3 The totality of the production charge paid in accordance with paragraph 1 shall be charged by the Member State to the undertakings on its territory according to the quota held during the marketing year concerned.

Payments shall be made by the undertakings by the end of February of the relevant marketing year at the latest.

[^{F6} Article 52

Withdrawal of sugar

1 In order to preserve the structural balance of the market at a price level which is close to the reference price, taking into account the commitments of the Community resulting from agreements concluded in accordance with Article 300 of the Treaty, the Commission may decide to withdraw from the market, for a given marketing year, those quantities of sugar or isoglucose produced under quotas which exceed the threshold calculated in accordance with paragraph 2 of this Article.

2 The withdrawal threshold referred to in paragraph 1 of this Article shall be calculated, for each undertaking holding a quota, by multiplying its quota by a coefficient, which shall be fixed by the Commission by 16 March of the previous marketing year, on the basis of expected market trends. For the marketing year 2008/2009, that coefficient shall be applied to the quota after renunciations in accordance with Regulation (EC) No 320/2006 granted on 15 March 2008 at the latest.

3 Each undertaking provided with a quota shall store at its own expense until the beginning of the following marketing year the sugar produced under quota beyond the threshold calculated in accordance with paragraph 2. The sugar or isoglucose quantities withdrawn during a marketing year shall be treated as the first quantities produced under quota for the following marketing year.

By way of derogation from the first subparagraph of this paragraph, taking into account the expected sugar market trends, the Commission may decide to consider, for the current and/or the following marketing year, all or part of the withdrawn sugar or isoglucose as:

- a surplus sugar or surplus isoglucose available to become industrial sugar or industrial isoglucose; or
- b temporary quota production of which a part may be reserved for export respecting the commitments of the Community resulting from agreements concluded in accordance with Article 300 of the Treaty.

4 If sugar supply in the Community is inadequate, the Commission may decide that a certain quantity of withdrawn sugar may be sold on the Community market before the end of the period of withdrawal.

5 In the case where withdrawn sugar is treated as the first sugar production of the following marketing year, the minimum price of that marketing year shall be paid to beet growers.

In the case where withdrawn sugar becomes industrial sugar or is exported according to points (a) and (b) of paragraph 3 of this Article, the requirements of Article 49 on the minimum price shall not apply.

In the case where withdrawn sugar is sold on the Community market before the end of the period of withdrawal according to paragraph 4, the minimum price of the ongoing marketing year shall be paid to beet growers.]

The adjustments shall result from the application of paragraph 2 of this Article and Article 58 of this Regulation, and of Articles 3 and 4a(4) of Regulation (EC) No 320/2006.

Article 66

National quotas

1 The national quotas for the production of milk and other milk products marketed during seven consecutive periods of twelve months commencing on 1 April 2008 (hereinafter referred to as ‘twelve-month periods’) are fixed in point 1 of Annex IX.

2 The quotas referred to in paragraph 1 shall be divided between producers in accordance with Article 67, distinguishing between deliveries and direct sales. Any overrun of the national quotas shall be determined nationally in each Member State, in accordance with this Section and making a distinction between deliveries and direct sales.

3 The national quotas set out in point 1 of Annex IX shall be fixed without prejudice to possible review in the light of the general market situation and particular conditions existing in certain Member States.

4 For Bulgaria and Romania a special restructuring reserve shall be established as set out in point 2 of Annex IX. This reserve shall be released as from 1 April 2009 to the extent that the on-farm consumption of milk and milk products in each of these countries has decreased since 2002.

The decision on releasing the reserve and its distribution to the deliveries and direct sales quota shall be taken by the Commission on the basis of a report to be submitted by Bulgaria and Romania to the Commission by 31 December 2008. The decision on releasing the reserve and of its distribution to the deliveries and direct sales quota shall be taken by the Commission in accordance with the procedure referred to in Article 195(2) on the basis of an assessment of a report to be submitted by Croatia by 31 December 2013. That report shall detail the results and trends of the actual restructuring process in Croatia's dairy sector, and in particular the shift from production for on-farm consumption to production for the market.]

2 Producers may have either one or two individual quotas, one for deliveries and the other for direct sales. A producer's quantities may be converted from one quota to the other only by the competent authority of the Member State, at the duly justified request of the producer.

3 Where a producer has two quotas, his contribution to any surplus levy due shall be calculated separately for each.

4 The part of the Finnish national quota allocated to the deliveries referred to in Article 66 may be increased by the Commission to compensate Finnish SLOM producers up to 200 000 tonnes. This reserve, to be allocated in accordance with Community legislation, must be used exclusively on behalf of producers whose right to take up production again has been affected as a result of accession.

5 Individual quotas shall be modified, where appropriate, for each of the twelve-month periods concerned, so that, for each Member State, the sum of the individual quotas for the deliveries and that for the direct sales does not exceed the corresponding part of the national quota adapted in accordance with Article 69, taking account of any reductions made for allocation to the national reserve as provided for in Article 71.

Article 68

1 The Commission shall adapt, for each Member State and for each period, before the end of that period, the division between ‘deliveries’ and ‘direct sales’ of national quotas, in the light of the conversions requested by producers, between individual quotas for deliveries and for direct sales.

2 Member States shall each year forward to the Commission, by dates and according to rules to be fixed by the Commission in accordance with Article 192(2), the information necessary to:

- a make the adaptation referred to in paragraph 1 of this Article;
- b calculate the surplus levy to be paid by them.

Article 70

Fat content

1 Each producer shall be assigned a reference fat content, to be applied to the individual quota for deliveries allocated to that producer.

2 For the quotas allocated to producers on 31 March 2008 in accordance with Article 67(1), the reference fat content referred to in paragraph 1 shall be the same as the reference fat content applied to that quota at that date.

3 The reference fat content shall be altered during the conversion referred to in Article 67(2) and where quotas are acquired, transferred or temporarily transferred in accordance with rules to be established by the Commission.

4 For new producers having an individual quota for deliveries allocated entirely from the national reserve, the fat content shall be fixed in accordance with rules to be established by the Commission.

5 The individual reference fat content referred to in paragraph 1 shall be adjusted, where appropriate, upon the entry into force of this Regulation and thereafter, at the beginning of each twelve-month period as necessary, so that, for each Member State, the weighted average of the individual representative fat contents does not exceed by more than 0,1 gram per kg the reference fat content set in Annex X.

2 Any additional quota allocated to a Member State shall automatically be placed in the national reserve and divided into deliveries and direct sales according to foreseeable needs.

3 The quotas placed in the national reserve shall not have a reference fat content.

Article 72

Cases of inactivity

1 When a natural or legal person holding individual quotas no longer meets the conditions referred to in point (c) of Article 65 during a twelve-month period, the corresponding quantities shall revert to the national reserve no later than 1 April of the following calendar year, unless that person becomes once again a producer within the meaning of point (c) of Article 65 before that date.

Where that person becomes once again a producer not later than the end of the second twelve-month period following withdrawal, all or part of the individual quota which had been withdrawn shall revert to that person no later than 1 April following the date of application.

2 Where producers do not market a quantity equal to at least [^{F5}85 %] of their individual quota during at least one twelve-month period, Member States may decide whether and on what conditions all or part of the unused quota shall revert to the national reserve.

Member States may determine on what conditions a quota shall be re-allocated to the producer concerned should he resume marketing.

3 Paragraphs 1 and 2 shall not apply in cases of *force majeure* and in duly justified cases temporarily affecting the production capacity of the producers concerned and recognised by the competent authority.

The part of the quota which, where applicable, has not been transferred with the holding shall be added to the national reserve.

2 Where quotas have been or are transferred in accordance with paragraph 1 by means of rural leases or by other means involving comparable legal effects, Member States may decide, on the basis of objective criteria and with the aim of ensuring that quotas are attributed solely to producers, that the quota shall not be transferred with the holding.

3 Where land is transferred to the public authorities and/or for use in the public interest, or where the transfer is carried out for non-agricultural purposes, Member States shall ensure that the necessary measures are taken to protect the legitimate interests of the parties, and in particular, that producers giving up such land are in a position to continue milk production if they so wish.

4 Where there is no agreement between the parties, in the case of tenancies due to expire without any possibility of renewal on similar terms, or in situations involving comparable legal effects, the individual quotas in question shall be transferred in whole or in part to the producer taking them over, in accordance with provisions adopted by the Member States, taking account of the legitimate interests of the parties.

Article 81

Role of purchasers

1 Purchasers shall be responsible for collecting from producers contributions due from the latter by virtue of the surplus levy and shall pay to the competent body of the Member State, before a date and following a procedure to be laid down by the Commission, the amount of these contributions deducted from the price of the milk paid to the producers responsible for the overrun or, failing this, collected by any other appropriate means.

2 Where a purchaser fully or partially replaces one or more other purchasers, the individual quotas available to the producers shall be taken into account for the remainder of the twelve-month period in progress, after deduction of quantities already delivered and account being taken of their fat content. This paragraph shall also apply where a producer transfers from one purchaser to another.

3 Where, during the reference period, quantities delivered by a producer exceed that producer's available quota, the relevant Member State may decide that the purchaser shall deduct part of the price of the milk in any delivery by the producer concerned in excess of the quota, by way of an advance on the producer's contribution, in accordance with detailed rules laid down by the Member State. The Member State may make specific arrangements to enable purchasers to deduct this advance where producers deliver to several purchasers.

2 Member States shall establish the basis of calculation of the producer's contribution to the surplus levy due on the total quantity of milk sold, transferred or used to manufacture the milk products sold or transferred by applying criteria fixed by the Commission.

3 No correction linked to fat content shall be taken into account for the purpose of drawing up the definitive surplus levy statement.

4 The Commission shall determine how and when the surplus levy must be paid to the Member State's competent body.

Article 84

Amounts paid in excess or unpaid

1 Where, in the case of deliveries or direct sales, the surplus levy is found to be payable and the contribution collected from producers is greater than that levy, the Member State may:

- a use partially or totally the excess to finance the measures in point (a) of Article 75(1), and/or
- b redistribute it partially or totally to producers who:
 - fall within priority categories established by the Member State on the basis of objective criteria and within the period to be laid down by the Commission, or
 - are affected by an exceptional situation resulting from a national rule unconnected with the quota system for milk and other milk products set up by this Chapter.

2 Where it is established that no surplus levy is payable, any advances collected by purchasers or the Member State shall be reimbursed no later than the end of the following twelve-month period.

3 Where a purchaser does not meet the obligation to collect the producers' contribution to the surplus levy in accordance with Article 81, the Member State may collect unpaid amounts directly from the producer, without prejudice to any penalties it may impose upon the defaulting purchaser.

4 Where a producer or a purchaser fails to comply with the time limit for payment, interest on arrears to be fixed by the Commission shall be paid to the Member State.

3 An undertaking producing potato starch shall not conclude cultivation contracts with potato producers for a quantity of potatoes which would produce a quantity of starch in excess of its quota as referred to in paragraph 2.

Subsection I

Unlawful plantings

Article 85a

Unlawful plantings planted after 31 August 1998

1 Producers shall grub up at their own cost areas planted with vines without a corresponding planting right, where applicable, after 31 August 1998.

2 Pending grubbing-up in accordance with paragraph 1, grapes and products made from grapes from areas referred to in that paragraph may be put into circulation only for the purposes of distillation at the exclusive expense of the producer. The products resulting from distillation may not be used in the preparation of alcohol having an actual alcoholic strength by 80 % volume or less.

3 Without prejudice, where applicable, to earlier penalties imposed by Member States, Member States shall impose penalties on producers who have not complied with this grubbing-up obligation graduated according to the severity, extent and duration of the non-compliance.

4 The end of the transitional ban on new plantings on 31 December 2015, as provided for in Article 85g(1), shall not affect the obligations provided for in this Article.

Article 85b

Obligatory regularisation of unlawful plantings planted before 1 September 1998

1 Producers shall, against the payment of a fee and not later than 31 December 2009, regularise areas planted with vines without a corresponding planting right, where applicable, before 1 September 1998.

Without prejudice to any proceedings under clearance of accounts, the first subparagraph shall not apply to areas regularised on the basis of Article 2(3) of Regulation (EC) No 1493/1999.

2 The fee referred to in paragraph 1 shall be determined by Member States. It shall be equivalent to at least twice the average value of the corresponding planting right in the region concerned.

3 Pending regularisation under paragraph 1, grapes or products made from grapes from areas referred to in that paragraph may be put into circulation only for the purpose of distillation at the exclusive expense of the producer. The products may not be used in the preparation of alcohol having an actual alcoholic strength of 80 % volume or less.

4 Unlawful areas referred to in paragraph 1 which are not regularised in accordance with that paragraph by 31 December 2009 shall be grubbed up by the producers concerned at their own expense.

Status: Point in time view as at 31/12/2013.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EC) No 1234/2007 (repealed). Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Member States shall impose penalties, graduated according to the severity, extent and duration of the non-compliance, on producers who do not comply with this grubbing-up obligation.

Pending the grubbing-up referred to in the first subparagraph, paragraph 3 shall apply *mutatis mutandis*.

5 The end of the transitional ban on new plantings on 31 December 2015, as provided for in Article 85g(1), shall not affect the obligations provided for in paragraphs 3 and 4.

Article 85c

Verification of non-circulation or distillation

1 In relation to Article 85a(2) and Article 85b(3) and (4), Member States shall require proof of non-circulation of the products concerned or, where the products concerned are distilled, the submission of distillation contracts.

2 Member States shall verify non-circulation and distillation referred to in paragraph 1. They shall impose penalties in case of non-compliance.

3 Member States shall notify the Commission of the areas subject to distillation and the corresponding volumes of alcohol.

Article 85d

Those rules may include:

- (a) details on the communication requirements of Member States, including possible reductions of the budget allocations referred to in Annex Xb in case of non-compliance;
- (b) details on the penalties to be imposed by Member States in case of non-compliance with the obligations laid down in Articles 85a, 85b and 85c.

Status: Point in time view as at 31/12/2013.

Subsection II

Transitional planting right regime

Article 85f

Duration

This Subsection shall apply until 31 December 2015.

Article 85g

Transitional prohibition on planting vines

1 Without prejudice to Article 120a(1) to (6) and in particular paragraph 4 thereof, the planting of vines of wine grape varieties classifiable according to Article 120a(2) shall be prohibited.

2 Grafting-on of wine grape varieties classifiable according to Article 120a(2) to varieties other than wine grape varieties referred to in that Article shall also be prohibited.

3 Notwithstanding paragraphs 1 and 2, plantings and grafting-on as referred to in those paragraphs shall be allowed if covered by:

- a a new planting right, as provided for in Article 85h;
- b a replanting right, as provided for in Article 85i;
- c a planting right granted from a reserve, as provided for in Articles 85j and 85k.

4 The planting rights referred to in paragraph 3 shall be granted in hectares.

5 Member States may decide to maintain the prohibition referred to in paragraph 1 in their territory or parts of their territory until 31 December 2018 at the latest. In such cases the rules governing the transitional planting right regime as laid down in this Subsection, including this Article, shall apply accordingly in the given Member State.

Article 85h

New planting rights

1 Member States may grant new planting rights to producers in respect of areas:

- a intended for new plantings carried out under measures for land consolidation or measures concerning compulsory purchases in the public interest adopted under national law;

- b intended for experimental purposes;

- c intended for graft nurseries; or

- d whose wine or vine products are intended solely for the consumption by the wine-grower's household.

2 New planting rights granted shall be:

- a exercised by the producer to whom they are granted;

- b used before the end of the second wine year after the one in which they were granted;

- c used for the purposes for which they were granted.

Status: Point in time view as at 31/12/2013.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EC) No 1234/2007 (repealed). Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Article 85i

Replanting rights

1 Member States shall grant replanting rights to producers who have grubbed up an area planted with vines.

However, grubbed-up areas for which a grubbing-up premium is granted in accordance with Subsection III shall not generate replanting rights.

2 Member States may grant replanting rights to producers who undertake to grub up an area planted with vines. In such cases, the grubbing-up of the pledged area shall be carried out at the latest at the end of the third year after which new vines for which the replanting rights had been granted have been planted.

3 Replanting rights granted shall correspond to the equivalent of the grubbed-up area in terms of pure crop.

4 Replanting rights shall be exercised on the holding in respect of which they were granted. Member States may further stipulate that such replanting rights may be exercised only on the area where the grubbing-up was carried out.

5 By way of derogation from paragraph 4, Member States may decide that replanting rights may be transferred, in whole or in part, to another holding in the same Member State in the following cases:

- a part of the holding concerned is transferred to that other holding;
- b areas on that other holding are intended for:
 - (i) the production of wines with a protected designation of origin or a protected geographical indication; or
 - (ii) the cultivation of graft nurseries.

Member States shall ensure that the application of the derogation provided for in the first subparagraph does not lead to an overall increase in production potential on their territory, in particular when transfers are made from non-irrigated to irrigated areas.

6 Paragraphs 1 to 5 shall apply *mutatis mutandis* to rights similar to replanting rights acquired under prior Community or national legislation.

7 Replanting rights granted under Article 4(5) of Regulation (EC) No 1493/1999 shall be used within the periods provided for therein.

Article 85j

National and regional reserve of planting rights

1 In order to improve management of the production potential, Member States shall create a national reserve or regional reserves of planting rights.

2 Member States which have established national or regional reserves of planting rights under Regulation (EC) No 1493/1999 may maintain those reserves as long as they apply the transitional planting right regime in accordance with this Subsection.

Status: Point in time view as at 31/12/2013.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EC) No 1234/2007 (repealed). Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

3 The following planting rights shall be allocated to national or regional reserves if they are not used within the prescribed period:

- a new planting rights;
- b replanting rights;
- c planting rights granted from the reserve.

4 Producers may transfer replanting rights to national or regional reserves. The conditions of such transfer, where necessary in return for a payment from national funds, shall be determined by the Member States taking into account the legitimate interests of the parties.

5 By way of derogation from paragraph 1, Member States may decide not to implement a reserve system provided that they can prove that an effective alternative system for managing planting rights exists throughout their territory. The alternative system may, where necessary, derogate from the relevant provisions of this Subsection.

The first subparagraph shall also apply to Member States which cease the operation of national or regional reserves under Regulation (EC) No 1493/1999.

Article 85k

Granting planting rights from the reserve

1 Member States may grant rights from a reserve:

- a without payment, to producers who are under 40 years of age, who possess adequate occupational skills and competences, who are setting up for the first time and who are established as the head of the holding;
- b against payment into national or, if appropriate, regional funds, to producers who intend to use the rights to plant vineyards the production of which has an assured outlet.

Member States shall define the criteria for setting the amounts of the payment referred to in point (b) of the first subparagraph, which may vary depending on the final intended product of the vineyards concerned and on the residual transitional period during which the prohibition on new plantings, as provided for in Article 85g(1) and (2), applies.

2 Where planting rights granted from a reserve are used, Member States shall ensure that:

- a the location and the varieties and the cultivation techniques used guarantee that the subsequent production is adapted to market demand;
- b the yields concerned are typical of the average in the region, in particular where planting rights originating in non-irrigated areas are used in irrigated areas.

3 Planting rights granted from a reserve which are not used before the end of the second wine year after the one in which they were granted shall be forfeited and re-allocated to the reserve.

4 Planting rights in a reserve which are not disbursed before the end of the fifth wine year following their allocation to the reserve shall be extinguished.

5 If regional reserves exist in a Member State, the Member State may lay down rules permitting the transfer of planting rights between regional reserves. If both regional and national reserves exist in a Member State, the Member State may also allow for transfers between those reserves.

Transfers may be subject to a reduction coefficient.

Status: Point in time view as at 31/12/2013.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EC) No 1234/2007 (repealed). Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Article 85l

De minimis

This Subsection shall not apply in Member States where the Community planting right regime did not apply by 31 December 2007.

Article 85m

Stricter national rules

Member States may adopt stricter national rules in respect of the award of new planting rights or replanting rights. They may require that the respective applications and the relevant information to be supplied therein be supplemented by additional information necessary for monitoring the development of production potential.

Article 85n

Implementing measures

Detailed rules for the implementation of this Subsection shall be adopted by the Commission.

Those rules may in particular include:

- (a) provisions to avoid excessive administrative charges when applying the provisions of this Subsection;
- (b) the co-existence of vines pursuant to Article 85i(2);
- (c) the application of the reduction coefficient referred to in Article 85k(5).

Article 85r

Amount of the grubbing-up premium

- 1 Scales for the grubbing-up premiums to be granted shall be fixed by the Commission.

A homonymous name which misleads the consumer into believing that products come from another territory shall not be registered even if the name is accurate as far as the actual territory, region or place of origin of the products in question is concerned.

The use of a registered homonymous name shall be subject to there being a sufficient distinction in practice between the homonym registered subsequently and the name already on the register, having regard to the need to treat the producers concerned in an equitable manner and the need not to mislead the consumer.

Article 125e

1 In Member States which acceded to the European Union on 1 May 2004 or thereafter, or in the outermost regions of the Community as referred to in Article 299(2) of the Treaty, or in the smaller Aegean Islands as referred to in Article 1(2) of Regulation (EC) No 1405/2006, producer groups may be formed as a legal entity or clearly defined part of a legal entity, on the initiative of farmers who are growers of one or more products of the fruit and vegetables sector and/or of such products solely intended for processing, with a view to being recognised as a producer organisation.

Such producer groups may be allowed a transitional period in which to meet the conditions for recognition as a producer organisation in accordance with Article 122.

In order to qualify, those producer groups shall present a phased recognition plan to the relevant Member State, acceptance of which shall signal the start of the transitional period referred to in the second subparagraph and shall constitute a preliminary recognition. Subsection III

Extension of rules to producers in an economic area

Article 125f

Extension of rules

1 In cases where a producer organisation in the fruit and vegetables sector which operates in a specific economic area is considered, in respect of a specific product, to be representative of production and producers in that area, the Member State concerned may, at the request of the producer organisation, make the following rules binding on producers established in that economic area who do not belong to the producer organisation:

- a the rules referred to in Article 125a(1)(a);
- b the rules required to implement the measures referred to in Article 103c(2)(c).

The first subparagraph shall apply on condition that those rules:

- (a) have been in force for at least one marketing year;
- (b) are included in the exhaustive list in Annex XVIa;
- (c) are made binding for no more than three marketing years.

However, the condition referred to in point (a) of the second subparagraph shall not apply if the rules concerned are those listed in points 1, 3 and 5 of Annex XVIa. In this case, the extension of rules may not apply for more than one marketing year.

2 For the purposes of this subsection, 'economic area' means a geographical zone made up of adjoining or neighbouring production regions in which production and marketing conditions are homogeneous.

Member States shall notify a list of economic areas to the Commission.

Within one month of notification, the Commission shall approve the list or shall, after consultation with the Member State concerned, decide on the amendments which the latter must make to it. The Commission shall make the approved list publicly available by the methods it considers appropriate.

3 A producer organisation shall be deemed representative within the meaning of paragraph 1 where its members account for at least 50 % of the producers in the economic area in which it operates and it covers at least 60 % of the volume of production of that area. Without prejudice to paragraph 5, in calculating these percentages account shall not be taken of producers or production of organic products covered, until 31 December 2008, by Regulation (EEC) No 2092/91 and, from 1 January 2009, by Regulation (EC) No 834/2007.

4 The rules which are made binding on all producers in a specific economic area:

- a shall not cause any damage to other producers in the Member State concerned or in the Community;

Status: Point in time view as at 31/12/2013.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EC) No 1234/2007 (repealed). Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- b shall not apply, unless they expressly cover them, to products delivered for processing under a contract signed before the beginning of the marketing year, with the exception of the rules on production reporting referred to in Article 125a(1)(a);
- c shall not be incompatible with Community and national rules in force.

5 Rules may not be made binding on producers of organic products covered, until 31 December 2008, by Regulation (EEC) No 2092/91 and, from 1 January 2009, by Regulation (EC) No 834/2007 unless such a measure has been agreed to by at least 50 % of such producers in the economic area in which the producer organisation operates and that organisation covers at least 60 % of such production of that area.

Article 125g

Notification

Member States shall notify the Commission forthwith of the rules which they have made binding on all producers in a specific economic area pursuant to Article 125f(1). The Commission shall make these rules publicly available by the methods it considers appropriate.

Article 125h

Repeal of the extension of rules

The Commission shall decide that a Member State shall repeal an extension of the rules decided on by that Member State pursuant to Article 125f(1):

- (a) where it finds that the extension in question to other producers excludes competition in a substantial part of the internal market or jeopardises free trade, or that the objectives of Article 33 of the Treaty are endangered;
- (b) where it finds that Article 81(1) of the Treaty applies to the rules extended to other producers. The Commission's decision with regard to those rules shall apply only from the date of such a finding;
- (c) where it finds after checks that this subsection has not been complied with.

Article 125i

Financial contributions of non-member producers

Where Article 125f(1) is applied, the Member State concerned may decide, on scrutiny of evidence presented, that non-member producers shall be liable to the producer organisation for the part of the financial contributions paid by the producer members, insofar as these are used to cover:

- (a) administrative costs resulting from applying the rules referred to in Article 125f(1);
- (b) the cost of research, market studies and sales promotion undertaken by the organisation or association and benefiting all producers in the area.

Status: Point in time view as at 31/12/2013.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EC) No 1234/2007 (repealed). Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Article 125j

Extension of rules of associations of producer organisations

For the purposes of this subsection, any reference to producer organisations shall also be construed as a reference to recognised associations of producer organisations.

Subsection IV

Interbranch organisations in the fruit and vegetables sector

Article 125k

Recognition and withdrawal of recognition

1 If warranted by the Member State's structures, Member States may recognise as interbranch organisations in the fruit and vegetables sector all legal entities established on their territory which make an appropriate application, on condition that:

- a they carry out their activity in one or more regions in the Member State concerned;
- b they represent a significant share of the production of, trade in and/or processing of fruit and vegetables and products processed from fruit and vegetables in the region or regions in question and, where more than one region is involved, they can demonstrate a minimum level of representativeness in each region for each of the branches that they group;
- c they carry out two or more of the activities referred to in Article 123(3)(c);
- d they are not themselves engaged in the production or processing or marketing of fruit and vegetables or products processed from fruit and vegetables;
- e they do not engage in any of the agreements, decisions and concerted practices referred to in Article 176a(4).

2 Before granting recognition Member States shall notify the Commission of the interbranch organisations which have applied for recognition, providing all relevant information about their representativeness and their various activities, together with all other information needed for an assessment.

The Commission may object to recognition within a time limit of two months after notification.

3 Member States shall:

- a decide whether to grant recognition within three months of the lodging of an application with all relevant supporting documents;

Status: Point in time view as at 31/12/2013.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EC) No 1234/2007 (repealed). Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (ii) the interbranch organisation engages in any of the agreements, decisions and concerted practices referred to in Article 176a(4), without prejudice to any other penalties to be imposed pursuant to national law;
- (iii) the interbranch organisation fails to comply with the notification obligation referred to in Article 176a(2);
- d notify the Commission, within two months, of any decision to grant, refuse or withdraw recognition.

4 The Commission shall lay down the terms and conditions on which and the frequency with which the Member States are to report to the Commission on the activities of interbranch organisations.

The Commission may, as a result of checks, request a Member State to withdraw recognition.

5 Recognition shall constitute an authorisation to carry out the activities listed in Article 123(3)(c), subject to the terms of this Regulation.

6 The Commission shall make publicly available a list of recognised interbranch organisations, by the methods it considers appropriate, indicating the economic sphere or the area of their activities and the activities carried out within the meaning of Article 1251. Withdrawals of recognition shall also be made publicly available.

Article 1251

2 An interbranch organisation shall be deemed representative within the meaning of paragraph 1 where it accounts for at least two thirds of the production or trade in or processing of the product or products concerned in the region or regions concerned of a Member State. Where the application for extension of its rules to other operators covers more than one region, the interbranch organisation must demonstrate a minimum level of representativeness for each of the branches it groups in each of the regions concerned.

3 The rules for which extension to other operators may be requested:

- c may be made binding for no more than three marketing years;
- d shall not cause any damage to other operators in the Member State concerned or the Community.

However, the condition referred to in point (b) of the first subparagraph shall not apply if the rules concerned are those listed in points 1, 3 and 5 of Annex XVIa. In this case, the extension of rules may not apply for more than one marketing year.

Article 185f

Contractual relations in the milk and milk products sector

1 If a Member State decides that every delivery of raw milk in its territory by a farmer to a processor of raw milk must be covered by a written contract between the parties and/or decides that first purchasers must make a written offer for a contract for the delivery of raw milk by the farmers, such a contract and/or such an offer for a contract shall fulfil the conditions laid down in paragraph 2.

Where the Member State decides that deliveries of raw milk by a farmer to a processor of raw milk must be covered by a written contract between the parties, it shall also decide which stage or stages of the delivery shall be covered by such a contract if the delivery of raw milk is made through one or more collectors. For the purposes of this Article, a ‘collector’ means an undertaking which transports raw milk from a farmer or another collector to a processor of raw milk or another collector, where the ownership of the raw milk is transferred in each case.

- 2 The contract and/or the offer for a contract shall:
- a be made in advance of the delivery;
 - b be made in writing; and
 - c include, in particular, the following elements:
 - (i) the price payable for the delivery, which shall:
 - be static and be set out in the contract, and/or,
 - be calculated by combining various factors set out in the contract, which may include market indicators reflecting changes in market conditions, the volume delivered and the quality or composition of the raw milk delivered,
 - (ii) the volume of raw milk which may and/or must be delivered and the timing of such deliveries;
 - (iii) the duration of the contract, which may include either a definite or an indefinite duration with termination clauses;
 - (iv) details regarding payment periods and procedures;
 - (v) arrangements for collecting or delivering raw milk; and
 - (vi) rules applicable in the event of *force majeure*.

3 By way of derogation from paragraph 1, a contract and/or an offer for a contract shall not be required where raw milk is delivered by a farmer to a cooperative of which the farmer is a member if the statutes of that cooperative or the rules and decisions provided for in or derived from these statutes contain provisions having similar effects to the provisions set out in points (a), (b) and (c) of paragraph 2.

4 All elements of contracts for the delivery of raw milk concluded by farmers, collectors or processors of raw milk, including the elements referred to in paragraph 2(c), shall be freely negotiated between the parties.

Notwithstanding the first subparagraph,

- (i) where a Member State decides to make written contracts for the delivery of raw milk compulsory in accordance with paragraph 1 of this Article, it may establish a minimum duration, applicable only to written contracts between a farmer and the first purchaser of raw milk. Such a minimum duration shall be at least 6 months and shall not impair the proper functioning of the internal market; and/or
- (ii) where a Member State decides that the first purchaser of raw milk must make a written offer for a contract to the farmer in accordance with paragraph 1, it may provide that the offer must include a minimum duration for the contract, set by national law for this purpose. Such a minimum duration shall be at least 6 months and shall not impair the proper functioning of the internal market.

The second subparagraph shall be without prejudice to the farmer's right to refuse such a minimum duration provided that he does so in writing. In this case, the parties shall be free to negotiate all elements of the contract, including those elements referred to in paragraph 2(c).
