of 12 December 2008**

**implementing Council Directive 2006/88/EC as regards conditions and certification requirements for the placing on the market and the import into the Community of aquaculture animals and products thereof and laying down a list of vector species**

(Text with EEA relevance)

## CHAPTER I

## SUBJECT MATTER, SCOPE AND DEFINITIONS

*Article 1***Subject matter and scope**

This Regulation lays down:

(a) a list of vector species;

**▼M2**

(b) animal health conditions for the placing on the market of:

(i) ornamental aquatic animals either originating from or intended for closed ornamental facilities; and

**▼M4**

(ii) aquaculture animals intended for farming, relaying areas, put and take fisheries, open ornamental facilities and restocking, and for dispatch centres, purification centres and similar businesses before human consumption in Member States and parts thereof with national measures approved by Commission Decision 2010/221/EU <sup>(1)</sup>;

**▼B**

(c) animal health certification requirements for the placing on the market of:

(i) aquaculture animals intended for farming, including relaying areas, put and take fisheries and open ornamental facilities, and restocking; and

(ii) aquaculture animals and products thereof intended for human consumption;

(d) animal health conditions and certification requirements for imports into the Community, and transit therein, including storage during transit, of:

(i) aquaculture animals intended for farming, including relaying areas, put and take fisheries and open ornamental facilities;

<sup>(1)</sup> OJ L 98, 20.4.2010, p. 7.

**▼B**

- (ii) aquaculture animals and products thereof intended for human consumption;
- (iii) ornamental aquatic animals intended for closed ornamental facilities.

*Article 2***Definitions**

For the purposes of this Regulation, the following definitions shall apply:

- (a) ‘closed ornamental facilities’ means pet shops, garden centres, garden ponds, commercial aquaria or wholesalers keeping ornamental aquatic animals:
  - (i) without any direct contact with natural waters in the Community; or
  - (ii) which are equipped with an effluent treatment system reducing the risk of transmitting diseases to the natural waters to an acceptable level;
- (b) ‘open ornamental facility’ means ornamental facilities other than closed ornamental facilities;
- (c) ‘restocking’ means the release of aquaculture animals into the wild.

## CHAPTER II

**VECTOR SPECIES***Article 3***List of vector species**

Aquaculture animals of species listed in Column 2 of the table in Annex I to this Regulation shall only be regarded as vectors for the purposes of Article 17 of Directive 2006/88/EC where those animals fulfil the conditions set out in Columns 3 and 4 of that table.

## CHAPTER III

**PLACING ON THE MARKET OF AQUACULTURE ANIMALS***Article 4***Ornamental aquatic animals originating from or intended for ornamental facilities**

1. Movements of ornamental aquatic animals shall be subject to notification under the computerised system provided for in Article 20(1) of Directive 90/425/EEC (Traces) where the animals:

- (a) originate from ornamental facilities in one Member State;

**▼B**

- (b) are intended for closed ornamental facilities in another Member State, where the entire territory, or certain zones or compartments thereof:
  - (i) are declared free of one or more of the non-exotic diseases listed in Part II of Annex IV to Directive 2006/88/EC in accordance with Articles 49 or 50 thereof; or
  - (ii) are subject to a surveillance or eradication programme in accordance with Article 44(1) or (2) of that Directive; and
- (c) are of species susceptible to one or more of the diseases for which the Member State or zone or compartment concerned is declared disease-free, or for which a surveillance or eradication programme applies, as referred to in point (b).

2. Ornamental aquatic animals kept in closed ornamental facilities shall not be released into open ornamental facilities, farms, relaying areas and put- and take fisheries, mollusc farming areas or into the wild, unless authorised by the competent authority.

The competent authority shall only grant such authorisation where the release does not jeopardise the health status of the aquatic animals at the place of release and it shall ensure that appropriate risk mitigating measures are taken.

*Article 5***Aquaculture animals intended for farming, relaying areas, put and take fisheries, open ornamental facilities and restocking**

Consignments of aquaculture animals intended for farming, relaying areas, put and take fisheries, open ornamental facilities, or restocking shall be accompanied by an animal health certificate completed in accordance with the model set out in Part A of Annex II and the explanatory notes in Annex V, where the animals:

- (a) are introduced into Member States, zones or compartments:
  - (i) declared free of one or more of the non-exotic diseases listed in Part II of Annex IV to Directive 2006/88/EC in accordance with Articles 49 or 50 thereof; or
  - (ii) subject to a surveillance or eradication programme in accordance with Article 44(1) or (2) of that Directive;
- (b) are of species susceptible to one or more of the diseases, or vector species for one or more of the diseases, for which the Member State, zone or compartment concerned is declared disease-free, or for which a surveillance or eradication programme applies, as referred to in point (a).

**▼B***Article 6***Aquaculture animals and products thereof intended for further processing before human consumption**

1. Consignments of aquaculture animals and products thereof intended for further processing before human consumption, shall be accompanied by an animal health certificate completed in accordance with the model set out in Part B of Annex II and the explanatory notes in Annex V, where they:

- (a) are introduced into Member States, zones or compartments:
  - (i) declared free of one or more of the non-exotic diseases in Part II of Annex IV to Directive 2006/88/EC in accordance with Articles 49 or 50 of that Directive; or
  - (ii) subject to a surveillance or eradication programme in accordance with Article 44(1) or (2) of that Directive;
- (b) are of species susceptible to one or more of the diseases for which the Member State, zone or compartment concerned is declared disease-free, or for which a surveillance or eradication programme applies, as referred to in point (a).

2. Paragraph 1 shall not apply to:

- (a) fish which have been slaughtered and eviscerated before dispatch;
- (b) molluscs or crustaceans which are intended for human consumption and packed and labelled for that purpose in accordance with Regulation (EC) No 853/2004, and which are:
  - (i) non-viable, which means no longer able to survive as living animals if returned to the environment from which they were obtained; or
  - (ii) intended for further processing without temporary storage at the place of processing;
- (c) aquaculture animals or products thereof placed on the market for human consumption without further processing, provided that they are packed in retail-sale packages which comply with the provisions for such packages in Regulation (EC) No 853/2004.

*Article 7***Live molluscs and crustaceans intended for purification centres, dispatch centres and similar businesses before human consumption**

Consignments of live molluscs and crustaceans intended for purification centres, dispatch centres and similar businesses before human consumption, shall be accompanied by an animal health certificate completed in accordance with the model set out in Part B of Annex II and the explanatory notes in Annex V, where they:

**▼B**

- (a) are introduced into Member States, zones or compartments:
  - (i) declared free of one or more of the non-exotic diseases listed in Part II of Annex IV to Directive 2006/88/EC in accordance with Articles 49 or 50; or
  - (ii) subject to a surveillance or eradication programme in accordance with Article 44(1) or (2) of that Directive;
- (b) are of species susceptible to one or more of the diseases for which the Member State, zone or compartment concerned is declared disease-free, or for which a surveillance or eradication programme applies, as referred to in point (a).

*Article 8*

**Aquaculture animals and products thereof leaving Member States, zones and compartments subject to disease control measures, including eradication programmes**

1. Consignments of aquaculture animals and products thereof leaving Member States, zones or compartments subject to the disease control measures provided for in Sections 3 to 6 of Chapter V of Directive 2006/88/EC, but for which an exemption from those disease control measures has been granted by the competent authority, shall be accompanied by an animal health certificate completed in accordance with the model set out in:

- (a) Part A of Annex II and the explanatory notes in Annex V where the consignments consist of aquaculture animals intended for farming, relaying areas, put and take fisheries, open ornamental facilities or restocking; and
- (b) Part B of Annex II and the explanatory notes in Annex V where the consignments consist of aquaculture animals and products thereof intended for further processing, purification centres, dispatch centres or similar businesses before human consumption.

2. Consignments of aquaculture animals intended for farming, relaying areas, put and take fisheries, open ornamental facilities or restocking shall be accompanied by an animal health certificate completed in accordance with the model set out in Part A of Annex II and the explanatory notes in Annex V, where they:

- (a) are leaving a Member State, zone or compartment with an eradication programme approved in accordance with Article 44(2) of Directive 2006/88/EC;
- (b) are of species susceptible to one or more of the diseases, or vector species for one or more of the diseases, for which the eradication programme applies, as referred to in point (a).

**▼B**

3. Consignments of aquaculture animals and products thereof intended for further processing, purification centres, dispatch centres or similar businesses before human consumption shall be accompanied by an animal health certificate completed in accordance with the model set out in Part B of Annex II and the explanatory notes in Annex V, where they:

- (a) are leaving a Member State, zone or compartment with an eradication programme approved in accordance with Article 44(2) of Directive 2006/88/EC;
- (b) are of species susceptible to one or more of the diseases for which the eradication programme applies, as referred to in point (a).

4. This Article shall not apply to:

- (a) fish which have been slaughtered and eviscerated before dispatch;
- (b) molluscs or crustaceans which are intended for human consumption and packed and labelled for that purpose in accordance with Regulation (EC) No 853/2004, and which are:
  - (i) non-viable, which means no longer able to survive as living animals if returned to the environment from which they were obtained; or
  - (ii) intended for further processing without temporary storage at the place of processing;
- (c) aquaculture animals or products thereof placed on the market for human consumption without further processing, provided that they are packed in retail-sale packages which comply with the provisions for such packages in Regulation (EC) No 853/2004.

**▼M2***Article 8a*

**Aquaculture animals intended for farming, relaying areas, put and take fisheries, open ornamental facilities and restocking in Member States and parts thereof with national measures approved by Decision 2010/221/EU**

1. Consignments of aquaculture animals intended for farming, relaying areas, put and take fisheries, open ornamental facilities, or restocking shall be accompanied by an animal health certificate completed in accordance with the model set out in Part A of Annex II and the explanatory notes set out in Annex V, where the animals:

- (a) are introduced into Member States or parts thereof listed in the second and fourth column of the table set out in:
  - (i) Annex I to Decision 2010/221/EU as free of one or more of the diseases listed in the first column of that table; or
  - (ii) Annex II to Decision 2010/221/EU as subject to an eradication programme for one or more of the diseases listed in the first column of that table;

**▼ M4**

- (iii) Annex III to Decision 2010/221/EU as subject to a surveillance programme for one or more of the diseases listed in the first column of that table;

**▼ M2**

- (b) are of species which are listed in Part C of Annex II as species susceptible to the diseases, for which the Member State concerned or part thereof is regarded as disease-free, or for which an eradication programme applies in accordance with Decision 2010/221/EU, as referred to in point (a).

2. Consignments of animals referred to in paragraph 1 shall comply with the animal health requirements set out in the model animal health certificate and explanatory notes as referred to in paragraph 1.

3. Paragraph 1 and 2 shall apply to consignments of fish of any species originating from waters where species listed in Part C of Annex II as species susceptible to infection with *Gyrodactylus salaris*, are present, where those consignments are intended for a Member State or part thereof listed in Annex I to Decision 2010/221/EU as free of *Gyrodactylus salaris* (GS).

**▼ M4***Article 8b*

**Live molluscs intended for dispatch centres, purification centres or similar businesses before human consumption in Member States and parts thereof with national measures approved by Decision 2010/221/EU**

1. Consignments of live molluscs intended for dispatch centres, purification centres or similar businesses before human consumption shall be accompanied by an animal health certificate completed in accordance with the model set out in Part B of Annex II and the explanatory notes set out in Annex V, where the animals:

- (a) are introduced into Member States or parts thereof listed in the second and fourth column of the table set out in Annex III to Decision 2010/221/EU as subject to a surveillance programme for one or more of the diseases listed in the first column of that table;
- (b) are of species which are listed in Part C of Annex II as species susceptible to the disease(s), for which a surveillance programme applies in accordance with Decision 2010/221/EU, as referred to in point (a).

2. Consignments of live molluscs referred to in paragraph 1 shall comply with the animal health requirements set out in the model animal health certificate and explanatory notes as referred to in that paragraph.

3. This Article shall not apply to consignments intended for dispatch centres, purification centres or similar businesses which are equipped with an effluent treatment system validated by the competent authority that:

- (a) inactivates enveloped viruses; or
- (b) reduces the risk of transmitting diseases to the natural waters to an acceptable level.

**▼B***Article 9***Introduction of aquaculture animals after inspection**

Where this Chapter provides that an inspection is required prior to the issue of an animal health certificate, live aquaculture animals of species susceptible to one or more of the diseases, or vector species for one or more of the diseases, referred to in that certificate, shall not be introduced into the farm or mollusc farming area during the period between such inspection and the loading of the consignment.

## CHAPTER IV

**CONDITIONS FOR IMPORTS***Article 10***Aquaculture animals intended for farming, relaying areas, put and take fisheries and open ornamental facilities**

1. Aquaculture animals intended for farming, relaying areas, put and take fisheries and open ornamental facilities shall only be imported into the Community from third countries, territories, zones or compartments listed in Annex III.

2. Consignments of the aquaculture animals referred to in paragraph 1 shall:

- (a) be accompanied by an animal health certificate completed in accordance with the model set out in Part A of Annex IV and the explanatory notes in Annex V;
- (b) comply with the animal health requirements set out in the model certificate and explanatory notes, as referred to in point (a).

*Article 11***Ornamental aquatic animals intended for closed ornamental facilities**

1. Ornamental fish of species susceptible to one or more of the diseases listed in Part II of Annex IV to Directive 2006/88/EC and intended for closed ornamental facilities shall only be imported into the Community from third countries, territories, zones or compartments listed in Annex III to this Regulation.

**▼M1**

2. Ornamental fish which are not of susceptible species to any of the diseases listed in Part II of Annex IV to Directive 2006/88/EC, and ornamental molluscs and ornamental crustaceans, intended for closed ornamental facilities, shall only be imported into the Community from third countries or territories that:

- (a) are members of the World Organisation for Animal Health (OIE); or
- (b) are listed in Annex III and have a formal agreement with the OIE to regularly submit information concerning their animal health status to the members of that organisation.

**▼B**

3. Consignments of the animals referred to in paragraphs 1 and 2 shall:
- (a) be accompanied by an animal health certificate completed in accordance with the model set out in Part B of Annex IV and the explanatory notes in Annex V; and
  - (b) comply with the animal health requirements set out in the model certificate and explanatory notes, as referred to in point (a).

*Article 12***Aquaculture animals and products thereof intended for human consumption**

1. Aquaculture animals and products thereof intended for human consumption shall only be imported into the Community from third countries, territories, zones or compartments which are included on a list drawn up in accordance with Article 11(1) of Regulation (EC) No 854/2004.
2. Consignments of the animals and products referred to in paragraph 1 shall:
- (a) be accompanied by a joint public and animal health certificate completed in accordance with the relevant models set out in Appendixes IV and V of Annex VI to Regulation (EC) No 2074/2005; and
  - (b) comply with the animal health requirements and notes set out in the model certificates and attestations, as referred to in point (a).
3. This Article shall not apply where the aquaculture animals are intended for relaying areas or re-immersion into Community waters, in which case Article 10 shall apply.

*Article 13***Electronic certification**

Electronic certification and other agreed systems harmonised at Community level may be used for the certificates and attestations provided for in this Chapter.

*Article 14***Transport of aquaculture animals**

1. Aquaculture animals for import into the Community shall not be transported under conditions that may alter their health status. In particular they shall not be transported in the same water or micro-container as aquatic animals which are of a lower health status or which are not intended for import into the Community.
2. During transportation to the Community, the aquaculture animals shall not be unloaded from their micro-container and the water in which they are transported shall not be changed in the territory of a third country which is not approved for import of such animals into the Community or which has a lower health status than the place of destination.

**▼B**

3. Where consignments of aquaculture animals are transported by sea to the Community border, an addendum for transport of live aquaculture animals by sea, completed in accordance with the model set out in Part D of Annex IV, shall be attached to the relevant animal health certificate.

*Article 15***Requirements for the release of aquaculture animals and products thereof and for transport water**

1. Aquaculture animals and products thereof imported into the Community and intended for human consumption shall be handled appropriately to avoid contamination of natural waters in the Community.

2. Aquaculture animals imported into the Community shall not be released into the wild within the Community, unless authorised by the competent authority of the place of destination.

The competent authority may only grant authorisations where the release does not jeopardise the health status of the aquatic animals at the place of release and it shall ensure that appropriate risk-mitigating measures are taken.

3. Transport water from imported consignments of aquaculture animals and products thereof shall be handled appropriately to avoid contamination of natural waters in the Community.

## CHAPTER V

**CONDITIONS FOR TRANSIT***Article 16***Transit and storage**

Consignments of live aquaculture animals, fish eggs and un-eviscerated fish which are introduced into the Community, but intended for a third country, either by transit immediately through the Community, or after storage in the Community, shall comply with the requirements laid down in Chapter IV. The certificate, which accompanies the consignments, shall bear the words 'for transit through the EC'. The consignments shall also be accompanied by a certificate required by the third country of destination.

However, where those consignments are intended for human consumption, they shall be accompanied by an animal health certificate completed in accordance with the model set out in Part C of Annex IV and the explanatory notes in Annex V.

*Article 17***Derogation for transit through Latvia, Lithuania and Poland**

1. By way of derogation from Article 16, transit by road or by rail shall be authorised between the border inspection posts in Latvia, Lithuania and Poland listed in the Annex to Commission Decision 2001/881/EC, of consignments coming from and bound for Russia, directly or via another third country, where the following conditions are met:

**▼ B**

- (a) the consignment is sealed with a serially numbered seal by the official veterinarian at the border inspection post of entry;
- (b) the documents accompanying the consignment, as provided for in Article 7 of Directive 97/78/EC, are stamped with the words 'Only for transit to Russia via the EC' on each page by the official inspector at the border inspection post of entry;
- (c) the procedural requirements provided for in Article 11 of Directive 97/78/EC are complied with; and
- (d) the consignment is certified as acceptable for transit on the common veterinary entry document issued by the official inspector at the border inspection post of entry.

2. The consignments referred to in paragraph 1 may not be unloaded or put into storage, as referred to in Article 12(4) or in Article 13 of Directive 97/78/EC, within the Community.

3. Regular audits shall be conducted by the competent authority to ensure that the number of consignments, as referred to in paragraph 1, and the corresponding quantities of products leaving the Community match the number and quantities entering the Community.

## CHAPTER VI

## GENERAL, TRANSITIONAL AND FINAL PROVISIONS

**▼ M2****▼ B***Article 19***Repeal**

Decisions 1999/567/EC, 2003/390/EC, 2003/804/EC, 2003/858/EC and 2006/656/EC are repealed with effect from 1 January 2009.

References to the repealed Decisions shall be construed as references to this Regulation.

**▼ M3***Article 20*

For a transitional period until 31 December 2012, Member States may authorise the import of ornamental aquatic animals of species susceptible to epizootic ulcerative syndrome (EUS) intended solely for closed ornamental facilities from third countries or territories that are Members of the World Organisation for Animal Health (OIE).

▼ M3

During that transitional period, the requirements concerning EUS set out in Part II.2 of the model animal health certificate set out in Part B of Annex IV, shall not apply to ornamental aquatic animals intended solely for closed ornamental facilities.

▼ B

*Article 21*

**Entry into force**

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 January 2009.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

▼ B

## ANNEX I

## List of possible vector species and the conditions under which those species shall be regarded as vectors

Diseases	Vectors		
	Species which shall be regarded as vectors for the purposes of Article 17(1) and (2) where the additional conditions set out in Columns 3 and 4 of this table are fulfilled	Additional conditions related to the place of origin of the aquatic animals of the species listed in Column 2	Additional conditions related to the place of destination of the aquatic animals of the species listed in Column 2
Column 1	Column 2	Column 3	Column 4
Epizootic haematopoietic necrosis	Bighead carp ( <i>Aristichthys nobilis</i> ), goldfish ( <i>Carassius auratus</i> ), crucian carp ( <i>C. carassius</i> ), common carp and koi carp ( <i>Cyprinus carpio</i> ), silver carp ( <i>Hypophthalmichthys molitrix</i> ), Chub ( <i>Leuciscus spp</i> ), Roach ( <i>Rutilus rutilus</i> ), Rudd ( <i>Scardinius erythrophthalmus</i> ), tench ( <i>Tinca tinca</i> )	No additional conditions	No additional conditions

## Placing on the market of aquaculture animals for farming, relaying, put and take fisheries, open ornamental facilities and restocking

Part II: Certification	II. Health information	II.a. Certificate reference No	II.b.
	<b>II.1 General requirements</b>		
	I, the undersigned official inspector, hereby certify that the aquaculture animals referred to in Part I of this certificate:		
	<p>II.1.1 <i>either</i> <sup>(1)</sup> [have been inspected within <sup>(1)</sup> <sup>(2)</sup> [72] <sup>(1)</sup> [24] hours of loading, and showed no clinical signs of disease]</p> <p><i>or</i> <sup>(1)</sup> [in the case of eggs and molluscs, come from a farm or mollusc farming area where, according to the records of the farm or mollusc farming area, there is no indication of disease problems]</p> <p><i>or</i> <sup>(1)</sup> <sup>(3)</sup> [in the case of wild aquatic animals, according to the best of my knowledge and belief are clinically healthy];</p>		
	II.1.2 are not subject to any prohibitions due to unresolved increased mortality;		
	II.1.3 are not intended for destruction or slaughter for the eradication of diseases;		
	II.1.4 comply with the requirements for placing on the market laid down in Directive 2006/88/EC;		
	II.1.5 <sup>(1)</sup> [in the case of molluscs, were subject to an individual visual check of each part of the consignment, and no molluscs species other than those specified in Part I of the certificate were detected.]		
	<b>II.2 <sup>(1)</sup> <sup>(4)</sup> <sup>(5)</sup> [Requirements for species susceptible to Viral haemorrhagic septicaemia (VHS), Infectious haematopoietic necrosis (IHN), Infectious salmon anaemia (ISA), Koi herpes virus (KHV), Marteilia refringens, Bonamia ostreae, and/or White spot disease]</b>		
	I, the undersigned official inspector, hereby certify that the aquaculture animals referred to above:		
	<p><i>either</i> <sup>(1)</sup> <sup>(6)</sup> [originate from a Member State, zone or compartment declared free from <sup>(1)</sup> [VHS] <sup>(1)</sup> [IHN] <sup>(1)</sup> [ISA] <sup>(1)</sup> [KHV] <sup>(1)</sup> [Marteilia refringens] <sup>(1)</sup> [Bonamia ostreae] <sup>(1)</sup> [White spot disease] in accordance with Chapter VII of Directive 2006/88/EC.]</p> <p><i>or</i> <sup>(1)</sup> <sup>(5)</sup> <sup>(6)</sup> [in the case of wild aquatic animals, have been subject to quarantine in accordance with Decision 2008/946/EC.]]</p>		
	<b>II.3 <sup>(1)</sup> <sup>(7)</sup> [Requirements for vector species to Viral haemorrhagic septicaemia (VHS), Infectious haematopoietic necrosis (IHN), Infectious salmon anaemia (ISA), Koi herpes virus (KHV), Marteilia refringens, Bonamia ostreae, and/or White spot disease]</b>		
	I, the undersigned official inspector, hereby certify that the aquaculture animals referred to above which are to be regarded as possible vectors to <sup>(1)</sup> [VHS] <sup>(1)</sup> [IHN] <sup>(1)</sup> [ISA] <sup>(1)</sup> [KHV] <sup>(1)</sup> [Marteilia refringens] <sup>(1)</sup> [Bonamia ostreae] <sup>(1)</sup> [White spot disease] as they are of species listed in Column 2 and fulfil the conditions set out in Column 3 of the table in Annex I to Regulation (EC) No 1251/2008:		
	<p><i>either</i> <sup>(1)</sup> <sup>(6)</sup> [originate from a Member State, zone or compartment declared free from <sup>(1)</sup> [VHS] <sup>(1)</sup> [IHN] <sup>(1)</sup> [ISA] <sup>(1)</sup> [KHV] <sup>(1)</sup> [Marteilia refringens] <sup>(1)</sup> [Bonamia ostreae] <sup>(1)</sup> [White spot disease] in accordance with Chapter VII of Directive 2006/88/EC.]</p> <p><i>or</i> <sup>(1)</sup> <sup>(6)</sup> <sup>(7)</sup> [have been subject to quarantine in accordance with Decision 2008/946/EC.]]</p>		
	<b>II.4 Transport and labelling requirements</b>		
	I, the undersigned official inspector, hereby certify that:		
	<p>II.4.1 the aquaculture animals referred to above,</p> <p>(i) are placed under conditions, including with a water quality, that do not alter their health status,</p> <p>(ii) as appropriate, comply with the general conditions for the transport of animals laid down in Article 3 of Regulation (EC) No 1/2005;</p>

<b>Notes</b>		
<b>Part I:</b>		
— Box I.12: If appropriate, use the authorisation number for the farm or mollusc farming area in question. Use 'other' if wild aquatic animals.		
— Box I.13: If appropriate, use the authorisation number for the farm or mollusc farming area in question. Use 'other' if intended for restocking.		
— Box I.19: Use the appropriate HS codes: 0301, 0306, 0307, 030110 or 030270.		
— Box I.20 and I. 31: As regards quantity, give the total number.		
— Box I.25: Use the option 'Breeding' if intended for farming, 'Relaying' if intended for relaying, 'Pets' if intended for open ornamental facilities, 'Game restocking' if intended for restocking, 'Quarantine' if the aquaculture animals are intended for a quarantine facility, and 'Other' if intended for put and take fisheries.		

M8

## EUROPEAN UNION

**Placing on the market of aquaculture animals for farming, relaying, put and take fisheries, open ornamental facilities and restocking**

II. Health information	II.a. Certificate reference No	II.b.
<b>Part II:</b>		
(1) Keep as appropriate.		
(2) The 24-hour option applies only to consignments of aquaculture animals which according to Article 8 of Regulation (EC) No 1251/2008 must be accompanied by a certificate and which in compliance with the placing on the market requirements of Directive 2006/88/EC are allowed by the competent authority to leave an area subject to control provisions provided for in Sections 3 to 6 of Chapter V of Directive 2006/88/EC or a Member State, zone or compartment with an eradication programme approved in accordance with Article 44(2) of that Directive. In all other cases the 72-hour option applies.		
(3) Only applicable to consignments of aquaculture animals caught in the wild and immediately transported to a farm or mollusc farming area without any temporary storage.		
(4) Part II.2 of this certificate applies to species susceptible to one or more of the diseases referred to in the title. Susceptible species are listed in Part II of Annex IV to Directive 2006/88/EC.		
(5) Consignments of wild aquatic animals may be placed on the market regardless of the requirements in Part II.2 of this certificate if they are intended for a quarantine facility complying with the requirements laid down in Decision 2008/946/EC.		
(6) To be authorised into a Member State, zone or compartment declared free from VHS, IHN, ISA, KHV, <i>Marteilia refringens</i> , <i>Bonamia ostreae</i> , or Whitespot disease or with a surveillance or eradication programme established in accordance with Article 44(1) or (2) of Directive 2006/88/EC, one of these statements must be kept if the consignment contain susceptible or vector species to the disease(s) for which disease freedom or programme(s) apply(ies). Data on the disease status of each farm and mollusc farming area in the Union are accessible at <a href="http://ec.europa.eu/food/animal/liveanimals/aquaculture/index_en.htm">http://ec.europa.eu/food/animal/liveanimals/aquaculture/index_en.htm</a>		
(7) Part II.3 of this certificate applies to vector species to one or more of the diseases referred to in the title. Possible vector species and the conditions, under which consignments of such species are to be considered vector species, are listed in Annex I to Regulation (EC) No 1251/2008. Consignments of possible vector species may be placed on the market regardless of the requirements in Part II.3 if the conditions set out in Column 4 of the table in Annex I to Regulation (EC) No 1251/2008 are not fulfilled or they are intended for a quarantine facility complying with the requirements laid down in Decision 2008/946/EC.		
(8) Part II.5 of this certificate applies to consignments of aquaculture animals which according to Article 8 of Regulation (EC) No 1251/2008 must be accompanied by a certificate and which in compliance with the placing on the market requirements of Directive 2006/88/EC are allowed by the competent authority to leave an area subject to control provisions provided for in Sections 3 to 6 of Chapter V of Directive 2006/88/EC or a Member State, zone or compartment with an eradication programme approved in accordance with Article 44(2) of that Directive.		
(9) Applicable when measures are taken in accordance with Article 41 of Directive 2006/88/EC.		
(10) Part II.6 of this certificate only applies to consignments intended for a Member State or part thereof which is regarded as disease-free, or for which an programme is approved in accordance with Decision 2010/221/EU as regards SVC, BKD, IPN, GS or SAV, and the consignment comprises species listed in Part C of Annex II as susceptible to the disease(s) for which the disease-free status or programme(s) apply(ies).		
Part II.6 shall also apply to consignments of fish of any species originating from waters where species listed in Part C of Annex II as species susceptible to infection with GS, are present, where those consignments are intended for a Member State or part thereof listed in Annex I to Decision 2010/221/EU as free of GS.		
Consignments of wild aquatic animals for which SVC, SAV, IPN and/or BKD related requirements are applicable, may be placed on the market regardless of the requirements in Part II.6 of this certificate if they are intended for a quarantine facility complying with the requirements laid down in Decision 2008/946/EC.		

▼ **M8****EUROPEAN UNION****Placing on the market of aquaculture animals for farming, relaying, put and take fisheries, open ornamental facilities and restocking**

II. <b>Health information</b>	II.a. Certificate reference No	II.b.
<p>(<sup>11</sup>) Part II.7 of this certificate only applies to consignments intended for a Member State or compartment which is regarded as disease-free, or for which a programme is approved by Decision 2010/221/EU as regards OshV-1 <math>\mu</math>var, and the consignment comprises species listed in Part C of Annex II to Regulation (EC) No 1251/2008 as susceptible to OshV-1 <math>\mu</math>var.</p> <p>The requirements set out in part II.7 shall not apply to consignments intended for a quarantine facility complying with the requirements at least equivalent to those laid down in Decision 2008/946/EC.</p>

EUROPEAN UNION		Placing on the market of aquaculture animals or products thereof for human consumption	
II.	Health information	II.a. Certificate reference No	II.b.
	<p>(b) where all aquaculture animals of species susceptible to OsHV-1 <math>\mu</math>var introduced into that Member State or compartment comply with the requirements set out in II.5 of this certificate,</p> <p>(c) <i>either</i> <sup>(1)</sup>[which comply with requirements for disease freedom equivalent to those laid down in Chapter VII of Directive 2006/88/EC.]</p> <p><i>and/or</i> <sup>(1)</sup>[in the case of consignments intended for a Member State or compartment covered by a programme is approved by Decision 2010/221/EU, which itself is also covered by a surveillance programme approved by Decision 2010/221/EU.]</p> <p><i>or</i> <sup>(1)</sup>[have been subject to quarantine under conditions at least equivalent to those laid down in Decision 2008/946/EC.]</p>		
<b>Notes</b>			
<b>Part I</b>			
— Box I.12 and I.13: If appropriate, use the authorisation number for the farm, mollusc farming area or establishment in question,			
— Box I.19: Use the appropriate HS codes: 0301, 0302, 030270, 0303, 0306 or 0307,			
— Box I.20 and I.31: As regards quantity, give the total number,			
<b>Part II</b>			
(1) Keep as appropriate.			
(2) Part II.2 of this certificate applies to species susceptible to one or more of the diseases referred to in the title. Susceptible species are listed in Part II of Annex IV to Directive 2006/88/EC.			
<p>To be authorised into a Member State, zone or compartment declared free from VHS, IHN, ISA, KHV, Marteilia refringens, Bonamia ostreae, or Whitespot disease or with a surveillance or eradication programme established in accordance with Article 44(1) or (2) of Directive 2006/88/EC, this statement must be kept if the consignment contains species susceptible to the disease(s) for which disease freedom or programme(s) apply(ies), unless the consignment is intended for processing establishments authorised in accordance with Article 4(2) of Directive 2006/88/EC, or for dispatch centres, purification centres or similar businesses which are equipped with an effluent treatment system inactivating the pathogens in question, or where the effluent is subject to other types of treatment reducing the risk of transmitting diseases to the natural waters to an acceptable level.</p> <p>Data on the disease status of each farm and mollusc farming area in the European Union are accessible at <a href="http://ec.europa.eu/food/animal/liveanimals/aquaculture/index_en.htm">http://ec.europa.eu/food/animal/liveanimals/aquaculture/index_en.htm</a></p>			
(3) Part II.4 of this certificate applies to consignments of aquaculture animals and products thereof which according to Article 8 of Regulation (EC) No 1251/2008 must be accompanied by a certificate and which in compliance with the placing on the market requirements of Directive 2006/88/EC are allowed by the competent authority to leave an area subject to control provisions provided for in Sections 3 to 6 of Chapter V of Directive 2006/88/EC or a Member State, zone or compartment with an eradication programme approved in accordance with Article 44(2) of that Directive.			
(4) Applicable when measures are taken in accordance with Article 41 of Directive 2006/88/EC.			
(5) Part II.5 of this certificate only applies to consignments intended for dispatch centres, purification centres or similar businesses in Member States or compartments which are regarded as disease-free, or for which a programme is approved by Decision 2010/221/EU as regards OsHV-1 $\mu$ var, and the consignment comprises species listed in Part C of Annex II to Regulation (EC) No 1251/2008 as susceptible to OsHV-1 $\mu$ var.			
<p>The requirements set out in part II.5 shall not apply to consignments intended for dispatch centres, purification centres or similar businesses which are equipped with an effluent treatment system validated by the competent authority that inactivates enveloped viruses or reduces the risk of transmitting diseases to the natural waters to an acceptable level.</p>

## PART C

## List of species susceptible to diseases for which national measures are approved under Decision 2010/221/EU

Disease	Susceptible species
Spring Viraemia of Carp (SVC)	Bighead carp ( <i>Aristichthys nobilis</i> ), goldfish ( <i>Carassius auratus</i> ), crucian carp ( <i>Carassius carassius</i> ), grass carp ( <i>Ctenopharyngodon idellus</i> ), common carp and koi carp ( <i>Cyprinus carpio</i> ), silver carp ( <i>Hypophthalmichthys molitrix</i> ), sheatfish ( <i>Silurus glanis</i> ), and tench ( <i>Tinca tinca</i> ), Orfe ( <i>Leuciscus idus</i> )
Bacterial kidney disease (BKD)	Family: <i>Salmonidae</i>
Infectious pancreatic necrosis virus (IPN)	Rainbow trout ( <i>Oncorhynchus mykiss</i> ), brook trout ( <i>Salvelinus fontinalis</i> ), brown trout ( <i>Salmo trutta</i> ), Atlantic salmon ( <i>Salmo salar</i> ) and ( <i>Oncorhynchus spp.</i> ), whitefish ( <i>Coregonus lavaretus</i> )
Infection with salmonid alphavirus (SAV)	Atlantic salmon ( <i>Salmo salar</i> ), rainbow trout ( <i>Oncorhynchus mykiss</i> ), brown trout ( <i>Salmo trutta</i> )
Infection with Gyrodactylus salaris	Atlantic salmon ( <i>Salmo salar</i> ), rainbow trout ( <i>Oncorhynchus mykiss</i> ), Arctic char ( <i>Salvelinus alpinus</i> ), North American brook trout ( <i>Salvelinus fontinalis</i> ), grayling ( <i>Thymallus thymallus</i> ), North American lake trout ( <i>Salvelinus namaycush</i> ) and brown trout ( <i>Salmo trutta</i> ).
Ostreid herpesvirus 1 $\mu$ var (OsHV-1 $\mu$ var)	Pacific oyster ( <i>Crassostrea gigas</i> )

<sup>(A)</sup> Apply to all fish species.

<sup>(B)</sup> Apply only to *Cyprinidae*.

<sup>(C)</sup> Apply not to fish species susceptible to or vector species for viral haemorrhagic septicaemia according to Part II of Annex IV to Directive 2006/88/EC.

<sup>(D)</sup> Apply only to fish species susceptible to or vector species for viral haemorrhagic septicaemia according to Part II of Annex IV to Directive 2006/88/EC.

<sup>(E)</sup> Provisional code that does not prejudice in any way the definitive denomination for this country, which will be agreed following the conclusion of the negotiations currently taking place on this subject at the United Nations.

<sup>(F)</sup> Apply only to imports of ornamental fish which are not of susceptible species to any of the diseases listed in Part II of Annex IV to Directive 2006/88/EC, and ornamental molluscs and ornamental crustaceans, intended for closed ornamental facilities.

<sup>(G)</sup> For the purposes of this Regulation United States includes Puerto Rico, U.S. Virgin Islands, American Samoa, Guam and Northern Mariana Islands.

COUNTRY		Aquaculture animals for farming, relaying, put and take fisheries and open ornamental facilities	
II. Health information		II.a. Certificate reference number	II.b.
Part II: Certification	II.1. <b>General requirements</b>		
	I, the undersigned official inspector, hereby certify that the aquaculture animals referred to in Part I of this certificate:		
	II.1.1.	have been inspected within 72 hours of loading, and showed no clinical signs of disease;	
	II.1.2.	are not subject to any prohibitions due to unresolved increased mortality;	
	II.1.3.	are not intended for destruction or slaughter for the eradication of diseases; and	
	II.1.4.	originate from aquaculture farms which are all under the supervision of the competent authority;	
	II.1.5.	<sup>(1)</sup> [in the case of molluscs, were subject to an individual visual check of each part of the consignment, and no molluscs species other than those specified in Part I of the certificate were detected.]	
	II.2.	<sup>(1)</sup> <sup>(2)</sup> <sup>(3)</sup> <b>[Requirements for species susceptible to Epizootic haematopoietic necrosis (EHN), Bonamia exitiosa, Perkinsus marinus, Mikrocytos mackini, Taura syndrome and/or Yellowhead disease]</b>	
	I, the undersigned official inspector, hereby certify that the aquaculture animals referred to above:		
	<i>either</i> <sup>(1)</sup> <sup>(5)</sup> [originate from a country/territory, zone or compartment declared free from <sup>(1)</sup> [EHN] <sup>(1)</sup> [Bonamia exitiosa] <sup>(1)</sup> [Perkinsus marinus] <sup>(1)</sup> [Mikrocytos mackini] <sup>(1)</sup> [Taura syndrome] <sup>(1)</sup> [Yellowhead disease] in accordance with Chapter VII of Council Directive 2006/88/EC or the relevant OIE Standard by the competent authority of the country of origin, and		
(i) where the relevant disease(s) is (are) notifiable to the competent authority and reports of suspicion of infection of the relevant disease(s) must be immediately investigated by the competent authority,			
(ii) all introduction of species susceptible to the relevant disease(s) come from an area declared free of the disease(s), and			
(iii) species susceptible to the relevant disease(s) are not vaccinated against the relevant disease(s);			
<i>or</i> <sup>(1)</sup> <sup>(3)</sup> <sup>(5)</sup> [in the case of wild aquatic animals, have been subject to quarantine in accordance with Decision 2008/946/EC.]			
II.3.	<sup>(1)</sup> <sup>(4)</sup> <b>[Requirements for vector species to Epizootic haematopoietic necrosis (EHN), Bonamia exitiosa, Perkinsus marinus, Mikrocytos mackini, Taura syndrome and/or Yellowhead disease]</b>		
I, the undersigned official inspector, hereby certify that the aquaculture animals referred to above which are to be regarded as possible vectors to <sup>(1)</sup> [EHN] <sup>(1)</sup> [Bonamia exitiosa] <sup>(1)</sup> [Perkinsus marinus] <sup>(1)</sup> [Mikrocytos mackini] <sup>(1)</sup> [Taura syndrome] <sup>(1)</sup> [Yellowhead disease] as they are of species listed in Column 2 and fulfil the conditions set out in Column 3 of the table in Annex I to Regulation (EC) No 1251/2008:			
<i>either</i> <sup>(1)</sup> <sup>(5)</sup> [originate from a country/territory, zone or compartment declared free from <sup>(1)</sup> [EHN] <sup>(1)</sup> [Bonamia exitiosa] <sup>(1)</sup> [Perkinsus marinus] <sup>(1)</sup> [Mikrocytos mackini] <sup>(1)</sup> [Taura syndrome] <sup>(1)</sup> [Yellowhead disease] in accordance with Chapter VII of Council Directive 2006/88/EC or the relevant OIE Standard by the competent authority of the country of origin, and			
(i) where the relevant disease(s) is (are) notifiable to the competent authority and reports of suspicion of infection of the relevant disease(s) must be immediately investigated by the competent authority,			
(ii) all introduction of species susceptible to the relevant disease(s) come from an area declared free of the disease(s), and			
(iii) species susceptible to the relevant disease(s) are not vaccinated against the relevant disease(s);			
<i>or</i> <sup>(1)</sup> <sup>(5)</sup> [have been subject to quarantine in accordance with Decision 2008/946/EC.]			
II.4.	<sup>(1)</sup> <sup>(2)</sup> <sup>(3)</sup> <b>[Requirements for species susceptible to Viral haemorrhagic septicaemia (VHS), Infectious haematopoietic necrosis (IHN), Infectious salmon anaemia (ISA), Koi herpes virus (KHV), Marteilia refringens, Bonamia ostreae, and/or White spot disease]</b>		
I, the undersigned official inspector, hereby certify that the aquaculture animals referred to above:			
<i>either</i> <sup>(1)</sup> <sup>(6)</sup> [originate from a country/territory, zone or compartment declared free from <sup>(1)</sup> [VHS] <sup>(1)</sup> [IHN] <sup>(1)</sup> [ISA] <sup>(1)</sup> [KHV] <sup>(1)</sup> [Marteilia refringens] <sup>(1)</sup> [Bonamia ostreae] <sup>(1)</sup> [White spot disease] in accordance with Chapter VII of Directive 2006/88/EC or the relevant OIE Standard by the competent authority of the country of origin, and			
(i) where the relevant disease(s) is (are) notifiable to the competent authority and reports of suspicion of infection of the relevant disease(s) must be immediately investigated by the competent authority,			
(ii) all introduction of species susceptible to the relevant disease(s) come from an area declared free of the disease(s), and

COUNTRY		Ornamental aquatic animals intended for closed ornamental facilities	
	II. Health information	II.a. Certificate reference number	II.b.
Part II: Certification	<b>II.1. General requirements</b>		
	I, the undersigned official inspector, hereby certify that the ornamental aquatic animals referred to in Part I of this certificate:		
	II.1.1.	have been inspected within 72 hours of loading, and showed no clinical signs of disease;	
	II.1.2.	are not subject to any prohibitions due to unresolved increased mortality; and	
	II.1.3.	are not intended for destruction or slaughter for the eradication of diseases.	
<b>II.2. <sup>(1)</sup> <sup>(2)</sup> <sup>(3)</sup> [Requirements for species susceptible to Epizootic haematopoietic necrosis (EHN), Bonamia exitiosa, Perkinsus marinus, Mikrocystos mackini, Taura syndrome and/or Yellowhead disease]</b>			
I, the undersigned official inspector, hereby certify that the ornamental aquatic animals referred to above:			
<i>either</i>	<sup>(1)</sup> <sup>(4)</sup> [originate from a country/territory, zone or compartment declared free from <sup>(1)</sup> [EHN] <sup>(1)</sup> [Bonamia exitiosa] <sup>(1)</sup> [Perkinsus marinus] <sup>(1)</sup> [Mikrocystos mackini] <sup>(1)</sup> [Taura syndrome] <sup>(1)</sup> [Yellowhead disease] in accordance with Chapter VII of Council Directive 2006/68/EC or the relevant OIE Standard by the competent authority of the country of origin, and		
	(i) where the relevant disease(s) is (are) notifiable to the competent authority and reports of suspicion of infection of the relevant disease(s) must be immediately investigated by the competent authority;		
	(ii) all introduction of species susceptible to the relevant disease(s) come from an area declared free of the disease(s); and		
	(iii) species susceptible to the relevant disease(s) are not vaccinated against the relevant disease(s);		
<i>or</i>	<sup>(1)</sup> <sup>(4)</sup> <sup>(5)</sup> [have been subject to quarantine in accordance with Decision 2008/946/EC].		
<b>II.3. <sup>(1)</sup> <sup>(2)</sup> <sup>(3)</sup> [Requirements for species susceptible to Viral haemorrhagic septicaemia (VHS), Infectious haematopoietic necrosis (IHN), Infectious salmon anaemia (ISA), Koi herpes virus (KHV), Marteilia refringens, Bonamia ostreae, and/or White spot disease]</b>			
I, the undersigned official inspector, hereby certify that the ornamental aquatic animals referred to above:			
<i>either</i>	<sup>(1)</sup> <sup>(5)</sup> [originate from a country/territory, zone or compartment declared free from <sup>(1)</sup> [VHS] <sup>(1)</sup> [IHN] <sup>(1)</sup> [ISA] <sup>(1)</sup> [KHV] <sup>(1)</sup> [Marteilia refringens] <sup>(1)</sup> [Bonamia ostreae] <sup>(1)</sup> [White spot disease] in accordance with Chapter VII of Directive 2006/88/EC or the relevant OIE Standard by the competent authority of the country of origin, and		
	(i) where the relevant disease(s) is (are) notifiable to the competent authority and reports of suspicion of infection of the relevant disease(s) must be immediately investigated by the competent authority,		
	(ii) all introduction of species susceptible to the relevant disease(s) come from an area declared free of the disease(s), and		
	(iii) species susceptible to the relevant disease(s) are not vaccinated against the relevant disease(s)]		
<i>or</i>	<sup>(1)</sup> <sup>(3)</sup> <sup>(5)</sup> [have been subject to quarantine in accordance with Decision 2008/946/EC].		
<b>II.4. Transport and labelling requirements</b>			
I, the undersigned official inspector, hereby certify that:			
II.4.1.	the ornamental aquatic animals referred to above are placed under conditions, including with a water quality, that do not alter their health status;		
II.4.2.	the transport container is clean and disinfected or previously unused; and		
II.4.3.	the consignment is identified by a legible label on the exterior of the container with the relevant information referred to in boxes I.7 to I.13 of Part I of this certificate, and the following statement:		
<i>either</i>	<sup>(1)</sup> ["Ornamental <sup>(1)</sup> [fish] <sup>(1)</sup> [molluscs] <sup>(1)</sup> [crustaceans] intended for closed ornamental facilities in the European Union"]		
<i>or</i>	<sup>(1)</sup> ["Ornamental <sup>(1)</sup> [fish] <sup>(1)</sup> [molluscs] <sup>(1)</sup> [crustaceans] intended for quarantine in the European Union"].		
<b>II.5. <sup>(1)</sup> <sup>(3)</sup> <sup>(5)</sup> [Requirements for species susceptible to Spring viraemia of carp (SVC), Bacterial kidney disease (BKD), Infectious pancreatic necrosis virus (IPN) and Infection with Gyrodactylus salaris (GS)]</b>			
I, the undersigned official inspector, hereby certify that the ornamental aquatic animals referred to above:			

COUNTRY		Ornamental aquatic animals intended for closed ornamental facilities	
II.	Health information	II.a. Certificate reference number	II.b.
<p><i>either</i> <sup>(1)</sup> [originate from a country/territory or part thereof:</p> <p>(a) where <sup>(1)</sup> [SVC] <sup>(1)</sup> [GS] <sup>(1)</sup> [BKD] <sup>(1)</sup> [IPN] is (are) notifiable to the competent authority and reports of suspicion of infection of the relevant disease(s) must be immediately investigated by the competent authority;</p> <p>(b) where all aquaculture animals of species susceptible to the relevant disease(s) introduced into that country/territory or part thereof comply with the requirements set in Part II.5 of this certificate;</p> <p>(c) where species susceptible to the relevant disease(s) are not vaccinated against the relevant disease(s); and</p> <p>(d) which comply with the requirements for disease freedom as regards <sup>(1)</sup> [SVC] <sup>(1)</sup> [GS] <sup>(1)</sup> [BKD] <sup>(1)</sup> [IPN] laid down in the relevant OIE standard or at least equivalent to those laid down in Chapter VII of Directive 2006/88/EC.]</p> <p><i>or</i> <sup>(1)</sup> <sup>(2)</sup> [have been subject to quarantine under conditions at least equivalent to those laid down in Decision 2008/946/EC.]</p>			
<b>Notes</b>			
<b>Part I:</b>			
— Box I.19: Use the appropriate Harmonised System (HS) codes of the World Customs Organisation of the following headings: 0301, 0306, 0307, 0308 or 0511.			
— Box I.20 and I.28: As regards quantity, give the total number in kg, except for the ornamental fish.			
— Box I.25: Use the option "Pets" for ornamental aquatic animals intended for pet shops or similar businesses for further sale, "Circus/exhibition" for ornamental aquatic animals intended for exhibition aquaria or similar businesses not for further sale and "Quarantine" if the ornamental aquatic animals are intended for a quarantine facility.			
<b>Part II:</b>			
<sup>(1)</sup> Keep as appropriate.			
<sup>(2)</sup> Parts II.2 and II.3 of this certificate only applies to species susceptible to one or more of the diseases referred to in the heading of the part concerned. Susceptible species are listed in Part II of Annex IV to Directive 2006/88/EC.			
<sup>(3)</sup> Consignments of ornamental aquatic animals may be imported regardless of the requirements in Parts II.2 and II.3 if they are intended for a quarantine facility complying with the requirements laid down in Decision 2008/946/EC.			
<sup>(4)</sup> To be authorised into the Union one of these statements must be kept if the consignments contain species susceptible to EHN, Bonamia exitiosa, Perkinsus marinus, Mikrocytos mackini, Taura syndrome and/or Yellowhead disease.			
<sup>(5)</sup> To be authorised into a Member State, zone or compartment declared free from VHS, IHN, ISA, KHV, Marteilia refringens, Bonamia ostreae, or Whitespot disease or with a surveillance or eradication programme drawn up in accordance with Article 44(1) or (2) of Directive 2006/88/EC, one of these statements must be kept if the consignment contain species susceptible to the disease(s) for which disease freedom or surveillance or eradication programme(s) apply(ies). Data on the disease status in different parts of the Union are accessible at <a href="http://ec.europa.eu/food/animal/liveanimals/aquaculture/index_en.htm">http://ec.europa.eu/food/animal/liveanimals/aquaculture/index_en.htm</a>			
<sup>(6)</sup> Part II.5 of this certificate only applies to consignments intended for a Member State or part thereof which is regarded as disease-free, or for which an programme is approved by Decision 2010/221/EU as regards SVC, BKD, IPN or GS, and the consignment comprises species listed in Part C of Annex II as susceptible to the disease(s) for which the disease-free status or programme(s) apply(ies).			
Part II.5 also applies to consignments of fish of any species originating from waters where species listed in Part C of Annex II as species susceptible to infection with GS, are present, where those consignments are intended for a Member State or part thereof listed in Annex I to Decision 2010/221/EU as free of GS.			
Consignments of ornamental aquatic animals for which SVC, IPN and/or BKD related requirements are applicable, may be imported regardless of the requirements in Part II.5 of this certificate if they are intended for a quarantine facility complying with the requirements laid down in Decision 2008/946/EC.			
— The colour of the stamp and signature must be different to that of the other particulars in the certificate.

## ANNEX V

## Explanatory notes

- (a) Certificates shall be issued by the competent authorities of the country of origin, based on the appropriate model set out in Annex II and IV to this Regulation taking into account the place of destination and use of the consignment after the arrival at the destination.
- (b) Considering the status of the place of destination as regards non-exotic diseases referred to in Part II of Annex IV to Directive 2006/88/EC in the EU Member State or diseases for which the place of destination has measures approved by Decision 2010/221/EU approving national measures in accordance with Article 43 of Council Directive 2006/88/EC, the appropriate specific requirements shall be incorporated and completed in the certificate.
- (c) The 'Place of origin' shall be the localisation of the farm or mollusc farming area where the aquaculture animals were reared reaching their commercial size relevant for the consignment covered by this certificate. For wild aquatic animals 'place of origin' shall be the place of harvest.
- (d) Where the model certificate states that certain statements shall be kept as appropriate, statements which are not relevant, may be crossed out and initialled and stamped by the certifying officer, or completely deleted from the certificate.
- (e) The original of each certificate shall consist of a single sheet of paper, or, where more text is required it must be in such a form that all sheets of paper required are part of an integrated whole and indivisible.
- (f) For import into the Union from third countries, the original of the certificate and the labels referred to in the model certificate shall be drawn up in at least one of the official languages of the Member State of the border inspection post of introduction of the consignment into the Union and of the Member State of destination. However, those Member States may authorise the certificate to be drawn up in the official language of another Member State, and accompanied, if necessary, by an official translation.
- (g) Where additional sheets are attached to the certificate for the purpose of identifying the items making up the consignment, such additional sheets shall also be considered to form part of the original of the certificate, provided the signature and stamp of the certifying official inspector appear on each page.
- (h) When the certificate, including any additional sheets as referred to in (g), comprises more than one page, each page shall be numbered '*x*(page number) of *y*(total number of pages)–' on the bottom and shall bear the certificate reference number allocated by the competent authority on the top.
- (i) The original of the certificate must be completed and signed by an official inspector not more than 72 hours prior to loading of the consignment, or not more than 24 hours in those cases where the aquaculture animals must be inspected within 24 hours of loading. The competent authorities of the country of origin shall ensure that principles of certification equivalent to those laid down in Directive 96/93/EC are followed.
- (j) The colour of the signature shall be different from that of the printing. The same requirement shall apply to stamps other than embossed stamps or watermarks.
- (k) For import into the Union from third countries, the original of the certificate must accompany the consignment until it reaches the EU border inspection post. For consignments placed on the market within the Union, the original of the certificate must accompany the consignment until it reaches its final destination.

**▼ M2**

- (l) A certificate issued for live aquaculture animals shall be valid for 10 days from the date of issue. In the case of transport by ship, the time of validity is prolonged by the time of journey at sea. To that end, the original of a declaration by the ship's master, drawn up in accordance with the addendum drawn up in conformity with the model laid down in Part D of Annex IV, shall be attached to the animal health certificate.
- (m) Please note that the general conditions on the transport of animals laid down in Council Regulation (EC) No 1/2005 on the protection of animals during transport and related operations and amending Directives 64/432/EEC and 93/119/EC and Regulation (EC) No 1255/97 may, where applicable, require measures to be taken after entry into the Union if the requirements of that Regulation are not fulfilled.
