

Commission Regulation (EC) No 1375/2007 of 23 November
2007 on imports of residues from the manufacture of starch from
maize from the United States of America (Codified version)

COMMISSION REGULATION (EC) No 1375/2007

of 23 November 2007

on imports of residues from the manufacture of
starch from maize from the United States of America

(Codified version)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1784/2003 of 29 September 2003 on the common organisation of the market in cereals⁽¹⁾, and in particular Article 9(2) thereof,

Whereas:

- (1) Commission Regulation (EC) No 2019/94 of 2 August 1994 on imports of residues from the manufacture of starch from maize from the United States of America⁽²⁾ has been substantially amended several times⁽³⁾. In the interests of clarity and rationality the said Regulation should be codified.
- (2) Within the framework of the GATT, the Community and the USA have agreed to clarify the tariff definition of residues from the manufacture of starch from maize. Imports of these products into the Community are subject to laboratory analysis to verify their conformity with the tariff definition. The Federal Grain Inspection Service (FGIS) of the United States Department of Agriculture and the USA wet milling industry, under the regular review of the USA authorities, will certify that imports of these products from the USA into the Community are in conformity with the agreed definition.
- (3) On the basis of the establishment of a system of accompanying certificates for checking the conformity of imports from the USA, it is appropriate that the customary measures for checking should continue to be applied to imports from the USA accompanied by these certificates.
- (4) The regular communication by Member States to the Commission of the quantities and value of products imported under cover of these certificates is one of the elements agreed with the USA to enable a more effective monitoring of the implementation of the above agreement.
- (5) The measures laid down in this Regulation are in accordance with the opinion of the Management Committee for Cereals,

HAS ADOPTED THIS REGULATION:

Status: This is the original version as it was originally adopted in the EU. This legislation may since have been updated - see the latest available (revised) version

Article 1

1 A laboratory analysis shall be carried out to verify the conformity of residues from the manufacture of starch from maize imported into the Community from the USA under CN code 2309 90 20 with the definition of this code for all shipments not accompanied by a certificate issued by the Federal Grain Inspection Service (FGIS) and a certificate issued by the USA wet milling industry as set out in the Annex I.

2 Shipments from the USA which are accompanied by the two certificates referred to in paragraph 1 are subject to the customary measures for checking imports.

Article 2

The Member States shall communicate to the Commission before the end of each month the quantities and value of products imported under the CN code 2309 90 20 during the previous month and accompanied by the certificates of conformity specified in Article 1(1).

Article 3

Regulation (EC) No 2019/94 is repealed.

References to the repealed Regulation shall be construed as references to this Regulation and shall be read in accordance with the correlation table in Annex III.

Article 4

This Regulation shall enter into force on the 20th day following its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 23 November 2007.

For the Commission

The President

José Manuel BARROSO

CORN REFINERS ASSOCIATION, INC.
Washington, D.C.

Certificate of Conformity

On behalf of the Corn Refiners Association, Inc., the undersigned confirms receipt of Producer's Certificates affirming that _____ of corn gluten feed (CN 2309 9020:
Quantity (Metric Tons)

residues from the manufacture of starch from maize) aboard the vessel _____, departing the United
Name of Vessel

States on or about _____, (I) were obtained
Date

From the wet-mill maize-refining process, (II), contain not more than: (a) 28 percent starch content (dry basis), (b) 40 percent protein content (dry basis), (c) 4.5 percent fat (dry basis, as measured by test method A of the Directive 84/4/EEC of 20 December 1983), and (d) 15 percent by weight screenings/cleanings from corn subsequently used for the manufacture of starch and starch products, it being understood that, for the use of yellow number 2 corn, the figure is up to 10 percent, **AND (III)** may contain residues from steepwater derived from the wet milling process and used in the manufacture of alcohol or other starch derived products which utilize steepwater as part of their manufacturing process and which were in existence in 1992, (the presence of which does not result in an increase in the feed value of the corn gluten feed).

The Corn Refiners Association, Inc., 1701 Pennsylvania Ave., N.W., Washington, D.C. 20006, provides blank Producer's Certificates upon request to any corn wet milling company operating in the United States. The Corn Refiners Association, Inc., provides these certificates as a service to facilitate the export of U.S. corn gluten feed to the European Union. The Corn Refiners Association, Inc., has retained Association Services Group, a practice of the independent firm of VERIS Consulting, LLC and Johnson Lambert & Co., to verify the Association's receipt of these Producer's Certificates on a per vessel basis, as gathered and submitted by shipping companies conveying corn gluten feed to any Member State of the Union. This is neither a weight certificate for commercial trade purposes, nor an independent certification of product quality by either the Corn Refiners Association, Inc., or VERIS Consulting, LLC; it is intended solely to describe product that has been certified by producers and any commercial handlers for customs clearance purposes.
