**a** Landings of herring taken in fisheries using nets with mesh sizes equal to or larger than 32 mm. Member States must inform the Commission of their landings of herring distinguishing between IVa and IVb.

**b** May be taken in EU waters. Catches taken within this quota are to be deducted from Norway's share of the TAC.

#### SPECIAL CONDITION:

Within the limits of the abovementioned quotas, no more than the quantities given below may be taken in the following zone:

|    |                                                   |
|----|---------------------------------------------------|
|    | <b>Norwegian waters south of 62°N (HER/*04N-)</b> |
| EU | 50 000'                                           |

**a** The use of this quota is subject to the conditions set out in point 1 of the Appendix to this Annex.

**b** In addition to this quota, Member States may allow vessels participating in initiatives regarding fully documented fisheries to make additional catches within an overall limit of an additional 5 % of the quota allocated to that Member State, provided that:

- the vessel makes use of closed circuit television cameras (CCTV), associated to a system of sensors, that record all fishing and processing activities on board the vessel,
- all catches of cod with that vessel are counted against the quota, including those fish below the minimum landing size,
- the additional catches are limited to 30 % of the normal catch limit applicable to such a vessel or to an amount which is justified as being capable of ensuring that there will be no increase in the fishing mortality of the cod stock,
- where a Member State detects that a vessel participating in the initiative is not complying with the above conditions, the Member State shall withdraw the additional catches granted to that vessel and exclude it from any further participation in this initiative.

**a** The use of this quota is subject to the conditions set out in point 2 of the Appendix to this Annex.

**b** In addition to this quota, Member States may allow vessels participating in initiatives regarding fully documented fisheries to make additional catches within an overall limit of an additional 5 % of the quota allocated to that Member State, provided that:

- the vessel makes use of closed circuit television cameras (CCTV), associated to a system of sensors, that record all fishing and processing activities on board the vessel,
- all catches of cod with that vessel are counted against the quota, including those fish below the minimum landing size,
- the additional catches are limited to 30 % of the normal catch limit applicable to such a vessel or to an amount which is justified as being capable of ensuring that there will be no increase in the fishing mortality of the cod stock,
- where a Member State detects that a vessel participating in the initiative is not complying with the above conditions, the Member State shall withdraw the additional catches granted to that vessel and exclude it from any further participation in this initiative.'

*Status: Point in time view as at 31/01/2020.*

**a** In accordance with the Council and Commission Statement made at the meeting of the Council of Fisheries Ministers on 14 and 15 December 2009 concerning the fisheries in Norwegian waters, an amount of 7 234 tonnes, corresponding to the unutilised quota for 2009 in Norwegian waters of IV for this species, may be fished in addition to this quota in the EU waters of this TAC area.

**b** Including 242 tonnes to be taken in Norwegian waters south of 62°N(MAC/\*04N-).

**c** When fishing in Norwegian waters, by-catches of cod, haddock, Pollack and whiting and saithe shall be counted against the quotas for these species.

**d** May also be taken in Norwegian waters of IVa.

**e** To be deducted from Norway's share of the TAC (access quota). This amount includes the Norwegian share in the North Sea TAC of the amount of 39 054 tonnes. This quota may be fished in IVa only, except for 3 000 tonnes that may be fished in IIIa.

#### SPECIAL CONDITION:

Within the limits of the abovementioned quotas, no more than the quantities given below may be taken in the following zones:

*Status: Point in time view as at 31/01/2020.*

*Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EU) No 219/2010. (See end of Document for details)*

**a** The fishery will only take place within the period from 15 August to 30 November 2010. The fishery will be closed when the TAC is fully utilised by NEAFC Contracting Parties. The Commission shall inform Member States of the date on which the Secretariat of NEAFC has notified NEAFC Contracting Parties that the TAC has been fully utilised. From this date Member States shall prohibit directed fishery for redfish by vessels flying their flag.

**b** Vessels shall limit their by-catches of redfish in other fisheries to a maximum of 1 % of the total catch retained on board.
