introducing a system for the statistical monitoring of trade in
bluefin tuna swordfish and bigeye tuna within the Community

COUNCIL REGULATION (EC) No 1984/2003
of 8 April 2003

introducing a system for the statistical monitoring of trade in
[^{F1}bluefin tuna] swordfish and bigeye tuna within the Community

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 37 thereof,

Having regard to the proposal from the Commission⁽¹⁾,

Having regard to the opinion of the European Parliament⁽²⁾,

Whereas:

- (1) Since 14 November 1997, and following the adoption of Council Decision 86/238/EEC⁽³⁾, the Community has been a Contracting Party to the International Convention for the Conservation of Atlantic Tunas signed in Rio de Janeiro on 14 May 1966, as amended by the Protocol annexed to the Final Act of the Conference of Plenipotentiaries of the States Parties to the Convention signed at Paris on 10 July 1984 (hereinafter called the 'ICCAT Convention').
- (2) The ICCAT Convention provides a framework for regional cooperation in the conservation and management of tuna stocks and tuna-like species in the Atlantic Ocean and adjacent seas through the establishment of an International Commission for the Conservation of Atlantic Tunas, hereinafter called the 'ICCAT', and the adoption by the latter of conservation measures which become binding on the contracting parties.
- (3) As part of the measures to regulate stocks of bigeye tuna and swordfish, improve the quality and reliability of statistical data and control the spread of illegal fishing, the ICCAT has adopted recommendations on the introduction of statistical document programmes for bigeye tuna and Atlantic swordfish. Since these recommendations have become binding on the Community, they need to be put into effect.
- (4) Council Decision 95/399/EC⁽⁴⁾ approved the accession of the Community to the Agreement for the establishment of the Indian Ocean Tuna Commission. This Agreement constitutes a framework for strengthening international cooperation for the purpose of conserving and making rational use of Indian Ocean tuna and related species through the establishment of the Indian Ocean Tuna Commission, hereinafter called the 'IOTC' and the adoption by the latter of resolutions on conservation and management in the area of competence of the IOTC which become binding on the contracting parties.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EC) No 1984/2003. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

- (5) The IOTC has adopted a resolution establishing a statistical document programme for bigeye tuna. As this resolution has become binding on the Community, it needs to be put into effect.
- (6) The recommendations and resolution on a statistical document programme for bluefin tuna adopted previously by the ICCAT have been incorporated in Community law by Council Regulation (EC) No 858/94 of 12 April 1994 introducing a system for the statistical monitoring of trade in bluefin tuna (*Thunnus thynnus*) within the Community⁽⁵⁾. In order to ensure that the provisions on statistical documents are more easily readable and applied uniformly, Regulation (EC) No 858/94 should be repealed and all the relevant provisions brought together in this Regulation.
- (7) The measures necessary for the implementation of this Regulation should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission⁽⁶⁾,

HAS ADOPTED THIS REGULATION:

ICCAT SWORDFISH STATISTICAL DOCUMENT INSTRUCTION SHEET

Pursuant to the 2001 ICCAT Recommendation, swordfish imported into the territory of a Contracting Party or upon first entry into a regional economic organisation must be accompanied by an ICCAT Swordfish Statistical Document (SWD) beginning 1 January 2003. Swordfish dealers who export or import from all ocean areas will be required to complete the appropriate sections of the SWD. Only complete and valid documents will guarantee that shipments of swordfish will be allowed to enter the customs territory of Contracting Parties (e.g. Japan, Canada, United States, Spain, etc.). Improperly documented swordfish shipments (i.e. the SWD is either missing from the shipment, incomplete, invalid or falsified) will be considered illegitimate and contrary to ICCAT conservation efforts. Entry of improperly documented swordfish will be suspended (PENDING RECEIPT OF A PROPERLY COMPLETED DOCUMENT) into the customs territory of a Contracting Party or subject to administrative or other sanctions.

Please use the instructions below as a guide to complete the sections that apply to exporters, importers, and Government validation. If a language other than English is used for description, please add an English translation either on the SWD or on a separate paper. **Note:** If a swordfish product is exported directly from the harvesting country/entity/fishing entity to a Contracting Party without going through an intermediate country/entity/fishing entity all fish can be identified on one document. However, if the swordfish is exported through an intermediate country/entity/fishing entity (i.e. a country/entity/fishing entity other than the country/entity/fishing entity which is the final destination of the product), separate documents must be prepared for fish destined for different final destinations, or only one fish may be identified on a document to cope with any possible separation in an intermediate country/entity/fishing entity. Import of swordfish parts other than meat (i.e. head, eyes, roe, guts, tails) may be allowed entry without an accompanying SWD.

DOCUMENT No: This block is for the country/entity/fishing entity to designate a country coded document number.

- (1) **FLAG COUNTRY/ENTITY/FISHING ENTITY:** Fill in the name of the country/entity/fishing entity of the vessel that harvested the swordfish in the shipment and issued this document. According to the ICCAT Recommendation, only the flag State of the vessel that harvested the swordfish in the shipment or, if the vessel is operating under a chartering arrangement, the exporting State, can issue this document.
- (2) **POINT OF EXPORT:** Enter the city and state or province, and country/entity/fishing entity from which the swordfish was exported.
- (3) **AREA OF CATCH:** Check the area of catch. (In case of (d) or (e) checked, items 4 and 5 need not be completed).

For OTHER, describe the type of products in the shipment. (2) Name of vessel and registration No: fill in the name and registration number (if available) of the vessel that harvested the swordfish. - (6) **GOVERNMENT VALIDATION:** Enter the name and position of the official signing the document. The official must be in the employment of the competent Government authority of the flag State of the vessel that harvested the swordfish described in the document. The document may be signed by any other person or institution duly accredited for this purpose by the Government of the flag State or, if the vessel is operating under a charter agreement, by the government official or any other person or institution authorised by the exporting State. (The net weight of the shipment must also be entered in kg in this session.).
