 - b the date or dates from which the trading obligation takes effect, including any phase-in and the categories of counterparties to which the obligation applies where such phase-in and such categories of counterparties have been provided for in F²... technical standards in accordance with Article 5(2)(b) of Regulation (EU) No 648/2012.

- 2 In order for the trading obligation to take effect:
- a the class of derivatives pursuant to paragraph 1(a) or a relevant subset thereof must be admitted to trading or traded on at least one trading venue as referred to in Article 28(1), and
 - b there must be sufficient third-party buying and selling interest in the class of derivatives or a relevant subset thereof so that such a class of derivatives is considered sufficiently liquid to trade only on the venues referred to in Article 28(1).
- 3 In developing the F⁴... technical standards referred to in paragraph 1, [F⁵the FCA] shall consider the class of derivatives or a relevant subset thereof as sufficiently liquid pursuant to the following criteria:
- a the average frequency and size of trades over a range of market conditions, having regard to the nature and lifecycle of products within the class of derivatives;
 - b the number and type of active market participants including the ratio of market participants to products/contracts traded in a given product market;
 - c the average size of the spreads.

In preparing those F⁴... technical standards, [F⁵the FCA] shall take into consideration the anticipated impact that trading obligation might have on the liquidity of a class of derivatives or a relevant subset thereof and the commercial activities of end users which are not financial entities.
