(Non-legislative acts)

REGULATIONS

COMMISSION REGULATION (EU) No 346/2010

of 15 April 2010

amending Regulation (EC) No 1251/2008 as regards the placing on the market and import requirements for consignments of aquaculture animals intended for Member States or parts thereof with national measures approved by Decision 2010/221/EU

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 2006/88/EC of 24 October 2006 on animal health requirements for aquaculture animals and products thereof, and on the prevention and control of certain diseases in aquatic animals⁽¹⁾, and in particular Article 25 and Article 61(3) thereof,

Whereas:

(1) Commission Decision 2010/221/EU approving national measures for limiting the impact of certain diseases in aquaculture animals and wild aquatic animals in accordance with Article 43 of Council Directive 2006/88/EC⁽²⁾ allows certain Member States to impose requirements on the introduction into their territories or parts thereof of consignments of certain aquaculture animals in order to prevent the introduction of or to control spring viraemia of carp (SVC), bacterial kidney disease (BKD), infectious pancreatic necrosis virus (IPN) and infection with *Gyrodactylus salaris* (GS). That Decision replaces Commission Decision 2004/453/EC of 29 April 2004 implementing Council Directive 91/67/EEC as regards measures against certain diseases in aquaculture animals⁽³⁾.

(2) To prevent the introduction of or to control the spread of those diseases, consignments of aquaculture animals intended for farming, relaying areas, put and take fisheries, open ornamental facilities, or restocking introduced into a Member State or part thereof listed in Annexes I and II to Decision 2010/221/EU of species susceptible to the diseases for which the

Member State or part thereof is regarded as disease-free or for which it has an eradication programme, should originate from an area with an equivalent health status.

(3) To ensure that those requirements are complied with, such consignments should be accompanied by an animal health certificate providing the necessary attestations.

(4) For movements of aquaculture animals within the European Union (placing on the market), specific animal health certificates are laid down in Decision 2004/453/EC. In the interest of simplification of Union legislation, the necessary animal health conditions as regards the diseases covered by the approved national measures should now be included in the animal health certificates for placing on the market laid down in Commission Regulation (EC) No 1251/2008 of 12 December 2008 implementing Council Directive 2006/88/EC as regards conditions and certification requirements for the placing on the market and the import into the Community of aquaculture animals and products thereof and laying down a list of vector species⁽⁴⁾. Annex II to that Regulation should therefore be amended accordingly.

(5) The relevant model animal health certificates for imports of aquaculture animals into the Union, laid down in Regulation (EC) No 1251/2008 already include attestations as regards those diseases. However, those attestations should be amended to take account of the principles for imports of aquaculture animals laid down in Directive 2006/88/EC and the Aquatic Animal Health Code of the World Organisation for Animal Health (OIE). Annex IV to that Regulation should therefore be amended accordingly.

⁽¹⁾ OJ L 328, 24.11.2006, p. 14.

⁽²⁾ OJ L 98, 20.4.2010, p. 7.

⁽³⁾ OJ L 202, 7.6.2004, p. 4.

⁽⁴⁾ OJ L 337, 16.12.2008, p. 41.

- (6) The placing on the market and import requirements for consignments of aquaculture animals intended for Member States and parts thereof with national measures approved by Decision 2010/221/EU should only apply to species susceptible to the relevant diseases. Consequently, a list of species susceptible to those diseases should be set out in Annex II to Regulation (EC) No 1251/2008.
- (7) However, as fish of any species that are present in waters where fish of species infected with GS are present, may spread that disease, the placing on the market and import requirements related to GS should also apply to consignments of fish of any species introduced into Member States or parts thereof listed in Decision 2010/221/EU as free of that disease.
- (8) As the model animal health certificates laid down in Regulation (EC) No 1251/2008, as amended by this Regulation, cover all the national measures approved in accordance with Article 43 of Directive 2006/88/EC and Decision 2004/453/EC is repealed by Decision 2010/221/EU, Article 18 of Regulation (EC) No 1251/2008 should be deleted.
- (9) It is appropriate to provide for transitional measures to allow Member States and the industry to take the necessary measures to comply with the requirements laid down in this Regulation.
- (10) To ensure that animal health certificates are correctly issued in those cases where certain statements of the model animal health certificates set out in Regulation (EC) No 1251/2008 are not relevant and in those cases where they consist of more than one sheet of paper, further clarification should be provided for in the explanatory notes. Annex V to that Regulation should therefore be amended accordingly.
- (11) Regulation (EC) No 1251/2008 should therefore be amended accordingly.
- (12) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EC) No 1251/2008 is amended as follows:

1. In Article 1, point (b) is replaced by the following:

‘(b) animal health conditions for the placing on the market of:

- (i) ornamental aquatic animals either originating from or intended for closed ornamental facilities; and
- (ii) aquaculture animals intended for farming, relaying areas, put and take fisheries, open ornamental

facilities and restocking in Member States and parts thereof with national measures approved by Commission Decision 2010/221/EU (*);

(*) OJ L 98, 20.4.2010, p. 7.’

2. The following Article 8a is inserted:

‘Article 8a

Aquaculture animals intended for farming, relaying areas, put and take fisheries, open ornamental facilities and restocking in Member States and parts thereof with national measures approved by Decision 2010/221/EU

1. Consignments of aquaculture animals intended for farming, relaying areas, put and take fisheries, open ornamental facilities, or restocking shall be accompanied by an animal health certificate completed in accordance with the model set out in Part A of Annex II and the explanatory notes set out in Annex V, where the animals:

- (a) are introduced into Member States or parts thereof listed in the second and fourth column of the table set out in:
 - (i) Annex I to Decision 2010/221/EU as free of one or more of the diseases listed in the first column of that table; or
 - (ii) Annex II to Decision 2010/221/EU as subject to an eradication programme for one or more of the diseases listed in the first column of that table;
- (b) are of species which are listed in Part C of Annex II as species susceptible to the diseases, for which the Member State concerned or part thereof is regarded as disease-free, or for which an eradication programme applies in accordance with Decision 2010/221/EU, as referred to in point (a).

2. Consignments of animals referred to in paragraph 1 shall comply with the animal health requirements set out in the model animal health certificate and explanatory notes as referred to in paragraph 1.

3. Paragraph 1 and 2 shall apply to consignments of fish of any species originating from waters where species listed in Part C of Annex II as species susceptible to infection with *Gyrodactylus salaris*, are present, where those consignments are intended for a Member State or part thereof listed in Annex I to Decision 2010/221/EU as free of *Gyrodactylus salaris* (GS).’

3. Article 18 is deleted.

4. Annexes II, IV and V are amended in accordance with the Annex to this Regulation.

*Article 2***Transitional provisions**

1. For a transitional period until 31 July 2010, consignments of aquaculture animals accompanied by animal health certificates issued in accordance with Parts A or B of Annex IV to Regulation (EC) No 1251/2008 before the amendments introduced by the present Regulation, may continue to be imported into or transited through the Union.

2. For a transitional period until 31 July 2011, consignments of aquaculture animals accompanied by animal health certificates issued in accordance with Part A or B of Annex IV to Regulation (EC) No 1251/2008 before the amendments introduced by the present Regulation, may continue to be

imported into or transited through the Union provided that the animal health attestations as regards spring viraemia of carp (SVC), bacterial kidney disease (BKD), infectious pancreatic necrosis virus (IPN) and Infection with *Gyrodactylus salaris* (GS) set out in Part II of those certificates are not applicable.

*Article 3***Entry into force and applicability**

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 15 May 2010.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 15 April 2010.

For the Commission
The President
José Manuel BARROSO

ANNEX

Annexes II, IV and V are amended as follows:

(1) Annex II is amended as follows:

(a) Part A is replaced by the following:

PART A

Model animal health certificate for the placing on the market of aquaculture animals for farming, relaying, put and take fisheries, open ornamental facilities and restocking

COUNTRY		Aquaculture animals for farming, relaying, put and take fisheries and open ornamental facilities	
II.	Health information	II.a. Certificate reference number	II.b.
Part II: Certification	II.1 General requirements		
	I, the undersigned official inspector, hereby certify that the aquaculture animals, referred to in Part I of this certificate:		
	II.1.1 have been inspected within 72 hours of loading, and showed no clinical signs of disease;		
	II.1.2 are not subject to any prohibitions due to unresolved increased mortality;		
	II.1.3 are not intended for destruction or slaughter for the eradication of diseases; and		
	II.1.4 originate from aquaculture farms who are all under the supervision of the competent authority;		
	II.1.5 ⁽¹⁾ [in the case of molluscs, were subject to an individual visual check of each part of the consignment, and no molluscs species other than those specified in Part I of the certificate were detected.]		
	II.2 ⁽¹⁾⁽²⁾⁽³⁾[Requirements for species susceptible to Epizootic ulcerative syndrome (EUS), Epizootic haematopoietic necrosis (EHN), Bonamia exitiosa, Perkinsus marinus, Mikrocytos mackini, Taura syndrome and/or Yellowhead disease]		
	I, the undersigned official inspector, hereby certify that the aquaculture animals referred to above:		
	<i>either</i> ⁽¹⁾⁽⁵⁾ [originate from a country/territory, zone or compartment declared free from ⁽¹⁾ [EUS] ⁽¹⁾ [EHN] ⁽¹⁾ [Bonamia exitiosa] ⁽¹⁾ [Perkinsus marinus] ⁽¹⁾ [Mikrocytos mackini] ⁽¹⁾ [Taura syndrome] ⁽¹⁾ [Yellowhead disease] in accordance with Chapter VII of Council Directive 2006/88/EC or the relevant OIE Standard by the competent authority of the country of origin, and		
	(i) where the relevant disease(s) is (are) notifiable to the competent authority and reports of suspicion of infection of the relevant disease(s) must be immediately investigated by the competent authority,		
	(ii) all introduction of species susceptible to the relevant disease(s) come from an area declared free of the disease(s), and		
	(iii) species susceptible to the relevant disease(s) are not vaccinated against the relevant disease(s);		
	<i>or</i> ⁽¹⁾⁽³⁾⁽⁵⁾ [in the case of wild aquatic animals, have been subject to quarantine in accordance with Decision 2008/946/EC.]		
	II.3 ⁽¹⁾⁽⁴⁾[Requirements for vector species to Epizootic ulcerative syndrome (EUS), Epizootic haematopoietic necrosis (EHN), Bonamia exitiosa, Perkinsus marinus, Mikrocytos mackini, Taura syndrome and/or Yellowhead disease]		
	I, the undersigned official inspector, hereby certify that the aquaculture animals referred to above which are to be regarded as possible vectors to ⁽¹⁾ [EUS] ⁽¹⁾ [EHN] ⁽¹⁾ [Bonamia exitiosa] ⁽¹⁾ [Perkinsus marinus] ⁽¹⁾ [Mikrocytos mackini] ⁽¹⁾ [Taura syndrome] ⁽¹⁾ [Yellowhead disease] as they are of species listed in Column 2 and fulfil the conditions set out in Column 3 of the table in Annex I to Regulation (EC) No 1251/2008:		
	<i>either</i> ⁽¹⁾⁽⁵⁾ [originate from a country/territory, zone or compartment declared free from ⁽¹⁾ [EUS] ⁽¹⁾ [EHN] ⁽¹⁾ [Bonamia exitiosa] ⁽¹⁾ [Perkinsus marinus] ⁽¹⁾ [Mikrocytos mackini] ⁽¹⁾ [Taura syndrome] ⁽¹⁾ [Yellowhead disease] in accordance with Chapter VII of Council Directive 2006/88/EC or the relevant OIE Standard by the competent authority of the country of origin, and		
	(i) where the relevant disease(s) is (are) notifiable to the competent authority and reports of suspicion of infection of the relevant disease(s) must be immediately investigated by the competent authority,		
	(ii) all introduction of species susceptible to the relevant disease(s) come from an area declared free of the disease(s), and		
	(iii) species susceptible to the relevant disease(s) are not vaccinated against the relevant disease(s);		
	<i>or</i> ⁽¹⁾⁽⁵⁾ [have been subject to quarantine in accordance with Decision 2008/946/EC.]

Notes			
Part I:			
— Box I.19: Use the appropriate HS codes: 0306, 0307 or 030110.			
— Box I.20 and I.28: As regards quantity, give the total number.			
— Box I.25: Use the option "Pets" for ornamental aquatic animals intended for pet shops or similar businesses for further sale, "Circus/exhibition" for ornamental aquatic animals intended for exhibition aquaria or similar businesses not for further sale and "Quarantine" if the ornamental aquatic animals are intended for a quarantine facility.			
Part II:			
(1) Keep as appropriate.			
(2) Part II.2 and II.3 of this certificate only applies to species susceptible to one or more of the diseases referred to in the title. Susceptible species are listed in Part II of Annex IV to Directive 2006/88/EC.			
(3) The requirements in Part II.2 of this certificate on ornamental aquatic animals susceptible to epizootic ulcerative syndrome (EUS) as regards that disease laid down shall only apply from 1 January 2011 and until that date the reference to EUS shall be deleted.			
(4) Consignments of ornamental aquatic animals may be imported regardless of the requirements in Part II.2 and II.3 if they are intended for a quarantine facility complying with the requirements laid down in Decision 2008/946/EC.			
(5) To be authorised into the Union one of these statements must be kept if the consignments contain species susceptible to EUS (see note 3), EHN, <i>Bonamia exitiosa</i> , <i>Perkinsus marinus</i> , <i>Mikrocytos mackini</i> , Taura syndrome and/or Yellowhead disease.			

COUNTRY**Ornamental aquatic animals intended for closed ornamental facilities**

II. Health information	II.a. Certificate reference number	II.b.
<p>(6) To be authorised into a Member State, zone or compartment declared free from VHS, IHN, ISA, KHV, <i>Marteilia refringens</i>, <i>Bonamia ostreae</i>, or Whitespot disease or with a surveillance or eradication programme established in accordance with Article 44(1) or (2) of Directive 2006/88/EC, one of these statements must be kept if the consignment contain species susceptible to the disease(s) for which disease freedom or surveillance or eradication programme(s) apply(ies). Data on the disease status in different parts of the Union are accessible at http://ec.europa.eu/food/animal/liveanimals/aquaculture/index_en.htm</p> <p>(7) Part II.5 of this certificate only applies to consignments intended for a Member State or part thereof which is regarded as disease-free, or for which a programme is approved by Decision 2010/221/EU as regards SVC, BKD, IPN or GS, and the consignment comprises species listed in Part C of Annex II as susceptible to the disease(s) for which the disease-free status or programme(s) apply(ies).</p> <p>Part II.5 shall also apply to consignments of fish of any species originating from waters where species listed in Part C of Annex II as species susceptible to infection with GS, are present, where those consignments are intended for a Member State or part thereof listed in Annex I to Decision 2010/221/EU as free of GS.</p> <p>Consignments of ornamental aquatic animals for which SVC, IPN and/or BKD related requirements are applicable, may be imported regardless of the requirements in Part II.5 of this certificate if they are intended for a quarantine facility complying with the requirements laid down in Decision 2008/946/EC.</p>		
<p>Official inspector</p> <p>Name (in capital letters):</p> <p>Date:</p> <p>Stamp:</p> <p>Qualification and title:</p> <p>Signature:'</p>		

(3) Annex V is replaced by the following:

‘ANNEX V

Explanatory notes

- (a) Certificates shall be issued by the competent authorities of the country of origin, based on the appropriate model set out in Annex II and IV to this Regulation taking into account the place of destination and use of the consignment after the arrival at the destination.
 - (b) Considering the status of the place of destination as regards non-exotic diseases referred to in Part II of Annex IV to Directive 2006/88/EC in the EU Member State or diseases for which the place of destination has measures approved by Decision 2010/221/EU approving national measures in accordance with Article 43 of Council Directive 2006/88/EC, the appropriate specific requirements shall be incorporated and completed in the certificate.
 - (c) The “Place of origin” shall be the localisation of the farm or mollusc farming area where the aquaculture animals were reared reaching their commercial size relevant for the consignment covered by this certificate. For wild aquatic animals “place of origin” shall be the place of harvest.
 - (d) Where the model certificate states that certain statements shall be kept as appropriate, statements which are not relevant, may be crossed out and initialled and stamped by the certifying officer, or completely deleted from the certificate.
 - (e) The original of each certificate shall consist of a single sheet of paper, or, where more text is required it must be in such a form that all sheets of paper required are part of an integrated whole and indivisible.
 - (f) For import into the Union from third countries, the original of the certificate and the labels referred to in the model certificate shall be drawn up in at least one of the official languages of the Member State of the border inspection post of introduction of the consignment into the Union and of the Member State of destination. However, those Member States may authorise the certificate to be drawn up in the official language of another Member State, and accompanied, if necessary, by an official translation.
 - (g) Where additional sheets are attached to the certificate for the purpose of identifying the items making up the consignment, such additional sheets shall also be considered to form part of the original of the certificate, provided the signature and stamp of the certifying official inspector appear on each page.
 - (h) When the certificate, including any additional sheets as referred to in (g), comprises more than one page, each page shall be numbered “-x(page number) of y(total number of pages)-” on the bottom and shall bear the certificate reference number allocated by the competent authority on the top.
 - (i) The original of the certificate must be completed and signed by an official inspector not more than 72 hours prior to loading of the consignment, or not more than 24 hours in those cases where the aquaculture animals must be inspected within 24 hours of loading. The competent authorities of the country of origin shall ensure that principles of certification equivalent to those laid down in Directive 96/93/EC are followed.
 - (j) The colour of the signature shall be different from that of the printing. The same requirement shall apply to stamps other than embossed stamps or watermarks.
 - (k) For import into the Union from third countries, the original of the certificate must accompany the consignment until it reaches the EU border inspection post. For consignments placed on the market within the Union, the original of the certificate must accompany the consignment until it reaches its final destination.
 - (l) A certificate issued for live aquaculture animals shall be valid for 10 days from the date of issue. In the case of transport by ship, the time of validity is prolonged by the time of journey at sea. To that end, the original of a declaration by the ship’s master, drawn up in accordance with the addendum drawn up in conformity with the model laid down in Part D of Annex IV, shall be attached to the animal health certificate.
 - (m) Please note that the general conditions on the transport of animals laid down in Council Regulation (EC) No 1/2005 on the protection of animals during transport and related operations and amending Directives 64/432/EEC and 93/119/EC and Regulation (EC) No 1255/97 may, where applicable, require measures to be taken after entry into the Union if the requirements of that Regulation are not fulfilled.’
