Ecodesign requirements

[^{F1}7. Product information requirements

As of 1 January 2015, the following information for networked equipment shall be visibly displayed on manufacturers' freely accessible websites:

- (a) for each standby and/or off mode and the condition providing networked standby into which the equipment is switched by the power management function or similar function:
 - the power consumption data in Watt rounded to the first decimal place,
 - the period of time after which the power management function, or a similar function, switches the equipment automatically into standby and/or off mode and/or the condition providing networked standby;
- (b) the power consumption of the product in networked standby if all wired network ports are connected and all wireless network ports are activated;
- (c) guidance on how to activate and deactivate wireless network ports.

The power consumption of the product in networked standby as referred to in point (b) and the guidance as referred to in point (c) shall also be included in the user manual.]
