REPORTING ON OWN FUNDS AND OWN FUNDS REQUIREMENTS

Textual Amendments

- F1** Substituted by Commission Implementing Regulation (EU) 2015/227 of 9 January 2015 amending Implementing Regulation (EU) No 680/2014 laying down implementing technical standards with regard to supervisory reporting of institutions according to Regulation (EU) No 575/2013 of the European Parliament and of the Council (Text with EEA relevance).
- F2** Substituted by Commission Implementing Regulation (EU) 2015/1278 of 9 July 2015 amending Implementing Regulation (EU) No 680/2014 laying down implementing technical standards with regard to supervisory reporting of institutions as regards instructions, templates and definitions (Text with EEA relevance).

PART II: TEMPLATE RELATED INSTRUCTIONS

1. CAPITAL ADEQUACY OVERVIEW (CA)
- 1.1. GENERAL REMARKS
10. CA templates contain information about Pillar 1 numerators (own funds, Tier 1, Common Equity Tier 1), denominator (own funds requirements), and transitional provisions and its structures in five templates:
 - a) CA1 template contains the amount of own funds of the institutions, disaggregated in the items needed to get to that amount. The amount of own funds obtained includes the aggregate effect of transitional provisions per type of capital
 - b) CA2 template summarizes the total risk exposures amounts as defined in Article 92(3) of Regulation (EU) No 575/2013 ('CRR')
 - c) CA3 template contains the ratios for which CRR state a minimum level, and some other related data
 - d) CA4 template contains memorandums items needed for calculating items in CA1 as well as information with regard to the CRD capital buffers.
 - e) CA5 template contains the data needed for calculating the effect of transitional provisions in own funds. CA5 will cease to exist once the transitional provisions will expire.
11. The templates shall apply to all reporting entities, irrespective of the accounting standards followed, although some items in the numerator are specific for entities applying IAS/IFRS-type valuation rules. Generally, the information in the denominator is linked to the final results reported in the correspondent templates for the calculation of the total risk exposure amount.
12. The total own funds consist of different types of capital: Tier 1 capital (T1), which is the sum of Common Equity Tier 1 capital (CET1), Additional Tier 1 capital (AT1) as well as Tier 2 capital (T2).
13. Transitional provisions are treated as follows in CA templates:
 - a) The items in CA1 are generally gross of transitional adjustments. This means that figures in CA1 items are calculated according to the *final provisions* (i.e. as if there were no transitional provisions), with the exception of items summarizing the effect

Status: Point in time view as at 01/06/2015.

Changes to legislation: Commission Implementing Regulation (EU) No 680/2014, Division 1. is up to date with all changes known to be in force on or before 04 August 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2014 No. 680 may be subject to amendment by EU Exit Instruments made by both the Prudential Regulation Authority and the Financial Conduct Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 4. These amendments are not currently available on legislation.gov.uk. ~~of the transitional provisions. For each type of capital (i.e. CET1, AT1 and T2) they~~

are three different items in which all the adjustments due to transitional provisions are included.

- b) Transitional provisions may also affect the AT1 and the T2 shortfall (i.e. AT1 or T2 the excess of deduction, regulated in articles 36(1) point (j) and 56 point (e) of CRR respectively), and thus the items containing these shortfalls may indirectly reflect the effect of transitional provisions.
 - c) Template CA5 is exclusively used for reporting the transitional provisions.
14. The treatment of Pillar II requirements can be different within the EU (Article 104(2) CRD IV has to be transposed into national regulation). Only the impact of Pillar II requirements on the solvency ratio or the target ratio shall be included in the solvency reporting of CRR. A detailed reporting of Pillar II requirements is not within the mandate of Article 99 CRR.
- a) The templates CA1, CA2 or CA5 only contain data on Pillar I issues.
 - b) The template CA3 contains the impact of additional Pillar II-requirements on the solvency ratio on an aggregated basis. One block focuses on the impact of amounts on the ratios, whereas the other block focuses on the ratio itself. Both blocks of ratios do not have any further link to the templates CA1, CA2 or CA5.
 - c) The template CA4 contains one cell regarding additional own funds requirements relating to Pillar II. This cell has no link via validation rules to the capital ratios of the CA3 template and reflects Article 104(2) CRD which explicitly mentions additional own funds requirements as one possibility for Pillar II decisions.

Changes to legislation: Commission Implementing Regulation (EU) No 680/2014, Division 1. is up to date with all changes known to be in force on or before 04 August 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2014 No. 680 may be subject to amendment by EU Exit Instruments made by both the Prudential Regulation Authority and the Financial Conduct Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 4. These amendments are not currently available on legislation.gov.uk and are presented as adjustments to the different capital components in CA1 in order to reflect in own funds components the effects of the transitional provisions.

- b. Template 5.2 provides further details on the calculation of those grandfathered instruments which do not constitute state aid.
17. Institutions shall report in the first four columns the adjustments to Common Equity Tier 1 capital, Additional Tier 1 capital and Tier 2 capital as well as the amount to be treated as risk weighted assets. Institutions are also required to report the applicable percentage in column 050 and the eligible amount without the recognition of transitional provisions in column 060.
18. Institutions shall only report elements in CA5 during the period where transitional provisions in accordance with Part Ten of CRR apply.
19. Some of the transitional provisions require a deduction from Tier 1. If this is the case the residual amount of a deduction or deductions is applied to Tier 1 and there is insufficient AT1 to absorb this amount then the excess shall be deducted from CET1.
- 1.6.2. C 05.01 — Transitional provisions (CA5.1)
20. Institutions shall report in Table 5.1 the transitional provisions to own funds components as laid down in Articles 465 to 491 of CRR, compared to applying the final provisions laid down in Title II of Part Two of CRR.
21. Institutions shall report in rows 020 to 060 information in relation with the transitional provisions of grandfathered instruments. The figures to be reported in columns 010 to 030 of row 060 of CA 5.1 can be derived from the respective sections of CA 5.2.
22. Institutions shall report in rows 070 to 092 information in relation with the transitional provisions of minority interests and additional Tier 1 and Tier 2 instruments issued by subsidiaries (in accordance with Articles 479 and 480 of CRR).
23. In rows 100 onwards institutions shall report information in relation with the transitional provisions of unrealized gains and losses, deductions as well as additional filters and deductions.
24. There might be cases where the transitional deductions of CET1, AT1 or T2 capital exceed the CET1, AT1 or T2 capital of an institution. This effect — if it results from transitional provisions — shall be shown in the CA1 template using the respective cells. As a consequence, the adjustments in the columns of the CA5 template do not include any spill-over effects in the case of insufficient capital available.
- 1.6.2.1. Instructions concerning specific positions

Columns	
010	Adjustments to CET1
020	Adjustments to AT1
030	Adjustments to T2
040	Adjustments included in RWAs Column 050 includes the relevant residual amount, i.e. prior the application of provisions of Chapter 2 or 3 of Part Three of CRR.

Status: Point in time view as at 01/06/2015.

Changes to legislation: Commission Implementing Regulation (EU) No 680/2014, Division 1. is up to date with all changes known to be in force on or before 04 August 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)EUR 2014 No. 680 may be subject to amendment by EU Exit Instruments made by both the Prudential Regulation Authority and the Financial Conduct Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 4. These amendments are not currently available on legislation.gov.uk. Details of relevant amending instruments can be found by following the links provided in the table below.

	link to the CA1 template, the adjustments included in RWA do not have a direct link to the relevant templates for credit risk. If there are adjustments stemming from the transitional provisions to the RWA, those adjustments shall be included directly in the CR SA, CR IRB or CR EQU IRB. Additionally, those effects shall be reported in column 040 of CA5.1. As a consequence, those amounts are only memorandum items.
050	Applicable percentage
060	Eligible amount without transitional provisions Column 060 includes the amount of each instrument prior the application of transitional provisions. I.e. the basis amount relevant to calculate the adjustments.

ANNEX II Table 6: rows 1 - 58

- 1.6.3. C 05.02 — Grandfathered instruments: instruments not constituting state aid (CA5.2)
25. Institutions shall report information in relation with the transitional provisions of grandfathered instruments not constituting state aid (Article 484 to 491 of CRR).
- 1.6.3.1. Instructions concerning specific positions

Columns	
010	Amount of instruments plus related share premium Article 484(3) to (5) of CRR Instruments which are eligible for each respective row, including their related share premiums.
020	Base for calculating the limit Articles 486(2) to (4) of CRR
030	Applicable percentage Article 486(5) of CRR
040	Limit Article 486(2) to (5) of CRR
