Article 6

Rural development programmes

1 The EAFRD shall act in the Member States through rural development programmes. Those programmes shall implement a strategy to meet the Union priorities for rural development through a set of measures as defined in Title III. Support from the EAFRD shall be sought for the achievement of the objectives of rural development pursued through Union priorities.

2 A Member State may submit either a single programme for its entire territory or a set of regional programmes. Alternatively, in duly justified cases, it may submit a national programme and a set of regional programmes. If a Member State submits a national programme and a set of regional programmes, measures and/or types of operations shall be programmed either at national level or at regional level, and coherence between the strategies of the national and regional programmes shall be ensured.

3 Member States with regional programmes may also submit, for approval in accordance with Article 10(2), a national framework containing common elements for these programmes without a separate budgetary allocation.

National frameworks of Member States with regional programmes may also contain a table summarising, by region and by year, the total EAFRD contribution to the Member State concerned for the whole programming period.
