▼ **M2**

► **M5** <sup>(1)</sup> The MRLs account for residues due to natural occurrence of furfural, with the exception of those set for Codes 0231010 and 0231020. ◀

(<sup>a</sup>) For the complete list of products of plant and animal origin to which MRLs apply, reference should be made to Annex I.

(\*) Indicates lower limit of analytical determination.

► **M13** Residue for animal products: sum of bixafen and desmethyl bixafen expressed as bixafen. ◀

► **M8** (\*\*\*) Pesticide-code combination for which the MRL as set in Annex III Part B applies. ◀

► **M41** (\*\*\*\*) Pesticide-code combination for which the MRL as set in Annex V applies. ◀

(<sup>L</sup>) = Fat soluble

(<sup>R</sup>) = The residue definition differs for the following combinations pesticide-code number:

► **M43** Bixafen- code 1000000 except 1040000: sum of bixafen and desmethyl bixafen expressed as bixafen ◀

Diflubenzuron — code 1000000: Sum of Diflubenzuron and 4-chlorophenylurea expressed as Diflubenzuron

Fenpropidin — code 1000000: Sum of fenpropidin and CGA289267 expressed as fenpropidin

► **M37** Tembotrione - code 1000000 except 1040000: Metabolite M5 (Dihydroxy-tembotrione) ◀

Triclopyr — code 1000000: Sum of triclopyr and 3,5,6 trichloro-2-pyridinol

▼ **M72****Nicotine**

(+) Scientific evidence is not conclusive to demonstrate that nicotine occurs naturally in the concerned crop and to elucidate its mechanism of formation. When re-viewing the MRL, the Commission will take into account the information, if it is submitted by 19 October 2016, or, if that information is not submitted by that date, the lack of it.

**0154050**                      **Rose hips**

- (+) Recent monitoring data show that residues of oxadixyl occur in parsley. It is therefore appropriate to set temporary MRLs at a value of 0,05 mg/kg, pending the submission of further monitoring data. When reviewing the MRL, the Commission will take into account the information, if it is submitted by 19 January 2018, or, if that information is not submitted by that date, the lack of it.

**0256040**                    **Parsley**

- (+) Recent monitoring data show that residues of oxadixyl occur in celeries. It is therefore appropriate to set temporary MRLs at a value of 0,05 mg/kg, pending the submission of further monitoring data. When reviewing the MRL, the Commission will take into account the information, if it is submitted by 19 January 2018, or, if that information is not submitted by that date, the lack of it.

**0270030**                    **Celeries**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                    **Horseradish**

**▼ M61****Isoprothiolane**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M87****Ametoctradin (R)**

- (R) = The residue definition differs for the following combinations pesticide-code number:

Ametoctradin — code 1000000 except 1040000: Ametoctradin, metabolite 4-(7-amino-5-ethyl [1,2,4]triazolo [1,5-a]pyrimidin-6-yl) butanoic acid (M650F01) and metabolite 6-(7-amino-5-ethyl [1,2,4]triazolo [1,5-a]pyrimidin-6-yl) hexanoic acid (M650F06), expressed as ametoctradin

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M47****Aminopyralid**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M92****Chlorantraniliprole (DPX E-2Y45) (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M47****Mepiquat**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M87****Diphenylamine**

- (+) Monitoring data show that an unavoidable cross-contamination affecting untreated apples and pears still occurs. When re-viewing the MRL, the Commission will take into account the information available within 2 years from the date of publication.

**0130010                      Apples**

**0130020                      Pears**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M75****Fenpyroximate (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M54****Flubendiamide (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M80****Isopyrazam**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M75****Spirotetramat and its 4 metabolites BY108330-enol, BY108330-ketohydroxy, BY108330-monohydroxy, and BY108330 enol-glucoside, expressed as spirotetramat (R)**

- (R) = The residue definition differs for the following combinations pesticide-code number:

Spirotetramat - Code 1000000 except 1040000: Spirotetramat and its metabolite BY108330-enol expressed as spirotetramat

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M61****Cyflufenamid: sum of cyflufenamid (Z-isomer) and its E-isomer**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M75****Dicamba**

- (+) The following MRL applies to dicamba-tolerant soya bean: 0,4 mg/kg of 3,6-dichloro-salicylic acid (DCSA) and its conjugates, expressed as DCSA.

**0401070                      Soya bean**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M91****Fluopicolide**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**▼ M56****Flutriafol**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**▼ M88****Fosetyl-AI (sum of fosetyl, phosphonic acid and their salts, expressed as fosetyl)**

- (+) MRL applicable until 1 March 2019, after that date 2 (\*) will be applicable unless modified by a Regulation.

**0120010**                      **Almonds**  
**0120030**                      **Cashew nuts**  
**0120060**                      **Hazelnuts/cobnuts**  
**0120070**                      **Macadamias**  
**0120100**                      **Pistachios**  
**0120110**                      **Walnuts**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**▼ M75****Mandipropamid**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**▼ M61****Phosmet (phosmet and phosmet oxon expressed as phosmet) (R)**

- (R) = The residue definition differs for the following combinations pesticide-code number:

Phosmet — code 1000000 except 1040000: Phosmet

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**▼ M85****Picloram**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      **Horseradish**

**▼ M61****Saflufenacil (sum of saflufenacil, M800H11 and M800H35, expressed as saflufenacil) (R)**

- (R) = The residue definition differs for the following combinations pesticide-code number:

Saflufenacil-code 1000000 except 1040000: Saflufenacil

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      **Horseradish**

**▼ M91****Cycloxydim including degradation and reaction products which can be determined as 3-(3-thianyl)glutaric acid S-dioxide (BH 517-TGSO2) and/or 3-hydroxy-3-(3-thianyl)glutaric acid S-dioxide (BH 517-5-OH-TGSO2) or methyl esters thereof, calculated in total as cycloxydim**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      **Horseradish**

**▼ M56****Fenbuconazole**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      **Horseradish**

**▼ M91****Fluxapyroxad**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      **Horseradish**

**▼ M75****Glufosinate-ammonium (sum of glufosinate, its salts, MPP and NAG expressed as glufosinate equivalents)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      **Horseradish**

**▼ M56****Imidacloprid**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      Horseradish

**▼ M75****Penthiopyrad**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      Horseradish

**▼ M53****Metaflumizone (sum of E- and Z- isomers)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**Teflubenzuron**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M65****Benzalkonium chloride (mixture of alkylbenzyltrimethylammonium chlorides with alkyl chain lengths of C<sub>8</sub>, C<sub>10</sub>, C<sub>12</sub>, C<sub>14</sub>, C<sub>16</sub> and C<sub>18</sub>)**

- (+) These MRLs shall be reviewed by 31 December 2019. Reassessment of data may lead to modification of MRLs.

**▼ M72****Chromafenozone**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      **Horseradish**

**▼ M80****Difenoconazole**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      **Horseradish**

**▼ M72****Fenpyrazamine**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      **Horseradish**

**▼ M87****Fluazinam (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      **Horseradish**

**▼ M76****Tau-Fluvalinate (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      **Horseradish**

**▼ M70****Malathion (sum of malathion and malaaxon expressed as malathion)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      **Horseradish**

**▼ M76****Amisulbrom**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      **Horseradish**

**▼ M76****Bupirimate**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      Horseradish

**Ethirimol**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      Horseradish

**Imazapic**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      Horseradish

**▼ M85****Boscalid (F) (R)**

- (R) = The residue definition differs for the following combinations pesticide-code number:

Boscalid — code 1000000 except 1040000: Sum of boscalid and metabolite 2-chloro-N-(4'-chloro-5-hydroxybiphenyl-2-yl)nicotinamide (M 510F01) including its conjugates expressed as boscalid

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**Dazomet (Methylisothiocyanate resulting from the use of dazomet and metam)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**Fluazifop-P-butyl (fluazifop acid (free and conjugate))**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**Pyridaben (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M85****Tebufenpyrad (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**Sulfoxaflor**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M87****Flonicamid (sum of flonicamid, TNFG and TNFA) (R)**

- (R) = The residue definition differs for the following combinations pesticide-code number:

Flonicamid — code 1000000: Sum of flonicamid and TFNA-AM

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**Fluoxastrobin**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**Prothioconazole (Prothioconazole-desthio) (R)**

- (R) = The residue definition differs for the following combinations pesticide-code number:

Prothioconazole — code 1000000 except 1040000: Sum of prothioconazole-desthio and its glucuronide conjugate, expressed as prothioconazoledesthio.

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M91****Fenoxycarb**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**Tefluthrin (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M91****Difluoroacetic acid (DFA)**

- (+) The European Food Safety Authority identified some information on rotational crops as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 April 2018, or, if that information is not submitted by that date, the lack of it.

▼ **M2**

<sup>(13)</sup> As all dithiocarbamates result in the final CS<sub>2</sub> residue, discrimination among them is generally not possible. However single residue methods are available for propineb, ziram and thiram. These methods should be implemented on a case by case basis when the specific quantification of propineb, ziram and/or thiram is required.

<sup>(a)</sup> For the complete list of products of plant and animal origin to which MRLs apply, reference should be made to Annex I.

<sup>(\*)</sup> Indicates lower limit of analytical determination

<sup>(L)</sup> = Fat soluble

<sup>(R)</sup> = The residue definition differs for the following combinations pesticide-code number:

▼ **M2**

Carbendazim — code 1000000: Carbendazim and thiophanate-methyl, expressed as carbendazim

► **M37 Captan (R)**: The enforcement residue definition for the following codes is ‘the sum of captan and folpet’: 0130000; 0152000; 0153010; 0153030; 0154030; 0154040; 0231010; 0260010; 0260020 ◀

Chlordane — code 1000000: Sum of cis- and trans-isomers and oxychlordane expressed as chlordane

Fenpropimorph — code 1000000: Fenpropimorph carboxylic acid (BF 421-2) expressed as fenpropimorph

► **M37** Metabolite 490M1 = 2-methoxyimino-2-[2-(o-tolyloxymethyl)phenyl]acetic acid. Metabolite 490M9 = 2-[2-(4-hydroxy-2-methylphenoxy)methyl]phenyl]-2-methoxy-iminoacetic acid. ◀

► **M43** Lambda-Cyhalothrin - code 1000000 except 1040000: Lambda-cyhalothrin, including other mixed isomeric constituents (sum of isomers) ◀

Spiroxamine — code 1000000: Spiroxamine carboxylic acid expressed as spiroxamine

Thiabendazole — code 1000000: Sum of thiabendazole and 5-hydroxythiabendazole

Thiofanate-methyl — code 1000000: Carbendazim and thiophanate-methyl, expressed as carbendazim

▼ **M64****Carbaryl (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**Profenofos (F)**

- (+) Monitoring data carried out in 2012, show that residues of profenofos occur in herbs. Further monitoring data is necessary to compare the evolution of the occurrence of profenofos in herbs. When reviewing the MRL, the Commission will take into account the information, if it is submitted by 18 October 2016, or, if that information is not submitted by that date, the lack of it.

**0256050**                      **Sage (Winter savory, summer savory, *Borago officinalis* leaves)**

**0256060**                      **Rosemary**

**0256070**                      **Thyme (Marjoram, oregano)**

**0256080**                      **Basil (Balm leaves, mint, peppermint, holy basil, sweet basil, hairy basil, edible flowers (marigold flower and others), pennywort, wild betel leaf, curry leaves)**

**0256090**                      **Bay leaves (laurel) (Lemon grass)**

**0256100**                      **Tarragon (Hyssop)**

- (+) Monitoring data carried out in 2012, show that residues of profenofos occur in rose petals. Further monitoring data is necessary to compare the evolution of the occurrence of profenofos in rose petals. When reviewing the MRL, the Commission will take into account the information, if it is submitted by 18 October 2016, or, if that information is not submitted by that date, the lack of it.

**0631030**                      **Rose petals**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**▼ M47****Metalaxyl and metalaxyl-M (metalaxyl including other mixtures of constituent isomers including metalaxyl-M (sum of isomers))**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**Quinoxyfen (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M61****Chlormequat**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M56****Cyfluthrin (cyfluthrin including other mixtures of constituent isomers (sum of isomers)) (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      Horseradish

**MCPA and MCPB (MCPA, MCPB including their salts, esters and conjugates expressed as MCPA) (F) (R)**

(R) = The residue definition differs for the following combinations pesticide-code number:

**MCPA and MCPB - code 1000000: MCPA, MCPB and MCPA thioethyl expressed as MCPA**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040                      Horseradish

**▼ M53****Fenarimol**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M72****Penconazole (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M70****Fenamidone**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M92****Propiconazole**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M76****Clofentezine (R)**

- (R) = The residue definition differs for the following combinations pesticide-code number:

Clofentezine - codes 0500000 and 1000000: Sum of all compounds containing the 2-chlorobenzoyl moiety expressed as clofentezine

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M70****Carbofuran (sum of carbofuran (including any carbofuran generated from carbosulfan, benfuracarb or furathiocarb) and 3-OH carbofuran expressed as carbofuran) (R)**

- (R) = The residue definition differs for the following combinations pesticide-code number:

Carbofuran — code 1000000 except 1040000: 3-OH-carbofuran (free and conjugated) expressed as carbofuran

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**▼ M92****Dithiocarbamates (dithiocarbamates expressed as CS2, including maneb, mancozeb, metiram, propineb, thiram and ziram)**

In brackets the origin of the residue (ma: maneb; mz: mancozeb; me: metiram; pr: propineb; t: thiram; z: ziram).

The MRLs expressed as CS2 can arise from different dithiocarbamates and therefore they do not reflect a single Good Agricultural Practice (GAP). It is therefore not appropriate to use these MRLs to check compliance with a GAP.

- (+) (ma, mz, me, pr, t, z)

**0130040                      Medlars**  
**0130050                      Loquats/Japanese medlars**

**▼ M85****Thiram (expressed as thiram)**

As all dithiocarbamates result in the final CS2 residue, discrimination among them is generally not possible. However single residue methods are available for propineb, ziram and thiram. These methods should be implemented on a case by case basis when the specific quantification of propineb, ziram and/or thiram is required.

(+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**DNOC**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**Ethylene oxide (sum of ethylene oxide and 2-chloro-ethanol expressed as ethylene oxide) (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**Fentín (fentín including its salts, expressed as triphenyltin cation) (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**Flucycloxuron (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

**Flucythrinate (flucythrinate including other mixtures of constituent isomers (sum of isomers)) (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040                      Horseradish**

▼ **M77****Formothion**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**Mecarbam**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**Methacrifos**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**Monolinuron**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**Phenothrin (phenothrin including other mixtures of constituent isomers (sum of isomers)) (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**Propham**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**Pyrazophos (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**Quinalphos (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

---

**▼ M77****Resmethrin (resmethrin including other mixtures of constituent isomers (sum of isomers)) (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**Tecnazene (F)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

**▼ M83****Guazatine (guazatine acetate, sum of components)**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040**                      **Horseradish**

▼ **M3***ANNEX VII***Active substance/product combinations, as referred to in Article 18(3)**

| Active substance   | Product in Annex I<br>(Code number)   |
|--------------------|---|
| Hydrogen phosphide | Fruit (0100000), Vegetables (0200000), Pulses (0300000), Oilseeds and oil fruits (0400000), Cereals (0500000), Tea, coffee, herbal infusions and cocoa (0600000), Spices (0800000). |
| Aluminiumphosphide | Fruit (0100000), Vegetables (0200000), Pulses (0300000), Oilseeds and oil fruits (0400000), Cereals (0500000), Tea, coffee, herbal infusions and cocoa (0600000), Spices (0800000). |
| Magnesiumphosphide | Fruit (0100000), Vegetables (0200000), Pulses (0300000), Oilseeds and oil fruits (0400000), Cereals (0500000), Tea, coffee, herbal infusions and cocoa (0600000), Spices (0800000). |
| Sulfurylfluoride   | Fruit (0100000), Cereals (0500000).   |
