Article 135

Use of credit assessments by ECAIs

1 An external credit assessment may be used to determine the risk weight of an exposure under this Chapter only if it has been issued by an ECAI or has been endorsed by an ECAI in accordance with Regulation (EC) No 1060/2009.

2 [^{F1}The competent authorities must each publish a list] of ECAIs ^{F2}... on its website.

Sub-Section 2

Mapping of ECAI's credit assessments

Article 136

Mapping of ECAI's credit assessments

1 ^{F3}^{F4}The PRA may] make technical standards] to specify for all ECAIs, with which of the credit quality steps set out in Section 2 the relevant credit assessments of the ECAI correspond (‘ mapping ’). Those determinations shall be objective and consistent.

^{F5}
...

2 When determining the mapping of credit assessments, ^{F6}the PRA] shall comply with the following requirements:

- a in order to differentiate between the relative degrees of risk expressed by each credit assessment, ^{F6}the PRA] shall consider quantitative factors such as the long-term default rate associated with all items assigned the same credit assessment. For recently established ECAIs and for those that have compiled only a short record of default data, ^{F6}the PRA] shall ask the ECAI what it believes to be the long-term default rate associated with all items assigned the same credit assessment;
- b in order to differentiate between the relative degrees of risk expressed by each credit assessment, ^{F6}the PRA] shall consider qualitative factors such as the pool of issuers that the ECAI covers, the range of credit assessments that the ECAI assigns, each credit assessment meaning and the ECAI's definition of default;
- c ^{F6}the PRA] shall compare default rates experienced for each credit assessment of a particular ECAI and compare them with a benchmark built on the basis of default rates experienced by other ECAIs on a population of issuers that present an equivalent level of credit risk;
- d where the default rates experienced for the credit assessment of a particular ECAI are materially and systematically higher than the benchmark, ^{F6}the PRA] shall assign a higher credit quality step in the credit quality assessment scale to the ECAI credit assessment;
- e where ^{F6}the PRA][^{F7}has] increased the associated risk weight for a specific credit assessment of a particular ECAI, and where default rates experienced for that ECAI's credit assessment are no longer materially and systematically higher than the benchmark, ^{F6}the PRA] may restore the original credit quality step in the credit quality assessment scale for the ECAI credit assessment.

3 ^{F8}^{F9}The PRA may] make technical standards] to specify the quantitative factors referred to in point (a), the qualitative factors referred to in point (b) and the benchmark referred to in point (c) of paragraph 2.

Sub-Section 3

Use of credit assessments by Export Credit Agencies

Article 137

Use of credit assessments by export credit agencies

1 For the purpose of Article 114, institutions may use credit assessments of an Export Credit Agency that the institution has nominated, if either of the following conditions is met:

- a it is a consensus risk score from export credit agencies participating in the OECD ‘Arrangement on Guidelines for Officially Supported Export Credits’;
- b the Export Credit Agency publishes its credit assessments, and the Export Credit Agency subscribes to the OECD agreed methodology, and the credit assessment is associated with one of the eight minimum export insurance premiums that the OECD agreed methodology establishes. An institution may revoke its nomination of an Export Credit Agency. An institution shall substantiate the revocation if there are concrete indications that the intention underlying the revocation is to reduce the capital adequacy requirements.

2 Exposures for which a credit assessment by an Export Credit Agency is recognised for risk weighting purposes shall be assigned a risk weight in accordance with Table 9.
