CHAPTER IV

Eligibility and administrative provisions

Section 1

Verifiability and controllability of measures and eligibility rules

Sub-section 1

Verifiability and controllability of measures

Article 48

1 For the purposes of Article 74(1) of Regulation (EC) No 1698/2005 Member States shall ensure that all the rural development measures they intend to implement are verifiable and controllable. To this end, Member States shall define control arrangements that give them reasonable assurance that eligibility criteria and other commitments are respected.

2 In order to substantiate and confirm the adequacy and accuracy of the calculations of payments under Articles 31, 38, 39, 40 and 43 to 47 of Regulation (EC) No 1698/2005, Member States shall ensure that appropriate expertise is provided by bodies or services functionally independent from those responsible for those calculations. Provision of such expertise shall be evidenced in the rural development programme.

Sub-section 2

Interest rate subsidies

Article 49

Interest rate subsidies for loans may be co-financed by the EAFRD pursuant to Article 71(5) of Regulation (EC) No 1698/2005. When proposing interest rate subsidies, Member States shall indicate in their programmes the method of calculation of the interest rate subsidy to be used.

Member States may establish a system of capitalisation of the remaining annual instalments of the interest rate subsidy at any time during the period of the loan. Any remaining annual instalment after the final date for payments shall be capitalised and paid out by 31 December 2015 at the latest. For the purposes of claims for payment made to the Commission, the amounts paid out to the intermediary financial institution undertaking the payment of the discounted value of the subsidy shall be considered as expenditure actually incurred.

Status: Point in time view as at 20/04/2013.

Changes to legislation: There are outstanding changes not yet made to Commission Regulation (EC) No 1974/2006 (repealed). Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

For the purposes of the second paragraph, an agreement is needed between the Member States' paying agency and the intermediary financial institution undertaking the payment of the discounted value of the subsidy. Member States shall indicate in the programme the calculation method and future value hypotheses to be used in calculating the capitalised value of outstanding interest rate subsidy as well as the arrangements for continuing transmitting the aid to the beneficiaries.

Member States shall remain responsible for the management of the payment of the discounted value of the subsidy for the entire loan period to the financial intermediary and for any recovery of amounts unduly paid in accordance with Article 33 of Council Regulation (EC) No 1290/2005⁽¹⁴⁾.

Sub-section 3

Other financial engineering actions

Article 50

Pursuant to Article 71(5) of Regulation (EC) No 1698/2005, as part of a rural development programme, the EAFRD may co-finance expenditure in respect of an operation comprising contributions to support venture capital funds, guarantee funds and loan funds (hereinafter 'the funds'), in accordance with Articles 51 and 52 of this Regulation.

Article 51

1 Those part-financing the funds or their sponsors shall submit a business plan to the managing authority specifying, *inter alia*, the targeted market or guarantee portfolio, the criteria, terms and conditions of financing, the operational budget of the fund, the ownership and part-financing partners, the requirements as to the professionalism, competence and independence of the management, the fund's by-laws, the justification and intended utilisation of the EAFRD contribution, the investment exit policy, and the winding-up provisions of the fund, including the re-utilisation of returns attributable to the EAFRD contribution. The business plan shall be appraised and its implementation monitored by or under the responsibility of the managing authority.

2 The funds shall be set up as independent legal entities governed by agreements between the shareholders or as separate block of finance within an existing financial institution. In the latter case, the fund shall be subject to specific implementing rules, providing in particular for the keeping of separate accounts distinguishing the new resources invested in the fund, including those contributed by the EAFRD, from those initially available in the financial institution. The Commission shall not become a partner or shareholder in the fund.

3 The funds shall invest in or provide guarantees to enterprises on their establishment, during their early stages or expansion and only in activities that the fund managers consider potentially viable. The assessment of the economic viability shall take into account all sources of income of the enterprises in question. Funds shall not invest in or provide guarantees for firms in difficulty within the meaning of the Community Guidelines on State aid for rescuing and restructuring firms in difficulty⁽¹⁵⁾.

4 Precautions shall be taken by managing authorities and funds to minimise distortion of competition in the venture capital or lending market. In particular, returns from equity investments and loans, less a pro rata share of the management costs, may be preferentially allocated to the private sector shareholders up to the level of remuneration laid down in

the shareholder agreement, and after that, they shall be allocated proportionally between all shareholders and the EAFRD.

5 Management costs of funds shall not exceed 3 % of the paid-up capital, or 2 % in the case of guarantee funds, on a yearly average for the duration of the programme unless, after a competitive tender, a higher percentage proves necessary.

6 The terms and conditions for contributions to funds from rural development programmes, including deliverables, investment strategy and planning, monitoring implementation, investment exit policy and winding up provisions, shall be established in a funding agreement to be concluded between the fund on the one hand, and the Member State or the managing authority, on the other.

7 Contributions to funds from the EAFRD and other public sources and investments made by the funds in or guarantees provided to individual undertakings shall be subject to the rules in Regulation (EC) No 1698/2005 or to the Community rules on State aid.

fth Article 52

1 As regards financial engineering actions referred to in Article 51 of this Regulation, the expenditure declared to the Commission in accordance with Article 26(3)(a) of Regulation (EC) No 1290/2005 shall be the total expenditure paid in establishing or contributing to such funds.

However, when paying the balance and closing the rural development programme in accordance with Article 28 of Regulation (EC) No 1290/2005, the eligible expenditure shall be the total of:

- a any payment for investment in enterprises out of each of the funds concerned, or any guarantees provided including amounts committed as guarantees by guarantee funds;
- b eligible management costs.

The co-financing rate to be applied shall correspond to the co-financing rate of the measure to which the fund contributes. If the fund contributes to several measures with different co-financing rates, these rates shall apply at the ratio of the respective eligible expenditure.

The difference between the EAFRD contribution actually paid pursuant to the first subparagraph and the eligible expenditure under points (a) or (b) of the second subparagraph shall be cleared in the context of the annual accounts of the last year of implementation of the programme. These accounts shall include the detailed financial information needed.

2 Where EAFRD co-finances operations comprising guarantee funds for repayable investments pursuant to Article 50 of this Regulation, an appropriate *ex ante* assessment of expected losses shall be carried out, taking into account current market practices for similar operations for the type of investments and market concerned. The assessment of the expected losses may be reviewed, if justified by subsequent market conditions. The resources committed to honour guarantees shall reflect such an assessment.

3 Resources returned to the operation during the programming period from investments undertaken by funds or left over after a guarantee has been honoured shall be reused by the fund according to the funding agreement referred to in Article 51(6) of this Regulation or cleared in the context of the annual accounts. After the final date of eligibility of the rural development programme, resources returned to the operation from investments undertaken by funds or left over after all guarantees have been honoured shall be used by the Member States concerned for the benefit of individual undertakings.

Status: Point in time view as at 20/04/2013.

Changes to legislation: There are outstanding changes not yet made to Commission Regulation (EC) No 1974/2006 (repealed). Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)
