# COUNCIL REGULATION (EU) No 39/2013

of 21 January 2013

fixing for 2013 the fishing opportunities available to EU vessels for certain fish stocks and groups of fish stocks which are not subject to international negotiations or agreements

(OJ L 23, 25.1.2013, p. 1)

### Amended by:

<u>M1</u>	Council Regulation (EU) No 297/2013 of 27 March 2013	L 90	10	28.3.2013
►M2	Council Regulation (EU) No 1182/2013 of 19 November 2013	L 313	15	22.11.2013

### COUNCIL REGULATION (EU) No 39/2013

#### of 21 January 2013

fixing for 2013 the fishing opportunities available to EU vessels for certain fish stocks and groups of fish stocks which are not subject to international negotiations or agreements

#### TITLE I

#### **GENERAL PROVISIONS**

#### Article 1

# Subject matter

- 1. This Regulation fixes the fishing opportunities available to EU vessels for certain fish stocks and groups of fish stocks which are not subject to international negotiations or agreements.
- 2. The fishing opportunities referred to in paragraph 1 shall include:
- (a) catch limits for the year 2013;
- (b) fishing effort limits for the period from 1 February 2013 to 31 January 2014.

#### Article 2

#### Scope

This Regulation shall apply to EU vessels.

# Article 3

### **Definitions**

For the purposes of this Regulation the following definitions shall apply:

- (a) 'EU vessel' means a fishing vessel flying the flag of a Member State and registered in the Union;
- (b) 'EU waters' means waters under the sovereignty or jurisdiction of the Member States with the exception of waters adjacent to the overseas countries and territories listed in Annex II to the Treaty;
- (c) 'total allowable catch' (TAC) means the quantity that can be taken and landed from each fish stock each year;
- (d) 'quota' means a proportion of the TAC allocated to the Union or a Member State;
- (e) 'international waters' means waters falling outside the sovereignty or jurisdiction of any State;
- (f) 'mesh size' means the mesh size of fishing nets as determined in accordance with Regulation (EC) No 517/2008 (¹);
- (g) 'EU fishing fleet register' means the register set up by the Commission in accordance with Article 15(3) of Regulation (EC) No 2371/2002;

<sup>(</sup>¹) Commission Regulation (EC) No 517/2008 of 10 June 2008 laying down detailed rules for the implementation of Council Regulation (EC) No 850/98 as regards the determination of the mesh size and assessing the thickness of twine of fishing nets (OJ L 151, 11.6.2008, p. 5).

- (h) 'fishing logbook' means the logbook referred to in Article 14 of Regulation (EC) No 1224/2009;
- (i) 'analytical assessments' means a quantitative evaluation of trends in a given stock, based on data about the stock's biology and exploitation, which scientific review has indicated to be of sufficient quality to provide scientific advice on options for future catches.

#### Article 4

#### Fishing zones

For the purposes of this Regulation the following zone definitions shall apply:

- (a) ICES (International Council for the Exploration of the Sea) zones are the geographical areas specified in Annex III to Regulation (EC) No 218/2009 (¹);
- (b) 'Skagerrak' means the geographical area bounded on the west by a line drawn from the Hanstholm lighthouse to the Lindesnes lighthouse and on the south by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast;
- (c) 'Kattegat' means the geographical area bounded on the north by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast and on the south by a line drawn from Hasenøre to Gnibens Spids, from Korshage to Spodsbjerg and from Gilbjerg Hoved to Kullen;
- (d) 'Functional Unit 16 of ICES Subarea VII' means the geographical area bounded by rhumb lines sequentially joining the following positions:

```
53° 30′ N 15° 00′ W,
```

53° 30′ N 11° 00′ W,

51° 30′ N 11° 00′ W,

51° 30′ N 13° 00′ W,

51° 00′ N 13° 00′ W,

51° 00′ N 15° 00′ W,

53° 30′ N 15° 00′ W;

- (e) 'Gulf of Cádiz' means the geographical area of ICES division IXa east of longitude 7° 23′ 48″ W;
- (f) CECAF (Committee for Eastern Central Atlantic Fisheries) areas are the geographical areas specified in Annex II to Regulation (EC) No 216/2009 (2).

<sup>(1)</sup> Regulation (EC) No 218/2009 of the European Parliament and of the Council of 11 March 2009 on the submission of nominal catch statistics by Member States fishing in the north-east Atlantic (OJ L 87, 31.3.2009, p. 70).

<sup>(2)</sup> Regulation (EC) No 216/2009 of the European Parliament and of the Council of 11 March 2009 on the submission of nominal catch statistics by Member States fishing in certain areas other than those of the North Atlantic (OJ L 87, 31.3.2009, p. 1).

#### TITLE II

### FISHING OPPORTUNITIES

#### Article 5

#### TACs and allocations

The TACs for EU vessels in EU waters or in certain non-EU waters and the allocation of such TACs among Member States, and the conditions functionally linked thereto, where appropriate, are set out in Annex I.

#### Article 6

### TACs to be determined by Member States

- 1. The TACs for certain fish stocks shall be determined by the Member State concerned. Those stocks are identified in Annex I.
- 2. The TACs to be determined by a Member State shall:
- (a) be consistent with the principles and rules of the Common Fisheries Policy, in particular the principle of sustainable exploitation of the stock; and
- (b) result:
  - (i) if analytical assessments are available, in the exploitation of the stock consistent with maximum sustainable yield from 2015 onwards, with as high a probability as possible;
  - (ii) if analytical assessments are unavailable or incomplete, in the exploitation of the stock consistent with the precautionary approach to fisheries management.
- 3. By 15 March 2013, each Member State concerned shall submit to the Commission the following information:
- (a) the TACs adopted;
- (b) the data collected and assessed by the Member State concerned on which the TACs adopted are based;
- (c) details on how the TACs adopted comply with paragraph 2.

#### Article 7

# Additional allocations for vessels participating in trials on fully documented fisheries

- 1. For certain stocks, a Member State may grant an additional allocation to vessels flying its flag and participating in trials on fully documented fisheries. Those stocks are identified in Annex I.
- 2. The additional allocation referred to in paragraph 1 shall not exceed the overall limit set out in Annex I as a percentage of the quota allocated to that Member State.
- 3. The additional allocation referred to in paragraph 1 shall comply with the following conditions:

- (a) the vessel makes use of close circuit television cameras (CCTV) associated to a system of sensors (jointly referred to as "the CCTV system") to record all on board fishing and processing activities;
- (b) the additional allocation granted to an individual vessel that participates in trials on fully documented fisheries shall not exceed any of the following limits:
  - (i) 75 % of the discards of the stock, as estimated by the relevant Member State, produced by the type of vessel to which the individual vessel that has been granted the additional allocation belongs.
  - (ii) 30 % of the vessel's individual allocation prior to participating in the trials.
- (c) all catches by the vessel from the stock subject to the additional allocation, including fish that are under minimum landing size as defined in Annex XII of Regulation (EC) No 850/98, shall be counted against the individual allocation of the vessel, as resulting from any additional allocation granted under this Article.
- (d) once the individual allocation for any stock subject to the additional allocation has been fully utilised by a vessel, the vessel in question must cease all fishing activity in the relevant TAC area.
- (e) in respect of the stocks for which this Article may be used, the Member States may allow transfers of the individual allocation or any part thereof from vessels not participating in the fully documented fisheries trials to vessels participating in those trials provided that it can be demonstrated that discards by the non-participating vessels do not increase.
- 4. Notwithstanding point (i) of point (b) of paragraph 3, a Member State may exceptionally grant to a vessel flying its flag an additional allocation exceeding 75 % of the estimated discards of the stock produced by the type of vessel to which the individual vessel that has been granted the additional allocation belongs, provided that:
- (a) the rate of stock discards, as estimated for the relevant type of vessel, is less than 10 %;
- (b) the inclusion of that type of vessel is important to evaluate the potential of the CCTV system for control purposes;
- (c) an overall limit of 75 % of the estimated stock discards produced by all vessels participating in the trials is not exceeded.
- 5. To the extent that the recordings obtained in accordance with point (a) of paragraph 3 involve the processing of personal data within the meaning of Directive 95/46/EC, that Directive shall apply to the processing of such data.
- 6. Where a Member State detects that a vessel participating in trials on fully documented fisheries fails to comply with the conditions set out in paragraph 3, it shall immediately withdraw the additional allocation granted to that vessel and exclude it from participation in those trials for the remainder of the year 2013.

- 7. Prior to granting the additional allocation referred to in paragraphs 1 to 6, a Member State shall submit to the Commission the following information:
- (a) the list of vessels flying its flag and participating in trials on fully documented fisheries;
- (b) the specifications of the remote electronic monitoring equipment installed on board those vessels;
- (c) the capacity, type and specification of gears used by those vessels;
- (d) the estimated discards for each type of vessel participating in the trials;
- (e) the amount of catches of the stock subject to the relevant TAC made in 2012 by the vessels participating in the trials.
- 8. The Commission may request any Member State that avails itself of this Article to submit its assessment of the discards produced per type of vessel to a scientific advisory body for review, in order to monitor the implementation of the requirement set out in point (i) of point (b) of paragraph 3. In the absence of an assessment confirming such discards, the Member State concerned shall take any appropriate measure to ensure compliance with that requirement and inform the Commission thereof.

#### Article 8

# Conditions for landing catches and by-catches

Fish from stocks for which TACs are established shall be retained on board or landed only if:

- (a) the catches have been taken by vessels flying the flag of a Member State having a quota and that quota is not exhausted; or
- (b) the catches consist of a share in a EU quota which has not been allocated by quota among Member States, and that EU quota has not been exhausted.

#### Article 9

# Fishing effort limits

From 1 February 2013 to 31 January 2014, the fishing effort measures laid down in:

- (a) Annex IIA, shall apply for the management of cod stocks in the Kattegat, ICES divisions VIIa and VIa, and EU waters of ICES division Vb;
- (b) Annex IIB, shall apply for the recovery of hake and Norway lobster in ICES divisions VIIIc and IXa, with the exception of the Gulf of Cádiz;

(c) Annex IIC, shall apply for the management of the sole stock in ICES division VIIe.

#### Article 10

### Special provisions on allocations of fishing opportunities

- 1. The allocation of fishing opportunities among Member States as set out in this Regulation shall be without prejudice to:
- (a) exchanges made pursuant to Article 20(5) of Regulation (EC) No 2371/2002;
- (b) reallocations made pursuant to Article 37 of Regulation (EC) No 1224/2009 or pursuant to Article 10(4) of Regulation (EC) No 1006/2008 (1);
- (c) additional landings allowed under Article 3 of Regulation (EC) No 847/96;
- (d) quantities withheld in accordance with Article 4 of Regulation (EC) No 847/96;
- (e) deductions made pursuant to Articles 37, 105, 106 and 107 of Regulation (EC) No 1224/2009.
- 2. Except where otherwise specified in Annex I to this Regulation, Article 3 of Regulation (EC) No 847/96 shall apply to stocks subject to precautionary TAC and Article 3(2) and (3) and Article 4 of that Regulation shall apply to stocks subject to analytical TAC.

### Article 11

# Closed fishing season

- 1. It shall be prohibited to fish or retain on board any of the following species in the Porcupine Bank during the period from 1 May to 31 May 2013: cod, megrims, anglerfish, haddock, whiting, hake, Norway lobster, plaice, pollack, saithe, skates and rays, common sole and spurdog.
- 2. For the purposes of this Article, the Porcupine Bank shall comprise the geographical area bounded by rhumb lines sequentially joining the following positions:

<sup>(</sup>¹) Council Regulation (EC) No 1006/2008 of 29 September 2008 concerning authorisations for fishing activities of Community fishing vessels outside Community waters and the access of third country vessels to Community waters (OJ L 286, 29.10.2008, p. 33).

Point	Latitude	Longitude
1	52° 27′ N	12° 19′ W
2	52° 40′ N	12° 30′ W
3	52° 47′ N	12° 39,600′ W
4	52° 47′ N	12° 56′ W
5	52° 13,5′ N	13° 53,830′ W
6	51° 22′ N	14° 24′ W
7	51° 22′ N	14° 03′ W
8	52° 10′ N	13° 25′ W
9	52° 32′ N	13° 07,500′ W
10	52° 43′ N	12° 55′ W
11	52° 43′ N	12° 43′ W
12	52° 38,800′ N	12° 37′ W
13	52° 27′ N	12° 23′ W
14	52° 27′ N	12° 19′ W

3. By way of derogation from paragraph 1, transit through the Porcupine Bank while carrying on board the species referred to in that paragraph, shall be permitted in accordance with Article 50(3), (4) and (5) of Regulation (EC) No 1224/2009.

# Article 12

### **Prohibitions**

- 1. It shall be prohibited for EU vessels to fish for, to retain on board, to tranship or to land the following species:
- (a) basking shark (*Cetorhinus maximus*) and white shark (*Carcharodon carcharias*) in all waters;
- (b) porbeagle (*Lamna nasus*) in all waters, except where it is provided otherwise in Annex I Part B;
- (c) angel shark (Squatina squatina) in EU waters;
- (d) common skate (*Dipturus batis*) in EU waters of ICES division IIa and ICES subareas III, IV, VI, VII, VIII, IX and X;
- (e) undulate ray (*Raja undulata*) and white skate (*Raja alba*) in EU waters of ICES subareas VI, VII, VIII, IX and X;
- (f) guitarfishes (*Rhinobatidae*) in EU waters of ICES subareas I, II, III, IV, V, VI, VII, VIII, IX, X and XII;
- (g) giant manta ray (Manta birostris) in all waters.
- 2. When accidentally caught, species referred to in paragraph 1 shall not be harmed. Specimens shall be promptly released.

### Article 13

### **Data transmission**

When, pursuant to Articles 33 and 34 of Regulation (EC) No 1224/2009, Member States submit to the Commission data relating to landings of quantities of stocks caught, they shall use the stock codes set out in Annex I to this Regulation.

### TITLE III

### FINAL PROVISIONS

### Article 14

# Committee procedure

- 1. The Commission shall be assisted by the Committee for Fisheries and Aquaculture established by Regulation (EC) No 2371/2002. That committee shall be a committee within the meaning of Regulation (EU) No 182/2011.
- 2. Where reference is made to this paragraph, Article 5 of Regulation (EU) No 182/2011 shall apply.

# Article 15

# Entry into force and application

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 January 2013.

However, Article 9 shall apply from 1 February 2013.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

# LIST OF ANNEXES

ANNEX I: TACs applicable to EU vessels in areas where TACs

exist by species and by area:

Part A: General provisions

Kattegat, ICES subareas I, II, III, IV, V, VI, VII, VIII, IX, X, XII and XIV, EU waters of Part B:

CECAF, French Guiana waters

ANNEX IIA: Fishing effort for vessels in the context of the

management of cod stocks in the Kattegat, ICES divisions VIa and VIIa, and EU waters of ICES

division Vb

ANNEX IIB: Fishing effort for vessels in the context of the recovery of

certain Southern hake and Norway lobster stocks in ICES divisions VIIIc and IXa excluding the Gulf of Cádiz

ANNEX IIC: Fishing effort for vessels in the context of the

management of Western Channel sole stocks in ICES

division VIIe

### ANNEX I

# TACS APPLICABLE TO EU VESSELS IN AREAS WHERE TACS EXIST BY SPECIES AND BY AREA

### PART A

### General provisions

The tables in Part B of this Annex set out the TACs and quotas (in tonnes live weight, except where otherwise specified) by stock, and conditions functionally linked thereto, where appropriate.

All fishing opportunities set out in this Annex shall be subject to the rules set out in Regulation (EC) No 1224/2009, and in particular Articles 33 and 34 of that Regulation.

The references to fishing zones are references to ICES zones, unless otherwise specified. Within each area, fish stocks are referred to following the alphabetical order of the Latin names of the species. For the purposes of this Regulation, the following comparative table of Latin names and common names is provided:

Scientific name	Alpha-3 code	Common name
Amblyraja radiata	RJR	Starry ray
Ammodytes spp.	SAN	Sandeels
Argentina silus	ARU	Greater silver smelt
Beryx spp.	ALF	Alfonsinos
Brosme brosme	USK	Tusk
Caproidae	BOR	Boarfish
Centrophorus squamosus	GUQ	Leafscale gulper shark
Centroscymnus coelolepis	CYO	Portuguese dogfish
Chaceon spp.	GER	Deep sea red crab
Champsocephalus gunnari	ANI	Mackerel icefish
Chionoecetes spp.	PCR	Snow crab
Clupea harengus	HER	Herring
Coryphaenoides rupestris	RNG	Roundnose grenadier
Dalatias licha	SCK	Kitefin shark
Deania calcea	DCA	Birdbeak dogfish
Dipturus batis	RJB	Common skate
Dissostichus eleginoides	TOP	Patagonian toothfish
Dissostichus mawsoni	TOA	Antarctic toothfish
Engraulis encrasicolus	ANE	Anchovy
Etmopterus princeps	ETR	Great lanternshark
Etmopterus pusillus	ETP	Smooth lanternshark
Euphausia superba	KRI	Krill
Gadus morhua	COD	Cod
Galeorhinus galeus	GAG	Tope shark
Glyptocephalus cynoglossus	WIT	Witch flounder

Scientific name	Alpha-3 code	Common name
Hippoglossoides platessoides	PLA	American plaice
Hippoglossus hippoglossus	HAL	Atlantic halibut
Hoplostethus atlanticus	ORY	Orange roughy
Illex illecebrosus	SQI	Shortfin squid
Lamna nasus	POR	Porbeagle
Lepidonotothen squamifrons	NOS	Grey rockcod
Lepidorhombus spp.	LEZ	Megrims
Leucoraja naevus	RJN	Cuckoo ray
Limanda ferruginea	YEL	Yellowtail flounder
Limanda limanda	DAB	Common dab
Lophiidae	ANF	Anglerfish
Macrourus spp.	GRV	Grenadiers
Makaira nigricans	BUM	Blue marlin
Mallotus villosus	CAP	Capelin
Manta birostris	RMB	Giant manta ray
Martialia hyadesi	SQS	Squid
Melanogrammus aeglefinus	HAD	Haddock
Merlangius merlangus	WHG	Whiting
Merluccius merluccius	HKE	Hake
Micromesistius poutassou	WHB	Blue whiting
Microstomus kitt	LEM	Lemon sole
Molva dypterygia	BLI	Blue ling
Molva molva	LIN	Ling
Nephrops norvegicus	NEP	Norway lobster
Pandalus borealis	PRA	Northern prawn
Paralomis spp.	PAI	Crabs
Penaeus spp.	PEN	"Penaeus" shrimps
Platichthys flesus	FLE	European flounder
Pleuronectes platessa	PLE	Plaice
Pleuronectiformes	FLX	Flatfish
Pollachius pollachius	POL	Pollack
Pollachius virens	POK	Saithe
Psetta maxima	TUR	Turbot
Raja alba	RJA	White skate
Raja brachyura	RJH	Blonde ray
Raja circularis	RJI	Sandy ray
Raja clavata	RJC	Thornback ray
Raja fullonica	RJF	Shagreen ray

Scientific name	Alpha-3 code	Common name
Raja (Dipturus) nidarosiensis	JAD	Norwegian skate
Raja microocellata	RJE	Small-eyed ray
Raja montagui	RJM	Spotted ray
Raja undulata	RJU	Undulate ray
Rajiformes	SRX	Skates and rays
Reinhardtius hippoglossoides	GHL	Greenland halibut
Scomber scombrus	MAC	Mackerel
Scophthalmus rhombus	BLL	Brill
Sebastes spp.	RED	Redfish
Solea solea	SOL	Common sole
Solea spp.	SOO	Sole
Sprattus sprattus	SPR	Sprat
Squalus acanthias	DGS	Spurdog/dogfish
Tetrapturus albidus	WHM	White marlin
Thunnus maccoyii	SBF	Southern bluefin tuna
Thunnus obesus	BET	Bigeye tuna
Thunnus thynnus	BFT	Bluefin tuna
Trachurus murphyi	CJM	Jack mackerel
Trachurus spp.	JAX	Horse mackerel
Trisopterus esmarkii	NOP	Norway pout
Urophycis tenuis	HKW	White hake
Xiphias gladius	SWO	Swordfish

The following comparative table of common names and Latin names is provided exclusively for explanatory purposes:

Alfonsinos	ALF	Beryx spp.
American plaice	PLA	Hippoglossoides platessoides
Anchovy	ANE	Engraulis encrasicolus
Anglerfish	ANF	Lophiidae
Antarctic toothfish	TOA	Dissostichus mawsoni
Atlantic halibut	HAL	Hippoglossus hippoglossus
Bigeye tuna	BET	Thunnus obesus
Birdbeak dogfish	DCA	Deania calcea
Blonde ray	RJH	Raja brachyura
Blue ling	BLI	Molva dypterygia
Blue marlin	BUM	Makaira nigricans
Blue whiting	WHB	Micromesistius poutassou
Bluefin tuna	BFT	Thunnus thynnus

Boarfish	BOR	Caproidae
Brill	BLL	Scophthalmus rhombus
Capelin	CAP	Mallotus villosus
Cod	COD	Gadus morhua
Common dab	DAB	Limanda limanda
Common skate	RJB	Dipturus batis
Common sole	SOL	Solea solea
Crabs	PAI	Paralomis spp.
Cuckoo ray	RJN	Leucoraja naevus
Deep sea red crab	GER	Chaceon spp.
European flounder	FLE	Platichthys flesus
Flatfish	FLX	Pleuronectiformes
Giant manta ray	RMB	Manta birostris
Great lanternshark	ETR	Etmopterus princeps
Greater silver smelt	ARU	Argentina silus

#### ANNEX IIA

# FISHING EFFORT FOR VESSELS IN THE CONTEXT OF THE MANAGEMENT OF COD STOCKS IN THE KATTEGAT, ICES DIVISIONS VIA AND VIIA AND EU WATERS OF ICES DIVISION Vb

#### 1. Scope

- 1.1. This Annex shall apply to EU vessels carrying on board or deploying any of the gears referred to in point 1 of Annex I to Regulation (EC) No 1342/2008 and present in any of the geographical areas specified in point 2 of this Annex.
- 1.2. This Annex shall not apply to vessels of less than 10 metres' length overall. Those vessels shall not be required to carry fishing authorisations issued in accordance with Article 7 of Regulation (EC) No 1224/2009. Member States concerned shall assess the fishing effort of those vessels by effort groups to which they belong, using appropriate sampling methods. During 2013, the Commission shall seek scientific advice for evaluating the effort deployment of those vessels, with a view to their future inclusion into the effort regime.

#### 2. Regulated gears and geographical areas

For the purposes of this Annex, the gear groupings referred to in point 1 of Annex I to Regulation (EC) No 1342/2008 ("regulated gear") and the groupings of geographical areas referred to in points 2(a), 2(c) and 2(d) of that Annex shall apply.

#### 3. Authorisations

If a Member State deems so appropriate in order to reinforce the sustainable implementation of this effort regime, it shall not issue an authorisation for fishing with a regulated gear in any of the geographical areas to which this Annex applies by any of vessels flying its flag which has no record of such fishing activity, unless it ensures that equivalent capacity, measured in kilowatts, is prevented from fishing in that area.

#### 4. Maximum allowable fishing effort

- 4.1. The maximum allowable effort referred to in Article 12(1) of Regulation (EC) No 1342/2008 for the 2013 management period, i.e. from 1 February 2013 to 31 January 2014, for each of the effort groups of each Member State is set out in Appendix 1 to this Annex.
- 4.2. The maximum levels of annual fishing effort set in accordance with Regulation (EC) No 1954/2003 (¹) shall not affect the maximum allowable fishing effort set in this Annex.

#### 5. Management

- 5.1. Member States shall manage the maximum allowable effort in accordance with the conditions laid down in Article 4 and Articles 13 to 17 of Regulation (EC) No 1342/2008 and Articles 26 to 35 of Regulation (EC) No 1224/2009.
- 5.2. A Member State may establish management periods for allocating all or parts of the maximum allowable effort to individual vessels or groups of vessels. In such case, the number of days or hours for which a vessel may be present within the area during a management period shall be fixed at the discretion of the Member State concerned. During any such management periods, the Member State concerned may reallocate effort between individual vessels or groups of vessels.

<sup>(</sup>¹) Council Regulation (EC) No 1954/2003 of 4 November 2003 on the management of the fishing effort relating to certain Community fishing areas and resources (OJ L 289, 7.11.2003, p. 1).

5.3. If a Member State authorises vessels flying its flag to be present within an area by hours, it shall continue measuring the consumption of days in accordance with the conditions referred to in point 5.1. Upon request by the Commission, the Member State concerned shall demonstrate its precautionary measures taken to avoid an excessive consumption of effort within the area due to a vessel terminating presences in the area before the end of a 24-hour period.

#### 6. Fishing effort report

Article 28 of Regulation (EC) No 1224/2009 shall apply to vessels falling under the scope of this Annex. The geographical area referred to in that Article shall be understood, for the purpose of cod management, as each of the groupings of geographical areas referred to in point 2 of this Annex.

#### 7. Communication of relevant data

Member States shall transmit to the Commission the data on fishing effort deployed by their fishing vessels in accordance with Articles 33 and 34 of Regulation (EC) No 1224/2009. These data shall be transmitted via the Fisheries Data Exchange System or any future data collection system implemented by the Commission.

#### ANNEX IIB

FISHING EFFORT FOR VESSELS IN THE CONTEXT OF THE RECOVERY OF CERTAIN SOUTHERN HAKE AND NORWAY LOBSTER STOCKS IN ICES DIVISIONS VIIIc AND IXa EXCLUDING THE GULF OF CÁDIZ

#### CHAPTER I

#### **GENERAL PROVISIONS**

#### 1. Scope

This Annex shall apply to EU vessels of 10 metres' length overall or more carrying on board or deploying trawls, Danish seines or similar gears of mesh size equal to or larger than 32 mm and gill-nets of mesh size equal to or larger than 60 mm or bottom longlines in accordance with Regulation (EC) No 2166/2005, and present in ICES divisions VIIIc and IXa excluding the Gulf of Cádiz.

#### 2. **Definitions**

For the purposes of this Annex:

- (a) 'gear grouping' means the grouping consisting of the following two gear categories:
  - trawls, Danish seines or similar gears of mesh size equal to or larger than 32 mm and
  - (ii) gill-nets of mesh size equal to or larger than 60 mm and bottom longlines;
- (b) 'regulated gear' means any of the two gear categories belonging to the gear grouping;
- (c) 'area' means ICES divisions VIIIc and IXa excluding the Gulf of Cádiz;
- (d) '2013 management period' means the period from 1 February 2013 to 31 January 2014;
- (e) 'special conditions' means the special conditions set out in point 6.1.

### 3. Limitation in activity

Without prejudice to Article 29 of Regulation (EC) No 1224/2009, each Member State shall ensure that, when carrying on board any regulated gear, EU vessels flying its flag shall be present within the area for no more than the number of days specified in Chapter III of this Annex.

#### CHAPTER II

### AUTHORISATIONS

#### 4. Authorised vessels

- 4.1. A Member State shall not authorise fishing with a regulated gear in the area by any of vessels flying its flag which have no record of such fishing activity in the years 2002 to 2012 in the area, excluding the record of fishing activities as a result of transfer of days between fishing vessels, unless it ensures that equivalent capacity, measured in kilowatts, is prevented from fishing in the area.
- 4.2. A vessel flying the flag of a Member State having no quotas in the area shall not be authorised to fish in the area with a regulated gear, unless the vessel is allocated a quota after a transfer as permitted in accordance with Article 20(5) of Regulation (EC) No 2371/2002 and is allocated days at sea in accordance with point 11 or 12 of this Annex.

#### CHAPTER III

# NUMBER OF DAYS PRESENT WITHIN THE AREA ALLOCATED TO EU VESSELS

#### 5. Maximum number of days

- 5.1. During the 2013 management period, the maximum number of days at sea for which a Member State may authorise a vessel flying its flag to be present within the area having carried on board any regulated gear is shown in Table I
- 5.2. If a vessel is able to demonstrate that its hake catches represent less than 4 % of the total live weight of fish caught in a given fishing trip, the flag Member State of the vessel shall be allowed not to count the days at sea associated with that fishing trip against the applicable maximum number of days at sea as set out in Table I.

#### 6. Special conditions for the allocation of days

- 6.1. For the purposes of fixing the maximum number of days at sea an EU vessel may be authorised by its flag Member State to be present within the area, the following special conditions shall apply in accordance with Table I:
  - (a) the total landings of hake in the year 2010 or 2011 made by the vessel concerned shall represent less than 5 tonnes according to the landings in live weight; and
  - (b) the total landings of Norway lobster in the year 2010 or 2011 made by the vessel concerned shall represent less than 2,5 tonnes according to the landings in live weight.
- 6.2. If a vessel benefits from an unlimited number of days as a result of its compliance with the special conditions, the vessel's landings in the 2013 management period shall not exceed 5 tonnes of the total landings in live weight of hake and 2,5 tonnes of the total landings in live weight of Norway lobster.
- 6.3. When either of the special conditions is not met by a vessel, that vessel shall, with immediate effect, no longer be entitled to the allocation of days corresponding to the given special condition.
- 6.4. The application of the special conditions referred to in point 6.1. may be transferred from one vessel to one or more other vessels which replace that vessel in the fleet, provided that the replacing vessel uses similar gear and does not have in any year of its operation a record of landings of hake and Norway lobster higher than the quantities specified in point 6.1.

 $\label{eq:Table I} Table \ I$  Maximum number of days a vessel may be present within the area by fishing gear per year

Special condition	Regulated gear	Maximun of o	n number lays		
	Bottom trawls, Danish seines and similar trawls of mesh size ≥ 32 mm,				
	gill-nets of mesh size $\geq$ 60 mm and bottom longlines	FR	134		
		PT	140		
6.1.(a) and 6.1.(b)	Bottom trawls, Danish seines and similar trawls of mesh size ≥ 32 mm, gill-nets of mesh size ≥ 60 mm and bottom longlines	Unlii	mited		

#### 7. Kilowatt day system

- 7.1. A Member State may manage its fishing effort allocations in accordance with a kilowatt days system. Through that system it may authorise any vessel concerned by any regulated gear and special conditions as set out in Table I to be present within the area for a maximum number of days which is different from that set out in that Table, provided that the overall amount of kilowatt days corresponding to the regulated gear and to the special conditions is respected.
- 7.2. This overall amount of kilowatt days shall be the sum of all individual fishing efforts allocated to the vessels flying the flag of that Member State and qualified for the regulated gear and, where applicable, the special conditions. Such individual fishing efforts shall be calculated in kilowatt days by multiplying the engine power of each vessel by the number of days at sea it would benefit from, according to Table I, if point 7.1. were not applied. For as long as the number of days is unlimited according to Table I, the relevant number of days the vessel would benefit from is 360.
- 7.3. A Member State wishing to benefit from the system referred to in point 7.1. shall submit a request to the Commission, with reports in electronic format containing, for the regulated gear and special conditions as laid down in Table I, the details of the calculation based on:
  - (a) list of vessels authorised to fish by indicating their EU fishing fleet register number (CFR) and their engine power;
  - (b) track record of 2010 and 2011 for such vessels reflecting the catch composition defined in the special condition referred to in point 6.1.(a) or (b), if these vessels are qualified for such special conditions;
  - (c) the number of days at sea for which each vessel would have initially been authorised to fish according to Table I and the number of days at sea which each vessel would benefit from in application of point 7.1.
- 7.4. On the basis of that request, the Commission shall assess whether the conditions referred to in point 7 are complied with and, where applicable, may authorise that Member State to benefit from the system referred to in point 7.1.

# 8. Allocation of additional days for permanent cessation of fishing

- 8.1. An additional number of days at sea on which a vessel may be authorised by its flag Member State to be present within the area when carrying on board any regulated gear may be allocated to a Member State by the Commission on the basis of permanent cessations of fishing activities that have taken place between 1 February 2012 and 31 January 2013 either in accordance with Article 23 of Regulation (EC) No 1198/2006 (¹) or Regulation (EC) No 744/2008 (²). Permanent cessations resulting from any other circumstances may be considered by the Commission on a case-by-case basis, following a written and duly motivated request from the Member State concerned. Such written request shall identify the vessels concerned and confirm, for each of them, that they shall never return to fishing activities.
- 8.2. The effort expended in 2003 measured in kilowatt days of the withdrawn vessels using the regulated gear shall be divided by the effort expended by all vessels using that gear during 2003. The additional number of days at sea shall be then calculated by multiplying the ratio so obtained by the number of days that would have been allocated according to Table I. Any part of a day resulting from that calculation shall be rounded to the nearest whole day.

Council Regulation (EC) No 1198/2006 of 27 July 2006 on the European Fisheries Fund (OJ L 223, 15.8.2006, p. 1).

<sup>(2)</sup> Council Regulation (EC) No 744/2008 of 24 July 2008 instituting a temporary specific action aiming to promote the restructuring of the European Community fishing fleets affected by the economic crisis (OJ L 202, 31.7.2008, p. 1).

- 8.3. Points 8.1. and 8.2. shall not apply where a vessel has been replaced in accordance with point 3 or 6.4., or when the withdrawal has already been used in previous years to obtain additional days at sea.
- 8.4. A Member State wishing to benefit from the allocations referred to in point 8.1. shall submit a request to the Commission, by 15 June 2013, with reports in electronic format containing, for the gear grouping and special conditions as laid down in Table I, the details of the calculation based on:
  - (a) lists of withdrawn vessels with their EU fishing fleet register number (CFR) and their engine power;
  - (b) the fishing activity deployed by such vessels in 2003 calculated in days at sea according to the grouping of fishing gears and, if necessary, special conditions.
- 8.5. On the basis of such a request by a Member State the Commission may, by means of implementing acts, allocate that Member State a number of days additional to that referred to in point 5.1. for that Member State. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 14(2).
- 8.6. During the 2013 management period, a Member State may re-allocate those additional days at sea to all or part of the vessels remaining in fleet and qualified for the regulated gears. Additional days stemming from a withdrawn vessel that benefited from a special condition referred to in point 6.1.(a) or (b) may not be allocated to a vessel remaining active that does not benefit from a special condition.
- 8.7. When the Commission allocates additional days at sea due to a permanent cessation of fishing activities during the 2013 management period, the maximum number of days per Member State and gear shown in Table I shall be adjusted accordingly for the 2014 management period.

# 9. Allocation of additional days for enhanced scientific observer coverage

- 9.1. Three additional days on which a vessel may be present within the area when carrying on board any regulated gear may be allocated to a Member State by the Commission on the basis of an enhanced programme of scientific observer coverage in partnership between scientists and the fishing industry. Such a programme shall focus in particular on levels of discarding and on catch composition and shall go beyond the requirements on data collection, as laid down in Regulation (EC) No 199/2008 (¹) and its implementing rules for national programmes.
- 9.2. Scientific observers shall be independent from the owner, the master of the vessel and any crew member.
- 9.3. A Member State wishing to benefit from the allocations referred to in point 9.1. shall submit a description of its enhanced scientific observer coverage programme to the Commission for approval.
- 9.4. On the basis of that description, and after consultation with STECF, the Commission may, by means of implementing acts, allocate the Member State concerned a number of days additional to that referred to in point 5.1. for that Member State and for the vessels, the area and gear concerned by the enhanced programme of scientific observers. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 14(2).

<sup>(</sup>¹) Council Regulation (EC) No 199/2008 of 25 February 2008 concerning the establishment of a Community framework for the collection, management and use of data in the fisheries sector and support for scientific advice regarding the Common Fisheries Policy (OJ L 60, 5.3.2008, p. 1).

9.5. If an enhanced scientific observer coverage programme submitted by a Member State has been approved by the Commission in the past and the Member State concerned wishes to continue its application without changes, it shall inform the Commission of the continuation of that programme four weeks before the beginning of the period for which the programme applies.

#### CHAPTER IV

#### MANAGEMENT

#### 10. General obligation

Member States shall manage the maximum allowable effort in accordance with the conditions laid down in Article 8 of Regulation (EC) No 2166/2005 and Articles 26 to 35 of Regulation (EC) No 1224/2009.

#### 11. Management periods

- 11.1. A Member State may divide the days present within the area set out in Table I into management periods of durations of one or more calendar months.
- 11.2. The number of days or hours for which a vessel may be present within the area during a management period shall be fixed by the Member State concerned.
- 11.3. Where a Member State authorises vessels flying its flag to be present within the area by hours, the Member State shall continue measuring the consumption of days as specified in point 10. Upon request by the Commission, the Member State shall demonstrate its precautionary measures taken to avoid an excessive consumption of days within the area due to a vessel terminating presences in the area before the end of a 24-hour period.

#### CHAPTER V

### **EXCHANGES OF FISHING EFFORT ALLOCATIONS**

- 12. Transfer of days between fishing vessels flying the flag of a Member State
- 12.1. A Member State may permit any fishing vessel flying its flag to transfer days present within the area for which it has been authorised to another vessel flying its flag within the area, provided that the product of the days received by a vessel multiplied by its engine power in kilowatts (kilowatt days) is equal to or less than the product of the days transferred by the donor vessel and the engine power in kilowatts of that vessel. The engine power in kilowatts of the vessels shall be that recorded for each vessel in the EU fishing fleet register.
- 12.2. The total number of days present within the area transferred in accordance with point 12.1., multiplied by the engine power in kilowatts of the donor vessel, shall not be higher than the donor vessel's average annual days track record in the area as verified by the fishing logbook in the years 2010 and 2011 multiplied by the engine power in kilowatts of that vessel.
- 12.3. The transfer of days as described in point 12.1. shall be permitted between vessels operating with any regulated gear and during the same management period.
- 12.4. The transfer of days is only permitted for vessels benefiting from an allocation of fishing days without special conditions.
- 12.5. On request from the Commission, Member States shall provide information on the transfers that have taken place. The format of spreadsheets for the collection and transmission of information referred to in this point may be established by the Commission, by means of implementing acts. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 14(2).

## **▼**B

# 13. Transfer of days between fishing vessels flying the flag of different Member States

Member States may permit the transfer of days present within the area for the same management period and within the area between any fishing vessels flying their flags provided that points 4.1. and 4.2. and 12 apply *mutatis mutandis*. Where Member States decide to authorise such a transfer, they shall notify the Commission, before the transfer takes place, of the details of the transfer, including the number of days to be transferred, the fishing effort and, where applicable, the fishing quotas relating thereto.

#### CHAPTER VI

#### REPORTING OBLIGATIONS

#### 14. Fishing effort report

Article 28 of Regulation (EC) No 1224/2009 shall apply to vessels falling under the scope of this Annex. The geographical area referred to in that Article shall be understood as the area specified in point 2 of this Annex.

#### 15. Collection of relevant data

Member States, on the basis of information used for the management of fishing days present within the area as set out in this Annex, shall collect on a quarterly basis the information about total fishing effort deployed within the area for towed gears and static gears, effort deployed by vessels using different types of gear in the area, and the engine power of those vessels in kilowatt days.

#### 16. Communication of relevant data

Upon request from the Commission, Member States shall make available to the Commission a spreadsheet with data specified in point 15 in the format specified in Tables II and III by sending it to the appropriate electronic mailbox address, which shall be communicated to the Member States by the Commission. Member States shall, upon the Commission's request, send to the Commission detailed information on effort allocated and consumed covering all or parts of the 2012 and 2013 management periods, using the data format specified in Tables IV and V.

#### ANNEX IIC

# FISHING EFFORT FOR VESSELS IN THE CONTEXT OF THE MANAGEMENT OF WESTERN CHANNEL SOLE STOCKS IN ICES DIVISION VIIe

#### CHAPTER I

#### GENERAL PROVISIONS

#### 1. Scope

- 1.1. This Annex shall apply to EU vessels of 10 metres length overall or more carrying on board or deploying beam trawls of mesh size equal to or greater than 80 mm and static nets including gill-nets, trammel-nets and tangle-nets with mesh size equal to or less than 220 mm in accordance with Regulation (EC) No 509/2007, and present in ICES division VIIe. For the purposes of this Annex, a reference to the 2013 management period means the period from 1 February 2013 to 31 January 2014.
- 1.2. Vessels fishing with static nets with mesh size equal to or larger than 120 mm and with track records of less than 300 kg live weight of sole per year during the three previous years, according to their fishing records, shall be exempt from the application of this Annex subject to the following conditions:
  - (a) such vessels catch less than 300 kg live weight of sole during the 2013 management period;
  - (b) such vessels do not tranship any fish at sea to another vessel;
  - (c) by 31 July 2013 and 31 January 2014 each Member State concerned make a report to the Commission on these vessels' catch records for sole in the three previous years as well as on catches of sole in 2013.

Where any of these conditions is not met, the vessels concerned shall, with immediate effect, cease to be exempt from the application of this Annex.

#### 2. **Definitions**

For the purposes of this Annex the following definitions shall apply:

- (a) 'gear grouping' means the grouping consisting of the following two gear categories:
  - (i) beam trawls of mesh size equal to or greater than 80 mm and
  - (ii) a static nets, including gill-nets, trammel nets and tangle-nets, with mesh size equal to or less than 220 mm;
- (b) 'regulated gear' means any of the two gear categories belonging to the gear grouping;
- (c) 'area' means ICES division VIIe;
- (d) '2013 management period' means the period from 1 February 2013 to 31 January 2014.

## 3. Limitation in activity

Without prejudice to Article 29 of Regulation (EC) No 1224/2009, each Member State shall ensure that, when carrying on board any regulated gear, EU vessels flying its flag and registered in the Union shall be present within the area for no more than the number of days set out in Chapter III of this Annex.

#### CHAPTER II

#### AUTHORISATIONS

#### 4. Authorised vessels

- 4.1 A Member State shall not authorise fishing with a regulated gear in the area by any of vessels flying its flag which have no record of such fishing activity in the years 2002 to 2012 in that area unless it ensures that equivalent capacity, measured in kilowatts, is prevented from fishing in the area.
- 4.2 However, a vessel with a track record of using a regulated gear may be authorised to use a different fishing gear, provided that the number of days allocated to this latter gear is greater than or equal to the number of days allocated to the regulated gear.
- 4.3 A vessel flying the flag of a Member State having no quotas in the area shall not be authorised to fish in the area with a regulated gear, unless the vessel is allocated a quota after a transfer as permitted in accordance with Article 20(5) of Regulation (EC) No 2371/2002 and is allocated days at sea in accordance with point 10 or 11 of this Annex.

#### CHAPTER III

# NUMBER OF DAYS PRESENT WITHIN THE AREA ALLOCATED TO EU VESSELS

#### 5. Maximum number of days

During the 2013 management period, the maximum number of days at sea for which a Member State may authorise a vessel flying its flag to be present within the area having carried on board any regulated gear is shown in Table I.

 $Table\ I$  Maximum number of days a vessel may be present within the area by category of regulated gear per year

Regulated gear	Maximum number of days
Beam trawls of mesh size ≥ 80 mm	164
Static nets with mesh size ≤ 220 mm	164

#### 6. Kilowatt day system

- 6.1. During the 2013 management period, a Member State may manage its fishing effort allocations in accordance with a kilowatt days system. Through that system it may authorise any vessel concerned by any regulated gear as set out in Table I to be present within the area for a maximum number of days which is different from that set out in that Table, provided that the overall amount of kilowatt days corresponding to the regulated gear is respected.
- 6.2. This overall amount of kilowatt days shall be the sum of all individual fishing efforts allocated to the vessels flying the flag of that Member State and qualified for the regulated gear. Such individual fishing efforts shall be calculated in kilowatt days by multiplying the engine power of each vessel by the number of days at sea it would benefit from, according to Table I, if point 6.1. were not applied.
- 6.3. A Member State wishing to benefit from the system referred to in point 6.1. shall submit a request to the Commission, with reports in electronic format containing, for the regulated gear as laid down in Table I, the details of the calculation based on:
  - (a) list of vessels authorised to fish by indicating their EU fishing fleet register number (CFR) and their engine power;

- (b) the number of days at sea for which each vessel would have initially been authorised to fish according to Table I and the number of days at sea which each vessel would benefit from in application of point 6.1.
- 6.4. On the basis of that request, the Commission shall assess whether the conditions referred to in point 6 are complied with and, where applicable, may authorise that Member State to benefit from the system referred to in point 6.1.

# 7. Allocation of additional days for permanent cessation of fishing activities

- 7.1. An additional number of days at sea on which a vessel may be authorised by its flag Member State to be present within the area when carrying on board any regulated gear may be allocated to a Member State by the Commission on the basis of permanent cessations of fishing activities that have taken place since 1 January 2004 either in accordance with Article 23 of Regulation (EC) No 1198/2006 or Regulation (EC) No 744/2008. Permanent cessations resulting from any other circumstances may be considered by the Commission on a case-by-case basis, following a written and duly motivated request from the Member State concerned. Such written request shall identify the vessels concerned and confirm, for each of them, that they shall never return to fishing activities.
- 7.2. The effort expended in 2003 measured in kilowatt days of the withdrawn vessels using a given gear grouping shall be divided by the effort expended by all vessels using that gear grouping during 2003. The additional number of days at sea shall be then calculated by multiplying the ratio so obtained by the number of days that would have been allocated according to Table I. Any part of a day resulting from that calculation shall be rounded to the nearest whole day.
- 7.3. Points 7.1.and 7.2. shall not apply where a vessel has been replaced in accordance with point 4.2., or when the withdrawal has already been used in previous years to obtain additional days at sea.
- 7.4. A Member State wishing to benefit from the allocations referred to in point 7.1. shall submit a request to the Commission, by 15 June 2013, with reports in electronic format containing for the gear grouping as laid down in Table I, the details of the calculation based on:
  - (a) lists of withdrawn vessels with their EU fishing fleet register number (CFR) and their engine power;
  - (b) the fishing activity deployed by such vessels in 2003 calculated in days at sea according to the grouping of fishing gears.
- 7.5. On the basis of such a request by a Member State the Commission may, by means of implementing acts, allocate that Member State a number of days additional to that referred to in point 5 for that Member State. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 14(2).
- 7.6. During the 2013 management period, a Member State may re-allocate those additional days at sea to all or part of the vessels remaining in fleet and qualified for the regulated gears.
- 7.7. A Member State may not re-allocate in the 2013 management period any additional number of days resulting from a permanent cessation of activity previously allocated by the Commission, unless the Commission has taken a decision that reassesses those additional numbers of days on the basis of the current gear groupings and limitations in days at sea. Upon the Member State's request to reassess the number of days, the Member State is provisionally authorised to reallocate 50 % of the additional number of days, until the Commission takes its decision.

# 8. Allocation of additional days for enhanced scientific observer coverage

- 8.1. Three additional days on which a vessel may be present within the area when carrying on board any regulated gear may be allocated between 1 February 2013 and 31 January 2014 to a Member State by the Commission on the basis of an enhanced programme of scientific observer coverage in partnership between scientists and the fishing industry. Such a programme shall focus in particular on levels of discarding and on catch composition and go beyond the requirements on data collection, as laid down in Regulation (EC) No 199/2008 and its implementing rules for national programmes.
- 8.2. Scientific observers shall be independent from the owner, the master of the fishing vessel and any crew member.
- 8.3. A Member State wishing to benefit from the allocations referred to in point 8.1. shall submit a description of its enhanced scientific observer coverage programme to the Commission for approval.
- 8.4. On the basis of that description, and after consultation with STECF, the Commission may, by means of implementing acts, allocate the Member State concerned a number of days additional to that referred to in point 5 for that Member State and for the vessels, the area and gear concerned by the enhanced programme of scientific observers. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 14(2).
- 8.5. If an enhanced scientific observer coverage programme submitted by a Member State has been approved by the Commission in the past and the Member State concerned wishes to continue its application without changes, it shall inform the Commission of the continuation of that programme four weeks before the beginning of the period for which the programme applies.

#### CHAPTER IV

#### MANAGEMENT

#### 9. General obligation

Member States shall manage the maximum allowable effort in accordance with Articles 26 to 35 of Regulation (EC) No 1224/2009.

#### 10. Management periods

- 10.1. A Member State may divide the days present within the area set out in Table I into management periods of durations of one or more calendar months.
- 10.2. The number of days or hours for which a vessel may be present within the area during a management period shall be fixed by the Member State concerned
- 10.3. Where a Member State authorises vessels flying its flag to be present within the area by hours, the Member State shall continue measuring the consumption of days as specified in point 9. Upon request by the Commission, the Member State shall demonstrate its precautionary measures taken to avoid an excessive consumption of days within the area due to a vessel terminating presences in the area before the end of a 24-hours period.

#### CHAPTER V

#### **EXCHANGES OF FISHING EFFORT ALLOCATIONS**

# 11. Transfer of days between fishing vessels flying the flag of a Member State

11.1. A Member State may permit any fishing vessel flying its flag to transfer days present within the area for which it has been authorised to another vessel flying its flag within the area, provided that the product of the days received by a vessel multiplied by its engine power in kilowatts (kilowatt days) is equal to or less than the product of the days transferred by the donor vessel and the engine power in kilowatts of that vessel. The engine power in kilowatts of the vessels shall be that recorded for each vessel in the EU fishing fleet register.

- 11.2. The total number of days present within the area transferred in accordance with point 11.1., multiplied by the engine power in kilowatts of the donor vessel, shall not be higher than the donor vessel's average annual days track record in the area as verified by the fishing logbook in the years 2001, 2002, 2003, 2004 and 2005 multiplied by the engine power in kilowatts of that vessel.
- 11.3. The transfer of days as described in point 11.1. shall be permitted between vessels operating with any regulated gear and during the same management period.
- 11.4. On request from the Commission, Member States shall provide information on the transfers that have taken place. Formats of spreadsheet for the collection and transmission of information referred to in this point may be established by the Commission, by means of implementing acts. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 14(2).

# 12. Transfer of days between fishing vessels flying the flag of different Member States

Member States may permit transfer of days present within the area for the same management period and within the area between any fishing vessels flying their flags provided that points 4.2., 4.4., 5, 6 and 10 apply *mutatis mutandis*. Where Member States decide to authorise such a transfer, they shall notify the Commission before the transfer takes place, the details of the transfer, including the number of days to be transferred, the fishing effort and, where applicable, the fishing quotas relating thereto.

#### CHAPTER VI

## REPORTING OBLIGATIONS

#### 13. Fishing effort report

Article 28 of Regulation (EC) No 1224/2009 shall apply to vessels falling under the scope of this Annex. The geographical area referred to in that Article shall be understood as the area specified in point 2 of this Annex.

#### 14. Collection of relevant data

Member States, on the basis of information used for the management of fishing days present within the area as set out in this Annex, shall collect on a quarterly basis the information about total fishing effort deployed within the area for towed gears and static gears, effort deployed by vessels using different types of gear in the area, and the engine power of those vessels in kilowatt days.

#### 15. Communication of relevant data

Upon request from the Commission, Member States shall make available to the Commission a spreadsheet with data specified in point 14 in the format specified in Tables II and III by sending it to the appropriate electronic mailbox address, which shall be communicated to the Member States by the Commission. Member States shall, upon the Commission's request, send to the Commission detailed information on effort allocated and consumed covering all or parts of the 2012 and 2013 management periods, using the data format specified in Tables IV and V.

 $\label{eq:Table II} \emph{Reporting format kW-day information by year}$
