

Council Regulation (EU) No 40/2013 of 21 January 2013 fixing for 2013 the fishing opportunities available in EU waters and, to EU vessels, in certain non-EU waters for certain fish stocks and groups of fish stocks which are subject to international negotiations or agreements

TITLE II

FISHING OPPORTUNITIES FOR EU VESSELS

CHAPTER I

General provisions

Article 5

TACs and allocations

1 The TACs for EU vessels in EU waters or in certain non-EU waters and the allocation of such TACs among Member States, and the conditions functionally linked thereto, where appropriate, are set out in Annex I.

2 EU vessels are authorised to make catches, within the TACs set out in Annex I, in waters falling within the fisheries jurisdiction of the Faroe Islands, Greenland, Iceland and Norway, and the fishing zone around Jan Mayen, subject to the condition set out in Article 14 of and Annex III to this Regulation and in Regulation (EC) No 1006/2008⁽¹⁾ and its implementing provisions.

Article 6

Additional allocations for vessels participating in trials on fully documented fisheries

1 For certain stocks, a Member State may grant an additional allocation to vessels flying its flag and participating in trials on fully documented fisheries. Those stocks are identified in Annex I.

2 The additional allocation referred to in paragraph 1 shall not exceed the overall limit set out in Annex I as a percentage of the quota allocated to that Member State.

3 The additional allocation referred to in paragraph 1 shall comply with the following conditions:

- a the vessel makes use of close circuit television cameras (CCTV) associated to a system of sensors (jointly referred to as "the CCTV system") to record all on board fishing and processing activities;
- b the additional allocation granted to an individual vessel that participates in trials on fully documented fisheries shall not exceed any of the following limits:
 - (i) 75 % of the discards of the stock, as estimated by the relevant Member State, produced by the type of vessel to which the individual vessel that has been granted the additional allocation belongs;

Status: Point in time view as at 31/12/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 40/2013. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (ii) 30 % of the vessel's individual allocation prior to participating in the trials;
 - c all catches by the vessel from the stock subject to the additional allocation, including fish that are under minimum landing size as defined in Annex XII of Regulation (EC) No 850/98, shall be counted against the individual allocation of the vessel, as resulting from any additional allocation granted under this Article;
 - d once the individual allocation for any stock subject to the additional allocation has been fully utilised by a vessel, the vessel in question must cease all fishing activity in the relevant TAC area;
 - e in respect of the stocks for which this Article may be used, the Member States may allow transfers of the individual allocation or any part thereof from vessels not participating in the fully documented fisheries trials to vessels participating in those trials provided that it can be demonstrated that discards by the non-participating vessels do not increase.
- 4 Notwithstanding point (i) of point (b) of paragraph 3, a Member State may exceptionally grant to a vessel flying its flag an additional allocation exceeding 75 % of the estimated discards of the stock produced by the type of vessel to which the individual vessel that has been granted the additional allocation belongs, provided that:
- a the rate of stock discards, as estimated for the relevant type of vessel, is less than 10 %;
 - b the inclusion of that type of vessel is important to evaluate the potential of the CCTV system for control purposes;
 - c an overall limit of 75 % of the estimated stock discards produced by all vessels participating in the trials is not exceeded.
- 5 To the extent that the recordings obtained in accordance with point (a) of paragraph 3 involve the processing of personal data within the meaning of Directive 95/46/EC, that Directive shall apply to the processing of such data.
- 6 Where a Member State detects that a vessel participating in trials on fully documented fisheries fails to comply with the conditions set out in paragraph 3, it shall immediately withdraw the additional allocation granted to that vessel and exclude it from participation in those trials for the remainder of the year 2013.
- 7 Prior to granting the additional allocation referred to in paragraphs 1 to 6, a Member State shall submit to the Commission the following information:
- a the list of vessels flying its flag and participating in trials on fully documented fisheries;
 - b the specifications of the remote electronic monitoring equipment installed on board those vessels;
 - c the capacity, type and specification of gears used by those vessels;
 - d the estimated discards for each type of vessel participating in the trials;
 - e the amount of catches of the stock subject to the relevant TAC made in 2012 by the vessels participating in the trials.
- 8 The Commission may request any Member State that avails itself of this Article to submit its assessment of the discards produced per type of vessel to a scientific advisory body for review, in order to monitor the implementation of the requirement set out in point (i) of point (b) of paragraph 3. In the absence of an assessment confirming such discards, the Member State concerned shall take any appropriate measure to ensure compliance with that requirement and inform the Commission thereof.

Status: Point in time view as at 31/12/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 40/2013. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)
