

Regulation (EC) No 218/2009 of the European Parliament and of the Council of 11 March 2009 on the submission of nominal catch statistics by Member States fishing in the north-east Atlantic (recast) (Text with EEA relevance)

REGULATION (EC) No 218/2009 OF THE
EUROPEAN PARLIAMENT AND OF THE COUNCIL

of 11 March 2009

on the submission of nominal catch statistics by
Member States fishing in the north-east Atlantic (recast)

(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 285(1) thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the Statistical Programme Committee,

Acting in accordance with the procedure laid down in Article 251 of the Treaty⁽¹⁾,

Whereas:

- (1) Council Regulation (EEC) No 3880/91 of 17 December 1991 on the submission of nominal catch statistics by Member States fishing in the north-east Atlantic⁽²⁾ has been substantially amended several times⁽³⁾. Since further amendments are to be made, it should be recast in the interests of clarity.
- (2) The management of the Community's fishery resources requires accurate and timely statistics on the catches by Member States' vessels fishing in the north-east Atlantic.
- (3) The Convention on Future Multilateral Cooperation in the North-East Atlantic Fisheries, approved by Council Decision 81/608/EEC⁽⁴⁾ and establishing the North-East Atlantic Fisheries Commission, requires the Community to supply that Commission with the available statistics that it may request.
- (4) Advice received from the International Council for the Exploration of the Sea under the Cooperation Agreement between that organisation and the Community⁽⁵⁾ will be enhanced by the availability of statistics on the activities of the Community fishing fleet.
- (5) The Convention for the Conservation of Salmon in the North Atlantic Ocean, approved by Council Decision 82/886/EEC⁽⁶⁾ and establishing the North Atlantic Salmon Conservation Organisation (Nasco), requires the Community to supply Nasco with the available statistics that it may request.

Status: Point in time view as at 10/01/2014.

Changes to legislation: There are currently no known outstanding effects for the Regulation (EC) No 218/2009 of the European Parliament and of the Council. (See end of Document for details)

- (6) Several Member States have requested the submission of data in a different form or through a different medium from that specified in Annex IV (the equivalent of the Statlant questionnaires).
- (7) There is a need for fuller definitions and descriptions used in fishery statistics and in the management of the fisheries of the north-east Atlantic.
- (8) The measures necessary for the implementation of this Regulation should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission⁽⁷⁾.
- (9) In particular, the Commission should be empowered to adapt the lists of species and statistical fishing regions, the descriptions of those fishing regions and the permitted degree of aggregation of data. Since those measures are of general scope and are designed to amend non-essential elements of this Regulation, they must be adopted in accordance with the regulatory procedure with scrutiny provided for in Article 5a of Decision 1999/468/EC,

HAVE ADOPTED THIS REGULATION:

Article 1

Each Member State shall submit to the Commission data on the annual nominal catches by vessels registered in or flying the flag of that Member State fishing in the north-east Atlantic.

The nominal catch data shall include all fishery products landed or transhipped at sea in no matter what form but shall exclude quantities which, subsequent to capture, are discarded at sea, consumed on board or used as bait on board. Aquaculture production shall be excluded. The data shall be recorded as the live weight equivalent of the landings or transhipments, to the nearest tonne.

Article 2

1 The data to be submitted shall be the nominal catches of each of the species listed in Annex I in each of the statistical fishing regions listed in Annex II and defined in Annex III.

2 The data for each calendar year shall be submitted within six months of the end of the year. No submissions shall be required for species/fishing region combinations for which no catches were recorded in the annual period of the submission. The data for species of minor importance in a Member State need not be individually identified in the submissions but may be included in an aggregated item provided that the weight of the products thus recorded does not exceed 10 % by weight of the total catch in that Member State in that month.

[^{F13} The Commission shall be empowered to adopt delegated acts, in accordance with Article 5, to amend Annexes I, II and III, with regard to the lists of species and statistical fishing areas, the descriptions of those fishing areas and the permitted degree of aggregation of data.

Those delegated acts shall be adopted only where they are necessary in order to take account of economic and technical developments, they do not change the optional nature of the required information and they do not impose a significant additional burden on Member States or on the respondents.

The Commission shall duly justify the statistical actions provided for in those delegated acts, using, where appropriate, input from relevant experts based on a cost-effectiveness

Article 3

Except where provisions adopted under the common fisheries policy dictate otherwise, a Member State shall be permitted to use sampling techniques to derive catch data for those parts of the fishing fleet for which the complete coverage of the data would involve the excessive application of administrative procedures. The details of the sampling procedures, together with details of the proportion of the total data derived by such techniques, must be included by the Member State in the report submitted pursuant to Article 6(1).

Article 4

Member States shall fulfil their obligations to the Commission pursuant to Articles 1 and 2 by submitting the data on magnetic medium, the format of which is given in Annex IV.

Member States may submit data in the format detailed in Annex V.

With the prior approval of the Commission, Member States may submit data in a different form or on a different medium.

^{F1} Article 5

1 The power to adopt delegated acts is conferred on the Commission subject to the conditions laid down in this Article.

2 The power to adopt delegated acts referred to in Article 2(3) shall be conferred on the Commission for a period of five years from 10 January 2014. The Commission shall draw up a report in respect of the delegation of power not later than nine months before the end of the five-year period. The delegation of power shall be tacitly extended for periods of an identical duration, unless the European Parliament or the Council opposes such extension not later than three months before the end of each period.

3 The delegation of power referred to in Article 2(3) may be revoked at any time by the European Parliament or by the Council. A decision to revoke shall put an end to the delegation of the power specified in that decision. It shall take effect the day following the publication of the decision in the *Official Journal of the European Union* or at a later date specified therein. It shall not affect the validity of any delegated acts already in force.

4 As soon as it adopts a delegated act, the Commission shall notify it simultaneously to the European Parliament and to the Council.

5 A delegated act adopted pursuant to Article 2(3) shall enter into force only if no objection has been expressed either by the European Parliament or by the Council within a period of two months of notification of that act to the European Parliament and the Council or if, before the expiry of that period, the European Parliament and the Council have both informed the Commission that they will not object. That period shall be extended by two months at the initiative of the European Parliament or of the Council.]

Article 6

1 By 1 January 1993 Member States shall submit a detailed report to the Commission describing how the data on catches are derived and specifying the degree of representativeness and reliability of those data. The Commission, in collaboration with the Member States, shall draw up a summary of those reports.

2 Member States shall inform the Commission of any modifications to the information provided under paragraph 1 within three months of their introduction.

[^{F13} The Commission shall examine methodological reports, data availability and data reliability and other relevant issues connected with the application of this Regulation once a year with Member States.]

ANNEX I

List of species which have been reported in the commercial catch statistics for the north-east Atlantic

Member States must report the nominal catches of those species marked with an asterisk (*). The reporting of nominal catches of the remaining species is optional as concerns the identification of the individual species. However, where data for individual species are not submitted the data shall be included in aggregate categories. Member States may submit data for species not in the list provided that the species are clearly identified.

Notes

1. Those statistical fishing regions preceded by 'ICES' have been identified and defined by the International Council for the Exploration of the Sea.
2. Those statistical fishing regions preceded by 'BAL' have been identified and defined by the International Baltic Sea Fishery Commission.
3. Data should be submitted so as to include as much detail as possible. 'Unknown' and aggregate regions should only be used where the detailed information is not available. Where detailed information is submitted the aggregate categories should not be used.

ANNEX III

Description of the ICES sub areas and divisions used for the purpose of fishery statistics and regulations in the north-east Atlantic
ICES statistical area (north-east Atlantic)

All waters of the Atlantic and Arctic Oceans and their dependent seas bounded by a line from the geographic North Pole along the meridian of 40°00' west to the north coast of Greenland; then in an easterly and southerly direction along the coast of Greenland to a point at 44°00' west;

Status: Point in time view as at 10/01/2014.

Changes to legislation: There are currently no known outstanding effects for the Regulation (EC) No 218/2009 of the European Parliament and of the Council. (See end of Document for details)

then due south to 59°00' north; then due east to 42°00' west; then due south to 36°00' north; then due east to a point on the coast of Spain (Punta Marroqui isthmus) at 5°36' west; then in a north-westerly and northerly direction along the south-west coast of Spain, the coast of Portugal, the north-west and north coasts of Spain, and the coasts of France, Belgium, the Netherlands and Germany to the western terminus of its boundary with Denmark; then along the west coast of Jutland to Thyboroen; then in a southerly and easterly direction along the south coast of the Limfjord to Egensekloster Point; then in a southerly direction along the east coast of Jutland to the eastern terminus of the boundary of Denmark with Germany; then along the coast of Germany, Poland, Russia, Lithuania, Latvia, Estonia, Russia, Finland, Sweden and Norway, and the north coast of Russia to Khaborova; then across the western entry of the Strait of Yugorskiy Shar; then in a westerly and northerly direction along the coast of Vaigach Island; then across the western entry of the Strait off the Karskiye Vorota; then west and north along the coast of the south island of Novaya Zemlya; then across the western entry of the Strait of Matochkin Shar; then along the west coast of the north island of Novaya Zemlya to a point at 68°30' east; then due north to the geographic North Pole.

This area also represents statistical area 27 (north-east Atlantic statistical area) in the FAO International Standard Statistical Classification of Fishing Areas.

ICES statistical subarea I

The waters bounded by a line from the geographic North Pole along the meridian of 30°00' east to 72°00' north; then due west to 26°00' east; then due south to the coast of Norway; then in an easterly direction along the coasts of Norway and Russia to Khaborova; then across the western entry of the Strait of Yugorskiy Shar; then in a westerly and northerly direction along the coast of Vaigach Island; then across the western entry of the Strait off the Karskiye Vorota; then west and north along the coast of the south island of Novaya Zemlya; then across the western entry of the Strait of Matochkin Shar; then along the west coast of the north island of Novaya Zemlya to a point at 68°30' east; then due north to the geographic North Pole.

9 to 15	Division	e.g. IV a = ICES division IV a
16 to 18	Species	3-alpha identifier
19 to 26	Catch	Metric tonnes

Notes:

- (a) All numeric fields should be right justified with leading blanks. All alphanumeric fields should be left justified with trailing blanks.
- (b) The catch is to be recorded in the live weight equivalent of the landings to the nearest metric tonne.
- (c) Quantities (bytes 19 to 26) of less than half a unit should be recorded as ‘- 1’.
- (d) Unknown quantities (bytes 19 to 26) should be recorded as ‘- 2’.

ANNEX V

FORMAT FOR THE SUBMISSION OF CATCH DATA FOR THE NORTH-EAST ATLANTIC ON MAGNETIC MEDIA

A. Coding format

The data should be submitted as variable length records with a colon (:) between the fields of the record. The following fields should be included in each record:

Field	Remarks
Country	3-alpha code (e.g. FRA = France)
Year	e.g. 2001 or 01
FAO major fishing area	27 = North-East Atlantic
Division	e.g. IVa = ICTS subdivision 4a
Species	3-alpha identifier
Catch	Tonnes

- (a) The catch is to be recorded in the live weight equivalent of the landings, to the nearest metric tonne.
- (b) Quantities of less than half a unit should be recorded as ‘- 1’.
- (c) Country codes:
