

Regulation (EC) No 1013/2006 of the European Parliament  
and of the Council of 14 June 2006 on shipments of waste

TITLE VII

**OTHER PROVISIONS**

CHAPTER 1

*Additional obligations*

*Article 49*

**Protection of the environment**

1 The producer, the notifier and other undertakings involved in a shipment of waste and/or its recovery or disposal shall take the necessary steps to ensure that any waste they ship is managed without endangering human health and in an environmentally sound manner throughout the period of shipment and during its recovery and disposal. <sup>F1</sup>...

2 [<sup>F2</sup>In the case of an export from the United Kingdom to a non-EU country, the competent authority of dispatch in the United Kingdom shall]:

- a require and endeavour to secure that any waste exported is managed in an environmentally sound manner throughout the period of shipment, including recovery as referred to in Articles 36 and 38 or disposal as referred to in Article 34, in the <sup>F3</sup>... country of destination;
- b prohibit an export of waste <sup>F4</sup>... if it has reason to believe that the waste will not be managed in accordance with the requirements of point (a).

Environmentally sound management may, *inter alia*, be assumed as regards the waste recovery or disposal operation concerned, if the notifier or the competent authority in the country of destination can demonstrate that the facility which receives the waste will be operated in accordance with human health and environmental protection standards that are broadly equivalent to standards established in [<sup>F5</sup>retained EU law].

This assumption shall, however, be without prejudice to the overall assessment of environmentally sound management throughout the period of shipment and including recovery or disposal in the <sup>F6</sup>... country of destination.

For the purposes of seeking guidance on environmentally sound management, the guidelines listed in Annex VIII may be considered.

3 [<sup>F7</sup>In the case of an import into the United Kingdom from a non-EU country, the competent authority of destination in the United Kingdom shall]:

- a require and take the necessary steps to ensure that any waste shipped into its area of jurisdiction is managed without endangering human health and without using processes or methods which could harm the environment <sup>F8</sup>... throughout the period of shipment, including recovery or disposal in the country of destination;
- b prohibit an import of waste <sup>F9</sup>... if it has reason to believe that the waste will not be managed in accordance with the requirements of point (a).

Status: Point in time view as at 31/12/2020.

Changes to legislation: There are currently no known outstanding effects for the Regulation (EC) No 1013/2006 of the European Parliament and of the Council, TITLE VII. (See end of Document for details)

Article 50

**Enforcement** <sup>F10</sup> ...

<sup>F11</sup> 1 .....

<sup>F12</sup> 2 .....

[<sup>F13</sup>2a [<sup>F14</sup>The Secretary of State shall ensure that, in respect of the United Kingdom, one or more plans are maintained, either separately or as a clearly defined part of other plans, for inspections carried out for the purposes of the enforcement of this Regulation (‘inspection plan’).] Inspection plans shall be based on a risk assessment covering specific waste streams and sources of illegal shipments and considering, if available and where appropriate, intelligence-based data such as data on investigations by police and customs authorities and analyses of criminal activities. That risk assessment shall aim, inter alia, to identify the minimum number of inspections required, including physical checks on establishments, undertakings, brokers, dealers and shipments of waste or on the related recovery or disposal. An inspection plan shall include the following elements:

- a the objectives and priorities of the inspections, including a description of how those priorities have been identified;
- b the geographical area covered by that inspection plan;
- c information on planned inspections, including on physical checks;
- d the tasks assigned to each authority involved in inspections;
- e arrangements for cooperation between authorities involved in inspections;
- f information on the training of inspectors on matters relating to inspections; and

*Status: Point in time view as at 31/12/2020.*

*Changes to legislation: There are currently no known outstanding effects for the Regulation (EC) No 1013/2006 of the European Parliament and of the Council, TITLE VII. (See end of Document for details)*

- g information on the human, financial and other resources for the implementation of that inspection plan.

An inspection plan shall be reviewed at least every three years and, where appropriate, updated. That review shall evaluate to which extent the objectives and other elements of that inspection plan have been implemented.]

[<sup>F153</sup> Inspections of shipments may take place in particular:

- a at the point of origin, carried out with the producer, holder or notifier;
- b at the point of destination, including interim and non-interim recovery or disposal, carried out with the consignee or the facility;
- c at the frontiers of the [<sup>F16</sup>United Kingdom]; and/or
- d during the shipment within the [<sup>F16</sup>United Kingdom].]

[<sup>F154</sup> Inspections of shipments shall include the verification of documents, the confirmation of identity and, where appropriate, physical checking of the waste.]

[<sup>F134a</sup> In order to ascertain that a substance or object being carried by road, rail, air, sea or inland waterway is not waste, the authorities involved in inspections may, without prejudice to [<sup>F17</sup>the Waste Electrical and Electronic Equipment Regulations 2013], require the natural or legal person who is in possession of the substance or object concerned, or who arranges the carriage thereof, to submit documentary evidence:

- a as to the origin and destination of the substance or object concerned; and
- b that it is not waste, including, where appropriate, evidence of functionality.

For the purpose of the first subparagraph, the protection of the substance or object concerned against damage during transportation, loading and unloading, such as adequate packaging and appropriate stacking, shall also be ascertained.

4b The authorities involved in inspections may conclude that the substance or object concerned is waste where:

- the evidence referred to in paragraph 4a or required under other [<sup>F18</sup>retained EU law] to ascertain that a substance or object is not waste, has not been submitted within the period specified by them, or
- they consider the evidence and information available to them to be insufficient to reach a conclusion, or they consider the protection provided against damage referred to in the second subparagraph of paragraph 4a to be insufficient.

In such circumstances, the carriage of the substance or object concerned or the shipment of waste concerned shall be considered as an illegal shipment. Consequently, it shall be dealt with in accordance with Articles 24 and 25 and the authorities involved in inspections shall, without delay, inform the competent authority of the country where the inspection concerned took place accordingly.

4c In order to ascertain whether a shipment of waste complies with this Regulation, the authorities involved in inspections may require the notifier, the person who arranges the shipment, the holder, the carrier, the consignee and the facility that receives the waste to submit relevant documentary evidence to them within a period specified by them.

In order to ascertain whether a shipment of waste falling under the general information requirements of Article 18 is destined for recovery operations which are in accordance with Article 49, the authorities involved in inspections may require the person who arranges the shipment to submit relevant documentary evidence, provided by the interim

*Status: Point in time view as at 31/12/2020.*

*Changes to legislation: There are currently no known outstanding effects for the Regulation (EC) No 1013/2006 of the European Parliament and of the Council, TITLE VII. (See end of Document for details)*

and non-interim recovery facility and, if necessary, approved by the competent authority of destination.

4d Where the evidence referred to in paragraph 4c has not been submitted to the authorities involved in inspections within the period specified by them, or they consider the evidence and information available to them to be insufficient to reach a conclusion, the shipment concerned shall be considered as an illegal shipment. Consequently, it shall be dealt with in accordance with Articles 24 and 25 and the authorities involved in inspections shall, without delay, inform the competent authority of the country where the inspection concerned took place accordingly.

[<sup>F19</sup> 4e The Secretary of State may, by regulations, amend the correlation table in Commission Implementing Regulation (EU) 2016/1245 in order to—

- a reflect changes to the combined nomenclature provided for in Council Regulation (EEC) No 2658/87;
- b reflect changes to the entries of waste listed in Annexes 3, 3A, 3B, 4, 4A and 5;
- c include any new waste-related codes of the Harmonised System Nomenclature that the World Customs Organisation may adopt.]]

[<sup>F20</sup> 5 The competent authorities in the United Kingdom shall, where appropriate, cooperate, bilaterally and multilaterally, with the competent authorities of EU countries in order to—

- a facilitate the prevention and detection of illegal shipments;
- b exchange relevant information on shipments of waste, flows of waste, operators and facilities; and
- c share experience and knowledge on enforcement measures, including the risk assessment carried out pursuant to paragraph 2a of this Article].

6 [<sup>F21</sup>Each competent authority in the United Kingdom] shall identify those members of [<sup>F22</sup>its] permanent staff responsible for the cooperation referred to in paragraph 5 and identify the focal point(s) for the physical checks referred to in paragraph 4. [<sup>F23</sup>The competent authority shall, before the end of each calendar year, send the information in writing to the Secretary of State. The Secretary of State shall then promptly send the information to the Secretariat of the Basel Convention.]
