COUNCIL REGULATION (EC) No 207/2009

of 26 February 2009

on the [^{F1}European Union trade mark]

(codified version)

(Text with EEA relevance) (repealed)

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 308 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament⁽¹⁾,

Whereas:

- (1) Council Regulation (EC) No 40/94 of 20 December 1993 on the Community trade mark⁽²⁾ has been substantially amended several times⁽³⁾. In the interests of clarity and rationality the said Regulation should be codified.
- (2) It is desirable to promote throughout the Community a harmonious development of economic activities and a continuous and balanced expansion by completing an internal market which functions properly and offers conditions which are similar to those obtaining in a national market. In order to create a market of this kind and make it increasingly a single market, not only must barriers to free movement of goods and services be removed and arrangements be instituted which ensure that competition is not distorted, but, in addition, legal conditions must be created which enable undertakings to adapt their activities to the scale of the Community, whether in manufacturing and distributing goods or in providing services. For those purposes, trade marks enabling the products and services of undertakings to be distinguished by identical means throughout the entire Community, regardless of frontiers, should feature amongst the legal instruments which undertakings have at their disposal.
- (3) For the purpose of pursuing the Community's said objectives it would appear necessary to provide for Community arrangements for trade marks whereby undertakings can by means of one procedural system obtain Community trade marks to which uniform protection is given and which produce their effects throughout the entire area of the Community. The principle of the unitary character of the Community trade mark thus stated should apply unless otherwise provided for in this Regulation.
- (4) The barrier of territoriality of the rights conferred on proprietors of trade marks by the laws of the Member States cannot be removed by approximation of laws. In order

to open up unrestricted economic activity in the whole of the internal market for the benefit of undertakings, trade marks should be created which are governed by a uniform Community law directly applicable in all Member States.

- (5) Since the Treaty has not provided the specific powers to establish such a legal instrument, Article 308 of the Treaty should be applied.
- (6) The Community law relating to trade marks nevertheless does not replace the laws of the Member States on trade marks. It would not in fact appear to be justified to require undertakings to apply for registration of their trade marks as Community trade marks. National trade marks continue to be necessary for those undertakings which do not want protection of their trade marks at Community level.
- (7) The rights in a Community trade mark should not be obtained otherwise than by registration, and registration should be refused in particular if the trade mark is not distinctive, if it is unlawful or if it conflicts with earlier rights.
- (8) The protection afforded by a Community trade mark, the function of which is in particular to guarantee the trade mark as an indication of origin, should be absolute in the case of identity between the mark and the sign and the goods or services. The protection should apply also in cases of similarity between the mark and the sign and the goods or services. An interpretation should be given of the concept of similarity in relation to the likelihood of confusion. The likelihood of confusion, the appreciation of which depends on numerous elements and, in particular, on the recognition of the trade mark on the market, the association which can be made with the used or registered sign, the degree of similarity between the trade mark and the sign and between the goods or services identified, should constitute the specific condition for such protection.
- (9) It follows from the principle of free movement of goods that the proprietor of a Community trade mark must not be entitled to prohibit its use by a third party in relation to goods which have been put into circulation in the Community, under the trade mark, by him or with his consent, save where there exist legitimate reasons for the proprietor to oppose further commercialisation of the goods.
- (10) There is no justification for protecting Community trade marks or, as against them, any trade mark which has been registered before them, except where the trade marks are actually used.
- (11) A Community trade mark is to be regarded as an object of property which exists separately from the undertakings whose goods or services are designated by it. Accordingly, it should be capable of being transferred, subject to the overriding need to prevent the public being misled as a result of the transfer. It should also be capable of being charged as security in favour of a third party and of being the subject matter of licences.
- (12) Administrative measures are necessary at Community level for implementing in relation to every trade mark the trade mark law created by this Regulation. It is therefore essential, while retaining the Community's existing institutional structure and balance of powers, to provide for an Office for Harmonisation in the Internal Market (trade marks and designs) which is independent in relation to technical matters and has legal,

administrative and financial autonomy. To this end it is necessary and appropriate that that Office should be a body of the Community having legal personality and exercising the implementing powers which are conferred on it by this Regulation, and that it should operate within the framework of Community law without detracting from the competencies exercised by the Community institutions.

- (13) It is necessary to ensure that parties who are affected by decisions made by the Office are protected by the law in a manner which is suited to the special character of trade mark law. To that end provision is made for an appeal to lie from decisions of the examiners and of the various divisions of the Office. If the department whose decision is contested does not rectify its decision it is to remit the appeal to a Board of Appeal of the Office, which is to decide on it. Decisions of the Boards of Appeal are, in turn, amenable to actions before the Court of Justice of the European Communities, which has jurisdiction to annul or to alter the contested decision.
- (14) Under the first subparagraph of Article 225(1) of the EC Treaty the Court of First Instance of the European Communities has jurisdiction to hear and determine at first instance the actions referred to in particular in Article 230 of the EC Treaty with the exception of those assigned to a judicial panel and those reserved in the Statute to the Court of Justice. The jurisdiction which this Regulation confers on the Court of Justice to cancel and alter decisions of the Boards of Appeal should accordingly be exercised at first instance by the Court.
- (15) In order to strengthen the protection of Community trade marks the Member States should designate, having regard to their own national system, as limited a number as possible of national courts of first and second instance having jurisdiction in matters of infringement and validity of Community trade marks.
- (16) Decisions regarding the validity and infringement of Community trade marks must have effect and cover the entire area of the Community, as this is the only way of preventing inconsistent decisions on the part of the courts and the Office and of ensuring that the unitary character of Community trade marks is not undermined. The provisions of Council Regulation (EC) No 44/2001 of 22 December 2000 on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters⁽⁴⁾ should apply to all actions at law relating to Community trade marks, save where this Regulation derogates from those rules.
- (17) Contradictory judgments should be avoided in actions which involve the same acts and the same parties and which are brought on the basis of a Community trade mark and parallel national trade marks. For this purpose, when the actions are brought in the same Member State, the way in which this is to be achieved is a matter for national procedural rules, which are not prejudiced by this Regulation, whilst when the actions are brought in different Member States, provisions modelled on the rules on *lis pendens* and related actions of Regulation (EC) No 44/2001 appear appropriate.
- (18) In order to guarantee the full autonomy and independence of the Office, it is considered necessary to grant it an autonomous budget whose revenue comes principally from fees paid by the users of the system. However, the Community budgetary procedure remains applicable as far as any subsidies chargeable to the general budget of the European

Communities are concerned. Moreover, the auditing of accounts should be undertaken by the Court of Auditors.

- (19) Measures necessary for the implementation of this Regulation should be adopted, particularly as regards fees regulations and an Implementing Regulation, in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission⁽⁵⁾,

1 Goods and services in respect of which trade mark registration is applied for shall be classified in conformity with the system of classification established by the Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks of 15 June 1957 (‘the Nice Classification’).

2 The goods and services for which the protection of the trade mark is sought shall be identified by the applicant with sufficient clarity and precision to enable the competent authorities and economic operators, on that sole basis, to determine the extent of the protection sought.

4 The Office shall reject an application in respect of indications or terms which are unclear or imprecise, where the applicant does not suggest an acceptable wording within a period set by the Office to that effect.

The declaration shall be filed at the Office by 24 September 2016, and shall indicate, in a clear, precise and specific manner, the goods and services, other than those clearly covered by the literal meaning of the indications of the class heading, originally covered by the proprietor's intention. 4 A subsequent application for a trade mark which was the subject of a previous first application in respect of the same goods or services and which is filed in or in respect of the same State shall be considered as the first application for the purposes of determining priority, provided that, at the date of filing of the subsequent application, the previous application has been withdrawn, abandoned or refused, without being open to public inspection and without leaving any rights outstanding, and has not served as a basis for claiming a right of priority. The previous application may not thereafter serve as a basis for claiming a right of priority.

5 If the first filing has been made in a State which is not a party to the Paris Convention or to the Agreement establishing the World Trade Organisation, paragraphs 1 to 4 shall apply only in so far as that State, according to published findings, grants, on the basis of the first filing made at the Office and subject to conditions equivalent to those laid down in this Regulation, a right of priority having equivalent effect.

2 An applicant who wishes to claim priority pursuant to paragraph 1 must file evidence of the display of goods or services under the mark applied for under the conditions laid down in the Implementing Regulation.

3 An exhibition priority granted in a Member State or in a third country does not extend the period of priority laid down in Article 29.

2 The Office shall inform the proprietor of the EU trade mark, and any person having a registered right in respect of the EU trade mark, of the expiry of the registration at least six months before the said expiry. Failure to give such information shall not involve the responsibility of the Office and shall not affect the expiry of the registration.

3 The request for renewal shall be submitted in the six-month period prior to the expiry of the registration. The basic fee for the renewal, and where appropriate, one or more class fees for each class of goods or services exceeding the first one shall also be paid within this period. Failing this, the request may be submitted and the fees paid within a further period of six months following the expiry of registration, provided that an additional fee for late payment of the renewal fee or late submission of the request for renewal is paid within this further period.

Where the fees paid are insufficient to cover all the classes of goods and services for which renewal is requested, registration shall be renewed if it is clear which class or classes are to be covered.
