COMMISSION REGULATION (EC) No 950/2006

of 28 June 2006

laying down detailed rules of application for the 2006/2007, 2007/2008 and 2008/2009 marketing years for the import and refining of sugar products under certain tariff quotas and preferential agreements (repealed)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 318/2006 of 20 February 2006 on the common organisation of the markets in the sugar sector<sup>(1)</sup>, and in particular Articles 40(1)(e)(iii) and (f) and 44 thereof,

Whereas:

- (1) Pursuant to Article 1(1) of Protocol 3 on ACP sugar (hereinafter referred to as the ACP Protocol) attached to Annex V to the Partnership Agreement between the members of the African, Caribbean and Pacific Group of States, of the one part, and the European Community and its Member States, of the other part, signed in Cotonou on 23 June 2000<sup>(2)</sup> (hereinafter referred to as the ACP-EC Partnership Agreement), and Article 1(1) of the Agreement between the European Economic Community and the Republic of India on cane sugar<sup>(3)</sup> (hereinafter referred to as the Agreement with India), the Community undertakes to purchase and import, at guaranteed prices, specific quantities of cane sugar which originate in the ACP States and India respectively and which those States undertake to deliver to it.
- (2) Pursuant to Article 29(4) of Regulation (EC) No 318/2001, during the 2006/2007, 2007/2008 and 2008/2009 marketing years, in order to ensure adequate supplies to Community refineries, the application of import duties on cane sugar for refining falling within CN code 1701 11 10 originating in the States referred to in Annex VI to that Regulation is suspended for the complementary quantity.
- (3) Pursuant to Article 4(4) of Council Regulation (EC) No 2007/2000 of 18 September 2000, introducing exceptional trade measures for countries and territories participating in or linked to the European Union's Stabilisation and Association process, amending Regulation (EC) No 2820/98 and repealing Regulations (EC) No 1763/1999 and (EC) No 6/2000<sup>(4)</sup>, imports of sugar products falling within CN codes 1701 and 1702 originating in Albania, Bosnia and Herzegovina, Serbia and Montenegro and Kosovo<sup>(5)</sup> are subject to annual duty-free tariff quotas. The rules for the opening and administration of those tariff quotas are set out in Commission Regulation (EC) No 1004/2005 of 30 June 2005, laying down detailed rules for the opening and administration of the tariff

quotas for sugar products originating in Albania, Bosnia and Herzegovina, Serbia and Montenegro and Kosovo, as provided for in Council Regulation (EC) No 2007/2000<sup>(6)</sup>. In the interests of rationality, Regulation (EC) No 1004/2005 should be repealed and all the detailed rules of application for the import and refining of sugar products should be brought together in a single text.

- (4) Pursuant to Article 27(2) of the Stabilisation and Association Agreement between the European Communities and their Member States, of the one part, and the former Yugoslav Republic of Macedonia, of the other part<sup>(7)</sup>, which entered into force on 1 January 2006, the Community is to allow duty-free access for imports into the Community of products originating in the former Yugoslav Republic of Macedonia falling within CN codes 1701 and 1702, within the limit of an annual tariff quota of 7 000 tonnes (net weight). Commission Regulation (EC) No 2151/2005 of 23 December 2005, laying down detailed rules for the opening and administration of the tariff quota for sugar products originating in the former Yugoslav Republic of Macedonia as provided for in the Stabilisation and Association Agreement between the European Communities and their Member States, of the one part, and the former Yugoslav Republic of Macedonia, of the other part<sup>(8)</sup> opened that quota from 1 January 2006. In the interests of rationality, detailed rules for the opening and administration of that quota should be laid down in this Regulation to apply from 1 January 2007. Regulation (EC) No 2151/2005 should therefore be repealed from that date.
- (5) The management of the traditional supply needs of sugar for refining provided for in Article 29 of Regulation (EC) No 318/2006 requires specific implementing rules for the 2006/2007, 2007/2008 and 2008/2009 marketing years. The application of this Regulation should therefore be limited to those marketing years.
- (6) Except as otherwise provided by this Regulation, Commission Regulation (EC) No 1291/2000 of 9 June 2000, laying down common detailed rules for the application of the system of import and export licences and advance fixing certificates for agricultural products<sup>(9)</sup> and the special rules applicable to the sugar sector laid down by Commission Regulation (EC) No 951/2006 of 30 June 2006 laying down detailed rules for applying Council Regulation (EC) No 318/2006 as regards trade with third countries in the sugar sector<sup>(10)</sup> (new third country management Regulation) should apply to import licences issued under this Regulation. Moreover, to facilitate the management of imports under this Regulation and ensure that the annual limits are observed, detailed rules should be laid down for import licences for raw sugar, expressed as white sugar equivalent.
- (7) Pursuant to Article 30(2) of Regulation (EC) No 318/2006, applications for import licences for sugar benefiting from a guaranteed price must be accompanied by an export licence issued by the authorities of the exporting country certifying the compliance of the sugar with the rules provided for in the agreements concerned. In the case of Serbia and Montenegro and Kosovo, in order to ensure the sustainable economic development of the sugar sectors in these territories, and in view of the relatively high tariff quota volume, imports of sugar under these quotas should be subject to the presentation of an export licence. The form and layout of this licence and the procedures for using it should therefore be specified.

- (8) Since no provision has been made for an overrun of the quantities for the overall tariff quotas referred to in Article 28 of Regulation (EC) No 318/2006, the full rate of duty under the common customs tariff must apply to all quantities, converted into white sugar equivalent, imported over and above those shown on the import licence.
- (9) Article 29(1) and (2) of Regulation (EC) No 318/2006 fixes the traditional supply needs of sugar for refining by Member State. To guarantee to full-time refiners in the Member States concerned that import licences for the sugar for refining will be available for the quantity indicated in those paragraphs and to avoid any abuse allowing trading in licences, applications for import licences for sugar for refining should be limited to full-time refiners in the Member State concerned until a date set by type of preferential sugar.
- (10) In the case of the preferential sugar referred to in the ACP Protocol and in the Agreement with India, given that unforeseeable delays may occur between the loading of a consignment of sugar and its delivery, a certain tolerance should be permitted in the application of the delivery periods to take account of such delays. In addition, given that this sugar is covered, according to the agreements concerned, by delivery obligations and not by tariff quotas, provision should be made, in accordance with current trade practices, for a certain tolerance to apply to the total quantities delivered during a delivery period and on the date which that period commences.
- (11) Article 7 of the ACP Protocol and Article 7 of the Agreement with India lay down provisions which apply where a State fails to deliver its agreed quantity during a delivery period. In order to apply those provisions, methods need to be determined for establishing the delivery date of a consignment of preferential sugar.
- (12) The provisions relating to proof of origin contained in Article 14 of Protocol 1 attached to Annex V to the ACP-EC Partnership Agreement, Article 2(1) of Regulation (EC) No 2007/2000 or Article 47 of Commission Regulation (EEC) No 2454/93 of 2 July 1993, laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code<sup>(11)</sup>, as appropriate, should apply to products imported under this Regulation.
- (13) In the wake of the accession of Austria, Finland and Sweden, and then of the Czech Republic, Estonia, Cyprus, Latvia, Lithuania, Hungary, Malta, Poland, Slovenia and Slovakia to the European Union, and in the context of the conclusion of the negotiations under Article XXIV of the GATT, the Community undertook to import from third countries a quantity of raw cane sugar for refining at a rate of duty of EUR 98 per tonne.
- (14) In order to respect traditional patterns of imports of quantities of the tariff quota covered by the concessions set out in Schedule CXL (European Communities) referred to in Article 1 of Council Regulation (EC) No 1095/96 of 18 June 1996, on the implementation of the concessions set out in Schedule CXL drawn up in the wake of the conclusion of the GATT XXIV.6 negotiations<sup>(12)</sup>, steps should be taken to allocate the quota of 96 801 tonnes among countries of origin from 1 July 2006 using the same distribution key as before.
- (15) To take account of the fact that the 2006/2007 marketing year covers 15 months, the annual tariff quotas should be adjusted for this marketing year.

- (16) To ensure efficient management of preferential imports under this Regulation, measures should be adopted so that the Member States can keep records of the relevant data, and report them to the Commission. To improve checks, it should be laid down that imports of the products falling under the annual tariff quota should be monitored in accordance with Article 308d of Regulation (EEC) No 2454/93.
- (17) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Sugar,

HAS ADOPTED THIS REGULATION:

### IMPORT LICENCES

#### *Article 3*

Imports under the provisions referred to in Article 1 shall be subject to the presentation of an import licence issued in accordance with Regulations (EC) No 1291/2000 and (EC) No 951/2006, unless otherwise provided for in this Regulation.

#### *Article 4*

1 Import licence applications shall be submitted by the parties concerned to the competent authorities of the Member States.

2 Import licence applications shall be submitted each week, from Monday to Friday, starting on the date referred to in paragraph 5 of this Article and until the issue of licences is discontinued as referred to in the second subparagraph of Article 5(3).

Applicants shall submit their licence applications to the competent authorities of the Member State in which they are registered for VAT purposes.

Applicants may submit one import licence application only per weekly period and per serial number. Where, in a given week, applicants submit more than one application for a serial number, all their applications in that week for that serial number shall be rejected and the securities lodged when the applications were submitted shall be taken over by the Member State concerned.

3 Box 20 of the application for an import licence and the licence shall contain one of the following entries: 'sugar for refining' or 'sugar not intended for refining'. The entry shall not be linked to the CN code for which the application is submitted or under which the sugar will be imported.

4 Import licence applications shall be accompanied by:

- a proof that the applicant has lodged a security of EUR 20 per tonne of the quantity of sugar indicated in box 17 of the licence;
- b in the case of sugar for refining, the undertaking by a sugar producer approved in accordance with Article 17 of Regulation (EC) No 318/2006 to refine the quantities of sugar in question before the end of the third month following that in which the import licence concerned expires.

5 For tariff quotas, the first period for submission of applications for import licences shall start on the day on which the quota in question is opened.

For ACP/India sugar, the first period for submission of applications for import licences shall start on the Monday before 10 June of the previous delivery period. However, where the limit on the quantity that must be delivered in a given delivery period is reached in relation to one of the exporting countries, the first period for submission of import licence applications for the subsequent delivery period in relation to that country shall start on the Monday before 6 May.

#### *Article 5*

1 Member States shall notify the Commission, no later than the first working day of each week, of the quantities of white sugar or raw sugar, where necessary expressed as white sugar equivalent, for which import licence applications, after the application, where necessary, of the acceptance coefficient provided for in Article 10(2), have been submitted during the preceding week.

The quantities applied for shall be broken down by eight-digit CN code and shall state the marketing year or delivery period concerned, the quantities for each country of origin and whether they involve applications for a licence for sugar for refining or for sugar not intended for refining. The Member States shall also inform the Commission if no applications for import licences have been submitted.

2 The Commission shall draw up weekly records of the quantities for which import licence applications have been submitted.

3 Where licence applications reach or exceed the quantity of one of the delivery obligations by country concerned fixed under Article 12 in the case of ACP/India sugar, or of one

of the tariff quotas in the case of other sugars, the Commission shall fix an allocation coefficient in proportion to the quantity available which the Member States shall apply to each application.

The Commission shall also inform the Member States that, as the limit concerned has been reached, applications for licences are no longer admissible for the delivery obligation or the tariff quota in question.

If the overrun on the delivery obligation for ACP/India sugar for a country concerned is 5 % or less of its delivery obligation and 5 000 tonnes or less, the allocation coefficient for that country shall be 100 %.

4 If the Commission has informed the Member States that the limit for accepting applications for licences has been reached and that the records referred to in paragraph 2 indicate that quantities of sugar are still available for the delivery obligations in respect of ACP/India sugar or for the tariff quotas in the case of other sugars, the Commission shall inform the Member States that the limit in question has no longer been reached.

#### *Article 6*

1 Licences shall be issued on the third working day following the notification referred to in Article 5(1). For the quantities to be issued, the Member States shall take account of the allocation coefficient fixed, where appropriate, within this period by the Commission in accordance with Article 5(3).

2 For tariff quotas, licences shall be valid to the end of the marketing year for which they are issued.

3 Member States shall communicate, on the first working day of each week, to the Commission, separately for each tariff quota or delivery obligation and for each country of origin, the quantities of sugar for which import licences have been issued during the preceding week, making a distinction between sugar for refining and sugar not intended for refining.

4 In the event of transfer of an import licence in accordance with Article 9 of Regulation (EC) No 1291/2000, the transferee shall immediately inform the competent authority in the Member State which issued the licence. Obligations to import and to refine are not transferable.

5 For import licences for sugar not intended for refining and notwithstanding Article 35(2) of Regulation (EC) No 1291/2000:

- a if the licence is returned to the issuing body in the first 60 days of its validity, the security forfeit shall be reduced by 80 %;
- b if the licence is returned to the issuing body between the 61st day of its validity and its expiry date, the security forfeit shall be reduced by 50 %.

6 Member States shall notify the Commission, no later than the first working day of each week, of the quantities for which licences have been returned during the preceding week under paragraph 5 of this Article. Within the limit of the quantities of the delivery obligations as laid down in Article 12 and of the tariff quotas as laid down in Articles 19, 24 and 28, the quantities set out in the licences returned in accordance with paragraph 5 of this Article shall be added to the quantities of the delivery obligation or tariff quota concerned.

#### *Article 7*

1 Each Member State shall keep a record of the quantities of white sugar and raw sugar actually imported under the import licences referred to in Article 6(1), where necessary converting the quantities of raw sugar into white sugar equivalent on the basis of the degree

of polarisation indicated, applying the method defined in point III.3 of Annex I to Regulation (EC) No 318/2006.

2 Where release for free circulation does not take place in the Member State which issued the import licence, the Member State of release for free circulation shall keep the original import licence and, where appropriate, the supplementary document completed as provided for in Articles 22 and 23, and forward a copy thereof to the Member State which issued the import licence.

3 In accordance with Article 50(1) of Regulation (EC) No 1291/2000, the full rate of common customs tariff duty applicable on the date of release for free circulation shall apply, apart from in the cases referred to in Article 15(3) of this Regulation, to all quantities of white sugar by *tel quel* weight, raw sugar converted into white sugar equivalent or, for CXL concessions sugar, of raw sugar by *tel quel* weight imported in excess of the quantities shown in the import licence concerned.

#### *Article 8*

Member States shall communicate to the Commission separately for each tariff quota or delivery obligation and for each country of origin:

- (a) before the end of each month, the quantities of sugar, by *tel quel* weight and in white sugar equivalent actually imported three months before;
- (b) before 1 March and for the previous marketing year or the previous delivery period, as the case may be:
  - (i) the total quantity actually imported:
    - in the form of sugar for refining, expressed in *tel quel* weight and in white sugar equivalent,
    - in the form of sugar not intended for refining, expressed in *tel quel* weight and in white sugar equivalent,
  - (ii) the quantity of sugar, by *tel quel* weight and in white sugar equivalent, that has actually been refined.

#### *Article 9*

1 The communications referred to in Articles 5(1), 6(3) and (6), and 8 shall be transmitted electronically in accordance with forms made available to the Member States by the Commission.

2 At the request of the Commission, the Member States shall forward to it details of the quantities of products admitted for free circulation under annual tariff quotas and preferential agreements during certain months to be specified in accordance with Article 308d of Regulation (EEC) No 2454/93.

### CHAPTER III

#### TRADITIONAL SUPPLY NEEDS

#### *Article 10*

1 Notwithstanding Article 4(1), and within the limits of the quantities per Member State for which import licences for sugar for refining may be issued within the framework of the traditional supply needs referred to in Article 29(1) and (2) of Regulation (EC) No 318/2006,

applications for import licences to the competent authority in the Member State concerned for sugar for refining may be submitted only by:

- a full-time refiners established in that Member State up to 30 June of the marketing year;
- b any Community full-time refiner from 30 June up to the end of the marketing year.

2 The Member States concerned shall keep weekly records of the applications for import licences for sugar for refining with the exception of applications without reduction of the full rate of duty applicable to import.

Without prejudice to paragraph 3 of this Article and to Article 5(3) of this Regulation, where, in a Member State, applications for import licences for sugar for refining for a marketing year, with the exception of applications without reduction of the full rate of duty applicable to import, are equal to or greater than the limit referred to in paragraph 1 of this Article, Member States shall inform the Commission that they have reached the limit of their traditional supply needs for import and, where appropriate, shall fix an allocation coefficient in proportion to the quantity available to apply to each licence application for sugar for refining for the current week.

3 Without prejudice to Article 5(3), where applications for import licences for sugar for refining, with the exception of applications without reduction of the full rate of duty applicable to import for a marketing year, are equal to the total of the quantities referred to in paragraph 2 of this Article, the Commission shall inform the Member States that the limit of the traditional supply needs to import has been reached at Community level.

From the date of the notification referred to in the first subparagraph until the end of the marketing year concerned, any party may apply for licences for sugar for refining except for ACP/India sugar in the delivery period starting during that marketing year. In this case, applications for import licences for ACP/India sugar for refining shall be submitted in accordance with paragraph 1(a) and shall be recorded under the traditional supply needs for the following marketing year.

#### *Article 11*

1 Each holder of an import licence for sugar for refining shall, within six months following the expiry of the import licence concerned, provide the Member State which issued it with proof acceptable to it that refining has taken place. Where the sugar is not refined within the period set in Article 4(4)(b), the applicant shall pay, before 1 June following the marketing year concerned, an amount equal to EUR 500 per tonne for the quantities of sugar not refined except in cases of *force majeure* or for exceptional technical reasons.

2 Sugar producers approved in accordance with Article 17 of Regulation (EC) No 318/2006 shall declare to the competent authority in the Member State before 1 March following the marketing year concerned the quantities of sugar which they have refined in that marketing year, stating:

- a the quantities of sugar corresponding to import licences for sugar for refining, giving the reference numbers of the licences in question;
- b the quantities of sugar produced in the Community, giving the references of the approved undertaking which produced that sugar;
- c other quantities of sugar, stating their origin.

3 Approved sugar producers shall pay, before 1 June following the marketing year concerned, an amount equal to EUR 500 per tonne for the quantities of sugar for which:

- a the time limit referred to in Article 4(4)(b) has not been complied with;

- b they cannot provide proof acceptable to the Member State that the sugar laid down in paragraph 2(c) of this Article is not imported sugar not intended for refining or, if it is sugar for refining, that it has not been refined for exceptional technical reasons or due to a case of *force majeure*.

## CHAPTER IV

### ACP/INDIA SUGAR

#### *Article 12*

1 The quantities of the delivery obligations for each exporting country concerned shall be determined in accordance with the procedure referred to in Article 39(2) of Regulation (EC) No 318/2006, in accordance with Articles 3 and 7 of the ACP Protocol, Articles 3 and 7 of the Agreement with India, and Articles 14 and 15 of this Regulation.

- 2 The quantities of the delivery obligations for a delivery period:
- a shall be determined provisionally before 1 May preceding the period in question;
  - b shall be adopted before 1 February of the period in question;
  - c shall occasionally be adjusted during the period in question if necessary as a result of new information, in particular to resolve duly justified specific cases.

The delivery obligations taken into account for the issue of licences as referred to in Article 5 shall be equal to the quantities determined under paragraph 1 of this Article, adjusted, if necessary, in line with the decisions taken under Articles 3 and 7 of the ACP Protocol and Articles 3 and 7 of the Agreement with India.

- 3 The quantities of the delivery obligations shall be determined taking into account:
- a the deliveries actually recorded over the preceding delivery periods;
  - b the quantities declared as quantities which could not be delivered, in accordance with Article 7 of the ACP Protocol and Article 7 of the Agreement with India.

Where the quantities for which import licences have been issued exceed the quantities of deliveries actually recorded in the previous delivery periods, without prejudice to the results of the investigations to be carried out by the competent authorities, the nominal quantities of the licences for which it has not been possible to establish the actual import into the Community shall be added to the quantities referred to in point (a) of the first subparagraph.

4 The adjustments referred to in paragraph 2(c) may comprise transfers of quantities between two consecutive delivery periods provided that this does not disrupt the supply arrangements referred to in Article 29 of Regulation (EC) No 318/2006.

5 The total for each delivery period of the quantities of the delivery obligations for the different exporting countries concerned shall be imported as ACP/India sugar under the delivery obligations at zero duty.

#### *Article 13*

1 The formal date of delivery of a consignment of ACP/India sugar shall be the date of presentation to customs of the consignment referred to in Article 40 of Council Regulation (EEC) No 2913/92<sup>(14)</sup>.

Proof of the formal date of delivery shall be furnished by presenting the copy of the supplementary document referred to in Article 17(1) or Article 18(2) of this Regulation, as appropriate.

2 Notwithstanding paragraph 1, where the importer provides a declaration from the master of the vessel concerned certified by the competent port authority showing that the consignment is ready for unloading at the port concerned, the formal date of delivery shall be the date on which the consignment is ready for unloading as shown on the declaration.

#### *Article 14*

1 Where a quantity of ACP/India sugar covering all or part of the delivery obligations is delivered after the expiry of the relevant delivery period, the delivery shall nevertheless be counted against that period if the quantity concerned was loaded at the exporting port in good time, taking into account the normal duration of transport.

The normal duration of transport shall be the number of days obtained by dividing by 480 the distance in nautical miles of the normal route separating the two ports in question.

2 Paragraph 1 shall not apply to a quantity which has been the subject of a Commission decision in accordance with Article 7(1) or (2) of the ACP Protocol or Article 7(1) or (2) of the Agreement with India.

#### *Article 15*

1 Where, for a given exporting country, the total quantity of ACP/India sugar counted against a given delivery period is less than the delivery obligations, the provisions of Article 7 of the ACP Protocol or Article 7 of the Agreement with India shall apply.

2 Paragraph 1 shall not apply where the difference between the quantity of delivery obligations and the total quantity of ACP/India sugar counted is 5 % or less than the delivery obligations and 5 000 tonnes or less of sugar expressed as white sugar.

3 Notwithstanding Article 50(1) of Regulation (EC) No 1291/2000, and provided they are covered by the certificate of origin referred to in Articles 16 or 17 of this Regulation, as appropriate, the quantities imported within the positive tolerance provided for in Article 8(4) of Regulation (EC) No 1291/2000 shall be eligible under the arrangements for ACP/India sugar.

4 Where paragraphs 2 and 3 apply, the balance of the differences shall, as appropriate, be added to the delivery obligations or deducted from them, by the Commission.

#### *Article 16*

1 Import licence applications and licences shall contain the following entries:

- a in box 8: the country of origin (country covered by the ACP Protocol, or India);
- b in boxes 17 and 18: the quantity of sugar in white sugar equivalent, which may not exceed the delivery obligation for the country concerned laid down in accordance with Article 12;
- c in box 20: the delivery period to which they relate and at least one of the entries listed in part A of Annex III.

2 Import licence applications shall be accompanied by the original of the export licence issued by the competent authorities of the exporting country in accordance with the model in Annex II for a quantity equal to that in the licence application. This export licence may be replaced by a certified copy issued by the competent authorities of the exporting country of the

proof of origin provided for in Article 17 for the countries covered by the ACP Protocol or in Article 18 for India.

3 Licences shall be valid to the end of the third month following that in which they were actually issued for ACP/India sugar not intended for refining. For ACP/India sugar for refining, licences shall be valid until the end of the delivery period for which they are issued or, in the case of licences issued from 1 April, until the end of the third month following that in which they were actually issued.

4 Notwithstanding Article 18(1) of Regulation (EC) No 1291/2000, import licences containing in boxes 15 and 16 the description and CN code 1701 99 10 may be used for imports:

- a of sugar falling within CN code 1701 11 10 in the case of a licence for sugar for refining;
