

COMMISSION REGULATION (EC) No 1278/2007**of 29 October 2007****amending Regulation (EC) No 318/2007 laying down animal health conditions for imports of certain birds into the Community and the quarantine conditions thereof****(Text with EEA relevance)**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 91/496/EEC of 15 July 1991 laying down the principles governing the organisation of veterinary checks on animals entering the Community from third countries and amending Directives 89/662/EEC, 90/425/EEC and 90/675/EEC ⁽¹⁾, and in particular the second subparagraph of Article 10(3) and the first subparagraph of Article 10(4) thereof,

Having regard to Council Directive 92/65/EEC of 13 July 1992 laying down animal health requirements governing trade and imports into the Community of animals, semen, ova and embryos not subject to animal health requirements laid down in specific Community rules referred to in Annex A(I) to Directive 90/425/EEC ⁽²⁾ and in particular the fourth indent of Article 18(1),

Whereas:

- (1) Commission Regulation (EC) No 318/2007 ⁽³⁾ lays down the animal health conditions for imports of certain birds other than poultry into the Community and the quarantine conditions applicable to such birds after import.
- (2) It is appropriate to explicitly state that only imports of captive bred birds is authorised under Regulation (EC) No 318/2007. For the sake of clarity, it should also be explicitly stated that birds may only be imported into the Community under Regulation (EC) No 318/2007 if they come from approved breeding establishments.
- (3) After imports, the imported birds are to be transported directly to an approved quarantine facility or centre in a Member State, where they must remain until infection with avian influenza or Newcastle disease virus is ruled out.

- (4) Regulation (EC) No 318/2007 provides that in case avian influenza or Newcastle disease is suspected in an approved quarantine facility or in a unit of an approved quarantine centre, all birds in the quarantine facility or unit of a quarantine centre are to be killed and destroyed before the suspicion is confirmed by laboratory testing.
- (5) However, because these birds suspected to be infected by avian influenza or Newcastle disease are kept in an approved quarantine facility or in a unit of an approved quarantine centre, there is no risk of the disease spreading further.
- (6) Therefore, it is appropriate to wait until the suspicion is confirmed to rule out any other cause of disease symptoms before commencing to kill and destroy the birds in the affected premises.
- (7) Annex V to Regulation (EC) No 318/2007 sets out a list of quarantine facilities and centres approved by the competent authorities of the Member States for import of certain birds other than poultry. Austria, the Czech Republic, Denmark, Germany, Spain and the United Kingdom have reviewed their approved quarantine facilities and centres and have sent an updated list of those quarantine facilities and centres to the Commission. The list of approved quarantine facilities and centres set out in Annex V to Regulation (EC) No 318/2007 should therefore be amended accordingly.
- (8) Regulation (EC) No 318/2007 should therefore be amended accordingly.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

(a) all birds and sentinel birds in the affected unit of the approved quarantine centre shall be killed and destroyed;

(b) the unit concerned shall be cleaned and disinfected;

(c) the following samples shall be taken:

(i) where sentinel birds are used, not earlier than 21 days following the final cleaning and disinfection of the unit concerned, samples for serological examination, as set out in Annex VI must be taken from sentinel birds in the other quarantine units; or

(ii) where no sentinel birds are used, during 7 to 15 days following the final cleaning and disinfection, samples for virological examination, as set out in point 2 of Annex VI, must be taken from birds in the other quarantine units;

(d) no birds shall leave the approved quarantine centre until the results of the sampling provided for in point (c) have been confirmed as negative.

5. Member States shall inform the Commission of any measures taken under this Article.;

4. in Article 14(1), the first subparagraph is replaced by the following:

'1. Where during quarantine one or more birds and/or sentinel birds are found to be infected with low pathogenic avian influenza (LPAI) or Newcastle disease, the competent authority may, based on a risk assessment, grant derogations from the measures provided for in Article 13(2)(a) and (4)(a), provided that such derogations do not endanger disease control (the derogation).';

5. Annex V is replaced by the text in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the 20th day following its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 29 October 2007.
