Commission Regulation (EC) No 684/2009 of 24 July 2009 implementing
Council Directive 2008/118/EC as regards the computerised procedures
for the movement of excise goods under suspension of excise duty

COMMISSION REGULATION (EC) No 684/2009

of 24 July 2009

implementing Council Directive 2008/118/EC as regards the computerised
procedures for the movement of excise goods under suspension of excise duty

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 2008/118/EC of 16 December 2008 concerning the general
arrangements for excise duty and repealing Directive 92/12/EEC[(1)], and in particular Article
29(1) thereof,

Whereas:

(1)     The movement of excise goods under suspension of excise duty is to take place
        under cover of an electronic administrative document referred to in Article 21(1) of
        Directive 2008/118/EC, for which the computerised system established by Decision
        No 1152/2003/EC of the European Parliament and of the Council of 16 June 2003 on
        computerising the movement and surveillance of excisable products[(2)] is to be used.

(2)     Since the computerised system is intended to allow movements of excise goods under
        suspension of excise duty to be followed and monitored, it is necessary to establish the
        structure and content of the electronic messages to be used on such movements.

(3)     In particular, as movements are to take place under cover of an electronic administrative
        document, the structure and content of the messages constituting that document should
        be laid down. It is also necessary to determine the structure and content of the messages
        constituting the report of receipt and the report of export.

(4)     Under Directive 2008/118/EC, an electronic administrative document may be cancelled,
        the destination of the goods may be changed and a movement of excise goods may
        be split. It is therefore necessary to determine the structure and content of messages
        concerning the cancellation of the electronic administrative document, a change of
        destination and the splitting of a movement, and to lay down the rules and procedures
        which apply in relation to exchanges of messages concerning such cancellation, change
        of destination and splitting.

(5)     It is necessary to lay down the structure of the paper documents referred to in Article 26
        and 27 of Directive 2008/118/EC which are to be used when the computerised system
        is unavailable.

(6)     Since the rules established by this Regulation are to replace those laid down in
        Commission Regulation (EEC) No 2719/92 of 11 September 1992 on the accompanying

administrative document for the movement under duty-suspension arrangements of products subject to excise duty**(3)**, that Regulation should be repealed.

(7)    The measures provided for in this Regulation are in accordance with the opinion of the Committee on Excise Duty,

HAS ADOPTED THIS REGULATION:

*Article 1*

**Subject-matter**

This Regulation lays down measures concerning the following:

(a)    the structure and content of the electronic messages exchanged through the computerised system referred to in Article 21(2) of Directive 2008/118/EC for the purposes of Articles 21 to 25 of that Directive;

(b)    the rules and procedures to be followed on the exchange of the messages referred to in point (a);

(c)    the structure of the paper documents referred to in Articles 26 and 27 of Directive 2008/118/EC.

*Article 2*

**Obligations relating to messages exchanged through the computerised system**

With regard to their structure and content, the messages exchanged for the purposes of Articles 21 to 25 of Directive 2008/118/EC shall comply with Annex I to this Regulation. Where codes are required for the completion of certain data fields in those messages, the codes listed in Annex II shall be used.

*Article 3*

**Formalities before the start of the movement of excise goods**

1    The draft electronic administrative document submitted in accordance with Article 21(2) of Directive 2008/118/EC and the electronic administrative document to which an administrative reference code has been assigned in accordance with the third subparagraph of Article 21(3) of that Directive shall comply with the requirements set out in Table 1 of Annex I to this Regulation.

2    The draft electronic administrative document shall be submitted no earlier than 7 days before the date indicated on that document as date of dispatch of the excise goods concerned.

*Article 4*

**Cancellation of the electronic administrative document**

1    The consignor wanting to cancel the electronic administrative document as referred to in Article 21(7) of Directive 2008/118/EC shall complete the fields of the draft cancellation

message and submit it to the competent authorities of the Member State of dispatch. The draft cancellation message shall comply with the requirements set out in Table 2 of Annex I to this Regulation.

2        The competent authorities of the Member State of dispatch shall carry out an electronic verification of the data in the draft cancellation message.

Where those data are valid, those authorities shall add the date and time of validation to the cancellation message, communicate that information to the consignor and forward the cancellation message to the competent authorities of the Member State of destination. Where those data are not valid, the consignor shall be informed thereof without delay.

3        Upon receipt of the cancellation message, the competent authorities of the Member State of destination shall forward the cancellation message to the consignee where the consignee is an authorised warehousekeeper or a registered consignee.

*Article 5*

**Messages concerning a change of destination of the movement of excise goods**

1        The consignor wanting to amend the destination as provided for in Article 21(8) of Directive 2008/118/EC, or to complete the destination as provided for in Article 22(2) thereof, shall complete the fields of the draft change of destination message and submit it to the competent authorities of the Member State of dispatch. The draft change of destination message shall comply with the requirements set out in Table 3 of Annex I to this Regulation.

2        The competent authorities of the Member State of dispatch shall carry out an electronic verification of the data in the draft change of destination message.

Where those data are valid, the competent authorities of the Member State of dispatch shall:
  a   add the date and time of validation and a sequence number to the change of destination message and inform the consignor thereof;
  b   update the original electronic administrative document according to the information in the change of destination message.

If the update includes a change of Member State of destination or a change of consignee, Article 21(4) and (5) of Directive 2008/118/EC shall apply in respect of the updated electronic administrative document.

3        If the update referred to in paragraph 2(b) includes a change of Member State of destination, the competent authorities of the Member State of dispatch shall forward the change of destination message to the competent authorities of the Member State of destination mentioned in the original electronic administrative document.

The latter authorities shall inform the consignee mentioned in the original electronic administrative document of the change of destination by using the 'notification of change of destination' that shall comply with the requirements set out in Table 4 of Annex I.

4        If the update referred to in paragraph 2(b) includes a change of the place of delivery mentioned in data group 7 of the electronic administrative document, but not a change of the Member State of destination nor a change of the consignee, the competent authorities of the Member State of dispatch shall forward the change of destination message to the

competent authorities of the Member State of destination mentioned in the original electronic administrative document.

The latter authorities shall forward the change of destination message to the consignee.

5       Where the data in the draft change of destination message are not valid, the consignor shall be informed thereof without delay.

6       If the updated electronic administrative document includes a new consignee in the same Member State of destination as in the original electronic administrative document, the competent authorities of that Member State shall inform the consignee mentioned in the original electronic administrative document of the change of destination using the 'notification of a change of destination' that shall comply with the requirements set out in Table 4 of Annex I.

*Article 6*

**Messages concerning the splitting of the movement of excise goods**

1       The consignor wanting to split the movement of excise goods as provided for in Article 23 of Directive 2008/118/EC shall complete the fields of the draft splitting operation message for each destination and submit it to the competent authorities of the Member State of dispatch. The draft splitting operation message shall comply with the requirements set out in Table 5 of Annex I to this Regulation.

2       The competent authorities of the Member State of dispatch shall carry out an electronic verification of the data in the draft splitting operation messages.

Where those data are valid, the competent authorities of the Member State of dispatch shall:

     a     generate a new electronic administrative document for each destination, which shall replace the original electronic administrative document;

     b     generate for the original electronic administrative document a 'notification of splitting', which shall comply with the requirements set out in Table 4 of Annex I to this Regulation;

     c     send the notification of splitting to the consignor and to the competent authorities of the Member State of destination mentioned in the original electronic administrative document.

Article 21(3), third subparagraph and Article 21(4), (5) and (6) of Directive 2008/118/EC shall apply in respect of each new electronic administrative document referred to in point (a).

3       The competent authorities of the Member State of destination mentioned in the original electronic administrative document shall forward the notification of splitting to the consignee mentioned in the original electronic administrative document where the consignee is an authorised warehousekeeper or a registered consignee.

4       Where the data in the draft splitting operation message are not valid, the consignor shall be informed thereof without delay.

5

*Article 7*

**Formalities at the end of the movement of excise goods**

The report of receipt submitted in accordance with Article 24 of Directive 2008/118/EC and the report of export submitted in accordance with Article 25 of that Directive, shall comply with the requirements set out in Table 6 of Annex I to this Regulation.

*Article 8*

The data required shall be displayed in the form of data elements, expressed in the same manner as in the electronic administrative document. All the data elements, as well as the data groups and data subgroups to which they belong, shall be identified by means of the numbers and letters in column A and column B of Table 1 of Annex I to this Regulation.

2        The information referred to in Article 26(5) of Directive 2008/118/EC to be communicated by the consignor to the competent authorities of the Member State of dispatch shall be displayed in the form of data elements, expressed in the same manner as in the change of destination message or the splitting operation message, as the case may be. All the data elements, as well as the data groups and data subgroups to which they belong, shall be identified by means of the numbers and letters in column A and column B of Table 3 or, as the case may be, Table 5 of Annex I to this Regulation.

## ELECTRONIC MESSAGES USED FOR THE PURPOSE OF MOVEMENTS OF EXCISE GOODS UNDER SUSPENSION OF EXCISE DUTYEXPLANATORY NOTES

1.      The data elements of the electronic messages used for the purpose of the computerised system referred to in Article 21(2) of Directive 2008/118/EC are structured in data groups and, where applicable, data subgroups. Details regarding the data and their use are presented in Tables 1 to 6, in which:

(a)      column A provides the numeric code (number) attributed to each data group and data subgroup; each subgroup follows the sequence number of the data (sub)group of which it forms part (for example: where the data group number is 1, one data subgroup of this group is 1.1 and one data subgroup of this subgroup is 1.1.1);

(b)      column B provides the alphabetic code (letter) attributed to each data element in a data (sub)group;

(c)      column C identifies the data (sub)group or data element;

(d)      column D provides each data (sub)group or data element with a value indicating whether the insertion of the corresponding data is:

—       'R' (Required), meaning that the data must be provided. When a data (sub)group is 'O' (Optional) or 'C' (Conditional), data elements within that group can still be 'R' (Required) when the competent authorities of the Member State have decided that the data in this (sub)group must be completed or when the condition applies,

—       'O' (Optional), meaning that the insertion of the data is optional for the person submitting the message (the consignor or consignee) except where a Member State has stipulated that the data are required in accordance with the option provided for in column E for some of the optional data (sub)groups or data elements,

—       'C' (Conditional), meaning that the use of the data (sub)group or data element depends on other data (sub)groups or data elements in the same message,

—       'D' (Dependent), meaning that the use of the data (sub)group or data element depends on a condition which cannot be checked by the computerised system, as provided for in columns E and F.

(e)      column E provides the condition(s) for data whose insertion is conditional, specifies the use of the optional and dependent data where applicable and indicates which data must be provided by the competent authorities;

(f)      column F provides explanations, where necessary, concerning the completion of the message;

(g)      column G provides:

—       for some data (sub)groups a number followed by the character 'x' indicating how many times the data (sub)group can be repeated in the message (default = 1), and

—       for each data element, except for data elements indicating the time and/or the date, the characteristics identifying the data type and the data length. The codes for the data types are as follows:

—       a alphabetic

    —      n numeric

    —      an alphanumeric

The number following the code provides the admissible data length for the data element concerned. The optional two dots before the length indicator mean that the data have no fixed length, but can have up to a number of digits, as specified by the length indicator. A comma in the data length means that the data can hold decimals, the digit before the comma provides the total length of the attribute, the digit after the comma provides the maximum number of digits after the decimal point.

    —      for data elements indicating the time and/or date, the mention 'date', 'time' or 'dateTime', meaning that the date, the time or the date and time must be given using the ISO 8601 standard for representation of dates and time.

2.      The following abbreviations are used in Tables 1 to 6:

—      e-AD: electronic administrative document,

—      ARC: administrative reference code,

—      SEED: System for Exchange of Excise Data (the electronic database referred to in Article 22(1) of Council Regulation (EC) No 2073/2004[4],

—      CN Code: Combined Nomenclature Code.
