

Council Regulation (EU) No 43/2014 of 20 January 2014 fixing for 2014 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in Union waters and, to Union vessels, in certain non-Union waters

TITLE II

FISHING OPPORTUNITIES FOR UNION VESSELS

CHAPTER IV

Fishing opportunities in waters of regional fisheries management organisations

Article 20

Quota transfers and exchanges

1 Where, under the rules of a regional fisheries management organisation ("RFMO"), quota transfers or exchanges between the Contracting Parties to the RFMO are permitted, a Member State ("the Member State concerned") may discuss with a Contracting Party to the RFMO and, as appropriate, establish a possible outline of an intended quota transfer or exchange.

2 Upon notification to the Commission by the Member State concerned, the Commission may endorse the outline of the intended quota transfer or exchange that the Member State has discussed with the relevant Contracting Party to the RFMO. Thereupon, the Commission shall exchange, without undue delay, the consent to be bound by such quota transfer or exchange with the relevant Contracting Party to the RFMO. The Commission shall then give notification of the agreed quota transfer or exchange to the secretariat of the RFMO in accordance with the rules of that organisation.

3 The Commission shall inform the Member States of the agreed quota transfer or exchange.

4 The fishing opportunities received from or transferred to the relevant Contracting Party to the RFMO under the quota transfer or exchange shall be deemed to be quotas allocated to, or deducted from, the allocation of the Member State concerned, as of the moment that the quota transfer or exchange takes effect in accordance with the terms of the agreement reached with the relevant Contracting Party to the RFMO or in accordance with the rules of the relevant RFMO, as appropriate. Such allocation shall not change the existing distribution key for the purpose of allocating fishing opportunities among Member States in accordance with the principle of relative stability of fishing activities.

Status: Point in time view as at 20/01/2014.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) No 43/2014. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

4 Member States shall ensure that, where there is a proposed transfer of capacity to their fleet, vessels to be transferred are on the IOTC Record of Vessels or on the record of vessels of other tuna regional fisheries organisations. Furthermore, no vessels featuring on the list of vessels engaged in IUU fishing activities (IUU vessels) of any RFMO may be transferred.
