laboratory shall be authorised by a Member State to carry out official analyses and be recognised by that Member State as having competence in applying the method referred to in point 4,1, as demonstrated by meeting the repeatability criterion when analysing blind duplicates and by successful participation in proficiency tests.

This second laboratory shall communicate the results of its analysis to the competent authorities promptly.

The findings of the second laboratory are final. ◀

2. Tariff quota under Annex VII to Regulation (EC) No 747/2001 as regards certain agricultural products originating in Israel:

Quota No	CN code	Description (1)	Applicable rate of duty	Yearly quantity in tonnes Base = calendar year
09.1302	0404 10	Whey and modified whey	Exemption	1 300

(1) Notwithstanding the rules for the interpretation of the Combined Nomenclature, the wording for the description of the products is to be considered as having no more than an indicative value, the preferential arrangements being determined, within the context of this Annex, by the coverage of the CN codes. Where ex CN codes are referred to, the applicability of the preferential arrangements is determined to the basis of the CN code and the corresponding description taken jointly.

	ex 0406 90 87				
	ex 0406 90 88				

⁽¹⁾ Notwithstanding the rules on the interpretation of the Combined Nomenclature, the wording of the description of products must be regarded as merely indicative, since the applicability of the preferential arrangements is determined, within the context of this Annex, by the scope of the CN codes. Where ex CN codes are indicated, the applicability of the preferential scheme shall be determined on the basis of the CN code and the corresponding description, taken together.

▼B*ANNEX VIII***CIRCUMSTANCES UNDER WHICH AN IMA 1 CERTIFICATE OR PART THEREOF MAY BE CANCELLED, AMENDED, REPLACED OR CORRECTED**

1. Cancellation of the IMA 1 certificate when full duty is due and paid for non-compliance with compositional requirements.

Where full duty is paid on a lot because the maximum fat content requirement is not complied with, the corresponding IMA 1 certificate may be cancelled and the IMA 1 issuing body may add the quantities concerned to those for which IMA 1 certificates may be issued for the same quota year. The customs authorities shall retain the corresponding import licence and send it to the import-license issuing authority, which shall amend it to convert it into a full-duty import licence for the quantity concerned in accordance with Article 36.

2. Produce destroyed or rendered unfit for sale.

▼M23

IMA 1 issuing bodies may cancel an IMA 1 certificate or part thereof for a quantity covered by it which is destroyed or rendered unfit for sale in circumstances beyond the control of the exporter. Where part of the quantity covered by an IMA 1 certificate is destroyed or rendered unfit for sale, a replacement certificate may be issued for the remaining quantity. In the case of New Zealand butter referred to in Annex III(A), the original product identification list shall be used for this purpose. The replacement certificate shall be valid only up to the same date as the original. In this case, box 17 of the replacement IMA 1 certificate shall contain the words 'valid up to 00.00.0000'.

▼B

Where all or part of the quantity covered by an IMA 1 certificate is destroyed or rendered unfit for sale due to circumstances beyond the exporters' control, the IMA 1 issuing body may add these quantities to those for which IMA 1 certificates may be issued for the same quota year.

3. Change of Member State of destination

When the exporter is obliged to change the Member State of destination indicated on an IMA 1 certificate before a corresponding import licence is issued, the original IMA 1 certificate may be amended by the IMA 1 issuing body. Such an amended original IMA 1 certificate, duly authenticated and appropriately identified by the issuing body, may be presented to the licensing authority and to the customs authorities.

4. When a clerical or technical error is discovered on an IMA 1 certificate before a corresponding import licence is issued, the original certificate may be corrected by the issuing body. Such a corrected original IMA 1 certificate may be presented to the licensing authority and to the customs authorities.
5. When, in exceptional circumstances beyond the control of the exporter, a product intended for import in a given year becomes unavailable and the only means of filling the quota, in the light of normal shipping time from the country of origin, is to replace it with a product originally intended for import the following year, the issuing body may issue a new IMA 1 certificate for the replacement quantity, on the sixth working day after giving due notification to the Commission of the details of the IMA 1 certificate or part thereof to be cancelled for the year concerned and of the first IMA 1 certificate or part thereof issued for the following year to be cancelled.

▼B

If the Commission considers that this provision does not apply to the circumstances of the case concerned, it may object within five working days, stating the reason for its objection. Where the quantity to be replaced is greater than that covered by the first IMA 1 certificate issued for the following year, the required quantity may be obtained by cancelling additional IMA 1 certificates, in sequence, or part thereof as necessary.

All quantities in respect of which IMA 1 certificates or part thereof have been cancelled for the year concerned shall be added to the quantities for which IMA 1 certificates may be issued for that quota year.

All quantities brought forward from the following quota year for which an IMA 1 certificate or certificates have been cancelled shall be added back to the quantities for which IMA 1 certificates may be issued for that quota year.
