

COMMISSION REGULATION (EC) No 2080/2005**of 19 December 2005****laying down detailed rules for the application of Council Regulation (EC) No 865/2004 as regards operators' organisations in the olive sector, their work programmes and the financing thereof**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 865/2004 of 29 April 2004 on the common organisation of the market in olive oil and table olives and amending Regulation (EEC) No 827/68 ⁽¹⁾, and in particular Article 9 thereof,

Whereas:

- (1) To ensure that approved operators' organisations are effective, approval must relate to the various categories of operators having a major impact in the olive oil or table olives sectors, while ensuring that those organisations can guarantee compliance with certain minimum conditions that are sufficient to obtain economically significant results.
- (2) To allow producer Member States to implement administrative management of the system of approved operators' organisations in the olive sector, the procedures and time-limits for the approval of such organisations, the criteria for selecting their work programmes, the arrangements for paying Community financing and the allocation thereof should be laid down.
- (3) Under Article 110i(4) of Council Regulation (EC) No 1782/2003 ⁽²⁾, which establishes common rules for direct support schemes under the common agricultural policy and certain support schemes for farmers, Member States may withhold up to 10 % of the olive oil component in the national ceiling referred to in Article 41 thereof to provide Community financing for the work programmes drawn up by approved operators' organisations in one or more of the areas referred to in Article 8(1) of Regulation (EC) No 865/2004.
- (4) In accordance with the common rules on financing direct support schemes, and to allow the use of the amounts

available by Member State, the annual expenditure intended for the implementation of the work programmes should not exceed the annual amounts withheld by the Member States in accordance with Article 110i(4) of Regulation (EC) No 1782/2003.

- (5) To ensure overall consistency between the activities of approved operators' organisations, the types of measures that are eligible for Community financing and those that are ineligible should be laid down. The arrangements for the submission of the programmes and the selection criteria for those programmes should also be laid down. The Member States concerned should, however, be allowed to lay down additional eligibility conditions so as to gear measures more closely to the national situation in the olive sector.
- (6) In the light of experience, the Community financing thresholds should be fixed at the very least for the areas of improving the environmental impacts of olive cultivation and traceability, certification and protection, under the authority of the national administrations, of the quality of olive oil and table olives by means of quality control on the olive oils sold to the final consumer so as to ensure implementation of at least a certain number of measures in sensitive priority areas.
- (7) To ensure that the work programmes are implemented within the given time periods and in accordance with Article 8(1) of Regulation (EC) No 865/2004, and to ensure efficient administrative management of the system of approved operators' organisations in the olive sector, the procedures should be laid down for applications for approval, and the selection and approval of work programmes.
- (8) To allow correct use of the financing available by Member State, provision should be made for an annual amendment of the work programmes approved for the following year, to take into account any duly justified changes over the initial conditions. Member States should also be able to lay down the conditions required to amend the work programmes and redistribute the amounts allocated without exceeding the annual amounts withheld by the producer Member States pursuant to Article 110i(4) of Regulation (EC) No 1782/2003.

- (9) To allow work to commence in good time, operators' organisations should be able to receive a maximum advance of 90 % of the eligible annual expenditure for the approved work programme, subject to the lodging of a security under the terms laid down by Commission Regulation (EEC) No 2220/85 of 22 July 1985 laying down common detailed rules for the application of the system of securities for agricultural products⁽¹⁾.
- (10) For the purposes of proper management of the rules on operators' organisations in the olive sector, the Member States concerned should draw up a control plan and specify a system of penalties for any irregularities committed. Provision should also be made for operators' organisations to notify the results of their work to the national authorities in the Member States concerned and to transmit those results to the Commission.
- (11) In the interests of clarity and transparency, Commission Regulation (EC) No 1334/2002 of 23 July 2002 laying down detailed rules for the application of Council Regulation (EC) No 1638/98 as regards the work programmes of operators organisations in the olive sector for the marketing years 2002/03, 2003/04 and 2004/05⁽²⁾ should be repealed and replaced by a new Regulation.

Applications for Community financing submitted after the date referred to in the first subparagraph shall be inadmissible and any amounts received in respect of Community financing for the programme shall be reimbursed in accordance with the procedure laid down in Article 17.

2. The application for Community financing shall be drawn up in accordance with a model provided by the competent authority in the Member State. To be admissible, the application shall be accompanied by:

- producer organisations and associations thereof are all subject to on-the-spot checks at least once after payment of the advance and before the final payment of Community financing;
- other operators' organisations and interbranch organisations are all checked each year during the period of implementation of each approved work programme, unless they have benefited from an advance in the course of that year, in which case the check will be carried out after the date of payment of that advance.

If the checks reveal irregularities, the competent authority shall carry out additional checks during the year in question and shall increase the number of operators' organisations to be checked the following year.

3. The on-the-spot checks shall be unannounced. However, in order to facilitate the practical organisation of checks, advance warning of no more than 48 hours may be given to the operators' organisation to be checked.

2. If a given measure has not been implemented in conformity with a work programme, the operators' organisation shall be ineligible for financing for the measure in question. This exclusion shall not apply if the operators' organisation has submitted factually correct information or can show by any other means that it is not at fault.

3. The following penalties shall apply to operators' organisations where irregularities are found in the implementation of the work programme:

Article 17

Recovery of undue payments

1. The competent authority in the Member State shall recover any amount unduly paid plus, where appropriate, interest calculated in accordance with paragraph 2.

2. Interest shall be calculated:

(a) on the basis of the period elapsing between payment and reimbursement by the beneficiary;
