1 [F46The appropriate authorities] shall set up a database on traders in fruit and vegetables, which shall list, under the conditions established in this Article, traders involved in the marketing of fruit and vegetables for which standards have been laid down [F47pursuant to [F48Article 75 of Regulation (EU) No 1308/2013]].

Status: Point in time view as at 01/12/2022.

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) No 543/2011. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

For this purpose, [^{F49}the appropriate authorities] may use any other database or databases already established for other purposes.

- 2 For the purpose of this Regulation, ‘trader’ means any natural or legal person who:
- a holds fruit and vegetables subject to marketing standards with a view to:

- a traders whose activities are exempt from the obligation to comply with the marketing standards pursuant to Article 4; and
- b natural or legal persons whose activities in the fruit and vegetables sector are limited either to the transport of goods, or to the sale at the retail stage.

4 Where the trader database is composed of several distinct elements, the [^{F54}appropriate] authority shall ensure that the database, its elements and their updating are uniform. The updating of the database shall be done in particular using the information collected during conformity checks.

5 The database shall contain for each trader:

- a the registration number, name and address;
- b information needed for its classification in one of the risk categories mentioned in Article 11(2), in particular, position in the marketing chain and information concerning the importance of the firm;
- c information concerning findings made during previous checks of each trader;
- d any other information considered necessary for checks such as information concerning the existence of a quality assurance system or self-check system related to the conformity to the marketing standards.

The updating of the database shall be carried out in particular using the information collected during conformity checks.

6 Traders shall provide the information that [^{F55}the appropriate authorities] consider necessary to set up and update the database. [^{F56}The appropriate authorities] shall determine the conditions under which traders not established in their territory but trading on it shall be listed in their database.

Section 2

Conformity checks ^{F57}...

Article 11

Conformity checks

1 [F58The appropriate authorities] shall ensure that conformity checks are carried out selectively, based on a risk analysis, and with appropriate frequency, so as to ensure compliance with the marketing standards and other provisions of this Title and of [F59[F60Articles 75 and][F60Article] 76 of Regulation (EU) No 1308/2013].

The criteria to assess the risk shall include the existence of a conformity certificate referred to in Article 14 issued by a competent authority of a third country where the conformity checks have been approved pursuant to Article 15. The existence of such certificate shall be considered as a factor reducing the risk of non-conformity.

Status: Point in time view as at 01/12/2022.

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) No 543/2011. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

The criteria to assess the risk may also include:

- a the nature of the product, the period of production, the price of the product, the weather, the packing and handling operations, the storage conditions, the country of origin, the means of transport or the volume of the lot;
- b the size of the traders, their position in the marketing chain, the volume or value marketed by them, their product range, the delivery area or the type of business carried out such as storage, sorting, packing or sale;
- c findings made during previous checks including the number and type of defects found, the usual quality of products marketed, the level of technical equipment used;
- d the reliability of traders' quality assurance systems or self-checking systems related to the conformity to marketing standards;
- e the place where the check is carried out, in particular if it is the point of first entry into [^{F61}Great Britain], or the place where the products are being packed or loaded;
- f any other information that might indicate a risk of non-compliance.

2 The risk analysis shall be based on the information contained in the trader database referred to in Article 10 and shall classify traders in risk categories.

[^{F62}The appropriate authorities] shall lay down in advance:

- a the criteria for assessing the risk of non-conformity of lots;
- b on the basis of a risk analysis for each risk category, the minimum proportions of traders or lots and/or quantities which will be subject to a conformity check.

[^{F62}The appropriate authorities] may choose not to carry out selective checks on products not subject to specific marketing standards, based on a risk analysis.

3 Where checks reveal significant irregularities, [^{F63}the appropriate authorities] shall increase the frequency of checks in relation to traders, products, origins, or other parameters.

4 Traders shall provide inspection bodies with all the information those bodies judge necessary for organising and carrying out conformity checks.

Methods of inspection

Article 17

Methods of inspection

1 The conformity checks provided for in this Chapter, with the exception of those at the point of retail sale to the end consumer, shall be carried out in accordance with the methods of inspection laid down in Annex V, save as otherwise provided in this Regulation.

[^{F88}The appropriate authorities] shall lay down specific arrangements for checking conformity at the point of retail sale to the end consumer.

2 Where inspectors find that the goods conform with the marketing standards, the inspection body may issue a certificate of conformity as set out in Annex III.

Status: Point in time view as at 01/12/2022.

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) No 543/2011. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

3 Where the goods do not conform with the standards, the inspection body shall issue a finding of non-conformity for the attention of the trader or their representatives. Goods for which a finding of non-conformity has been issued may not be moved without the authorisation of the inspection body which issued that finding. That authorisation can be subject to the respect of conditions laid down by the inspection body.

Traders may decide to bring all or some of the goods into conformity. Goods brought into conformity may not be marketed before the competent inspection body has ensured by all appropriate means that the goods have actually been brought into conformity. The competent inspection body shall issue, where applicable, a certificate of conformity as set out in Annex III for the lot or part thereof only after the goods have been brought into conformity.

If an inspection body accepts a trader's wish to bring the goods into conformity in a [^{F89}constituent nation] other than that where the check leading to a finding of non-conformity has been carried out, the trader shall notify the competent inspection body of the destination [^{F89}constituent nation] of the non-conforming lot. The [^{F90}inspection body] issuing the finding of non-conformity shall send a copy of that finding to the other [^{F91}inspection bodies] concerned including the [^{F92}competent inspection body of the constituent nation] of destination of the non-conforming lot.

Where the goods can neither be brought into conformity nor sent to animal feed, industrial processing or any other non-food use, the inspection body may, if necessary, request traders to take adequate measures in order to ensure that the products concerned are not marketed.

Traders shall supply all information deemed necessary by [^{F93}the appropriate authorities] for the application of this paragraph.
