## GENERAL INSTRUCTIONS

## 1. REFERENCES

1. This Annex contains additional instructions for the financial information templates ('FINREP') in Annexes III and IV to this Regulation. This Annex complements the instructions included in the form of references in the templates in Annexes III and IV.
2. The data points identified in the templates shall be drawn up in accordance with the recognition, offsetting and valuation rules of the relevant accounting framework, as defined in Article 4(1)(77) of Regulation (EU) No 575/2013 ('CRR').
3. Institutions shall only submit those parts of the templates related to:
  - (a) assets, liabilities, equity, income and expenses that are recognised by the institution;
  - (b) off-balance sheet exposures and activities in which the institution is involved;
  - (c) transactions performed by the institution;
  - (d) valuation rules, including methods for the estimation of allowances for credit risk, applied by the institution.
4. For the purposes of Annexes III and IV as well as this Annex, the following abbreviations shall apply:
  - (a) 'IAS regulation': Regulation (EC) No 1606/2002;
  - (b) 'IAS' or 'IFRS': 'International Accounting Standards', as defined in Article 2 of the IAS regulation that has been adopted by the Commission;
  - (c) 'ECB BSI Regulation' or 'ECB/2008/32': Regulation (EC) No 25/2009 of the European Central Bank <sup>(1)</sup>;
  - (d) 'NACE Regulation': Regulation (EC) No 1893/2006 of the European Parliament and of the Council <sup>(2)</sup>;

<sup>(1)</sup> Regulation (EC) No 25/2009 of the European Central Bank of 19 December 2008 concerning the balance sheet of monetary financial institutions sector (recast) (ECB/2008/32) (OJ L 15, 20.1.2009, p. 14).

<sup>(2)</sup> Regulation (EC) No 1893/2006 of the European Parliament and of the Council of 20 December 2006 establishing the statistical classification of economic activities NACE Revision 2 and amending Council Regulation (EEC) No 3037/90 as well as certain EC Regulations on specific statistical domains (OJ L 393, 30.12.2006, p. 1).

▼ **M3**

- (e) ‘BAD’: Council Directive 86/635/EEC <sup>(1)</sup>;
- (f) ‘4th Directive’: Fourth Council Directive 78/660/EEC <sup>(2)</sup>;
- (g) ‘National GAAP’: national generally accepted accounting principles developed under BAD;
- (h) ‘SME’: micro, small and medium-sized enterprises defined in Commission Recommendation C(2003)1422 <sup>(3)</sup>;
- (i) ‘ISIN code’: the International Securities Identification Number assigned to securities, composed of 12 alphanumeric characters, which uniquely identifies a securities issue;
- (j) ‘LEI code’: the global Legal Entity Identifier assigned to entities, which uniquely identifies a party to a financial transaction.

## 2. CONVENTION

5. For the purposes of Annexes III and IV, a data point shadowed in grey shall mean that this data point is not requested or that it is not possible to report it. In Annex IV, a row or a column with references shadowed in black means that the related data points should not be submitted by those institutions that follow those references in that row or column.
6. Templates in Annexes III and IV include implicit validation rules which are laid down in the templates themselves through the use of conventions.
7. The use of brackets in the label of an item in a template means that this item is to be subtracted to obtain a total, but it does not mean that it shall be reported as negative.
8. Items that shall be reported in negative are identified in the compiling templates by including ‘(-)’ at the beginning of their label such as in ‘(-) Treasury shares’.
9. In the ‘Data Point Model’ (‘DPM’) for financial information reporting templates of Annexes III and IV, every data point (cell) has a ‘base item’ to which the ‘credit/debit’ attribute is allocated. This allocation ensures that all entities who report data points follow the ‘sign convention’ and allows to know the ‘credit/debit’ attribute that corresponds to each data point.
10. Schematically, this convention works as in Table 1.

<sup>(1)</sup> Council Directive 86/635/EEC of 8 December 1986 on the annual accounts and consolidated accounts of banks and other financial institutions (OJ L 372, 31.12.1986, p. 1).

<sup>(2)</sup> Fourth Council Directive 78/660/EEC of 25 July 1978 based in Article 54(3)(g) of the Treaty on the annual accounts of certain types of companies (OJ L 222, 14.8.1978, p. 11).

<sup>(3)</sup> Commission Recommendation of 6 May 2003 concerning the definition of micro, small and medium-sized enterprises (C(2003)1422) (OJ L 124, 20.5.2003, p. 36).

|             |                                                  | Negative balance on assets                         | Negative (Minus '-' sign needed)    |
|             |                                                  | Decrease on assets                                 | Negative (Minus '-' sign needed)    |
| Expenses    |                                                  | Balance on expenses                                | Positive ('Normal', no sign needed) |
|             |                                                  | Increase on expenses                               | Positive ('Normal', no sign needed) |
|             |                                                  | Negative balance (including reversals) on expenses | Negative (Minus '-' sign needed)    |
|             |                                                  | Decrease on expenses                               | Negative (Minus '-' sign needed)    |
| Liabilities | Credit                                           | Balance on liabilities                             | Positive ('Normal', no sign needed) |
|             |                                                  | Increase on liabilities                            | Positive ('Normal', no sign needed) |
|             |                                                  | Negative balance on liabilities                    | Negative (Minus '-' sign needed)    |
|             |                                                  | Decrease on liabilities                            | Negative (Minus '-' sign needed)    |
| Equity      |                                                  | Balance on equity                                  | Positive ('Normal', no sign needed) |
|             |                                                  | Increase on equity                                 | Positive ('Normal', no sign needed) |
|             |                                                  | Negative balance on equity                         | Negative (Minus '-' sign needed)    |
|             |                                                  | Decrease on equity                                 | Negative (Minus '-' sign needed)    |
| Income      | Balance on income                                | Positive ('Normal', no sign needed)                |                                     |
|             | Increase on income                               | Positive ('Normal', no sign needed)                |                                     |
|             | Negative balance (including reversals) on income | Negative (Minus '-' sign needed)                   |                                     |
|             | Decrease on income                               | Negative (Minus '-' sign needed)                   |                                     |

**▼ M3****3. CONSOLIDATION**

11. Unless specified otherwise in this Annex, FINREP templates shall be prepared using the prudential scope of consolidation in accordance with Part 1, Title II, Chapter 2, Section 2, of CRR. Institutions shall account for their subsidiaries and joint ventures using the same methods as for prudential consolidation:
  - (a) institutions may be permitted or required to apply the equity method to investments in insurance and non-financial subsidiaries in accordance with Article 18(5) of CRR;
  - (b) institutions may be permitted to use the proportional consolidation method for financial subsidiaries in accordance with Article 18(2) of CRR;
  - (c) institutions may be required to use the proportional consolidation method for investment in joint ventures in accordance with Article 18(4) of CRR.

**4. ACCOUNTING PORTFOLIOS****4.1. Assets**

12. 'Accounting portfolios' shall mean financial instruments aggregated by valuation rules. These aggregations do not include investments in subsidiaries, joint ventures and associates, balances receivable on demand classified as 'Cash, cash balances at central banks and other demand deposits' as well as those financial instruments classified as 'Held for sale' presented in the items 'Non-current assets and disposal groups classified as held for sale' and 'Liabilities included in disposal groups classified as held for sale'.
13. The following accounting portfolios based on IFRS shall be used for financial assets:
  - (a) 'Financial assets held for trading';
  - (b) 'Financial assets designated at fair value through profit or loss';
  - (c) 'Available-for-sale financial assets';
  - (d) 'Loans and Receivables';
  - (e) 'Held-to-maturity investments'.
14. The following accounting portfolios based on National GAAP shall be used for financial assets:
  - (a) 'Trading financial assets';
  - (b) 'Non-trading non-derivative financial assets measured at fair value through profit or loss';

**▼ M3**

- (c) 'Non-trading non-derivative financial assets measured at fair value to equity';
  - (d) 'Non-trading debt instruments measured at a cost-based method'; and
  - (e) 'Other non-trading non-derivative financial assets'.
15. 'Trading financial assets' has the same meaning as under the relevant National GAAP based on BAD. Under National GAAP based on BAD, derivatives that are not held for hedge accounting shall be reported in this item without regarding the method applied to measure these contracts. Institutions shall include derivatives contracts in the balance sheet only when these contracts are recognised in accordance with the relevant accounting framework.
  16. For financial assets, 'cost-based methods' include those valuation rules by which the financial asset is measured at cost plus interest accrued less impairment losses.
  17. Under National GAAP based on BAD, 'Other non-trading non-derivative financial assets' shall include financial assets that do not qualify for inclusion in other accounting portfolios. This accounting portfolio includes, among others, financial assets that are measured at the lower of their amount at initial recognition or their fair value (so-called 'Lower Of Cost Or Market' or 'LOCOM').
  18. Under National GAAP based on BAD, institutions that are permitted or required to apply certain valuation rules for financial instruments in IFRS shall submit, to the extent that they are applied, the relevant accounting portfolios.
  19. 'Derivatives — Hedge accounting' shall include derivatives held for hedge accounting under the relevant accounting framework.

**4.2. Liabilities**

20. The following accounting portfolios based on IFRS shall be used for financial liabilities:
  - (a) 'Financial liabilities held for trading';
  - (b) 'Financial liabilities designated at fair value through profit or loss';
  - (c) 'Financial liabilities measured at amortised cost'.
21. The following accounting portfolios based on National GAAP shall be used for financial liabilities:
  - (a) 'Trading financial liabilities'; and
  - (b) 'Non-trading non-derivative financial liabilities measured at a cost-based method'.

▼ **M3**

22. Under National GAAP, institutions that are permitted or required to apply certain valuation rules for financial instruments in IFRS shall submit, to the extent that they are applied, the relevant accounting portfolios.
23. Both under IFRS and National GAAP, 'Derivatives — Hedge accounting' shall include derivatives held for hedge accounting under the relevant accounting framework.

**5. FINANCIAL INSTRUMENTS****5.1. Financial assets**

24. The carrying amount shall mean the amount to be reported in the asset side of the balance sheet. The carrying amount of financial assets shall include accrued interest.
25. Financial assets shall be distributed among the following classes of instruments: 'Cash on hand', 'Derivatives', 'Equity instruments', 'Debt securities', and 'Loan and advances'.
26. 'Debt securities' are debt instruments held by the institution issued as securities that are not loans in accordance with the ECB BSI Regulation.
27. 'Loans and advances' are debt instruments held by the institutions that are not securities; this item includes 'loans' in accordance with the ECB BSI Regulation as well as advances that cannot be classified as 'loans' according to the ECB BSI Regulation. 'Advances that are not loans' are further characterized in paragraph 41(g) of Part 1 of this Annex. Consequently, 'debt instruments' shall include 'loans and advances' and 'debt securities'.

**5.2. Financial liabilities**

28. The carrying amount shall mean the amount to be reported in the liability side of the balance sheet. The carrying amount of financial liabilities shall include accrued interest.
29. Financial liabilities shall be distributed among the following classes of instruments: 'Derivatives', 'Short positions', 'Deposits', 'Debt securities issued' and 'Other financial liabilities'.
30. 'Deposits' are defined in the same way as in the ECB BSI Regulation.
31. 'Debt securities issued' are debt instruments issued as securities by the institution that are not deposits in accordance with the ECB BSI Regulation.
32. 'Other financial liabilities' include all financial liabilities other than derivatives, short positions, deposits and debt securities issued.
33. Under IFRS or compatible National GAAP, 'Other financial liabilities' may include financial guarantees when they are measured either at fair value through profit or loss [IAS 39.47(a)] or at the amount initially recognised less cumulative amortization [IAS 39.47(c)(ii)]. Loan commitments shall be reported as 'Other financial

▼ **M3**

liabilities' where they are designated as financial liabilities at fair value through profit or loss [IAS 39.4(a)] or they are commitments to provide a loan at a below-market interest rate [IAS 39.4(b), 47(d)]. Provisions arising from these contracts [IAS 39.47(c)(i), (d)(i)] are reported as provisions for 'Commitments and guarantees given'.

34. 'Other financial liabilities' may also include dividends to be paid, amounts payable in respect of suspense and transit items, and amounts payable in respect of future settlements of transactions in securities or foreign exchange transactions (payables for transactions recognised before the payment date).

6. COUNTERPARTY BREAKDOWN

35. Where a breakdown by counterparty is required the following counterparty sectors shall be used:

- (a) central banks;
- (b) general governments: central governments, state or regional governments, and local governments, including administrative bodies and non-commercial undertakings, but excluding public companies and private companies held by these administrations that have a commercial activity (which shall be reported under 'non-financial corporations'); social security funds; and international organisations, such as the European Community, the International Monetary Fund and the Bank for International Settlements;
- (c) credit institutions: any institution covered by the definition in Article 4(1)(1) of CRR ('undertaking the business of which is to take deposits or other repayable funds from the public and to grant credits for its own account') and multilateral development banks;
- (d) other financial corporations: all financial corporations and quasi-corporations other than credit institutions such as investment firms, investment funds, insurance companies, pension funds, collective investment undertakings, and clearing houses as well as remaining financial intermediaries and financial auxiliaries;
- (e) non-financial corporations: corporations and quasi-corporations not engaged in financial intermediation but principally in the production of market goods and non-financial services according to the ECB BSI Regulation;
- (f) Households: individuals or groups of individuals as consumers, and producers of goods and non-financial services exclusively for their own final consumption, and as producers of market goods and non-financial and financial services provided that their activities are not those of quasi-corporations. Non-profit institutions which serve households and which are principally engaged in the production of non-market goods and services intended for particular groups of households are included.

**▼ M3**

36. The counterparty sector allocation is based exclusively on the nature of the immediate counterparty. The classification of the exposures incurred jointly by more than one obligor shall be done on the basis of the characteristics of the obligor that was the more relevant, or determinant, for the institution to grant the exposure. Among other classifications, the distribution of jointly incurred exposures by counterparty sector, country of residence and NACE codes should be driven by the characteristics of the more relevant or determinant obligor.

**PART 2**

## TEMPLATE RELATED INSTRUCTIONS

## 1. BALANCE SHEET

1.1. **Assets (1.1)**

1. 'Cash on hand' includes holdings of national and foreign banknotes and coins in circulation that are commonly used to make payments.
2. 'Cash balances at central banks' include balances receivable on demand at central banks.
3. 'Other demand deposits' include balances receivable on demand with credit institutions.
4. 'Investments in subsidiaries, joint ventures and associates' include the investments in associates, joint ventures and subsidiaries which are not fully or proportionally consolidated. The carrying amount of investments accounted for using the equity method includes related goodwill.
5. Assets that are not financial assets and that due to their nature could not be classified in specific balance sheet items shall be reported in 'Other assets'. Other assets may include gold, silver and other commodities, even when they are held with trading intent.
6. 'Non-current assets and disposal groups classified as held for sale' has the same meaning as under IFRS 5.

1.2. **Liabilities (1.2)**

7. Provisions for 'Pensions and other post employment defined benefit obligations' include the amount of net defined benefit liabilities.
8. Under IFRS or compatible National GAAP, provisions for 'Other long-term employee benefits' include the amount of the deficits in the long-term employment benefit plans listed in IAS 19.153. The accrued expense from short term employee benefits [IAS 19.11(a)], defined contribution plans [IAS 19.51(a)] and termination benefits [IAS 19.169(a)] shall be included in 'Other liabilities'.

**▼ M3**

9. 'Share capital repayable on demand' includes the capital instruments issued by the institution that do not meet the criteria to be classified in equity. Institutions shall include in this item the cooperative shares that do not meet the criteria to be classified in equity.
10. Liabilities that are not financial liabilities and that due to their nature could not be classified in specific balance sheet items shall be reported in 'Other liabilities'.
11. 'Liabilities included in disposal groups classified as held for sale' has the same meaning as under IFRS 5.
12. 'Funds for general banking risks' are amounts that have been assigned in accordance with Article 38 of the BAD. When recognised, they shall appear separately either as liabilities under 'provisions' or within equity under 'other reserves'.

**1.3. Equity (1.3)**

13. Under IFRS or compatible National GAAP, equity instruments that are financial instruments include those contracts under the scope of IAS 32.
14. 'Unpaid capital which has been called up' includes the carrying amount of capital issued by the institution that has been called-up to the subscribers but not paid at the reference date.
15. 'Equity component of compound financial instruments' includes the equity component of compound financial instruments (that is, financial instruments that contain both a liability and an equity component) issued by the institution, when segregated in accordance with the relevant accounting framework (including compound financial instruments with multiple embedded derivatives whose values are interdependent).
16. 'Other equity instruments issued' includes equity instruments that are financial instruments other than 'Capital' and 'Equity component of compound financial instruments'.
17. 'Other equity' shall comprise all equity instruments that are not financial instruments including, among others, equity-settled share-based payment transactions [IFRS 2.10].
18. Under IFRS or compatible National GAAP, 'Revaluation reserves' includes the amount of reserves resulting from first-time adoption to IAS, or compatible National GAAP, that have not been released to other type of reserves.
19. 'Other reserves' are split between 'Reserves or accumulated losses of investments in subsidiaries, joint ventures and associates' and 'Other'. 'Reserves or accumulated losses of investments in subsidiaries, joint ventures and associates' include the accumulated amount

▼ M3

of income and expenses generated by the aforementioned investments through profit or loss in past years. 'Other' includes reserves different from those separately disclosed in other items and may include legal reserve and statutory reserve.

20. 'Treasury shares' cover all financial instruments that have the characteristics of own equity instruments which have been reacquired by the institution.

2. STATEMENT OF PROFIT OR LOSS (2)

21. Interest income and interest expense from financial instruments held for trading, and from financial instruments designated at fair value through profit or loss, shall be reported either separately from other gains and losses under items 'interest income' and 'interest expense' ('clean price') or as part of gains or losses from these categories of instruments ('dirty price').
22. Institutions shall report the following items broken down by accounting portfolios:
- (a) 'Interest income';
  - (b) 'Interest expense';
  - (c) 'Dividend income';
  - (d) 'Gains or losses on de-recognition of financial assets and liabilities not measured at fair value through profit or loss, net';
  - (e) 'Impairment or (-) reversal of impairment on financial assets not measured at fair value through profit or loss'.
23. 'Interest income. Derivatives — Hedge accounting, interest rate risk' and 'Interest expenses. Derivatives — Hedge accounting, interest rate risk' include the amounts related to those derivatives classified in the category 'hedge accounting' which cover interest rate risk. They shall be reported as interest income and expenses on a gross basis to present correct interest income and expenses from the hedged items to which they are linked.
24. The amounts related to those derivatives classified in the category 'held for trading' which are hedging instruments from an economic but not accounting point of view may be reported as interest income and expenses to present correct interest income and expenses from the financial instruments that are hedged. These amounts shall be included as a part of the items 'Interest income. Financial assets held for trading' and 'Interest expenses. Financial liabilities held for trading'.
25. 'Interest income — other assets' includes amounts of interest income not included in the other items. This item may include interest income related to cash, cash balances at central banks and other demand deposits and to non-current assets and disposal groups classified as held for sale as well as net interest income from net defined benefit asset.

**▼ M3**

26. 'Interest expenses — other liabilities' includes amounts of interest expenses not included in the other items. This item may include interest expenses related to liabilities included in disposal groups classified as held for sale, expenses derived from increases in the carrying amount of a provision reflecting the passage of time or net interest expenses from net defined benefit liabilities.
  27. 'Profit or loss from non-current assets and disposal groups classified as held for sale not qualifying as discontinued operations' includes profit or loss generated by non-current assets and disposal groups classified as held for sale not qualifying as discontinued operations.
  28. Dividend income from financial assets held for trading and from financial assets designated at fair value through profit or loss shall be reported either as 'dividend income' separately from other gains and losses from these categories or as part of gains or losses from these categories of instruments. Dividend income from subsidiaries, associates and joint ventures which are outside the scope of consolidation shall be reported within 'Share of the profit or (-) loss of investments in subsidiaries, joint ventures and associates' and, according to IAS 28.10, the carrying amount of the investment shall be reduced for those accounted for under the equity method. Under IFRS, the gains or losses on de-recognition of investments in subsidiaries, joint ventures and associates shall be reported within 'Share of the profit or (-) loss of investments in subsidiaries, joint ventures and associates'.
  29. Under IFRS or compatible National GAAP, impairment on 'Financial assets at cost' includes impairment losses arising from the application of the impairment rules in IAS 39.66.
  30. For 'Gains or (-) losses from hedge accounting, net' institutions shall report fair value changes on hedging instruments and hedged items, including the result of ineffectiveness from cash flow hedges and from hedges of net investment in foreign operations.
3. STATEMENT OF COMPREHENSIVE INCOME (3)
31. Under IFRS or compatible National GAAP, 'Income tax relating to items that will not be reclassified' and 'Income tax relating to items that may be reclassified to profit or (-) loss' [IAS 1.91 (b), IG6] shall be reported as separate line items.
4. BREAKDOWN OF FINANCIAL ASSETS BY INSTRUMENT AND BY COUNTERPARTY SECTOR (4)
32. Financial assets shall be broken down by instrument and — where required — by counterparty.
  33. Under IFRS or compatible National GAAP, equity instruments shall be reported with a specific breakdown ('of which') to identify instruments measured at cost and specific counterparty sectors

▼ **M3**

only. Under National GAAP based on BAD, equity instruments shall be reported with a specific breakdown ('of which') to identify unquoted and specific counterparty sectors only.

34. For available-for-sale financial assets institutions shall report the fair value of impaired assets and unimpaired assets respectively, and the cumulative amount of impairment losses recognised in profit or loss as at the reporting date. The sum of fair value of unimpaired assets and fair value of impaired assets shall be the carrying amount of these assets.
  35. Under IFRS or compatible National GAAP, for financial assets classified as 'Loans and receivables' or as 'Held-to-maturity', the gross carrying amount of unimpaired assets and of impaired assets shall be reported. The allowances shall be broken down to 'Specific allowances for financial assets, individually estimated', 'Specific allowances for financial assets, collectively estimated' and 'Collective allowances for incurred but not reported losses'. Under National GAAP based on BAD, for financial assets classified as 'non-trading non-derivative financial asset measured at a cost-based method', the gross carrying amount of unimpaired assets and of impaired assets shall be reported.
  36. 'Specific allowances for financial assets, individually estimated' shall include cumulative amount of impairment related to financial assets which have been assessed individually.
  37. 'Specific allowances for financial assets, collectively estimated' shall include the cumulative amount of collective impairment calculated on insignificant loans which are impaired on individual basis and for which the institution decides to use a statistical approach (portfolio basis). This approach does not preclude performing individual impairment evaluation of loans that are individually insignificant and thus to report them as specific allowances for financial assets, individually estimated.
  38. 'Collective allowances for incurred but not reported losses' shall include the cumulative amount of collective impairment determined on financial assets which are not impaired on individual basis. For 'allowances for incurred but not reported losses', IAS 39.59(f), AG87 and AG90 may be followed.
  39. The sum of unimpaired assets and impaired assets net of all the allowances shall be equal to the carrying amount.
  40. Template 4.5 includes the carrying amount of 'Loans and advances' and 'Debt securities' that fall within the definition of 'subordinated debt' in paragraph 54 of this Part.
5. BREAKDOWN OF LOANS AND ADVANCES BY PRODUCT (5)
41. The 'carrying amount' of loans and advances shall be reported by type of product net of allowances due to impairment. Balances receivable on demand classified as 'Cash, cash balances at central banks and other demand deposits' shall also be reported in this template independently of the 'accounting portfolio' in which they are included shall be allocated to the following products:

**▼ M3**

- (a) 'on demand (call) and short notice (current account)' include balances receivable on demand (call), at short notice, current accounts and similar balances which may include loans that are overnight deposits for the borrower, regardless of their legal form. It also includes 'overdrafts' that are debit balances on current account balances;
- (b) 'Credit card debt' includes credit granted either via delayed debit cards or via credit cards [ECB BSI Regulation];
- (c) 'Trade receivables' include loans to other debtors granted on the basis of bills or other documents that give the right to receive the proceeds of transactions for the sale of goods or provision of services. This item includes all factoring transactions (both with and without recourse);
- (d) 'Finance leases' include the carrying amount of finance lease receivables. Under IFRS or compatible National GAAP, 'finance lease receivables' are as defined in IAS 17;
- (e) 'Reverse repurchase loans' include finance granted in exchange for securities bought under repurchase agreements or borrowed under securities lending agreements;
- (f) 'Other term loans' include debit balances with contractually fixed maturities or terms that are not included in other items;
- (g) 'Advances that are not loans' include advances that cannot be classified as 'loans' according to the ECB BSI Regulation. This item includes, among others, gross amounts receivable in respect of suspense items (such as funds that are awaiting investment, transfer, or settlement) and transit items (such as cheques and other forms of payment that have been sent for collection);
- (h) 'Mortgage loans [Loans collateralized by immovable property]' include loans formally secured by immovable property collateral independently of their loan/collateral ratio (commonly referred as 'loan-to-value');
- (i) 'Other collateralized loans' include loans formally backed by collateral, independently of their loan/collateral ratio (so-called 'loan-to-value'), other than 'Loans collateralised by immovable property', 'Finance leases' and 'Reverse repurchase loans'. This collateral includes pledges of securities, cash, and other collateral;
- (j) 'Credit for consumption' includes loans granted mainly for the personal consumption of goods and services [ECB BSI Regulation];

**▼ M3**

- (k) 'Lending for house purchase' includes credit extended to households for the purpose of investing in houses for own use and rental, including building and refurbishments [ECB BSI Regulation];
  - (l) 'Project finance loans' include loans that are recovered solely from the income of the projects financed by them.
6. BREAKDOWN OF LOANS AND ADVANCES TO NON-FINANCIAL CORPORATIONS BY NACE CODES (6)
- 42. Gross carrying amount of loans and advances to non-financial corporations shall be classified by sector of economic activities using codes in NACE Regulation ('NACE Codes') on the basis of the principal activity of the counterparty.
  - 43. The classification of the exposures incurred jointly by more than one obligor shall be done in accordance with paragraph 36 of Part 1.
  - 44. Reporting of NACE codes shall be done with the first level of disaggregation (by 'section').
  - 45. For debt instruments at amortised cost or at fair value through other comprehensive income, 'Gross carrying amount' shall mean the carrying amount excluding 'Accumulated impairment'. For debt instruments at fair value through profit and loss, 'Gross carrying amount' shall mean the carrying amount excluding 'Accumulated changes in fair value due to credit risk'.
  - 46. 'Accumulated impairment' shall be reported for financial assets at amortised cost or at fair value through other comprehensive income. 'Accumulated changes in fair value due to credit risk' figures shall be reported for financial assets at fair value through profit or loss. 'Accumulated impairment' shall include specific allowances for financial assets, individually and collectively estimated as defined in paragraphs 36 and 37 as well as 'Collective allowances for incurred but not reported losses' as defined in paragraph 38, but do not include 'Accumulated write-offs' amounts as defined in paragraph 49.
7. FINANCIAL ASSETS SUBJECT TO IMPAIRMENT THAT ARE PAST DUE OR IMPAIRED (7)
- 47. Debt instruments that are past due but not impaired at the reporting reference date shall be reported in the accounting portfolios subject to impairment. According to IFRS or compatible National GAAP, these accounting portfolios comprise the categories 'Available for sale', 'Loans and receivables', and 'Held-to-maturity'. According to National GAAP based on BAD, these accounting portfolios comprise also 'Non-trading debt instruments measured at a cost-based method' and 'Other non-trading non-derivative financial assets'.
  - 48. Assets qualify as past due when counterparties have failed to make a payment when contractually due. The whole amounts of such assets shall be reported and broken down according to the number of days of the oldest past due instalment. The past due analysis shall not include any impaired assets. The carrying amount of impaired financial assets shall be reported separately from the past due assets.

▼ **M3**

49. The column 'Accumulated write-offs' includes the cumulative amount of principal and past due interest of any debt instrument that the institution is no longer recognising because they are considered uncollectible, independently of the portfolio in which they were included. These amounts shall be reported until the total extinguishment of all the institution's rights (by expiry of the statute-of-limitations period, forgiveness or other causes) or until recovery.
50. 'Write-offs' could be caused both by reductions of the carrying amount of financial assets recognised directly in profit or loss as well as by reductions in the amounts of the allowance accounts for credit losses taken against the carrying amount of financial assets.

## 8. BREAKDOWN OF FINANCIAL LIABILITIES (8)

51. As 'Deposits' are defined in the same way as in the ECB BSI Regulation, regulated savings deposits shall be classified in accordance with the ECB BSI Regulation and distributed according to the counterparty. In particular, non-transferable sight savings deposits, which although legally redeemable at demand are subject to significant penalties and restrictions and have features that are very close to overnight deposits, are classified as deposits redeemable at notice.
52. 'Debt securities issued' shall be disaggregated into the following type of products:
- (a) 'Certificates of deposits' are securities that enable the holders to withdraw funds from an account;
  - (b) 'Asset backed securities' according to Article 4(1)(61) of CRR;
  - (c) 'Covered Bonds' according to Article 129(1) of CRR;
  - (d) 'Hybrid contracts' comprise contracts with embedded derivatives;
  - (e) 'Other debt securities issued' includes debt securities not recorded in the previous lines and distinguishes convertible and non-convertible instruments.
53. 'Subordinated financial liabilities' issued are treated in the same way as other financial liabilities incurred. Subordinated liabilities issued in the form of securities are classified as 'Debt securities issued', whereas subordinated liabilities in the form of deposits are classified as 'Deposits'.
54. Template 8.2 includes the carrying amount of 'Deposits' and 'Debt securities issued' that meet the definition of subordinated debt classified by accounting portfolios. 'Subordinated debt' instruments provide a subsidiary claim on the issuing institution that can only be exercised after all claims with a higher status have been satisfied [ECB BSI Regulation].

**▼ M3**

9. LOAN COMMITMENTS, FINANCIAL GUARANTEES AND OTHER COMMITMENTS (9)
55. Off-balance sheet exposures include the off-balance sheet items listed in Annex I of CRR. Off-balance sheet exposures shall be broken down in loan commitments given, financial guarantees given, and other commitments given.
56. Information on loan commitments, financial guarantees, and other commitments given and received include both revocable and irrevocable commitments.
57. 'Loan commitments' are firm commitments to provide credit under pre-specified terms and conditions, except those that are derivatives because they can be settled net in cash or by delivering or issuing another financial instrument. The following items of Annex I of CRR shall be classified as 'Loan commitments':
- (a) 'Forward deposits'.
  - (b) 'Undrawn credit facilities' which comprise agreements to 'lend' or provide 'acceptance facilities' under pre-specified terms and conditions.
58. 'Financial guarantees' are contracts that require the issuer to make specified payments to reimburse the holder of a loss it incurs, because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument. Under IFRS or compatible National GAAP, these contracts meet the IAS 39.9 and IFRS 4.A definition of financial guarantee contracts. The following items of Annex I of CRR shall be classified as 'financial guarantees':
- (a) 'Guarantees having the character of credit substitute';
  - (b) 'Credit derivatives' that meet the definition of financial guarantee;
  - (c) 'Irrevocable standby letters of credit having the character of credit substitutes';
59. 'Other commitments' includes the following items of Annex I of CRR:
- (a) 'Unpaid portion of partly-paid shares and securities';
  - (b) 'Documentary credits issued or confirmed';
  - (c) Trade finance Off-balance sheet items;
  - (d) 'Documentary credits in which underlying shipment acts as collateral and other self-liquidating transactions';

▼ **M3**

- (e) ‘Warranties and indemnities’ (including tender and performance bonds) and ‘guarantees not having the character of credit substitutes’;
  - (f) ‘Shipping guarantees, customs and tax bonds’;
  - (g) Note issuance facilities (NIFs) and revolving underwritings facilities (RUFs);
  - (h) ‘Undrawn credit facilities’ which comprise agreements to ‘lend’ or provide ‘acceptance facilities’ when the terms and conditions are not pre-specified;
  - (i) ‘Undrawn credit facilities’ which comprise agreements to ‘purchase securities’ or ‘provide guarantees’;
  - (j) ‘Undrawn credit facilities for tender and performance guarantees’;
  - (k) ‘Other off-balance sheet items’ in Annex I of CRR.
60. Under IFRS or compatible National GAAP, the following item are recognised in the balance sheet and, consequently, should not be reported as off-balance sheet exposures:
- (a) ‘Credit derivatives’ that do not meet the definition of financial guarantees are ‘derivatives’ under IAS 39;
  - (b) ‘Acceptances’ are obligations by an institution to pay on maturity the face value of a bill of exchange, normally covering the sale of goods. Consequently, they are classified as ‘trade receivables’ on the balance sheet;
  - (c) ‘Endorsements on bills’ that do not meet the criteria for de-recognition under IAS 39;
  - (d) ‘Transactions with recourse’ that do not meet the criteria for de-recognition under IAS 39;
  - (e) ‘Assets purchased under outright forward purchase agreements’ are ‘derivatives’ under IAS 39;
  - (f) ‘Asset sale and repurchase agreements as defined in Article 12(3) and (5) of Directive 86/635/EEC’. In these contracts, the transferee has the option, but not the obligation, to return the assets at a price agreed in advance on a date specified (or to be specified). Therefore, these contracts meet the definition of derivatives under IAS 39.9.
61. ‘of which: defaulted’ shall include the nominal amount of those loan commitments, financial guarantees and other commitments given whose counterparty has incurred in default according to Article 178 of CRR.

▼ **M3**

62. For off-balance sheet exposures, the 'Nominal amount' is the amount that best represents the institution's maximum exposure to credit risk without taking account of any collateral held or other credit enhancements. In particular, for financial guarantees given, the nominal amount is the maximum amount the entity could have to pay if the guarantee is called on. For loan commitments, the nominal amount is the undrawn amount that the institution has committed to lend. Nominal amounts are exposure values before applying conversion factors and credit risk mitigation techniques.
63. In template 9.2, for loan commitments received, the nominal amount is the total undrawn amount that the counterparty has committed to lend to the institution. For other commitments received the nominal amount is the total amount committed by the other party in the transaction. For financial guarantees received, the 'maximum amount of the guarantee that can be considered' is the maximum amount the counterparty could have to pay if the guarantee is called on. When a financial guarantee received has been issued by more than one guarantor, the guaranteed amount shall be reported only once in this template; the guaranteed amount shall be allocated to guarantor that is more relevant for the mitigation of credit risk.

**10. DERIVATIVES (10 AND 11)**

64. The carrying amount and the notional amount of the derivatives held for trading and the derivatives held for hedge accounting shall be reported broken down by type of underlying risk, type of market (over-the-counter versus organised markets) and type of product.
65. Institutions shall report the derivatives held for hedge accounting broken down by type of hedge.
66. Derivatives included in hybrid instruments which have been separated from the host contract shall be reported in templates 10 and 11 according to the nature of the derivative. The amount of the host contract is not included in these templates. However, if the hybrid instrument is measured at fair value through profit or loss, the contract as a whole shall be included in the category of held for trading or financial instruments designated at fair value through profit or loss (and, thus, the embedded derivatives are not reported in 10 and 11).

**10.1. Classification of derivatives by type of risk**

67. All derivatives shall be classified into the following risk categories:
  - (a) Interest rate: Interest rate derivatives are contracts related to an interest-bearing financial instrument whose cash flows are determined by referencing interest rates or another interest rate contract such as an option on a futures contract to purchase a Treasury bill. This category is restricted to those deals where all the legs are exposed to only one currency's interest rate. Thus it excludes contracts involving the exchange of one or more foreign currencies such as cross-currency swaps and currency options, and other contracts whose predominant risk characteristic is foreign exchange risk, which are to be reported as foreign exchange contracts. Interest rate contracts include forward rate agreements, single-currency interest rate swaps, interest rate futures, interest rate options (including caps, floors, collars and corridors), interest rate swaptions and interest rate warrants.

▼ **M3**

- (b) Equity: Equity derivatives are contracts that have a return, or a portion of their return, linked to the price of a particular equity or to an index of equity prices.
  - (c) Foreign exchange and gold: These derivatives include contracts involving the exchange of currencies in the forward market and the exposure to gold. They therefore cover outright forwards, foreign exchange swaps, currency swaps (including cross-currency interest rate swaps), currency futures, currency options, currency swaptions and currency warrant. Foreign exchange derivatives include all deals involving exposure to more than one currency, whether in interest rates or exchange rates. Gold contracts include all deals involving exposure to that commodity.
  - (d) Credit: Credit derivatives are contracts that do not meet the definition of financial guarantees and in which the payout is linked primarily to some measure of the creditworthiness of a particular reference credit. The contracts specify an exchange of payments in which at least one of the two legs is determined by the performance of the reference credit. Payouts can be triggered by a number of events, including a default, a rating downgrade or a stipulated change in the credit spread of the reference asset.
  - (e) Commodity: These derivatives are contracts that have a return, or a portion of their return, linked to the price of, or to a price index of, a commodity such as a precious metal (other than gold), petroleum, lumber or agricultural products.
  - (f) Other: These derivatives are any other derivative contracts, which do not involve an exposure to foreign exchange, interest rate, equity, commodity or credit risk such as climatic derivatives or insurance derivatives.
68. When a derivative is influenced by more than one type of underlying risk, the instrument shall be allocated to the most sensitive type of risk. For multi-exposure derivatives, in cases of uncertainty, the deals shall be allocated according to the following order of precedence:
- (a) Commodities: All derivatives transactions involving a commodity or commodity index exposure, whether or not they involve a joint exposure in commodities and any other risk category which may include foreign exchange, interest rate or equity, shall be reported in this category.
  - (b) Equities: With the exception of contracts with a joint exposure to commodities and equities, which are to be reported as commodities, all derivatives transactions with a link to the performance of equities or equity indices shall be reported in the equity category. Equity deals with exposure to foreign exchange or interest rates should be included in this category.
  - (c) Foreign exchange and gold: This category includes all derivatives transactions (with the exception of those already reported in the commodity or equity categories) with exposure to more than one currency, be it pertaining either to interest-bearing financial instruments or exchange rates.

**▼ M3****10.2. Amounts to be reported for derivatives**

69. The 'carrying amount' for all derivatives (hedging or trading) is the fair value. Derivatives with a positive fair value (above zero) are 'financial assets' and derivatives with a negative fair value (below zero) are 'financial liabilities'. The 'carrying amount' shall be reported separately for derivatives with a positive fair value ('financial assets') and for those with a negative fair value ('financial liabilities'). At the date of initial recognition, a derivative is classified as 'financial asset' or 'financial liability' according to its initial fair value. After initial recognition, as the fair value of a derivative increases or decreases, the terms of the exchange may become either favourable to the institution (and the derivative is classified as 'financial asset') or unfavourable (and the derivative is classified as 'financial liability').
70. The 'Notional amount' is the gross nominal of all deals concluded and not yet settled at the reference date. In particular, the following shall be taken account to determine the notional amount:
- (a) For contracts with variable nominal or notional principal amounts, the basis for reporting is the nominal or notional principal amounts at the reference date;
  - (b) The notional amount value to be reported for a derivative contract with a multiplier component is the contract effective notional amount or par value;
  - (c) Swaps: The notional amount of a swap is the underlying principal amount upon which the exchange of interest, foreign exchange or other income or expense is based;
  - (d) Equity and commodity-linked contracts: The notional amount to be reported for an equity or commodity contract is the quantity of the commodity or equity product contracted for purchase or sale multiplied by the contract price of a unit. The notional amount to be reported for commodity contracts with multiple exchanges of principal is the contractual amount multiplied by the number of remaining exchanges of principal in the contract;
  - (e) Credit derivatives: The contract amount to be reported for credit derivatives is the nominal value of the relevant reference credit;
  - (f) Digital options have a predefined payoff which can be either a monetary amount or a number of contracts of an underlying. The notional amount for digital options is defined as either the predefined monetary amount or the fair value of the underlying at the reference date.
71. The column 'Notional amount' of derivatives includes, for each line item, the sum of the notional amounts of all contracts in which the institution is counterparty, independently of whether the derivatives are considered assets or liabilities on the face of the balance sheet. All notional amounts shall be reported regardless whether the fair value of derivatives is positive, negative or equal to zero. Netting among the notional amounts is not allowed.

▼ **M3**

72. The 'Notional amount' shall be reported by 'total' and by 'of which: sold' for the line items: 'OTC options', 'Organised market options', 'Commodity' and 'Other'. The item 'of which sold' includes the notional amounts (strike price) of the contracts in which the counterparties (option holders) of the institution (option writer) have the right to exercise the option and for the items related to credit risk derivatives, the notional amounts of the contracts in which the institution (protection seller) has sold (gives) protection to their counterparties (protection buyers).

**10.3. Derivatives classified as 'economic hedges'**

73. Derivatives that are not effective hedging instruments in accordance with IAS 39 should be included in the 'held for trading' portfolio. This applies also to derivatives held for hedging purposes not meeting the requirements in IAS 39 to be effective hedging instruments as well as to derivatives linked to unquoted equity instruments whose fair value cannot be measured reliably.
74. Derivatives 'held for trading' that meet the definition of 'economic hedges' shall be reported separately for each type of risk. The item 'economic hedges' includes those derivatives that are classified as 'held for trading' but they are not part of the trading book as defined in Article 4(1)(86) of CRR. This item does not include derivatives for proprietary trading.

**10.4. Breakdown of derivatives by counterparty sector**

75. The carrying amount and the total notional amount of derivatives held for trading, and also of derivatives held for hedge accounting, which are traded in the OTC market, shall be reported by counterparty using the following categories:
- (a) 'credit institutions',
  - (b) 'other financial corporations', and
  - (c) 'rest' comprising all other counterparties.
76. All OTC derivatives, without regarding the type of risk to which they are related, shall be broken down by these counterparties. Counterparty breakdown for credit risk derivatives refers to the sector where the counterparty of the institution in the contract (buyer or seller of protection) is allocated.

**11. MOVEMENTS IN ALLOWANCES FOR CREDIT LOSSES AND IMPAIRMENT OF EQUITY INSTRUMENTS (12)**

77. 'Increases due to amounts set aside for estimated loan losses during the period' shall be reported when, for the main category of assets or the counterparty, the estimation of the impairment for the period result in the recognition of net expenses; that is, for the given category or counterparty, the increases in the impairment for the period exceed the decreases. 'Decreases due to amounts reversed for estimated loan losses during the period' shall be reported when, for the main category of assets or counterparty, the estimation of the impairment for the period result in the recognition of net income; that is, for the given category or counterparty, the decreases in the impairment for the period exceed the increases.

▼ **M3**

78. As explained in paragraph 50 of this Part, ‘write-offs’ may be done either by recognising directly in the statement of profit or loss the reduction in the amount of the financial asset (without using an allowance account) or by reducing the amount of the allowance accounts related to a financial asset. ‘Decreases due to amounts taken against allowances’ means decreases in the accumulated amount of allowances due to ‘write-offs’ made during the period because the related debt instruments are considered uncollectible. ‘Value adjustments recorded directly to the statement of profit or loss’ are ‘write-offs’ made during the period directly against the amount of the related financial asset.

12. COLLATERAL AND GUARANTEES RECEIVED (13)

12.1. **Breakdown of loans and advances by collateral and guarantees (13.1)**

79. The pledges and guarantees backing the loans and advances shall be reported by type of pledges: mortgage loans and other collateralised loans, and by financial guarantees. The loans and advances shall be broken down by counterparties.

80. In template 13.1, the ‘maximum amount of the collateral or guarantee that can be considered’ shall be reported. The sum of the amounts of a financial guarantee and/or collateral shown in the related columns of template 13.1 shall not exceed the carrying amount of the related loan.

81. For reporting loans and advances according to the type of pledge the following definitions shall be used:

(a) within ‘Mortgage loans [Loans collateralised by immovable property]’, ‘Residential’ includes loans secured by residential immovable property and ‘Commercial’ loans secured by pledges of commercial immovable property; in both cases as defined in CRR;

(b) within ‘Other collateralised loans’, ‘Cash [Debt instruments issued]’ includes pledges of deposits in or debt securities issued by the institution, and ‘Rest’ includes pledges of other securities or assets. The term institution must be understood here as referring to the institution providing the debt security to be used as collateral (which issues it actually) and receiving the loan and advance; not to the reporting institution, which is the one which receives the collateral and grants the loan and advance;

(c) ‘Financial guarantees received’ include contracts that require the issuer to make specified payments to reimburse the institution of a loss it incurs, because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

82. For loans and advances that have simultaneously more than one type of collateral or guarantee, the amount of the ‘Maximum collateral/guarantee that can be considered’ shall be allocated according to its quality starting from the one with the best quality.

12.2. **Collateral obtained by taking possession during the period [held at the reporting date] (13.2)**

83. This template includes the carrying amount of the collateral that has been obtained between the beginning and the end of the reference period and that remain recognised in the balance sheet at the reference date.

▼ **M3****12.3. Collateral obtained by taking possession [tangible assets] accumulated (13.3)**

84. 'Foreclosure [tangible assets]' is the cumulative carrying amount of tangible assets obtained by taking possession of collateral that remains recognised in the balance sheet at the reference date excluding those classified as 'Property, plant and equipment'.

**13. FAIR VALUE HIERARCHY: FINANCIAL INSTRUMENTS AT FAIR VALUE (14)**

85. Institutions shall report the value of financial instruments measured at fair value according to the hierarchy provided by in IFRS 13.72.
86. 'Change in fair value for the period' shall include gains or losses from re-measurements in the period of the instruments that continue to exist at the reporting date. These gains and losses are reported as for inclusion in the statement of profit or loss; thus, the amounts reported are before taxes.
87. 'Accumulated change in fair value before taxes' shall include the amount of gains or losses from re-measurements of the instruments accumulated from the initial recognition to the reference date.

**14. DERECOGNITION AND FINANCIAL LIABILITIES ASSOCIATED WITH TRANSFERRED FINANCIAL ASSETS (15)**

88. Template 15 includes information on transferred financial assets of which part or all do not qualify for de-recognition, and financial assets entirely derecognised for which the institution retains servicing rights.
89. The associated liabilities shall be reported according to the portfolio in which the related transferred financial assets were included in the assets side and not according to the portfolio in which they were included in the liability side.
90. The column 'Amounts derecognised for capital purposes' includes the carrying amount of the financial assets recognised for accounting purposes but derecognised for prudential purposes because the institution is treating them as securitisation positions for capital purposes in accordance with Article 109 of CRR since significant credit risk has been transferred according to the articles 243 and 244 of CRR.
91. 'Repurchase agreements' ('repos') are transactions in which the institution receives cash in exchange for financial assets sold at a given price under a commitment to repurchase the same (or identical) assets at a fixed price on a specified future date. Transactions involving the temporary transfer of gold against cash collateral shall also be considered 'Repurchase agreements' ('repos'). Amounts received by the institution in exchange for financial assets transferred to a third party ('temporary acquirer') shall be classified under 'repurchase agreements' where there is a commitment to reverse the operation and not merely an option to do so. Repurchase agreements also include repo-type operations which may include:

▼ **M3**

- (a) Amounts received in exchange for securities temporarily transferred to a third party in the form of securities lending against cash collateral;
  - (b) Amounts received in exchange for securities temporarily transferred to a third party in the form of sale/buy-back agreement.
92. 'Repurchase agreements' ('repos') and 'reverse repurchase loans' ('reverse repos') involve cash received or loaned out by the institution.
93. In a securitisation transaction, when the transferred financial assets are derecognized, institutions shall declare the gains (losses) generated by the item within the income statement corresponding to the 'accounting portfolios' in which the financial assets were included prior to their de-recognition.
15. **BREAKDOWN OF SELECTED STATEMENT OF PROFIT OR LOSS ITEMS (16)**
94. For selected items of the income statement further breakdowns of gains (or income) and losses (or expenses) shall be reported.
- 15.1. **Interest income and expenses by instrument and counterparty sector (16.1)**
95. The interests shall be broken down both by interest income on financial and other assets and interest expenses on financial and other liabilities. Interest income on financial assets includes interest income on derivatives held for trading, debt securities, and loans and advances. Interest expenses on financial liabilities includes interest expenses on derivatives held for trading, deposits, debt securities issued and other financial liabilities. For the purpose of template 16.1, short positions shall be considered within other financial liabilities. All instruments in the various portfolios are taken into account except those included in the items 'Derivatives — Hedge accounting' not used to hedge interest rate risk.
96. Interest on derivatives held for trading includes the amounts related to those derivatives held for trading which qualify as 'economic hedges' that are included as interest income or expenses to correct the income and expense of the hedged financial instruments from an economic but not accounting point of view.
- 15.2. **Gains or losses on de-recognition of financial assets and liabilities not measured at fair value through profit or loss by instrument (16.2)**
97. Gains and losses on de-recognition of financial assets and financial liabilities not measured at fair value through profit or loss shall be broken down by type of financial instrument and by accounting portfolio. For each item, the net realised gain or loss stemming from the derecognised transaction shall be reported. The net amount represents the difference between realised gains and realised losses.
- 15.3. **Gains or losses on financial assets and liabilities held for trading by instrument (16.3)**
98. Gains and losses on financial assets and liabilities held for trading shall be broken down by type of instrument; each item of the breakdown is the net realised and unrealised amount (gains minus losses) of the financial instrument.

**▼ M3****15.4. Gains or losses on financial assets and liabilities held for trading by risk (16.4)**

99. Gains and losses on financial assets and financial liabilities held for trading shall also be broken down by type of risk; each item of the breakdown is the net realised and unrealised amount (gains minus losses) of the underlying risk (interest rate, equity, foreign exchange, credit, commodity and other) associated to the exposure, including related derivatives. Gains and losses from exchange differences shall be included in the item in which the rest of gains and losses arising from the converted instrument are included. Gains and losses on assets and liabilities other than derivatives shall be included as follows:

- (a) Interest rate instruments: including trading of loans and advances, deposits and debt securities (held or issued);
- (b) Equity instruments: including trading of shares, quotas of UCITS and other equity instruments;
- (c) Foreign exchange trading: including exclusively trading on foreign exchanges;
- (d) Credit risk instruments: including trading of credit link notes;
- (e) Commodities: this item includes only derivatives because commodities held with trading intent shall be reported under 'Other assets' not under 'Financial assets held for trading'.
- (f) Other: including trading of financial instruments which cannot be classified in other breakdowns.

**15.5. Gains or losses on financial assets and liabilities designated at fair value to profit or loss by instrument (16.5)**

100. Gains and losses on financial assets and liabilities designated at fair value through profit or loss shall be broken down by type of instrument. Institutions shall report the net realised and unrealised and the amount of change in fair value in the period due to changes in the credit risk (own credit risk of the borrower or issuer).

**15.6. Gains or losses from hedge accounting (16.6)**

101. Gains and losses from hedge accounting shall be broken down by type of hedge accounting: fair value hedge, cash flow hedge and hedge of net investments in foreign operations. Gains and losses related to fair value hedge shall be broken down between the hedging instrument and the hedged item.

**15.7. Impairment on financial and non-financial assets (16.7)**

102. 'Additions' shall be reported when, for the accounting portfolio or main category of assets, the estimation of the impairment for the period results in recognition of net expenses. 'Reversals' shall be reported when, for the accounting portfolio or main category of assets, the estimation of the impairment for the period result in the recognition of net income.

▼ **M3**

16. RECONCILIATION BETWEEN ACCOUNTING AND CRR SCOPE OF CONSOLIDATION (17)
103. 'Accounting scope of consolidation' includes the carrying amount of assets, liabilities and equity as well as the nominal amounts of the off-balance sheet exposures prepared using the accounting scope of consolidation; that is, including in the consolidation insurance undertakings and non-financial corporations.
104. In this template, the item 'Investments in subsidiaries, joint ventures and associates' shall not include subsidiaries as with the accounting scope of consolidation all subsidiaries are fully consolidated
105. 'Assets under reinsurance and insurance contracts' shall include assets under reinsurance ceded as well as, if any, assets related to insurance and reinsurance contracts issued.
106. Liabilities under insurance and reinsurance contracts' shall include liabilities under insurance and reinsurance contracts issued.
17. GEOGRAPHICAL BREAKDOWN (20)
107. Template 20 shall be reported when the institution exceeds the threshold described in Article 5.1(a)(iv). The geographical breakdown by location of the activities in templates 20.1 to 20.3 distinguishes between 'domestic activities' and 'non-domestic activities'. 'Location' means the jurisdiction of incorporation of the legal entity which has recognized the corresponding asset or liability; for branches, it means the jurisdiction of its residence. For these purposes, 'Domestic' shall include the activities recognised in Member State where the institution is located.
108. Templates 20.4 to 20.7 contain information 'country-by-country' on the basis of the residence of the immediate counterparty. The breakdown provided shall include exposures or liabilities with residents in each foreign country in which the institution has exposures. Exposures or liabilities with supranational organisations shall not be assigned to the country of residence of the institution but to the geographical area 'Other countries'.
109. In template 20.4 for debt instruments, 'gross carrying amount' shall be reported as defined in paragraph 45 of Part 2. For derivatives and equity instruments, the amount to be reported is the carrying amount. 'Of which: Non-performing' loans and advances shall be reported as defined in paragraphs 145 to 157 of this Annex. Debt forbearance comprises all 'debt' contracts for the purpose of template 19 to which forbearance measures, as defined in paragraphs 163 to 179 of this Annex, are extended. Template 20.7 shall be reported with the classification by NACE Codes on a 'country-by-country' basis. NACE Codes shall be reported with the first level of disaggregation (by 'section').
18. TANGIBLE AND INTANGIBLE ASSETS: ASSETS SUBJECT TO OPERATING LEASE (21)
110. For the purposes of the calculation of the threshold in Article 9(e) tangible assets that have been leased by the institution (lessor) to third parties in agreements that qualify as operating leases under the relevant accounting framework shall be divided by total of tangible assets.

**▼ M3**

111. Under IFRS or compatible National GAAP, assets that have been leased by the institution (as lessor) to third parties in operating leases shall be reported broken down by measurement method.

19. ASSET MANAGEMENT, CUSTODY AND OTHER SERVICE FUNCTIONS (22)

112. For the purposes of the calculation of the threshold in Article 9(f), the amount of 'net fee and commission income' is the absolute value of the difference between 'fee and commission income' and 'fee and commission expense'. For the same purposes, the amount of 'net interest' is the absolute value of the difference between 'interest income' and 'interest expenses'.

19.1. **Fee and commission income and expenses by activity (22.1)**

113. The fee and commission income and expenses shall be reported by type of activity. Under IFRS or compatible National GAAP, this template includes fee and commission income and expenses other than:

(a) amounts considered for the calculation of the effective interest of financial instruments [IFRS 7.20.(c)] and

(b) amounts arising from financial instruments that are measured at fair value through profit or loss [IFRS 7.20.(c).(i)].

114. Transaction costs directly attributable to the acquisition or issue of financial instruments not measured at fair value through profit or loss shall not be included; they form part of the initial acquisition/issue value of these instruments and are amortised to profit or loss over their residual life using the effective interest rate [see IAS 39.43].

115. Transaction costs directly attributable to the acquisition or issue of financial instruments measured at fair value through profit or loss shall be included as a part of 'Gains or losses on financial assets and liabilities held for trading, net' or 'Gains or losses on financial assets and liabilities designated at fair value through profit or loss, net'. They shall not be part of the initial acquisition or issuance value of these instruments and are immediately recognized in profit or loss.

116. Institutions shall report fee and commission income and expenses according to the following criteria:

(a) 'Securities. Issuances' includes fees and commissions received for the involvement in the origination or issuance of securities not originated or issued by the institution;

(b) 'Securities. Transfer orders' includes fees and commissions generated by the reception, transmission and execution on behalf of customers of orders to buy or sell securities;

(c) 'Securities. Other' includes fees and commissions generated by the institution providing other services related with securities not originated or issued by the institution;

▼ **M3**

- (d) 'Clearing and settlement' includes fee and commission income (expenses) generated by (charged to) the institution when participating in counterparty, clearing and settlement facilities;
- (e) 'Asset management', 'Custody', 'Central administrative services for collective investment undertakings', 'Fiduciary transactions', 'Payment services' include fee and commission income (expenses) generated by (charged to) the institution when providing these services;
- (f) 'Structured finance' includes fees and commissions received for the involvement in the origination or issuance of financial instruments other than securities originated or issued by the institution;
- (g) 'Servicing fees from securitisation activities' includes, on the income side, the fee and commission income generated by the institution providing loan servicing services and on the expense side, the fee and commission expense charged to the institution by loan service providers;
- (h) 'Loan commitments given' and 'Financial guarantees given' include the amount, recognized as income during the period, of the amortization of the fees and commission for these activities initially recognised as 'other financial liabilities';
- (i) 'Loan commitments received' and 'Financial guarantees received' include the fee and commission expense recognised by the institution as a consequence of the charge made by the counterparty that has given the loan commitment or the financial guarantee;
- (j) 'Other' includes the rest of fee and commission income (expenses) generated by (charged to) the institution such as those derived from 'other commitments', from foreign exchange services (such as exchange of foreign banknotes or coins) or from providing (receiving) other fee-based advice and services.

**19.2. Assets involved in the services provided (22.2)**

117. Business related to asset management, custody functions, and other services provided by the institution shall be reported using the following definitions:

- (a) 'Asset management' refers to assets belonging directly to the customers, for which the institution is providing management. 'Asset management' shall be reported by type of customer: collective investment undertakings, pension funds, customer portfolios managed on a discretionary basis, and other investment vehicles;
- (b) 'Custody assets' refers to the services of safekeeping and administration of financial instruments for the account of clients provided by the institution and services related to custodianship such as cash and collateral management. 'Custody assets' shall be reported by type of customers for which the institution is holding the assets distinguishing between collective

▼ M3

investment undertakings and others. The item 'of which: entrusted to other entities' refers to the amount of assets included in custody assets for which the institution has given the effective custody to other entities;

- (c) 'Central administrative services for collective investment' refers to the administrative services provided by the institution to collective investment undertakings. It includes, among others, the services of transfer agent; of compiling accounting documents; of preparing the prospectus, financial reports and all other documents intended for investors; of carrying out the correspondence by distributing financial reports and all other documents intended for investors; of carrying out issues and redemptions and keeping the register of investors; as well as of calculating the net asset value;
- (d) 'Fiduciary transactions' refers to the activities where the institution acts in its own name but for the account and at the risk of its customers. Frequently, in fiduciary transactions, the institution provides services, such as custody asset management services to a structured entity or managing portfolios on a discretionary basis. All fiduciary transactions shall be reported exclusively in this item without regarding whether the institution provides additionally other services;
- (e) 'Payment services' refers to the collection on behalf of customers of payments generated by debt instruments that are neither recognised on the balance sheet of the institution nor originated by it;
- (f) 'Customer resources distributed but not managed' refers to products issued by entities outside the group that the institution has distributed to its current customers. This item shall be reported by type of product;
- (g) 'Amount of the assets involved in the services provided' includes the amount of assets in relation to which the institution is acting, using the fair value. Other measurement bases including nominal value may be used if the fair value is not available. In those cases where the institution provides services to entities such as collective investment undertakings, pension funds, the assets concerned may be shown at the value at which these entities report the assets in their own balance sheet. Reported amounts shall include accrued interest, if appropriate.

## 20. INTERESTS IN UNCONSOLIDATED STRUCTURED ENTITIES (30)

118. 'Liquidity support drawn' shall mean the sum of the carrying amount of the loan and advances granted to unconsolidated structured entities and the carrying amount of debt securities held that have been issued by unconsolidated structured entities.

## 21. RELATED PARTIES (31)

119. Institutions shall report amounts and/or transactions related to the balance sheet and the off-balance sheet exposures where the counterparty is a related party.

▼ **M3**

120. Intra-group transactions and intra-group outstanding balances shall be eliminated. Under ‘Subsidiaries and other entities of the same group’, institutions shall include balances and transactions with subsidiaries that have not been eliminated either because the subsidiaries are not fully consolidated with the prudential scope of consolidation or because, in accordance with Article 19 of CRR, the subsidiaries are excluded from the scope of prudential consolidation for being immaterial or because, for institutions that are part of a bigger group, the subsidiaries are of the ultimate parent not of the institution. Under ‘Associates and joint ventures’, institutions shall include the portions of balances and transactions with joint ventures and associates of the group to which the entity belongs that have not been eliminated when either proportional consolidation or the equity method is applied.

**21.1. Related parties: amounts payable to and amounts receivable from (31.1)**

121. For ‘Loan commitments, financial guarantees and other commitments received’, the amount that shall be reported is the sum of the ‘nominal’ of loan commitments received, the ‘maximum collateral/guarantee that can be considered’ of financial guarantees received and the ‘nominal’ of the other commitments received.

**21.2. Related parties: expenses and income generated by transactions with (31.2)**

122. ‘Gains or losses on de-recognition of non-financial assets’ shall include all the gains and losses on de-recognition of non-financial assets generated by transactions with related parties. This item shall include the gains and losses on de-recognition of non-financial assets, which have been generated by transactions with related parties and that are part of the following line items of the ‘Statement of profit or loss’:

(a) ‘Gains or losses on de-recognition of investments in subsidiaries, joint ventures and associates’;

(b) ‘Gains or losses on de-recognition of non-financial assets other than held for sale’;

(c) ‘Profit or loss from non-current assets and disposal groups classified as held for sale not qualifying as discontinued operations’, and;

(d) ‘Profit or loss after tax from discontinued operations’.

**22. GROUP STRUCTURE (40)**

123. Institutions shall provide detailed information on subsidiaries, joint ventures and associates as of the reporting date. All subsidiaries regardless the activity they perform shall be reported. Securities classified as ‘Financial assets held for trading’, ‘Financial assets designated at fair value through profit or loss’, ‘Available-for-sale financial assets’ and Treasury shares, that is to say, own shares of reporting institution owned by it, shall be excluded from the scope of this template.

**▼ M3****22.1. Group structure: ‘entity-by-entity’ (40.1)**

124. The following information shall be reported on a ‘entity-by-entity’ basis:
- (a) ‘LEI code’ includes the LEI code of the investee;
  - (b) ‘Entity code’ includes the identification code of the investee. The entity code is a row identifier and shall be unique for each row in template 40.1.
  - (c) ‘Entity name’ includes the name of the investee;
  - (d) ‘Entry date’ means the date in which the investee entered within the ‘scope of the group’;
  - (e) ‘Share capital’ means the total amount of capital issued by the investee as at the reference date;
  - (f) ‘Equity of Investee’, ‘Total assets of the Investee’ and ‘Profit or (loss) of the Investee’ include the amounts of these items in the last financial statements of the investee;
  - (g) ‘Residence of investee’ means the country of residence of the investee.
  - (h) ‘Sector of investee’ means the sector of counterparty as defined in paragraph 35 of Part 1;
  - (i) ‘NACE code’ shall be provided on the basis of the principal activity of the investee. For non-financial corporations, NACE codes shall be reported with the first level of disaggregation (by ‘section’); for financial corporations, NACE codes shall be reported with a two level detail (by ‘division’);
  - (j) ‘Accumulated equity interest (%)’ is the percentage of ownership instruments held by the institution as of the reference date;
  - (k) ‘Voting rights (%)’ means the percentages of voting rights associated to the ownership instruments held by the institution as of the reference date.
  - (l) ‘Group structure [relationship]’ shall indicate the relationship between the parent and the investee (subsidiary, joint venture or associate);
  - (m) ‘Accounting treatment [Accounting Group]’ shall indicate the accounting treatment with the accounting scope of consolidation (full consolidation, proportional consolidation, equity method or other);

**▼ M3**

- (n) 'Accounting treatment [CRR Group]' shall indicate the accounting treatment with the CRR scope of consolidation (full consolidation, proportional consolidation, equity method or other);
- (o) 'Carrying amount' means amounts reported on the balance sheet of the institution for investees that are neither fully nor proportionally consolidated;
- (p) 'Acquisition cost' means the amount paid by the investors;
- (q) 'Goodwill link to the investee' means the amount of goodwill reported on the consolidated balance sheet of the institution for the investee in the items 'goodwill' or 'investments in subsidiaries, joint ventures and associated';
- (r) 'Fair value of the investments for which there are published price quotations' means the price at the reference date; it shall be provided only if the instruments are quoted.

**22.2. Group structure: 'instrument-by-instrument' (40.2)**

125. The following information shall be reported on an 'instrument-by-instrument' basis:

- (a) 'Security code' includes the ISIN code of the security. For securities without ISIN code assigned, it includes another code that uniquely identifies the security. 'Security code' and 'Holding company code' are a composite row identifier, and together shall be unique for each row in template 40.2;
- (b) 'Holding company code' is the identification code of the entity within the group that holds the investment;
- (c) 'Entity code', 'Accumulated equity interest (%)', 'Carrying amount' and 'Acquisition cost' are defined above. The amounts shall correspond to the security held by the related holding company.

**23. FAIR VALUE (41)****23.1. Fair value hierarchy: financial instruments at amortised cost (41.1)**

126. Information on the fair value of financial instruments measured at amortised cost, using the hierarchy in IFRS 7.27 A shall be reported in this template.

**23.2. Use of fair value option (41.2)**

127. Information on the use of fair value option for financial assets and liabilities designated at fair value through profit or loss shall be reported in this template. 'Hybrid contracts' includes the carrying amount of hybrid financial instruments classified, as a whole, in these accounting portfolios; that is, it includes non-separated hybrid instruments in their entirety.

**▼ M3****23.3. Hybrid financial instruments not designated at fair value through profit or loss (41.3)**

128. In this template shall be reported information on hybrid financial instruments with the exception of those hybrid contracts measured at fair value through profit or loss under the 'fair value option' that are reported in template 41.2.

129. 'Held for trading' includes the carrying amount of hybrid financial instruments classified, as a whole, as 'financial assets held for trading' or 'financial liabilities held for trading'; that is it includes non-separated hybrid instruments in their entirety.

130. The other rows include the carrying amount of the host contracts that have been separated from the embedded derivatives according to the relevant accounting framework. The carrying amounts of the embedded derivatives separated from these host contracts, in accordance with the relevant accounting framework, shall be reported in templates 10 and 11.

**24. TANGIBLE AND INTANGIBLE ASSETS: CARRYING AMOUNT BY MEASUREMENT METHOD (42)**

131. 'Property, plant and equipment', 'Investment property' and 'Other intangible assets' shall be reported by the criteria used in their measurement.

132. 'Other intangible assets' include all other intangible assets than goodwill.

**25. PROVISIONS (43)**

133. This template includes reconciliation between the carrying amount of the item 'Provisions' at the beginning and end of the period by the nature of the movements.

**26. DEFINED BENEFIT PLANS AND EMPLOYEE BENEFITS (44)**

134. These templates include accumulated information of all defined benefit plans of the institution. When there is more than one defined benefit plan, aggregated amount of all plans shall be reported.

**26.1. Components of net defined benefit plan assets and liabilities (44.1)**

135. 'Components of net defined benefit plan assets and liabilities' shows the reconciliation of the accumulated present value of all net defined benefit liabilities (assets) as well as reimbursement rights [IAS 19.140 (a), (b)].

136. 'Net defined benefit assets' includes, in the event of a surplus, the surplus amounts that shall be recognized in the balance sheet as they are not affected by the limits set up in IAS 19.63. The amount of this item and the amount recognized in the memo item 'Fair value of any right to reimbursement recognized as asset' are included in the item 'Other assets' of the balance sheet.

**26.2. Movements in defined benefit obligations (44.2)**

137. 'Movements in defined benefit obligations' shows the reconciliation of opening and closing balances of the accumulated present value of all defined benefit obligations of the institution. The effects of the different elements listed in IAS 19.141 during the period are presented separately.

▼ **M3**

138. The amount of ‘Closing balance [present value]’ in the template for movements in defined benefit obligations shall be equal to ‘Present value defined benefit obligations’.

**26.3. Memo items [related to staff expenses] (44.3)**

139. For reporting of memorandum items related to staff expenses, the following definitions shall be used:

(a) ‘Pension and similar expenses’ includes the amount recognized in the period as staff expenses for any post — employment benefit obligations (both defined contributions plans and defined benefits plans) and contributions to social security funds.

(b) ‘Share based payments’ include the amount recognized in the period as staff expenses for share based payments.

**27. BREAKDOWN OF SELECTED ITEMS OF STATEMENT OF PROFIT OR LOSS (45)**

**27.1. Gains or losses on de-recognition of non-financial assets other than held-for-sale (45.2)**

140. Gains and losses on de-recognition of non-financial assets other than held for sale shall be broken down by type of asset; each line item shall include the gain or the loss on the asset (such as property, software, hardware, gold, investment) that has been derecognised.

**27.2. Other operating income and expenses (45.3)**

141. Other operating income and expenses shall be broken down according to the following items: fair value adjustments on tangible assets measured using the fair value model; rental income and direct operating expenses from investment property; income and expenses on operating leases other than investment property and the rest of operating income and expenses.

142. ‘Operating leases other than investment property’ includes, for the column ‘income’, the returns obtained, and for the column ‘expenses’ the costs incurred by the institution as lessor in their operating leasing activities other than those with assets classified as investment property. The costs for the institution as lessee shall be included in the item ‘Other administrative expenses’.

143. Gains or losses from remeasurements of holdings of precious metals and other commodities measured at fair value less cost to sell shall be reported among the items included in ‘Other operating income. Other’ or ‘Other operating expenses. Other’

**28. STATEMENT OF CHANGES IN EQUITY (46)**

144. The statement of changes in equity discloses the reconciliation between the carrying amount at the beginning of the period (opening balance) and the end of the period (closing balance) for each component of equity.

**▼ M3**

## 29. NON-PERFORMING EXPOSURES (18)

145. For the purpose of template 18, non-performing exposures are those that satisfy any of the following criteria:

- (a) material exposures which are more than 90 days past due;
- (b) the debtor is assessed as unlikely to pay its credit obligations in full without realisation of collateral, regardless of the existence of any past due amount or of the number of days past due.

146. That categorisation as non-performing exposures shall apply notwithstanding the classification of an exposure as defaulted for regulatory purposes in accordance with Article 178 of CRR or as impaired for accounting purposes in accordance with the applicable accounting framework.

147. Exposures in respect of which a default is considered to have occurred in accordance with Article 178 CRR and exposures that have been found impaired in accordance with the applicable accounting framework shall always be considered as non-performing exposures. Exposures with 'collective allowances for incurred but not reported losses' referred to in paragraph 38 of this Annex shall not be considered as non-performing exposures unless they meet the criteria to be considered as non-performing exposures.

148. Exposures shall be categorised for their entire amount and without taking into account the existence of any collateral. Materiality shall be assessed in accordance with Article 178 of CRR.

149. For the purpose of template 18, 'exposures' includes all debt instruments (loans and advances which include also cash balances at central banks and other demand deposits and debt securities) and off-balance sheet exposures, except those held for trading exposures. Off-balance sheet exposures comprise the following revocable and irrevocable items:

- (a) loan commitments given;
- (b) financial guarantees given;
- (c) other commitments given.

Exposures include non-current assets and disposal groups classified as held for sale in accordance with IFRS 5.

150. For the purpose of template 18, an exposure is 'past-due' when any amount of principal, interest or fee has not been paid at the date it was due.

151. For the purpose of template 18, 'debtor' means an obligor within the meaning of Article 178 of CRR.

152. A commitment shall be considered as a non-performing exposure for its nominal amount where, when drawn down or otherwise used, it would lead to exposures that present a risk of not being paid back in full without realisation of collateral.

**▼ M3**

153. Financial guarantees given shall be considered as non-performing exposures for their nominal amount where the financial guarantee is at risk of being called by the counterparty ('guaranteed party'), including, in particular, where the underlying guaranteed exposure meets the criteria to be considered as non-performing, referred to in paragraph 145. Where the guaranteed party is past-due on the amount due under the financial guarantee contract, the reporting institution shall assess whether the resulting receivable meets the non-performing criteria.
154. Exposures classified as non-performing in accordance with paragraph 145 shall be categorised as either non-performing on an individual basis ('transaction based') or as non-performing for the overall exposure to a given debtor ('debtor based'). For the categorisation of non-performing exposures on an individual basis or to a given debtor, the following categorisation approaches shall be used for the different types of non-performing exposures:
- (a) for non-performing exposures classified as defaulted in accordance with Article 178 of CRR, the categorisation approach of Article 178 shall be applied;
  - (b) for exposures that are classified as non-performing due to impairment under the applicable accounting framework, the recognition criteria for impairment under the applicable accounting framework shall be applied;
  - (c) for other non-performing exposures that are neither classified as defaulted nor as impaired, the provisions of Article 178 of CRR for defaulted exposures shall be applied.
155. Where an institution has on-balance sheet exposures to a debtor that are past due by more than 90 days and the gross carrying amount of the past due exposures represents more than 20 % of the gross carrying amount of all on-balance sheet exposures to that debtor, all on- and off-balance sheet exposures to that debtor shall be considered as non-performing. When a debtor belongs to a group, the need to also consider exposures to other entities of the group as non-performing shall be assessed, where they are not already considered as impaired or defaulted in accordance with Article 178 of CRR, except for exposures affected by isolated disputes that are unrelated to the solvency of the counterparty.
156. Exposures shall be considered to have ceased being non-performing when all of the following conditions are met:
- (a) the exposure meets the exit criteria applied by the reporting institution for the discontinuation of the impairment and default classification;
  - (b) the situation of the debtor has improved to the extent that full repayment, according to the original or when applicable the modified conditions, is likely to be made;
  - (c) the debtor does not have any amount past-due by more than 90 days.

▼ **M3**

An exposure shall remain classified as non-performing while those conditions are not met, even though the exposure has already met the discontinuation criteria applied by the reporting institution for the impairment and default classification according to the applicable accounting framework and Article 178 of CRR respectively.

The classification of a non-performing exposure as non-current asset held for sale in accordance with IFRS 5 does not discontinue their classification as non-performing exposure, as non-current assets held for sale are included in the scope of definition of non-performing exposures.

157. In case of non-performing exposures with forbearance measures <sup>(1)</sup>, those exposures shall be considered to have ceased being non-performing where all the following conditions are met:

- (a) exposures are not considered to be impaired or defaulted;
- (b) one year has passed since the forbearance measures were applied;
- (c) there is not, following the forbearance measures, any past-due amount or concern regarding the full repayment of the exposure according to the post-forbearance conditions. The absence of concerns shall be determined after an analysis of the debtor's financial situation by the institution. Concerns may be considered as no longer existing where the debtor has paid, via its regular payments in accordance with the post-forbearance conditions, a total equal to the amount that was previously past-due (where there were past-due amounts) or that has been written-off (where there were no past-due amounts) under the forbearance measures or the debtor has otherwise demonstrated its ability to comply with the post-forbearance conditions.

Those specific exit conditions shall apply in addition to the criteria applied by reporting institutions for impaired and defaulted exposures according to the applicable accounting framework and Article 178 of CRR respectively.

158. Past due exposures shall be reported separately within the performing and non-performing categories for their entire amount. Performing exposures past due by less than 90 days shall be reported separately for their entire amount.

159. Non-performing exposures shall be reported broken down by past due time bands. Exposures that are not past due or are past due by 90 days or less but nevertheless are identified as non-performing due to the likelihood of non-full repayment shall be reported in a dedicated column. Exposures that present both past due amounts and a likelihood of non-full repayment shall be allocated by past-due time bands consistent with the number of days that they are past due.

Cash balances at central banks and other demand deposits shall be reported in row 070 as well as in rows 080 and 100 of template 18.

<sup>(1)</sup> Non performing exposures with forbearance measures refer to exposures listed in paragraph 180.

**▼ M3**

Non-performing exposures classified as held for sale in accordance with IFRS 5 shall not be reported in template 18.

160. The following exposures shall be identified in separate columns:

(a) exposures which are considered to be impaired in accordance with the applicable accounting framework, except where they are exposures with incurred but not reported losses;

(b) exposures in respect of which a default is considered to have occurred in accordance with Article 178 of CRR.

161. 'Accumulated impairment' and 'accumulated changes in fair value due to credit risk' figures shall be reported in accordance with paragraph 46. 'Accumulated impairment' means the reduction in the carrying amount of the exposure either directly or through the use of an allowance account. Accumulated impairment reported on non-performing exposures shall not include incurred but not reported losses. Incurred but not reported losses shall be reported in accumulated impairment on performing exposures. 'Accumulated changes in fair value due to credit risk' shall be reported for exposures designated at fair value through profit and loss in accordance with the applicable accounting framework.

162. Information on collateral held and financial guarantee received on non-performing exposures shall be reported separately. Amounts reported for collateral received and financial guarantees received shall be calculated in accordance with paragraphs 79 to 82. Therefore, the sum of the amounts reported for both collateral and financial guarantees shall be capped at the carrying amount of the related exposure.

30. FORBORNE EXPOSURES (19)

163. For the purpose of template 19, forborne exposures are debt contracts in respect of which forbearance measures have been applied. Forbearance measures consist of concessions towards a debtor that is experiencing or about to experience difficulties in meeting its financial commitments ('financial difficulties').

164. For the purpose of template 19, a concession refers to either of the following actions:

(a) a modification of the previous terms and conditions of a contract that the debtor is considered unable to comply with due to its financial difficulties ('troubled debt') resulting in insufficient debt service ability and that would not have been granted had the debtor not been experiencing financial difficulties;

(b) a total or partial refinancing of a troubled debt contract, that would not have been granted had the debtor not been experiencing financial difficulties.

A concession may entail a loss for the lender.

**▼ M3**

165. Evidence of a concession includes the following:
- (a) a difference in favour of the debtor between the modified terms of the contract and the previous terms of the contract;
  - (b) inclusion in a modified contract of more favourable terms than other debtors with a similar risk profile could have obtained from the same institution at that time.
166. The exercise of clauses which, when used at the discretion of the debtor, enable the debtor to change the terms of the contract ('embedded forbearance clauses') shall be treated as a concession when the institution approves executing those clauses and concludes that the debtor is experiencing financial difficulties.
167. 'Refinancing' means the use of debt contracts to ensure the total or partial payment of other debt contracts the current terms of which the debtor is unable to comply with.
168. For the purpose of template 19, 'debtor' includes all the natural and legal entities in the debtor's group which are within the accounting scope of consolidation.
169. For the purpose of template 19, 'debt' includes loans and advances (which include also cash balances at central banks and other demand deposits), debt securities and revocable and irrevocable loan commitments given, but excludes exposures held for trading. 'Debt' includes non-current assets and disposal groups classified as held for sale in accordance with IFRS 5.
170. For the purpose of template 19, 'exposure' has the same meaning as given for 'debt' in paragraph 169.
171. For the purpose of template 19, 'institution' means the institution which applied the forbearance measures.
172. Exposures shall be regarded as forbome where a concession has been made, irrespective of whether any amount is past due or of the classification of the exposures as impaired in accordance with the applicable accounting framework or as defaulted in accordance with Article 178 of CRR. Exposures shall not be treated as forbome where the debtor is not in financial difficulties. Nevertheless the following shall be treated as forbearance measures:
- (a) a modified contract that has been classified as non-performing before the modification or would in the absence of modification be classified as non-performing;
  - (b) the modification that has been made to a contract involves a total or partial cancellation by write-offs of the debt;
  - (c) the institution approves the use of embedded forbearance clauses for a debtor who is non-performing or who would be considered as non-performing without the use of those clauses;

**▼ M3**

- (d) simultaneously with or close in time to the concession of additional debt by the institution, the debtor made payments of principal or interest on another contract with the institution that was non-performing or would in the absence of refinancing be classified as non-performing.
173. A modification involving repayments made by taking possession of collateral shall be treated as a forbearance measure where that modification constitutes a concession.
174. There is a rebuttable presumption that forbearance has taken place in the following circumstances:
- (a) the modified contract was totally or partially past due by more than 30 days (without being non-performing) at least once during the three months prior to its modification or would be more than 30 days past due, totally or partially, without modification;
  - (b) simultaneously with or close in time to the concession of additional debt by the institution, the debtor made payments of principal or interest on another contract with the institution that was totally or partially past due by 30 days at least once during the three months prior to its refinancing;
  - (c) the institution approves the use of embedded forbearance clauses for 30 days past due debtors or debtors who would be 30 days past due without the exercise of those clauses.
175. Financial difficulties shall be assessed at debtor level as referred to in paragraph 168. Only exposures to which forbearance measures have been applied shall be identified as forborne exposures.
176. Forborne exposures shall be included within the non-performing exposures category or the performing exposures category in accordance with paragraphs 145 to 162 and 177 to 179. The classification as forborne exposure shall be discontinued when all of the following conditions are met:
- (a) the forborne exposure is considered to be performing, including where it has been reclassified from the non-performing exposures category after an analysis of the financial condition of the debtor showed that it no longer met the conditions to be considered as non-performing;
  - (b) a minimum two year probation period has passed from the date the forborne exposure was considered to be performing;
  - (c) regular payments of more than an insignificant aggregate amount of principal or interest have been made during at least half of the probation period;
  - (d) none of the exposures to the debtor is more than 30 days past due at the end of the probation period.

▼ M3

177. Where the conditions referred to in paragraph 176 are not met at the end of the probation period, the exposure shall continue to be identified as performing forborne under probation until all the conditions are met. The conditions shall be assessed on at least a quarterly basis. Forborne exposures which are classified as non-current assets held for sale in accordance with IFRS 5 continue to be classified as forborne exposures, as non-current assets held for sale are included in the scope of the definition of forborne exposures.
178. A forborne exposure may be considered as performing from the date the forbearance measures were applied where either of the following conditions is met:
- (a) that extension has not led the exposure to be classified as non-performing;
  - (b) the exposure was not considered to be a non-performing exposure at the date the forbearance measures were extended.
179. Where additional forbearance measures are applied to a performing forborne exposure under probation that has been reclassified out of the non-performing category or it becomes more than 30 days past due, it shall be classified as non-performing.
180. 'Performing exposures with forbearance measures' (performing forborne exposures) comprise forborne exposures that do not meet the criteria to be considered as non-performing and are included in the performing exposures category. Performing forborne exposures are under probation according to paragraph 176, including when paragraph 178 applies. Forborne exposures under probation that have been reclassified out of the non-performing exposures category shall be reported separately within the performing exposures with forbearance measures in the column 'of which: Performing forborne exposures under probation'.

'Non-performing exposures with forbearance measures' (non-performing forborne exposures) comprise forborne exposures that meet the criteria to be considered as non-performing and are included in the non-performing exposures category. Those non-performing forborne exposures include the following:

- (a) exposures which have become non-performing due to the application of forbearance measures;
- (b) exposures which were non-performing prior to the extension of forbearance measures;
- (c) forborne exposures which have been reclassified from the performing category, including exposures reclassified in application of paragraph 179.

Where forbearance measures are extended to non-performing exposures, the amount of those forborne exposures shall be separately identified in the column 'of which: forbearance of non-performing exposures'.

**▼ M3**

Forborne exposures classified as cash balances at central banks and other demand deposits shall be reported in row 070 as well as in rows 080 and 100 of template 19.

Forborne exposures classified as held for sale in accordance with IFRS 5 shall not be reported in template 19.

181. The column 'Refinancing' comprises the gross carrying amount of the new contract ('refinancing debt') granted as part of a refinancing transaction which qualifies as a forbearance measure, as well as the gross carrying amount of the old re-paid contract that is still outstanding.
182. Forborne exposures combining modifications and refinancing shall be allocated to the column 'Instruments with modifications of the terms and conditions' or the column 'Refinancing' according to the measure that has the most impact on cash-flows. Refinancing by a pool of banks shall be reported in the column 'Refinancing' for the total amount of refinancing debt provided by or refinanced debt still outstanding at the reporting institution. Repackaging of several debts into a new debt shall be reported as a modification, unless there is also a refinancing transaction that has a larger impact on cash-flows. Where forbearance through modification of the terms and conditions of a troubled exposure leads to its de-recognition and to the recognition of a new exposure, that new exposure shall be treated as forborne debt.
183. Accumulated impairment and accumulated changes in fair value due to credit risk shall be reported in accordance with paragraph 46. 'Accumulated impairment' means the reduction in the carrying amount of the exposure either directly or through the use of an allowance account. The amount of 'accumulated impairment' to be reported in the column 'on non-performing exposures with forbearance measures' for non-performing exposures shall not include incurred but not reported losses. Incurred but not reported losses shall be reported in the column 'on performing exposures with forbearance measures'. 'Accumulated changes in fair value due to credit risk' are reported for exposures designated at fair value through profit and loss in accordance with the applicable accounting framework.

**PART 3****MAPPING OF EXPOSURE CLASSES AND COUNTERPARTY SECTORS**

1. The following tables map exposure classes used to calculate capital requirements according to the CRR to counterparty sectors used in FINREP tables.

*Table 2***Standardised Approach**

| SA exposure classes (CRR Article 112)    | FINREP counterparty sectors                  | Comments                                                                                                               |
|------------------------------------------|----------------------------------------------|------------------------------------------------------------------------------------------------------------------------|
| (a) Central governments or central banks | (1) Central banks<br>(2) General governments | These exposures shall be assigned to FINREP counterparty sectors according to the nature of the immediate counterparty |

▼ **M3**

| SA exposure classes (CRR Article 112)                            | FINREP counterparty sectors                                                                                                                                     | Comments                                                                                                                |

▼ **M2***ANNEX VII***INSTRUCTIONS FOR THE REPORTING ON LOSSES STEMMING FROM LENDING COLLATERALISED BY IMMOVABLE PROPERTY**

1. This Annex contains additional instructions in relation to the tables included in Annex VI of this Regulation. This Annex complements the instructions in format of references included in the tables in Annex VI.
  2. All the general instructions in Part I of Annex II shall also apply.
1. Reporting scope
    3. Data specified in Article 101(1) of CRR is subject to reporting by all institutions using immovable property for the purposes of Part Three, Title II, of CRR.
    4. The template covers all national markets an institution/group of institutions is exposed to (see Article 101(1) of CRR). According to the third sentence of Article 101(2), the data should be reported for each property market within the Union separately.
  2. Definitions and general instructions
    5. 'Loss' means 'economic loss' as defined in Article 5(2) of CRR. The recovery flows stemming from other sources (e.g. bank guarantees, life insurance, etc.) shall not be recognised when calculating losses stemming from immovable property. Losses of one position shall not be netted with the profit of a successful recovery of another position.
    6. For exposures secured by residential and commercial property, the calculation of economic loss should start from outstanding exposure value at reporting date and should include at least: (i) proceeds from collateral realisation; (ii) direct costs (including interest rates payments and workouts costs linked to the liquidation of the collateral); and (iii) indirect costs (including operating costs of the workout unit). All components need to be discounted to the reporting reference date.
    7. The exposure value follows the rules laid down in Part Three, Title II, of CRR (see Chapter 2 for institutions using the standardised approach, and Chapter 3 for institutions using the IRB approach).
    8. The property value follows the rules laid down in Part Three, Title II, of CRR
    9. The reporting currency shall be used with the exchange rate at the reporting date. Moreover, the estimates of the economic losses should consider the F/X effect if the exposure or collateral is denominated in a different currency.
  3. Geographical breakdown
    10. In accordance with the reporting scope, the reporting of exposures and losses from lending collateralised by immovable property ('CR IP Losses') shall consist of the following templates:
      - (a) one total template;

▼ M2

- (b) one template for each national market in the Union where the institution is exposed to; and
- (c) one template aggregating the data for all national markets outside the Union where the institution is exposed to.

## 4. Reporting of exposures and losses

11. Exposures: all exposures that are treated according to Part Three, Title II, of CRR and where the collateral is used to reduce own funds requirements, are reported in CR IP Losses. This also means that in case the risk mitigation effect of immovable property is only used for internal purposes (i.e. under Pillar 2) or for large exposures (see Part Four of CRR), the exposures and losses concerned must not be reported.
12. Losses: the institution which has the exposure by the end of the reporting period shall report the losses. Losses shall be reported as soon as provisions are to be booked according to accounting rules. Estimated losses should also be reported. Loss data shall be collected on a loan-by-loan basis, i.e. aggregation of individual loss data stemming from exposures collateralised by immovable property.
13. Reference date: the exposure value from the date of default shall be used for reporting of losses.
  - (a) Losses should be reported for all defaults on loans secured by real estate property that occur during the respective reporting period (i.e. irrespective of whether the work out is completed during the period or not). Since there may be a long time lag between default and loss realisation, loss estimates (which includes incomplete workout process) shall be reported in cases where the workout has not been completed within the reporting period.
  - (b) For all defaults observed within the reporting period, there are three scenarios: (i) defaulted loan can be restructured so that it is no longer treated as in default (no loss observed); (ii) realization of all collateral is completed (completed workout, actual loss known); or (iii) incomplete workout (loss estimates to be used). Loss reporting shall include only losses stemming from point (ii), realisation of collateral (observed losses) and point (iii) incomplete workout (estimates of losses).
  - (c) As losses shall be reported only for exposures having defaulted during the reporting period, changes to losses of exposures having defaulted during previous reporting periods will not be reflected in the reported data. This means that proceeds from the realisation of the collateral at a later reporting period or lower realised costs than previously estimated shall not be reported.
14. Role of the valuation of the property: the latest valuation of the property before the default date of the exposure is needed as reference date for reporting the part of exposure secured by mortgages on immovable property. After default, the property might be re-valued. This new value should however not be relevant for identifying the part of the exposure which was originally fully (and completely) secured by the mortgages on immovable property. However, the new value of the property shall be considered in economic loss reporting (a reduced property value is part of economic costs). In other words, the latest valuation of the property before the default date shall be used to

▼ **M2**

determine which part of the loss is to be reported in cell 010 (identification of exposure values which is fully and completely secured) and the re-valued property value for the amount to be reported (estimation of a possible workout from collateral) in cells 010 and 030.

15. Treatment of loan sales during the reporting period: the institution which has the exposure by the end of the reporting period shall report losses, but only if a default for that exposure has been identified.
5. Instructions concerning specific positions

| Columns |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

  - 9.1. **Instructions concerning specific columns**

**▼ M3****PART I: GENERAL INSTRUCTIONS****1. Structure and conventions**

1. The reporting framework on large exposures ('LE') shall consist of six templates which include the following information:
  - (a) large exposures limits;
  - (b) identification of the counterparty (template LE1);
  - (c) exposures in the non-trading and trading book (template LE2);
  - (d) detail of the exposures to individual clients within groups of connected clients (template LE3);
  - (e) maturity buckets of the ten largest exposures to institutions and the ten largest exposures to unregulated financial sector entities (template LE4);
  - (f) maturity buckets of the ten largest exposures to institutions and the ten largest exposures to unregulated financial sector entities: detail of the exposures to individual clients within groups of connected clients (template LE5).
2. The instructions include legal references as well as detailed information regarding the data that shall be reported in each template.
3. The instructions and the validation rules follow the labelling convention set in the following paragraphs, when referring to the columns, rows and cells of the templates.
4. The following convention is generally used in the instructions and validation rules: {Template;Row;Column}. An asterisk sign shall be used to express that the validation is done for all the rows reported.
5. In the case of validations within a template, in which only data points of that template are used, notations do not refer to a template: {Row;Column}.
6. ABS(Value): the absolute value without sign. Any amount that increases the exposures shall be reported as a positive figure. On the contrary, any amount that reduces the exposures shall be reported as a negative figure. Where there is a negative sign (-) preceding the label of an item, no positive figure shall be reported for that item.

**PART II: TEMPLATE RELATED INSTRUCTIONS**

In this Annex, instructions relating to the reporting of Large Exposures shall also apply to the reporting of significant exposures required by Articles 9 and 11, in accordance with the scope defined in those Articles.

**1. Scope and level of the LE reporting**

1. In order to report information on large exposures to clients or groups of connected clients according to Article 394(1) of Regulation (EU) No 575/2013 ('CRR') on a solo basis, institutions shall use the templates LE1, LE2 and LE3.

**▼ M3**

2. In order to report information on large exposures to clients or groups of connected clients according to Article 394(1) of CRR on a consolidated basis, the parent institutions in a Member State shall use templates LE1, LE2 and LE3.
3. Every large exposure defined in accordance with Article 392 of CRR shall be reported, including the large exposures that shall not be considered for the compliance with the large exposure limit laid down in Article 395 of CRR.
4. In order to report information on the 20 largest exposures to clients or groups of connected clients according to the last sentence of Article 394(1) of CRR on a consolidated basis, the parent institutions in a Member State which are subject to Part Three, Title II, Chapter 3, of CRR shall use templates LE1, LE2 and LE3. The exposure value resulting from subtracting the amount in column 320 ('Amounts exempted') of template LE2 from the amount in column 210 ('Total') of that same template is the amount that shall be used for determining these 20 largest exposures.
5. In order to report information on the ten largest exposures to institutions as well as on the ten largest exposures to unregulated financial sector entities according to points (a) to (d) of Article 394(2) of CRR on a consolidated basis, the parent institutions in a Member State shall use templates LE1, LE2 and LE3. For the reporting of the maturity structure of these exposures according to Article 394(2)(e) of CRR, the parent institutions in a Member State shall use templates LE4 and LE5. The exposure value calculated in column 210 ('Total') of template LE2 is the amount that shall be used for determining these 20 largest exposures.
6. The data on the large exposures and the relevant largest exposures to groups of connected clients and individual clients not belonging to a group of connected clients shall be reported in the template LE2 (in which a group of connected clients shall be reported as one single exposure).
7. Institutions shall report in the LE3 template data regarding the exposures to individual clients belonging to the groups of connected clients, which are reported in the LE2 template. The reporting of an exposure to an individual client in the LE2 template shall not be duplicated in the LE3 template.

**2. Structure of the LE template**

8. The columns of the template LE1 shall present the information related to the identification of individual clients or groups of connected clients to which an institution has an exposure.
9. The columns of the templates LE2 and LE3 shall present the following blocks of information:
  - (a) the exposure value before application of exemptions and before taking into account the effect of the credit risk mitigation, including the direct, indirect exposure and additional exposures arising from transactions where there is an exposure to underlying assets;
  - (b) the effect of the exemptions and of the credit risk mitigation techniques;
  - (c) the exposure value after application of exemptions and after taking into account the effect of the credit risk mitigation calculated for the purpose of Article 395(1) of CRR.

▼ **M3**

10. The columns of the templates LE4 and LE5 shall present the information regarding the maturity buckets to which the expected maturing amounts of the ten largest exposures to institutions as well as the ten largest exposures to unregulated financial sector entities shall be allocated.

3. **Definitions and general instructions for the purposes of the LE reporting**

11. ‘Group of connected clients’ is defined in Article 4(1)(39) of CRR.
12. ‘Unregulated financial sector entities’ are defined in Article 142(1)(5) of CRR.
13. ‘Institutions’ is defined in Article 4(1)(3) of CRR.
14. Exposures to ‘civil-law associations’ shall be reported. In addition, institutions shall add the credit amounts of the civil-law association to the indebtedness of each partner. Exposures towards civil law associations featuring quotas shall be divided or allocated to the partners according to their respective quotas. Certain constructions (e.g. joint accounts, communities of heirs, straw-man loans) working in fact civil law associations have to be reported just like them.
15. Assets and off balance sheet items shall be used without risk weights or degrees of risk in accordance to Article 389 of CRR. Specifically, credit conversion factors shall not be applied to off balance sheet items.
16. ‘Exposures’ are defined in Article 389 of CRR.
- (a) any asset or off-balance sheet items in the non-trading and trading book including items set out in Article 400 of CRR, but excluding items which fall under effect of points (a) to (d) of Article 390(6) of CRR.
- (b) ‘indirect exposures’ are those exposures allocated to the guarantor or to the issuer of the collateral rather than to the immediate borrower in accordance with Article 403 of CRR. *The definitions here may not differ in any possible respect from the definitions provided in the basic act.*

The exposures to groups of connected clients shall be calculated in accordance with Article 390(5).

17. The ‘netting agreements’ shall be allowed to be taken into account to the effects of large exposures exposure value as laid down in Article 390(1), (2) and (3) of CRR. The exposure value of a derivative instrument listed in Annex II of CRR shall be determined in accordance with Part Three, Title II, Chapter 6, of CRR with the effects of contracts of novation and other netting agreements taken into account for the purposes of those methods in accordance with Part Three, Title II, Chapter 6, of CRR. The exposure value of repurchase transaction, securities or commodities lending or borrowing transactions, long settlement transactions and margin lending transactions may be determined either in accordance with Part Three, Title II, Chapter 4 or Chapter 6, of CRR. In accordance with Article 296 of CRR, the exposure value of a single legal obligation arising from the contractual cross-product netting agreement with a counterparty of the reporting institution shall be reported as ‘other commitments’ in the LE templates.

▼ **M3**

18. The 'value of an exposure' shall be calculated according to Article 390 of CRR.
19. The effect of the full or partial application of exemptions and eligible credit risk mitigation (CRM) techniques for the purposes of calculating of exposures for the purpose of Article 395(1) CRR is described in Articles 399 to 403 of CRR.
20. Reverse repurchase agreements which fall under the reporting for large exposures shall be reported according to Article 402(3) of CRR. Provided that the criteria in Article 402(3) of CRR are met the institution shall report the large exposures to each third party for the amount of the claim that the counterparty to the transaction has on this third party and not for the amount of the exposure to the counterparty.

|                | <p>According to Article 389 of CRR, assets and off balance sheet items shall be used without risk weights or degrees of risk. Specifically, credit conversion factors shall not be applied to off balance sheet items.</p> <p>These columns shall contain the original exposure, i.e. the exposure value without taking into account value adjustments and provisions, which shall be deducted in column 210.</p> <p>The definition and calculation of the exposure value is set out in Articles 389 and 390 of CRR. The valuation of assets and off-balance-sheet items shall be effected in accordance with the accounting framework to which the institution is subject, according to Article 24 of CRR.</p> <p>Exposures deducted from own funds, which are not exposures according to Article 390(6)(e), shall be included in these columns. These exposures shall be deducted in column 200.</p> <p>Exposures referred to in points (a) to (d) of Article 390(6) of CRR shall not be included in these columns.</p> <p>Original exposures shall include any asset and off-balance sheet items according to Article 400 of CRR. The exemptions shall be deducted for the purpose of Article 395(1) of CRR in column 320.</p> <p>Exposures from both non-trading and trading book shall be included.</p> <p>For the breakdown of the exposures in financial instruments, where different exposures arising from netting agreements constitute a single exposure, the latter shall be allocated to the financial instrument corresponding to the principal asset included in the netting agreement (in addition, see the introductory section).</p> |
| <b>040</b>     | <p><b>Total original exposure</b></p> <p>The institution shall report the sum of direct exposures and indirect exposures as well as the additional exposures that arise from the exposure to transactions where there is an exposure to underlying assets.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| <b>090</b>     | <p><b>Loan commitments</b></p> <p>Annex I, points 1(c) and (h), 2(b)(ii), 3(b)(i) and 4(a) of CRR.</p> <p>Loan commitments are firm commitments to provide credit under pre-specified terms and conditions, except those that are derivatives because they can be settled net in cash or by delivering or issuing another financial instrument.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>100</b>     | <p><b>Financial guarantees</b></p> <p>Annex I, points 1(a),(b) and (f), of CRR.</p> <p>Financial guarantees are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument. Credit derivatives that are not included in the column 'derivatives' shall be reported in this column.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>110</b>     | <p><b>Other commitments</b></p> <p>Other commitments are the items in Annex I to CRR that are not included in the previous categories. The exposure value of a single legal obligation arising from the contractual cross-product netting agreement with a counterparty of the institution shall be reported in this column.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>120-180</b> | <p><b>Indirect exposures</b></p> <p>Article 403 of CRR.</p> <p>According to Article 403 of CRR, a credit institution may use the substitution approach where an exposure to a client is guaranteed by a third party, or secured by collateral issued by a third party.</p> <p>The institution shall report in this block of columns the amounts of the direct exposures that are re-assigned to the guarantor or the issuer of collateral provided that the latter would be assigned an equal or lower risk weight than the risk weight which would be applied to the third party under Part Three, Title II, Chapter 2 of CRR. The protected reference original exposure (direct exposure) shall be deducted from the exposure to the original borrower in the columns of 'Eligible credit risk mitigation techniques'. The indirect exposure shall increase the exposure to the guarantor or issuer of collateral via substitution effect. This shall apply also to guarantees given within a group of connected clients.</p> <p>The institution shall report the original amount of the indirect exposures in the column that corresponds to the type of direct exposure guaranteed or secured by collateral such as, when the direct exposure guaranteed is a debt instrument, the amount of 'Indirect exposure' assigned to the guarantor shall be reported under the column 'Debt instruments'.</p> <p>Exposures arising from credit-linked notes shall also be reported in this block of columns, according to Article 399 of CRR.</p> |

| <b>020-250</b> | <p><b>Maturity buckets of the exposure</b></p> <p>Article 394(2)(e) of CRR</p> <p>The institution shall report this information for the ten largest exposures to institutions and the ten largest exposures to unregulated financial sector entities.</p> <p>The maturity buckets are defined with a monthly interval up to one year, with a quarterly interval from one year up to three years and with larger intervals from three years onwards.</p> <p>Each exposure value before application of exemptions and CRM (column 210 of LE2 template) shall be reported with the whole outstanding amount in the respective maturity bucket of its expected residual maturity. In case of several separate relationships constituting an exposure to a client, each of these parts of the exposure shall be reported with the whole outstanding amount in the respective maturity bucket of its expected residual maturity. Instruments which do not have a fixed maturity, like equity, shall be included in the column ‘undefined maturity’.</p> <p>The expected maturity of the exposure shall be reported for both direct and indirect exposures.</p> |

|--------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|        | <p>For direct exposures, when allocating expected amounts of equity instruments, debt instruments and derivatives into the different maturity buckets of this template, the instructions of the maturity ladder template of the additional metrics on liquidity shall be used (see consultation paper CP18 published on 23.5.2013).</p> <p>In the case of off-balance sheet items, the maturity of the underlying risk shall be used in the allocation of expected amounts to maturity buckets. More specifically, for forward deposits that means the maturity structure of the deposit; for financial guarantees, the maturity structure of the underlying financial asset; for undrawn facilities of loan commitments, the maturity structure of the loan; and for other commitments, the maturing structure of the commitment.</p> <p>In the case of indirect exposures, the allocation into maturity buckets shall be based on the maturity of the guaranteed operations which generate the direct exposure.</p> |

3. **Materiality thresholds for derivatives**
4. **LRCALC: Leverage ratio calculation**
5. **LR1 On alternative treatment of the exposure measure**
6. **LR2 On- and off-balance sheet items — additional breakdown of exposures**
7. **LR3 Alternative definition of capital**
8. **LR4 Alternative breakdown of leverage ratio exposure measure components**
9. **LR5 General information**
10. **LR6 Entities that are consolidated for accounting purposes but not within the scope of prudential consolidation**

**▼B****PART I: GENERAL INSTRUCTIONS****1. Template labelling and other conventions****1.1. Template labelling**

1. This Annex contains additional instructions for the Leverage Ratio (hereinafter 'LR') templates included in Annex X of this Standard.
2. Overall, the framework consists of seven templates:
  - Leverage Ratio Calculation (LRCalc): Leverage ratio calculation
  - Leverage Ratio Template 1 (LR1): Alternative treatment of the exposure measure
  - Leverage Ratio Template 2 (LR2): On and off-balance sheet items
    - additional breakdown of exposures
  - Leverage Ratio Template 3 (LR3): Alternative definition of capital
  - Leverage Ratio Template 4 (LR4): Breakdown of leverage ratio exposure measure components
  - Leverage Ratio Template 5 (LR5): General information
  - Leverage Ratio Template 6 (LR6): Entities that are consolidated for accounting purposes but are not within the scope of prudential consolidation.
3. For each template legal references are provided as well as further detailed information regarding more general aspects of the reporting.

**1.2. Numbering convention**

4. The document will follow the labelling convention set in the following paragraphs, when referring to the columns, rows and fields of the templates. These numerical codes are extensively used in the validation rules.
5. The following general notation is followed in the instructions: {Template;Row;Column}. An asterisk sign will be used to express that the validation is done for the whole row or column.
6. In the case of validations within a template, where only data points from that template are used, notations will not refer to a template: {Row;Column}.
7. For the purpose of the reporting on leverage, 'of which' refers to an item that is a subset of a higher level exposure category whereas 'memo item' refers to a separate item that is not a subset of an exposure class. Reporting of both types of fields is mandatory unless otherwise specified.

**1.3. Sign convention**

8. All amounts shall be reported as positive figures. An exception are the amounts reported in {LRCalc;110;1}, {LRCalc;110;2}, {LRCalc;110;3}, {LRCalc;120;1}, {LRCalc;120;2}, {LRCalc;120;3}, {LRCalc;150;1}, {LRCalc;150;2}, {LRCalc;150;3}, {LRCalc;160;1}, {LRCalc;160;2}, {LRCalc;160;3}, {LRCalc;170;1}, {LRCalc;170;2}, {LRCalc;170;3}, {LRCalc;180;1}, {LRCalc;180;2}, {LRCalc;180;3}, {LRCalc;190;1}, {LRCalc;190;2}, {LRCalc;190;3}, {LR3;010;1}, {LR3;020;1}, {LR3;030;1}, {LR3;040;1}, {LR3;050;1}, {LR3;060;1}, {LR3;070;1} and {LR3;080;1} which can either take positive or negative values. Thereby note that, apart from extreme cases, {LRCalc;150;1}, {LRCalc;150;2}, {LRCalc;150;3}, {LRCalc;170;1},

**▼B**

{LRCalc;170;2}, {LRCalc;170;3}, {LR3;050;1}, {LR3;060;1}, {LR3;070;1} and {LR3;080;1} only take negative values. Also note that, apart from extreme cases, {LRCalc;110;1}, {LRCalc;110;2}, {LRCalc;110;3}, {LRCalc;120;1}, {LRCalc;120;2}, {LRCalc;120;3}, {LRCalc;180;1}, {LRCalc;180;2}, {LRCalc;180;3}, {LRCalc;190;1}, {LRCalc;190;2}, {LRCalc;190;3}, {LR3;010;1}, {LR3;020;1}, {LR3;030;1}, {LR3;040;1} only take positive values.

**PART II: TEMPLATE RELATED INSTRUCTIONS****1. Structure and frequency**

1. The leverage ratio template is divided into two parts. Part A comprises all the data items that enter into the calculation of the leverage ratio that institutions shall submit to competent authorities according to Article 430(1), 1st subparagraph, of the CRR, while Part B comprises all the data items that institutions shall submit according to Article 430(1), 2nd subparagraph of the CRR (ie for the purposes of the report referred to in Article 511 of the CRR).
2. In Part A, institutions shall report end-of-month values unless the derogation specified in Article 499(3) of the CRR applies. In Part B, institutions shall report end-of-quarter values.
3. When compiling the data for this ITS, institutions shall consider the treatment of fiduciary assets in accordance with Article 429(11) of the CRR.

**2. Formulas for leverage ratio calculation**

4. The leverage ratio is based on a capital measure and a total exposure measure, which can be calculated with fields from Part A.
- 5.

$$\text{Leverage Ratio – fully phased – indefinition} = \frac{\text{LR month 1(PI)} + \text{LR month 2(PI)} + \text{LR month 3(PI)}}{3}$$

6. 
$$\text{LR month 1 (PI)} = \frac{\{\text{LRCalc;110;1}\}}{(\{\text{LRCalc;010;1}\} + \{\text{LRCalc;020;1}\} + \{\text{LRCalc;030;1}\} + \{\text{LRCalc;040;1}\} + \{\text{LRCalc;050;1}\} + \{\text{LRCalc;060;1}\} + \{\text{LRCalc;070;1}\} + \{\text{LRCalc;080;1}\} + \{\text{LRCalc;090;1}\} + \{\text{LRCalc;100;1}\} + \{\text{LRCalc;130;1}\} + \{\text{LRCalc;150;1}\} - \{\text{LRCalc;160;1}\})}$$
7. 
$$\text{LR month 2 (PI)} = \frac{\{\text{LRCalc;110;2}\}}{(\{\text{LRCalc;010; 2}\} + \{\text{LRCalc;020; 2}\} + \{\text{LRCalc;030; 2}\} + \{\text{LRCalc;040; 2}\} + \{\text{LRCalc;050; 2}\} + \{\text{LRCalc;060; 2}\} + \{\text{LRCalc;070;2}\} + \{\text{LRCalc;080;2}\} + \{\text{LRCalc;090; 2}\} + \{\text{LRCalc;100;2}\} + \{\text{LRCalc;130; 2}\} + \{\text{LRCalc;150; 2}\} - \{\text{LRCalc;160; 2}\})}$$
8. 
$$\text{LR month 3 (PI)} = \frac{\{\text{LRCalc;110;3}\}}{(\{\text{LRCalc;010;3}\} + \{\text{LRCalc;020;3}\} + \{\text{LRCalc;030;3}\} + \{\text{LRCalc;040;3}\} + \{\text{LRCalc;050;3}\} + \{\text{LRCalc;060;3}\} + \{\text{LRCalc;070;3}\} + \{\text{LRCalc;080;3}\} + \{\text{LRCalc;090;3}\} + \{\text{LRCalc;100;3}\} + \{\text{LRCalc;130;3}\} + \{\text{LRCalc;150;3}\} - \{\text{LRCalc;160;3}\})}$$

- 9.

$$\text{Leverage Ratio – transitional definition} = \frac{\text{LR month 1(T)} + \text{LR month 2(T)} + \text{LR month 3(T)}}{3}$$

**▼B**

10.  $LR_{\text{month 1}}(T) = \frac{\{LRCalc;120;1\}}{(\{LRCalc;010;1\} + \{LRCalc;020;1\} + \{LRCalc;030;1\} + \{LRCalc;040;1\} + \{LRCalc;050;1\} + \{LRCalc;060;1\} + \{LRCalc;070;1\} + \{LRCalc;080;1\} + \{LRCalc;090;1\} + \{LRCalc;100;1\} + \{LRCalc;140;1\} + \{LRCalc;170;1\} - \{LRCalc;160;1\})}$
11.  $LR_{\text{month 2}}(T) = \frac{\{LRCalc;120;2\}}{(\{LRCalc;010;2\} + \{LRCalc;020;2\} + \{LRCalc;030;2\} + \{LRCalc;040;2\} + \{LRCalc;050;2\} + \{LRCalc;060;2\} + \{LRCalc;070;2\} + \{LRCalc;080;2\} + \{LRCalc;090;2\} + \{LRCalc;100;2\} + \{LRCalc;140;2\} + \{LRCalc;170;2\} - \{LRCalc;160;2\})}$
12.  $LR_{\text{month 3}}(T) = \frac{\{LRCalc;120;3\}}{(\{LRCalc;010;3\} + \{LRCalc;020;3\} + \{LRCalc;030;3\} + \{LRCalc;040;3\} + \{LRCalc;050;3\} + \{LRCalc;060;3\} + \{LRCalc;070;3\} + \{LRCalc;080;3\} + \{LRCalc;090;3\} + \{LRCalc;100;3\} + \{LRCalc;140;3\} + \{LRCalc;170;3\} - \{LRCalc;160;3\})}$
13. When the derogation specified in Article 499 (3) of the CRR applies, the leverage ratio — fully phased-in definition is equal to LR month 3 (PI) and the leverage ratio — transitional definition is equal to LR month 3 (T).

**3. Materiality thresholds for derivatives**

14. In order to reduce the reporting burden for institutions with limited exposures in derivatives, the following measures are used to gauge the relative importance of derivatives exposures to the total exposure of the leverage ratio. Institutions shall calculate these measures as follows:

15.

$$\text{Derivatives share} = \frac{(\{LRCalc;030;3\} + \{LRCalc;040;3\} + \{LRCalc;050;3\})}{\text{Total exposure measure}}$$

16. Where total exposure measure is equal to:  $\{\{LRCalc;010;3\} + \{LRCalc;020;3\} + \{LRCalc;030;3\} + \{LRCalc;040;3\} + \{LRCalc;050;3\} + \{LRCalc;060;3\} + \{LRCalc;070;3\} + \{LRCalc;080;3\} + \{LRCalc;090;3\} + \{LRCalc;100;3\} + \{LRCalc;130;3\} + \{LRCalc;150;3\} - \{LRCalc;160;3\}\}$

17. Total notional value of derivatives =  $\{LR1;010;7\}$

18. Credit derivatives volume =  $\{LR1;020;7\} + \{LR1;050;7\}$

19. Institutions are required to report the fields referred to in paragraph 22 in the next reporting period, if one of the following conditions is met:

— The derivatives share referred to in paragraph 15 is more than 1.5 % on two consecutive reporting reference dates; or

— The derivatives share referred to in paragraph 15 exceeds 2.0 %.

20. Institutions for which the total notional value of derivatives as defined in paragraph 17 exceeds 10 billion € must report the fields referred to in paragraph 22, even though their derivatives share does not fulfil the conditions described in paragraph 19.

21. Institutions are required to report the fields referred to in paragraph 23 if one of the following conditions is met:

— The credit derivatives volume referred to in paragraph 18 is more than 300 million € on two consecutive reporting reference dates; or

— The credit derivatives volume referred to in paragraph 18 exceeds 500 million €.

▼ **B**

22. {LR1;010;1},{LR1;010;2},{LR1;010;3},{LR1;010;5},{LR1;010;6},{LR1;010;7},{LR1;020;1},{LR1;020;2},{LR1;020;5},{LR1;020;7},{LR1;030;5},{LR1;030;7},{LR1;040;5},{LR1;040;7},{LR1;050;1},{LR1;050;2},{LR1;050;5},{LR1;050;7},{LR1;060;1},{LR1;060;2},{LR1;060;5},{LR1;060;7}.

23. {LR1;050;8},{LR1;050;9},{LR1;050;10},{LR1;050;11}.

#### 4. LRCalc: Leverage ratio calculation

24. This part of the reporting template collects the data that are needed to calculate the leverage ratio as defined in Article 429 of the CRR.

25. Since the leverage ratio shall be calculated ‘as the simple arithmetic mean of the monthly leverage ratios over a quarter’, institutions shall report the components at an end-of-month basis unless the derogation specified in Article 499(3) of the CRR applies. If the latter is the case, institutions shall only report values in column 3 of LRCalc.

26. Institutions shall perform the reporting of the leverage ratio quarterly. In each quarter, the ‘Month-1-value’ shall be the value at the last calendar day of the first month of the respective quarter, the ‘Month-2-value’ shall be the value at the last calendar day of the second month of the respective quarter and the ‘Month-3-value’ shall be the value at the last calendar day of the third month of the respective quarter.

5. **LR1 on alternative treatment of the Exposure Measure**

27. This part of the reporting collects data on alternative treatment of derivatives, repurchase transactions, securities or commodities lending or borrowing transactions, long settlement transactions and margin lending transactions, and off-balance sheet items.

28. Institutions shall determine the ‘accounting balance sheet values’ in LR1 based on the applicable accounting framework in accordance with Article 4(1)(77) of the CRR. ‘Accounting value assuming no netting or other CRM’ refers to the accounting balance sheet value not taking into account any effects of netting or risk mitigation.

| {240; 2}       | <p><b>SFT cash conduit lending (cash receivables)</b></p> <p>The accounting balance sheet value under the applicable accounting framework of the cash receivable for the cash on-lent to the securities owner in a qualifying cash conduit lending transaction (CCLT) assuming no accounting netting or risk mitigation effects (i.e. the accounting balance sheet value adjusted for the effects of accounting netting or risk mitigation).</p> <p>For the purpose of this field, cash is defined as the total amount of cash including coins and banknotes/currency. Total amount of deposits held with central banks to the extent that these deposits can be withdrawn in times of stress. Institutions shall not report in this field cash on deposit with other institutions.</p> <p>A CCLT is defined as a combination of two transactions where an institution borrows securities from the securities owner and on-lends securities to the securities borrower. Concurrently, the institution receives cash collateral from the securities borrower and on-lends the cash received to the securities owner. A qualifying CCLT shall comply with the following conditions:</p> <ul style="list-style-type: none"> <li>(a) both of the individual transactions which comprise the qualifying CCLT is effected on the same trade date, or for international transactions adjacent business days.;</li> <li>(b) where its comprising transactions do not specify a maturity, the institution has the legal right to close out either side of the CCLT, that is both of its comprising transactions, at any time and without prior notice;</li> <li>(c) where its comprising transactions specify a maturity, the CCLT does not give rise to maturity mismatches for the institution; the institution has the legal right to close out either side of the CCLT, that is both of its comprising transactions, at any time and without prior notice; and</li> <li>(d) it does not give rise to any other incremental exposures.</li> </ul> |

**▼ B****6. LR2 On- and off-balance sheet items — additional breakdown of exposures**

29. Panel LR2 provides information on additional breakdown items of all on and off balance sheet exposures <sup>(1)</sup> belonging to the non-trading book and of all exposures of the trading book subject to counterparty credit risk. The breakdown is according to the risk weights applied under the credit risk section of the CRR. The information is derived differently for exposures under respectively the standardised and the IRB approach.
30. For exposures supported by credit risk mitigation techniques implying the substitution of the risk weighting of the counterparty with the risk weighting of the guarantee, institutions shall refer to the risk weight after the substitution effect. Under the internal ratings-based approach for credit risk, institutions shall proceed with the following calculation: for exposures (other than those for which specific regulatory risk weights are provided for) belonging to each obligor grade, the risk weight shall be derived by dividing the risk weighted exposure obtained from the risk weight formula or the supervisory formula (for credit risk and securitisations exposures, respectively) by the exposure value after taking into account inflows and outflows due to CRM techniques with substitution effect on the exposure. Under the internal ratings-based approach, exposures classified as in default shall be excluded from rows 020 to 090 and included in row 100.
31. Under both approaches, institutions shall consider exposures deducted from the regulatory capital as being applied a 1 250 % risk weight.

**10. LR6 Entities that are consolidated for accounting purposes but not within the scope of prudential consolidation**

36. LR6 collects information on financial sector entities as defined in Article 4(1)(27) CRR that are consolidated according to the applicable accounting framework but are not included in the institution's prudential consolidation according to Chapter 2 of Title II of Part One of the CRR, securitisation entities that are consolidated according to the applicable accounting framework but are not included in the institution's prudential consolidation according to Chapter 2 of Title II of Part One of the CRR, and to commercial entities that are consolidated according to the applicable accounting framework but are not included in the institution's prudential consolidation according to Chapter 2 of Title II of Part One of the CRR.

37. Institutions shall determine the total amount of the equity of the financial sector entities referred to in paragraph 36 reduced by the deductions that relate to the financial sector entities referred to in paragraph 36 pursuant to Article 36 paragraph 1, points (g), (h) and (i) of the CRR. To obtain the inclusion factor for financial sector entities, institutions shall divide the amount specified in the previous sentence by the total amount of the equity of the financial sector entities referred to in paragraph 36.

38. Institutions shall determine the total amount of the equity of commercial entities referred to in paragraph 36 reduced by the deductions that relate to the commercial entities referred to in paragraph 36 pursuant to Article 36 paragraph 1, point (k)(i) of the CRR. To obtain the inclusion factor for commercial entities, institutions shall divide the amount specified in the previous sentence by the total amount of the equity of the commercial entities referred to in paragraph 36.

39. For commercial entities referred to in paragraph 36, institutions shall gauge the potential relative importance of these entities to the total exposure of the leverage ratio on an entity by entity basis. When reporting the fields referred to in paragraph 40, institutions are not required to take into account those commercial entities for which the value that enters into {LR6;140; 3} is less than 0.1 % of the amount determined according to paragraph 16.

40. {LR6;010; 3}, {LR6;020; 3}, {LR6;030; 3}, {LR6;040; 3}, {LR6;050; 3}, {LR6;060; 3}, {LR6;070; 3}, {LR6;080; 3}, {LR6;090; 3}, {LR6;100; 3}, {LR6;110; 3} to {LR6;120; 3}.

41. For the purpose of LR6 institutions shall treat an entity as a securitisation entity if it is 4(1)(61)4(1)(63)a securitisation special purpose entity as defined in Article 4(1)(66).

42. For the purpose of LR6 institutions shall treat an entity as a commercial entity if it is an entity that is not a financial sector entity as defined in Article 4(1)(27) CRR and is not a entity within the scope of the previous paragraph.
