

Council Regulation (EU) No 43/2014 of 20 January 2014 fixing for 2014 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in Union waters and, to Union vessels, in certain non-Union waters

TITLE II

FISHING OPPORTUNITIES FOR UNION VESSELS

CHAPTER IV

Fishing opportunities in waters of regional fisheries management organisations

Section 3

IOTC Convention Area

Article 27

Limitation of fishing capacity of vessels fishing in the IOTC Convention Area

1 The maximum number of Union vessels fishing for tropical tunas in the IOTC Convention Area and the corresponding capacity in gross tonnage shall be as set out in point 1 of Annex VI.

2 The maximum number of Union vessels fishing for swordfish (*Xiphias gladius*) and albacore (*Thunnus alalunga*) in the IOTC Convention Area and the corresponding capacity in gross tonnage shall be as set out in point 2 of Annex VI.

3 Member States may re-allocate vessels assigned to one of the two fisheries referred to in paragraphs 1 and 2 to the other fishery, provided that they can demonstrate to the Commission that this change does not lead to an increase of fishing effort on the fish stocks involved.

4 Member States shall ensure that, where there is a proposed transfer of capacity to their fleet, vessels to be transferred are on the IOTC Record of Vessels or on the record of vessels of other tuna regional fisheries organisations. Furthermore, no vessels featuring on the list of vessels engaged in IUU fishing activities (IUU vessels) of any RFMO may be transferred.

5 In order to take into account the implementation of the development plans submitted to the IOTC, Member States may only increase their fishing capacity beyond the ceilings referred to in paragraphs 1 and 2 within the limits set out in those plans.
