implementing Council Regulation (EC) No 659/1999 laying down
detailed rules for the application of Article 93 of the EC Treaty

COMMISSION REGULATION (EC) No 794/2004
of 21 april 2004

implementing Council Regulation (EC) No 659/1999 laying down
detailed rules for the application of Article 93 of the EC Treaty

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 659/1999 of 22 March 1999 laying down detailed rules for the application of Article 93 of the EC Treaty⁽¹⁾, and in particular Article 27 thereof,

After consulting the Advisory Committee on State Aid,

Whereas:

- (1) In order to facilitate the preparation of State aid notifications by Member States, and their assessment by the Commission, it is desirable to establish a compulsory notification form. That form should be as comprehensive as possible.
- (2) The standard notification form as well as the summary information sheet and the supplementary information sheets should cover all existing guidelines and frameworks in the state aid field. They should be subject to modification or replacement in accordance with the further development of those texts.
- (3) Provision should be made for a simplified system of notification for certain alterations to existing aid. Such simplified arrangements should only be accepted if the Commission has been regularly informed on the implementation of the existing aid concerned.
- (4) In the interests of legal certainty it is appropriate to make it clear that small increases of up to 20 % of the original budget of an aid scheme, in particular to take account of the effects of inflation, should not need to be notified to the Commission as they are unlikely to affect the Commission's original assessment of the compatibility of the scheme, provided that the other conditions of the aid scheme remain unchanged.
- (5) Article 21 of Regulation (EC) No 659/1999 requires Member States to submit annual reports to the Commission on all existing aid schemes or individual aid granted outside an approved aid scheme in respect of which no specific reporting obligations have been imposed in a conditional decision.
- (6) For the Commission to be able to discharge its responsibilities for the monitoring of aid, it needs to receive accurate information from Member States about the types and amounts of aid being granted by them under existing aid schemes. It is possible to simplify and improve the arrangements for the reporting of State aid to the Commission which are currently described in the joint procedure for reporting and notification under

Status: Point in time view as at 02/05/2014.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 794/2004. (See end of Document for details)

the EC Treaty and under the World Trade Organisation (WTO) Agreement set out in the Commission's letter to Member States of 2 August 1995. The part of that joint procedure relating to Member States reporting obligations for subsidy notifications under Article 25 of the WTO Agreement on Subsidies and Countervailing measures and under Article XVI of GATT 1994, adopted on 21 July 1995 is not covered by this Regulation.

- (7) The information required in the annual reports is intended to enable the Commission to monitor overall aid levels and to form a general view of the effects of different types of aid on competition. To this end, the Commission may also request Member States to provide, on an ad hoc basis, additional data for selected topics. The choice of subject matter should be discussed in advance with Member States.
- (8) The annual reporting exercise does not cover the information, which may be necessary in order to verify that particular aid measures respect Community law. The Commission should therefore retain the right to seek undertakings from Member States, or to attach to decisions conditions requiring the provision of additional information.
- (9) It should be specified that time-limits for the purposes of Regulation (EC) No 659/1999 should be calculated in accordance with Regulation (EEC, Euratom) No 1182/71 of the Council of 3 June 1971 determining the rules applicable to periods, dates and time limits⁽²⁾, as supplemented by the specific rules set out in this Regulation. In particular, it is necessary to identify the events, which determine the starting point for time-limits applicable in State aid procedures. The rules set out in this Regulation should apply to pre-existing time-limits which will continue to run after the entry into force of this Regulation.
- (10) The purpose of recovery is to re-establish the situation existing before aid was unlawfully granted. To ensure equal treatment, the advantage should be measured objectively from the moment when the aid is available to the beneficiary undertaking, independently of the outcome of any commercial decisions subsequently made by that undertaking.
- (11) In accordance with general financial practice it is appropriate to fix the recovery interest rate as an annual percentage rate.
- (12) The volume and frequency of transactions between banks results in an interest rate that is consistently measurable and statistically significant, and should therefore form the basis of the recovery interest rate. The inter-bank swap rate should, however, be adjusted in order to reflect general levels of increased commercial risk outside the banking sector. On the basis of the information on inter-bank swap rates the Commission should establish a single recovery interest rate for each Member State. In the interest of legal certainty and equal treatment, it is appropriate to fix the precise method by which the interest rate should be calculated, and to provide for the publication of the recovery interest rate applicable at any given moment, as well as relevant previously applicable rates.
- (13) A State aid grant may be deemed to reduce a beneficiary undertaking's medium-term financing requirements. For these purposes, and in line with general financial practice,

Status: Point in time view as at 02/05/2014.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 794/2004. (See end of Document for details)

the medium-term may be defined as five years. The recovery interest rate should therefore correspond to an annual percentage rate fixed for five years.

- (14) Given the objective of restoring the situation existing before the aid was unlawfully granted, and in accordance with general financial practice, the recovery interest rate to be fixed by the Commission should be annually compounded. For the same reasons, the recovery interest rate applicable in the first year of the recovery period should be applied for the first five years of the recovery period, and the recovery interest rate applicable in the sixth year of the recovery period for the following five years.
- (15) This Regulation should apply to recovery decisions notified after the date of entry into force of this Regulation,

HAS ADOPTED THIS REGULATION:

Simplified notification procedure for certain alterations to existing aid

1 For the purposes of Article 1(c) of Regulation (EC) No 659/1999, an alteration to existing aid shall mean any change, other than modifications of a purely formal or administrative nature which cannot affect the evaluation of the compatibility of the aid measure with the common market. INTEREST RATE FOR THE RECOVERY OF UNLAWFUL AID

[^{F1}Article 9 **U.K.**

Method for fixing the interest rate

1 Unless otherwise provided for in a specific decision, the interest rate to be used for recovering State aid granted in breach of Article 88(3) of the Treaty shall be an annual percentage rate which is fixed by the Commission in advance of each calendar year.

2 The interest rate shall be calculated by adding 100 basis points to the one-year money market rate. Where those rates are not available, the three-month money market rate will be used, or in the absence thereof, the yield on State bonds will be used.

3 In the absence of reliable money market or yield on stock bonds or equivalent data or in exceptional circumstances the Commission may, in close co-operation with the Member State(s) concerned, fix a recovery rate on the basis of a different method and on the basis of the information available to it.

4 The recovery rate will be revised once a year. The base rate will be calculated on the basis of the one-year money market recorded in September, October and November of the year in question. The rate thus calculated will apply throughout the following year.

5 In addition, to take account of significant and sudden variations, an update will be made each time the average rate, calculated over the three previous months, deviates more than 15 % from the rate in force. This new rate will enter into force on the first day of the second month following the months used for the calculation.]

COMPATIBILITY OF AID UNDER ARTICLE 87(3)(c) OF THE EC TREATY — DETAILED ASSESSMENT

Aid for training may be considered to be compatible with the common market pursuant to Article 87(3)(c) of the EC Treaty.

Member States are invited to provide all the elements that they consider useful for the assessment of the case.

If there are several beneficiaries involved in the project notified as individual aid, please provide the information below for each of them.

This supplementary information sheet must be used for the notification of individual aid pursuant to Article 6(1)(h) to (i) of Regulation (EC) No 800/2008 and covered by the Criteria for the compatibility analysis of State aid to disadvantaged and disabled workers subject to individual notification (hereinafter ‘Criteria for the compatibility analysis’)⁽¹⁴⁾. It must also be used in the case of any individual aid or scheme, which is notified to the Commission for reasons of legal certainty.

If there are several beneficiaries participating in the notified project, please provide the information below for each of them.

COMPATIBILITY OF AID UNDER ARTICLE 87(3)(c) OF THE EC TREATY — DETAILED ASSESSMENT

Aid to disadvantaged and disabled workers may be considered to be compatible with the common market pursuant to Article 87(3)(c) of the EC Treaty.

The purpose of this detailed assessment is to ensure that high amounts of aid to disadvantaged and disabled workers do not distort competition to an extent contrary to the common interest, but actually contribute to the common interest. This happens when the benefits of State aid in terms of the increased net employment of targeted disabled and disadvantaged workers outweigh the harm for competition and trade.

The provisions below provide guidance as to the type of information the Commission may require in order to carry out a detailed assessment. The guidance is intended to make the Commission’s decisions and their reasoning transparent and foreseeable in order to create predictability and legal certainty. Member States are invited to provide all the elements that they consider useful for the assessment of the case.

If there are several beneficiaries involved in the project notified as individual aid, please provide the information below for each of them.

PART III.4

SUPPLEMENTARY INFORMATION SHEET ON REGIONAL AID

This supplementary information sheet must be used for the notification of any aid scheme or ad hoc aid covered by the guidelines on national regional aid for 2007-2013 (RAG) ⁽¹⁾. The present annex cannot be used for the particular purpose of notification of new regional aid maps for the period 2007-2013. Transparent investment aid schemes falling under the scope of the exemption regulation on regional investment aid are exempted from the notification obligation. Therefore, Member States are invited to clarify the scope of their notification; in the particular case that a scheme covers both transparent and non-transparent forms of investment aid, they are invited to limit the scope of the notification only to the second category.

In the case of *ad hoc aid* (i.e. aid granted outside existing aid schemes), Member States will have to demonstrate that the project contributes towards a coherent regional development strategy and that, having regard to the nature and size of the project, it will not result in unacceptable distortions of competition. Moreover, Member States will have to demonstrate that the aid will not be unduly concentrated on a particular sector of activity and that it creates no adverse sectoral effects.

Another supplementary information sheet (Part III.5) must be submitted in case of notification of regional investment aid to large investment projects in the accordance with section 4.3 of the RAG.

1. Scheme or ad hoc aid

The scheme or the ad hoc aid relates to

1.1. initial investment

The aid is calculated as a percentage of the investment's eligible material and immaterial costs

The aid is calculated as a percentage of the expected wage costs of the persons to be hired

operating aid

aid for newly-created small enterprises

combination of any above

1.2. The aid is granted:

automatically, should the conditions of the scheme be fulfilled

on a discretionary basis, following a decision of the authorities

Should the aid be granted on a discretionary basis, please provide a short description of the criteria followed and attach a copy of the administrative provisions applicable for the awarding of aid:

- the acquisition by an independent investor of capital assets directly linked to an establishment which has closed or which would have closed had it not been purchased?

2.2. Where the aid is calculated on the basis of material or immaterial investment costs, or of acquisition costs in the case of a takeover, does the aid include a clause stipulating that the beneficiary makes a financial contribution of at least 25 % of the total eligible costs and that this contribution will be free of any public support, including *de minimis* aid?

yes no

2.3. Where the aid is granted automatically on the basis of objective criteria under a legal basis giving rights to the beneficiaries to receive the aid, does the scheme exclude the award of aid to projects which have started before the entry into force of the legal basis?

yes no

Where the aid is not granted automatically, does the scheme provide that the application for aid must be submitted before work is started on the project and the competent authorities must have confirmed in writing that, subject to the final outcome of a detailed verification, the project meets the conditions of eligibility laid down by the scheme (see p. 38 of the RAG)?

yes no

In the case of ad hoc aid, did the competent authority issue a letter of intent to award aid before work started on the project, which was conditional on the Commission approval of the measure?

Additional overheads incurred directly as a result of the research project			
Other operating expenses			

⁽²⁹⁾ There also may be no State aid where the assessment of the contractual agreement between the partners leads to the conclusion that any intellectual property rights to the R&D&I results as well as access rights to the results are allocated to the different partners of the collaboration and adequately reflect their respective interests, work packages, and financial and other contributions to the project.

⁽³⁰⁾ Cf. R&D&I Framework, Section 5.1.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 794/2004. (See end of Document for details)

In case the allocation methodology favours certain undertakings or certain sectors, please explain how this is justified by the environmental logic of the scheme itself or is necessary for consistency with other environmental policies:

Furthermore, please explain how:

- # new entrants shall not in principle receive permits or allowances on more favourable conditions than existing undertakings operating on the same markets:

If the aid is granted to

- non-SMEs,
- SMEs but must be assessed in accordance with the detailed assessment,

the Commission will require that the incentive effect is demonstrated by means of an evaluation. Go to the next questions. Otherwise, the Commission considers that the incentive effect is automatically met for the measure at hand.

4.2.1. General conditions **U.K.**

If it is necessary to demonstrate an incentive effect for several beneficiaries participating in the notified project, please provide the information below for each of them.

In order to demonstrate the incentive effect, the Commission requires an evaluation by the Member State in order to prove that without the aid, i.e. in the counterfactual situation, the more environmentally friendly alternative would not have been retained. Please fill in the information below

4.2.2. Criteria **U.K.**

- (A) Please demonstrate how the counterfactual situation is credible: **U.K.**
- (B) Have the eligible costs been calculated in accordance with the methodology set out in points 81, 82 and 83 of the Environmental aid guidelines? **U.K.**

6. Aid in the form of reductions of or exemptions from environmental taxes U.K.

6.1. General conditions U.K.

(A) Please explain how the tax reductions or exemptions contribute indirectly to an improvement of the level of the environmental protection and motivate why the tax reductions and exemptions do not undermine the general objective pursued: U.K.

(B) For reductions of or exemptions from harmonised taxes at Community level, please confirm that: U.K.

the aid is granted for a maximum period of 10 years;

and

the beneficiaries pay at least the Community minimum tax level set by the relevant applicable directive⁽¹³⁵⁾.

Please provide for each category of beneficiaries evidence regarding the payable minimum tax level (rate actually paid preferably in EUR and in the same units as the applicable Community legislation):

6.2. Necessity of the aid **U.K.**

Please confirm that:

- # the choice of beneficiaries is based on objective and transparent criteria and the aid is granted in principle in the same way for all competitors in the same sector/relevant market if they are in a similar factual situation
- and
- # the environmental tax without reduction would lead to a substantial increase in production cost for each sector or category of individual beneficiaries⁽¹³⁶⁾;
- and
- # without the aid the substantial increase in production costs would lead to important sales reductions if it would be passed on to customers⁽¹³⁷⁾.

Please provide evidence related to the above mentioned conditions:

6.3. Proportionality of the aid **U.K.**

Please specify which one of the following conditions is met:

- (A) Does the scheme lay down criteria ensuring that each individual beneficiary pays a proportion of the national tax level which is broadly equivalent to the environmental performance of each individual beneficiary compared to the performance related to the best performing technique within the EEA? **U.K.**

#	yes	#	no
---	-----	---	----

Please provide details and evidence demonstrating the compliance with this condition:

- (B) Are aid beneficiaries paying at least 20 % of the national tax? **U.K.**

#	yes	#	no
---	-----	---	----

If no, please demonstrate how a lower rate can be justified in view of a limited distortion of competition:

#	yes	#	no
---	-----	---	----

If yes, please provide details and evidence illustrating that the undertakings or associations of undertakings commit themselves to achieve environmental protection objectives which have the same effect as (i) the taxation linked to environmental performance⁽¹³⁸⁾, or (ii) 20 % of the national tax⁽¹³⁹⁾ or (iii) if the Community minimum tax level is applied.:

Please further confirm that:

- # the substance of the agreements has been negotiated by the Member State and specifies the targets and fixes a time schedule for reaching targets;
- # the Member State ensures independent and timely monitoring of the commitments concluded in these agreements;
- # these agreements will be revised periodically in the light of technological and other developments and stipulate effective penalty arrangements applicable if the commitments are not met.

Specify per sector the targets and time schedule and describe the monitoring and review mechanisms (for example by whom and with what periodicity) as well as the penalty mechanism:

7. Criteria triggering a detailed assessment⁽¹⁴⁰⁾ **U.K.**

Please indicate if the notified measure falls within the following categories of aid:

- # for measures covered by a Block Exemption Regulation, the case was notified to the Commission pursuant to a duty to notify aid individually as prescribed in the BER;
- # investment aid, where the aid amount exceeds EUR 7,5 million for one undertaking, (even if part of an approved aid scheme);
- # operating aid for energy saving, where the aid amount exceeds EUR 5 million per undertaking for five years;
- # operating aid for the production of renewable electricity and/or combined production of renewable heat, when the aid is granted to renewable electricity installations in sites where the resulting renewable electricity generation capacity exceeds 125 MW;
- # operating aid for the production of biofuel, when the aid is granted to a biofuel production installation in sites, where the resulting production exceeds 150 000 t per year;
- # operating aid for cogeneration, where aid is granted to cogeneration installation with the resulting cogeneration electricity capacity exceeding 200 MW⁽¹⁴¹⁾
- # operating aid granted to new plants producing renewable energy on the basis of a calculation of the external costs avoided⁽¹⁴²⁾.

Status: Point in time view as at 02/05/2014.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 794/2004. (See end of Document for details)

In this case please provide a reasoned and quantified comparative cost analysis, together with an assessment of competing energy producers' external costs, so as to demonstrate that the aid does genuinely compensate for external costs avoided⁽¹⁴³⁾.

If the notified measure falls within at least one of these aid categories, it is subject to a detailed assessment and additional information should be provided in order to enable the Commission to carry out a detailed assessment (Section 8 of this supplementary information sheet).

8. Additional information for detailed assessment⁽¹⁴⁴⁾ U.K.

If there are several beneficiaries participating in the notified project subject to a detailed assessment, please provide the information below for each of them. This is without prejudice to the full description of the notified project, including participants, in the previous sections of this supplementary sheet.

8.1. General observations U.K.

The purpose of this detailed assessment is to ensure that high amounts of aid for environmental protection do not distort competition to an extent contrary to the common interest, but actually contribute to the common interest. This happens when the benefits of State aid in terms of additional environmental benefits outweigh the harm for competition and trade⁽¹⁴⁵⁾.

The detailed assessment is conducted on the basis of the positive and negative elements which are specified in Sections 5.2.1 and 5.2.2 of the Environmental aid guidelines and they apply in addition to the criteria set out in Chapter 3 of the Environmental aid guidelines.

Provisions below represent a guidance as to the type of information the Commission may require in order to carry out a detailed assessment. The guidance is intended to make the Commission's decisions and their reasoning transparent and foreseeable in order to create predictability and legal certainty. Member States should provide all the elements that they consider useful for the assessment of the case.

The Member States are in particular invited to rely on the information sources listed below. Please indicate if these supporting documents are attached to the notification:

- # evaluations of past State aid schemes or measures;
- # impact assessments made by the granting authority;
- # other studies related to the environmental protection.

5. Additional information for the detailed assessment ⁽¹⁹⁵⁾

5.1. Positive effects of the aid

5.1.1. Existence and evidence of market failure ⁽¹⁹⁶⁾

Please, attach supporting evidence of the presence of the market failure the measure is designed to tackle. In particular, for measures:

- providing tranches above EUR 1,5million per target SME (including both, the public and private capital) over each period of twelve months,
- providing follow-on investments,
- financing of the expansion stage of medium-sized enterprises in non-assisted areas,
- specifically involving an investment vehicle.

The evidence must be based on a study showing the level of the equity gap with regard to the enterprises and sectors targeted by the risk capital measure. Please attach the study.

The relevant information concerns the supply of risk capital to SMEs and the capital raised by private investors, as well as the significance of the venture capital industry in the local economy. It should ideally be provided for periods of three to five years preceding the implementation of the measure and also for the future, on the basis of reasonable projections, if available. The evidence submitted could also include the following elements:

- development of the fundraising over the past five years, also in comparison with the correspondent national and/or European averages,

Status: Point in time view as at 02/05/2014.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 794/2004. (See end of Document for details)

- the current overhang of money, i.e. the difference between the amount of funds raised by private investors for investments and the amount actually invested,
- the share of government aided investment programs in the total venture capital investment over the preceding three to five years,
- the percentage of new start-ups receiving venture capital,
- the distribution of investments provided by private market investors by categories of amount of investment,
- a comparison of the number of business plans presented with the number of investments made by segment (amount of investment, sector, round of financing, etc.),
- any other relevant indicator showing the existence of market failure.

For measures targeting SMEs located in assisted areas, the relevant information must be supplemented by any other relevant evidence as regards the regional specificities which justify the features of the measure envisaged. The following elements may be relevant:

- estimation of the additional size of the equity gap caused by the peripherality and other regional specificities, in particular in terms of total amount of risk capital invested, number of funds or investment vehicles present in the territory or at a short distance, availability of skilled managers, number of deals and average and minimum size of deals if available;
- specific local economic data, social and/or historic reasons for an underprovision of risk capital, in comparison with the relevant average data and/or situation at national and/or Community level as appropriate;
- any other relevant indicator showing an increased degree of market failure.

5.1.2. Appropriateness of the instrument ⁽¹⁹⁷⁾

ANNEX III A U.K.

STANDARDISED REPORTING FORMAT FOR EXISTING STATE AID

(This format covers all sectors except agriculture)

With a view to simplifying, streamlining and improving the overall reporting system for State aid, the existing Standardised Reporting Procedure shall be replaced by an annual updating exercise. The Commission shall send a pre-formatted spreadsheet, containing detailed information on all existing aid schemes and individual aid, to the Member States by 1 March each year. Member States shall return the spreadsheet in an electronic format to the Commission by 30 June of the year in question. This will enable the Commission to publish State aid data in year t for the reporting period $t-1$ ⁽²⁴⁷⁾.

The bulk of the information in the pre-formatted spreadsheet shall be pre-completed by the Commission on the basis of data provided at the time of approval of the aid. Member States shall be required to check and, where necessary, modify the details for each scheme or individual aid, and to add the annual expenditure for the latest year ($t-1$). In addition, Member States shall indicate which schemes have expired or for which all payments have stopped and whether or not a scheme is co-financed by Community Funds.

Information such as the objective of the aid, the sector to which the aid is directed, etc shall refer to the time at which the aid is approved and not to the final beneficiaries of the aid. For example, the primary objective of a scheme which, at the time the aid is approved, is exclusively earmarked for small and medium-sized enterprises shall be aid for small and medium-sized enterprises. However, another scheme for which all aid is ultimately awarded to small and medium-sized enterprises shall not be regarded as such if, at the time the aid is approved, the scheme is open to all enterprises.

The following parameters shall be included in the spreadsheet. Parameters 1-3 and 6-12 shall be pre-completed by the Commission and checked by the Member States. Parameters 4, 5 and 13 shall be completed by the Member States.

1. Title
2. Aid number
3. All previous aid numbers (e.g., following the renewal of a scheme)
4. Expiry

Member States should indicate those schemes which have expired or for which all payments have stopped.

5. Co-financing

Although Community funding itself is excluded, total State aid for each Member State shall include aid measures that are co-financed by Community funding. In order to identify which schemes are co-financed and estimate how much such aid represents in relation to overall State aid, Member States are required to indicate whether or not the scheme is co-financed and if so the percentage of aid that is co-financed. If this is not possible, an estimate of the total amount of aid that is co-financed shall be provided.

6. Sector

The sectoral classification shall be based largely on NACE⁽²⁴⁸⁾ at the [three-digit level].

7. Primary objective

Status: Point in time view as at 02/05/2014.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 794/2004. (See end of Document for details)

8. Secondary objective

A secondary objective is one for which, in addition to the primary objective, the aid (or a distinct part of it) was exclusively earmarked at the time the aid was approved. For example, a scheme for which the primary objective is research and development may have as a secondary objective small and medium-sized enterprises (SMEs) if the aid is earmarked exclusively for SMEs. Another scheme for which the primary objective is SMEs may have as secondary objectives training and employment if, at the time the aid was approved, the aid is earmarked for x% training and y% employment.

9. Region(s)

Aid may, at the time of approval, be exclusively earmarked for a specific region or group of regions. Where appropriate, a distinction should be made between the Article 87(3)a regions and the Article 87(3)c regions. If the aid is earmarked for one particular region, this should be specified at NUTS⁽²⁴⁹⁾ level II.

10. Category of aid instrument(s)

A distinction shall be made between six categories (Grant, Tax reduction/exemption, Equity participation, Soft loan, Tax deferral, Guarantee).

11. Description of aid instrument in national language

12. Type of aid

A distinction shall be made between three categories: Scheme, Individual application of a scheme, Individual aid awarded outside of a scheme (ad hoc aid).

13. Expenditure

As a general rule, figures should be expressed in terms of actual expenditure (or actual revenue foregone in the case of tax expenditure). Where payments are not available, commitments or budget appropriations shall be provided and flagged accordingly. Separate figures shall be provided for each aid instrument within a scheme or individual aid (e.g. grant, soft loans, etc.) Figures shall be expressed in the national currency in application at the time of the reporting period. Expenditure shall be provided for t-1, t-2, t-3, t-4, t-5.
