**COMMISSION REGULATION (EC) No 690/2008****of 4 July 2008****recognising protected zones exposed to particular plant health risks
in the Community**

(Recast)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 2000/29/EC of 8 May 2000 on protective measures against the introduction into the Community of organisms harmful to plants or plant products and against their spread within the Community ⁽¹⁾, and in particular the first subparagraph of Article 2(1)(h) thereof,

Having regard to the requests made by Ireland, Spain, Italy, Cyprus, Lithuania, Malta, Austria, Portugal, Slovenia and Slovakia,

Whereas:

- (1) Commission Directive 2001/32/EC of 8 May 2001 recognising protected zones exposed to particular plant health risks in the Community and repealing Directive 92/76/EEC ⁽²⁾ has been substantially amended several times. Since further amendments are to be made, it should be recast in the interests of clarity.
- (2) Under Directive 2000/29/EC, ‘protected zones’ exposed to particular plant health risks may be defined and therefore may be accorded special protection under conditions compatible with the internal market. Such zones were defined in Commission Directive 2001/32/EC.
- (3) Certain Member States or certain areas in Member States are recognised as protected zones in respect of certain harmful organisms. In some cases recognition was granted provisionally, because the full information necessary to show that the harmful organism in question was not present in the Member State or area concerned had not been provided or efforts to eradicate such an organism had not been concluded. Where the Member States concerned have provided the necessary information, the zones in question should be recognised as permanent protected zones. The provisional recognition should exceptionally be extended for a further limited period to give the Member States concerned the necessary additional time to submit information showing that that organism is not present or, where necessary, to complete their efforts to eradicate it. In other cases protected zones should no longer be recognised as such since harmful organisms are now present.
- (4) Cyprus was provisionally recognised as a protected zone with respect to *Daktulosphaira vitifoliae* (Fitch), *Ips sexdentatus* Börner and *Leptinotarsa decemlineata* Say until 31 March 2008. From information supplied by Cyprus since the provisional recognition was granted, it appears that those organisms are not present in Cyprus. Therefore Cyprus should be recognised as a permanent protected zone with respect to those organisms.

⁽¹⁾ OJ L 169, 10.7.2000, p. 1. Directive as last amended by Commission Directive 2008/64/EC (OJ L 168, 28.6.2008, p. 31).

⁽²⁾ OJ L 127, 9.5.2001, p. 38. Directive as last amended by Directive 2007/40/EC (OJ L 169, 29.6.2007, p. 49).

▼B

- (5) Certain regions of Spain were recognised as protected zones with respect to *Thaumetopoea pityocampa* (Den. and Schiff.). From information supplied by Spain, it appears that that organism is now established in these regions. They should therefore no longer be recognised as a protected zone in respect of that organism.
- (6) Certain regions in Italy, Austria, Slovenia and Slovakia, and the whole territory of Ireland and Lithuania were provisionally recognised as protected zones with respect to *Erwinia amylovora* (Burr.) Winsl. *et al.* until 31 March 2008.
- (7) From information supplied by Ireland, Lithuania and Slovakia, it appears that the provisional recognition of the protected zones for those countries in respect of *Erwinia amylovora* (Burr.) Winsl. *et al.* should exceptionally be extended for two years to give those Member States the necessary time to submit information showing that that organism is not present or, where necessary, to complete their efforts to eradicate it.
- (8) From information supplied by Italy and Slovenia, it appears that *Erwinia amylovora* (Burr.) Winsl. *et al.* is now established in some regions, which have previously been provisionally recognised as protected zones for that organism until 31 March 2008. Those regions should therefore no longer be recognised as a protected zone for that organism.
- (9) From information supplied by Austria, it appears that due to unfavourable conditions in 2007 there were several outbreaks of *Erwinia amylovora* (Burr.) Winsl. *et al.* in some parts of its territory, which have been provisionally recognised as protected zones for this harmful organism. For this reason, the provisional recognition of the protected zones for certain regions in respect of *Erwinia amylovora* (Burr.) Winsl. *et al.* should be extended for one year to give Austria the necessary time to verify that the eradication efforts made by Austria in 2007 are efficient and submit information showing that *Erwinia amylovora* (Burr.) Winsl. *et al.* is not present or, where necessary, to complete its efforts to eradicate that organism in 2008.
- (10) Malta was provisionally recognised as a protected zone with respect to *Citrus tristeza* virus (European strains) until 31 March 2008. From information supplied by Malta, it appears that the efforts to eradicate that organism have been successful. Therefore Malta should be recognised as a permanent protected zone with respect to that organism.
- (11) The territory of Portugal was recognised as a protected zone with respect to *Citrus tristeza* virus (European strains). From information supplied by Portugal, it appears that that organism is now established in a part of its territory. That part of the Portuguese territory should therefore no longer be recognised as a protected zone in respect of that organism.
- (12) It is therefore necessary to modify the existing designation of protected zones.
- (13) In the past protected zones were recognised and amended by Directive. To achieve a timely and simultaneous application by Member States, protected zones should be recognised by Regulation.
- (14) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plant Health.
- (15) This Regulation should be without prejudice to the obligations of the Member States relating to the time-limits for transposition into national law and application of the Directives set out in Annex II, Part B,

HAS ADOPTED THIS REGULATION:

▼B*Article 1*

The zones in the Community listed in Annex I are recognised as protected zones within the meaning of the first subparagraph of Article 2(1)(h) of Directive 2000/29/EC, in respect of the harmful organism(s) listed against their names in Annex I to this Regulation.

Article 2

Directive 2001/32/EC, as amended by the acts listed in Annex II, Part A, is repealed, without prejudice to the obligations of the Member States relating to the time-limits for transposition into national law and application of the Directives set out in Annex II, Part B.

References to the repealed Directive shall be construed as references to this Regulation and shall be read in accordance with the correlation table in Annex III.

Article 3

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

▼B

ANNEX I

Zones in the community recognised as 'protected zones', in respect of harmful organism(s) listed against their names

Harmful organisms	Protected zones: territory of
(a) Insects, mites and nematodes, at all stages of their development	
1. <i>Anthonomus grandis</i> (Boh.)	Greece, Spain (Andalusia, Catalonia, Extremadura, Murcia, Valencia)
2. <i>Bemisia tabaci</i> Genn. (European populations)	Ireland, Portugal (Azores, Beira Interior, Beira Litoral, Entre Douro e Minho, Madeira, Ribatejo e Oeste (communes of Alcobaça, Alenquer, Bombarral, Cadaval, Caldas da Rainha, Lourinhã, Nazaré, Obidos, Peniche and Torres Vedras) and Trás-os-Montes), Finland, Sweden, United Kingdom
3. <i>Cephalcia lariciphila</i> (Klug.)	Ireland, United Kingdom (Northern Ireland, Isle of Man and Jersey)
3.1. <i>Daktulosphaira vitifoliae</i> (Fitch)	Cyprus
4. <i>Dendroctonus micans</i> Kugelan	Ireland, Greece ► M1 (until 31 March 2010) ◀, United Kingdom (Northern Ireland, Isle of Man and Jersey)
5. <i>Gilpinia hercyniae</i> (Hartig)	Ireland, Greece ► M1 (until 31 March 2010) ◀, United Kingdom (Northern Ireland, Isle of Man and Jersey)
6. <i>Globodera pallida</i> (Stone) Behrens	Latvia, Slovenia, Slovakia, Finland
7. <i>Gonipterus scutellatus</i> Gyll	Greece ► M1 (until 31 March 2010) ◀, Portugal (Azores)
8. <i>Ips amitinus</i> Eichhof	Ireland, Greece ► M1 (until 31 March 2010) ◀, France (Corsica), United Kingdom
9. <i>Ips cembrae</i> Heer	Ireland, Greece ► M1 (until 31 March 2010) ◀, United Kingdom (Northern Ireland and Isle of Man)
10. <i>Ips duplicatus</i> Sahlberg	Ireland, Greece ► M1 (until 31 March 2010) ◀, United Kingdom
11. <i>Ips sexdentatus</i> Börner	Ireland, Cyprus, United Kingdom (Northern Ireland and Isle of Man)
12. <i>Ips typographus</i> Heer	Ireland, United Kingdom
13. <i>Leptinotarsa decemlineata</i> Say	Ireland, Spain (Ibiza and Menorca), Cyprus, Malta, Portugal (Azores and Madeira), Finland (districts of Åland, Häme, Kymi, Pirkanmaa, Satakunta, Turku, Uusimaa), Sweden (counties of Blekinge, Gotland, Halland, Kalmar and Skåne), United Kingdom
14. <i>Liriomyza bryoniae</i> (Kaltenbach)	Ireland, United Kingdom (Northern Ireland)
15. <i>Sternochetus mangiferae</i> Fabricius	Spain (Granada and Malaga), Portugal (Alentejo, Algarve and Madeira)
(b) Bacteria	
1. <i>Curtobacterium flaccumfaciens</i> pv. <i>flaccumfaciens</i> (Hedges) Col.	Greece, Spain, Portugal

▼B

Harmful organisms	Protected zones: territory of
2. <i>Erwinia amylovora</i> (Burr.) Winsl. <i>et al.</i>	<p>— Estonia, Spain, France (Corsica), Italy (Abruzzo, Basilicata, Calabria, Campania, Friuli-Venezia Giulia, Lazio, Liguria, Marche, Molise, Piedmont, Sardinia, Sicily, Tuscany, Umbria, Valle d'Aosta), Latvia, Portugal, Finland, United Kingdom (Northern Ireland, Isle of Man and Channel Islands),</p> <p>— and, until 31 March 2010, Ireland, Italy (Apulia, Emilia-Romagna (the provinces of Parma and Piacenza), Lombardy (except the province of Mantua), Veneto (except the province of Rovigo, the communes Castelbaldo, Barbona, Piacenza d'Adige, Vescovana, S. Urbano, Boara Pisani, Masi in the province of Padova and the area situated to the South of highway A4 in the province of Verona)), Lithuania, Slovenia (except the regions Gorenjska, Koroška, Maribor and Notranjska), Slovakia (except the communes of Blahová, Horné Mýto and Okoč (Dunajská Streda County), Hronovce and Hronské Kľačany (Levice County), Málinec (Poltár County), Hrhov (Rožňava County), Veľké Ripňany (Topoľčany County), Kazimír, Luhyňa, Malý Horeš, Svätušie and Zatín (Trebišov County))</p> <p>►M1 ◀</p>
(c) Fungi	
01. <i>Cryphonectria parasitica</i> (Murrill) Barr	Czech Republic, Ireland ►M1 ◀, Sweden and the United Kingdom (except Isle of Man)
1. <i>Glomerella gossypii</i> Edgerton	Greece
2. <i>Gremmeniella abietina</i> Morelet	Ireland, United Kingdom (Northern Ireland)
3. <i>Hypoxyton mammatum</i> (Wahl.) J Miller	Ireland, United Kingdom (Northern Ireland)
(d) Viruses and virus-like organisms	
1. Beet necrotic yellow vein virus	Ireland, France (Brittany), Portugal (Azores), Finland, United Kingdom (Northern Ireland)
2. Tomato spotted wilt virus	Finland, Sweden
3. <i>Citrus tristeza</i> virus (European strains)	Greece, France (Corsica), Malta, Portugal (except Madeira)
4. Grapevine flavescence dorée MLO	Czech Republic (until 31 March 2011), France (Alsace, Champagne-Ardenne and Lorraine) (until 31 March 2011), Italy (Basilicata) (until 31 March 2011)
