

Commission Regulation (EC) No 889/2008 of 5 September 2008 laying down detailed rules for the implementation of Council Regulation (EC) No 834/2007 on organic production and labelling of organic products with regard to organic production, labelling and control

COMMISSION REGULATION (EC) No 889/2008

of 5 September 2008

laying down detailed rules for the implementation of Council Regulation (EC) No 834/2007 on organic production and labelling of organic products with regard to organic production, labelling and control

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 834/2007 of 28 June 2007 on organic production and labelling of organic products and repealing Regulation (EEC) No 2092/91⁽¹⁾, and in particular Article 9(4), the second paragraph of Article 11 Articles 12(3), 14(2), 16(3)(c), 17(2) and 18(5), the second subparagraph of Article 19(3), Articles 21(2), 22(1), 24(3), 25(3), 26, 28(6), 29(3) and 38(a), (b), (c) and (e), and Article 40 thereof,

Whereas:

- (1) Regulation (EC) No 834/2007, and in particular Titles III, IV and V thereof, lay down basic requirements with regard to production, labelling and control of organic products in the plant and livestock sector. Detailed rules for the implementation of those requirements should be laid down.
- (2) The evolution of new detailed production rules on certain animal species, organic aquaculture, seaweed and yeasts used as food or feed on community level will require more time and therefore should be elaborated in a subsequent procedure. It is therefore appropriate to exclude those products from the scope of this Regulation. However, as regards certain livestock species, aquaculture products and seaweed, the Community rules provided for production, controls and labelling should apply *mutatis mutandis* to those products, in accordance with Article 42 of Regulation (EC) No 834/2007.
- (3) Certain definitions should be laid down in order to avoid ambiguities and to guarantee the uniform application of the organic production rules.
- (4) Organic plant production is based on nourishing the plants primarily through the soil ecosystem. Therefore hydroponic cultivation, where plants grow with their roots in an inert medium feed with soluble minerals and nutrients, should not be allowed.
- (5) Organic plant production involves varied cultivation practices and limited use of fertilisers and conditioners of low solubility, therefore these practices should be specified. In particular, conditions for the use of certain non-synthetic products should be laid down.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- (6) The use of pesticides, which may have detrimental effects on the environment or result in the presence of residues in agricultural products, should be significantly restricted. Preference should be given to the application of preventive measures in pest, disease and weed control. In addition, conditions for the use of certain plant protection products should be laid down.
- (7) For the purpose of organic farming, the use of certain plant protection products, fertilisers, soil conditioners, as well as certain non-organic feed materials, feed additives and feed processing aids and certain products used for cleaning and disinfection was allowed under Council Regulation (EEC) No 2092/91⁽²⁾ under well-defined conditions. For the sake of ensuring the continuity of organic farming the products and substances in question should, in accordance with the provisions laid down in Article 16(3)(c) of Regulation (EC) No 834/2007, continue to be allowed. Moreover, for the sake of clarity, it is appropriate to list in the Annexes to this Regulation the products and substances which had been allowed under Regulation (EEC) No 2092/91. Other products and substances may be added to these lists in the future under a different legal basis, namely Article 16(1) of Regulation (EC) No 834/2007. It is therefore appropriate to identify the distinct status of each category of products and substances by means of a symbol in the list.
- (8) The holistic approach of organic farming requires a livestock production related to the land, where the produced manure is used to nourish the crop production. Since livestock farming always implies the management of agricultural land, provision should be made to prohibit landless livestock production. In organic livestock production the choice of breeds should take account of their capacity to adapt to local conditions, their vitality and their resistance to disease and a wide biological diversity should be encouraged.
- (9) Under certain circumstances operators may face difficulties in obtaining organic breeding animals from a reduced gene pool, which would hamper the development of the sector. Therefore the possibility of bringing a limited number of non-organic animals onto a farm for breeding purposes should be provided for.
- (10) Organic stock farming should ensure that specific behavioural needs of animals are met. In this regard, housing for all species of livestock should satisfy the needs of the animals concerned as regards ventilation, light, space and comfort and sufficient area should accordingly be provided to permit ample freedom of movement for each animal and to develop the animal's natural social behaviour. Specific housing conditions and husbandry practices with regard to certain animals, including bees, should be laid down. These specific housing conditions should serve a high level of animal welfare, which is a priority in organic livestock farming and therefore may go beyond Community welfare standards which apply to farming in general. Organic husbandry practices should prevent poultry from being reared too quickly. Therefore specific provisions to avoid intensive rearing methods should be laid down. In particular poultry shall either be reared until they reach a minimum age or else shall come from slow-growing poultry strains, so that in either case there is no incentive to use intensive rearing methods.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- (11) In most cases, livestock should have permanent access to open air areas for grazing, weather conditions permitting, and such open air areas should in principle be organised under an appropriate system of rotation.
- (12) In order to avoid environmental pollution of natural resources such as soil and water by nutrients, an upper limit for the use of manure per hectare and for keeping livestock per hectare should be set. This limit should be related to the nitrogen content of the manure.
- (13) Mutilations which lead to stress, harm, disease or the suffering of animals should be banned. However, specific operations essential to certain types of production and for the sake of security for animals and human beings may be permitted under restricted conditions.
- (14) Livestock should be fed on grass, fodder and feedingstuffs produced in accordance with the rules of organic farming, preferably coming from the own holding, by taking into account their physiological needs. In addition, in order to provide for the basic nutritional requirements of livestock, certain minerals, trace elements and vitamins may need to be used under well-defined conditions.
- (15) Since the existing regional differences in the possibility for organic ruminants to obtain the necessary essential vitamins A, D and E through their feed rations, as regards climate and available sources of feed, are expected to persist, the use of such vitamins for ruminants should be allowed.
- (16) Animal-health management should mainly be based on prevention of disease. In addition specific cleaning and disinfection measures should be applied.
- (17) The preventive use of chemically-synthesised allopathic medicinal products is not permitted in organic farming. However, in the event of a sickness or injury of an animal requiring an immediate treatment, the use of chemically-synthesised allopathic medicinal products should be limited to a strict minimum. Furthermore, in order to guarantee the integrity of organic production for consumers it should be possible to take restrictive measures such as doubling the withdrawal period after use of chemically synthesised allopathic medicinal products.
- (18) Specific rules for disease prevention and veterinary treatment in beekeeping should be laid down.
- (19) Provision should be made to require operators producing feed or food to take account of appropriate procedures based on a systematic identification of critical processing steps in order to ensure that the produced processed products comply with the organic production rules.
- (20) Certain non-organic products and substances are needed in order to ensure the production of certain processed organic food and feed. The harmonization of wine processing rules on Community level will require more time. Therefore the mentioned products should be excluded for wine processing until, in a subsequent procedure, specific rules are laid down.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- (21) For the purpose of processing organic food, the use of certain ingredients of non-agricultural origin, certain food processing aid and certain non-organic ingredients of agricultural origin was allowed under Regulation (EEC) No 2092/91 under well-defined conditions. For the sake of ensuring the continuity of organic farming the products and substances in question should, in accordance with the provisions laid down in Article 21(2) of Regulation (EC) No 834/2007, continue to be allowed. Moreover, for the sake of clarity, it is appropriate to list in the Annexes to this Regulation the products and substances which had been allowed under Regulation (EEC) No 2092/91. Other products and substances may be added to these lists in the future under a different legal basis, namely Article 21(2) of Regulation (EC) No 834/2007. It is therefore appropriate to identify the distinct status of each category of products and substances by means of a symbol in the list.
- (22) Under certain conditions organic products and non-organic products can be collected and transported simultaneously. In order to duly separate organic from non-organic products during handling and to avoid any commingling specific provisions should be laid down.
- (23) The conversion to the organic production method requires certain periods of adaptation of all means in use. Depending on the previous farm production, specific time periods for the various production sectors should be laid down.
- (24) In accordance with Article 22 of Regulation (EC) No 834/2007, specific conditions for the application of exceptions provided for in that Article should be laid down. It is appropriate to set out such conditions with regard to the non availability of organic animals, feed, beeswax, seeds and seed potatoes and organic ingredients as well as to specific problems related to the livestock management and in the case of catastrophic circumstances.
- (25) Geographical and structural differences in agriculture and climatic constraints may hamper the development of organic production in certain regions and therefore call for exceptions for certain practices as regards the characteristics of livestock buildings and installations. Therefore tethering of animals should, under well-defined conditions, be allowed in holdings which, due to their geographical location and structural constraints, in particular with regard to mountainous areas, are of small size, and only where it is not possible to keep the cattle in groups appropriate to their behavioural needs.
- (26) For the purpose of ensuring the development of an incipient organic livestock sector, several temporary derogations as regards tethering of animals, housing conditions for animals and stocking densities were granted under Regulation (EEC) No 2092/91. These derogations should, on a transitional basis, be maintained until their expiry date, in order not to disrupt the organic livestock sector.
- (27) Considering the importance of pollination of the organic beekeeping sector it should be possible to grant exceptions permitting the parallel production of organic and non-organic beekeeping unit on the same farm.
- (28) Under certain circumstances, farmers may experience difficulty in securing supplies of organically reared livestock and organic feedingstuffs and therefore authorisation

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

should be granted for a limited number of non-organically produced farm input to be used in restricted quantities.

- (29) Major efforts have been undertaken by producers involved in organic production for the development of the production of organic seeds and vegetative materials in order to establish a broad choice of plant varieties of plant species for which organic seeds and vegetative propagating material is available. However, currently for many species there is still not enough organic seed and vegetative propagating material available and, in those cases, the use of non-organic seed and vegetative propagating material should be allowed.
- (30) In order to help operators to find organic seed and seed potatoes, each Member State should ensure that a database is set up that contains the varieties of which organic seed and seed potatoes are available on the market.
- (31) The management of adult bovine animals may endanger the keeper and other persons handling the animals. Therefore provision should be made to allow for exceptions to be granted during the final fattening phase of mammals, in particular with regard to bovine animals.
- (32) Catastrophic circumstances or widespread animal or plant diseases may have serious effects on the organic production in the regions concerned. Appropriate measures need to be taken to ensure the maintenance of farming or even the reestablishment of farming. Therefore the supply of non-organic animals, or non-organic feed should be made possible for a limited period in the affected areas.
- (33) In accordance with Articles 24(3) and 25(3) of Regulation (EC) No 834/2007, specific criteria as regards the presentation, composition, size and design of the Community logo, as well as the presentation and composition of the code number of the control authority or control body and of the indication of the place where the agricultural product has been farmed should be laid down.
- (34) In accordance with Article 26 of Regulation (EC) No 834/2007, specific requirements for the labelling of organic feed should be laid down taking into account the varieties and composition of feed and the horizontal labelling provisions applicable to feed.
- (35) In addition to the control system based on the Regulation (EC) No 882/2004 of the European Parliament and of the Council of 29 April 2004 on official controls performed to ensure the verification of compliance with feed and food law, animal health and animal welfare rules⁽³⁾ specific control measures should be laid down. In particular, detailed requirements with regard to all stages of production, preparation and distribution related to organic products.
- (36) Notifications of information by the Member States to the Commission must enable it to use the information sent directly and as effectively as possible for the management of statistical information and referential data. To achieve this objective, all information to be made available or to be communicated between the Member States and the Commission should be sent electronically or in digital form.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- (37) Exchanges of information and documents between the Commission and the Member States, and the provision and notification of information from the Member States to the Commission are generally carried out electronically or in digital form. In order to improve the way such exchanges of information under organic production rules are dealt with and to extend their use, it is necessary to adapt the existing computer systems or set up new ones. Provision should be made for this to be done by the Commission and implemented after informing the Member States via the Committee on organic production.
- (38) The conditions under which information is processed by these computer systems and the form and content of documents which have to be communicated under Regulation (EC) No 834/2007 have to be adjusted frequently in line with changes to the applicable rules or management requirements. Uniform presentation of the documents to be sent in by the Member States is also necessary. To achieve these objectives and to simplify procedures and ensure that the computer systems concerned can be made operational immediately, the form and content of the documents should be laid down on the basis of models or questionnaires, which should be adapted and updated by the Commission after informing the Committee on organic production.
- (39) Transitional measures should be laid down, for certain provisions established under Regulation (EEC) No 2092/91, in order not to jeopardize the continuity of the organic production.
- (40) Commission Regulation (EEC) No 207/93 of 29 January 1993 defining the content of Annex VI to Regulation (EEC) No 2092/91 on organic production of agricultural products and indications referring thereto on agricultural products and foodstuffs and laying down detailed rules for implementing the provisions of Article 5(4) thereto⁽⁴⁾ Commission Regulation (EC) No 1452/2003 of 14 August 2003 maintaining the derogation provided for in Article 6(3)(a) of Council Regulation (EEC) No 2092/91 with regard to certain species of seed and vegetative propagating material and laying down procedural rules and criteria relating to that derogation⁽⁵⁾ and Commission Regulation (EC) No 223/2003 of 5 February 2003 on labelling requirements related to the organic production method for feedingstuffs, compound feedingstuffs and feed materials and amending Council Regulation (EEC) No 2092/91⁽⁶⁾ should be repealed and replaced by a new Regulation.
- (41) Regulation (EEC) No 2092/91 is repealed by Regulation (EC) No 834/2007 with effect from 1 January 2009. However, many of its provisions should, with some adaptation, continue to apply and should therefore be adopted in the framework of this Regulation. For the sake of clarity it is appropriate to set out the correlation between those provisions of Regulation (EEC) No 2092/91 and the provisions of this Regulation.
- (42) The measures provided for in this Regulation are in accordance with the opinion of the regulatory Committee on organic production,

HAS ADOPTED THIS REGULATION:

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

TITLE I **U.K.**

INTRODUCTORY PROVISIONS

Article 1 **U.K.**

Subject matter and scope

1 This Regulation lays down specific rules on organic production, labelling and control in respect of products referred to in Article 1(2) of Regulation (EC) No 834/2007.

2 This Regulation shall not apply to the following products:

- a products originating from aquaculture;
- b seaweed;
- c livestock species other than those referred to in Article 7^[F1].

[^{F2}d yeasts used as food or feed.]

However, Title II, Title III and Title IV shall apply *mutatis mutandis* to products referred to in points (a), (b) and (c) of the first subparagraph until detailed production rules for those products are laid down on the basis of Regulation (EC) No 834/2007.

Textual Amendments

- F1** Substituted by Commission Regulation (EC) No 1254/2008 of 15 December 2008 amending Regulation (EC) No 889/2008 laying down detailed rules for implementation of Council Regulation (EC) No 834/2007 on organic production and labelling of organic products with regard to organic production, labelling and control.
- F2** Deleted by Commission Regulation (EC) No 1254/2008 of 15 December 2008 amending Regulation (EC) No 889/2008 laying down detailed rules for implementation of Council Regulation (EC) No 834/2007 on organic production and labelling of organic products with regard to organic production, labelling and control.

Article 2 **U.K.**

Definitions

In addition to the definitions laid down in Article 2 of Regulation (EC) No 834/2007, the following definitions shall apply for the purposes of this Regulation:

- (a) ‘non-organic’: means not coming from or not related to a production in accordance to Regulation (EC) No 834/2007 and this Regulation;
- (b) ‘veterinary medicinal products’: means products as defined in Article 1(2) of Directive 2001/82/EC of the European Parliament and of the Council⁽⁷⁾ concerning the Community code relating to veterinary medicinal products;
- (c) ‘importer’: means the natural or legal person within the community who presents a consignment for release for free circulation into the Community, either in person, or through a representative;
- (d) ‘first consignee’ means the natural or legal person to whom the imported consignment is delivered and who will receive it for further preparation and/or marketing;

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- (e) ‘holding’ means all the production units operated under a single management for the purpose of producing agricultural products;
- (f) ‘production unit’ meaning all assets to be used for a production sector such as production premises, land parcels, pasturages, open air areas, livestock buildings, the premises for the storage of crops, crop products, livestock products, raw materials and any other input relevant for this specific production sector;
- (g) ‘hydroponic production’ means the method of growing plants with their roots in a mineral nutrient solution only or in an inert medium, such as perlite, gravel or mineral wool to which a nutrient solution is added;
- (h) ‘veterinary treatment’ means all courses of a curative or preventive treatment against one occurrence of a specific disease;
- (i) ‘in-conversion feedingstuffs’ means feedingstuffs produced during the conversion period to organic production, with the exclusion of those harvested in the 12 months following the beginning of the conversion as referred to in Article 17(1)(a) of Regulation (EC) No 834/2007.

TITLE II U.K.

RULES ON PRODUCTION, PROCESSING, PACKAGING, TRANSPORT AND STORAGE OF ORGANIC PRODUCTS

CHAPTER 1 U.K.

Plant Production

Article 3 U.K.

Soil management and fertilisation

1 Where the nutritional needs of plants cannot be met by measures provided for in Article 12(1)(a), (b) and (c) of Regulation (EC) No 834/2007, only fertilisers and soil conditioners referred to in Annex I to this Regulation may be used in organic production and only to the extent necessary. Operators shall keep documentary evidence of the need to use the product.

2 The total amount of livestock manure, as defined in Council Directive 91/676/EEC⁽⁸⁾ concerning the protection of waters against pollution caused by nitrates from agricultural sources, applied on the holding may not exceed 170 kg of nitrogen per year/hectare of agricultural area used. This limit shall only apply to the use of farmyard manure, dried farmyard manure and dehydrated poultry manure, composted animal excrements, including poultry manure, composted farmyard manure and liquid animal excrements.

3 Organic-production holdings may establish written cooperation agreements exclusively with other holdings and enterprises which comply with the organic production rules, with the intention of spreading surplus manure from organic production. The maximum limit as referred to in paragraph 2, shall be calculated on the basis of all of the organic-production units involved in such cooperation.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

4 Appropriate preparations of micro-organisms may be used to improve the overall condition of the soil or the availability of nutrients in the soil or in the crops.

5 For compost activation appropriate plant-based preparations or preparations of micro-organisms may be used.

Article 4 **U.K.**

Prohibition of hydroponic production

Hydroponic production is prohibited.

Article 5 **U.K.**

Pest, disease and weed management

1 Where plants cannot be adequately protected from pests and diseases by measures provided for in Article 12 (1)(a), (b), (c) and (g) of Regulation (EC) No 834/2007, only products referred to in Annex II to this Regulation may be used in organic production. Operators shall keep documentary evidence of the need to use the product.

2 For products used in traps and dispensers, except pheromone dispensers, the traps and/or dispensers, shall prevent the substances from being released into the environment and prevent contact between the substances and the crops being cultivated. The traps shall be collected after use and disposed off safely.

Article 6 **U.K.**

Specific rules on mushroom production

For production of mushrooms, substrates may be used, if they are composed only of the following components:

- (a) farmyard manure and animal excrements:
 - (i) either from holdings producing according to the organic production method;
 - (ii) or referred to in Annex I, only when the product referred to in point (i) is not available; and when they do not exceed 25 % of the weight of total components of the substrate, excluding the covering material and any added water, before composting;
- (b) products of agricultural origin, other than those referred to in point (a), from holdings producing according to organic production method;
- (c) peat not chemically treated;
- (d) wood, not treated with chemical products after felling;
- (e) mineral products referred to in Annex I, water and soil.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

CHAPTER 2 **U.K.**

Livestock production

Article 7 **U.K.**

Scope

This Chapter lays down detailed production rules for the following species: bovine including *bubalus* and bison, equidae, porcine, ovine, caprine, poultry (species as mentioned in Annex III) and bees.

Section 1 **U.K.**

Origin of animals

Article 8 **U.K.**

Origin of organic animals

1 In the choice of breeds or strains, account shall be taken of the capacity of animals to adapt to local conditions, their vitality and their resistance to disease. In addition, breeds or strains of animals shall be selected to avoid specific diseases or health problems associated with some breeds or strains used in intensive production, such as porcine stress syndrome, PSE Syndrome (pale-soft-exudative), sudden death, spontaneous abortion and difficult births requiring caesarean operations. Preference is to be given to indigenous breeds and strains.

2 For bees, preference shall be given to the use of *Apis mellifera* and their local ecotypes.

Article 9 **U.K.**

Origin of non-organic animals

1 In accordance with Article 14(1)(a)(ii) of Regulation (EC) No 834/2007, non-organic animals may be brought onto a holding for breeding purposes, only when organic animals are not available in sufficient number and subject to the conditions provided for in paragraphs 2 to 5 of this Article.

2 Non-organic young mammals, when a herd or flock is constituted for the first time, shall be reared in accordance with the organic production rules immediately after they are weaned. Moreover, the following restrictions shall apply at the date on which the animals enter the herd:

- a buffalo, calves and foals shall be less than six months old;
- b lambs and kids shall be less than 60 days old;
- c piglets shall weigh less than 35 kg.

3 Non-organic adult male and nulliparous female mammals, for the renewal of a herd or flock, shall be reared subsequently in accordance with the organic production rules. Moreover, the number of female mammals is subject to the following restrictions per year:

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- a up to a maximum of 10 % of adult equine or bovine, including *bubalus* and bison species, livestock and 20 % of the adult porcine, ovine and caprine livestock, as female animals;
- b for units with less than 10 equine or bovine animals, or with less than five porcine, ovine or caprine animals any renewal as mentioned above shall be limited to a maximum of one animal per year.

This provision of this paragraph will be reviewed in 2012 with a view to phase it out.

4 The percentages referred to in paragraph 3 may be increased up to 40 %, subject to prior authorisation by the competent authority, in the following special cases:

- a when a major extension to the farm is undertaken;
- b when a breed is changed;
- c when a new livestock specialisation is initiated;
- d when breeds are in danger of being lost to farming as laid down in Annex IV to Commission Regulation (EC) No 1974/2006⁽⁹⁾ and in that case animals of those breeds must not necessarily be nulliparous.

5 For the renovation of apiaries, 10 % per year of the queen bees and swarms may be replaced by non-organic queen bees and swarms in the organic production unit provided that the queen bees and swarms are placed in hives with combs or comb foundations coming from organic production units.

Section 2 **U.K.**

Livestock housing and husbandry practices

Article 10 **U.K.**

Rules pertaining to housing conditions

1 Insulation, heating and ventilation of the building shall ensure that air circulation, dust level, temperature, relative air humidity and gas concentration, are kept within limits which are not harmful to the animals. The building shall permit plentiful natural ventilation and light to enter.

2 Housing for livestock shall not be mandatory in areas with appropriate climatic conditions to enable animals to live outdoors.

3 The stocking density in buildings shall provide for the comfort, the well being and the species-specific needs of the animals which, in particular, shall depend on the species, the breed and the age of the animals. It shall also take account of the behavioural needs of the animals, which depend in particular on the size of the group and the animals' sex. The density shall ensure the animals' welfare by providing them with sufficient space to stand naturally, lie down easily, turn round, groom themselves, assume all natural postures and make all natural movements such as stretching and wing flapping.

4 The minimum surface for indoor and outdoor areas, and other characteristics of housing for different species and categories of animals, are laid down in Annex III.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Article 11 **U.K.**

Specific housing conditions and husbandry practices for mammals

- 1 Livestock housing shall have smooth, but not slippery floors. At least half of the indoor surface area as specified in Annex III shall be solid, that is, not of slatted or of grid construction.
- 2 The housing shall be provided with a comfortable, clean and dry laying/rest area of sufficient size, consisting of a solid construction which is not slatted. Ample dry bedding strewn with litter material shall be provided in the rest area. The litter shall comprise straw or other suitable natural material. The litter may be improved and enriched with any mineral product listed in Annex I.
- 3 Notwithstanding Article 3(3) of Council Directive 91/629/EEC⁽¹⁰⁾ the housing of calves in individual boxes shall be forbidden after the age of one week.
- 4 Notwithstanding Article 3(8) of Council Directive 91/630/EEC⁽¹¹⁾ sows shall be kept in groups, except in the last stages of pregnancy and during the suckling period.
- 5 Piglets shall not be kept on flat decks or in piglet cages.
- 6 Exercise areas shall permit dunging and rooting by porcine animals. For the purposes of rooting different substrates can be used.

Article 12 **U.K.**

Specific housing conditions and husbandry practices for poultry

- 1 Poultry shall not be kept in cages.
- 2 Water fowl shall have access to a stream, pond, lake or a pool whenever the weather and hygienic conditions permit in order to respect their species-specific needs and animal welfare requirements.
- 3 Buildings for all poultry shall meet the following conditions:
 - a at least one third of the floor area shall be solid, that is, not of slatted or of grid construction, and covered with a litter material such as straw, wood shavings, sand or turf;
 - b in poultry houses for laying hens, a sufficiently large part of the floor area available to the hens shall be available for the collection of bird droppings;
 - c they shall have perches of a size and number commensurate with the size of the group and of the birds as laid down in Annex III;
 - d they shall have exit/entry pop-holes of a size adequate for the birds, and these pop-holes shall have a combined length of at least 4 m per 100 m² area of the house available to the birds;
 - e each poultry house shall not contain more than:
 - (i) 4 800 chickens,
 - (ii) 3 000 laying hens,
 - (iii) 5 200 guinea fowl,

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- (iv) 4 000 female Muscovy or Peking ducks or 3 200 male Muscovy or Peking ducks or other ducks,
 - (v) 2 500 capons, geese or turkeys;
 - f the total usable area of poultry houses for meat production on any single unit, shall not exceed 1 600 m²;
 - g poultry houses shall be constructed in a manner allowing all birds easy access to open air area.
- 4 Natural light may be supplemented by artificial means to provide a maximum of 16 hours light per day with a continuous nocturnal rest period without artificial light of at least eight hours.
- 5 To prevent the use of intensive rearing methods, poultry shall either be reared until they reach a minimum age or else shall come from slow-growing poultry strains. Where slow-growing poultry strains are not used by the operator the following minimum age at slaughter shall be:
- a 81 days for chickens,
 - b 150 days for capons,
 - c 49 days for Peking ducks,
 - d 70 days for female Muscovy ducks,
 - e 84 days for male Muscovy ducks,
 - f 92 days for Mallard ducks,
 - g 94 days for guinea fowl,
 - h 140 days for male turkeys and roasting geese and
 - i 100 days for female turkeys.

The competent authority shall define the criteria of slow-growing strains or draw up a list thereof and provide this information to operators, other Member States and the Commission.

Article 13 **U.K.**

Specific requirements and housing conditions in beekeeping

1 The siting of the apiaries shall be such that, within a radius of 3 km from the apiary site, nectar and pollen sources consist essentially of organically produced crops and/or spontaneous vegetation and/or crops treated with low environmental impact methods equivalent to those as described in Article 36 of Council Regulation (EC) No 1698/2005⁽¹²⁾ or in Article 22 of Council Regulation 1257/1999⁽¹³⁾ which cannot affect the qualification of beekeeping production as being organic. The above mentioned requirements do not apply where flowering is not taking place, or the hives are dormant.

2 The Member States may designate regions or areas where beekeeping complying with organic production rules is not practicable.

3 The hives shall be made basically of natural materials presenting no risk of contamination to the environment or the apiculture products.

4 The bees wax for new foundations shall come from organic production units.

5 Without prejudice to Article 25, only natural products such as propolis, wax and plant oils can be used in the hives.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

6 The use of chemical synthetic repellents is prohibited during honey extractions operations.

7 The use of brood combs is prohibited for honey extraction.

Article 14 **U.K.**

Access to open air areas

1 Open air areas may be partially covered.

2 In accordance with Article 14(1)(b)(iii) of Regulation (EC) No 834/2007 herbivores shall have access to pasturage for grazing whenever conditions allow.

3 In cases where herbivores have access to pasturage during the grazing period and where the winter-housing system gives freedom of movement to the animals, the obligation to provide open air areas during the winter months may be waived.

4 Notwithstanding paragraph 2, bulls over one year old shall have access to pasturage or an open air area.

5 Poultry shall have access to an open air area for at least one third of their life.

6 Open air areas for poultry shall be mainly covered with vegetation and be provided with protective facilities and permit fowl to have easy access to adequate numbers of drinking and feeding troughs.

7 Where poultry are kept indoors due to restrictions or obligations imposed on the basis of Community legislation, they shall permanently have access to sufficient quantities of roughage and suitable material in order to meet their ethological needs.

Article 15 **U.K.**

Stocking density

1 The total stocking density shall be such as not to exceed the limit of 170 kg of nitrogen per year and hectare of agricultural area as referred to in Article 3(2).

2 To determine the appropriate density of livestock referred to above, the competent authority shall set out the livestock units equivalent to the above limit, taking as a guideline, the figures laid down in Annex IV or the relevant national provisions adopted pursuant to Directive 91/676/EEC.

Article 16 **U.K.**

Prohibition of landless livestock production

Landless livestock production, by which the operator of the livestock does not manage agricultural land and/or has not established a written cooperation agreement with another operator according to Article 3(3), is prohibited.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Article 17 **U.K.**

Simultaneous production of organic and non-organic livestock

1 Non organic livestock may be present on the holding provided they are reared on units where the buildings and parcels are separated clearly from the units producing in accordance with the organic production rules and a different species is involved.

2 Non-organic livestock may use organic pasturage for a limited period of time each year, provided that such animals come from a farming system as defined in paragraph 3(b) and that organic animals are not present at the same time on that pasture.

3 Organic animals may be grazed on common land, providing that:

- a the land has not been treated with products not authorised for organic production for at least three years;
- b any non-organic animals which use the land concerned are derived from a farming system equivalent to those as described in Article 36 of Regulation (EC) No 1698/2005 or in Article 22 of Regulation 1257/1999;
- c any livestock products from organic animals, whilst using this land, shall not be regarded as being from organic-production, unless adequate segregation from non-organic animals can be proved.

4 During the period of transhumance animals may graze on non-organic land when they are being moved on foot from one grazing area to another. The uptake of non-organic feed, in the form of grass and other vegetation on which the animals graze, during this period shall not exceed 10 % of the total feed ration per year. This figure shall be calculated as a percentage of the dry matter of feedingstuffs from agricultural origin.

5 Operators shall keep documentary evidence of the use of provisions referred to in this Article.

Article 18 **U.K.**

Management of animals

1 Operations such as attaching elastic bands to the tails of sheep, tail-docking, cutting of teeth, trimming of beaks and dehorning shall not be carried out routinely in organic farming. However, some of these operations may be authorised by the competent authority for reasons of safety or if they are intended to improve the health, welfare or hygiene of the livestock on a case-by-case basis.

Any suffering to the animals shall be reduced to a minimum by applying adequate anaesthesia and/or analgesia and by carrying out the operation only at the most appropriate age by qualified personnel.

2 Physical castration is allowed in order to maintain the quality of products and traditional production practices but only under the conditions set out in the second subparagraph of paragraph 1.

3 Mutilation such as clipping the wings of queen bees is prohibited.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

4 Loading and unloading of animals shall be carried out without the use of any type of electrical stimulation to coerce the animals. The use of allopathic tranquillisers, prior to or during transport, is prohibited.

Section 3 U.K.

Feed

Article 19 U.K.

Feed from own holding or from other organic holdings

1 In the case of herbivores, except during the period each year when the animals are under transhumance subject to Article 17(4), at least 50 % of the feed shall come from the farm unit itself or in case this is not feasible, be produced in cooperation with other organic farms primarily in the same region.

2 In the case of bees, at the end of the production season hives shall be left with sufficient reserves of honey and pollen to survive the winter.

3 The feeding of bee colonies shall only be permitted where the survival of the hives is endangered due to climatic conditions and only between the last honey harvest and 15 days before the start of the next nectar or honeydew flow period. Feeding shall be with organic honey, organic sugar syrup, or organic sugar.

Article 20 U.K.

Feed meeting animals' nutritional requirements

1 All young mammals shall be fed on maternal milk in preference to natural milk, for a minimum period of three months for bovines including *bubalus* and bison species and equidae, 45 days for sheep and goats and 40 days for pigs.

2 Rearing systems for herbivores are to be based on maximum use of grazing pasturage according to the availability of pastures in the different periods of the year. At least 60 % of the dry matter in daily rations of herbivores shall consist of roughage, fresh or dried fodder, or silage. A reduction to 50 % for animals in dairy production for a maximum period of three months in early lactation is allowed.

3 Roughage, fresh or dried fodder, or silage shall be added to the daily ration for pigs and poultry.

4 The keeping of livestock in conditions, or on a diet, which may encourage anaemia, is prohibited.

5 Fattening practices shall be reversible at any stage of the rearing process. Force-feeding is forbidden.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Article 21 **U.K.**

In-conversion feed

[^{F1} Up to 30 % of the feed formula of rations on average may comprise in-conversion feedingstuffs. When the in-conversion feedingstuffs come from a unit of the holding itself, this percentage may be increased to 100 %.]

2 Up to 20 % of the total average amount of feedingstuffs fed to the livestock may originate from the grazing or harvesting of permanent pastures or perennial forage parcels in their first year of conversion, provided that they are part of the holding itself and have not been part of an organic production unit of that holding in the last five years. When both in-conversion feedingstuffs and feedingstuffs from parcels in their first year of conversion are being used, the total combined percentage of such feedingstuffs shall not exceed the maximum percentages fixed in paragraph 1.

3 The figures in paragraph 1 and 2 shall be calculated annually as a percentage of the dry matter of feedingstuffs of plant origin.

Textual Amendments

- F1** Substituted by [Commission Regulation \(EC\) No 1254/2008 of 15 December 2008 amending Regulation \(EC\) No 889/2008 laying down detailed rules for implementation of Council Regulation \(EC\) No 834/2007 on organic production and labelling of organic products with regard to organic production, labelling and control.](#)

Article 22 **U.K.**

Products and substances referred to in Article 14(1)(d)(iv) of Regulation (EC) No 834/2007

1 Non-organic feed materials of plant and animal origin may be used in organic production subject to the restrictions laid down in Article 43 and only if they are listed in Annex V and the restrictions laid down therein are complied with.

2 Organic feed materials of animal origin, and feed materials of mineral origin may be used in organic production and only if they are listed in Annex V and the restrictions laid down therein are complied with.

3 Products and by-products from fisheries may be used in organic production only if they are listed in Annex V and the restrictions laid down therein are complied with.

4 Feed additives, certain products used in animal nutrition and processing aids may be used in organic production only if they are listed in Annex VI and the restrictions laid down therein are complied with.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Section 4 U.K.

Disease prevention and veterinary treatment

Article 23 U.K.

Disease prevention

1 The use of chemically synthesised allopathic veterinary medicinal products or antibiotics for preventive treatment is prohibited, without prejudice to Article 24(3).

2 The use of substances to promote growth or production (including antibiotics, coccidiostatics and other artificial aids for growth promotion purposes) and the use of hormones or similar substances to control reproduction or for other purposes (e.g. induction or synchronisation of oestrus), is prohibited.

3 Where livestock is obtained from non-organic units, special measures such as screening tests or quarantine periods may apply, depending on local circumstances.

4 Housing, pens, equipment and utensils shall be properly cleaned and disinfected to prevent cross-infection and the build-up of disease carrying organisms. Faeces, urine and uneaten or spilt feed shall be removed as often as necessary to minimise smell and to avoid attracting insects or rodents.

For the purpose of Article 14(1)(f) of Regulation (EC) No 834/2007, only products listed in Annex VII may be used for cleaning and disinfection of livestock buildings installations and utensils. Rodenticides (to be used only in traps), and the products listed in Annex II, can be used for the elimination of insects and other pests in buildings and other installations where livestock is kept.

5 Buildings shall be emptied of livestock between each batch of poultry reared. The buildings and fittings shall be cleaned and disinfected during this time. In addition, when the rearing of each batch of poultry has been completed, runs shall be left empty to allow vegetation to grow back. Member States shall establish the period for which runs must be empty. The operator shall keep documentary evidence of the application of this period. These requirements shall not apply where poultry is not reared in batches, is not kept in runs and is free to roam, throughout the day.

Article 24 U.K.

Veterinary treatment

1 Where despite preventive measures to ensure animal health as laid down in Article 14(1)(e)(i) of Regulation (EC) No 834/2007 animals become sick or injured they shall be treated immediately, if necessary in isolation and in suitable housing.

2 Phytotherapeutic, homeopathic products, trace elements and products listed in Annex V, part 3 and in Annex VI, part 1.1. shall be used in preference to chemically-synthesised allopathic veterinary treatment or antibiotics, provided that their therapeutic effect is effective for the species of animal, and the condition for which the treatment is intended.

3 If the use of measures referred to in paragraph 1 and 2 is not effective in combating illness or injury, and if treatment is essential to avoid suffering or distress of the animal,

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

chemically-synthesised allopathic veterinary medicinal products or antibiotics may be used under the responsibility of a veterinarian.

4 With the exception of vaccinations, treatments for parasites and compulsory eradication schemes where an animal or group of animals receive more than three courses of treatments with chemically-synthesised allopathic veterinary medicinal products or antibiotics within 12 months, or more than one course of treatment if their productive lifecycle is less than one year, the livestock concerned, or produce derived from them, may not be sold as organic products, and the livestock shall undergo the conversion periods laid down in Article 38(1).

Records of documented evidence of the occurrence of such circumstances shall be kept for the control body or control authority.

5 The withdrawal period between the last administration of an allopathic veterinary medicinal product to an animal under normal conditions of use, and the production of organically produced foodstuffs from such animals, is to be twice the legal withdrawal period as referred to in Article 11 of Directive 2001/82/EC or, in a case in which this period is not specified, 48 hours.

Article 25 **U.K.**

Specific rules on disease prevention and veterinary treatment in beekeeping

1 For the purposes of protecting frames, hives and combs, in particular from pests, only rodenticides (to be used only in traps), and appropriate products listed in Annex II, are permitted.

2 Physical treatments for disinfection of apiaries such as steam or direct flame are permitted.

3 The practice of destroying the male brood is permitted only to isolate the infestation of *Varroa destructor*.

4 If despite all preventive measures, the colonies become sick or infested, they shall be treated immediately and, if necessary, the colonies can be placed in isolation apiaries.

5 Veterinary medicinal products may be used in organic beekeeping in so far as the corresponding use is authorised in the Member State in accordance with the relevant Community provisions or national provisions in conformity with Community law.

6 Formic acid, lactic acid, acetic acid and oxalic acid as well as menthol, thymol, eucalyptol or camphor may be used in cases of infestation with *Varroa destructor*.

7 If a treatment is applied with chemically synthesised allopathic products, during such a period, the colonies treated shall be placed in isolation apiaries and all the wax shall be replaced with wax coming from organic beekeeping. Subsequently, the conversion period of one year laid down in Article 38(3) will apply to those colonies.

8 The requirements laid down in paragraph 7 shall not apply to products listed in paragraph 6.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

CHAPTER 3 **U.K.**

Processed products

Article 26 **U.K.**

Rules for the production of processed feed and food

- 1 Additives, processing aids and other substances and ingredients used for processing food or feed and any processing practice applied, such as smoking, shall respect the principles of good manufacturing practice.
- 2 Operators producing processed feed or food shall establish and update appropriate procedures based on a systematic identification of critical processing steps.
- 3 The application of the procedures referred to in paragraph 2 shall guarantee at all times that the produced processed products comply with the organic production rules.
- 4 Operators shall comply with and implement the procedures referred to in paragraph 2. In particular, operators shall:
 - a take precautionary measures to avoid the risk of contamination by unauthorised substances or products;
 - b implement suitable cleaning measures, monitor their effectiveness and record these operations;
 - c guarantee that non-organic products are not placed on the market with an indication referring to the organic production method.
- 5 Further to the provisions laid down in paragraphs 2 and 4, when non-organic products are also prepared or stored in the preparation unit concerned, the operator shall:
 - a carry out the operations continuously until the complete run has been dealt with, separated by place or time from similar operations performed on non-organic products;
 - b store organic products, before and after the operations, separate by place or time from non-organic products;
 - c inform the control authority or control body thereof and keep available an updated register of all operations and quantities processed;
 - d take the necessary measures to ensure identification of lots and to avoid mixtures or exchanges with non-organic products;
 - e carry out operations on organic products only after suitable cleaning of the production equipment.

Article 27 **U.K.**

Use of certain products and substances in processing of food

- 1 For the purpose of Article 19(2)(b) of Regulation (EC) No 834/2007, only the following substances can be used in the processing of organic food, with the exception of wine:
 - a substances listed in Annex VIII to this Regulation;
 - b preparations of micro-organisms and enzymes normally used in food processing; [^{F3} however, enzymes to be used as food additives have to be listed in Annex VIII, Section A;]

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- c substances, and products as defined in Articles 1(2)(b)(i) and 1(2)(c) of Council Directive 88/388/EEC⁽¹⁴⁾ labelled as natural flavouring substances or natural flavouring preparations, according to Articles 9(1)(d) and (2) of that Directive;
 - d colours for stamping meat and eggshells in accordance with, respectively, Article 2(8) and Article 2(9) of European Parliament and Council Directive 94/36/EC⁽¹⁵⁾;
 - e drinking water and salt (with sodium chloride or potassium chloride as basic components) generally used in food processing;
 - f minerals (trace elements included), vitamins, aminoacids, and micronutrients, only authorised as far their use is legally required in the foodstuffs in which they are incorporated.
- 2 For the purpose of the calculation referred to in Article 23(4)(a)(ii) of Regulation (EC) No 834/2007,
- a food additives listed in Annex VIII and marked with an asterisk in the column of the additive code number, shall be calculated as ingredients of agricultural origin;
 - b preparations and substances referred to in paragraph (1)(b),(c),(d),(e) and (f) of this Article and substances not marked with an asterisk in the column of the additive code number shall not be calculated as ingredients of agricultural origin^{[F1];}
 - ^[F3] c yeast and yeast products shall be calculated as ingredients of agricultural origin as of 31 December 2013.]
- 3 The use of the following substances listed in Annex VIII shall be re-examined before 31 December 2010:
- a Sodium nitrite and potassium nitrate in Section A with a view to withdrawing these additives;
 - b Sulphur dioxide and potassium metabisulphite in Section A;
 - c Hydrochloric acid in Section B for the processing of Gouda, Edam and Maasdammer cheeses, Boerenkaas, Friese, and Leidse Nagelkaas.

The re-examination referred to in point (a) shall take account of the efforts made by Member States to find safe alternatives to nitrites/nitrates and in establishing educational programmes in alternative processing methods and hygiene for organic meat processors/manufacturers.

^[F34] For the traditional decorative colouring of the shell of boiled eggs produced with the intention to place them on the market at a given period of the year, the competent authority may authorise for the period referred to above, the use of natural colours and natural coating substances. The authorisation may comprise synthetic forms of iron oxides and iron hydroxides until 31 December 2013. Authorisations shall be notified to the Commission and the Member States.]

Textual Amendments

- F1** Substituted by Commission Regulation (EC) No 1254/2008 of 15 December 2008 amending Regulation (EC) No 889/2008 laying down detailed rules for implementation of Council Regulation (EC) No 834/2007 on organic production and labelling of organic products with regard to organic production, labelling and control.
- F3** Inserted by Commission Regulation (EC) No 1254/2008 of 15 December 2008 amending Regulation (EC) No 889/2008 laying down detailed rules for implementation of Council Regulation (EC) No 834/2007 on organic production and labelling of organic products with regard to organic production, labelling and control.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

^{F3} Article 27a **U.K.**

For the purpose of the application of Article 20(1) of Regulation (EC) No 834/2007, the following substances may be used in the production, confection and formulation of yeast:

- (a) substances listed in Annex VIII, Section C to this Regulation;
- (b) products and substances referred to in Article 27(1)(b) and (e) of this Regulation.]

Textual Amendments

- F3** Inserted by [Commission Regulation \(EC\) No 1254/2008 of 15 December 2008 amending Regulation \(EC\) No 889/2008 laying down detailed rules for implementation of Council Regulation \(EC\) No 834/2007 on organic production and labelling of organic products with regard to organic production, labelling and control.](#)

Article 28 **U.K.**

Use of certain non-organic ingredients of agricultural origin in processing food

For the purpose of Article 19(2)(c) of Regulation (EC) No 834/2007, non-organic agricultural ingredients listed in Annex IX to this Regulation can be used in the processing of organic food.

Article 29 **U.K.**

Authorisation of non-organic food ingredients of agricultural origin by Member State

1 Where an ingredient of agricultural origin is not included in Annex IX to this Regulation, that ingredient may only be used under the following conditions:

- a the operator has notified to the competent authority of the Member State all the requisite evidence showing that the ingredient concerned is not produced in sufficient quantity in the Community in accordance with the organic production rules or cannot be imported from third countries;
- b the competent authority of the Member State has provisionally authorised, the use for a maximum period of 12 months after having verified that the operator has undertaken the necessary contacts with suppliers in the Community to ensure himself of the unavailability of the ingredients concerned with the required quality requirements;
- c no decision has been taken, in accordance with the provisions of paragraphs 3 or 4 that a granted authorisation with regard to the ingredient concerned shall be withdrawn.

The Member State may prolong the authorisation provided for in point (b) a maximum of three times for 12 months each.

2 Where an authorisation as referred to in paragraph 1 has been granted, the Member State shall immediately notify to the other Member States and to the Commission, the following information:

- a the date of the authorisation and in case of a prolonged authorisation, the date of the first authorisation;

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- b the name, address, telephone, and where relevant, fax and e-mail of the holder of the authorisation; the name and address of the contact point of the authority which granted the authorisation;
- c the name and, where necessary, the precise description and quality requirements of the ingredient of agricultural origin concerned;
- d the type of products for the preparation of which the requested ingredient is necessary;
- e the quantities that are required and the justification for those quantities;
- f the reasons for, and expected period of, the shortage;
- g the date on which the Member State sends this notification to the other Member States and the Commission. The Commission and/or Member States may make this information available to the public.

3 Where a Member State submits comments to the Commission and to the Member State which granted the authorisation, which show that supplies are available during the period of the shortage, the Member State shall consider withdrawal of the authorisation or reducing the envisaged period of validity, and shall inform the Commission and the other Member States of the measures it has taken or will take, within 15 working days from the date of receipt of the information.

4 At the request of a Member State or at the Commission's initiative, the matter shall be submitted for examination to the Committee set up in accordance with Article 37 of Regulation (EC) No 834/2007. It may be decided, in accordance with the procedure laid down in paragraph 2 of that Article, that a previously granted authorisation shall be withdrawn or its period of validity amended, or where appropriate, that the ingredient concerned shall be included in Annex IX to this Regulation.

5 In case of an extension as referred to in the second subparagraph of paragraph 1, the procedures of paragraphs 2 and 3 shall apply.

CHAPTER 4 **U.K.**

Collection, packaging, transport and storage of products

Article 30 **U.K.**

Collection of products and transport to preparation units

Operators may carry out simultaneous collection of organic and non-organic products, only where appropriate measures are taken to prevent any possible mixture or exchange with non-organic products and to ensure the identification of the organic products. The operator shall keep the information relating to collection days, hours, circuit and date and time of reception of the products available to the control body or control authority.

Article 31 **U.K.**

Packaging and transport of products to other operators or units

1 Operators shall ensure that organic products are transported to other units, including wholesalers and retailers, only in appropriate packaging, containers or vehicles closed in such a manner that substitution of the content cannot be achieved without manipulation or damage

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

of the seal and provided with a label stating, without prejudice to any other indications required by law:

- a the name and address of the operator and, where different, of the owner or seller of the product;
- b the name of the product or a description of the compound feedingstuff accompanied by a reference to the organic production method;
- c the name and/or the code number of the control body or authority to which the operator is subject; and
- d where relevant, the lot identification mark according to a marking system either approved at national level or agreed with the control body or authority and which permits to link the lot with the accounts referred to in Article 66.

The information referred to in points (a) to (d) of the first subparagraph may also be presented on an accompanying document, if such a document can be undeniably linked with the packaging, container or vehicular transport of the product. This accompanying document shall include information on the supplier and/or the transporter.

- 2 The closing of packaging, containers or vehicles shall not be required where:
 - a transportation is direct between an operator and another operator who are both subject to the organic control system, and
 - b the products are accompanied by a document giving the information required under paragraph 1, and
 - c both the expediting and the receiving operators shall keep documentary records of such transport operations available for the control body or control authority of such transport operations.

Article 32 **U.K.**

Special rules for transporting feed to other production/preparation units or storage premises

In addition to the provisions of Article 31, when transporting feed to other production or preparation units or storage premises, operators shall ensure that the following conditions are met:

- (a) during transport, organically-produced feed, in-conversion feed, and non-organic feed shall be effectively physically separated;
- (b) the vehicles and/or containers which have transported non-organic products are used to transport organic products provided that:
 - (i) suitable cleaning measures, the effectiveness of which has been checked, have been carried out before commencing the transport of organic products; operators shall record these operations,
 - (ii) all appropriate measures are implemented, depending on the risks evaluated in accordance with Article 88(3) and, where necessary, operators shall guarantee that non-organic products cannot be placed on the market with an indication referring to organic production,
 - (iii) the operator shall keep documentary records of such transport operations available for the control body or control authority;

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- (c) the transport of finished organic feed shall be separated physically or in time from the transport of other finished products;
- (d) during transport, the quantity of products at the start and each individual quantity delivered in the course of a delivery round shall be recorded.

Article 33 **U.K.**

Reception of products from other units and other operators

On receipt of an organic product, the operator shall check the closing of the packaging or container where it is required and the presence of the indications provided to in Article 31.

The operator shall crosscheck the information on the label referred to in Article 31 with the information on the accompanying documents. The result of these verifications shall be explicitly mentioned in the documentary accounts referred to in Article 66.

Article 34 **U.K.**

Special rules for the reception of products from a third country

Organic products shall be imported from a third country in appropriate packaging or containers, closed in a manner preventing substitution of the content and provided with identification of the exporter and with any other marks and numbers serving to identify the lot and with the certificate of control for import from third countries as appropriate.

On receipt of an organic product, imported from a third country, the first consignee shall check the closing of the packaging or container and, in the case of products imported in accordance with Article 33 of Regulation (EC) No 834/2007, shall check that the certificate mentioned in that Article covers the type of product contained in the consignment. The result of this verification shall be explicitly mentioned in the documentary accounts referred to in Article 66 of this Regulation.

Article 35 **U.K.**

Storage of products

1 For the storage of products, areas shall be managed in such a way as to ensure identification of lots and to avoid any mixing with or contamination by products and/or substances not in compliance with the organic production rules. Organic products shall be clearly identifiable at all times.

2 In case of organic plant and livestock production units, storage of input products other than those authorised under this Regulation is prohibited in the production unit.

3 The storage of allopathic veterinary medicinal products and antibiotics is permitted on holdings provided that they have been prescribed by a veterinarian in connection with treatment as referred to in Article 14(1)(e)(ii) of Regulation (EC) No 834/2007, that they are stored in a supervised location and that they are entered in the livestock record as referred to in Article 76 of this Regulation.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

4 In case where operators handle both non-organic products and organic products and the latter are stored in storage facilities in which also other agricultural products or foodstuffs are stored:

- a the organic products shall be kept separate from the other agricultural products and/or foodstuffs;
- b every measure shall be taken to ensure identification of consignments and to avoid mixtures or exchanges with non-organic products;
- c suitable cleaning measures, the effectiveness of which has been checked, have been carried out before the storage of organic products; operators shall record these operations.

CHAPTER 5 **U.K.**

Conversion rules

Article 36 **U.K.**

Plant and plant products

1 For plants and plant products to be considered organic, the production rules as referred to in Articles 9, 10, 11 and 12 of Regulation (EC) No 834/2007 and Chapter 1 of this Regulation and where applicable the exceptional production rules in Chapter 6 of this Regulation must have been applied on the parcels during a conversion period of at least two years before sowing, or, in the case of grassland or perennial forage, at least two years before its use as feed from organic farming, or, in the case of perennial crops other than forage, at least three years before the first harvest of organic products.

2 The competent authority may decide to recognise retroactively as being part of the conversion period any previous period in which:

- a the land parcels were subject of measures defined in a programme implemented pursuant to Regulations (EC) No 1257/99, (EC) No 1698/2005, or in another official programme, provided that the measures concerned ensure that products not authorised for organic production have not been used on those parcels, or
- b the parcels were natural or agricultural areas which were not treated with products not authorised for organic production.

The period referred to in point (b) of the first subparagraph can be taken into consideration retroactively only where satisfactory proof has been furnished to the competent authority allowing it to satisfy itself that the conditions were met for a period of at least three years.

3 The competent authority may decide, in certain cases, where the land had been contaminated with products not authorised for organic production, to extend the conversion period beyond the period referred to in paragraph 1.

4 In the case of parcels which have already been converted to or were in the process of conversion to organic farming, and which are treated with a product not authorised for organic production, the Member State may shorten the conversion period referred to in paragraph 1 in the following two cases:

- a parcels treated with a product not authorised for organic production as part of a compulsory disease or pest control measure imposed by the competent authority of the Member State;

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- b parcels treated with a product not authorised for organic production as part of scientific tests approved by the competent authority of the Member State.

In the cases provided for in points (a) and (b) of the first subparagraph, the length of the conversion period shall be fixed taking into account of the following factors:

- a the process of degradation of the product concerned shall guarantee, at the end of the conversion period, an insignificant level of residues in the soil and, in the case of a perennial crop, in the plant;
- b the harvest following the treatment may not be sold with reference to organic production methods.

The Member State concerned shall inform the other Member States and the Commission of its decision to require compulsory measures.

Article 37 **U.K.**

Specific conversion rules for land associated with organic livestock production

- 1 The conversion rules as referred to in Article 36 of this Regulation shall apply to the whole area of the production unit on which animal feed is produced.
- 2 Notwithstanding the provisions in paragraph 1, the conversion period may be reduced to one year for pasturages and open air areas used by non-herbivore species. This period may be reduced to six months where the land concerned has not during the last year, received treatments with products not authorised for organic production.

Article 38 **U.K.**

Livestock and livestock products

- 1 Where non-organic livestock has been brought onto a holding in accordance with Article 14(1)(a)(ii) of Regulation (EC) No 834/2007 and Article 9 and/or Article 42 of this Regulation and if livestock products are to be sold as organic products, the production rules as referred to in Articles 9, 10, 11 and 14 of Regulation (EC) No 834/2007 and in Chapter 2 of Title II and where applicable in Article 42 of this Regulation must have been applied for at least:
 - a 12 months in the case of equidae and bovines, including *bubalus* and bison species, for meat production, and in any case at least three quarters of their lifetime;
 - b six months in the case of small ruminants and pigs and animals for milk production;
 - c 10 weeks for poultry for meat production, brought in before they are three days old;
 - d six weeks in the case of poultry for egg production.
- 2 Where non-organic animals exist on a holding at the beginning of the conversion period in accordance with Article 14(1)(a)(iii) of Regulation (EC) No 834/2007 their products may be deemed organic if there is simultaneous conversion of the complete production unit, including livestock, pasturage and/or any land used for animal feed. The total combined conversion period for both existing animals and their offspring, pasturage and/or any land used for animal feed, may be reduced to 24 months, if the animals are mainly fed with products from the production unit.
- 3 Beekeeping products can be sold with references to the organic production method only when the organic production rules have been complied with for at least one year.
- 4 The conversion period for apiaries does not apply in the case of application of Article 9(5) of this Regulation.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

5 During the conversion period the wax shall be replaced with wax coming from organic beekeeping.

CHAPTER 6 **U.K.**

Exceptional production rules

Section 1 **U.K.**

Exceptional production rules related to climatic, geographical or structural constraints in accordance with Article 22(2)(a) of Regulation (EC) No 834/2007

Article 39 **U.K.**

Tethering of animals

Where the conditions laid down in Article 22(2)(a) of Regulation (EC) No 834/2007 apply, competent authorities may authorise cattle in small holdings to be tethered if it is not possible to keep the cattle in groups appropriate to their behaviour requirements, provided they have access to pastures during the grazing period according to Article 14(2), and at least twice a week access to open air areas when grazing is not possible.

Article 40 **U.K.**

Parallel production

1 Where the conditions laid down in Article 22(2)(a) of Regulation (EC) No 834/2007 apply, a producer may run organic and non-organic production units in the same area:

- a in the case of the production of perennial crops, which require a cultivation period of at least three years, where varieties cannot be easily differentiated, provided the following conditions are met:
 - (i) the production in question forms part of a conversion plan in respect of which the producer gives a firm undertaking and which provides for the beginning of the conversion of the last part of the area concerned to organic production in the shortest possible period which may not in any event exceed a maximum of five years;
 - (ii) appropriate measures have been taken to ensure the permanent separation of the products obtained from each unit concerned;
 - (iii) the control authority or control body is notified of the harvest of each of the products concerned at least 48 hours in advance;
 - (iv) upon completion of the harvest, the producer informs the control authority or control body of the exact quantities harvested on the units concerned and of the measures applied to separate the products;
 - (v) the conversion plan and the control measures referred to in Chapter 1 and 2 of Title IV have been approved by the competent authority; this approval shall be confirmed each year after the start of the conversion plan;

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- b in the case of areas intended for agricultural research or formal education agreed by the Member States' competent authorities and provided the conditions set out in point (a)(ii)(iii)(iv) and the relevant part of point (v) are met;
 - c in the case of production of seed, vegetative propagating material and transplants and provided the conditions set out in point (a)(ii)(iii)(iv) and the relevant part of point (v) are met;
 - d in the case of grassland exclusively used for grazing.
- 2 The competent authority may authorise holdings carrying out agricultural research or formal education to rear organic and non-organic livestock of the same species, where the following conditions are met:
- a appropriate measures, notified in advance to the control authority or control body, have been taken in order to guarantee the permanent separation between livestock, livestock products, manure and feedingstuffs of each of the units;
 - b the producer informs the control authority or control body in advance of any delivery or selling of the livestock or livestock products;
 - c the operator informs the control authority or control body of the exact quantities produced in the units together with all characteristics permitting the identification of the products and confirms that the measures taken to separate the products have been applied.

Article 41 **U.K.**

Management of beekeeping units for the purpose of pollination

Where the conditions laid down in Article 22(2)(a) of Regulation (EC) No 834/2007 apply, for the purpose of pollination actions an operator may run organic and non-organic beekeeping units on the same holding, provided that all the requirements of the organic production rules are fulfilled, with the exception of the provisions for the siting of the apiaries. In that case the product cannot be sold as organic.

The operator shall keep documentary evidence of the use of this provision.

Section 2 **U.K.**

Exceptional production rules related to non-availability of organic farm inputs in accordance with Article 22(2)(b) of Regulation (EC) No 834/2007

Article 42 **U.K.**

Use of non-organic animals

Where the conditions laid down in Article 22(2)(b) of Regulation (EC) No 834/2007 apply, and with prior authorisation of the competent authority,

- (a) when a flock is constituted for the first time, renewed or reconstituted and organically reared poultry are not available in sufficient numbers, non-organically reared poultry may be brought into an organic poultry production unit, provided that the pullets for the production of eggs and poultry for meat production are less than three days old;

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- (b) non-organically reared pullets for egg production of not more than 18 weeks may be brought into an organic livestock unit until 31 December 2011, when organically reared pullets are not available and provided that the relevant provisions laid down in Section 3 and 4 of Chapter 2 are complied with.

Article 43 **U.K.**

Use of non-organic feed of agricultural origin

Where the conditions laid down in Article 22(2)(b) of Regulation (EC) No 834/2007 apply, the use of a limited proportion of non-organic feed of plant and animal origin is allowed where farmers are unable to obtain feed exclusively from organic production. The maximum percentage of non-organic feed authorised per period of 12 months for species other than herbivores shall be:

- (a) 10 % during the period from 1 January 2009 to 31 December 2009;
- (b) 5 % during the period from 1 January 2010 to 31 December 2011.

The figures shall be calculated annually as a percentage of the dry matter of feed from agricultural origin. The maximum percentage authorised of non-organic feed in the daily ration shall be 25 % calculated as a percentage of the dry matter.

The operator shall keep documentary evidence of the need for the use of this provision.

Article 44 **U.K.**

Use of non-organic beeswax

In the case of new installations or during the conversion period, non-organic beeswax may be used only

- (a) where beeswax from organic beekeeping is not available on the market;
- (b) where it is proven free of contamination by substances not authorised for organic production; and
- (c) provided that it comes from the cap.

Article 45 **U.K.**

Use of seed or vegetative propagating material not obtained by the organic production method

1 Where the conditions laid down in Article 22(2)(b) of Regulation (EC) No 834/2007 apply,

- a seed and vegetative propagating material from a production unit in conversion to organic farming may be used,
- b where point (a) is not applicable, Member States may authorise the use of non-organic seed or vegetative propagating material if not available from organic production. However, for the use of non-organic seed and seed potatoes the following paragraphs (2) to (9) apply.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

2 Non-organic seed and seed potatoes may be used, provided that the seed or seed potatoes are not treated with plant protection products, other than those authorised for treatment of seed in accordance with Article 5(1), unless chemical treatment is prescribed in accordance with Council Directive 2000/29/EC⁽¹⁶⁾ for phytosanitary purposes by the competent authority of the Member State for all varieties of a given species in the area where the seed or seed potatoes are to be used.

3 Species for which it is established that organically produced seed or seed potatoes are available in sufficient quantities and for a significant number of varieties in all parts of the Community are set out in Annex X.

The species listed in Annex X may not be subject of authorisations pursuant to paragraph 1(b), unless these are justified by one of the purposes referred to in paragraph 5(d).

4 Member States may delegate the responsibility for granting the authorisation referred to in paragraph 1(b) to another public administration under their supervision or to the control authorities or control bodies referred to in Article 27 of Regulation (EC) No 834/2007.

5 Authorisation to use seed or seed potatoes not obtained by the organic production method may only be granted in the following cases:

- a where no variety of the species which the user wants to obtain is registered in the database referred to in Article 48;
- b where no supplier, meaning an operator who markets seed or seed potatoes to other operators, is able to deliver the seed or seed potatoes before sowing or planting in situations where the user has ordered the seed or seed potatoes in reasonable time;
- c where the variety which the user wants to obtain is not registered in the database referred to in Article 48, and the user is able to demonstrate that none of the registered alternatives of the same species are appropriate and that the authorisation therefore is significant for his production;
- d where it is justified for use in research, test in small-scale field trials or for variety conservation purposes agreed by the competent authority of the Member State.

6 The authorisation shall be granted before the sowing of the crop.

7 The authorisation shall be granted only to individual users for one season at a time and the authority or body responsible for the authorisations shall register the quantities of seed or seed potatoes authorised.

8 By way of derogation from paragraph 7, the competent authority of the Member State may grant to all users a general authorisation:

- a for a given species when and in so far as the condition laid down in paragraph 5(a) is fulfilled;
- b for a given variety when and in so far as the conditions laid down in paragraph 5(c) are fulfilled.

The authorisations referred to in the first subparagraph shall be clearly indicated in the database referred to in Article 48.

9 Authorisation may only be granted during periods for which the database is updated in accordance with Article 49(3).

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Section 3 **U.K.**

Exceptional production rules related to specific management problems in organic livestock in accordance with Article 22(2)(d) of Regulation (EC) No 834/2007

Article 46 **U.K.**

Specific management problems in organic livestock

The final fattening phase of adult bovines for meat production may take place indoors, provided that this indoors period does not exceed one fifth of their lifetime and in any case for a maximum period of three months.

[^{F3}Section 3a **U.K.**

Exceptional production rules with regard to the use of specific products and substances in the processing in accordance with Article 22(2)(e) of Regulation (EC) No 834/2007

Article 46a **U.K.**

Addition of non-organic yeast extract

Where the conditions laid down in Article 22(2)(e) of Regulation (EC) No 834/2007 apply, the addition of up to 5 % non-organic yeast extract or autolysate to the substrate (calculated in dry matter) is allowed for the production of organic yeast, where operators are unable to obtain yeast extract or autolysate from organic production.

The availability of organic yeast extract or autolysate shall be re-examined by 31 December 2013 with a view to withdrawing this provision.]

Section 4 **U.K.**

Exceptional production rules related to catastrophic circumstances in accordance with Article 22(2)(f) of Regulation (EC) No 834/2007

Article 47 **U.K.**

Catastrophic circumstances

The competent authority may authorise on a temporary basis:

- (a) in the case of high mortality of animals caused by health or catastrophic circumstances, the renewal or reconstitution of the herd or flock with non-organic animals, when organically reared animals are not available;
- (b) in case of high mortality of bees caused by health or catastrophic circumstances, the reconstitution of the apiaries with non-organic bees, when organic apiaries are not available;
- (c) the use of non-organic feedingstuffs for a limited period and in relation to a specific area by individual operators, when forage production is lost or when restrictions

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

are imposed, in particular as a result of exceptional meteorological conditions, the outbreak of infectious diseases, the contamination with toxic substances, or as a consequence of fires;

- (d) the feeding of bees with organic honey, organic sugar or organic sugar syrup in case of long lasting exceptional weather conditions or catastrophic circumstances, which hamper the nectar or honeydew production.

Upon approval by the competent authority, the individual operators shall keep documentary evidence of the use of the above exceptions. Member States shall inform each other and the Commission on the exceptions they have granted under point (c) of the first subparagraph within 1 month from its approval.

CHAPTER 7 **U.K.**

Seed data base

Article 48 **U.K.**

Database

1 Each Member State shall ensure that a computerised database is established for the listing of the varieties for which seed or seed potatoes obtained by the organic production method are available on its territory.

2 The database shall be managed either by the competent authority of the Member State or by an authority or body designated for this purpose by the Member State, hereinafter referred to as ‘manager of the database’. Member States may also designate an authority or a private body in another country.

3 Each Member State shall inform the Commission and the other Member States of the authority or private body designated to manage the database.

Article 49 **U.K.**

Registration

1 Varieties for which seed or seed potatoes produced by the organic production method are available shall be registered in the database referred to in Article 48 at the request of the supplier.

2 Any variety which has not been registered in the database shall be considered as unavailable with regard to Article 45(5).

3 Each Member State shall decide in which period of the year the database has to be regularly updated for each species or group of species cultivated on its territory. The database shall hold information with regard to that decision.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Article 50 **U.K.**

Conditions for registration

- 1 For registration, the supplier shall:
 - a demonstrate that he or the last operator, in cases where the supplier is only dealing with pre-packaged seed or seed potatoes, has been subject to the control system referred to in Article 27 of Regulation (EC) No 834/2007;
 - b demonstrate that the seed or seed potatoes to be placed on the market comply with the general requirements applicable to seed and seed potatoes;
 - c make available all the information required under Article 51 of this Regulation, and undertake to update this information at the request of the manager of the database or whenever such updating is necessary to ensure that the information remains reliable.
- 2 The manager of the database may, with the approval by the competent authority of the Member State, refuse a supplier's application for registration or delete a previously accepted registration if the supplier does not comply with the requirements set out in paragraph 1.

Article 51 **U.K.**

Registered information

- 1 For each registered variety and for each supplier, the database referred to in Article 48 shall contain at least the following information:
 - a the scientific name of the species and the variety denomination;
 - b the name and contact details of the supplier or his representative;
 - c the area where the supplier can deliver the seed or seed potatoes to the user in the usual time needed for the delivery;
 - d the country or region in which the variety is tested and approved for the purpose of the common catalogues of varieties of agricultural plant species and vegetable species as defined in Council Directives 2002/53/EC on the common catalogue of varieties of agricultural plant species⁽¹⁷⁾ and 2002/55/EC on the marketing of vegetable seed⁽¹⁸⁾;
 - e the date from which the seed or seed potatoes will be available;
 - f the name and/or code number of the control authority or control body in charge of the control of the operator as referred to in Article 27 of Regulation (EC) No 834/2007.
- 2 The supplier shall immediately inform the manager of the database if any of the registered varieties are no longer available. The amendments shall be recorded in the database.
- 3 Besides the information specified in paragraph 1, the database shall contain a list of the species listed in Annex X.

Article 52 **U.K.**

Access to information

- 1 The information in the database referred to in Article 48 shall be available through the Internet, free of cost, to the users of seed or seed potatoes and to the public. Member States may decide that any user who has notified its activity in accordance with Article 28(1)(a) of

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Regulation (EC) No 834/2007 may obtain, on request, an extract of data concerning one or several groups of species from the database manager.

2 The Member States shall ensure that all users referred to in paragraph 1 are informed, at least once a year, about the system and how to obtain the information in the database.

Article 53 **U.K.**

Registration fee

Each registration may be subject to the levying of a fee, which shall represent the cost of inserting and maintaining the information in the database referred to in Article 48. The competent authority of the Member State shall approve the amount of the fee charged by the manager of the database.

Article 54 **U.K.**

Annual report

1 The authorities or bodies designated to grant authorisations in accordance with Article 45 shall register all authorisations, and shall make this information available in a report to the competent authority of the Member State and to the manager of the database.

The report shall contain, for each species concerned by an authorisation according to Article 45(5), the following information:

- a the scientific name of the species and the variety denomination;
- b the justification for the authorisation indicated by a reference to Article 45(5)(a), (b), (c) or (d);
- c the total number of authorisations;
- d the total quantity of seed or seed potatoes involved;
- e the chemical treatment for phytosanitary purposes, as referred to in Article 45(2).

2 For authorisations according to Article 45(8) the report shall contain the information referred to in point (a) of the second subparagraph of paragraph 1 of this Article and the period for which the authorisations were in force.

Article 55 **U.K.**

Summary report

The competent authority of the Member State shall, before 31 March each year, collect the reports and send a summary report covering all authorisations of the Member State from the previous calendar year to the Commission and to the other Member States. The report shall cover the information specified in Article 54. The information shall be published in the database referred to in Article 48. The competent authority may delegate the task of collecting the reports to the manager of the database.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Article 56 U.K.

Information upon request

Upon request from a Member State or the Commission, detailed information on authorisations granted in individual cases shall be made available to other Member States or to the Commission.

TITLE III U.K.

LABELLING

CHAPTER 1 U.K.

Community Logo

Article 57 U.K.

Community logo

In accordance with Article 25(3) of Regulation (EC) No 834/2007, the Community logo shall follow the model in Annex XI to this Regulation.

The Community logo shall be used in accordance with the technical reproduction rules laid down in Annex XI to this Regulation.

Article 58 U.K.

Conditions for the use of the code number and place of origin

1 The indication of the code number of the control authority or control body referred to in Article 24(1)(a) of Regulation (EC) 834/2007 shall,

- a start with the acronym identifying the Member State or the third country, as referred to in the international standard for the two letter country codes under ISO 3166 (*Codes for the representation of names of countries and their subdivisions*);
- b include a term which establishes a link with the organic production method, as referred to in Article 23(1) of Regulation (EC) No 834/2007;
- c include a reference number to be decided by the competent authority; and
- d be placed immediately below the Community logo, where the Community logo is used in the labelling.

2 The indication of the place where the agricultural raw materials of which the products is composed have been farmed, as referred to in Article 24(1)(c) of Regulation (EC) 834/2007, shall be placed immediately below the code number referred to in paragraph 1.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

CHAPTER 2 **U.K.**

Specific labelling requirements for feed

Article 59 **U.K.**

Scope, use of trade marks and sales descriptions

This Chapter shall not apply to pet food and feed for fur animals or feed for aquaculture animals.

The trade marks and sales descriptions bearing an indication referred to in Article 23(1) of Regulation (EC) No 834/2007 may be used only if at least 95 % of the product's dry matter is comprised of feed material from the organic production method.

Article 60 **U.K.**

Indications on processed feed

1 Without prejudice to Articles 61 and 59, second paragraph of this Regulation, the terms referred to in Article 23(1) of Regulation (EC) 834/2007 may be used on processed feed provided that:

- a the processed feed complies with the provisions of Regulation (EC) 834/2007 and in particular with Article 14(1) (d) (iv) and (v) and Article 18 thereof;
- b the processed feed complies with the provisions of this Regulation and in particular with Articles 22 and 26 thereof;
- c at least 95 % of the product's dry matter is organic.

2 Subject to the requirements laid down in points (a) and (b) of paragraph 1, the following statement is permitted in the case of products comprising variable quantities of feed materials from the organic production method and/or feed materials from products in conversion to organic farming and/or non-organic materials:

‘may be used in organic production in accordance with Regulations (EC) 834/2007 and (EC) 889/2008’

Article 61 **U.K.**

Conditions for the use of indications on processed feed

- 1 The indication provided for in Article 60 shall be:
 - a separate from the wording referred to in Article 5 of Council Directive 79/373/EEC⁽¹⁹⁾ or in Article 5(1) of Council Directive 96/25/EC⁽²⁰⁾;
 - b presented in a colour, format or character font that does not draw more attention to it than to the description or name of the animal feedingstuff referred to in Article 5(1)(a) of Directive 79/373/EEC or in Article 5(1)(b) of Directive 96/25/EC respectively;
 - c accompanied, in the same field of vision, by an indication by weight of dry matter referring:
 - (i) to the percentage of feed material(s) from the organic production method;

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- (ii) to the percentage of feed material(s) from products in conversion to organic farming;
 - (iii) to the percentage of feed material(s) not covered by points (i) and (ii);
 - (iv) to the total percentage of animal feed of agricultural origin;
- d accompanied by a list of names of feed materials from the organic production method;
- e accompanied by a list of names of feed materials from products in conversion to organic production.
- 2 The indication provided for in Article 60 may be also accompanied by a reference to the requirement to use the feedingstuffs in accordance with Articles 21 and 22.

CHAPTER 3 **U.K.**

Other specific labelling requirements

Article 62 **U.K.**

In-conversion products of plant origin

In-conversion products of plant origin may bear the indication ‘product under conversion to organic farming’ provided that:

- (a) a conversion period of at least 12 months before the harvest has been complied with;
- (b) the indication shall appear in a colour, size and style of lettering which is not more prominent than the sales description of the product, the entire indication shall have the same size of letters;
- (c) the product contains only one crop ingredient of agricultural origin;
- (d) the indication is linked to the code number of the control body or control authority as referred to in Article 27(10) of Regulation 834/2007.

TITLE IV **U.K.**

CONTROLS

CHAPTER 1 **U.K.**

Minimum control requirements

Article 63 **U.K.**

Control arrangements and undertaking by the operator

- 1 When the control arrangements are first implemented, the operator shall draw up and subsequently maintain:
- a a full description of the unit and/or premises and/or activity;

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- b all the practical measures to be taken at the level of the unit and/or premises and/or activity to ensure compliance with the organic production rules;
- c the precautionary measures to be taken in order to reduce the risk of contamination by unauthorised products or substances and the cleaning measures to be taken in storage places and throughout the operator's production chain.

Where appropriate, the description and measures provided for in the first subparagraph may be part of a quality system as set up by the operator.

2 The description and the measures referred to in paragraph 1 shall be contained in a declaration, signed by the responsible operator. In addition, this declaration shall include an undertaking by the operator:

- a to perform the operations in accordance with the organic production rules;
- b to accept, in the event of infringement or irregularities, the enforcement of the measures of the organic production rules;
- c to undertake to inform in writing the buyers of the product in order to ensure that the indications referring to the organic production method are removed from this production.

The declaration provided for in the first subparagraph shall be verified by the control body or control authority that issues a report identifying the possible deficiencies and non-compliances with the organic production rules. The operator shall countersign this report and take the necessary corrective measures.

3 For the application of Article 28(1) of Regulation (EC) No 834/2007 the operator shall notify the following information to the competent authority:

- a Name and address of operator;
- b Location of premises and, where appropriate, parcels (land register data) where operations are carried out;
- c Nature of operations and products;
- d Undertaking by the operator to carry out the operation in accordance with the provision laid down in Regulation (EC) No 834/2007 and this Regulation;
- e In the case of an agricultural holding, the date on which the producer ceased to apply products not authorised for organic production on the parcels concerned;
- f The name of the approved body to which the operator entrusted control of his undertaking, where the Member State has implemented the control system by approving such bodies.

Article 64 **U.K.**

Modification of control arrangements

The operator responsible shall notify any change in the description or of the measures referred to in Article 63 and in the initial control arrangements set out in Articles 70, 74, 80, 82, 86 and 88 to the control authority or control body in due time.

Article 65 **U.K.**

Control visits

1 The control authority or control body shall carry out at least once a year a physical inspection of all operators.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

2 The control authority or control body may take samples for testing of products not authorised for organic production or for checking production techniques not in conformity with the organic production rules. Samples may also be taken and analysed for detecting possible contamination by products not authorised for organic production. However, such analysis shall be carried out where the use of products not authorised for organic production is suspected.

3 A control report shall be drawn up after each visit, countersigned by the operator of the unit or his representative.

4 Moreover, the control authority or control body shall carry out random control visits, primarily unannounced, based on the general evaluation of the risk of non-compliance with the organic production rules, taking into account at least the results of previous controls, the quantity of products concerned and the risk for exchange of products.

Article 66 **U.K.**

Documentary accounts

1 Stock and financial records shall be kept in the unit or premises and shall enable the operator to identify and the control authority or control body to verify:

- a the supplier and, where different, the seller, or the exporter of the products;
- b the nature and the quantities of organic products delivered to the unit and, where relevant, of all materials bought and the use of such materials, and, where relevant, the composition of the compound feedingstuffs;
- c the nature and the quantities of organic products held in storage at the premises;
- d the nature, the quantities and the consignees and, where different, the buyers, other than the final consumers, of any products which have left the unit or the first consignee's premises or storage facilities;
- e in case of operators who do not store or physically handle such organic products, the nature and the quantities of organic products bought and sold, and the suppliers, and where different, the sellers or the exporters and the buyers, and where different, the consignees.

2 The documentary accounts shall also comprise the results of the verification at reception of organic products and any other information required by the control authority or control body for the purpose of proper control. The data in the accounts shall be documented with appropriate justification documents. The accounts shall demonstrate the balance between the input and the output.

3 Where an operator runs several production units in the same area, the units for non organic products, together with storage premises for input products must also be subject to the minimum control requirements.

Article 67 **U.K.**

Access to facilities

1 The operator shall:

- a give the control authority or control body, for control purposes, access to all parts of the unit and all premises, as well as to the accounts and relevant supporting documents;
- b provide the control authority or control body with any information reasonably necessary for the purposes of the control;

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- c submit, when requested by the control authority or control body, the results of its own quality assurance programmes.

2 In addition to the requirements set out in paragraph 1, importers and first consignees shall submit the information on imported consignments referred to in Article 84.

Article 68 **U.K.**

Documentary evidence

For the purpose of the application of Article 29(1) of Regulation (EC) No 834/2007 the control authorities and the control bodies shall use the model of the documentary evidence set out in Annex XII to this Regulation.

Article 69 **U.K.**

Vendor declaration

For the purpose of the application of Article 9(3) of Regulation (EC) No 834/2007 the vendor declaration that products supplied have not been produced from or by GMOs may follow the model set out in Annex XIII to this Regulation.

CHAPTER 2 **U.K.**

Specific control requirements for plants and plant products from farm production or collection

Article 70 **U.K.**

Control arrangements

- 1 The full description of the unit referred to in Article 63(1)(a) shall:
 - a be drawn up even where the operator limits his activity to the collection of wild plants;
 - b indicate the storage and production premises and land parcels and/or collection areas and, where applicable, premises where certain processing and/or packaging operations take place; and
 - c specify the date of the last application on the parcels and/or collection areas concerned of products, the use of which is not compatible with the organic production rules.
- 2 In case of collection of wild plants, the practical measures referred to in Article 63(1)(b) shall include any guarantees given by third parties which the operator can provide to ensure that the provisions of Article 12(2) of Regulation (EC) No 834/2007 are complied with.

Article 71 **U.K.**

Communications

Each year, before the date indicated by the control authority or control body, the operator shall notify the control authority or control body of its schedule of production of crop products, giving a breakdown by parcel.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Article 72 **U.K.**

Plant production records

Plant production records shall be compiled in the form of a register and kept available to the control authorities or bodies at all times at the premises of the holding. In addition to Article 71 such records shall provide at least the following information:

- (a) as regards the use of fertiliser: date of application, type and amount of fertiliser, parcels concerned;
- (b) as regards the use of plant protection products: reason and date of treatment, type of product, method of treatment;
- (c) as regards purchase of farm inputs: date, type and amount of purchased product;
- (d) as regards harvest: date, type and amount of organic or in conversion crop production.

Article 73 **U.K.**

Several production units run by the same operator

Where an operator runs several production units in the same area, the units producing non-organic crops, together with storage premises for farm input products shall also be subject to the general and the specific control requirements laid down in Chapter 1 and this Chapter of this Title.

CHAPTER 3 **U.K.**

Control requirements for livestock and livestock products produced by animal husbandry

Article 74 **U.K.**

Control arrangements

1 When the control system applying specifically to livestock production is first implemented, the full description of the unit referred to in Article 63(1)(a) shall include:

- a a full description of the livestock buildings, pasturage, open air areas, etc., and, where applicable, the premises for the storage, packaging and processing of livestock, livestock products, raw materials and inputs;
- b a full description of the installations for the storage of livestock manure.

2 The practical measures referred to in Article 63(1)(b) shall include:

- a a plan for spreading manure agreed with the control body or authority, together with a full description of the areas given over to crop production;
- b where appropriate, as regards the spreading of manure, the written arrangements with other holdings as referred to in Article 3(3) complying with the provisions of the organic production rules;
- c a management plan for the organic-production livestock unit.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Article 75 **U.K.**

Identification of livestock

The livestock shall be identified permanently using techniques adapted to each species, individually in the case of large mammals and individually or by batch in the case of poultry and small mammals.

Article 76 **U.K.**

Livestock records

Livestock records shall be compiled in the form of a register and kept available to the control authorities or bodies at all times at the premises of the holding. Such records shall provide a full description of the herd or flock management system comprising at least the following information:

- (a) as regards animals arriving at the holding: origin and date of arrival, conversion period, identification mark and veterinary record;
- (b) as regards livestock leaving the holding: age, number of heads, weight in case of slaughter, identification mark and destination;
- (c) details of any animals lost and reasons thereof;
- (d) as regards feed: type, including feed supplements, proportions of various ingredients of rations and periods of access to free-range areas, periods of transhumance where restrictions apply;
- (e) as regards disease prevention and treatment and veterinary care: date of treatment, details of the diagnosis, the posology; type of treatment product, the indication of the active pharmacological substances involved method of treatment and veterinary prescription for veterinary care with reasons and withdrawal periods applying before livestock products can be marketed labelled as organic.

Article 77 **U.K.**

Control measures on veterinary medicinal products for livestock

Whenever veterinary medicinal products are used the information according to Article 76(e) is to be declared to the control authority or body before the livestock or livestock products are marketed as organically produced. Livestock treated shall be clearly identified, individually in the case of large animals; individually, or by batch, or by hive, in the case of poultry, small animals and bees.

Article 78 **U.K.**

Specific control measures on beekeeping

1 A map on an appropriate scale listing the location of hives shall be provided to the control authority or control body by the beekeeper. Where no areas are identified in accordance

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

with Article 13(2), the beekeeper shall provide the control authority or control body with appropriate documentation and evidence, including suitable analyses if necessary, that the areas accessible to his colonies meet the conditions required in this Regulation.

2 The following information shall be entered in the register of the apiary with regard to the use of feeding: type of product, dates, quantities and hives where it is used.

3 Whenever veterinary medicinal products are to be used, the type of product, including the indication of the active pharmacological substance, together with details of the diagnosis, the posology, the method of administration, the duration of the treatment and the legal withdrawal period shall be recorded clearly and declared to the control body or authority before the products are marketed as organically produced.

4 The zone where the apiary is situated shall be registered together with the identification of the hives. The control body or authority shall be informed of the moving of apiaries by a deadline agreed on with the control authority or body.

5 Particular care shall be taken to ensure adequate extraction, processing and storage of beekeeping products. All the measures to comply with this requirement shall be recorded.

6 The removals of the supers and the honey extraction operations shall be entered in the register of the apiary.

Article 79 **U.K.**

Several production units run by the same operator

Where an operator manages several production units, as provided for in Articles 17(1), 40 and 41, the units which produce non-organic livestock or non-organic livestock products shall also be subject to the control system as laid down in Chapter 1 and this Chapter of this Title.

CHAPTER 4 **U.K.**

Control requirements for units for preparation of plant and livestock products and foodstuffs composed of plant and livestock products

Article 80 **U.K.**

Control arrangements

In the case of a unit involved in the preparation for its own account or for account of a third party, and including in particular units involved in packaging and/or re-packaging of such products or units involved in labelling and/or re-labelling of such products, the full description of the unit referred to in Article 63(1)(a) shall show the facilities used for the reception, the processing, packaging, labelling and storage of agricultural products before and after the operations concerning them, as well as the procedures for the transport of the products.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

CHAPTER 5 **U.K.**

Control requirements for imports of plants, plant products, livestock, livestock products and foodstuffs comprising plant and/or livestock products, animal feedingstuffs, compound feedingstuffs and feed materials from third countries

Article 81 **U.K.**

Scope

This Chapter applies to any operator involved, as importer and/or as first consignee, in the import and/or reception, for its own account or for account of another operator, of organic products.

Article 82 **U.K.**

Control arrangements

1 In the case of the importer, the full description of the unit referred to in Article 63(1) (a) shall include the importer's premises and of his import activities, indicating the points of entry of the products into the Community and any other facilities the importer intends to use for the storage of the imported products pending their delivery to the first consignee.

In addition, the declaration referred to in Article 63(2) shall include an undertaking by the importer to ensure that any facilities that the importer will use for storage of products are submitted to control, to be carried out either by the control body or control authority or, when these storage facilities are situated in another Member State or region, by a control body or authority approved for control in that Member State or region.

2 In the case of the first consignee, the full description of the unit referred to in Article 63(1)(a) shall show the facilities used for the reception and storage.

3 Where the importer and the first consignee are the same legal person and operate in one single unit, the reports referred to in the second subparagraph of Article 63(2) may be formalised within one single report.

Article 83 **U.K.**

Documentary accounts

The importer and the first consignee shall keep separate stock and financial records, unless where they are operating in one single unit.

On request of the control authority or control body, any details on the transport arrangements from the exporter in the third country to the first consignee and, from the first consignee's premises or storage facilities to the consignees within the Community shall be provided.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Article 84 **U.K.**

Information on imported consignments

The importer shall, in due time, inform the control body or control authority of each consignment to be imported into the Community, providing:

- (a) the name and address of the first consignee;
- (b) any details the control body or authority may reasonably require,
 - (i) in case of products imported in accordance with Article 32 of Regulation (EC) No 834/2007, the documentary evidence referred to in that Article;
 - (ii) in case of products imported in accordance with Article 33 of Regulation (EC) No 834/2007, a copy of the certificate of inspection referred to in that Article.

On the request of the control body or control authority of the importer, the latter shall forward the information referred to in the first paragraph to the control body or control authority of the first consignee.

Article 85 **U.K.**

Control visits

The control authority or control body shall check the documentary accounts referred to in Article 83 of this Regulation and the certificate referred to in Article 33(1)(d) of Regulation (EC) No 834/2007 or the documentary evidence referred to in Article 32(1)(c) of the latter Regulation.

Where the importer performs the import operations by different units or premises, he shall make available on request the reports referred to in the second subparagraph of Article 63(2) of this Regulation for each of these facilities.

CHAPTER 6 **U.K.**

Control requirements for units involved in the production, preparation or import of organic products and which have contracted out to third parties in part or in total the actual operations concerned

Article 86 **U.K.**

Control arrangements

With regard to the operations, which are contracted out to third parties, the full description of the unit referred to in Article 63(1)(a) shall include:

- (a) a list of the subcontractors with a description of their activities and an indication of the control bodies or authorities to which they are subject;

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- (b) written agreement by the subcontractors that their holding will be subject to the control regime of Title V of Regulation (EC) No 834/2007;
- (c) all the practical measures, including inter alia an appropriate system of documentary accounts, to be taken at the level of the unit to ensure that the products the operator places on the market can be traced to, as appropriate, their suppliers, sellers, consignees and buyers.

CHAPTER 7 **U.K.**

Control requirements for units preparing feed

Article 87 **U.K.**

Scope

This Chapter applies to any unit involved in the preparation of products referred to in Article 1(2)(c) of Regulation (EC) No 834/2007 on its own account or on behalf of a third party.

Article 88 **U.K.**

Control arrangements

- 1 The full description of the unit referred to in Article 63(1)(a) shall indicate:
 - a the facilities used for the reception, preparation and storage of the products intended for animal feed before and after the operations concerning them;
 - b the facilities used for the storage of other products used to prepare feedingstuffs;
 - c the facilities used to store products for cleaning and disinfection;
 - d where necessary, the description of the compound feedingstuff that the operator intends to produce, in accordance with Article 5(1)(a) of Directive 79/373/EEC, and the livestock species or class for which the compound feedingstuff is intended;
 - e where necessary, the name of the feed materials that the operator intends to prepare.
- 2 The measures to be taken by operators, as referred to in Article 63(1)(b), to guarantee compliance with the organic production rules shall include the indications of measures referred to in Article 26.
- 3 The control authority or control body shall use these measures to carry out a general evaluation of the risks attendant on each preparation unit and to draw up a control plan. This control plan shall provide for a minimum number of random samples depending on the potential risks.

Article 89 **U.K.**

Documentary accounts

For the purposes of proper control of the operations, the documentary accounts referred to in Article 66 shall include information on the origin, nature and quantities of feed materials, additives, sales and finished products.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Article 90 **U.K.**

Control visits

The control visit referred to in Article 65 shall comprise a full physical inspection of all premises. Moreover, the control authority or control body shall make targeted visits based on a general evaluation of the potential risks of non-compliance with the organic production rules.

The control body or authority shall pay particular attention to the critical control points pointed out for the operator, with a view to establishing whether the surveillance and checking operations are carried out correctly.

All the premises used by the operator for the conduct of his activities may be checked as frequently as the attendant risks warrant.

CHAPTER 8 **U.K.**

Infringements and exchange of information

Article 91 **U.K.**

Measures in case of suspicion of infringements and irregularities

1 Where an operator considers or suspects that a product which he has produced, prepared, imported or that he has received from another operator, is not in compliance with organic production rules, he shall initiate procedures either to withdraw from this product any reference to the organic production method or to separate and identify the product. He may only put it into processing or packaging or on the market after elimination of that doubt, unless it is placed on the market without indication referring to the organic production method. In case of such doubt, the operator shall immediately inform the control body or authority. The control authority or control body may require that the product cannot be placed on the market with indications referring to the organic production method until it is satisfied, by the information received from the operator or from other sources, that the doubt has been eliminated.

2 Where a control authority or control body has a substantiated suspicion that an operator intends to place on the market a product not in compliance with the organic production rules but bearing a reference to the organic production method, this control authority or control body can require that the operator may provisionally not market the product with this reference for a time period to be set by that control authority or control body. Before taking such a decision, the control authority or control body shall allow the operator to comment. This decision shall be supplemented by the obligation to withdraw from this product any reference to the organic production method if the control authority or control body is sure that the product does not fulfil the requirements of organic production.

However, if the suspicion is not confirmed within the said time period, the decision referred to in the first subparagraph shall be cancelled not later than the expiry of that time period. The operator shall cooperate fully with the control body or authority in resolving the suspicion.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

3 Member States shall take whatever measures and sanctions are required to prevent fraudulent use of the indications referred to in Title IV of Regulation (EC) No 834/2007 and Title III and/or Annex XI of this Regulation.

Article 92 **U.K.**

Exchange of information

1 Where the operator and his subcontractors are checked by different control authorities or control bodies, the declaration referred to in Article 63(2) shall include an agreement by the operator on his behalf and that of his subcontractors, that the different control bodies or control authorities can exchange information on the operations under their control and on the way this exchange of information can be implemented.

2 Where a Member State finds irregularities or infringements relating to the application of this Regulation in a product coming from another Member State and bearing indications as referred to in Title IV of Regulation (EC) No 834/2007 and Title III and/or Annex XI of this Regulation, it shall inform the Member State which designated the control body or control authority and the Commission thereby.

TITLE V **U.K.**

TRANSMISSION OF INFORMATION TO THE COMMISSION, TRANSITIONAL AND FINAL PROVISIONS

CHAPTER 1 **U.K.**

Transmission of information to the Commission

Article 93 **U.K.**

Statistical information

1 Member States shall provide the Commission with the annual statistical information on organic production referred to in Article 36 of Regulation (EC) No 834/2007 by using the computer system enabling electronic exchanges of documents and information made available by the Commission (Eurostat) before 1 July each year.

2 The statistical information referred to in paragraph 1 shall comprise, in particular the following data:

- a the number of organic producers, processors, importers and exporters;
- b the organic crop production and crop area under conversion and under organic production;
- c the organic livestock numbers and the organic animal products;
- d the data on organic industrial production by type of activities.

3 For the transmission of the statistical information referred to in paragraphs 1 and 2, Member States shall use the Single Entry point provided by the Commission (Eurostat).

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

4 The provisions relating to the characteristics of statistical data and metadata shall be defined within the context of the Community Statistical Programme on the basis of models or questionnaires made available via the system referred to in paragraph 1.

Article 94 **U.K.**

Other information

1 Member States shall provide the Commission with the following information by using the computer system enabling electronic exchanges of documents and information made available by the Commission (DG Agriculture and rural development) for information other than statistical information:

- a before 1 January 2009, the information referred to in Article 35(a) of Regulation (EC) No 834/2007 and afterwards each modification when that appears;
- b by 31 March each year, the information referred to in Article 35(b) of Regulation (EC) No 834/2007, as regards control authorities and bodies approved on 31 December of the previous year;
- c before 1 July each year, all other information required or needed in accordance with this Regulation.

2 The data shall be communicated, entered and updated in the system referred to in paragraph 1 under the responsibility of the competent authority as referred to in Article 35 of Regulation (EC) No 834/2007, by the authority itself or by the body to which that function has been delegated.

3 The provisions relating to the characteristics of data and metadata shall be defined on the basis of models or questionnaires made available via the system referred to in paragraph 1.

CHAPTER 2 **U.K.**

Transitional and final provisions

Article 95 **U.K.**

Transitional measures

1 For a transitional period expiring on 31 December 2010, cattle may be tethered in buildings already existing before 24 August 2000, provided that regular exercise is provided and rearing takes place in line with animal welfare requirements with comfortably littered areas as well as individual management and provided that the competent authority has authorised this measure. The competent authority may continue authorising this measure upon request of individual operators for its application in a limited period ending before the 31 December 2013, under the additional condition that the controls visits referred to in Article 65(1) are carried out at least twice a year.

2 The competent authority may authorise, for a transitional period expiring on 31 December 2010, the exceptions concerning housing conditions and stocking density granted to livestock producing holdings on the basis of the derogation provided for in part B, paragraph 8.5.1 of Annex I to Regulation (EEC) No 2092/91. The operators benefiting from this extension shall present a plan to the control authority or control body, containing the description of arrangements which are intended to ensure compliance with the provisions of the organic

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

production rules by the end of the transitional period. The competent authority may continue authorising this measure upon request of individual operators for its application in a limited period ending before the 31 December 2013, under the additional condition that the controls visits referred to in Article 65(1) are carried out at least twice a year.

3 For a transition period expiring 31 December 2010 the final fattening phase of sheep and pigs for meat production as laid down under point 8.3.4 of Annex I.B of Regulation (EEC) No 2092/91 may take place indoors under the condition that the controls visits referred to in Article 65(1) are carried out at least twice a year.

4 The castration of piglets may be carried out without the application of anaesthesia and/or analgesia during a transition period expiring on 31 December 2011.

5 Pending the inclusion of detailed processing rules for pet food, national rules or in the absence thereof, private standards accepted or recognised by the Member States shall apply.

6 For the purpose of Article 12(1)(j) of Regulation (EC) No 834/2007 and pending the inclusion of specific substances according to Article 16(f) of that Regulation, only products authorised by the competent authorities may be used.

7 Authorisations of non-organic ingredients of agricultural origin granted by Member States under Regulation (EEC) No 207/93 may be deemed granted as under this Regulation. However, authorisations granted in accordance with Article 3(6) of the former Regulation shall expire on 31 December 2009.

8 For a transitional period expiring on the 1 July 2010, the operators may continue to use in the labelling the provisions as laid down in Regulation (EEC) No 2092/91 for:

- (i) the system for calculation the percentage of organic ingredients of food;
- (ii) the code number and/or the name of the control body or control authority.

9 Stocks of products produced, packaged and labelled before 1 January 2009 in accordance with Regulation (EEC) No 2092/91 may continue to be brought on the market bearing terms referring to organic production until stocks are exhausted.

10 Packaging material in accordance with Regulation (EEC) No 2092/91 may continue to be used for products brought to the market bearing terms referring to organic production until 1 January 2012, where the product otherwise complies with the requirements of Regulation (EC) 834/2007.

Article 96 **U.K.**

Repeal

Regulations (EEC) No 207/93, (EC) No 223/2003 and (EC) No 1452/2003 are repealed.

References to the repealed Regulations and to Regulation (EEC) No 2092/91 shall be construed as references to this Regulation and shall be read in accordance with the correlation table in Annex XIV.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Article 97 **U.K.**

Entry into force and application

This Regulation shall enter into force on the seventh day following that of its publication in the *Official Journal of the European Union*.

It shall apply as from 1 January 2009.

However, paragraph 2(a) of Article 27 and Article 58 shall apply as of 1 July 2010.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

ANNEX I U.K.

Fertilisers and soil conditioners referred to in Article 3(1)

Note:

- A : authorised under Regulation (EEC) No 2092/91 and carried over by Article 16(3)(c) of Regulation (EC) No 834/2007
 B : authorised under Regulation (EC) No 834/2007

Authorisation	Name	Description, compositional requirements, conditions for use
A	Compound products or products containing only materials listed hereunder: Farmyard manure	Product comprising a mixture of animal excrements and vegetable matter (animal bedding). Factory farming origin forbidden
A	Dried farmyard manure and dehydrated poultry manure	Factory farming origin forbidden
A	Composted animal excrements, including poultry manure and composted farmyard manure included	Factory farming origin forbidden
A	Liquid animal excrements	Use after controlled fermentation and/or appropriate dilution Factory farming origin forbidden
A	Composted or fermented household waste	Product obtained from source separated household waste, which has been submitted to composting or to anaerobic fermentation for biogas production Only vegetable and animal household waste Only when produced in a closed and monitored collection system, accepted by the Member State Maximum concentrations in mg/kg of dry matter: cadmium: 0,7; copper: 70; nickel: 25; lead: 45; zinc: 200; mercury: 0,4; chromium (total): 70; chromium (VI): 0
A	Peat	Use limited to horticulture (market gardening,

^a OJ L 304, 21.11.2003, p. 1.

*Status: Point in time view as at 01/01/2009.**Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)*

		floriculture, arboriculture, nursery)
A	Mushroom culture wastes	The initial composition of the substrate shall be limited to products of this Annex
A	Dejecta of worms (vermicompost) and insects	
A	Guano	
A	Composted or fermented mixture of vegetable matter	Product obtained from mixtures of vegetable matter, which have been submitted to composting or to anaerobic fermentation for biogas production
A	Products or by-products of animal origin as below: blood meal hoof meal horn meal bone meal or degelatinized bone meal fish meal meat meal feather, hair and 'chiquette' meal wool fur hair dairy products	Maximum concentration in mg/kg of dry matter of chromium (VI): 0
A	Products and by-products of plant origin for fertilisers	Examples: oilseed cake meal, cocoa husks, malt culms
A	Seaweeds and seaweed products	As far as directly obtained by: (i) physical processes including dehydration, freezing and grinding (ii) extraction with water or aqueous acid and/or alkaline solution (iii) fermentation
A	Sawdust and wood chips	Wood not chemically treated after felling

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

A	Composted bark	Wood not chemically treated after felling
A	Wood ash	From wood not chemically treated after felling
A	Soft ground rock phosphate	Product as specified in point 7 of Annex IA.2. to Regulation (EC) No 2003/2003 of the European Parliament and of the Council ^a relating to fertilisers , 7 Cadmium content less than or equal to 90 mg/kg of P ₂ O ₅
A	Aluminium-calcium phosphate	Product as specified in point 6 of Annex IA.2. of Regulation 2003/2003, Cadmium content less than or equal to 90 mg/kg of P ₂ O ₅ Use limited to basic soils (pH > 7,5)
A	Basic slag	Products as specified in point 1 of Annex IA.2. of Regulation 2003/2003
A	Crude potassium salt or kainit	Products as specified in point 1 of Annex IA.3. of Regulation 2003/2003
A	Potassium sulphate, possibly containing magnesium salt	Product obtained from crude potassium salt by a physical extraction process, containing possibly also magnesium salts
A	Stillage and stillage extract	Ammonium stillage excluded
A	Calcium carbonate (chalk, marl, ground limestone, Breton ameliorant, (maerl), phosphate chalk)	Only of natural origin
A	Magnesium and calcium carbonate	Only of natural origin e.g. magnesian chalk, ground magnesium, limestone
A	Magnesium sulphate (kieserite)	Only of natural origin
A	Calcium chloride solution	Foliar treatment of apple trees, after identification of deficit of calcium

^a OJ L 304, 21.11.2003, p. 1.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

A	Calcium sulphate (gypsum)	Products as specified in point 1 of Annex ID. of Regulation 2003/2003 Only of natural origin
A	Industrial lime from sugar production	By-product of sugar production from sugar beet
A	Industrial lime from vacuum salt production	By-product of the vacuum salt production from brine found in mountains
A	Elemental sulphur	Products as specified in Annex ID.3 of Regulation 2003/2003
A	Trace elements	Inorganic micronutrients listed in part E of Annex I to Regulation 2003/2003
A	Sodium chloride	Only mined salt
A	Stone meal and clays	
a	OJ L 304, 21.11.2003, p. 1.	

ANNEX II U.K.

Pesticides — plant protection products referred to in Article 5(1)

Note:

- A : authorised under Regulation (EEC) No 2092/91 and carried over by Article 16(3)(c) of Regulation (EC) No 834/2007
- B : authorised under Regulation (EC) No 834/2007

1. Substances of crop or animal origin U.K.

Authorisation	Name	Description, compositional requirement, conditions for use
A	Azadirachtin extracted from <i>Azadirachta indica</i> (Neem tree)	Insecticide
A	Beeswax	Pruning agent
A	Gelatine	Insecticide
A	Hydrolysed proteins.	Attractant, only in authorized applications in combination with other appropriate products of this list
A	Lecithin	Fungicide

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

A	Plant oils (e.g. mint oil, pine oil, caraway oil).	Insecticide, acaricide, fungicide and sprout inhibitor.
A	Pyrethrins extracted from <i>Chrysanthemum cinerariaefolium</i>	Insecticide
A	Quassia extracted from <i>Quassia amara</i>	Insecticide, repellent
A	Rotenone extracted from <i>Derris</i> spp. and <i>Lonchocarpus</i> spp. and <i>Terphrosia</i> spp.	Insecticide

2. Micro-organisms used for biological pest and disease control **U.K.**

Authorisation	Name	Description, compositional requirement, conditions for use
A	Micro-organisms (bacteria, viruses and fungi)	

3. Substances produced by micro-organisms **U.K.**

Authorisation	Name	Description, compositional requirement, conditions for use
A	Spinosad	Insecticide Only where measures are taken to minimize the risk to key parasitoids and to minimize the risk of development of resistance

4. Substances to be used in traps and/or dispensers **U.K.**

Authorisation	Name	Description, compositional requirement, conditions for use
A	Diammonium phosphate	Attractant, only in traps
A	Pheromones	Attractant; sexual behaviour disrupter; only in traps and dispensers
A	Pyrethroids (only deltamethrin or lambda-cyhalothrin)	Insecticide; only in traps with specific attractants; only against <i>Bactrocera oleae</i> and <i>Ceratitidis capitata</i> Wied.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

5. Preparations to be surface-spread between cultivated plants **U.K.**

Authorisation	Name	Description, compositional requirement, conditions for use
A	Ferric phosphate (iron (III) orthophosphate)	Molluscicide

6. Other substances from traditional use in organic farming **U.K.**

Authorisation	Name	Description, compositional requirement, conditions for use
A	Copper in the form of copper hydroxide, copper oxychloride, (tribasic) copper sulphate, cuprous oxide, copper octanoate	Fungicide. up to 6 kg copper per ha per year For perennial crops, Member States may, by derogation from the previous paragraph, provide that the 6 kg copper limit can be exceeded in a given year provided that the average quantity actually used over a 5-year period consisting of that year and of the four preceding years does not exceed 6 kg
A	Ethylene	Degreening bananas, kiwis and kakis; Degreening of citrus fruit only as part of a strategy for the prevention of fruit fly damage in citrus; Flower induction of pineapple; sprouting inhibition in potatoes and onions
A	Fatty acid potassium salt (soft soap)	Insecticide
A	Potassium aluminium (aluminium sulphate) (Kalinite)	Prevention of ripening of bananas
A	Lime sulphur (calcium polysulphide)	Fungicide, insecticide, acaricide
A	Paraffin oil	Insecticide, acaricide
A	Mineral oils	Insecticide, fungicide;

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

		only in fruit trees, vines, olive trees and tropical crops (e.g. bananas);
A	Potassium permanganate	Fungicide, bactericide; only in fruit trees, olive trees and vines.
A	Quartz sand	Repellent
A	Sulphur	Fungicide, acaricide, repellent

7. Other substances **U.K.**

Authorisation	Name	Description, compositional requirement, conditions for use
A	Calcium hydroxide	Fungicide Only in fruit trees, including nurseries, to control <i>Nectria galligena</i>
A	Potassium bicarbonate	Fungicide

ANNEX III **U.K.**

Minimum surface areas indoors and outdoors and other characteristics of housing in the different species and types of production referred to in Article 10(4)

1. Bovines, equidae, ovine, caprine and porcine **U.K.**

	Indoors area (net area available to animals)		Outdoors area (exercise area, excluding pasturage)
	Live weight minimum (kg)	M ² /head	M ² /head
Breeding and fattening bovine and equidae	up to 100	1,5	1,1
	up to 200	2,5	1,9
	up to 350	4,0	3
	over 350	5 with a minimum of 1 m ² /100 kg	3,7 with a minimum of 0,75 m ² /100 kg
Dairy cows		6	4,5
Bulls for breeding		10	30
Sheep and goats		1,5 sheep/goat	2,5
		0,35 lamb/kid	0,5

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Farrowing sows with piglets up to 40 days		7,5 sow	2,5
Fattening pigs	up to 50	0,8	0,6
	up to 85	1,1	0,8
	up to 110	1,3	1
Piglets	over 40 days and up to 30 kg	0,6	0,4
Brood pigs		2,5 female	1,9
		6 male If pens are used for natural service: 10 m ² /boar	8,0

2. Poultry **U.K.**

	Indoors area(net area available to animals)			Outdoors area(m ² of area available in rotation/head)
	No animals/m ²	cm perch/animal	nest	
Laying hens	6	18	7 laying hens per nest or in case of common nest 120 cm ² /bird	4, provided that the limit of 170 kg of N/ha/year is not exceeded
Fattening poultry (in fixed housing)	10 with a maximum of 21 kg liveweight/m ²	20 (for guinea fowl only)		4 broilers and guinea fowl 4,5 ducks 10 turkey 15 geese In all the species mentioned above the limit of 170 kg of N/ha/year is not exceeded
Fattening poultry in mobile housing	16 ^a in mobile poultry houses with a maximum of 30 kg liveweight/m ²			2,5, provided that the limit of 170 kg of N/ha/year is not exceeded

^a Only in the case of mobile houses not exceeding 150 m² floor space.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

ANNEX IV **U.K.**

Maximum number of animals per hectare referred to in Article 15 (2)

Class or species	Maximum number of animals per haequivalent to 170 kg N/ha/year
Equines over six months old	2
Calves for fattening	5
Other bovine animals less than one year old	5
Male bovine animals from one to less than two years old	3,3
Female bovine animals from one to less than two years old	3,3
Male bovine animals two years old or over	2
Breeding heifers	2,5
Heifers for fattening	2,5
Dairy cows	2
Cull dairy cows	2
Other cows	2,5
Female breeding rabbits	100
Ewes	13,3
Goats	13,3
Piglets	74
Breeding sows	6,5
Pigs for fattening	14
Other pigs	14
Table chickens	580
Laying hens	230

ANNEX V **U.K.**

Feed materials referred to in Article 22(1), (2) and (3)

1. NON-ORGANIC FEED MATERIALS OF PLANT ORIGIN **U.K.**
 - 1.1. Cereals, grains, their products and by-products: **U.K.**
 - Oats as grains, flakes, middlings, hulls and bran
 - Barley as grains, protein and middlings
 - Rice germ expeller
 - Millet as grains

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- Rye as grains and middlings
- Sorghum as grains
- Wheat as grains, middlings, bran, gluten feed, gluten and germ
- Spelt as grains
- Triticale as grains
- Maize as grains, bran, middlings, germ expeller and gluten
- Malt culms
- Brewers' grains
- 1.2. Oil seeds, oil fruits, their products and by-products: U.K.
 - Rape seed, expeller and hulls
 - Soya bean as bean, toasted, expeller and hulls
 - Sunflower seed as seed and expeller
 - Cotton as seed and seed expeller
 - Linseed as seed and expeller
 - Sesame seed as expeller
 - Palm kernels as expeller
 - Pumpkin seed as expeller
 - Olives, olive pulp
 - Vegetable oils (from physical extraction).
- 1.3. Legume seeds, their product and by-products: U.K.
 - Chickpeas as seeds, middlings and bran
 - Ervil as seeds, middlings and bran
 - Chickling vetch as seeds submitted to heat treatment, middlings and bran
 - Peas as seeds, middlings, and bran
 - Broad beans as seeds, middlings and bran
 - Horse beans as seeds middlings and bran
 - Vetches as seeds, middlings and bran
 - Lupin as seeds, middlings and bran
- 1.4. Tuber, roots, their products and by-products: U.K.
 - Sugar beet pulp
 - Potato
 - Sweet potato as tuber
 - Potato pulp (by-product of the extraction of potato starch)
 - Potato starch
 - Potato protein
 - Manioc.
- 1.5. Other seeds and fruits, their products and by-products: U.K.
 - Carob
 - Carob pods and meals thereof
 - Pumpkins,
 - Citrus pulp
 - Apples, quinces, pears, peaches, figs, grapes and pulps thereof
 - Chestnuts
 - Walnut expeller

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- Hazelnut expeller
- Cocoa husks and expeller
- Acorns.
- 1.6. Forages and roughages: **U.K.**
 - Lucerne
 - Lucerne meal
 - Clover
 - Clover meal
 - Grass (obtained from forage plants)
 - Grass meal
 - Hay
 - Silage
 - Straw of cereals
 - Root vegetables for foraging
- 1.7. Other plants, their products and by-products: **U.K.**
 - Molasses
 - Seaweed meal (obtained by drying and crushing seaweed and washed to reduce iodine content)
 - Powders and extracts of plants
 - Plant protein extracts (solely provided to young animals)
 - Spices
 - Herbs
- 2. FEED MATERIALS OF ANIMAL ORIGIN **U.K.**
 - 2.1. Milk and milk products: **U.K.**
 - Raw milk
 - Milk powder
 - Skimmed milk, skimmed-milk powder,
 - Buttermilk, buttermilk powder
 - Whey, whey powder, whey powder low in sugar, whey protein powder (extracted by physical treatment)
 - Casein powder
 - Lactose powder
 - Curd and sour milk
 - 2.2. Fish, other marine animals, their products and by-products: **U.K.**

Under the following restrictions: Products origin only from sustainable fisheries and to be used only for species other than herbivores

 - Fish
 - Fish oil and cod-liver oil not refined
 - Fish molluscan or crustacean autolysates
 - Hydrolysate and proteolysates obtained by an enzyme action, whether or not in soluble form, solely provided to young animals
 - Fish meal
 - 2.3. Egg and egg products **U.K.**

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- Eggs and egg products for use as poultry feed, primarily from the same holding.
- 3. FEED MATERIALS OF MINERAL ORIGIN **U.K.**
 - 3.1. Sodium: **U.K.**
 - unrefined sea salt
 - coarse rock salt
 - sodium sulphate
 - sodium carbonate
 - sodium bicarbonate
 - sodium chloride
 - 3.2. Potassium: **U.K.**
 - potassium chloride
 - 3.3. Calcium: **U.K.**
 - lithotamnion and maerl
 - shells of aquatic animals (including cuttlefish bones)
 - calcium carbonate
 - calcium lactate
 - calcium gluconate
 - 3.4. Phosphorus: **U.K.**
 - defluorinated dicalcium phosphate
 - defluorinated monocalcium phosphate
 - monosodium phosphate
 - calcium-magnesium phosphate
 - calcium-sodium phosphate
 - 3.5. Magnesium: **U.K.**
 - magnesium oxide (anhydrous magnesia)
 - magnesium sulphate
 - magnesium chloride
 - magnesium carbonate
 - magnesium phosphate
 - 3.6. Sulphur: **U.K.**
 - sodium sulphate.

ANNEX VI **U.K.**

Feed additives and certain substances used as in animal nutrition referred to in Article 22(4)

1. FEED ADDITIVES **U.K.**

Additives listed must have been approved under Regulation (EC) No 1831/2003 of the European Parliament and of the Council⁽²¹⁾ on additives for use in animal nutrition

1.1. Nutritional additives **U.K.**

(a) Vitamins **U.K.**

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- Vitamins derived from raw materials occurring naturally in feedingstuffs;
- Synthetic vitamins identical to natural vitamins for monogastric animals;
- Synthetic vitamins A, D, and E identical to natural vitamins for ruminants with prior authorisation of the Member States based on the assessment of the possibility for organic ruminants to obtain the necessary quantities of the said vitamins through their feed rations.

(b) Trace elements **U.K.**

E1	Iron:
	ferrous (II) carbonate
	ferrous (II) sulphate monohydrate and/or heptahydrate
	ferric (III) oxide;
E2	Iodine:
	calcium iodate, anhydrous
	calcium iodate, hexahydrate
	sodium iodide;
E3	Cobalt:
	cobaltous (II) sulphate monohydrate and/or heptahydrate
	basic cobaltous (II) carbonate, monohydrate;
E4	Copper:
	copper (II) oxide
	basic copper (II) carbonate, monohydrate
	copper (II) sulphate, pentahydrate;
E5	Manganese:
	manganous (II) carbonate
	manganous oxide and manganic oxide
	manganous (II) sulfate, mono- and/or tetrahydrate;
E6	Zinc:
	zinc carbonate
	zinc oxide
	zinc sulphate mono- and/or heptahydrate;
E7	Molybdenum:
	ammonium molybdate, sodium molybdate;
E8	Selenium:

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

	sodium selenate
	sodium selenite.

1.2. Zoo-technical additives **U.K.**

Enzymes and micro-organisms

1.3. Technological additives **U.K.**

(a) Preservatives **U.K.**

E 200	Sorbic acid
E 236	Formic acid ^a
E 260	Acetic acid ^a
E 270	Lactic acid ^a
E 280	Propionic acid ^a
E 330	Citric acid.

^a For silage: only when weather conditions do not allow for adequate fermentation.

(b) Antioxidant substances **U.K.**

E 306 — Tocopherol-rich extracts of natural origin used as an antioxidant

(c) Binders and anti-caking agents **U.K.**

E 470	Calcium stearate of natural origin
E 551b	Colloidal silica
E 551c	Kieselgur
E 558	Bentonite
E 559	Kaolinitic clays
E 560	Natural mixtures of stearites and chlorite
E 561	Vermiculite
E 562	Sepiolite
E 599	Perlite.

(d) Silage additives **U.K.**

Enzymes, yeasts and bacteria can be used as silage additives

The use of lactic, formic, propionic and acetic acid in the production of silage shall only be permitted when weather conditions do not allow for adequate fermentation

2. CERTAIN SUBSTANCES USED IN ANIMAL NUTRITION **U.K.**

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Substance listed must have been approved under Council Directive 82/471/EEC concerning certain products used in animal nutrition⁽²²⁾

Yeasts:

Saccharomyces cerevisiae
Saccharomyces carlsbergiensis

3. SUBSTANCES FOR SILAGE PRODUCTION **U.K.**

- sea salt
- coarse rock salt
- whey
- sugar
- sugar beet pulp
- cereal flour
- molasses

ANNEX VII **U.K.**

Products for cleaning and disinfection referred to in Article 23 (4)

Products for cleaning and disinfection of buildings and installations for animal production:

- Potassium and sodium soap
- Water and steam
- Milk of lime
- Lime
- Quicklime
- Sodium hypochlorite (e.g. as liquid bleach)
- Caustic soda
- Caustic potash
- Hydrogen peroxide
- Natural essences of plants
- Citric, peracetic acid, formic, lactic, oxalic and acetic acid
- Alcohol
- Nitric acid (dairy equipment)
- Phosphoric acid (dairy equipment)
- Formaldehyde
- Cleaning and disinfection products for teats and milking facilities
- Sodium carbonate

ANNEX VIII **U.K.**

[^{F1}Certain products and substances for use in production of processed organic food, yeast and yeast products referred to in Article 27(1)(a) and Article 27a(a)]

Note:

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- A : authorised under Regulation (EEC) No 2092/91 and carried over by Article 21(2) of Regulation (EC) No 834/2007
- B : authorised under Regulation (EC) No 834/2007

SECTION A — FOOD ADDITIVES, INCLUDING CARRIERS U.K.

For the purpose of the calculation referred to in Article 23(4)(a)(ii) of Regulation (EC) No 834/2007, food additives marked with an asterisk in the column of the code number, shall be calculated as ingredients of agricultural origin.

Authorisation	Code	Name	Preparation of foodstuffs of		Specific conditions
			plant origin	animal origin	
A	E 153	Vegetable carbon		X	Ashy goat cheese Morbier cheese
A	E 160b*	Annatto, Bixin, Norbixin		X	Red Leicester cheese Double Gloucester cheese Cheddar Mimolette cheese
A	E 170	Calcium carbonate	X	X	Shall not be used for colouring or calcium enrichment of products
A	E 220 Or	Sulphur dioxide	X	X	In fruit wines ^d without added sugar (including cider and perry) or in mead: 50 mg ^e
	E 224	Potassium metabisulphite	X	X	For cider and perry

a This additive can only be used, if it has been demonstrated to the satisfaction of the competent authority that no technological alternative, giving the same guarantees and/or allowing to maintain the specific features of the product, is available.

b The restriction concerns only animal products.

c 'Dulce de leche' or 'Confiture de lait' refers to a soft, luscious, brown cream, made of sweetened, thickened milk.

d In this context, 'fruit wine' is defined as wine made from fruits other than grapes.

e Maximum levels available from all sources, expressed as SO₂ in mg/l.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

					prepared with addition of sugars or juice concentrate after fermentation: 100 mg ^e
A	E 250 or	Sodium nitrite		X	For meat products ^a :
	E 252	Potassium nitrate		X	For E 250: indicative ingoing amount expressed as NaNO ₂ : 80 mg/kg For E 252: indicative ingoing amount expressed as NaNO ₃ : 80 mg/kg For E 250: maximum residual amount expressed as NaNO ₂ : 50 mg/kg For E 252: maximum residual amount expressed as NaNO ₃ : 50 mg/kg
A	E 270	Lactic acid	X	X	

a This additive can only be used, if it has been demonstrated to the satisfaction of the competent authority that no technological alternative, giving the same guarantees and/or allowing to maintain the specific features of the product, is available.

b The restriction concerns only animal products.

c ‘Dulce de leche’ or ‘Confiture de lait’ refers to a soft, luscious, brown cream, made of sweetened, thickened milk.

d In this context, ‘fruit wine’ is defined as wine made from fruits other than grapes.

e Maximum levels available from all sources, expressed as SO₂ in mg/l.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

A	E 290	Carbon dioxide	X	X	
A	E 296	Malic acid	X		
A	E 300	Ascorbic acid	X	X	Meat products ^b
A	E 301	Sodium ascorbate		X	Meat products ^b in connection with nitrates and nitrites
A	E 306*	Tocopherol-rich extract	X	X	Anti-oxidant for fats and oils
A	E 322*	Lecithins	X	X	Milk products ^b
A	E 325	Sodium lactate		X	Milk-based and meat products
A	E 330	Citric acid	X		
A	E 331	Sodium citrates		X	
A	E 333	Calcium citrates	X		
A	E 334	Tartaric acid (L(+)-)	X		
A	E 335	Sodium tartrates	X		
A	E 336	Potassium tartrates	X		
A	E 341 (i)	Monocalcium-phosphate	X		Raising agent for self raising flour
A	E 400	Alginic acid	X	X	Milk-based products ^b
A	E 401	Sodium alginate	X	X	Milk-based products ^b

a This additive can only be used, if it has been demonstrated to the satisfaction of the competent authority that no technological alternative, giving the same guarantees and/or allowing to maintain the specific features of the product, is available.

b The restriction concerns only animal products.

c 'Dulce de leche' or 'Confiture de lait' refers to a soft, luscious, brown cream, made of sweetened, thickened milk.

d In this context, 'fruit wine' is defined as wine made from fruits other than grapes.

e Maximum levels available from all sources, expressed as SO₂ in mg/l.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

A	E 402	Potassium alginate	X	X	Milk-based products ^b
A	E 406	Agar	X	X	Milk-based and meat products ^b
A	E 407	Carrageenan	X	X	Milk-based products ^b
A	E 410*	Locust bean gum	X	X	
A	E 412*	Guar gum	X	X	
A	E 414*	Arabic gum	X	X	
A	E 415	Xanthan gum	X	X	
A	E 422	Glycerol	X		For plant extracts
A	E 440 (i)*	Pectin	X	X	Milk-based products ^b
A	E 464	Hydroxypropyl methyl cellulose	X	X	Encapsulation material for capsules
A	E 500	Sodium carbonates	X	X	'Dulce de leche' ^c and soured-cream butter and sour milk cheese ^b
A	E 501	Potassium carbonates	X		
A	E 503	Ammonium carbonates	X		
A	E 504	Magnesium carbonates	X		
A	E 509	Calcium chloride		X	Milk coagulation
A	E 516	Calcium sulphate	X		Carrier

a This additive can only be used, if it has been demonstrated to the satisfaction of the competent authority that no technological alternative, giving the same guarantees and/or allowing to maintain the specific features of the product, is available.

b The restriction concerns only animal products.

c 'Dulce de leche' or 'Confiture de lait' refers to a soft, luscious, brown cream, made of sweetened, thickened milk.

d In this context, 'fruit wine' is defined as wine made from fruits other than grapes.

e Maximum levels available from all sources, expressed as SO₂ in mg/l.

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

ANNEX IX U.K.

Ingredients of agricultural origin which have not been produced organically referred to in Article 28

1. UNPROCESSED VEGETABLE PRODUCTS AS WELL AS PRODUCTS DERIVED THEREFROM BY PROCESSES U.K.

1.1. Edible fruits, nuts and seeds: U.K.

—	acorns	<i>Quercus</i> spp.
—	cola nuts	<i>Cola acuminata</i>
—	gooseberries	<i>Ribes uva-crispa</i>
—	maracujas (passion fruit)	<i>Passiflora edulis</i>
—	raspberries (dried)	<i>Rubus idaeus</i>
—	red currants (dried)	<i>Ribes rubrum</i>

1.2. Edible spices and herbs: U.K.

—	pepper (Peruvian)	<i>Schinus molle</i> L.
—	horseradish seeds	<i>Armoracia rusticana</i>
—	lesser galanga	<i>Alpinia officinarum</i>
—	safflower flowers	<i>Carthamus tinctorius</i>
—	watercress herb	<i>Nasturtium officinale</i>

1.3. Miscellaneous: U.K.

Algae, including seaweed, permitted in non-organic foodstuffs preparation

2. VEGETABLE PRODUCTS U.K.

2.1. Fats and oils whether or not refined, but not chemically modified, derived from plants other than: U.K.

—	cocoa	<i>Theobroma cacao</i>
—	coconut	<i>Cocos nucifera</i>
—	olive	<i>Olea europaea</i>
—	sunflower	<i>Helianthus annuus</i>
—	palm	<i>Elaeis guineensis</i>
—	rape	<i>Brassica napus, rapa</i>
—	safflower	<i>Carthamus tinctorius</i>
—	sesame	<i>Sesamum indicum</i>

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

—	soya	<i>Glycine max</i>
---	------	--------------------

- 2.2. The following sugars, starches and other products from cereals and tubers: **U.K.**
- fructose
 - rice paper
 - unleavened bread paper
 - starch from rice and waxy maize, not chemically modified
- 2.3. Miscellaneous: **U.K.**
- pea protein *Pisum* spp.
 - rum, only obtained from cane sugar juice
 - kirsch prepared on the basis of fruits and flavourings as referred to in Article 27(1)(c).
3. ANIMAL PRODUCTS **U.K.**
- aquatic organisms, not originating from aquaculture, and permitted in no-organic foodstuffs preparation
- gelatin
 - whey powder ‘*herasuola*’
 - casings

ANNEX X **U.K.**

Species for which organically produced seed or seed potatoes are available in sufficient quantities and for a significant number of varieties in all parts of the Community referred to in Article 45(3)

ANNEX XI **U.K.**

Community logo, referred to in Article 57

A.A COMMUNITY LOGO

1. Conditions with regard to the presentation and use of the Community Logo **U.K.**
- 1.1. The Community logo referred to above shall comprise of the models in part B.2 of this Annex.
- 1.2. The indications that must be included in the logo are listed in part B.3 of this Annex. It is possible to combine the logo with the indication mentioned in the Annex Council Regulation (EC) No 834/2007.
- 1.3. To use the Community logo and the indications referred to in part B.3 of this Annex, the technical reproduction rules laid down in the graphic manual in part B.4 of this Annex must be complied with.
- B.2. Models **U.K.**

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Combinations of two indications referring to the languages mentioned under B.3.1. are authorised, subject of being developed in accordance with the following examples:

NL/FR: BIOLOGISCHE LANDBOUW — AGRICULTURE BIOLOGIQUE

FI/SV: LUONNONMUKAINEN MAATALOUSTUOTANTO — EKOLOGISKT JORDBRUK

FR/DE: AGRICULTURE BIOLOGIQUE — BIOLOGISCHE LANDWIRTSCHAFT

B.4. Graphic manual **U.K.**

CONTENTS

1. Introduction
2. General use of the logo
 - 2.1. Coloured logo (reference colours)
 - 2.2. Single-colour logo: logo in black and white
 - 2.3. Contrast with background colours
 - 2.4. Typography
 - 2.5. Language
 - 2.6. Reduction sizes
 - 2.7. Particular conditions to use the logo
3. Original Bromides
 - 3.1. Two-colour selection
 - 3.2. Outlines
 - 3.3. Single-colour: logo in black and white
 - 3.4. Colour samples sheets

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

1. INTRODUCTION **U.K.**

The graphic manual is an instrument for the operators to reproduce the logo.

2. GENERAL USE OF THE LOGO **U.K.**

2.1. Coloured logo (reference colours) **U.K.**

When the coloured logo is used, this logo must appear in colour by using direct colours (Pantone) or a four-coloured process. The reference colours are indicated herunder.

Logo in pantone

Logo in four-colour process

2.2. Single-colour logo: logo in black and white **U.K.**

The logo in black and white can be used as shown:

2.3. Contrast with background colours **U.K.**

If the logo is used in colour on coloured backgrounds which makes it difficult to read, use a delimiting outer circle around the logo to improve its contrast with the background colours as shown:

Logo in coloured background

2.4. Typography **U.K.**

Use Frutiger or Myriad bold condensed in capitals for the wording.

The letter size of the wording shall be reduced according to the norms set down in Section 2.6

2.5. Language **U.K.**

You are free to use the language version or versions of your choice according to the specifications indicated in B.3.

2.6. Reduction sizes **U.K.**

If the application of the logo on different types of labelling makes reduction necessary, the minimum size shall be:

- (a) For a logo with a single indication: minimum size 20 mm diameter.
- (b) For a logo with a combination of two indications: minimum size 40 mm diameter.

2.7. Particular conditions to use the logo **U.K.**

The use of the logo serves to confer specific value to the products. The most effective application of the logo is therefore in colour, since it will thus have a greater presence and be recognised more easily and quickly by the consumer.

The use of the logo using a single colour (black and white) as established in Section 2.2 is only recommended in cases where its application in colour is not practical.

3. ORIGINAL BROMIDES **U.K.**

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

- 3.1. Two-colour selection **U.K.**
- Single indication in all the languages
 - The examples of the language combinations referred to in B.3.2

- The examples of the language combinations referred to in B.3.2

- 3.2. Outlines **U.K.**

- 3.3. Single-colour: logo in black and white **U.K.**

- 3.4. Colour sample sheets **U.K.**

ANNEX XII **U.K.**

Model of documentary evidence to the operator according to Article 29(1) of Regulation (EC) No 834/2007 referred to in Article 68 of this Regulation

Documentary evidence to the operator according to Article 29(1) of Regulation (EC) No 834/2007

Document Number:

Name and address of operator: main activity (producer, processor, importer, etc):	Name, address and code number of control body/authority:
Product groups/Activity: — Plant and plant products: — Livestock and livestock products: — Processed products:	defined as: organic production, in-conversion products; and also non-organic production where parallel production/processing pursuant to Article 11 of Regulation (EC) No 834/2007 occurs
Validity period:	Date of control(s):

Status: Point in time view as at 01/01/2009.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 889/2008. (See end of Document for details)

Plant products from ...to...
Livestock products from ...to...
Processed products from ...to...

This document has been issued on the basis of Article 29(1) of Regulation (EC) No 834/2007 and of Regulation (EC) No 889/2008. The declared operator has submitted his activities under control, and meets the requirements laid down in the named Regulations.

Date, place:

Signature on behalf of the issuing control body/authority:

ANNEX XIII **U.K.**

Model of a vendor declaration referred to in Article 69

Vendor declaration according to Article 9(3) of Council Regulation (EC) No 834/2007

Name, address of vendor:

Identification (e.g. lot or stock number):

Product name:

Components:

(Specify all components existing in the product/used the last in the production process)

.....
.....
.....
.....
.....

I declare that this product was manufactured neither 'from' nor 'by' GMOs as those terms are used in Articles 2 and 9 of Council Regulation (EC) No 834/2007. I do not have any information which could suggest that this statement is inaccurate.

Thus, I declare that the above named product complies with Article 9 of Regulation (EC) No 834/2007 regarding the prohibition on the use of GMOs.

I undertake to inform our customer and its control body/authority immediately if this declaration is withdrawn or modified, or if any information comes to light which would undermine its accuracy.

I authorise the control body or control authority, as defined in Article 2 of Council Regulation (EC) No 834/2007, which supervises our customer to examine the accuracy of this declaration and if necessary to take samples for analytic proof. I also accept that this task may be carried out by an independent institution which has been appointed in writing by the control body.

The undersigned takes responsibility for the accuracy of this declaration.

Country, place, date, signature of vendor:

Company stamp of vendor (*if appropriate*):
