

Council Regulation (EU) No 716/2011 of 19 July 2011 establishing the fishing opportunities for anchovy in the Bay of Biscay for the 2011/2012 fishing season

COUNCIL REGULATION (EU) No 716/2011
of 19 July 2011

establishing the fishing opportunities for anchovy in
the Bay of Biscay for the 2011/2012 fishing season

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(3) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) It is incumbent upon the Council to establish the total allowable catches (TAC) by fishery or group of fisheries. Fishing opportunities should be distributed among Member States in such a way as to ensure the relative stability of each Member State's fishing activities for all stocks or groups of stocks and having due regard to the objectives of the common fisheries policy established by Regulation (EC) No 2371/2002 of 20 December 2002 on the conservation and sustainable exploitation of fisheries resources under the Common Fisheries Policy⁽¹⁾.
- (2) For the purposes of suitable stock management and simplification, it is appropriate that a TAC and Member State quotas for the stock of anchovy in the Bay of Biscay (ICES subarea VIII) are set for an annual management season running from 1 July to 30 June of the following year, rather than a calendar year management period.
- (3) Regulation (EU) No 57/2011⁽²⁾ establishes the fishing opportunities for certain fish stocks in 2011, excluding anchovy in the Bay of Biscay.
- (4) The Bay of Biscay anchovy TAC for the 2011/2012 fishing season should be established on the basis of scientific advice available, taking into account biological and socioeconomic aspects and ensuring fair treatment between fishing sectors.
- (5) In order to provide for a multiannual plan for the anchovy stock in the Bay of Biscay covering the fishing season and establishing the harvest control rule applying for the fixing of fishing opportunities, on 29 July 2009 the Commission presented a proposal for a Regulation establishing a long-term plan for the anchovy stock in the Bay of Biscay and the fisheries exploiting that stock. Having regard to that Commission proposal and considering that the impact assessment underlying that proposal provided for the most recent assessment of the impact of decisions on the fishing opportunities for the anchovy stock in the Bay of Biscay, it is appropriate to fix a TAC for that stock accordingly. The advice issued by STECF on 15 July 2011 estimated the stock biomass to be approximately 98 450 tonnes. Consequently, the TAC for the fishing season running from 1 July 2011 to 30 June 2012 should be established at 29 700 tonnes.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 716/2011. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (6) In view of the specific scope and time of application of the fishing opportunities for anchovy, it is appropriate to establish those fishing opportunities by way of a separate Regulation. The fishery should nevertheless remain subject to the general provisions of Regulation (EU) No 57/2011 concerning the conditions for the use of quotas.
- (7) In accordance with Article 2 of Regulation (EC) No 847/96 of 6 May 1996 introducing additional conditions for year-to-year management of TACs and quotas⁽³⁾, it is necessary to establish to what extent the stock of anchovy in the Bay of Biscay is subject to the measures laid down in that Regulation.
- (8) In view of the start of the 2011/2012 fishing season and for the purpose of the annual reporting of catches, this Regulation should enter into force immediately and apply from 1 July 2011,

HAS ADOPTED THIS REGULATION:
