COMMISSION REGULATION (EC) No 1120/2009
of 29 October 2009

laying down detailed rules for the implementation of the single payment scheme provided for in Title III of Council Regulation (EC) No 73/2009 establishing common rules for direct support schemes for farmers under the common agricultural policy and establishing certain support schemes for farmers

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 73/2009 of 19 January 2009 establishing common rules for direct support schemes for farmers under the common agricultural policy and establishing certain support schemes for farmers, amending Regulations (EC) No 1290/2005, (EC) No 247/2006, (EC) No 378/2007 and repealing Regulation (EC) No 1782/2003⁽¹⁾ and in particular Articles 36, 39(2), 41(4), 43(3), 57(2), 68(7), 69(6), first subparagraph, point (a) and (7), fourth subparagraph, 71(6), second subparagraph, and (10), 142(c), (d), (f), (g), (h) and (q), 147 and 148 thereof,

Whereas:

- (1) Commission Regulation (EC) No 795/2004 of 21 April 2004 laying down detailed rules for the implementation of the single payment scheme provided for in Council Regulation (EC) No 1782/2003 establishing common rules for direct support schemes under the common agricultural policy and establishing certain support schemes for farmers⁽²⁾ has been substantially amended. Subsequently, Commission Regulation (EC) No 639/2009 of 22 July 2009 laying down detailed rules for the implementation of Council Regulation (EC) No 73/2009 as regards specific support⁽³⁾ was adopted. Since further amendments to Regulation (EC) No 795/2004 are to be made, it is appropriate, in the interests of clarity, to incorporate Regulations (EC) No 795/2004 and (EC) No 639/2009 into a single Regulation containing all detailed rules for the implementation of Title III of Regulation (EC) No 73/2009.
- (2) For reasons of legal certainty and clarity it is appropriate to provide for certain definitions. As regards short rotation coppice, it is appropriate to allow Member States to define suitable varieties in the light of their climatic and agronomic suitability for the territory.
- (3) Article 28 of Regulation (EC) No 73/2009 provides for minimum requirements to be respected, but the application of point (b) of the first subparagraph of Article 28(1) is not appropriate for farmers who are still receiving direct payments under certain coupled schemes but do not hold any hectares. By their nature the premiums for sheep and goat referred to in Title IV, Chapter 1, Section 10 of that Regulation or the beef and veal payment

referred to in Title IV, Chapter 1, Section 11 of that Regulation are such coupled schemes. Those farmers are in the same situation as farmers holding special entitlements and in order to ensure the full effectiveness of those schemes they should therefore be treated in the same way for the purposes of Article 28(1) of that Regulation as farmers holding special entitlements.

- (4) In order to facilitate the calculation of the unit value of the payment entitlements, clear rules should be laid down on the rounding-up of figures and for the possibility to split existing payment entitlements where the size of the parcel which is declared or transferred with the entitlement only amounts to a fraction of hectares and for rules to cover the merger of entitlements and fractions.
- (5) Article 51(1) of Regulation (EC) No 73/2009 allows for the deferred integration of fruit and vegetables into the single payment scheme. Appropriate rules to enable that deferral should be provided for. In particular, the third subparagraph of that provision allows Member States to revise the decision taken under Article 68b of Council Regulation (EC) No 1782/2003 ⁽¹⁾ in order to provide for more rapid integration into the single payment scheme. However, in the light of Article 38 of Regulation (EC) No 73/2009, in order for the third subparagraph of Article 51(1) of that Regulation to have effect, it is necessary for the areas concerned to be made eligible for the single payment scheme. Member States should therefore be able to revise the decision made pursuant to the second subparagraph of Article 51 of Regulation (EC) No 1782/2003.
- (6) Specific provisions for the management of the national reserve should be laid down.
- (7) Article 41(2) and (3) of Regulation (EC) No 73/2009 provide for optional cases of allocation of payment entitlements from the national reserve. It is appropriate to lay down rules for the calculation of the number and value of the payment entitlements to be allocated in such a way. In order to allow a certain flexibility for the Member States, which are in the best position to evaluate the situation of each farmer applying for such measures, the maximum number of entitlements to be allocated should not be higher than the number of hectares declared and its value should not be higher than an amount to be fixed by the Member State according to objective criteria.
- (8) Under certain circumstances farmers could hold more entitlements than land to activate them because of the expiry of a lease, including in the case of common use of forage area. Therefore it seems appropriate to provide for a mechanism that should ensure that support may continue to be granted to the farmer by concentrating it on the remaining available hectares. However, in order to avoid abuse of the mechanism, conditions for access to it should be laid down.

- (9) Pursuant to Regulation (EC) No 73/2009 the national reserve shall be replenished by unused entitlements or, on an optional basis, by retention on the sale of payment entitlements or on sales that have taken place before a certain date to be fixed by Member States when further decoupling takes place. It is therefore necessary to provide for a date after which the unused entitlements revert to the national reserve.
- (10) Where retention on the sale of payment entitlements is applied, maximum percentages and criteria for its application should be laid down and differentiated to take into account the type of transfer and the type of payment entitlement to be transferred. Such retentions should not however result in a substantial obstacle or prohibition of transfer of payment entitlements. In the case of regional application in the hybrid model however, the retention should not affect the basic regional value of payment entitlements but only the amounts linked to the historical references.
- (11) In order to facilitate the administration of the national reserve, it is appropriate to provide for its management at regional level except in the cases referred to in Article 41(2), or where applicable, Article 41(4) of Regulation (EC) No 73/2009, where Member States are obliged to allocate payment entitlements.
- (12) Article 33(2) of Regulation (EC) No 73/2009 provides that support under the single payment scheme shall be available to farmers by allocation or transfer of payment entitlements. In order to avoid changes of the legal status of the holding being used to evade the application of the rules on normal transfers of a holding with the attached reference amounts, conditions should be applied for anticipated inheritance or inheritance, merges and scissions.
- (13) Article 62(3) of Regulation (EC) No 73/2009 provides that a farmer in a new Member State which has introduced the single payment scheme may transfer his payment entitlements without land only after he has used, within the meaning of Article 34 of that Regulation, at least 80 % of his payment entitlements during at least one calendar year. In order to take into account of transfers of land that took place in the period before the application of the single payment scheme, it is justified to consider the transfer of holding or part of it together with the future payment entitlements as a valid transfer of the payment entitlements with land within the meaning of Article 43 of that Regulation, subject to conditions, in particular that the seller should apply for the establishment of the payment entitlements as far as that Regulation provides that only those who received the direct payment in the reference period should have access to the scheme.
- (14) Article 41(4) of Regulation (EC) No 73/2009 allows the Commission to define special situations giving right to the establishment of reference amounts for certain farmers finding themselves in situations which prevented them, in full or in part, from receiving direct payments in the reference period. It is therefore appropriate to list those special situations by providing for rules

▼B

in order to avoid cumulation of the benefit from different allocations of payment entitlements for the same farmer, without prejudice to the possibility for the Commission to add further cases if necessary. Moreover, Member States should be given the flexibility to establish the reference amount to be allocated.

- (15) Where a Member State, according to national law or well established usual practice, includes in the definition of long term lease also leases of 5 years, it is appropriate to allow them to apply this shorter term.
- (16) Where a farmer retires or dies and provides for the transfer of his holding or part of it to a member of the family or other heir who intends to continue the agricultural activity on this holding, it is appropriate to ensure that the transfer of the holding or part of it may easily take place, in particular, where the transferred land was leased to a third person during the reference period, without prejudging the possibility for the heir to continue the agricultural activity.
- (17) Farmers who made investments resulting in a potential increase of the amount in direct payments that they would have been granted if the single payment scheme had not been introduced or if the relevant sector had not been decoupled should also benefit from the allocation of entitlements. Specific rules should be provided for the calculation of the payment entitlements where a farmer already owns payment entitlements or has no hectares. In the same circumstances, farmers who bought or leased land or participated in national programmes of reconversion of production for which a direct payment under the single payment scheme could have been granted in the reference period would find themselves without payment entitlements whilst they acquired land or participated in such programmes in order to exercise an agricultural activity that could in the future still benefit from certain direct payments. Therefore it is also appropriate to provide for the allocation of payment entitlements in such cases.
- (18) For the good administration of the scheme, it is appropriate to provide for rules to cover transfers and to allow for modification of entitlements, in particular to allow for the merging of fractions.
- (19) Article 43(1) of Regulation (EC) No 73/2009 provides that a Member State may decide that payment entitlements may only be transferred or used within one and the same region. In order to avoid practical problems, specific rules should be provided for holdings situated in two or more regions.
- (20) Article 39 of Regulation (EC) No 73/2009 allows for the production of hemp under certain conditions. It is necessary to establish the list of eligible varieties as well as to provide for the certification of those varieties.

▼B

- (21) Specific rules should be provided for the calculation of the livestock unit in case of establishment of special entitlements by referring to the existing conversion table provided for in the beef, veal, sheep and goat sectors.
- (22) Where a Member State decides to make use of the option to regionalise the single payment scheme, specific provisions should be established in order to facilitate the calculation of the regional reference amount for holdings situated in between two or more regions, as well as in order to guarantee a full allocation of the regional amount in the first year of application of the scheme. Some of the provisions provided for by this Regulation, notably on the establishment of the national reserve, initial allocation of payment entitlements and transfer of payment entitlements should be adjusted in order to make them applicable in the regional model.
- (23) A common framework for specific solutions for certain situations occurring upon further decoupling should be created.
- (24) Chapter 5 of Title III of Regulation (EC) No 73/2009 provides for specific support to be granted to farmers. Detailed rules for the implementation of that Chapter should be laid down.
- (25) In accordance with Article 68(6) of Regulation (EC) No 73/2009, consistency between specific support granted under that Article and other Community support measures or measures financed by State aids is required. For orderly management of the schemes, similar measures should not be financed twice under both specific support and other Community support schemes. Due to the diversity of choices offered for implementing the specific support, the responsibility of ensuring the consistency should otherwise be left to the Member States according to the decision they take to implement specific support measures, within the framework laid down by Regulation (EC) No 73/2009 and in conformity with the conditions laid down in this Regulation.
- (26) Since farmers should always respect legal requirements, specific support should not compensate for complying with them.
- (27) Pursuant to Article 68(1)(a)(i) of Regulation (EC) No 73/2009, specific support may be granted for specific types of farming which are important for the protection or enhancement of the environment. In order to maintain discretion for Member States whilst ensuring that measures are well-managed, the responsibility of defining the specific types of farming should be assigned to the Member States, whilst the measures should nevertheless provide for non-negligible and measurable environmental benefits.
- (28) Pursuant to Article 68(1)(a)(ii) of Regulation (EC) No 73/2009, specific support may be granted for improving the quality of agricultural products. In order to assist Member States, an indicative list of conditions to be met should be laid down.

▼B

- (29) Pursuant to Article 68(1)(a)(iii) of Regulation (EC) No 73/2009, specific support may be granted for improving the marketing of agricultural products subject to Article 68(2)(c) of that Regulation which requires the support to satisfy the criteria laid down in Articles 2 to 5 of Council Regulation (EC) No 3/2008 of 17 December 2007 on information provision and promotion measures for agricultural products on the internal market and in third countries⁽¹⁾. Provision should be made to specify the content of the eligible measures as well as the applicable provisions of Commission Regulation (EC) No 501/2008 of 5 June 2008 laying down detailed rules for the application of Council Regulation (EC) No 3/2008 on information provision and promotion measures for agricultural products on the internal market and in third countries⁽²⁾.
- (30) Pursuant to Article 68(1)(a)(iv) of Regulation (EC) No 73/2009, specific support may be granted for practising enhanced animal welfare standards. In order to achieve enhanced animal welfare standards, provision should be made to assign Member States the responsibility for establishing a system allowing for an assessment of the plans of the applicant aiming at addressing various animal welfare aspects.
- (31) Pursuant to Article 68(1)(a)(v) of Regulation (EC) No 73/2009, specific support may be granted for specific agricultural activities entailing additional agri-environment benefits. Pursuant to Article 68(2)(a), the support may be granted in particular if it has been approved by the Commission. Therefore, provision should be made to specify the detailed framework to be complied with by Member States in establishing the eligibility criteria for the support. Provision should also be made for establishing the procedure of notification, assessment and approval of the measure by the Commission.
- (32) Pursuant to Article 68(1)(b) of Regulation (EC) No 73/2009, specific support may be granted to address specific disadvantages affecting farmers in specific sectors in economically vulnerable or environmentally sensitive areas or for economically vulnerable types of farming in those sectors. In order to maintain scope for Member States whilst ensuring that measures are well-managed, provision should be made to assign Member States the responsibility of defining the areas and/or types of farming eligible for support and fixing the appropriate level. In order to avoid market distortions, the payments should not however be based on fluctuations of market prices or be equivalent to a deficiency payments system whereby agricultural domestic support is paid by Member States to farmers based on the difference between a target price and a domestic market price.

- (33) Pursuant to Article 68(1)(c) of Regulation (EC) No 73/2009, specific support may be granted in areas subject to restructuring and/or development programs in order to ensure against land abandonment and/or to address specific disadvantages for farmers in those areas. Provision should be made in particular as regards the establishment of reference amounts per eligible farmer, the allocation of payment entitlements and the calculation of the increase of their value as well as regarding the control of the programmes by the Member States which should follow those laid down for the allocation of amounts from the national reserve in the interests of coherence.
- (34) Pursuant to Article 68(1)(d) of Regulation (EC) No 73/2009, specific support may be granted in the form of contributions to crop, animal and plant insurance premiums. A minimum framework should be established within which the Member States shall lay down rules in accordance with their national laws defining the way financial contribution to the premiums for crop, animal and plant insurance is allocated in order to ensure that contributions are maintained at an appropriate level whilst the interests of the farming community are safeguarded.
- (35) Article 68(1)(e) of Regulation (EC) No 73/2009 provides a significant level of detail on the provision of specific support aimed at compensating farmers for certain economic losses in the event of animal or plant diseases and environmental incidents by way of financial contributions to mutual funds. A minimum framework should be established within which the Member States shall lay down rules in accordance with their national laws defining the way financial contribution to mutual funds is organised in order to ensure that contributions are maintained at an appropriate level whilst the interests of the farming community are safeguarded.
- (36) Amounts referred to in Article 69(6)(a) of Regulation (EC) No 73/2009 are to be calculated by the Commission in accordance with paragraph 7 of that Article. Therefore, provision should be made to fix for each Member State the amounts concerned as well as the conditions applicable for the revision of those amounts by the Commission.
- (37) Article 46 of Regulation (EC) No 73/2009 provides that Member States shall define the regions in accordance with objective criteria and Article 47 of that Regulation provides that Member States may proceed to a regionalisation of the single payment scheme in duly justified cases and in accordance with objective criteria. It is therefore appropriate to provide for the communication of all the necessary data and information before the applicable deadlines.
- (38) Dates for the notification to Commission should be fixed for cases where a Member State decides to apply any of the options provided for in Articles 28(1) and (2), 38, 41(2) to (5), 45(1) and (3), 46(1) and (3), 47(1) to (4), 49, 51(1), 67(1), 68 to 72 and 136 of Regulation (EC) No 73/2009.

▼B

- (39) In order to assess the application of the single payment scheme, it is appropriate to establish the detailed rules and deadlines for the exchange of information between the Commission and the Member States and to inform the Commission of the areas for which the aid has been paid, at national, and, where the case may be, at regional level.
- (40) Regulations (EC) No 795/2004 and (EC) No 639/2009 should therefore be repealed.
- (41) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Direct Payments,

HAS ADOPTED THIS REGULATION:

TITLE I

SCOPE AND DEFINITIONS

*Article 1***Subject matter and scope**

This Regulation lays down detailed rules for the implementation of the single payment scheme provided for in Title III of Regulation (EC) No 73/2009.

▼BTITLE II
IMPLEMENTATIONCHAPTER 1
General provisions

Section 1

Activation of entitlements and eligibility of land*Article 3***Inheritance and anticipated inheritance**

1. Where inheritance or anticipated inheritance would affect the allocation of payment entitlements, the farmer who has received the holding or part of the holding shall claim, in his name, the payment entitlements to be calculated for the holding or part of the holding received.

The reference amount shall be established on the basis of the production units inherited.

2. In cases of revocable anticipated inheritance, the access to the single payment scheme shall be given only once to the designated inheritant by the date for lodging an application for the payment under the single payment scheme.

Succession under a contract lease or inheritance or anticipated inheritance from a farmer who is a natural person and who was a lessee of a holding or part of it, in the relevant reference period, which would give right to payment entitlements or increase of the value of payment entitlements, shall be treated as the inheritance of a holding.

3. In cases where a farmer referred to in paragraph 1 is already entitled to payment entitlements or an increase of the value of payment entitlements, the reference amount shall be established on the basis of, respectively, the sum of the reference amounts relating to his original holding and the inherited production units.

4. For the purposes of this Regulation, the definition in the national legislation for 'inheritance' and 'anticipated inheritance' shall be used.

*Article 4***Changes in legal status or denomination**

In the case of changes of legal status or denomination, the farmer shall have access to the single payment scheme under the same conditions as the farmer originally managing the holding within the limit of the payment entitlements held by the original holding, or in the case of allocation of entitlements or increase of the value of payment entitlements within the limits applicable for allocations to the original holding.

▼B

In the case of changes of the legal status of a legal person or from a natural person to a legal person or from a legal person to a natural person, the farmer managing the new holding shall be the farmer who was in control of the original holding in terms of management, benefits and financial risks.

*Article 5***Mergers and scissions**

Where a case of merger or scission would affect the allocation of payment entitlements or increase of the value of payment entitlements, the farmer or farmers managing the new holding or holdings shall have access to the single payment scheme under the same condition as the farmer or farmers managing the original holding or holdings.

The reference amount shall be established on the basis of the production units relating to the original holding or holdings.

*Article 6***Minimum requirements**

For the purposes of Article 28(1) of Regulation (EC) No 73/2009, farmers receiving the premiums for sheep and goat referred to in Title IV, Chapter 1, Section 10 of that Regulation or the beef and veal payment referred to in Title IV, Chapter 1, Section 11 of that Regulation, who hold fewer hectares than the threshold selected by a Member State shall be treated in the same way as farmers holding special entitlements referred to in Article 44(1) of that Regulation.

*Article 7***Calculation of the unit value of payment entitlements**

1. Payment entitlements shall be calculated up to three decimals and rounded up or down to the nearest second decimal. If the calculation gives a result which is exactly half-way, the sum shall be rounded up to the nearest second decimal.

2. Where the size of a parcel which is transferred with an entitlement in accordance with Article 43 of Regulation (EC) No 73/2009 amounts to a fraction of a hectare, the farmer may transfer the part of the entitlement concerned with the land at a value calculated to the extent of the same fraction. The remaining part of the entitlement shall remain at the disposal of the farmer at a value calculated correspondingly.

Without prejudice to Article 43(2) of that Regulation, if a farmer transfers a fraction of an entitlement without land the value of the two fractions shall be calculated proportionally.

▼B

3. Member States may modify payment entitlements by merging fractions of entitlements of the same type owned by a farmer. Paragraph 1 shall apply to the result of such a merger.

*Article 8***Declaration and use of payment entitlements**

1. Payment entitlements may only be declared for payment once per year by the farmer who holds them at the latest date for lodging the single application in accordance with Article 11 of Commission Regulation (EC) No 1122/2009 ⁽¹⁾.

However, where a farmer makes use of the possibility to amend the single application in accordance with Article 14 of that Regulation, he may also declare payment entitlements which he holds at the date of his notification of the amendments to the competent authority provided that the payment entitlements concerned are not declared by another farmer in respect of the same year.

Where the farmer acquires the payment entitlements concerned by way of a transfer from another farmer and where that other farmer had already declared those payment entitlements, the additional declaration of those payment entitlements shall only be admissible if the transferor has already informed the competent authority of the transfer in accordance with Article 12 of this Regulation and withdraws those payment entitlements from his own single application, within the applicable time-limits set out in Article 14 of Regulation (EC) No 1122/2009.

2. Where a farmer, after having declared parcels corresponding to all his available whole payment entitlements under Article 35(1) of Regulation (EC) No 73/2009, still disposes of a parcel which amounts to a fraction of a hectare, he may declare a further whole payment entitlement which shall give right to a payment calculated pro rata to the size of the parcel. However, the payment entitlement shall be deemed as fully used for the purposes of Article 42 of that Regulation.

*Article 9***Predominantly agricultural use**

For the purposes of Article 34(2)(a) of Regulation (EC) No 73/2009, where an agricultural area of a holding is used as well for non-agricultural activities that area shall be considered as being used predominantly for agricultural activities, if the agricultural activity can be exercised without being significantly hampered by the intensity, nature, duration and timing of the non-agricultural activity.

Member States shall establish criteria for the implementation of the first subparagraph on their territory.

1. Payment entitlements may be transferred at any time of the year.
2. The transferor shall inform the competent authority of the Member State where the transfer will operate within a period to be established by that Member State.
3. A Member State may require that the transferor shall communicate the transfer to the competent authority of the Member State where the transfer will operate, within a time period to be established by that Member State but not earlier than six weeks before the transfer takes place and taking into account the last date for lodging an application under the single payment scheme. The transfer shall take place as foreseen in the communication unless the competent authority objects to the transfer and notifies the transferor thereof within that time period.

⁽¹⁾ OJ L 193, 20.7.2002, p. 1.

⁽²⁾ OJ L 193, 20.7.2002, p. 74.

▼B

The competent authority may only object to a transfer where the latter is not in accordance with provisions of Regulation (EC) No 73/2009 and of this Regulation.

4. For the purposes of Article 62(3) of Regulation (EC) No 73/2009, the percentage of the payment entitlements the farmer has used shall be calculated on the number of payment entitlements allocated to him in the first year of application of the single payment scheme, with the exception of payment entitlements sold with land, and must be used during one calendar year.

*Article 13***Regional limitation**

1. Without prejudice to Articles 50(1) and 62(1) of Regulation (EC) No 73/2009, where a Member State makes use of the option provided for in the third subparagraph of Article 43(1) of that Regulation, Member States shall define the region at the appropriate territorial level in accordance with objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortion.

2. The Member State shall define the region referred to in paragraph 1 at the latest one month before the date fixed by the Member State pursuant to Article 35 of Regulation (EC) No 73/2009 in the first year of application of the option provided for in the third subparagraph of Article 43(1) of that Regulation.

A farmer, whose holding is situated in the region concerned, may not transfer or use outside that region his payment entitlements corresponding to the number of hectares which he declared in the first year of application of the option provided for in the third subparagraph of Article 46(1) of Regulation (EC) No 1782/2003 or which he declares in the first year of application of the option provided for in Article 43(1) of Regulation (EC) No 73/2009.

A farmer, whose holding is partly situated in the region concerned, may not transfer or use outside that region his payment entitlements corresponding to the number of hectares, situated in that region, which he declares in the first year of application of the option.

3. The limitation to the transfer of payment entitlements referred to in the third subparagraph of Article 43(1) of Regulation (EC) No 73/2009 shall not apply in case of actual or anticipated inheritance of payment entitlements without an equivalent number of eligible hectares.

Section 4**Special entitlements***Article 14***Calculation of livestock units for special entitlements**

1. For the purposes of Article 44(2)(a) of Regulation (EC) No 73/2009, the agricultural activity carried out in the reference period expressed in livestock units (LU) shall be the one which was calculated in accordance with Article 30 of Regulation (EC) No 795/2004.

▼B

2. For the purposes of Article 65 of Regulation (EC) No 73/2009 and of calculating the agricultural activity carried out during the application of Articles 67 and 68 of Regulation (EC) No 1782/2003 expressed in LU referred to in Article 44(2)(c) of Regulation (EC) No 73/2009, the following conversion table shall apply to the average number of animals determined for the granting of a direct payment referred to in Articles 67 and 68 of Regulation (EC) No 1782/2003 in the relevant reference period:

Male bovine animals and heifers older than 24 months, suckler cows, dairy cows	1,0 LU
Male bovine animals and heifers from six months to 24 months	0,6 LU
Male, female bovine animals of less than six months	0,2 LU
Sheep	0,15 LU
Goat	0,15 LU

In case of slaughter premium, where the necessary data regarding the age of the animals are not available, a Member State may convert bulls, steers, cows and heifers in LU by using the coefficient 0,7 and calves by using the coefficient 0,25.

Where the same animal benefited from several premiums, the coefficient applicable shall be the average of the coefficient applicable to the different premiums.

3. The number of LU referred to in paragraphs 1 and 2 shall be calculated pro rata to the payment entitlements for which the farmer does not have hectares in the year of integration of the coupled support scheme into the single payment scheme or of implementation of the single payment scheme and for which the farmer requests the allocation of entitlements subject to special conditions. It shall apply starting from the payment entitlements at the lowest value.

This request shall be made only in the first year of integration of the coupled support scheme into the single payment scheme or of implementation of the single payment scheme. Member States shall fix the date for the request. It may be renewed in the following years for the same number of special entitlements referred to in Article 44 of Regulation (EC) No 73/2009 in the previous year or, in case of transfer of some of those payment entitlements, or in case of declaration of some of those payment entitlements with a corresponding number of hectares, for the remaining of those payment entitlements.

In these cases, the number of LU shall be recalculated pro rata to the remaining payment entitlements for which the farmer requests the special conditions.

No request to re-establish the conditions referred to in Article 44 of Regulation (EC) No 73/2009 may be introduced for those payment entitlements once they have been declared with an equivalent number of hectares or they have been transferred, without prejudice to Article 44(3) of Regulation (EC) No 73/2009.

▼B

4. In order to check that the minimum agricultural activity expressed in LUs is respected, Member States shall use the conversion table provided for in paragraph 2 and determine the number of animals in accordance with one of the following methods:

- (a) Member States shall ask each producer to declare, on the basis of his farm register, prior to a date to be determined by the Member State but not later than the date of payment, the number of LUs; and/or
- (b) Member States shall use the computerised database set up in accordance with Regulation (EC) No 1760/2000 of the European Parliament and of the Council ⁽¹⁾ to determine the number of LUs on condition that the database offers, to the satisfaction of the Member State, adequate assurances as to the accuracy of the data it contains for the purposes of the single payment scheme.

5. The minimum agricultural activity requirement shall be deemed to be respected when the number of LUs reaches 50 % during a period or at certain dates to be determined by the Member States. All the animals sold or slaughtered during the calendar year concerned shall be taken into account.

6. Member States shall take the measures necessary to apply Article 30 of Regulation (EC) No 73/2009 in the case of producers who, by means of abnormally high numbers of LUs during part of the year, artificially create the conditions required to respect the minimum agricultural activity.

*CHAPTER 2**National reserve*

Section 1

Reversion to the national reserve*Article 15***Unused payment entitlements**

1. Except in cases of *force majeure* or exceptional circumstances, unused payment entitlements shall be deemed to have reverted to the national reserve on the day following the last day for modifying the application under the single payment scheme in the calendar year in which the period referred to in Articles 28(3) and 42 of Regulation (EC) No 73/2009 expires.

A payment entitlement shall be considered to be unused where no payment has been granted for that entitlement during the period referred to in the first subparagraph. Payment entitlements for which an application is made and accompanying an area determined within the meaning of Article 2(23) of Regulation (EC) No 1122/2009 shall be deemed to have been used.

Where the area determined for the purposes of the single payment scheme is less than the area declared, the following shall apply to determine which of the payment entitlements have to be returned to the national reserve in accordance with Article 42 of Regulation (EC) No 73/2009:

- (a) the area determined shall be taken into account starting with the payment entitlements having the highest value;

⁽¹⁾ OJ L 204, 11.8.2000, p. 1.

▼B

(b) the payment entitlements with the highest value shall be attributed to that area first, followed by those with the next lower value.

2. Farmers may give up payment entitlements to the national reserve voluntarily.

*Article 16***Retention on sale of payment entitlements**

1. Where a Member State makes use of the option provided for in Article 43(3) of Regulation (EC) No 73/2009, the Member State may decide that it shall revert to the national reserve:

(a) in case of sale of payment entitlements without land, up to 30 % of the value of each payment entitlement or the equivalent amount expressed in number of payment entitlements. However during the first 3 years of application of the single payment scheme, the percentage of 30 % may be replaced by 50 %; and/or

(b) in case of sale of payment entitlements with land, up to 10 % of the value of each payment entitlement or the equivalent amount expressed in number of payment entitlements; and/or

(c) in case of sale of payment entitlements with an entire holding, up to 5 % of the value of each payment entitlement and/or the equivalent amount expressed in number of payment entitlements.

In case of sale of payment entitlements with or without land to a farmer who commences his agricultural activity and in case of actual or anticipated inheritance of payment entitlements no retention shall apply.

2. When fixing the percentages referred to in paragraph 1, a Member State may differentiate the percentage within any of the cases referred to in points (a), (b) and (c) of paragraph 1 in accordance with objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortion.

3. Where a Member State having regionalised the single payment scheme in accordance with Article 59(1) of Regulation (EC) No 1782/2003 or making use of the option provided for in Article 48(1) of Regulation (EC) No 73/2009, decides to make use of the option provided for in Article 43(3) of Regulation (EC) No 73/2009, the percentages of reduction provided for in paragraphs 1 and 2 of this Article shall apply after deduction from the value of the payment entitlements of a franchise equal to the regional unit value calculated in accordance with Article 59(2) or (3) of Regulation (EC) No 1782/2003 or with Article 46(2) and (3) of Regulation (EC) No 73/2009.

Section 2

Allocation of payment entitlements from the national reserve

Article 17

Establishment of payment entitlements

1. Where a Member State makes use of the options provided for in Article 41(2) and (3) of Regulation (EC) No 73/2009, farmers may receive, in accordance with the conditions laid down in this Section and in accordance with the objective criteria laid down by the Member State concerned, payment entitlements from the national reserve.

2. When a farmer who does not own any payment entitlement applies for payment entitlements from the national reserve, he may receive a number of payment entitlements not higher than the number of hectares he holds (owned or leased) at that time.

3. When a farmer who owns payment entitlements applies for payment entitlements from the national reserve, he may receive a number of payment entitlements not higher than the number of hectares he holds for which he does not own any payment entitlement.

The unit value of each payment entitlement he already owns may be increased.

4. The value of each payment entitlement received in accordance with paragraph 2 or 3, except the second subparagraph of paragraph 3, shall be calculated by dividing a reference amount, established by the Member State, in accordance with objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortion, by the number of entitlements to be allocated.

Article 18

Application of Article 41(3) of Regulation (EC) No 73/2009 in the case of fewer hectares than payment entitlements

1. Where a Member State makes use of the option provided for in Article 41(3) of Regulation (EC) No 73/2009, it may in particular allocate, upon request, in accordance with this Article, payment entitlements to farmers, in the areas concerned, who declare fewer hectares than the number corresponding to payment entitlements they had been allocated in accordance with Articles 43 and 59 of Regulation (EC) No 1782/2003.

In that case, the farmer shall give up to the national reserve all the payment entitlement he owns or should have been allocated, except payment entitlements subject to conditions referred to in Article 44 of Regulation (EC) No 73/2009.

For the purposes of this Article, 'payment entitlements' shall mean only the payment entitlements allocated by the Member State in the first year of application of the single payment scheme including any year of integration of coupled support.

▼B

2. The number of payment entitlements allocated from the national reserve shall be equal to the number of hectares the farmer declares in the year of the request.
3. The unit value of the payment entitlements allocated from the national reserve shall be calculated by dividing the farmer's reference amount by the number of hectares he declares.
4. Paragraphs 1, 2, and 3 shall not apply to a farmer who declares less than 50 % of the total number of hectares, which he held (leased and owned) in the reference period.
5. For the purposes of paragraphs 1, 2, and 3, hectares transferred by sale or by lease, and not replaced by a corresponding number of hectares, shall be included in the number of hectares which the farmer declares.
6. The farmer concerned shall declare all the hectares he holds at the time of the request.

*Article 19***General provisions for farmers in a special situation**

1. For the purposes of Article 41(4) of Regulation (EC) No 73/2009, 'farmers in a special situation' shall mean the farmers referred to in Articles 20 to 23 of this Regulation.
2. In cases where a farmer in a special situation meets the condition for applying two or more of Articles 20, 21 and 22, he shall receive a number of payment entitlements established in accordance with Article 17(2) and (3) and whose value shall be the highest value he may obtain by applying separately each of the Articles for which he meets the conditions.

In the case where a farmer also benefits from allocation of entitlements under ►**M1** Article 17 ◀ the total number of entitlements to be allocated shall not exceed the number fixed in accordance with that Article.

3. In cases where the lease referred to in Articles 20 and 22 expires after the last date for lodging an application under the single payment scheme in its first year of application, the farmer concerned may apply for the establishment of his payment entitlements, after the expiry of the lease, by a date to be fixed by the Member State but not later than the latest date fixed for amending the aid application in the following year.
4. Where, in accordance with their national law or well-established usual practice, the definition of long term lease also includes lease for five years, Member States may decide to apply Articles 20, 21 and 22 to those leases.

Article 20

Transfer of leased land

1. A farmer who received, by transfer, either by sale or by lease for six or more years, free of charge or at a symbolic price or by way of actual or anticipated inheritance, a holding or part of a holding, that was leased to a third person during the reference period, from a farmer who retired from agricultural activity or died before the date for lodging an application under the single payment scheme in its first year of application, may receive payment entitlements calculated by dividing a reference amount, established by the Member State, in accordance with objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortion, by a number of hectares not higher than the number of hectares of the holding or part of the holding he received.

2. Farmers referred to in paragraph 1 shall be any person who may receive the holding or part of the holding referred to in paragraph 1, by way of actual or anticipated inheritance.

Article 21

Investments

1. Member States may increase the value or allocate payment entitlements to farmers having invested in a sector which is subject to integration into the single payment scheme under Chapter 4 of Title III of Regulation (EC) No 73/2009, in accordance with objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortion.

When establishing the criteria referred to in the first subparagraph, Member States shall take into account reference period and/or other criteria used for integration of the relevant sector.

2. Paragraph 1 shall apply *mutatis mutandis* in the case of the termination of application of the single area payments scheme under Article 122 of Regulation (EC) No 73/2009.

Article 22

Lease and purchase of leased land

1. A farmer who leased, either between the end of the relevant reference period for the introduction of the single payment scheme and 15 May 2004 as regards the introduction of the single payment scheme before 2009, or before 31 January 2009 in case of application of Chapter 3 of Title III of Regulation (EC) No 73/2009, for six or more years a holding or part of it whose lease conditions may not be adjusted, may receive payment entitlements calculated by dividing a reference amount, established by the Member State, in accordance with objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortion, by a number of hectares not higher than the number of hectares he leased.

▼B

When establishing the criteria referred to in the first subparagraph, Member States shall take into account, in particular, situations where farmers do not have at their disposal hectares other than leased hectares.

2. Paragraph 1 shall apply to a farmer who bought, as regards the introduction of the single payment scheme before 2009 either in the reference period for its introduction or before 15 May 2004, or, in case of application of Chapter 3 of Title III of Regulation (EC) No 73/2009, before 31 January 2009, a holding or part of it whose land was under a lease during the relevant reference period, and who is commencing or expanding his agricultural activity within one year after the expiry of the lease.

For the purposes of the first subparagraph, 'land under a lease' shall mean land which was, at the time of, or after the purchase under a lease which has never been renewed except when the renewal was imposed by a legal obligation.

*Article 23***Administrative acts and court's rulings**

Where a farmer should be entitled to receive payment entitlements or increase the value of the existing ones by virtue of a definitive court's ruling or by virtue of a definitive administrative act of the competent authority of a Member State, the farmer shall receive the number and value of payment entitlements established in that ruling or act at a date to be fixed by the Member State but not later than the latest date for lodging an application under the single payment scheme following the date of the ruling or the act and taking into account the application of Article 34 and/or Article 35 of Regulation (EC) No 73/2009.

Section 3**Regional administration***Article 24***Regional reserves**

1. Member States may administer the national reserve at regional level.

In that case, Member States shall allocate, in full or in part, the amounts available at national level to the regional level in accordance with objective and non-discriminatory criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortion.

2. The amounts allocated to each regional level may be considered available for allocation within the region concerned only, except in cases referred to in Article 41(4) of Regulation (EC) No 73/2009 or, according to the Member State's choice, in the case of application of Article 41(2) of that Regulation.

TITLE III

ALLOCATION OF PAYMENT ENTITLEMENTS

CHAPTER 1

*General provisions**Article 25***Applications**

1. The value and number or increase of payment entitlements allocated on the basis of the application from the farmer may be provisional. The definitive value and number shall be established by the 1 April of the year following the first year of application of the single payment scheme or of integration of coupled support at the latest, after relevant checks made pursuant to Article 20 of Regulation (EC) No 73/2009 are carried out.

2. Farmers may introduce, subject to the definitive establishment of entitlements, applications under the single payment scheme on the basis of provisional entitlements or if a Member State makes use of the option provided for in Articles 26 and 27, entitlements acquired under the private contract clauses referred to in those Articles.

3. The applicant shall prove to the satisfaction of the Member State that, at the date of application for the payment entitlements, he is a farmer within the meaning of Article 2(a) of Regulation (EC) No 73/2009.

4. A Member State may decide to fix a minimum size per holding in terms of agricultural area for which the establishment of payment entitlements may be requested. However, the minimum size shall not be higher than the limits set in accordance with Article 28(1)(b) of Regulation (EC) No 73/2009.

No minimum size shall be fixed for the establishment of the special entitlements referred to in Article 60 or 65 of Regulation (EC) No 73/2009 as provided for by Article 28(1) of that Regulation.

*Article 26***Private contract clause in case of sale**

1. Where a sales contract concluded or modified no later than the date for lodging an application for allocation of entitlements either in the first year of application of the single payment scheme or in the year of integration of coupled support stipulates that all or part of the holding is sold, in full or in part, together with the payment entitlements or the increase of the value of payment entitlements to be allocated in respect of the hectares or the part of the holding transferred, the Member State may consider the sales contract as a transfer of the payment entitlements with land.

2. The seller shall apply for the allocation or increase of the payment entitlements, adding to his application a copy of the sale contract and indicating the production units and the number of hectares for which he intends to transfer the payment entitlements.

▼B

3. A Member State may allow the buyer to apply on behalf of the seller and with the explicit authorisation of the seller for the allocation of the payment entitlements. In this case the Member State shall verify that the seller fulfils at the date of the transfer the eligibility criteria and in particular the condition referred to in Article 25(3). The buyer shall apply for payment under the single payment scheme, adding to his application a copy of the sales contract.

4. A Member State may require that the applications of the buyer and of the seller are lodged together or that the second application contains a reference to the first one.

*Article 27***Private contract clause in case of lease**

1. A clause in a lease contract providing for the transfer of a number of entitlements not higher than the number of hectares leased may be considered as a lease of the payment entitlements with land within the meaning of Article 43(2) of Regulation (EC) No 73/2009, in cases where:

- (a) a farmer has leased to another farmer his holding or part of it no later than the date for lodging an application under the single payment scheme in its first year of application or in the year of integration of coupled support;
- (b) the lease contract expires later than the last date for lodging an application under the single payment scheme; and
- (c) he decides to lease his payment entitlements to the farmer to whom he leased the holding or part of it.

2. The lessor shall apply for the allocation or increase of the payment entitlements, adding to the application a copy of the lease contract and indicating the number of hectares for which he intends to lease the payment entitlements.

3. The lessee shall apply for payment under the single payment scheme, adding to the application a copy of the lease contract.

4. A Member State may require that the applications of the lessee and of the lessor are lodged together or that the second application contains a reference to the first one.

*CHAPTER 2****Implementation of the single payment scheme in the new Member States having applied the single area payment scheme****Article 28***General provisions**

1. Save as otherwise provided for in this Chapter, this Regulation shall apply to the new Member States having applied the single area payment scheme.

▼B

2. Any reference in this Regulation to Article 41 of Regulation (EC) No 73/2009 shall be construed as a reference to Article 57 of that Regulation.

3. For the purposes of Article 57(3) of Regulation (EC) No 73/2009 the new Member State may set a representative period which is preceding the first year of application of the single payment scheme.

4. Any references in this Regulation to the 'reference period' shall be construed as a reference to the first year of application of the single payment scheme or to the reference period set under Article 59(3) of Regulation (EC) No 73/2009.

*Article 29***Initial allocation of payment entitlements**

1. Without prejudice to Article 59(3) of Regulation (EC) No 73/2009, for the purposes of Article 59(2) of that Regulation, new Member States shall establish the number of eligible hectares referred to in that paragraph by using the number of hectares declared for the establishment of the payment entitlements in the first year of application of the single payment scheme.

2. By way of derogation from paragraph 1, new Member States may establish the number of eligible hectares referred to in Article 59(2) of Regulation (EC) No 73/2009 by using the number of hectares declared for the year preceding the first year of application of the single payment scheme.

In cases where the number of eligible hectares declared by farmers in the first year of application of the single payment scheme is lower than the number of eligible hectares established in accordance with the first subparagraph, a new Member State may re-allocate, in part or in full, the amounts corresponding to the hectares which have not been declared as a supplement to each payment entitlement allocated in the first year of application of the single payment scheme. The supplement shall be calculated by dividing the amount concerned by the number of payment entitlements allocated.

3. Where a Member State makes use of the option provided for in Article 59(3) of Regulation (EC) No 73/2009 it may, starting from the calendar year preceding the first year of application of the single payment scheme, proceed to the identification of the eligible farmers and the provisional establishment of the number of hectares referred to in that paragraph and to a preliminary verification of the conditions referred to in Article 25(3) of this Regulation.

Without prejudice to Article 61 of Regulation (EC) No 73/2009, the value of the entitlements shall be calculated by dividing the amount referred to in Article 59(1) of that Regulation with the total number of entitlements allocated under this paragraph.

4. The farmer shall be informed about the provisional entitlements at least one month before the deadline for application determined in accordance with Article 56(1) of Regulation (EC) No 73/2009.

▼B

For the purpose of calculating the agricultural activity expressed in livestock units (LU) referred to in Article 44(2)(b) of Regulation (EC) No 73/2009, the number of animals held by the farmer in a period set by the Member State shall be converted to LU by reference to the conversion table provided for in Article 14(2). For the purpose of checking the minimum agricultural activity in new Member States under Article 44(2)(b) of Regulation (EC) No 73/2009, Article 14(4), (5) and (6) shall apply.

*CHAPTER 3**Integration of coupled support*

Section 1

Integration of the fruit and vegetable sector in the single payment scheme*Article 30***General rules**

1. For the purpose of the establishment of the amount and the determination of payment entitlements in the framework of the integration of the fruit and vegetable sector in the single payment scheme, Section A of Annex IX to Regulation (EC) No 73/2009 shall apply subject to Article 31 of this Regulation and, if the Member State made use of the option provided for in Article 59 of Regulation (EC) No 1782/2003, subject to Article 32 of this Regulation.

2. As the case may be, Article 40 of Regulation (EC) No 73/2009 shall apply to the value of all the payment entitlements existing before the integration of fruit and vegetable support and to the reference amounts calculated for fruit and vegetables support.

3. For the purposes of this Regulation in relation to the fruit and vegetables sector, the first year of application of the single payment scheme shall be the year of the determination by the Member State of the amounts and eligible hectares as referred to in Section A of Annex IX to Regulation (EC) No 73/2009, taking account of the optional transitional three year period referred to in the second subparagraph of point 2 of that point.

*Article 31***Specific rules**

1. If the farmer does not own payment entitlements or only owns special entitlements by the last date for applying for the establishment of payment entitlements, he shall receive payment entitlements calculated in accordance with Section A of Annex IX to Regulation (EC) No 73/2009 for fruit and vegetables.

The first subparagraph shall also apply when the farmer has leased in payment entitlements between the first year of the application of the single payment scheme and the year of the integration of the fruit and vegetable sector.

▼B

2. If the farmer has been allocated or has bought or received payment entitlements by the last date for applying for the establishment of payment entitlements, the value and number of the payment entitlements he owns shall be recalculated as follows:

- (a) the number of payment entitlements shall be equal to the number of payment entitlements he owns, increased by the number of hectares established in accordance with point 3 of Section A of Annex IX to Regulation (EC) No 73/2009 for fruit and vegetables, ware potatoes and nurseries;
- (b) the value shall be obtained by dividing the sum of the value of the payment entitlements he owns and the reference amount calculated in accordance with point 2 of Section A of Annex IX to Regulation (EC) No 73/2009 for fruit and vegetables by the number established in accordance with point (a) of this paragraph.

Special entitlements shall not be taken into account in the calculation referred to in this paragraph.
