of 8 March 2006

amending Regulation (EEC) No 2454/93 laying down
provisions for the implementation of Council Regulation
(EEC) No 2913/92 establishing the Community Customs Code

(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 2913/92 of 12 October 1992 establishing the Community Customs Code⁽¹⁾, and in particular Article 247 thereof,

Whereas:

- (1) In the light of experience gained since Commission Regulation (EC) No 89/97 of 20 January 1997 amending Regulation (EEC) No 2454/93 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code⁽²⁾ entered into force, it is necessary to specify the methods to be used for determining the net weight of fresh bananas. These methods should include the weighing of fresh bananas, to establish their net weight, and the drawing up of banana weighing certificates attesting that weight, by economic operators authorised by customs authorities. The net weight of fresh bananas should be established for each consignment of fresh bananas delivered by any means of transport.
- (2) To give sufficient time to Member States and economic operators to prepare for the authorisation of weighers, the measures concerning the weighing of fresh bananas and the drawing up of banana weighing certificates should apply from 1 June 2006.
- (3) For imports of certain electronic circuits covered by Chapters 84 and 85 of the Combined Nomenclature, countervailing duties have been imposed by Council Regulation (EC) No 1480/2003 of 11 August 2003 imposing a definitive countervailing duty and collecting definitively the provisional duty imposed on imports of certain electronic microcircuits known as DRAMs (dynamic random access memories) originating in the Republic of Korea⁽³⁾. With a view to ensuring the uniform application of these countervailing duties, it is necessary to have a specific rule of origin for the products covered by the said Regulation.
- (4) Commission Regulation (EEC) No 2454/93⁽⁴⁾ should therefore be amended accordingly.

Status: Point in time view as at 08/03/2006.

Changes to legislation: Commission Regulation (EC) No 402/2006 is up to date with all changes known to be in force on or before 31 December 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (5) The measures provided for by this Regulation are in accordance with the opinion of the Customs Code Committee,

ANNEX 38b

Procedure referred to in Article 290c(1)

For the purposes of Article 290c, the net weight of each consignment of fresh bananas shall be determined by authorised weighers at any place of unloading in accordance with the following procedure:

1. a sample of units of packed bananas shall be selected for each type of packaging and for each origin. The sample of units of packed bananas to be weighed shall constitute a representative sample of the consignment of fresh bananas. It shall contain at least the quantities indicated below:

Number of units of packed bananas (by type of packaging and origin)	Number of units of packed bananas to be inspected
— up to 400	5
— from 401 to 700	7
— from 701 to 1 000	10
— from 1 001 to 2 000	13
— from 2 001 to 4 000	15
— from 4 001 to 6 000	18
— more than 6 000	21

2. the net weight shall be determined as follows:
 - (a) by weighing each unit of packed bananas to be inspected (gross weight);
 - (b) by opening at least one unit of packed bananas, then calculating the weight of the packaging;
 - (c) the weight of that packaging shall be accepted for all packaging of the same type and origin, and shall be deducted from the weight of all the units of packed bananas weighed;
 - (d) the average net weight per unit of packed bananas thus established for each type and origin, based on the weight of the samples checked, shall be accepted as the basis for determining the net weight of the consignment of fresh bananas;
3. where the customs authority does not check the banana weighing certificates contemporaneously, the net weight declared on such certificates shall be acceptable to customs authorities provided that the difference is not more or less than 1 % between the declared net weight and the average net weight established by customs authorities;
4. the banana weighing certificate shall be presented to the customs office at which the declaration for release for free circulation is submitted. The customs authorities shall apply the results of the sampling shown on the banana weighing certificate to the whole consignment of fresh bananas to which that certificate relates.
