Council Regulation (EU) No 43/2014 of 20 January 2014 fixing for 2014 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in Union waters and, to Union vessels, in certain non-Union waters

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

LIST OF ANNEXES

ANNEX I	: TACs applicable to Union vessels in areas where TACs exist by species and by area
ANNEX IA	: Skagerrak, Kattegat, ICES subareas I, II, III, IV, V, VI, VII, VIII, IX, X, XII and XIV, Union waters of CECAF, French Guiana waters
ANNEX IB	: North East Atlantic and Greenland, ICES subareas I, II, V, XII and XIV and Greenland waters of NAFO 1
ANNEX IC	: North West Atlantic — NAFO Convention Area
ANNEX ID	: Highly migratory fish — all areas
ANNEX IE	: Antarctic — CCAMLR Convention Area
ANNEX IF	: South-East Atlantic Ocean — SEAFO Convention Area
ANNEX IG	: Southern bluefin tuna — all areas
ANNEX IH	: WCPFC Convention Area
ANNEX IJ	: SPRFMO Convention Area
ANNEX IIA	: Fishing effort for vessels in the context of the management of certain cod, plaice and sole stocks in ICES divisions IIIa, VIa, VIIa, VIId, ICES subarea IV and Union waters of ICES divisions IIa and Vb
ANNEX IIB	: Fishing effort for vessels in the context of the recovery of certain Southern hake and Norway lobster stocks in ICES divisions VIIIc and IXa excluding the Gulf of Cádiz
ANNEX IIC	: Fishing effort for vessels in the context of the management of Western Channel sole stocks in ICES division VIIe
ANNEX IID	: Management areas for sandeel in ICES divisions IIa, IIIa and ICES subarea IV
ANNEX III	: Maximum number of fishing authorisations for Union vessels in third-country waters
ANNEX IV	: ICCAT Convention Area
ANNEX V	: CCAMLR Convention Area
ANNEX VI	: IOTC Convention Area
ANNEX VII	: WCPFC Convention Area
ANNEX VIII	: Quantitative limitations of fishing authorisations for third-country vessels fishing in Union waters

ANNEX I

TACs APPLICABLE TO UNION VESSELS IN AREAS WHERE TACs EXIST BY SPECIES AND BY AREA

The tables in Annexes IA, IB, IC, ID, IE, IF, IG, IJ set out the TACs and quotas (in tonnes live weight, except where otherwise specified) by stock, and conditions functionally linked thereto, where appropriate.

All fishing opportunities set out in this Annex shall be subject to the rules set out in Regulation (EC) No 1224/2009, and in particular Articles 33 and 34 of that Regulation.

The references to fishing zones are references to ICES zones, unless otherwise specified. Within each area, fish stocks are referred to following the alphabetical order of the Latin names of the species. Only Latin names identify species for regulatory purposes; vernacular names are provided for ease of reference.

For the purposes of this Regulation, the following comparative table of Latin names and common names is provided:

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Scientific name	Alpha-3 code	Common name
<i>Amblyraja radiata</i>	RJR	Starry ray
<i>Ammodytes</i> spp.	SAN	Sandeels
<i>Argentina silus</i>	ARU	Greater silver smelt
<i>Beryx</i> spp.	ALF	Alfonsinos
<i>Brosme brosme</i>	USK	Tusk
<i>Caproidae</i>	BOR	Boarfish
<i>Centrophorus squamosus</i>	GUQ	Leafscale gulper shark
<i>Centroscymnus coelolepis</i>	CYO	Portuguese dogfish
<i>Chaceon</i> spp.	GER	Deep sea red crab
<i>Chaenocephalus aceratus</i>	SSI	Blackfin icefish
<i>Champsocephalus gunnari</i>	ANI	Mackerel icefish
<i>Channichthys rhinoceratus</i>	LIC	Unicorn icefish
<i>Chionoecetes</i> spp.	PCR	Snow crab
<i>Clupea harengus</i>	HER	Herring
<i>Coryphaenoides rupestris</i>	RNG	Roundnose grenadier
<i>Dalatias licha</i>	SCK	Kitefin shark
<i>Deania calcea</i>	DCA	Birdbeak dogfish
<i>Dipturus batis</i> (<i>Dipturus</i> cf. <i>flossada</i> and <i>Dipturus</i> cf. <i>intermedia</i>)	RJB	Common skate complex
<i>Dissostichus eleginoides</i>	TOP	Patagonian toothfish
<i>Dissostichus mawsoni</i>	TOA	Antarctic toothfish
<i>Dissostichus</i> spp.	TOT	Toothfish
<i>Engraulis encrasicolus</i>	ANE	Anchovy
<i>Etmopterus princeps</i>	ETR	Great lanternshark
<i>Etmopterus pusillus</i>	ETP	Smooth lanternshark
<i>Euphausia superba</i>	KRI	Krill
<i>Gadus morhua</i>	COD	Cod
<i>Galeorhinus galeus</i>	GAG	Tope shark
<i>Glyptocephalus cynoglossus</i>	WIT	Witch flounder
<i>Gobionotothen gibberifrons</i>	NOG	Humped rockcod
<i>Hippoglossoides platessoides</i>	PLA	American plaice
<i>Hippoglossus hippoglossus</i>	HAL	Atlantic halibut
<i>Hoplostethus atlanticus</i>	ORY	Orange roughy

Status: Point in time view as at 31/01/2020.**Changes to legislation:** There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

<i>Illex illecebrosus</i>	SQI	Shortfin squid
<i>Lamna nasus</i>	POR	Porbeagle
<i>Lepidonotothen squamifrons</i>	NOS	Grey rockcod
<i>Lepidorhombus</i> spp.	LEZ	Megrim
<i>Leucoraja naevus</i>	RJN	Cuckoo ray
<i>Limanda ferruginea</i>	YEL	Yellowtail flounder
<i>Limanda limanda</i>	DAB	Common dab
<i>Lophiidae</i>	ANF	Anglerfish
<i>Macrourus</i> spp.	GRV	Grenadiers
<i>Makaira nigricans</i>	BUM	Blue marlin
<i>Mallotus villosus</i>	CAP	Capelin
<i>Manta birostris</i>	RMB	Giant manta ray
<i>Martialia hyadesi</i>	SQS	Squid
<i>Melanogrammus aeglefinus</i>	HAD	Haddock
<i>Merlangius merlangus</i>	WHG	Whiting
<i>Merluccius merluccius</i>	HKE	Hake
<i>Micromesistius poutassou</i>	WHB	Blue whiting
<i>Microstomus kitt</i>	LEM	Lemon sole
<i>Molva dypterygia</i>	BLI	Blue ling
<i>Molva molva</i>	LIN	Ling
<i>Nephrops norvegicus</i>	NEP	Norway lobster
<i>Notothenia rossii</i>	NOR	Marbled rockcod
<i>Pandalus borealis</i>	PRA	Northern prawn
<i>Paralomis</i> spp.	PAI	Crabs
<i>Penaeus</i> spp.	PEN	"Penaeus" shrimps
<i>Platichthys flesus</i>	FLE	European flounder
<i>Pleuronectes platessa</i>	PLE	Plaice
<i>Pleuronectiformes</i>	FLX	Flatfish
<i>Pollachius pollachius</i>	POL	Pollack
<i>Pollachius virens</i>	POK	Saithe
<i>Psetta maxima</i>	TUR	Turbot
<i>Pseudochaenichthys georgianus</i>	SGI	South Georgia icefish
<i>Raja alba</i>	RJA	White skate

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

<i>Raja brachyura</i>	RJH	Blonde ray
<i>Raja circularis</i>	RJI	Sandy ray
<i>Raja clavata</i>	RJC	Thornback ray

ANNEX ID

HIGHLY MIGRATORY FISH – ALL AREAS

TACs in these areas are adopted in the framework of international fisheries organisations on tuna fisheries, such as ICCAT.

Species Bluefin tuna <i>Thunnus thynnus</i>		Zone Atlantic Ocean, east of 45° W, and Mediterranean (BFT/ AE45WM)		
Cyprus	69,44 ^{dg}	Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply		
Greece	129,07 ^g			
Spain	2 504,45 ^{bdg}			
France	2 471,23 ^{bcdeg}			
Croatia	390,59 ^{fg}			
Italy	1 950,42 ^{deg}			
Malta	160,02 ^{dg}			
Portugal	235,5 ^g			
Other Member States	27,93 ^{ag}			
Union	7 938,65 ^{bedeg}			
TAC	13 400			
<p>a Except Cyprus, Greece, Spain, France, Croatia, Italy, Malta and Portugal, and exclusively as by-catch.</p> <p>b Special condition: within this TAC, the following catch limits and allocation between Member States shall apply to catches of bluefin tuna between 8 kg/75 cm and 30 kg/115 cm by the vessels referred to in point 1 of Annex IV (BFT/*8301):</p> <table border="1"> <tbody> <tr> <td>Spain</td> <td>382,93</td> </tr> </tbody> </table>			Spain	382,93
Spain	382,93			

Status: Point in time view as at 31/01/2020.**Changes to legislation:** There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

France	172,77
Union	555,71

- c Special condition: within this TAC, the following catch limits and allocation between Member States shall apply to catches of bluefin tuna weighing no less than 6,4 kg or measuring no less than 70 cm by the vessels referred to in point 1 of Annex IV (BFT/*641):

France	100,0
Union	100,0

- d Special condition: within this TAC, the following catch limits and allocations between Member States shall apply to catches of bluefin tuna between and 8 kg/75 cm and 30 kg/115 cm by the vessels referred to in point 2 of Annex IV (BFT/*8302):

Spain	50,09
France	49,42
Italy	39,01
Cyprus	3,2
Malta	4,71
Union	146,43

- e Special condition: within this TAC, the following catch limits and allocations between Member States shall apply to catches of bluefin tuna between and 8 kg/75 cm and 30 kg/115 cm by the vessels referred to in point 3 of Annex IV (BFT/*643):

Italy	39,01
Union	39,01

- f Special Condition: within this TAC, the following catch limits and allocations between Member States shall apply to catches of bluefin tuna between 8 kg/75 cm and 30 kg/115 cm by the vessels referred to in point 3 of Annex IV for farming purposes (BFT/*8303F):

Croatia	351,53
Union	351,53

- g By derogation from Article 7(2) of Regulation (EC) 302/2009, purse seine fishing for bluefin tuna shall be authorised in the Eastern Atlantic and Mediterranean from 26 May to 24 June 2014 included.

Species Swordfish <i>Xiphias gladius</i>		Zone Atlantic Ocean, North of 5° N (SWO/AN05N)
Spain	6 886,05 ^b	Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply
Portugal	1 325,88 ^b	
Other Member States	135,58 ^{ab}	
Union	8 347,51	
TAC	13 700	

- a Except Spain and Portugal, and exclusively as by-catch.

- b Special condition: up to 2,39 % of this amount may be fished in the Atlantic Ocean, South of 5° N (SWO/*AS05N).

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Species Swordfish <i>Xiphias gladius</i>		Zone Atlantic Ocean, South of 5° N(SWO/AS05N)
Spain	4 699,18 ^a	Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply
Portugal	442,52 ^a	
Union	5 141,7	
TAC	15 000	

a Special condition: up to 3,86 % of this amount may be fished in the Atlantic Ocean, North of 5° N (SWO/*AN05N).

Species Northern albacore <i>Thunnus alalunga</i>		Zone Atlantic Ocean, north of 5° N(ALB/AN05N)
Ireland	2 698,68 ^c	Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply

ANNEX IE

ANTARCTIC CCAMLR CONVENTION AREA

These TACs, adopted by CCAMLR, are not allocated to the members of CCAMLR and hence the Union's share is undetermined. Catches are monitored by the Secretariat of CCAMLR, which will communicate when fishing shall cease due to TAC exhaustion.

Unless specified otherwise, these TACs are applicable for the period from 1 December 2013 to 30 November 2014.

Species Mackerel icefish <i>Champscephalus gunnari</i>		Zone FAO 48.3 Antarctic(ANI/F483.)
TAC	4 635	Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply. Article 4 of Regulation (EC) No 847/96 shall not apply.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Species Mackerel icefish <i>Champscephalus gunnari</i>		Zone FAO 58.5.2 Antarctic ^a (ANI/F5852.)
TAC	1 267	Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply. Article 4 of Regulation (EC) No 847/96 shall not apply.
<p>a For the purpose of this TAC, the area open to the fishery is specified as that portion of FAO statistical division 58.5.2 that lies within the area enclosed by a line:</p> <ul style="list-style-type: none"> — starting at the point where the meridian of longitude 72° 15' E intersects the Australia-France Maritime Delimitation Agreement Boundary then south along the meridian to its intersection with the parallel of latitude 53° 25' S, — then east along that parallel to its intersection with the meridian of longitude 74° E, — then northeasterly along the geodesic to the intersection of the parallel of latitude 52° 40' S and the meridian of longitude 76° E, — then north along the meridian to its intersection with the parallel of latitude 52° S, — then northwesterly along the geodesic to the intersection of the parallel of latitude 51° S with the meridian of longitude 74° 30' E, and — then southwesterly along the geodesic to the point of commencement. 		
Species Blackfin icefish <i>Chaenocephalus aceratus</i>		Zone FAO 48.3 Antarctic (SSI/F483.)
TAC	2 200 ^a	Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply. Article 4 of Regulation (EC) No 847/96 shall not apply.
<p>a Exclusively for by-catches. No directed fisheries are permitted under this TAC.</p>		
Species Unicorn icefish <i>Channichthys rhinoceratus</i>		Zone FAO 58.5.2 Antarctic (LIC/F5852.)
TAC	150 ^a	Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply. Article 4 of Regulation (EC) No 847/96 shall not apply.
<p>a Exclusively for by-catches. No directed fisheries are permitted under this TAC.</p>		

*Status: Point in time view as at 31/01/2020.**Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

Species Patagonian toothfish <i>Dissostichus eleginoides</i>		Zone FAO 48.3 Antarctic(TOP/F483.)
TAC	2 400 ^a	Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply. Article 4 of Regulation (EC) No 847/96 shall not apply.

- a** This TAC is applicable for longline fishery for the period from 16 April to 31 August 2014 and for pot fishery for the period from 1 December 2013 to 30 November 2014.

Special conditions:

Within the limits of the abovementioned quota, no more than the quantities given below may be taken in the Subareas specified:

Management Area A: 48° W to 43° 30' W – 52° 30' S to 56° S (TOP/*F483A)	0
Management Area B: 43° 30' W to 40° W – 52° 30' S to 56° S (TOP/*F483B)	720
Management Area C: 40° W to 33° 30' W – 52° 30' S to 56° S (TOP/*F483C)	1 680

Species Patagonian toothfish <i>Dissostichus eleginoides</i>		Zone FAO 48.4 Antarctic North(TOP/F484N.)
TAC	45 ^a	Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply. Article 4 of Regulation (EC) No 847/96 shall not apply.

- a** This TAC is applicable within the area bounded by latitudes 55° 30' S and 57° 20' S and by longitudes 25° 30' W and 29° 30' W.

Species Antarctic toothfish <i>Dissostichus mawsoni</i>		Zone FAO 48.4 Antarctic South(TOA/F484S.)
TAC	24 ^a	Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply. Article 4 of Regulation (EC) No 847/96 shall not apply.

- a** This TAC is applicable within the area bounded by latitudes 57° 20' S and 60° 00' S and by longitudes 24° 30' W and 29° 00' W.

Species Patagonian toothfish <i>Dissostichus eleginoides</i>		Zone FAO 58.5.2 Antarctic(TOP/F5852.)
TAC	2 730 ^a	Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply. Article 4 of Regulation (EC) No 847/96 shall not apply.

- a** This TAC is applicable for west of 79° 20' E only. Fishing east of this meridian within this zone is prohibited.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Species Krill <i>Euphausia superba</i>		Zone FAO 48(KRI/F48.)
TAC	5 610 000	Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply. Article 4 of Regulation (EC) No 847/96 shall not apply.

Special conditions:

Within the limit of a total combined catch of 620 000 tonnes, no more than the quantities given below may be taken in the subareas specified:

Division 48.1 (KRI/*F481.)	155 000
Division 48.2 (KRI/*F482.)	279 000
Division 48.3 (KRI/*F483.)	279 000
Division 48.4 (KRI/*F484.)	93 000

Species Krill <i>Euphausia superba</i>		Zone FAO 58.4.1 Antarctic(KRI/F5841.)
TAC	440 000	Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply. Article 4 of Regulation (EC) No 847/96 shall not apply.

Special conditions:

Within the limits of the abovementioned quota, no more than the quantities given below may be taken in the subareas specified:

Division 58.4.1 west of 115° E (KRI/*F-41W)	277 000
Division 58.4.1 east of 115° E (KRI/*F-41E)	163 000

Species Krill <i>Euphausia superba</i>		Zone FAO 58.4.2 Antarctic(KRI/F5842.)
TAC	2 645 000	Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply. Article 4 of Regulation (EC) No 847/96 shall not apply.

Special conditions:

Within the limits of the abovementioned quota, no more than the quantities given below may be taken in the subareas specified:

Division 58.4.2 west of 55° E (KRI/*F-42W)	260 000
Division 58.4.2 east of 55° E (KRI/*F-42E)	192 000

Species Humped rockcod <i>Gobionotothen gibberifrons</i>		Zone FAO 48.3 Antarctic(NOI/F483.)
TAC	1 470 ^a	Analytical TAC

a Exclusively for by-catches. No directed fisheries are permitted under this TAC.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

FISHING EFFORT FOR VESSELS IN THE CONTEXT OF THE MANAGEMENT OF CERTAIN COD, PLAICE AND SOLE STOCKS IN ICES DIVISIONS IIIA, VIA, VIIA, VIID, ICES SUBAREA IV AND UNION WATERS OF ICES DIVISIONS IIA AND VB

1. Scope

- 1.1. This Annex shall apply to Union vessels carrying on board or deploying any of the gears referred to in point 1 of Annex I to Regulation (EC) No 1342/2008 and present in any of the geographical areas specified in point 2 of this Annex.
- 1.2. This Annex shall not apply to vessels of less than 10 metres' length overall. Those vessels shall not be required to carry fishing authorisations issued in accordance with Article 7 of Regulation (EC) No 1224/2009. Member States concerned shall assess the fishing effort of those vessels by effort groups to which they belong, using appropriate sampling methods. During 2014, the Commission shall seek scientific advice for evaluating the effort deployment of those vessels, with a view to their future inclusion into the effort regime.

2. Regulated gears and geographical areas

For the purposes of this Annex, the gear groupings referred to in point 1 of Annex I to Regulation (EC) No 1342/2008 ("regulated gear") and the groupings of geographical areas referred to in point 2 of that Annex shall apply.

3. Authorisations

If a Member State deems so appropriate in order to reinforce the sustainable implementation of this effort regime, it may introduce a prohibition to fish with a regulated gear in any of the geographical areas to which this Annex applies by any of vessels flying its flag which has no record of such fishing activity, unless it ensures that equivalent capacity, measured in kilowatts, is prevented from fishing in that area.

4. Maximum allowable fishing effort

- 4.1. The maximum allowable effort referred to in Article 12(1) of Regulation (EC) No 1342/2008 and in Article 9(2) of Regulation (EC) No 676/2007 for the 2014 management period, i.e. from 1 February 2014 to 31 January 2015, for each of the effort groups of each Member State is set out in Appendix 1 to this Annex.
- 4.2. The maximum levels of annual fishing effort set in accordance with Regulation (EC) No 1954/2003⁽¹⁾ shall not affect the maximum allowable fishing effort set in this Annex.

5. Management

- 5.1. Member States shall manage the maximum allowable effort in accordance with the conditions laid down in Article 9 of Regulation (EC) No 676/2007, Article 4 and Articles 13 to 17 of Regulation (EC) No 1342/2008 and Articles 26 to 35 of Regulation (EC) No 1224/2009.
- 5.2. A Member State may establish management periods for allocating all or parts of the maximum allowable effort to individual vessels or groups of vessels. In such case, the number of days or hours for which a vessel may be present within the area during a management period shall be fixed at the discretion of the Member State concerned. During any such management periods, the Member State concerned may reallocate effort between individual vessels or groups of vessels.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

5.3. If a Member State authorises vessels flying its flag to be present within an area by hours, it shall continue measuring the consumption of days in accordance with the conditions referred to in point 5.1. Upon request by the Commission, the Member State concerned shall demonstrate its precautionary measures taken to avoid an excessive consumption of effort within the area due to a vessel terminating presences in the area before the end of a 24-hour period.

6. Fishing effort report

Article 28 of Regulation (EC) No 1224/2009 shall apply to vessels falling under the scope of this Annex. The geographical area referred to in that Article shall be understood, for the purpose of cod management, as each of the geographical areas referred to in point 2 of this Annex.

7. Communication of relevant data

Member States shall transmit to the Commission the data on fishing effort deployed by their fishing vessels in accordance with Articles 33 and 34 of Regulation (EC) No 1224/2009. These data shall be transmitted via the Fisheries Data Exchange System or any future data collection system implemented by the Commission.

ANNEX IIB

FISHING EFFORT FOR VESSELS IN THE CONTEXT OF THE RECOVERY OF CERTAIN SOUTHERN HAKE AND NORWAY LOBSTER STOCKS IN ICES DIVISIONS VIIIc AND IXa EXCLUDING THE GULF OF CÁDIZ

CHAPTER I

General provisions

1. Scope

This Annex shall apply to Union vessels of 10 metres' length overall or more carrying on board or deploying trawls, Danish seines or similar gears of mesh size equal to or larger than 32 mm and gill-nets of mesh size equal to or larger than 60 mm or bottom longlines in accordance with Regulation (EC) No 2166/2005, and present in ICES divisions VIIIc and IXa excluding the Gulf of Cádiz.

2. Definitions

For the purposes of this Annex:

- (a) 'gear grouping' means the grouping consisting of the following two gear categories:
 - (i) trawls, Danish seines or similar gears of mesh size equal to or larger than 32 mm and
 - (ii) gill-nets of mesh size equal to or larger than 60 mm and bottom longlines;
- (b) 'regulated gear' means any of the two gear categories belonging to the gear grouping;
- (c) 'area' means ICES divisions VIIIc and IXa excluding the Gulf of Cádiz;
- (d) '2014 management period' means the period from 1 February 2014 to 31 January 2015;
- (e) 'special conditions' means the special conditions set out in point 6.1.

3. Limitation in activity

Without prejudice to Article 29 of Regulation (EC) No 1224/2009, each Member State shall ensure that, when carrying on board any regulated gear, Union vessels flying its flag shall be present within the area for no more than the number of days specified in Chapter III of this Annex.

CHAPTER II

Authorisations

4. Authorised vessels

- 4.1. A Member State shall not authorise fishing with a regulated gear in the area by any of vessels flying its flag which have no record of such fishing activity in the years 2002 to 2013 in the area, excluding the record of fishing activities as a result of transfer of days between fishing vessels, unless it ensures that equivalent capacity, measured in kilowatts, is prevented from fishing in the area.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- 4.2. A vessel flying the flag of a Member State having no quotas in the area shall not be authorised to fish in the area with a regulated gear, unless the vessel is allocated a quota after a transfer as permitted in accordance with Article 20(5) of Regulation (EC) No 2371/2002 and is allocated days at sea in accordance with point 11 or 12 of this Annex.

CHAPTER III

Number of days present within the area allocated to union vessels

5. **Maximum number of days**
- 5.1. During the 2014 management period, the maximum number of days at sea for which a Member State may authorise a vessel flying its flag to be present within the area having carried on board any regulated gear is shown in Table I.
- 5.2. If a vessel is able to demonstrate that its hake catches represent less than 4 % of the total live weight of fish caught in a given fishing trip, the flag Member State of the vessel shall be allowed not to count the days at sea associated with that fishing trip against the applicable maximum number of days at sea as set out in Table I.
6. **Special conditions for the allocation of days**
- 6.1. For the purposes of fixing the maximum number of days at sea an Union vessel may be authorised by its flag Member State to be present within the area, the following special conditions shall apply in accordance with Table I:
- (a) the total landings of hake in the year 2011 or 2012 made by the vessel concerned shall represent less than 5 tonnes according to the landings in live weight; and
- (b) the total landings of Norway lobster in the year 2011 or 2012 made by the vessel concerned shall represent less than 2,5 tonnes according to the landings in live weight.
- 6.2. If a vessel benefits from an unlimited number of days as a result of its compliance with the special conditions, the vessel's landings in the 2014 management period shall not exceed 5 tonnes of the total landings in live weight of hake and 2,5 tonnes of the total landings in live weight of Norway lobster.
- 6.3. When either of the special conditions is not met by a vessel, that vessel shall, with immediate effect, no longer be entitled to the allocation of days corresponding to the given special condition.
- 6.4. The application of the special conditions referred to in point 6.1. may be transferred from one vessel to one or more other vessels which replace that vessel in the fleet, provided that the replacing vessel uses similar gear and does not have in any year of its operation a record of landings of hake and Norway lobster higher than the quantities specified in point 6.1.

Table I

Maximum number of days a vessel may be present within the area by fishing gear per year

Special condition	Regulated gear	Maximum number of days	
	Bottom trawls, Danish seines and	ES	127

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Table I

Maximum number of days a vessel may be present within the area by fishing gear per year

	similar trawls of mesh size \geq 32 mm, gill-nets of mesh size \geq 60 mm and bottom longlines	FR	121
		PT	126
6.1.(a) and 6.1.(b)	Bottom trawls, Danish seines and similar trawls of mesh size \geq 32 mm, gill-nets of mesh size \geq 60 mm and bottom longlines	Unlimited	

7. Kilowatt day system

- 7.1. A Member State may manage its fishing effort allocations in accordance with a kilowatt days system. Through that system it may authorise any vessel concerned by any regulated gear and special conditions as set out in Table I to be present within the area for a maximum number of days which is different from that set out in that Table, provided that the overall amount of kilowatt days corresponding to the regulated gear and to the special conditions is respected.
- 7.2. This overall amount of kilowatt days shall be the sum of all individual fishing efforts allocated to the vessels flying the flag of that Member State and qualified for the regulated gear and, where applicable, the special conditions. Such individual fishing efforts shall be calculated in kilowatt days by multiplying the engine power of each vessel by the number of days at sea it would benefit from, according to Table I, if point 7.1. were not applied. For as long as the number of days is unlimited according to Table I, the relevant number of days the vessel would benefit from is 360.
- 7.3. A Member State wishing to benefit from the system referred to in point 7.1. shall submit a request to the Commission, with reports in electronic format containing, for the regulated gear and special conditions as laid down in Table I, the details of the calculation based on:
- (a) list of vessels authorised to fish by indicating their Union fishing fleet register number (CFR) and their engine power;
 - (b) track record of 2011 and 2012 for such vessels reflecting the catch composition defined in the special condition referred to in point 6.1.(a) or (b), if these vessels are qualified for such special conditions;
 - (c) the number of days at sea for which each vessel would have initially been authorised to fish according to Table I and the number of days at sea which each vessel would benefit from in application of point 7.1.
- 7.4. On the basis of that request, the Commission shall assess whether the conditions referred to in point 7 are complied with and, where applicable, may authorise that Member State to benefit from the system referred to in point 7.1.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

8. **Allocation of additional days for permanent cessation of fishing activities**
- 8.1. An additional number of days at sea on which a vessel may be authorised by its flag Member State to be present within the area when carrying on board any regulated gear may be allocated to a Member State by the Commission on the basis of permanent cessations of fishing activities that have taken place between 1 February 2013 and 31 January 2014 either in accordance with Article 23 of Regulation (EC) No 1198/2006⁽²⁾ or Regulation (EC) No 744/2008⁽³⁾. Permanent cessations resulting from any other circumstances may be considered by the Commission on a case-by-case basis, following a written and duly motivated request from the Member State concerned. Such written request shall identify the vessels concerned and confirm, for each of them, that they shall never return to fishing activities.
- 8.2. The effort expended in 2003 measured in kilowatt days of the withdrawn vessels using the regulated gear shall be divided by the effort expended by all vessels using that gear during 2003. The additional number of days at sea shall be then calculated by multiplying the ratio so obtained by the number of days that would have been allocated according to Table I. Any part of a day resulting from that calculation shall be rounded to the nearest whole day.
- 8.3. Points 8.1. and 8.2. shall not apply where a vessel has been replaced in accordance with point 3 or 6.4., or when the withdrawal has already been used in previous years to obtain additional days at sea.
- 8.4. A Member State wishing to benefit from the allocations referred to in point 8.1. shall submit a request to the Commission, by 15 June 2014, with reports in electronic format containing, for the gear grouping and special conditions as laid down in Table I, the details of the calculation based on:
- (a) lists of withdrawn vessels with their Union fishing fleet register number (CFR) and their engine power;
- (b) the fishing activity deployed by such vessels in 2003 calculated in days at sea according to the grouping of fishing gears and, if necessary, special conditions.
- 8.5. On the basis of such a request by a Member State the Commission may, by means of implementing acts, allocate that Member State a number of days additional to that referred to in point 5.1. for that Member State. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 42(2).
- 8.6. During the 2014 management period, a Member State may re-allocate those additional days at sea to all or part of the vessels remaining in fleet and qualified for the regulated gears. Additional days stemming from a withdrawn vessel that benefited from a special condition referred to in point 6.1.(a) or (b) may not be allocated to a vessel remaining active that does not benefit from a special condition.
- 8.7. When the Commission allocates additional days at sea due to a permanent cessation of fishing activities during the 2014 management period, the maximum number of days per Member State and gear shown in Table I shall be adjusted accordingly for the 2014 management period.
9. **Allocation of additional days for enhanced scientific observer coverage**
- 9.1. Three additional days on which a vessel may be present within the area when carrying on board any regulated gear may be allocated to a Member State by the Commission on the basis of an enhanced programme of scientific observer coverage in

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

partnership between scientists and the fishing industry. Such a programme shall focus in particular on levels of discarding and on catch composition and shall go beyond the requirements on data collection, as laid down in Regulation (EC) No 199/2008⁽⁴⁾ and its implementing rules for national programmes.

- 9.2. Scientific observers shall be independent from the owner, the master of the vessel and any crew member.
- 9.3. A Member State wishing to benefit from the allocations referred to in point 9.1. shall submit a description of its enhanced scientific observer coverage programme to the Commission for approval.
- 9.4. On the basis of that description, and after consultation with STECF, the Commission may, by means of implementing acts, allocate the Member State concerned a number of days additional to that referred to in point 5.1. for that Member State and for the vessels, the area and gear concerned by the enhanced programme of scientific observers. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 42(2).
- 9.5. If an enhanced scientific observer coverage programme submitted by a Member State has been approved by the Commission in the past and the Member State concerned wishes to continue its application without changes, it shall inform the Commission of the continuation of that programme four weeks before the beginning of the period for which the programme applies.

CHAPTER IV

Management

10. General obligation

Member States shall manage the maximum allowable effort in accordance with the conditions laid down in Article 8 of Regulation (EC) No 2166/2005 and Articles 26 to 35 of Regulation (EC) No 1224/2009.

11. Management periods

- 11.1. A Member State may divide the days present within the area set out in Table I into management periods of durations of one or more calendar months.
- 11.2. The number of days or hours for which a vessel may be present within the area during a management period shall be fixed by the Member State concerned.
- 11.3. Where a Member State authorises vessels flying its flag to be present within the area by hours, the Member State shall continue measuring the consumption of days as specified in point 10. Upon request by the Commission, the Member State shall demonstrate its precautionary measures taken to avoid an excessive consumption of days within the area due to a vessel terminating presences in the area before the end of a 24-hour period.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

CHAPTER V

Exchanges of fishing effort allocations

12. **Transfer of days between fishing vessels flying the flag of a member state**
- 12.1. A Member State may permit any fishing vessel flying its flag to transfer days present within the area for which it has been authorised to another vessel flying its flag within the area, provided that the product of the days received by a vessel multiplied by its engine power in kilowatts (kilowatt days) is equal to or less than the product of the days transferred by the donor vessel and the engine power in kilowatts of that vessel. The engine power in kilowatts of the vessels shall be that recorded for each vessel in the Union fishing fleet register.
- 12.2. The total number of days present within the area transferred in accordance with point 12.1., multiplied by the engine power in kilowatts of the donor vessel, shall not be higher than the donor vessel's average annual days track record in the area as verified by the fishing logbook in the years 2011 and 2012 multiplied by the engine power in kilowatts of that vessel.
- 12.3. The transfer of days as described in point 12.1. shall be permitted between vessels operating with any regulated gear and during the same management period.
- 12.4. The transfer of days is only permitted for vessels benefiting from an allocation of fishing days without special conditions.
- 12.5. On request from the Commission, Member States shall provide information on the transfers that have taken place. The format of spreadsheets for the collection and transmission of information referred to in this point may be established by the Commission, by means of implementing acts. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 42(2).

13. **Transfer of days between fishing vessels flying the flag of different member states**

Member States may permit the transfer of days present within the area for the same management period and within the area between any fishing vessels flying their flags provided that points 4.1. and 4.2. and 12 apply *mutatis mutandis*. Where Member States decide to authorise such a transfer, they shall notify the Commission, before the transfer takes place, of the details of the transfer, including the number of days to be transferred, the fishing effort and, where applicable, the fishing quotas relating thereto.

CHAPTER VI

Reporting obligations

14. **Fishing effort report**

Article 28 of Regulation (EC) No 1224/2009 shall apply to vessels falling under the scope of this Annex. The geographical area referred to in that Article shall be understood as the area specified in point 2 of this Annex.

15. **Collection of relevant data**

Member States, on the basis of information used for the management of fishing days present within the area as set out in this Annex, shall collect on a quarterly basis the information about total fishing effort deployed within the area for towed gears and static gears, effort deployed

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

by vessels using different types of gear in the area, and the engine power of those vessels in kilowatt days.

16. Communication of relevant data

Upon request from the Commission, Member States shall make available to the Commission a spreadsheet with data specified in point 15 in the format specified in Tables II and III by sending it to the appropriate electronic mailbox address, which shall be communicated to the Member States by the Commission. Member States shall, upon the Commission's request, send to the Commission detailed information on effort allocated and consumed covering all or parts of the 2013 and 2014 management periods, using the data format specified in Tables IV and V.

ANNEX IIC

FISHING EFFORT FOR VESSELS IN THE CONTEXT OF THE MANAGEMENT OF WESTERN CHANNEL SOLE STOCKS IN ICES DIVISION VIIe

CHAPTER I

General provisions

1. Scope

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- 1.1. This Annex shall apply to Union vessels of 10 metres length overall or more carrying on board or deploying beam trawls of mesh size equal to or greater than 80 mm and static nets including gill-nets, trammel-nets and tangle-nets with mesh size equal to or less than 220 mm in accordance with Regulation (EC) No 509/2007, and present in ICES division VIIe. For the purposes of this Annex, a reference to the 2014 management period means the period from 1 February 2014 to 31 January 2015.
- 1.2. Vessels fishing with static nets with mesh size equal to or larger than 120 mm and with track records of less than 300 kg live weight of sole per year during the three previous years, according to their fishing records, shall be exempt from the application of this Annex subject to the following conditions:
 - (a) such vessels catch less than 300 kg live weight of sole during the 2014 management period;
 - (b) such vessels do not tranship any fish at sea to another vessel;
 - (c) by 31 July 2014 and 31 January 2015 each Member State concerned make a report to the Commission on these vessels' catch records for sole in the three previous years as well as on catches of sole in 2014.

Where any of these conditions is not met, the vessels concerned shall, with immediate effect, cease to be exempt from the application of this Annex.

2. Definitions

For the purposes of this Annex the following definitions shall apply:

- (a) 'gear grouping' means the grouping consisting of the following two gear categories:
 - (i) beam trawls of mesh size equal to or greater than 80 mm and
 - (ii) static nets, including gill-nets, trammel nets and tangle-nets, with mesh size equal to or less than 220 mm;
- (b) 'regulated gear' means any of the two gear categories belonging to the gear grouping;
- (c) 'area' means ICES division VIIe;
- (d) '2014 management period' means the period from 1 February 2014 to 31 January 2015.

3. Limitation in activity

Without prejudice to Article 29 of Regulation (EC) No 1224/2009, each Member State shall ensure that, when carrying on board any regulated gear, Union vessels flying its flag and registered in the Union shall be present within the area for no more than the number of days set out in Chapter III of this Annex.

CHAPTER II

Authorisations

4. Authorised vessels

- 4.1 A Member State shall not authorise fishing with a regulated gear in the area by any of vessels flying its flag which have no record of such fishing activity in the years 2002

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

to 2013 in that area unless it ensures that equivalent capacity, measured in kilowatts, is prevented from fishing in the area.

- 4.2 However, a vessel with a track record of using a regulated gear may be authorised to use a different fishing gear, provided that the number of days allocated to this latter gear is greater than or equal to the number of days allocated to the regulated gear.
- 4.3 A vessel flying the flag of a Member State having no quotas in the area shall not be authorised to fish in the area with a regulated gear, unless the vessel is allocated a quota after a transfer as permitted in accordance with Article 20(5) of Regulation (EC) No 2371/2002 and is allocated days at sea in accordance with point 10 or 11 of this Annex.

CHAPTER III

Number of days present within the area allocated to union vessels

5. Maximum number of days

During the 2014 management period, the maximum number of days at sea for which a Member State may authorise a vessel flying its flag to be present within the area having carried on board any regulated gear is shown in Table I.

TABLE I

Maximum number of days a vessel may be present within the area by category of regulated gear per year

Regulated gear	Maximum number of days	
Beam trawls of mesh size \geq 80 mm	BE	164
	FR	175
	UK	207
Static nets with mesh size \leq 220 mm	BE	164
	FR	178
	UK	164

6. Kilowatt day system

- 6.1. During the 2014 management period, a Member State may manage its fishing effort allocations in accordance with a kilowatt days system. Through that system it may authorise any vessel concerned by any regulated gear as set out in Table I to be present within the area for a maximum number of days which is different from that set out in that Table, provided that the overall amount of kilowatt days corresponding to the regulated gear is respected.
- 6.2. This overall amount of kilowatt days shall be the sum of all individual fishing efforts allocated to the vessels flying the flag of that Member State and qualified for the regulated gear. Such individual fishing efforts shall be calculated in kilowatt days by multiplying the engine power of each vessel by the number of days at sea it would benefit from, according to Table I, if point 6.1. were not applied.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- 6.3. A Member State wishing to benefit from the system referred to in point 6.1. shall submit a request to the Commission, with reports in electronic format containing, for the regulated gear as laid down in Table I, the details of the calculation based on:
- (a) list of vessels authorised to fish by indicating their Union fishing fleet register number (CFR) and their engine power;
 - (b) the number of days at sea for which each vessel would have initially been authorised to fish according to Table I and the number of days at sea which each vessel would benefit from in application of point 6.1.
- 6.4. On the basis of that request, the Commission shall assess whether the conditions referred to in point 6 are complied with and, where applicable, may authorise that Member State to benefit from the system referred to in point 6.1.
7. **Allocation of additional days for permanent cessation of fishing activities**
- [^{F2}7.1. An additional number of days at sea on which a vessel may be authorised by its flag Member State to be present within the area when carrying on board any regulated gear may be allocated to a Member State by the Commission on the basis of permanent cessations of fishing activities that have taken place between 1 February 2013 and 31 January 2014 either in accordance with Article 23 of Regulation (EC) No 1198/2006 or Regulation (EC) No 744/2008. Permanent cessations resulting from any other circumstances may be considered by the Commission on a case-by-case basis, following a written and duly motivated request from the Member State concerned. Such written request shall identify the vessels concerned and confirm, for each of them, that they shall never return to fishing activities.]
- 7.2. The effort expended in 2003 measured in kilowatt days of the withdrawn vessels using a given gear grouping shall be divided by the effort expended by all vessels using that gear grouping during 2003. The additional number of days at sea shall be then calculated by multiplying the ratio so obtained by the number of days that would have been allocated according to Table I. Any part of a day resulting from that calculation shall be rounded to the nearest whole day.
- 7.3. Points 7.1. and 7.2. shall not apply where a vessel has been replaced in accordance with point 4.2., or when the withdrawal has already been used in previous years to obtain additional days at sea.
- 7.4. A Member State wishing to benefit from the allocations referred to in point 7.1. shall submit a request to the Commission, by 15 June 2014, with reports in electronic format containing for the gear grouping as laid down in Table I, the details of the calculation based on:
- (a) lists of withdrawn vessels with their Union fishing fleet register number (CFR) and their engine power;
 - (b) the fishing activity deployed by such vessels in 2003 calculated in days at sea according to the grouping of fishing gears.
- 7.5. On the basis of such a request by a Member State the Commission may, by means of implementing acts, allocate that Member State a number of days additional to that referred to in point 5 for that Member State. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 42(2).

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- 7.6. During the 2014 management period, a Member State may re-allocate those additional days at sea to all or part of the vessels remaining in fleet and qualified for the regulated gears.
- 7.7. Any additional number of days resulting from a permanent cessation of fishing activities allocated by the Commission for the 2013 management period shall be included in the maximum number of days per Member State shown in Table I and shall be allocated to the gear groupings in Table I. These additional days shall be subject to the adjustment in days at sea ceilings resulting from this Regulation for the 2014 management period.
- 7.8. By way of derogation from points 7.1 to 7.5, the Commission may exceptionally grant a Member State an allocation of additional days during the 2014 management period on the basis of permanent cessations of fishing activities that have taken place from 1 February 2004 to 31 January 2013, provided that they have not been already included in any request for additional days during that period.
- 8. Allocation of additional days for enhanced scientific observer coverage**
- 8.1. Three additional days on which a vessel may be present within the area when carrying on board any regulated gear may be allocated between 1 February 2014 and 31 January 2015 to a Member State by the Commission on the basis of an enhanced programme of scientific observer coverage in partnership between scientists and the fishing industry. Such a programme shall focus in particular on levels of discarding and on catch composition and go beyond the requirements on data collection, as laid down in Regulation (EC) No 199/2008 and its implementing rules for national programmes.
- 8.2. Scientific observers shall be independent from the owner, the master of the fishing vessel and any crew member.
- 8.3. A Member State wishing to benefit from the allocations referred to in point 8.1. shall submit a description of its enhanced scientific observer coverage programme to the Commission for approval.
- 8.4. On the basis of that description, and after consultation with STECF, the Commission may, by means of implementing acts, allocate the Member State concerned a number of days additional to that referred to in point 5 for that Member State and for the vessels, the area and gear concerned by the enhanced programme of scientific observers. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 42(2).
- 8.5. If an enhanced scientific observer coverage programme submitted by a Member State has been approved by the Commission in the past and the Member State concerned wishes to continue its application without changes, it shall inform the Commission of the continuation of that programme four weeks before the beginning of the period for which the programme applies.

CHAPTER IV

Management

9. General obligation

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Member States shall manage the maximum allowable effort in accordance with Articles 26 to 35 of Regulation (EC) No 1224/2009.

10. Management periods

- 10.1. A Member State may divide the days present within the area set out in Table I into management periods of durations of one or more calendar months.
- 10.2. The number of days or hours for which a vessel may be present within the area during a management period shall be fixed by the Member State concerned.
- 10.3. Where a Member State authorises vessels flying its flag to be present within the area by hours, the Member State shall continue measuring the consumption of days as specified in point 9. Upon request by the Commission, the Member State shall demonstrate its precautionary measures taken to avoid an excessive consumption of days within the area due to a vessel terminating presences in the area before the end of a 24-hours period.

CHAPTER V

Exchanges of fishing effort allocations

11. Transfer of days between fishing vessels flying the flag of a Member State

- 11.1. A Member State may permit any fishing vessel flying its flag to transfer days present within the area for which it has been authorised to another vessel flying its flag within the area, provided that the product of the days received by a vessel multiplied by its engine power in kilowatts (kilowatt days) is equal to or less than the product of the days transferred by the donor vessel and the engine power in kilowatts of that vessel. The engine power in kilowatts of the vessels shall be that recorded for each vessel in the Union fishing fleet register.
- 11.2. The total number of days present within the area transferred in accordance with point 11.1., multiplied by the engine power in kilowatts of the donor vessel, shall not be higher than the donor vessel's average annual days track record in the area as verified by the fishing logbook in the years 2001, 2002, 2003, 2004 and 2005 multiplied by the engine power in kilowatts of that vessel.
- 11.3. The transfer of days as described in point 11.1. shall be permitted between vessels operating with any regulated gear and during the same management period.
- 11.4. On request from the Commission, Member States shall provide information on the transfers that have taken place. Formats of spreadsheet for the collection and transmission of information referred to in this point may be established by the Commission, by means of implementing acts. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 42(2).

12. Transfer of days between fishing vessels flying the flag of different Member States

Member States may permit transfer of days present within the area for the same management period and within the area between any fishing vessels flying their flags provided that points 4.2., 4.4., 5, 6 and 10 apply *mutatis mutandis*. Where Member States decide to authorise such a transfer, they shall notify the Commission before the transfer takes place, the details of the transfer, including the number of days to be transferred, the fishing effort and, where applicable, the fishing quotas relating thereto.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

CHAPTER VI

Reporting obligations

13. Fishing effort report

Article 28 of Regulation (EC) No 1224/2009 shall apply to vessels falling under the scope of this Annex. The geographical area referred to in that Article shall be understood as the area specified in point 2 of this Annex.

14. Collection of relevant data

Member States, on the basis of information used for the management of fishing days present within the area as set out in this Annex, shall collect on a quarterly basis the information about total fishing effort deployed within the area for towed gears and static gears, effort deployed by vessels using different types of gear in the area, and the engine power of those vessels in kilowatt days.

15. Communication of relevant data

Upon request from the Commission, Member States shall make available to the Commission a spreadsheet with data specified in point 14 in the format specified in Tables II and III by sending it to the appropriate electronic mailbox address, which shall be communicated to the Member States by the Commission. Member States shall, upon the Commission's request, send to the Commission detailed information on effort allocated and consumed covering all or parts of the 2013 and 2014 management periods, using the data format specified in Tables IV and V.

ANNEX IID

Management areas for sandeel in ICES divisions IIa, IIIa and ICES subarea IV

For the purposes of the management of the fishing opportunities of sandeel in ICES divisions IIa, IIIa and ICES subarea IV fixed in Annex IA, the management areas within which specific catch limits apply are defined as shown below and in the Appendix to this Annex:

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

ANNEX IV

ICCAT CONVENTION AREA⁽⁵⁾

- Maximum number of Union bait boats and trolling boats authorised to fish actively for bluefin tuna between 8 kg/75 cm and 30 kg/115 cm in the Eastern Atlantic

Spain	60
France	8
Union	68

- Maximum number of Union coastal artisanal fishing vessels authorised to fish actively for bluefin tuna between 8 kg/75 cm and 30 kg/115 cm in the Mediterranean

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Spain	119
France	87
Italy	30
Cyprus	7
Malta	28
Union	316

3. Maximum number of Union vessels authorised to fish actively for bluefin tuna between 8 kg/75 cm and 30 kg/115 cm in the Adriatic Sea for farming purposes

Croatia	9
Italy	12
Union	21

4. Maximum number and total capacity in gross tonnage of fishing vessels of each Member State that may be authorised to fish for, retain on board, tranship, transport, or land bluefin tuna in the eastern Atlantic and Mediterranean

Table A

Number of fishing vessels^a							
	Cyprus	Greece^b	Croatia	Italy	France	Spain	Malta^c
Purse Seiners	1	1	9	12	17	6	1
Longliners	4 ^d	0	0	30	8	31	22

Italy	6
Portugal	1 ^a

^a This number may be further increased, provided that the international obligations of the Union are complied with.

6. Maximum bluefin tuna farming capacity and fattening capacity for each Member State and maximum input of wild caught bluefin tuna that each Member State may allocate to its farms in the eastern Atlantic and Mediterranean

Table A

Maximum tuna farming capacity and fattening capacity		
	Number of farms	Capacity (in tonnes)
Spain	14	11 852
Italy	15	13 000
Greece	2	2 100
Cyprus	3	3 000
Croatia	7	7 880
Malta	8	12 300

Table B

Maximum input of wild caught bluefin tuna (in tonnes)	
Spain	5 855

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Table B

Italy	3 764
Greece	785
Cyprus	2 195
Croatia	2 947
Malta	8 768

ANNEX V

CCAMLR CONVENTION AREA

PART A

PROHIBITION OF DIRECTED FISHING IN CCAMLR CONVENTION AREA

Target species	Zone	Period of prohibition
Sharks (all species)	Convention Area	From 1 January to 31 December 2014
<i>Notothernia rossii</i>	FAO 48.1. Antarctic, in the Peninsula Area FAO 48.2. Antarctic, around the South Orkneys FAO 48.3. Antarctic, around South Georgia	From 1 January to 31 December 2014
Finfish	FAO 48.1. Antarctic ^a FAO 48.2. Antarctic ^a	From 1 January to 31 December 2014
<i>Gobionotothen gibberifrons</i> <i>Chaenocephalus aceratus</i> <i>Pseudochaenichthys georgianus</i> <i>Lepidonotothen squamifrons</i> <i>Patagonotothen guntheri</i> <i>Electrona carlsbergi</i> ^a	FAO 48.3.	From 1 January to 31 December 2014
<i>Dissostichus</i> spp.	FAO 48.5. Antarctic	From 1 December 2013 to 30 November 2014
<i>Dissostichus</i> spp.	FAO 88.3. Antarctic ^a FAO 58.5.1. Antarctic ^{ab} FAO 58.5.2. Antarctic east of 79° 20' E and outside the EEZ to the west of 79° 20' E ^a FAO 58.4.4. Antarctic ^{ab} FAO 58.6. Antarctic ^a	From 1 January to 31 December 2014

a Except for scientific research purposes.

b Excluding waters subject to national jurisdiction (EEZs).

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

	FAO 58.7. Antarctic ^a	
<i>Lepidonotothen squamifrons</i>	FAO 58.4.4 ^{ab}	From 1 January to 31 December 2014
All species except <i>Champscephalus gunnari</i> and <i>Dissostichus eleginoides</i>	FAO 58.5.2. Antarctic	From 1 December 2013 to 30 November 2014
<i>Dissostichus mawsoni</i>	FAO 48.4. Antarctic ^a within the area bounded by latitudes 55° 30' S and 57° 20' S and by longitudes 25° 30' W and 29° 30' W	From 1 January to 31 December 2014

a Except for scientific research purposes.

b Excluding waters subject to national jurisdiction (EEZs).

PART B

TACs AND BY-CATCH LIMITS FOR EXPLORATORY FISHERIES IN THE CCAMLR CONVENTION AREA IN 2013/14

Subarea/ Division	Region	Season	SSRU	<i>Dissostichus</i> spp. catch limit (in tonnes)	By-catch catch limit (in tonnes) ^a		
					Skates and rays	<i>Macrourus</i> spp.	Other species
58.4.1.	Whole Division	1 December 2013 to 30 November 2014	SSRUs A, B and F: 0 SSRU C: 257 ^b SSRU D: 42 ^b SSRU E: 315 SSRU G: 68 ^b SSRU H: 42 ^b	Total 724	All Division: 50	All Division: 116	All Division: 20
58.4.2.	Whole Division	1 December 2013 to 30 November 2014	SSRUs A, B, C and D: 0 SSRU E: 35	Total 35	All Division: 50	All Division: 20	All Division: 20

a Rules for catch limits for by-catch species per SSRU, applicable within total by-catch limits per Subarea:
— skates and rays: 5 % of the catch limit for *Dissostichus* spp. or 50 tonnes, whichever is greater;
— *Macrourus* spp.: 16 % of the catch limit for *Dissostichus* spp. or 20 tonnes, whichever is greater, except in Statistical Division 58.4.3a and Statistical Subarea 88.1;
— other species combined: 20 tonnes per SSRU.

b Includes a catch limit of 42 tonnes to permit Spain to undertake a depletion experiment in 2013/2014.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

		November 2014					
58.4.3a.	Whole Division	1 May to 31 August 2014		Total 32	All Division: 50	All Division: 20	All Division: 20
88.1.	Whole Subarea	1 December 2013 to 31 August 2014	SSRUs A, D, E, F and M: 0 SSRUs B, C and G: 397 SSRUs H, I and K: 2 SSRUs J and L: 357	Total 3 044	152 SSRUs A, D, E, F and M: 0 SSRUs B, C and G: 50 SSRUs H, I and K: 112 SSRUs J and L: 50	430 SSRUs A, D, E, F and M: 0 SSRUs B, C and G: 40 SSRUs H, I and K: 320 SSRUs J and L: 70	160 SSRUs A, D, E, F and M: 0 SSRUs B, C and G: 60 SSRUs H, I and K: 60 SSRUs J and L: 40
88.2. PART C ANNEX 21-03/ANOTIFICATION OF INTENT TO PARTICIPATE IN A FISHERY FOR EUPHAUSIA SUPERBAGeneral information

Member: _

Fishing season: _

Name of vessel: _

Expected level of catch (tonne): _

Intended fishing subareas and divisions

This conservation measure applies to notifications of intentions to fish for krill in Subareas 48.1, 48.2, 48.3 and 48.4 and Divisions 58.4.1 and 58.4.2. Intentions to fish for krill in other subareas and divisions must be notified under Conservation Measure 21-02.

Subarea/Division	Tick the appropriate boxes
48.1	#
48.2	#
48.3	#
48.4	#
58.4.1	#
58.4.2	#

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Fishing technique:	Tick the appropriate boxes
	# Conventional trawl
	# Continuous fishing system
	# Pumping to clear codend
	# Other method: Please specify

Product types and methods for direct estimation of green weight of krill caught

Product type	Method for direct estimation of green weight of krill caught, where relevant (refer to Annex 21-03/B) ^a
Whole frozen	
Boiled	
Meal	
Oil	
Other product, please specify	

^a If the method is not listed in Annex 21-03/B, then please describe in detail.

Net configuration

Net measurements	Net 1	Net 2	Other net(s)
Net opening (mouth)			
Maximum vertical opening (m)			
Maximum horizontal opening (m)			
Net circumference at mouth ^a (m)			

^a Expected in operational conditions.

^b Size of outer mesh, and inner mesh where a liner is used.

^c Inside measurement of stretched mesh based on the procedure in Conservation Measure 22-01.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Mouth area (m ²)						
	Outer ^b	Inner ^b	Outer ^b	Inner ^b	Outer ^b	Inner ^b
Panel average mesh size ^c (mm)						
1st panel						
2nd panel						
3rd panel						
...						
Final panel (Codend)						

a Expected in operational conditions.

b Size of outer mesh, and inner mesh where a liner is used.

c Inside measurement of stretched mesh based on the procedure in Conservation Measure 22-01.

Net diagram(s): _

For each net used, or any change in net configuration, refer to the relevant net diagram in the CCAMLR fishing gear library if available (www.ccamlr.org/node/74407), or submit a detailed diagram and description to the forthcoming meeting of WG-EMM. Net diagrams must include:

1. *Length and width of each trawl panel (in sufficient detail to allow calculation of the angle of each panel with respect to water flow.)*
2. *Mesh size (inside measurement of stretched mesh based on the procedure in Conservation Measure 22-01), shape (e.g. diamond shape) and material (e.g. polypropylene).*
3. *Mesh construction (e.g. knotted, fused).*
4. *Details of streamers used inside the trawl (design, location on panels, indicate 'nil' if streamers are not in use); streamers prevent krill fouling the mesh or escaping.*

Marine mammal exclusion device

Device diagram(s): _

For each type of device used, or any change in device configuration, refer to the relevant diagram in the CCAMLR fishing gear library if available (www.ccamlr.org/node/74407), or submit a detailed diagram and description to the forthcoming meeting of WG-EMM.

Collection of acoustic data

Provide information on the echosounders and sonars used by the vessel.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Type (e.g. echosounder, sonar)			
Manufacturer			
Model			
Transducer frequencies (kHz)			

Collection of acoustic data (detailed description): _

Outline steps which will be taken to collect acoustic data to provide information on the distribution and abundance of Euphausia superba and other pelagic species such as myctophiids and salps (SC-CAMLR-XXX, paragraph 2.10).

**ANNEX GUIDELINES FOR ESTIMATING THE GREEN WEIGHT OF KRILL
21-03/B CAUGHT**

Method	Equation (kg)	Parameter			
		Description	Type	Estimation method	Unit
Holding tank volume	$W * L * H * \rho * 1000$	W = tank width	Constant	Measure at the start of fishing	m
		L = tank length	Constant	Measure at the start of fishing	m
		ρ = density of the sample	Variable	Volume-to-mass conversion	kg/ litre
		H = depth of krill in tank	Haul-specific	Direct observation	m
Flow meter	$V * F_{krill} * \rho$	V = volume of krill and water combined	Haul ^a -specific	Direct observation	litre
		F_{krill} = fraction of krill in the sample	Haul ^a -specific	Flow meter volume correction	—
		ρ = density of krill in the sample	Variable	Volume-to-mass conversion	kg/ litre

a Individual haul when using a conventional trawl, or integrated over a six-hour period when using the continuous fishing system.

b Individual haul when using a conventional trawl, or a two-hour period when using the continuous fishing system.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Flow scale	$M*(1-F)$	M = mass of krill and water combined	Haul ^b -specific	Direct observation	kg
		F = fraction of water in the sample	Variable	Flow scale mass correction	—
		M _{tray} = mass of empty tray	Constant	Direct observation prior to fishing	kg
Plate tray	$(M - M_{tray}) * N$	M = mean mass of krill and tray combined	Variable	Direct observation, prior to freezing with water drained	kg
		N = number of trays	Haul-specific	Direct observation	—
Meal conversion	$M_{meal} * MCF$	M _{meal} = mass of meal produced	Haul-specific	Direct observation	kg
		MCF = meal conversion factor	Variable	Meal to whole krill conversion	—
Codend volume	$W * H * L * \rho * \pi / 4 * 1000$	W = codend width	Constant	Measure at the start of fishing	m
		H = codend height	Constant	Measure at the start of fishing	m
		ρ = density of the sample	Variable	Volume-to-mass conversion	kg/ litre
		L = codend length	Haul-specific	Direct observation	m
Other	<i>Please specify</i>				

a Individual haul when using a conventional trawl, or integrated over a six-hour period when using the continuous fishing system.

b Individual haul when using a conventional trawl, or a two-hour period when using the continuous fishing system.

Observation steps and frequency
 Holding tank volume

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

At the start of fishing	Measure the width and length of the holding tank (if the tank is not rectangular in shape, then additional measurements may be required; precision $\pm 0,05$ m)
Every month ⁽⁶⁾	Estimate the volume-to-mass conversion derived from the drained mass of krill in a known volume (e.g. 10 litres) taken from the holding tank
Every haul	Measure the depth of krill in the tank (if krill are held in the tank between hauls, then measure the difference in depth; precision $\pm 0,1$ m)
Flow meter	Estimate the green weight of krill caught (using equation)
Prior to fishing	Ensure that the flow meter is measuring whole krill (i.e. prior to processing)
Every month ⁽⁶⁾	Estimate the volume-to-mass conversion (ρ) derived from the drained mass of krill in a known volume (e.g. 10 litres) taken from the flow meter
Every haul ⁽⁷⁾	Obtain a sample from the flow meter and: <ul style="list-style-type: none"> measure the volume (e.g. 10 litres) of krill and water combined estimate the flow meter volume correction derived from the drained volume of krill Estimate the green weight of krill caught (using equation)
Flow scale	
Prior to fishing	Ensure that the flow scale is measuring whole krill (i.e. prior to processing)
Every haul ⁽⁷⁾	Obtain a sample from the flow scale and: <ul style="list-style-type: none"> measure the mass of krill and water combined estimate the flow scale mass correction derived from the drained mass of krill Estimate the green weight of krill caught (using equation)
Plate tray	
Prior to fishing	Measure the mass of the tray (if trays vary in design, then measure the mass of each type; precision $\pm 0,1$ kg)
Every haul	Measure the mass of krill and tray combined (precision $\pm 0,1$ kg)
	Count the number of trays used (if trays vary in design, then count the number of trays of each type)
	Estimate the green weight of krill caught (using equation)
Meal conversion	
Every month ⁽⁶⁾	Estimate the meal to whole krill conversion by processing 1 000 to 5 000 kg (drained mass) of whole krill
Every haul	Measure the mass of meal produced
	Estimate the green weight of krill caught (using equation)
Codend volume	
At the start of fishing	Measure the width and height of the codend (precision $\pm 0,1$ m)
Every month ⁽⁶⁾	Estimate the volume-to-mass conversion derived from the drained mass of krill in a known volume (e.g. 10 litres) taken from the codend
Every haul	Measure the length of codend containing krill (precision $\pm 0,1$ m)
	Estimate the green weight of krill caught (using equation)

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

ANNEX VI

IOTC CONVENTION AREA

1. Maximum number of Union vessels authorised to fish for tropical tunas in the IOTC Convention Area

Member State	Maximum number of vessels	Capacity (gross tonnage)
Spain	22	61 364
France	22	33 604
Portugal	5	1 627
Union	49	96 595

2. Maximum number of Union vessels authorised to fish for swordfish and albacore in the IOTC Convention Area

Member State	Maximum number of vessels	Capacity (gross tonnage)
Spain	27	11 590
France	41	5 382
Portugal	15	6 925
United Kingdom	4	1 400
Union	87	25 297

3. The vessels referred to in point 1 shall also be authorised to fish for swordfish and albacore in the IOTC Convention Area.
4. The vessels referred to in point 2 shall also be authorised to fish for tropical tunas in the IOTC Convention Area.

ANNEX VII

WCPFC CONVENTION AREA

Maximum number of Union vessels authorised to fish for swordfish in areas south of 20° S of the WCPFC Convention Area

Spain	14
Union	14

[^{F4}ANNEX VIII

QUANTITATIVE LIMITATIONS OF FISHING AUTHORISATIONS
FOR THIRD-COUNTRY VESSELS FISHING IN UNION WATERS

*Status: Point in time view as at 31/01/2020.**Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

Flag State	Fishery	Number of fishing authorisations	Maximum number of vessels present at any time
Norway	Herring, north of 62° 00' N	20	20
Faroe Islands	Mackerel, VIa (north of 56° 30' N), IIa, IVa (north of 59° N) Horse mackerel, IV, VIa (north of 56° 30' N), VIIe, VIIf, VIIIh	14	14
	Herring, north of 62° 00' N	21	21
	Herring, IIIa	4	4
	Industrial fishing for Norway pout, IV, VIa (north of 56° 30' N) (including unavoidable by-catches of blue whiting)	15	15
	Ling and tusk	20	10
	Blue whiting, II, VIa (north of 56° 30' N), VIb, VII (west of 12° 00' W)	20	20
	Blue ling	16	16
Venezuela ^a	Snappers (French Guiana waters)	45	45

- a** To issue those fishing authorisations, proof must be produced that a valid contract exists between the ship owner applying for the fishing authorisation and a processing undertaking situated in the Department of French Guiana, and that it includes an obligation to land at least 75 % of all snapper catches from the vessel concerned in that department so that they may be processed in that undertaking's plant. Such a contract must be endorsed by the French authorities, which shall ensure that it is consistent both with the actual capacity of the contracting processing undertaking and with the objectives for the development of the Guianese economy. A copy of the duly endorsed contract shall be appended to the application for fishing authorisation. Where such an endorsement is refused, the French authorities shall give notification of that refusal and state their reasons for it to the party concerned and to the Commission.]

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (1) Council Regulation (EC) No 1954/2003 of 4 November 2003 on the management of the fishing effort relating to certain Community fishing areas and resources ([OJ L 289, 7.11.2003, p. 1](#)).
- (2) Council Regulation (EC) No 1198/2006 of 27 July 2006 on the European Fisheries Fund ([OJ L 223, 15.8.2006, p. 1](#)).
- (3) Council Regulation (EC) No 744/2008 of 24 July 2008 instituting a temporary specific action aiming to promote the restructuring of the European Community fishing fleets affected by the economic crisis ([OJ L 202, 31.7.2008, p. 1](#)).
- (4) Council Regulation (EC) No 199/2008 of 25 February 2008 concerning the establishment of a Community framework for the collection, management and use of data in the fisheries sector and support for scientific advice regarding the Common Fisheries Policy ([OJ L 60, 5.3.2008, p. 1](#)).
- (5) The numbers shown in sections 1, 2 and 3 may decrease in order to comply with international obligations of the Union.
- (6) Measured at least monthly (more frequently if feasible); a new monthly period will commence when the vessel moves to a new subarea or division.
- (7) Individual haul when using a conventional trawl, or integrated over a six-hour period when using the continuous fishing system.
