ICCAT SWORDFISH STATISTICAL DOCUMENT INSTRUCTION SHEET

Pursuant to the 2001 ICCAT Recommendation, swordfish imported into the territory of a Contracting Party or upon first entry into a regional economic organisation must be accompanied by an ICCAT Swordfish Statistical Document (SWD) beginning 1 January 2003. Swordfish dealers who export or import from all ocean areas will be required to complete the appropriate sections of the SWD. Only complete and valid documents will guarantee that shipments of swordfish will be allowed to enter the customs territory of Contracting Parties (e.g. Japan, Canada, United States, Spain, etc.). Improperly documented swordfish shipments (i.e. the SWD is either missing from the shipment, incomplete, invalid or falsified) will be considered illegitimate and contrary to ICCAT conservation efforts. Entry of improperly documented swordfish will be suspended (PENDING RECEIPT OF A PROPERLY COMPLETED DOCUMENT) into the customs territory of a Contracting Party or subject to administrative or other sanctions.

Please use the instructions below as a guide to complete the sections that apply to exporters, importers, and Government validation. If a language other than English is used for description, please add an English translation either on the SWD or on a separate paper. **Note:** If a swordfish product is exported directly from the harvesting country/entity/fishing entity to a Contracting Party without going through an intermediate country/entity/fishing entity all fish can be identified on one document. However, if the swordfish is exported through an intermediate country/entity/fishing entity (i.e. a country/entity/fishing entity other than the country/entity/fishing entity which is the final destination of the product), separate documents must be prepared for fish destined for different final destinations, or only one fish may be identified on a document to cope with any possible separation in an intermediate country/entity/fishing entity. Import of swordfish parts other than meat (i.e. head, eyes, roe, guts, tails) may be allowed entry without an accompanying SWD.

DOCUMENT No: This block is for the country/entity/fishing entity to designate a country coded document number.

- (1) **FLAG COUNTRY/ENTITY/FISHING ENTITY:** Fill in the name of the country/entity/fishing entity of the vessel that harvested the swordfish in the shipment and issued this document. According to the ICCAT Recommendation, only the flag State of the vessel that harvested the swordfish in the shipment or, if the vessel is operating under a chartering arrangement, the exporting State, can issue this document.
- (2) **POINT OF EXPORT:** Enter the city and state or province, and country/entity/fishing entity from which the swordfish was exported.
- (3) **AREA OF CATCH:** Check the area of catch. (In case of (d) or (e) checked, items 4 and 5 need not be completed).
- (4) **DESCRIPTION OF FISH:** The exporter must provide, to the highest degree of accuracy, the following information. (**Note:** one row should describe one product type.) (1) Product type: identify the type of product being shipped as either FRESH or FROZEN, and in ROUND, GILLED AND GUTTED, DRESSED, FILLET, STEAK or OTHER form. For OTHER, describe the type of products in the shipment. (2) Name of vessel and registration No: fill in the name and registration number (if available) of the vessel that harvested the swordfish. If product in shipment is from more than one vessel, list all vessels whose products are included in the shipment. (3) Gear code: identify the gear type which was used to harvest the swordfish using the listed codes. (4) Net product weight in kg.
- (5) **EXPORTER CERTIFICATION:** The person or company exporting the swordfish shipment must provide his/her name, signature, address, date the shipment was exported, and dealer licence number (if applicable). For countries that have adopted the ICCAT alternative minimum size for swordfish, the exporter must certify that the listed Atlantic swordfish are greater than 15 kg (33 lb) or, if it is in pieces, that the pieces were derived from a swordfish weighing >15 kg.
- (6) **GOVERNMENT VALIDATION:** Enter the name and position of the official signing the document. The official must be in the employment of the competent Government authority of the flag State of the vessel that harvested the swordfish described in the document. The document may be signed by any other person or institution duly accredited for this purpose by the Government of the flag State or, if the vessel is operating under a charter agreement, by the government official or any other person or institution authorised by the exporting State. (The net weight of the shipment must also be entered in kg in this session.).
- (7) **IMPORTER CERTIFICATION:** The person or company that imports swordfish must provide his/her name, signature, address, date the swordfish was imported, licence number (if applicable), and the final point of import. This includes imports into intermediate countries/entities/fishing entities. For fresh and chilled products, signature of the importer may be substituted by that of a person of a customs clearance company when the authority of signature is properly accredited to the company by the
