

Commission Regulation (EU) No 605/2010 of 2 July 2010 laying down animal and public health and veterinary certification conditions for the introduction into the European Union of raw milk, dairy products, colostrum and colostrum-based products intended for human consumption (Text with EEA relevance)

[^{F1}COMMISSION REGULATION (EU) No 605/2010

of 2 July 2010

laying down animal and public health and veterinary certification conditions for the introduction into the European Union of raw milk, dairy products, colostrum and colostrum-based products intended for human consumption]

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption⁽¹⁾, and in particular the introductory phrase of Article 8, the first subparagraph of point (1) and point (4) of Article 8 and Article 9(4) thereof,

Having regard to Regulation (EC) No 852/2004 of the European Parliament and of the Council of 29 April 2004 on the hygiene of foodstuffs⁽²⁾, and in particular Article 12 thereof,

Having regard to Regulation (EC) No 853/2004 of the European Parliament and of the Council of 29 April 2004 laying down specific hygiene rules for food of animal origin⁽³⁾, and in particular Article 9 thereof,

Having regard to Regulation (EC) No 854/2004 of the European Parliament and of the Council of 29 April 2004 laying down specific rules for the organisation of official controls on products of animal origin intended for human consumption⁽⁴⁾, and in particular Articles 11(1) and 14 (4) and Article 16 thereof,

Having regard to Regulation (EC) No 882/2004 of the European Parliament and of the Council of 29 April 2004 on official controls performed to ensure the verification of compliance with feed and food law, animal health and animal welfare rules⁽⁵⁾, and in particular Article 48 (1) thereof,

Whereas:

- (1) Council Directive 92/46/EEC of 16 June 1992 laying down the health rules for the production and placing on the market of raw milk, heat-treated milk and milk-based products⁽⁶⁾ provided for a list to be drawn up of third countries or parts thereof from which Member States were to authorise the introduction of milk or milk-based products and for such commodities to be accompanied by a health certificate and comply with certain requirements, including heat treatment requirements, and guarantees.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EU) No 605/2010. (See end of Document for details)

- (2) Accordingly, Commission Decision 2004/438/EC of 29 April 2004 laying down animal and public health and veterinary certifications conditions for introduction in the Community of heat-treated milk, milk-based products and raw milk intended for human consumption⁽⁷⁾ was adopted.
- (3) Since the date of adoption of that Decision, a number of new animal health and public health requirements have been laid down, constituting a new regulatory framework in this area, which should be taken into account in this Regulation. In addition, Directive 92/46/EEC was repealed by Directive 2004/41/EC of the European Parliament and of the Council of 21 April 2004 repealing certain Directive concerning food hygiene and health conditions for the production and placing on the market of certain products of animal origin intended for human consumption⁽⁸⁾.
- (4) Regulation (EC) No 178/2002 of the European Parliament and of the Council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety⁽⁹⁾ lays down the general principles governing food and feed in general, and food and feed safety in particular, at European Union and national level.
- (5) Directive 2002/99/EC lays down rules governing the introduction from third countries of products of animal origin intended for human consumption. It provides that such products are only to be introduced into the European Union if they comply with the requirements applicable to all stages of the production, processing and distribution of those products in the European Union or if they offer equivalent animal health guarantees.
- (6) Regulation (EC) No 852/2004 lays down the general rules for food business operators on the hygiene of foodstuffs at all stages of the food chain, including at primary production level.
- (7) Regulation (EC) No 853/2004 lays down specific rules for food business operators on the hygiene of food of animal origin. That Regulation provides that food business operators producing raw milk and dairy products intended for human consumption are to comply with the relevant provisions of Annex III thereto.
- (8) Regulation (EC) No 854/2004 lays down specific rules for the organisation of official controls on products of animal origin.
- (9) Commission Regulation (EC) No 2073/2005 of 15 November 2005 on microbiological criteria for foodstuffs⁽¹⁰⁾ lays down the microbiological criteria for certain micro-organisms and the implementing rules to be complied with by food business operators when implementing the general and specific hygiene measures referred to in Article 4 of Regulation (EC) No 852/2004. Regulation (EC) No 2073/2005 provides that food business operators are to ensure that foodstuffs comply with the relevant microbiological criteria set out in that Regulation.
- (10) Under the scope of Council Directive 92/46/EEC, raw milk and products thereof could only be obtained from cows, ewes, goats or buffaloes. However, the definitions of raw milk and dairy products set out in Annex I to Regulation (EC) No 853/2004 broadens

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EU) No 605/2010. (See end of Document for details)

the scope of milk hygiene rules to all mammalian species and defines raw milk as milk produced by the secretion of the mammary gland of farmed animals that has not been heated to more than 40 °C or undergone any treatment that has an equivalent effect. In addition, it defines dairy products as processed products resulting from the processing of raw milk or from further processing of such processed products.

- (11) In view of the entry into application of Regulations (EC) Nos 852/2004, 853/2004 and 854/2004 and the acts implementing those Regulations, it is necessary to amend and update European Union public and animal health conditions and certification requirements for the introduction into the European Union of raw milk and dairy products intended for human consumption.
- (12) In the interests of consistency of Union law, this Regulation should also take into account the rules laid down in Regulation (EC) No 470/2009 of the European Parliament and of the Council of 6 May 2009 laying down Community procedures for the establishment of residue limits of pharmacologically active substances in foodstuffs of animal origin, repealing Council Regulation (EEC) No 2377/90 and amending Directive 2001/82/EC of the European Parliament and of the Council and Regulation (EC) No 726/2004 of the European Parliament and of the Council⁽¹¹⁾ and its implementing rules laid down in Commission Regulation (EU) No 37/2010 of 22 December 2009 on pharmacologically active substances and their classification regarding maximum residue limits in foodstuffs of animal origin⁽¹²⁾ and Council Directive 96/23/EC of 29 April 1996 on measures to monitor certain substances and residues thereof in live animals and animal products and repealing Directives 85/358/EEC and 86/469/EEC and Decisions 89/187/EEC and 91/664/EEC⁽¹³⁾.
- (13) Council Directive 96/93/EC of 17 December 1996 on the certification of animals and animal products⁽¹⁴⁾ lays down the rules to be observed in issuing certificates required by veterinary legislation to prevent misleading or fraudulent certification. It is appropriate to ensure that certification requirements at least equivalent to those laid down in that Directive are applied by the competent authorities of exporting third countries.
- (14) In addition, Council Directive 90/425/EEC of 26 June 1990 concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market⁽¹⁵⁾, provides for a computerized system linking veterinary authorities which has been developed in the European Union. The format of all model health certificates need to be amended to take into account their compatibility with possible electronic certification under the Trade Control and Expert System (TRACES) provided for in Directive 90/425/EEC. Accordingly, the rules laid down in this Regulation should take account of TRACES.
- (15) Council Directive 97/78/EC of 18 December 1997 laying down the principles governing the organisation of veterinary checks on products entering the Community from third countries⁽¹⁶⁾ lays down rules concerning veterinary checks on products of animal origin introduced into the European Union from third countries for their importation or transit, including certain certification requirements. Those rules are applicable to the commodities covered by this Regulation.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EU) No 605/2010. (See end of Document for details)

- (16) Specific conditions for transit via the European Union of consignments to and from Russia should be provided for, owing to the geographical situation of Kaliningrad, which only concerns Latvia, Lithuania and Poland.
- (17) In the interests of clarity of European law, Commission Decision 2004/438/EC should be repealed and replaced by this Regulation.
- (18) To avoid any disruption in trade, the use of health certificates issued in accordance with Decision 2004/438/EC should be authorised during a transitional period.
- (19) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

Textual Amendments

- F1** Substituted by [Commission Implementing Regulation \(EU\) No 209/2014 of 5 March 2014 amending Regulation \(EU\) No 605/2010 as regards animal and public health and veterinary certification conditions for the introduction of colostrum and colostrum-based products intended for human consumption into the Union \(Text with EEA relevance\).](#)

Article 1 **U.K.**

Subject matter and scope

- [^{F2}1] This Regulation lays down:
- (a) [^{F1}the public and animal health conditions and certification requirements for the introduction into [^{F3}Great Britain] of consignments of raw milk, dairy products, colostrum and colostrum-based products;]
- (b) the list of third countries from which the introduction into [^{F4}Great Britain] of such consignments is authorised.

[^{F5}This Regulation shall apply without prejudice to any specific certification requirements laid down in other [^{F6}United Kingdom agreements] with third countries.]

- [^{F7}2] In this Regulation:
- “appropriate authority” means the Secretary of State (in relation to England), the Welsh Ministers (in relation to Wales) and the Scottish Ministers (in relation to Scotland); but the “appropriate authority” is the Secretary of State if consent is given by:
- a in relation to Wales, the Welsh Ministers;
- b in relation to Scotland, the Scottish Ministers;
- “third country” means any country or territory other than the British Islands.]

**Imports of certain dairy products from third countries
or parts thereof ^[F13] at risk of foot-and-mouth disease]**

1 ^[F14]The appropriate authority shall authorise the importation of consignments of the dairy products listed in paragraph 1A, provided that the dairy products have undergone, or been produced from raw milk which has undergone, a heat treatment involving—]

- a a sterilisation process, to achieve an F₀ value equal to or greater than three;
- b an ultra high temperature (UHT) treatment at not less than 135 °C in combination with a suitable holding time;
- c (i) a high temperature short time pasteurisation treatment (HTST) at 72 °C for 15 seconds applied twice to milk with a pH equal to or greater than 7.0 achieving, where applicable, a negative reaction to an alkaline phosphatase test, applied immediately after the heat treatment; or
- (ii) a treatment with an equivalent pasteurisation effect to point (i) achieving, where applicable, a negative reaction to an alkaline phosphatase test, applied immediately after the heat treatment;
- d a HTST treatment of milk with a pH below 7.0; or
- e a HTST treatment combined with another physical treatment by either:
 - (i) lowering the pH below 6 for one hour, or

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EU) No 605/2010. (See end of Document for details)

(ii) additional heating equal to or greater than 72 °C, combined with desiccation.

[^{F15}1A. The dairy products referred to in paragraph 1 are—

- a dairy products derived from raw milk of cows, ewes, goats or buffaloes from such of the third countries or territories listed in Annex 1 (excluding the Emirates of Abu Dhabi and Dubai of the United Arab Emirates), or parts thereof, at risk of foot-and-mouth disease as the Secretary of State, with the consent of the Scottish Ministers (in relation to Scotland) and the Welsh Ministers (in relation to Wales), may specify in a document published for the purposes of this paragraph;
- b dairy products derived from raw milk from camels of the species *Camelus dromedarius* from the Emirates of Abu Dhabi and Dubai of the United Arab Emirates, or parts thereof, where such products are specified by the Secretary of State, with the consent of the Scottish Ministers (in relation to Scotland) and the Welsh Ministers (in relation to Wales), in a document published for the purposes of this paragraph.]

2 [^{F16}The appropriate authority] shall authorise the importation of consignments of dairy products derived from raw milk of animals other than those referred to in paragraph 1, from [^{F17}such of the third countries listed in Annex 1 or parts thereof, at risk of foot-and-mouth disease as the Secretary of State, with the consent of the Scottish Ministers (in relation to Scotland) and the Welsh Ministers (in relation to Wales), may specify in a document published for the purposes of this paragraph], provided that such dairy products have undergone, or been produced from raw milk which has undergone a treatment involving:

- a a sterilisation process, to achieve an F_0 value equal to or greater than three; or
- b an ultra high temperature (UHT) treatment at not less than 135 °C in combination with a suitable holding time.

Matters relating to the exercise of powers under this Regulation

1. The powers exercisable by the Secretary of State, with the consent of the Scottish Ministers (in relation to Scotland) and the Welsh Ministers (in relation to Wales), under the provisions listed in paragraph 2 may be exercised only where it is necessary or appropriate to do so in the light of an assessment of the risk to animal or public health in the United Kingdom, taking into account the animal health criteria and the public health criteria.
2. The provisions are—
 - a Article 2 (importation of raw milk, dairy products, colostrum and colostrum-based products from third countries or parts thereof);
 - b Article 3 (importation of dairy products from third countries or parts thereof not at risk of foot-and-mouth disease);
 - c in Article 4 (importation of dairy products from third countries or parts thereof at risk of foot-and-mouth disease), paragraphs 1A(a) and (b) and 2.
3. Any assessment which is relied upon for the purposes of paragraph 1 must have been approved by the Secretary of State, the Scottish Ministers (in relation to Scotland) and the Welsh Ministers (in relation to Wales).
4. Where the Scottish Ministers or the Welsh Ministers request that the Secretary of State exercise a power under a provision listed in paragraph 2 the Secretary of State must have regard to that request.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EU) No 605/2010. (See end of Document for details)

5. In this Article—

“animal health criteria” means the criteria set out in Schedule 1 to the Trade in Animals and Animal Products (Legislative Functions) and Veterinary Surgeons (Amendment) (EU Exit) Regulations 2019;

“public health criteria” means the criteria set out in Schedule 2 to those Regulations.]

Textual Amendments
