

Council Regulation (EC) No 1533/2007 of 17 December 2007 amending Regulations (EC) No 2015/2006 and (EC) No 41/2007, as regards fishing opportunities and associated conditions for certain fish stocks

COUNCIL REGULATION (EC) No 1533/2007
of 17 December 2007

amending Regulations (EC) No 2015/2006 and (EC) No 41/2007, as regards fishing opportunities and associated conditions for certain fish stocks

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 2371/2002 of 20 December 2002 on the conservation and sustainable exploitation of fisheries resources under the Common Fisheries Policy⁽¹⁾, and in particular Article 20 thereof,

Having regard to Council Regulation (EC) No 423/2004 of 26 February 2004 establishing measures for the recovery of cod stocks⁽²⁾, and in particular Article 8 thereof,

Having regard to the proposal from the Commission,

Whereas:

- (1) Regulation (EC) No 2015/2006⁽³⁾ fixes for 2007 and 2008 the fishing opportunities for Community fishing vessels for certain deep-sea fish stocks.
- (2) The North East Atlantic Fisheries Commission (NEAFC) at its extraordinary meeting in June 2007 decided to extend the recommendations on a prohibition to fish for orange roughy in the NEAFC Regulatory Area during the second half of 2007. These recommendations should be implemented in Community law.
- (3) The conditions applying to the fishery in certain zones need to be clarified to ensure the correct application of the Agreement of 19 December 1966 between Norway, Denmark and Sweden on mutual access to fishing in the Skagerrak and the Kattegat. An amendment is therefore required.
- (4) Regulation (EC) No 41/2007⁽⁴⁾ fixes for 2007 the fishing opportunities and associated conditions for certain fish stocks and groups of fish stocks, applicable in Community waters and, for Community vessels, in waters where catch limitations are required.
- (5) Pursuant to consultations between the Community and Iceland on 28 March 2007 an arrangement was reached on quotas for Icelandic vessels to be fished from the Community quota allocated under its Agreement with the Government of Denmark and the local Government of Greenland before 30 April 2007, and for Community vessels fishing for redfish in the Icelandic Exclusive Economic Zone to be fished between July and December. This arrangement should be implemented in Community law.

Status: Point in time view as at 31/12/2020.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 1533/2007. (See end of Document for details)

- (6) The conditions applying to the fishery in certain zones for a number of TACs need to be clarified to ensure the correct application of the Agreement of 19 December 1966 between Norway, Denmark and Sweden on mutual access to fishing in the Skagerrak and the Kattegat. An amendment is therefore required.
- (7) In relation to the application of Council Regulation (EC) No 847/96 of 6 May 1996 introducing additional conditions for year-to-year management of TACs and quotas⁽⁵⁾, the scientific status of certain stocks should be clarified.
- (8) Pursuant to Regulation (EC) No 847/96, when more than 75 % of a precautionary TAC has been utilised before 31 October of the year of its application, a Member State with a quota for the stock for which that TAC has been fixed may request an increase in the TAC. Such a request by the Netherlands has been found to be justified in relation to the TAC for turbot and brill in EC waters of IIa and IV and should be implemented.
- (9) Pursuant to written consultations between the Community and the Faeroe Islands, agreement was reached on access as regards herring in EC and international waters of ICES zones I and II. This arrangement should be implemented in Community law.
- (10) In accordance with the Protocol to the Fisheries Partnership Agreement between the European Community and Greenland⁽⁶⁾, an additional amount of Greenland halibut was allocated to the Community in east Greenland in 2007. This arrangement should be implemented in Community law.
- (11) The North East Atlantic Fisheries Commission (NEAFC) at its extraordinary meeting in June 2007 adopted recommendations on conservation and management measures in the NEAFC Regulatory Area in 2007 for redfish in international waters of ICES zones I and II. These recommendations should be implemented in Community law.
- (12) The conditions for replaced or withdrawn vessels in relation to the allocation of additional days for permanent cessation of fishing activities should be clarified, as the reference to certain vessels concerned by fishing effort limitations is indicated incorrectly.
- (13) The derogation from hailing requirements in Annexes IIA, IIB and IIC to Regulation (EC) No 41/2007 for vessels equipped with vessel monitoring systems in relation to fishing effort messages should be clarified.
- (14) The title of Annex IIB to Regulation (EC) No 41/2007 should be corrected to ensure consistency with the scope of that Annex.
- (15) The indication of the length of passive gears should be changed from 2,5 kilometres to 5 nautical miles to ensure that safety in handling the nets is not impaired in view of the existing rules for the marking and identification of passive fishing gear in Commission Regulation (EC) No 356/2005 of 1 March 2005 laying down detailed rules for the marking and identification of passive fishing gear and beam trawls⁽⁷⁾ and certain specific rules on the use of gill nets.
- (16) Regulations (EC) No 2015/2006 and (EC) No 41/2007 should therefore be amended accordingly,

Status: Point in time view as at 31/12/2020.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 1533/2007. (See end of Document for details)

HAS ADOPTED THIS REGULATION:

Article 1

Amendments to Regulation (EC) No 2015/2006

Part 2 of the Annex to Regulation (EC) No 2015/2006 shall be amended in accordance with Annex I to this Regulation.

Article 2

Amendments to Regulation (EC) No 41/2007

Regulation (EC) No 41/2007 is hereby amended as follows:

1. Article 10 shall be replaced by the following:

Article 10

Access limits

1. No fishing by Community vessels shall take place in the Skagerrak within 12 nautical miles from the baselines of Norway. However, vessels flying the flag of Denmark or Sweden shall be allowed to fish up to 4 nautical miles from the baselines of Norway.

2. Fishing by Community vessels in waters under the jurisdiction of Iceland shall be limited to the area defined by straight lines sequentially connecting the following coordinates:

South-Western-Area

1. 63° 12' N and 23° 05' W through 62° 00' N and 26° 00' W,
2. 62° 58' N and 22° 25' W,
3. 63° 06' N and 21° 30' W,
4. 63° 03' N and 21° 00' W from there 180° 00' S;

South-Eastern-Area

1. 63° 14' N and 10° 40' W,
2. 63° 14' N and 11° 23' W,
3. 63° 35' N and 12° 21' W,
4. 64° 00' N and 12° 30' W,
5. 63° 53' N and 13° 30' W,
6. 63° 36' N and 14° 30' W,
7. 63° 10' N and 17° 00' W from there 180° 00' S.

Status: Point in time view as at 31/12/2020.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 1533/2007. (See end of Document for details)

2. Annexes IA, IB, IIA, IIB, IIC and III to Regulation (EC) No 41/2007 shall be amended in accordance with Annex II to this Regulation.

Article 3

Entry into force

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 17 December 2007.

For the Council

The President

J. SILVA

Status: Point in time view as at 31/12/2020.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 1533/2007. (See end of Document for details)

ANNEX I

Part 2 of the Annex to Regulation (EC) No 2015/2006, is hereby amended as follows:

- the entry concerning the species roundnose grenadier in ICES zone IIIa and Community waters of IIIbcd shall be replaced by the following:

‘SpeciesRoundnose grenadierCoryphaenoides rupestris			ZoneIIIa and Community waters of IIIbcd
Year	2007	2008	
Denmark	1 002	946	
Germany	6	5 ^b	
Sweden	52	49	
EC	1 060	1 000	
b Quota may be fished in EC waters of ICES zones IIIa, IIIb, IIIc and IIId only.’			
a Quota may be fished in EC waters of ICES zones IIIa, IIIb, IIIc and IIId only.’			

- the entry concerning the species orange roughy in ICES zone VI (Community waters and waters not under the sovereignty or jurisdiction of third countries) shall be replaced by the following:

SpeciesOrange roughyHoplostethus atlanticus			ZoneVI (Community waters)
Year	2007	2008	
Spain	6	4	
France	33	22	
Ireland	6	4	
United Kingdom	6	4	
EC	51	34	

- the entry concerning the species orange roughy in ICES zone VII (Community waters and waters not under the sovereignty or jurisdiction of third countries) shall be replaced by the following:

‘SpeciesOrange roughyHoplostethus atlanticus			ZoneVII (Community waters)
Year	2007	2008	
Spain	1	1	
France	147	98	
b Exclusively for by-catches. No directed fisheries are permitted under this quota.’			
a Exclusively for by-catches. No directed fisheries are permitted under this quota.’			

*Status: Point in time view as at 31/12/2020.**Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 1533/2007. (See end of Document for details)*

TAC	Not relevant	

a Including unavoidable by-catches (cod not allowed).

b To be fished between July and December.'

3. Annex IIA is hereby amended as follows:

- (a) Point 10.1 shall be replaced by the following:

Status: Point in time view as at 31/12/2020.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 1533/2007. (See end of Document for details)

10.1. An additional number of days on which a vessel may be present within the area when carrying on board any of the gears referred to in point 4.1 may be allocated to Member States by the Commission on the basis of permanent cessations of fishing activities that have taken place since 1 January 2002. The effort expended in 2001 measured in kilowatt days of the withdrawn vessels using the gear in question in the relevant area shall be divided by the effort expended by all vessels using that gear during 2001. The additional number of days shall then be calculated by multiplying the ratio so obtained by the number of days originally allocated.

Any part of a day resulting from this calculation shall be rounded to the nearest whole day. This point shall not apply where a vessel has been replaced in accordance with point 5.1 or when the withdrawal has already been used in previous years to obtain additional days at sea.

(b) Point 22 shall be replaced by the following:

22. Fishing effort messages

By way of derogation from Article 9 of Council Regulation (EC) No 423/2004 of 26 February 2004 establishing measures for the recovery of cod stocks⁽⁸⁾, vessels equipped with vessel monitoring systems in accordance with Article 5 and 6 of Regulation (EC) No 2244/2003 shall be excluded from the hailing requirements set out in Article 19c of Regulation (EC) No 2847/93.

4. Annex IIB is hereby amended as follows:

(a) The title shall be replaced by the following:
FISHING EFFORT FOR VESSELS IN THE CONTEXT OF THE RECOVERY OF CERTAIN SOUTHERN HAKE AND NORWAY LOBSTER STOCKS IN ICES ZONES VIIIc AND IXa EXCLUDING THE GULF OF CADIZ.

(b) Point 9.1 shall be replaced by the following:

9.1. An additional number of days on which a vessel may be present within the area when carrying on board any of the groupings of fishing gear referred to in point 3 may be allocated to Member States by the Commission on the basis of permanent cessation of fishing activities that have taken place since 1 January 2004 either in accordance with Article 7 of Regulation (EC) No 2792/1999 or resulting from other circumstances duly motivated by Member States. Any vessels that can be shown to have been definitively withdrawn from the area may also be considered. The effort expended in 2003 measured in kilowatt days of the withdrawn vessels using the gear in question in the relevant area shall be divided by the effort expended by all vessels using that gear during the same year. The additional number of days shall be then calculated by multiplying the ratio so obtained by the number of days originally allocated. Any part of a day resulting from this calculation shall be rounded to the nearest whole day. This point shall not apply where a vessel has been replaced in accordance with

Status: Point in time view as at 31/12/2020.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 1533/2007. (See end of Document for details)

point 4.1 or when the withdrawal has already been used in previous years to obtain additional days at sea.

(c) Point 17 shall be replaced by the following:

17. Fishing effort messages

Articles 19b, 19c, 19d, 19e and 19k of Regulation (EEC) No 2847/93 shall apply to vessels carrying on board the groupings of fishing gear defined in point 3 of this Annex and operating in the area defined in point 1 of this Annex. Vessels equipped with vessel monitoring systems in accordance with Articles 5 and 6 of Regulation (EC) No 2244/2003 shall be excluded from the hauling requirements set out in Article 19c of Regulation (EC) No 2847/93.

5. Annex IIC is hereby amended as follows:

(a) Point 9.1 shall be replaced by the following:

9.1. An additional number of days on which a vessel may be present within the area when carrying on board any of the groupings of fishing gear referred to in point 3 may be allocated to Member States by the Commission on the basis of permanent cessation of fishing activities that have taken place since 1 January 2004 either in accordance with Article 7 of Regulation (EC) No 2792/1999 or resulting from other circumstances duly motivated by Member States. Any vessels that can be shown to have been definitively withdrawn from the area may also be considered. The effort expended in 2003 measured in kilowatt days of the withdrawn vessels using the gear in question in the relevant area shall be divided by the effort expended by all vessels using that gear during the same year. The additional number of days shall then be calculated by multiplying the ratio so obtained by the number of days originally allocated. Any part of a day resulting from this calculation shall be rounded to the nearest whole day. This point shall not apply where a vessel has been replaced in accordance with point 4.1 or when the withdrawal has already been used in previous years to obtain additional days at sea.

(b) Point 16 shall be replaced by the following:

16. Fishing effort messages

Articles 19b, 19c, 19d, 19e and 19k of Regulation (EEC) No 2847/93 shall apply to vessels carrying on board the groupings of fishing gear defined in point 3 of this Annex and operating in the area defined in point 1 of this Annex. Vessels equipped with vessel monitoring systems in accordance with Articles 5 and 6 of Regulation (EC) No 2244/2003 shall be excluded from the hauling requirements set out in Article 19c of Regulation (EC) No 2847/93.

6. Point 9.4(a) of Annex III shall be replaced by the following:

(a) Gill nets with a mesh size equal to or greater than 120 mm and less than 150 mm, provided that they are deployed in waters of less than 600 metres charted depth, are no more than 100 meshes deep, have a hanging ratio of not less than 0,5 and are rigged with floats or equivalent floatation. The nets shall each be of a maximum of 5 nautical miles in length, and the total length

Status: Point in time view as at 31/12/2020.

Changes to legislation: *There are currently no known outstanding effects for the Council Regulation (EC) No 1533/2007. (See end of Document for details)*

of all nets deployed at any one time shall not exceed 25 km per vessel. The maximum soak time shall be 24 hours; or.

Status: Point in time view as at 31/12/2020.
