- (8) Transitional rules applicable during the first three quota periods of application of this Regulation should be established in connection with the choice of reference periods for the calculation of ceilings of quota authorisations for traditional importers.

CHAPTER 1

SCOPE AND DEFINITIONS

Article 1

This Regulation lays down detailed rules on the allocation of quota authorisations in accordance with Article 5(2) of the Protocol, and establishes other provisions necessary for the management by the Union of the quantities of the tariff-rate quotas allocated to exports to the Union in implementation of the Agreement and the Protocol.

Article 2

For the purposes of this Regulation the definitions set out in Article 1(3), Article 2 and Article 5(3) and (4) of the Protocol shall apply.

In addition, the following definition shall apply: ‘product group’ means each of the two categories of covered products according to the classification of such products under the tariff and statistical nomenclature applied in the Russian Federation, namely spruce (tariff lines 4403 20 110 and 4403 20 190) and pine (tariff lines 4403 20 310 and 4403 20 390). The relevant tariff codes applied in the Russian Federation and corresponding Combined Nomenclature ⁽¹⁾ (‘CN’) and TARIC codes are attached as Annex I.

⁽¹⁾ Currently falling within Commission Regulation (EU) No 1006/2011 (OJ L 282, 28.10.2011, p. 1).

▼BCHAPTER 2
ALLOCATION PRINCIPLES**▼M3***Article 3*

The method for allocating the tariff quota shall depend on the date of submission of the application by the importer, as follows:

- (a) for any application submitted by 31 May of each year (hereinafter referred to as ‘first part of the quota period’), the Commission shall allocate tariff quotas in accordance with the ‘traditional’ or ‘new’ categories of importers, pursuant to Article 5(2)(b) of the Protocol; and
- (b) for any application submitted from 1 June (hereinafter referred to as ‘second part of the quota period’), the Commission shall allocate the remaining quantities of the tariff quotas in accordance with the chronological order of receipt by the Commission of notifications from the competent authorities of Member States (hereinafter referred to as ‘Licence Office(s)’) of applications submitted by individual importers, pursuant to Article 5(2)(a) of the Protocol.

▼B*Article 4*

1. During the first part of the quota period:
 - (a) 70 % of each tariff quota per product group shall be allocated to traditional importers (hereinafter referred to as ‘quota for traditional importers’); and
 - (b) 30 % of each tariff quota per product group shall be allocated to new importers (hereinafter referred to as ‘quota for new importers’).
2. The quota for new importers shall be allocated in accordance with the chronological order of receipt by the Commission of notifications from the Licence Offices of applications for a quota authorisation from such importers.
3. Each new importer shall be granted a maximum of 1,5 % of the tariff quota for each product group in accordance with the allocation procedure referred to in paragraph 2.

Article 5

During the second part of the quota period, each importer shall be granted a maximum of 5 % of the remaining tariff quota for each product group.

Article 6

1. During the first part of the quota period, each traditional importer shall only be entitled to request quota authorisations for a specific share of the quota for traditional importers for each product group (hereinafter referred to as ‘ceiling’), calculated in accordance with paragraph 2. All the quota authorisations granted to a traditional importer during the first part of the quota period shall be counted against such importer’s ceilings.

▼ M3

2. The ceiling for each product group of a traditional importer applicable in the following quota period ('quota period n+1') shall be calculated in accordance with the average of such importer's actual imports of the product group concerned during the two quota periods preceding the year of calculation of such ceiling, on the basis of the following formula:

$$C_i = T * (\bar{I}_i / \Sigma \bar{I}_i)$$

where:

'C_i' represents the ceiling for the product group concerned (spruce or pine) for importer i during quota period n+1;

'T' represents the quota for traditional importers available for the product group concerned during the year of calculation of the ceiling ('quota period n');

' \bar{I}_i ' represents the average of the actual imports by the traditional importer i of the product group concerned, in the two quota periods preceding the calculation ('quota period n-2' and 'quota period n-1', respectively), as follows:

$$[(\text{actual imports of importer i in quota period n-2}) + (\text{actual imports of importer i in quota period n-1})] / 2$$

' $\Sigma \bar{I}_i$ ' represents the sum of all traditional importers' average imports \bar{I}_i for the product group concerned.

Article 7

1. Every year, the Commission shall calculate ceilings applicable to each traditional importer for the following quota period in accordance with the method established in Article 6(2). If the calculated ceiling of a traditional importer for a given product group is higher than 0 %, but lower than the maximum of 1,5 % of the tariff quota granted to new importers in accordance with Article 4(3), the ceiling of the traditional importer concerned shall be established at a level of 1,5 % of the tariff quota for the respective product group.

2. Licence Offices shall provide the Commission, by 31 March of quota period n at the latest, with information on actual imports of covered products in quota period n-1 notified to them in accordance with Article 11(1). Such summary shall be submitted in an electronic format, in conformity with the information technology system established by the Commission.

3. The Commission shall inform the Licence Offices of ceilings resulting from the calculations made in accordance with Articles 6(2) and 7(1) by 30 April of quota period n at the latest.

CHAPTER 3
BUSINESS CONTINUITY

Article 8

1. Where an importer claiming status of traditional importer under Article 5(4) of the Protocol (hereinafter referred to as ‘the applicant’) does not provide satisfactory evidence that it is the same natural or legal person that imported the covered products during the reference period retained pursuant to Article 17(2) (hereinafter referred to as ‘the predecessor’), it shall provide the Licence Office with the necessary evidence to prove that it has business continuity with the activities of the predecessor.
2. Business continuity as referred to in paragraph 1 shall be deemed to exist where:
 - (a) the applicant and the predecessor are under the control of the same legal entity within the meaning of Council Regulation (EC) No 139/2004 ⁽¹⁾; or
 - (b) the economic activity of the predecessor, as regards the covered products, has been legally transferred to the applicant, for instance as a result of a merger or acquisition within the meaning of Regulation (EC) No 139/2004.
3. Importers that do not provide evidence of business continuity shall be considered as new importers.

Article 9

The provisions of Article 8 shall apply *mutatis mutandis* where an importer claims status of traditional importer under Article 5(3) of the Protocol.

CHAPTER 4
APPLICATIONS FOR QUOTA AUTHORISATIONS

Article 10

1. Applications for quota authorisations shall be submitted in the form established in Annex II. If information provided in the application is considered inadequate, the Licence Office may require additional details from the applicant.

 - (c) enable the Licence Office to trace the products concerned to their satisfaction in the premises of the undertaking concerned throughout their processing;

For that purpose, the importer shall provide the Licence Office with a copy of the customs declarations of the imports concerned. The Licence Offices shall provide the Commission, not later than 30 calendar days after the end of each third month, with a summary of actual imports of covered products into the European Union during the last 3 months notified by importers.

the Licence Office, in addition to the information provided in paragraph 1, and within the same time limit, with correct import quantities for each customs declaration, that take account of the bark. The correct quantities shall be established by application of the correction coefficients set out in Annex III.

CHAPTER 6

UNUSED QUOTA AUTHORISATIONS

▼M3*Article 12*

1. Where a quota authorisation remains unused after 6 months of its issuing, the importer shall either notify the Licence Office of its intention to use it within the remainder of the quota period or return the quota authorisation to the relevant Licence Office. Should the importer be unable to retrieve the unused quota authorisation from the authorities of the Russian Federation, it can present instead a corresponding sworn declaration to the Licence Office in the form set out in Annex IV stating its inability to reclaim the unused quota authorisation despite its best efforts. In any case, by the end of quota period n at the latest, the importer shall return any unused quota authorisation or present, if applicable, the corresponding sworn declaration(s) using the form set out in Annex IV. Where a quota authorisation has been issued before the beginning of the quota period in accordance with Article 4 of the Protocol, the 6-month time limit shall be counted as from 1 January of the year corresponding to the quota period.

2. The Licence Offices shall immediately notify the Commission of any quota authorisation or any sworn declaration returned by importers in accordance with paragraph 1. The balance of traditional importers' ceilings available for the product group concerned shall be modified for the corresponding amount.

Article 13

1. Where the actual imports by a traditional importer during quota period $n-1$ are less than 75 % of the quantities covered by all quota authorisations for a product group granted to such importer during the same quota period, the importer's import ceilings for the product group concerned during quota period $n+1$ shall be reduced by an amount proportional to the size of missing actual imports.

2. The reduction referred to in paragraph 1 shall be calculated as follows:

$$r_i = (0,75 * \Sigma A_i - I_i) / \Sigma A_i$$

where:

' r_i ' represents the reduction applicable to the import ceiling of importer i , for the product group concerned, during the quota period $n+1$;

' ΣA_i ' represents the sum of the quantities covered by quota authorisations for the product group concerned granted to the traditional importer i during the quota period $n-1$;

' I_i ' represents the actual imports of the product group concerned of importer i during the quota period $n-1$.

▼ M3*Article 14*

1. Where a quota authorisation that has not been returned or covered by a corresponding sworn declaration pursuant to Article 12 remains unused at the end of quota period n-1, the importer's import ceilings for the product group concerned during quota period n+1 shall be reduced by the amount proportional to the size of the unused quota authorisation.
2. The reduction referred to in paragraph 1 shall be calculated as follows:

$$R_i = \Sigma U_i / \Sigma A_i$$

where:

' R_i ' represents the reduction applicable to the import ceiling of importer i, for the product group concerned, during quota period n+1;

' ΣU_i ' represents the sum of unused quantities covered by quota authorisations for the product group concerned granted to importer i during the quota period n-1;
