

Council Regulation (EU) 2015/104 of 19 January 2015 fixing for 2015 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in Union waters and, for Union vessels, in certain non-Union waters, amending Regulation (EU) No 43/2014 and repealing Regulation (EU) No 779/2014

COUNCIL REGULATION (EU) 2015/104

of 19 January 2015

fixing for 2015 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in Union waters and, for Union vessels, in certain non-Union waters, amending Regulation (EU) No 43/2014 and repealing Regulation (EU) No 779/2014

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(3) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) Article 43(3) of the Treaty provides that the Council, on a proposal from the Commission, is to adopt measures on the fixing and allocation of fishing opportunities.
- (2) Regulation (EU) No 1380/2013 of the European Parliament and of the Council⁽¹⁾ requires that conservation measures be adopted taking into account available scientific, technical and economic advice, including, where relevant, reports drawn up by the Scientific, Technical and Economic Committee for Fisheries (STECF) and other advisory bodies, as well as in the light of any advice received from Advisory Councils.
- (3) It is incumbent upon the Council to adopt measures on the fixing and allocation of fishing opportunities, including certain conditions functionally linked thereto, as appropriate. In accordance with Article 16(4) of Regulation (EU) No 1380/2013, fishing opportunities should be fixed in accordance with the objectives of the Common Fisheries Policy established in Article 2(2) of that Regulation. In accordance with Article 16(1) of that Regulation fishing opportunities should be allocated to Member States in such a way as to ensure relative stability of fishing activities of each Member State for each fish stock or fishery.
- (4) The total allowable catch (TACs) should therefore be established, in line with Regulation (EU) No 1380/2013, on the basis of available scientific advice, taking into account biological and socio-economic aspects whilst ensuring fair treatment between fishing sectors, as well as in the light of the opinions expressed during the consultation of stakeholders, in particular at the meetings of the Advisory Councils.
- (5) The landing obligation referred to in Article 15 of Regulation (EU) No 1380/2013 is introduced on a fishery-by-fishery basis. In the region covered by this Regulation, when a fishery falls under the landing obligation, all species in that fishery subject to catch

Status: Point in time view as at 31/01/2020.

Changes to legislation: *There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

limits should be landed. As of 1 January 2015, the landing obligation applies to small pelagic fisheries (i.e. fisheries for mackerel, herring, horse mackerel, blue whiting, boarfish, anchovy, argentine, sardine and sprat), to large pelagic fisheries (i.e. fisheries for bluefin tuna, swordfish, albacore tuna, bigeye tuna and blue and white marlin), to fisheries for industrial purposes (e.g. fisheries for capelin, sandeel and Norwegian pout). Article 16(2) of Regulation (EU) No 1380/2013 provides that, when the landing obligation in respect of a fish stock is introduced, fishing opportunities are to be fixed taking into account the change from fixing fishing opportunities that reflect landings to fixing fishing opportunities that reflect catches.

- (6) For some years, certain TACs for stocks of elasmobranchs (skates, sharks, rays) have been set at 0, with a linked provision establishing an obligation to immediately release accidental catches. The reason for this specific treatment is that those stocks are in a poor conservation status and, because of their high survival rates, discards will not raise fishing mortality rates for them; discards are deemed as beneficial for the conservation of these species. As of 1 January 2015, however, catches of these species in pelagic fisheries will have to be landed, unless they are covered by any of the derogations from the landing obligation foreseen in Article 15 of Regulation (EU) No 1380/2013. Article 15(4)(a) of that Regulation allows such derogations for species in respect of which fishing is prohibited and which are identified as such in a Union legal act adopted in the area of the Common Fisheries Policy. Therefore, it is appropriate to prohibit the fishing of these species in the areas concerned.
- (7) In recent years, the TAC for anchovy in the Bay of Biscay has been set in a separate fishing opportunities regulation applicable from 1 July of one year to 30 June of the following year. In 2014, STECF concluded that changing the management period to a normal calendar year (January to December) considerably reduces conservation risks for this stock. Following consultations with Spain, France and the South Western Waters Advisory Council (SWWAC), the change proposed by STECF was positively assessed. On this basis it is appropriate to repeal Council Regulation (EU) No 779/2014⁽²⁾ and to introduce a new TAC for the stock of anchovy in the Bay of Biscay for 2015 in this Regulation.
- (8) In addition, pursuant to Article 16(4) of Regulation (EU) No 1380/2013, for stocks subject to specific multiannual plans the TACs should be established in accordance with the rules laid down in those plans. Consequently, the TACs for stocks of Southern hake and Norway lobster, of sole in the Western Channel, of plaice and sole in the North Sea, of herring to the west of Scotland, of cod in the Kattegat, to the west of Scotland, the Irish Sea, the North Sea, Skagerrak and the Eastern Channel and of bluefin tuna in the Eastern Atlantic and the Mediterranean should be established in accordance with the rules laid down in Council Regulations (EC) No 2166/2005⁽³⁾, (EC) No 509/2007⁽⁴⁾, (EC) No 676/2007⁽⁵⁾, (EC) No 1300/2008⁽⁶⁾, (EC) No 1342/2008⁽⁷⁾ (the ‘Cod Plan’) and (EC) No 302/2009⁽⁸⁾.
- (9) With regard, however, to the stocks of northern hake (Council Regulation (EC) No 811/2004⁽⁹⁾) and sole in the Bay of Biscay (Council Regulation (EC) No 388/2006⁽¹⁰⁾), the minimum targets of the relevant recovery and management plans have been reached

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- and, therefore, it is appropriate to follow scientific advice provided in order to achieve or maintain the TACs at maximum sustainable yield levels, as the case may be.
- (10) For stocks for which there is no sufficient or reliable data in order to provide size estimates, management measures and TAC levels should follow the precautionary approach to fisheries management as defined in Article 4(1)(8) of Regulation (EU) No 1380/2013, while taking into account stock-specific factors, including, in particular, available information on stock trends and mixed fisheries considerations.
 - (11) Council Regulation (EC) No 847/96⁽¹¹⁾ introduced additional conditions for year-to-year management of TACs, including flexibility provisions under Articles 3 and 4 for precautionary and analytical stocks respectively. Under Article 2 of that Regulation, when fixing the TACs, the Council is to decide to which stocks Articles 3 and 4 do not apply, in particular on the basis of the biological status of the stocks. More recently, a flexibility mechanism was introduced for all catches covered by the landing obligation by Article 15(9) of Regulation (EU) No 1380/2013. Therefore, in order to avoid excessive flexibility, which would undermine the conservation objectives set out in the Common Fisheries Policy, and to prevent negative impacts on the biological state of the stocks, Articles 3 and 4 of Regulation (EC) No 847/96 may apply to TACs only where Member States do not use the year-to-year flexibility provided for in Article 15(9) of Regulation (EU) No 1380/2013.
 - (12) In accordance with the outcome of consultations between the Union and Norway, the Union may authorise fishing of Northern prawn in area IIIa by Union vessels of up to 10 per cent beyond the quota available to the Union, provided that any quantities used beyond the quota available to the Union would be deduced from its quota for 2015. It is appropriate to enable such flexibility in the fixing of those fishing opportunities in order to ensure a level-playing field for Union vessels by allowing the Member States concerned to opt for the use of a flexibility quota. Regulation (EU) No 43/2014 should therefore be amended accordingly.
 - (13) Where a TAC relating to a stock is allocated to one Member State only, it is appropriate to empower that Member State in accordance with Article 2(1) of the Treaty to determine the level of such TAC. Provisions should be made to ensure that, when fixing that TAC level, the Member State concerned acts in a manner fully consistent with the principles and rules of the Common Fisheries Policy.
 - (14) It is necessary to establish the fishing effort ceilings for 2015 in accordance with Article 8 of Regulation (EC) No 2166/2005, Article 5 of Regulation (EC) No 509/2007, Article 9 of Regulation (EC) No 676/2007, Articles 11 and 12 of Regulation (EC) No 1342/2008 and Articles 5 and 9 of Regulation (EC) No 302/2009, while taking into account Council Regulation (EC) No 754/2009⁽¹²⁾.
 - (15) In the light of the most recent scientific advice from International Council for the Exploration of the Sea (ICES) and in accordance with the international commitments in the context of the North East Atlantic Fisheries Convention (NEAFC), it is necessary to limit the fishing effort on certain deep-sea species.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (16) For certain species, such as certain species of sharks, even a limited fishing activity could result in a serious risk to their conservation. Fishing opportunities for such species should therefore be fully restricted through a general prohibition on fishing those species.
- (17) At the 11th Conference of the Parties of the Convention of Migratory Species of Wild Animals, held in Quito from 3 to 9 November 2014, a number of species was added to the lists of protected species in Appendices I and II of the Convention, with effect from 8 February 2015. Therefore, it is appropriate to provide for the protection of those species with respect to Union vessels fishing in all waters and non-Union vessels fishing in Union waters.
- (18) The use of fishing opportunities available to Union vessels set out in this Regulation is subject to Council Regulation (EC) No 1224/2009⁽¹³⁾, and in particular to Articles 33 and 34 of that Regulation, concerning the recording of catches and fishing effort and the notification of data on the exhaustion of fishing opportunities. It is therefore necessary to specify the codes to be used by Member States when sending data to the Commission relating to landings of stocks subject to this Regulation.
- (19) For certain TACs Member States should be allowed to grant additional allocations for vessels participating in trials on fully documented fisheries. The aim of those trials is to test a catch-quota system in fisheries that are not yet under the landing obligation set out in Regulation (EU) No 1380/2013, i.e. a system where all catches should be landed and counted against quotas in order to avoid discards and the waste of otherwise usable fish resources they entail. Uncontrolled discards of fish are a threat to the long term sustainability of fish as a public good and thus to the Common Fisheries Policy objectives. By contrast, catch-quota systems inherently present the fishers with an incentive to optimise the catch selectivity of their operations. For the purpose of monitoring compliance with the conditions to which the fully documented fisheries trials are subject, Member States should ensure detailed and accurate documentation of all fishing trips and adequate capacity and means, such as observers, closed-circuit television (CCTV) and others. In doing so, Member States should respect the principle of efficiency and proportionality. For the use of CCTV systems, the requirements of Directive 95/46/EC of the European Parliament and of the Council⁽¹⁴⁾ should be complied with.
- (20) In order to ensure that trials of fully documented fisheries can effectively evaluate the potential of catch-quota systems to control the absolute fishing mortality of the stocks concerned, it is necessary for all fish caught in those trials, including those under minimum landing size, to be counted against the total allocation assigned to the participating vessel, and for fishing operations to cease when that total allocation has been fully utilised by that vessel. It is also appropriate to allow transfers of allocations between vessels participating in the fully documented fisheries trials and non-participating vessels provided that it can be demonstrated that discards by non-participating vessels do not increase.
- (21) It is appropriate, following advice from the ICES, to maintain a specific system to manage sandeel in Union waters of ICES divisions IIa and IIIa and ICES subarea IV.

Status: Point in time view as at 31/01/2020.

Changes to legislation: *There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

Given that the ICES scientific advice is expected to become available only in February 2015, it is appropriate to set the TAC and quotas provisionally at zero until such advice is released.

- (22) In order to guarantee full use of fishing opportunities, it is appropriate to allow for the implementation of a flexible arrangement between some of the TAC areas where the same biological stock is concerned.
- (23) In accordance with the procedure provided for in the agreements or protocols on fisheries relations with Norway⁽¹⁵⁾ and the Faroe Islands⁽¹⁶⁾ the Union has held consultations on fishing rights with those partners. In accordance with the procedure provided for in the agreement and protocol on fisheries relations with Greenland⁽¹⁷⁾, the Joint Committee has established the level of fishing opportunities available for the Union in Greenland waters in 2015. It is therefore necessary to include these fishing opportunities in this regulation.
- (24) At its Annual Meeting in 2014, NEAFC adopted a conservation measure on the redfish stock in the Irminger Sea fixing for 2015 the TAC and quotas for the contracting parties, including the Union. Furthermore, consultations between NEAFC Coastal States will continue in 2015 on fishing opportunities for Atlanto-Scandian herring for that year. It is therefore appropriate to fix provisional catch limits for Atlanto-Scandian herring as a percentage of the Union quota in place for 2014, whilst awaiting a revision following the outcome of the NEAFC Coastal States consultations.
- (25) At its Annual Meeting in 2014, NEAFC did not adopt a conservation measure on the redfish stock in ICES international waters of I and II fixing the TAC and quotas for the Contracting Parties. Consultations will continue in 2015 on fishing opportunities for this redfish stock. As the fishery occurs in the second half of the year, catch limits for this stock will be fixed during 2015, taking account of the outcome of the NEAFC Coastal States consultations.
- (26) At its Annual Meeting in 2014, the International Commission for the Conservation of Atlantic Tunas (ICCAT) adopted an increase of the TACs and quotas for bluefin tuna over a period of three years, and confirmed TACs and quotas for North-Atlantic swordfish, Southern-Atlantic swordfish, Southern-Atlantic Albacore and North-Atlantic Albacore at the current level for the 2015-2016 period. Furthermore, as it is already the case for the stock of bluefin tuna, it is appropriate that catches in recreational and sport fisheries performed on all other ICCAT stocks included in Annex ID should also be subject to the catch limits adopted by that organisation in order to guarantee that the Union does not exceed its quotas. All these measures should be implemented in the law of the Union.
- (27) At its Annual Meeting in 2014, the Parties to the Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR) adopted catch limits for both target and by-catch species, including a by-catch quota for the years 2015 and 2016 for certain exploratory fisheries in subarea 88.2. The uptake of such quota during 2015 should be considered when setting fishing opportunities for the year 2016.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (28) At its Annual Meeting in 2014, the Indian Ocean Tuna Commission (IOTC) did not modify the conservation and management measures in place. It is however necessary to fix the capacity limits in Annex VI to this Regulation taking into account the inclusion of Mayotte as an outermost region in Annex II of Regulation (EU) No 1380/2013 as modified by Council Regulation (EU) No 1385/2013⁽¹⁸⁾.
- (29) The third Annual Meeting of the South Pacific Regional Fisheries Management Organisation (SPRFMO) will be held in February 2015. It is appropriate that current measures in the SPRFMO Convention Area are provisionally maintained until such Annual Meeting is held. However, the stock of jack mackerel should not be targeted before a TAC is set as a result of that Annual Meeting.
- (30) At its 87th Annual Meeting in 2014, the Inter-American Tropical Tuna Commission (IATTC) maintained its conservation measures for yellowfin tuna, bigeye tuna and skipjack tuna. IATTC also maintained its resolution on the conservation of oceanic whitetip sharks. Those measures should continue to be implemented in the law of the Union.
- (31) At its Annual Meeting in 2014, the South East Atlantic Fisheries Organisation (SEAFO) adopted a recommendation for new biennial TACs for alfonsinos, orange roughy and pelagic armourhead, while the existing TACs for Patagonian toothfish and deep-sea red crab remained in force. The currently applicable measures on allocation of fishing opportunities adopted by SEAFO should be implemented in the law of the Union.
- (32) At its 9th Annual Meeting, the Western and Central Pacific Fisheries Commission (WCPFC) adopted a conservation and management measure for the protection of whale sharks from purse seine fishing operations. At its 10th Annual Meeting, WCPFC adopted catch limits for longliners fishing for bigeye tuna. The 11th Annual Meeting of the WCPFC in 2014 did not modify its measures adopted in 2013 as regards fishing opportunities. All these measures should be implemented in the law of the Union.
- (33) At its Annual Meeting in 2013, the Parties to the Convention on the Conservation and Management of Pollock resources in the central Bering Sea did not modify its measures regarding fishing opportunities. Those measures should be implemented in the law of the Union.
- (34) At its 36th Annual Meeting in 2014, the Northwest Atlantic Fisheries Organisation (NAFO) adopted a number of fishing opportunities for 2015 of certain stocks in Subareas 1-4 of the NAFO Convention Area. In that context, NAFO adopted a moratorium for the shrimp fishery in Division 3L, increased the TAC for redfish in Division 3M in order to cover certain by-catches and reopened the fishery for witch flounder in Division 3NO.
- (35) Certain international measures which create or restrict fishing opportunities for the Union are adopted by the relevant Regional Fisheries Management Organisations (RFMOs) at the end of the year and become applicable before the entry into force of this Regulation. It is therefore necessary for the provisions that implement such measures in the law of the Union to apply retroactively. In particular, since the fishing season in CCAMLR Convention Area runs from 1 December to 30 November, and thus certain

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

fishing opportunities or prohibitions in the CCAMLR Convention Area are laid down for a period of time starting from 1 December 2014, it is appropriate that the relevant provisions of this Regulation apply from that date. Such retroactive application will be without prejudice to the principle of legitimate expectations as CCAMLR members are forbidden to fish in the CCAMLR Convention Area without authorisation.

- (36) In accordance with the declaration by the Union addressed to the Bolivarian Republic of Venezuela on the granting of fishing opportunities in EU waters to fishing vessels flying the flag of Bolivarian Republic of Venezuela in the exclusive economic zone off the coast of French Guiana⁽¹⁹⁾, it is necessary to fix the fishing opportunities for snappers available to Venezuela in Union waters.
- (37) In order to ensure uniform conditions for granting an individual Member State an authorisation to benefit from the system of managing its fishing effort allocations in accordance with a kilowatt days system, implementing powers should be conferred on the Commission.
- (38) In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission relating to the granting of additional days at sea for permanent cessation of fishing activities and for enhanced scientific observer coverage as well as to establish the formats of spreadsheet for the collection and transmission of information concerning transfer of days at sea between fishing vessels flying the flag of a Member State. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council⁽²⁰⁾.
- (39) In order to avoid the interruption of fishing activities and to ensure the livelihood of the fishermen of the Union, this Regulation should apply from 1 January 2015, except for the provisions concerning fishing effort limits, which should apply from 1 February 2015, and certain provisions in particular regions, which should have a specific date of application. For reasons of urgency, this Regulation should enter into force immediately after its publication.
- (40) Fishing opportunities should be used in full compliance with the applicable law of the Union,

HAS ADOPTED THIS REGULATION:

TITLE I

GENERAL PROVISIONS

Article 1

Subject matter

1 This Regulation fixes the fishing opportunities available in Union waters and, to Union vessels, in certain non-Union waters for certain fish stocks and groups of fish stocks.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- 2 The fishing opportunities referred to in paragraph 1 include:
- a catch limits for the year 2015 and, where specified in this Regulation, for the year 2016;
 - b fishing effort limits for the period from 1 February 2015 to 31 January 2016, except where other periods are established for effort limits in Articles 9, 29 and 31;
 - c fishing opportunities for the period from 1 December 2014 to 30 November 2015 for certain stocks in the CCAMLR Convention Area;
 - d fishing opportunities for certain stocks in the IATTC Convention Area set out in Article 32 for the periods in 2015 and 2016 specified in that provision.

[^{F1}Article 2

Scope

- 1 This Regulation shall apply to the following vessels:
- a Union vessels;
 - b third-country vessels in Union waters.
- 2 For the purpose of Article 11a, this Regulation shall also apply to recreational fisheries.]

Textual Amendments

- F1** Substituted by [Council Regulation \(EU\) 2015/523 of 25 March 2015 amending Regulations \(EU\) No 43/2014 and \(EU\) 2015/104 as regards certain fishing opportunities.](#)

Article 3

Definitions

For the purposes of this Regulation the following definitions shall apply:

- (a) ‘Union vessel’ means a Union fishing vessel as defined in Article 4(1)(5) of Regulation (EU) No 1380/2013;
- (b) ‘third-country vessel’ means a fishing vessel as defined in Article 4(1)(4) of Regulation (EU) No 1380/2013, flying the flag of, and registered in, a third country;
- (c) ‘Union waters’ means the Union waters as defined in Article 4(1)(1) of Regulation (EU) No 1380/2013;
- (d) ‘international waters’ means waters falling outside the sovereignty or jurisdiction of any State;
- (e) ‘stock’ means the stock as defined in Article 4(1)(14) of Regulation (EU) No 1380/2013;
- (f) ‘total allowable catch’ (TAC) means:
 - (i) in fisheries subject to the landing obligation referred to in Article 15 of Regulation (EU) No 1380/2013, the quantity that can be caught from each stock each year;

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (ii) in all other fisheries, the quantity that can be landed from each stock each year;
- (g) ‘quota’ means a proportion of the TAC allocated to the Union, a Member State or a third country;
- (h) ‘analytical assessment’ means a quantitative evaluation of trends in a given stock, based on data about the stock's biology and exploitation, which scientific review has indicated to be of sufficient quality to provide scientific advice on options for future catches;
- (i) ‘precautionary approach to fisheries management’, means the precautionary approach to fisheries management as defined in Article 4(1)(8) of Regulation (EU) No 1380/2013;
- (j) ‘mesh size’ means the mesh size of fishing nets as determined in accordance with Commission Regulation (EC) No 517/2008⁽²¹⁾;
- (k) ‘Union fishing fleet register’ means the register set up by the Commission in accordance with Article 24(3) of Regulation (EU) No 1380/2013;
- (l) ‘fishing logbook’ means the logbook referred to in Article 14 of Regulation (EC) No 1224/2009^[F1;]
- (m) ^[F2]‘recreational fisheries’ means non-commercial fishing activities exploiting marine living aquatic resources such as for recreation, tourism or sport.]

Textual Amendments

- F1** Substituted by Council Regulation (EU) 2015/523 of 25 March 2015 amending Regulations (EU) No 43/2014 and (EU) 2015/104 as regards certain fishing opportunities.
- F2** Inserted by Council Regulation (EU) 2015/523 of 25 March 2015 amending Regulations (EU) No 43/2014 and (EU) 2015/104 as regards certain fishing opportunities.

Article 4

Fishing zones

For the purposes of this Regulation the following zone definitions shall apply:

- (a) ICES (International Council for the Exploration of the Sea) zones are the geographical areas specified in Annex III to Regulation (EC) No 218/2009⁽²²⁾;
- (b) ‘Skagerrak’ means the geographical area bounded on the west by a line drawn from the Hanstholm lighthouse to the Lindesnes lighthouse and on the south by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast;
- (c) ‘Kattegat’ means the geographical area bounded on the north by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast and on the south by a line drawn from Hasenøre to Gnibens Spids, from Korshage to Spodsbjerg and from Gilbjerg Hoved to Kullen;

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (d) ‘Functional Unit 16 of ICES subarea VII’ means the geographical area bounded by rhumb lines sequentially joining the following positions:
- 53° 30′ N 15° 00′ W,
 - 53° 30′ N 11° 00′ W,
 - 51° 30′ N 11° 00′ W,
 - 51° 30′ N 13° 00′ W,
 - 51° 00′ N 13° 00′ W,
 - 51° 00′ N 15° 00′ W,
 - 53° 30′ N 15° 00′ W.
- (e) ‘Functional Unit 26 of ICES division IXa’ means the geographical area bounded by rhumb lines sequentially joining the following positions:
- 43° 00′ N 8° 00′ W,
 - 43° 00′ N 10° 00′ W,
 - 42° 00′ N 10° 00′ W,
 - 42° 00′ N 8° 00′ W;
- (f) ‘Functional Unit 27 of ICES division IXa’ means the geographical area bounded by rhumb lines sequentially joining the following positions:
- 42° 00′ N 8° 00′ W,
 - 42° 00′ N 10° 00′ W,
 - 38° 30′ N 10° 00′ W,
 - 38° 30′ N 9° 00′ W,
 - 40° 00′ N 9° 00′ W,
 - 40° 00′ N 8° 00′ W;
- (g) ‘Gulf of Cádiz’ means the geographical area of ICES division IXa east of longitude 7° 23′ 48″ W;
- (h) CECAF (Committee for Eastern Central Atlantic Fisheries) areas are the geographical areas specified in Annex II to Regulation (EC) No 216/2009 of the European Parliament and of the Council⁽²³⁾;
- (i) NAFO (Northwest Atlantic Fisheries Organisation) areas are the geographical areas specified in Annex III to Regulation (EC) No 217/2009 of the European Parliament and of the Council⁽²⁴⁾;
- (j) ‘SEAFO (South East Atlantic Fisheries Organisation) Convention Area’ is the geographical area defined in the Convention on the Conservation and Management of Fishery Resources in the South-East Atlantic Ocean⁽²⁵⁾;
- (k) ‘ICCAT (International Commission for the Conservation of Atlantic Tunas) Convention Area’ is the geographical area defined in the International Convention for the Conservation of Atlantic Tunas⁽²⁶⁾;
- (l) ‘CCAMLR (Commission for the Conservation of Antarctic Marine Living Resources) Convention Area’ is the geographical area defined in point (a) of Article 2 of Regulation (EC) No 601/2004⁽²⁷⁾;
- (m) ‘IATTC (Inter-American Tropical Tuna Commission) Convention Area’ is the geographical area defined in the Convention for the Strengthening of the Inter-American Tropical Tuna Commission established by the 1949 Convention between

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- the United States of America and the Republic of Costa Rica ('the Antigua Convention')⁽²⁸⁾;
- (n) 'IOTC (Indian Ocean Tuna Commission) Convention Area' is the geographical area defined in the Agreement for the establishment of the Indian Ocean Tuna Commission⁽²⁹⁾;
- (o) 'SPRFMO (South Pacific Regional Fisheries Management Organisation) Convention Area' is the high seas geographical area south of 10° N, north of the CCAMLR Convention Area, east of the SIOFA Convention Area as defined in the Southern Indian Ocean Fisheries Agreement⁽³⁰⁾, and west of the areas of fisheries jurisdictions of South American States;
- (p) 'the WCPFC (Western and Central Pacific Fisheries Commission) Convention Area' is the geographical area defined in the Convention on the Conservation and Management of Highly Migratory Fish Stocks in the Western and Central Pacific Ocean⁽³¹⁾;
- (q) 'high seas of the Bering Sea' is the geographical area of the high seas of the Bering Sea beyond 200 nautical miles from the baselines from which the breadth of the territorial sea of the coastal States of the Bering Sea is measured;
- (r) 'overlap area between IATTC and WCPFC' is the geographical area defined by the following limits:
- longitude 150° W,
 - longitude 130° W,
 - latitude 4° S,
 - latitude 50° S.

TITLE II

FISHING OPPORTUNITIES FOR UNION VESSELS

CHAPTER I

General provisions

Article 5

TACs and allocations

1 The TACs for Union vessels in Union waters or certain non-Union waters and the allocation of such TACs among Member States, and the conditions functionally linked thereto, where appropriate, are set out in Annex I.

2 Union vessels shall be authorised to make catches, within the TACs set out in Annex I, in waters falling within the fisheries jurisdiction of the Faroe Islands, Greenland, Iceland and Norway, and the fishing zone around Jan Mayen, subject to the condition set out in Article 19 of and Annex III to this Regulation and in Regulation (EC) No 1006/2008⁽³²⁾ and its implementing provisions.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

3 For the purposes of the special condition laid down in Annex IA for the stock of sandeel in Union waters of ICES zones IIa, IIIa and IV, the management areas defined in Annex IID shall apply.

Article 6

TACs to be determined by Member States

1 The TACs for certain fish stocks shall be determined by the Member State concerned. Those stocks are identified in Annex I.

2 The TACs to be determined by a Member State shall:

- a be consistent with the principles and rules of the Common Fisheries Policy, in particular the principle of sustainable exploitation of the stock; and
- b result:
 - (i) if analytical assessments are available, in the exploitation of the stock consistent with maximum sustainable yield from 2015 onwards, with as high a probability as possible;
 - (ii) if analytical assessments are unavailable or incomplete, in the exploitation of the stock consistent with the precautionary approach to fisheries management.

3 By 15 March 2015, each Member State concerned shall submit the following information to the Commission:

- a the TACs adopted;
- b the data collected and assessed by the Member State concerned on which the TACs adopted are based;
- c details on how the TACs adopted comply with paragraph 2.

[^{F1}Article 7

Conditions for landing catches and by-catches

1 Catches of species which are subject to catch limits and which have been caught in fisheries specified in point (a) of Article 15(1) of Regulation (EU) No 1380/2013 are subject to the landing obligation, as established in Article 15 of that Regulation ('the landing obligation').

2 Fish subject to catch limits caught in fisheries not subject to the landing obligation shall be retained on board or landed only if:

- a the catches have been taken by vessels flying the flag of a Member State having a quota and that quota is not exhausted; or
- b the catches consist of a share in a Union quota which has not been allocated by quota among Member States, and that Union quota has not been exhausted.

3 The stocks of non-target species within safe biological limits referred to in Article 15(8) of Regulation (EU) No 1380/2013 are identified in Annex I to this Regulation for the purposes of the derogation from the obligation to count catches against the relevant quotas provided for in that Article.]

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Textual Amendments

- F1** Substituted by [Council Regulation \(EU\) 2015/523 of 25 March 2015 amending Regulations \(EU\) No 43/2014 and \(EU\) 2015/104 as regards certain fishing opportunities.](#)

Article 8

Fishing effort limits

For the periods referred to in Article 1(2)(b), the following fishing effort measures shall apply:

- (a) Annex IIA for the management of certain cod, sole, and plaice stocks in the Kattegat, the Skagerrak, that part of ICES division IIIa not covered by the Skagerrak and the Kattegat, ICES subarea IV and ICES divisions VIa, VIIa and VIId and Union waters of ICES divisions IIa and Vb;
- (b) Annex IIB for the recovery of hake and Norway lobster in ICES divisions VIIIc and IXa, with the exception of the Gulf of Cádiz;
- (c) Annex IIC for the management of the sole stock in ICES division VIIe.

Article 9

Catch and effort limits for deep-sea fisheries

1 Article 3(1) of Regulation (EC) No 2347/2002⁽³³⁾ establishing the requirement of holding a deep-sea fishing permit shall apply to Greenland halibut. The catching, retaining on board, transshipping and landing of Greenland halibut shall be subject to the conditions referred to in that Article.

2 Member States shall ensure that for 2015 the fishing effort levels, measured in kilowatt days absent from port, by vessels holding deep-sea fishing permits referred to in Article 3(1) of Regulation (EC) No 2347/2002, do not exceed 65 % of the average annual fishing effort deployed by the vessels of the Member State concerned in 2003 on trips when deep-sea fishing permits were held or deep-sea species, as listed in Annexes I and II to that Regulation, were caught. This paragraph shall apply only to fishing trips on which more than 100 kg of deep-sea species, other than greater silver smelt, are caught.

[^{F3} Article 9a

Measures concerning sea bass

1 It shall be prohibited for Union vessels to fish, retain on board, relocate, tranship or land quantities exceeding the limits set out in paragraph 2 of sea bass caught in the following areas:

- a ICES divisions IVb, IVc, VIId, VIIe, VIIf and VIIh;
- b waters within 12 nautical miles from baseline under the sovereignty of the United Kingdom in ICES divisions VIIa and VIIg.

2 For the purposes of paragraph 1, the following catch limits shall apply:

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Gear category and code^a	Maximum catch of sea bass permitted per vessel per calendar month (in kg)
Mid-water or pelagic trawls, including OTM and PTM	1 500
All types of demersal trawls including Danish/Scottish seines, including OTB, OTT, PTB, TBB, SSC, SDN, SPR, SV, SB, SX, TBN, TBS and TB	1 800
All GN, all drift net and fixed (trammel) net fisheries, including GTR, GNS, GND, FYK, FPN and FIX	1 000
All long lines or pole and line or rod and line fisheries, including LHP, LHM, LLD, LL, LTL, LX and LLS	1 300
purse seines, gear codes PS and LA	3 000

^a As per FAO alpha 3 fishing gear codes.

3 For Union vessels using more than one gear in a single calendar month, the lowest catch limit set in paragraph 2 for either gear shall apply.

4 The catch limits set in paragraph 2 shall not be transferable from one month to another or between vessels.

5 It shall be prohibited for Union vessels to retain on board, tranship, relocate or land sea bass caught in ICES divisions VIIb, VIIc, VIIj and VIIk, as well as in the waters of ICES divisions VIIa and VIIg that are more than 12 nautical miles from the baseline under the sovereignty of the United Kingdom.

6 Member States shall report to the Commission catches of sea bass per type of gear not later than 20 days after the end of each month.]

Textual Amendments

- F3** Inserted by [Council Regulation \(EU\) 2015/960 of 19 June 2015 amending Regulation \(EU\) 2015/104 as regards certain fishing opportunities.](#)

Article 10

Special provisions on allocations of fishing opportunities

1 The allocation of fishing opportunities among Member States as set out in this Regulation shall be without prejudice to:

- a exchanges made pursuant to Article 16(8) of Regulation (EU) No 1380/2013;
- b deductions and reallocations made pursuant to Article 37 of Regulation (EC) No 1224/2009;
- c reallocations made pursuant to Article 10(4) of Regulation (EC) No 1006/2008;
- d additional landings allowed under Article 3 of Regulation (EC) No 847/96 and Article 15(9) of Regulation (EU) No 1380/2013;

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- e quantities withheld in accordance with Article 4 of Regulation (EC) No 847/96 and Article 15(9) of Regulation (EU) No 1380/2013;
- f deductions made pursuant to Articles 105, 106 and 107 of Regulation (EC) No 1224/2009;
- g quota transfers and exchanges pursuant to Article 19 of this Regulation;
- h additional allocations pursuant to Article 14 of this Regulation.

2 Except where otherwise specified in Annex I to this Regulation, Article 3 of Regulation (EC) No 847/96 shall apply to stocks subject to precautionary TAC and Article 3(2) and (3) and Article 4 of that Regulation shall apply to stocks subject to analytical TAC. Articles 3 and 4 of Regulation (EC) No 847/96 shall not apply where a Member State uses the year-to-year flexibility provided for in Article 15(9) of Regulation (EU) No 1380/2013.

Article 11

Closed fishing seasons

1 It shall be prohibited to fish or retain on board any of the following species in the Porcupine Bank during the period from 1 May to 31 May 2015: cod, megrims, anglerfish, haddock, whiting, hake, Norway lobster, plaice, pollack, saithe, skates and rays, common sole, tusk, blue ling, ling and spurdog.

For the purposes of this paragraph, the Porcupine Bank shall comprise the geographical area bounded by rhumb lines sequentially joining the following positions:

Point	Latitude	Longitude
1	52° 27' N	12° 19' W
2	52° 40' N	12° 30' W
3	52° 47' N	12° 39,600' W
4	52° 47' N	12° 56' W
5	52° 13,5' N	13° 53,830' W
6	51° 22' N	14° 24' W
7	51° 22' N	14° 03' W
8	52° 10' N	13° 25' W
9	52° 32' N	13° 07,500' W
10	52° 43' N	12° 55' W
11	52° 43' N	12° 43' W
12	52° 38,800' N	12° 37' W
13	52° 27' N	12° 23' W
14	52° 27' N	12° 19' W

By way of derogation from the first subparagraph, transit through the Porcupine Bank while carrying on board the species referred to in that paragraph, shall be permitted in accordance with Article 50(3), (4) and (5) of Regulation (EC) No 1224/2009.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

2 Commercial fishing for sandeel with demersal trawl, seine or similar towed gears with a mesh size of less than 16 mm shall be prohibited in ICES divisions IIa, IIIa and ICES subarea IV from 1 January to 31 March 2015 and from 1 August to 31 December 2015.

The prohibition set out in the first subparagraph shall also apply to third-country vessels authorised to fish for sandeel in Union waters of ICES subarea IV.

f^{F2} Article 11a

Recreational sea bass fisheries in the north-east Atlantic

In recreational fisheries in ICES divisions IVb, IVc, VIIa, VIId, VIIe, VIIf, VIIg, VIIh, VIIj and VIIk not more than three specimens of sea bass may be retained per person per day.]

Textual Amendments

F2 Inserted by [Council Regulation \(EU\) 2015/523 of 25 March 2015 amending Regulations \(EU\) No 43/2014 and \(EU\) 2015/104 as regards certain fishing opportunities.](#)

Article 12

Prohibitions

1 It shall be prohibited for Union vessels to fish for, to retain on board, to tranship or to land the following species:

- a starry ray (*Amblyraja radiata*) in Union waters of ICES divisions IIa, IIIa and VIId and ICES subarea IV;
- b the following species of sawfish in all waters:
 - (i) narrow sawfish (*Anoxypristis cuspidate*);
 - (ii) dwarf sawfish (*Pristis clavata*);
 - (iii) smalltooth sawfish (*Pristis pectinata*);
 - (iv) largetooth sawfish (*Pristis pristis*);
 - (v) green sawfish (*Pristis zijsron*);
- c basking shark (*Cetorhinus maximus*) and white shark (*Carcharodon carcharias*) in all waters;
- d common skate (*Dipturus batis*) complex (*Dipturus* cf. *flossada* and *Dipturus* cf. *intermedia*) in Union waters of ICES division IIa and ICES subareas III, IV, VI, VII, VIII, IX and X;
- e tope shark (*Galeorhinus galeus*) when taken with longlines in Union waters of ICES division IIa and subarea IV and in Union and international waters of ICES subareas I, V, VI, VII, VIII, XII and XIV;
- f smooth lanternshark (*Etmopterus pusillus*) in Union waters of ICES division IIa and subarea IV and in Union and international waters of ICES subareas I, V, VI, VII, VIII, XII and XIV;
- g kitefin shark (*Dalatias licha*), birdbeak dogfish (*Deania calcea*), leafscale gulper shark (*Centrophorus squamosus*), great lanternshark (*Etmopterus princeps*) and Portuguese

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- dogfish (*Centroscyrnus coelolepis*) in Union waters of ICES division IIa and subarea IV and in Union and international waters of ICES subareas I and XIV;
- h porbeagle (*Lamna nasus*) in all waters;
 - i reef manta ray (*Manta alfredi*) in all waters;
 - j giant manta ray (*Manta birostris*) in all waters;
 - k the following species of *Mobula* rays in all waters:
 - (i) devil fish (*Mobula mobular*);
 - (ii) lesser Guinean devil ray (*Mobula rochebrunei*);
 - (iii) spinetail mobula (*Mobula japonica*);
 - (iv) smoothtail mobula (*Mobula thurstoni*);
 - (v) longhorned mobula (*Mobula eregoodootenkee*);
 - (vi) Munk's devil ray (*Mobula munkiana*);
 - (vii) Chilean devil ray (*Mobula tarapacana*);
 - (viii) shortfin devil ray (*Mobula kuhlii*);
 - (ix) lesser devil ray (*Mobula hypostoma*);
 - l thornback ray (*Raja clavata*) in Union waters of ICES division IIIa;
 - m Norwegian skate (*Raja (Dipturus) nidarosiensis*) in Union waters of ICES divisions VIa, VIb, VIIa, VIIb, VIIc, VIId, VIIf, VIIg, VIIh and VIIk;
 - n undulate ray (*Raja undulata*) in Union waters of ICES subareas VI and X and white skate (*Raja alba*) in Union waters of ICES subareas VI, VII, VIII, IX and X;
 - o guitarfishes (*Rhinobatidae*) in Union waters of ICES subareas I, II, III, IV, V, VI, VII, VIII, IX, X and XII;
 - p angel shark (*Squatina squatina*) in Union waters.

2 When accidentally caught, species referred to in paragraph 1 shall not be harmed. Specimens shall be promptly released.

Article 13

Data transmission

When, pursuant to Articles 33 and 34 of Regulation (EC) No 1224/2009, Member States submit to the Commission data relating to landings of quantities of stocks caught, they shall use the stock codes set out in Annex I to this Regulation.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

CHAPTER II

Additional allocations for vessels participating in trials on fully documented fisheries

Article 14

Additional allocations

1 For certain stocks, a Member State may grant an additional allocation to vessels flying its flag and participating in trials on fully documented fisheries. Those stocks are identified in Annex I.

2 The additional allocation referred to in paragraph 1 shall not exceed the overall limit set out in Annex I as a percentage of the quota allocated to that Member State.

Article 15

Conditions for additional allocations

1 The additional allocation referred to in Article 14 shall comply with the following conditions:

- a Member States shall ensure detailed and accurate documentation of all fishing trips and adequate capacity and means, such as observers, closed-circuit television (CCTV) and others. In doing so, Member States shall respect the principle of efficiency and proportionality;
- b the additional allocation granted to an individual vessel that participates in trials on fully documented fisheries shall not exceed any of the following limits:
 - (i) 75 % of the discards of the stock, as estimated by the relevant Member State, produced by the type of vessel to which the individual vessel that has been granted the additional allocation belongs;
 - (ii) 30 % of the vessel's individual allocation prior to participating in the trials;
- c all catches by the vessel from the stock subject to the additional allocation, including fish that are under minimum landing size as defined in Annex XII of Council Regulation (EC) No 850/98⁽³⁴⁾, shall be counted against the individual allocation of the vessel, as resulting from any additional allocation granted under Article 14 of this Regulation;
- d once the individual allocation for any stock subject to the additional allocation has been fully utilised by a vessel, the vessel in question must cease all fishing activity in the relevant TAC area;
- e in respect of the stocks for which this Article may be used, Member States may allow transfers of the individual allocation or any part thereof from vessels not participating in trials on fully documented fisheries to vessels participating in those trials provided that it can be demonstrated that discards by the non-participating vessels do not increase.

2 Notwithstanding paragraph 1(b)(i), a Member State may exceptionally grant to a vessel flying its flag an additional allocation exceeding 75 % of the estimated discards of the stock produced by the type of vessel to which the individual vessel that has been granted the additional allocation belongs, provided that:

- a the rate of stock discards, as estimated for the relevant type of vessel, is less than 10 %;
- b the inclusion of that type of vessel is important to evaluate the potential of the monitoring means used in accordance with Article 15(1)(a);

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- c an overall limit of 75 % of the estimated stock discards produced by all vessels participating in the trials is not exceeded.

3 Prior to granting the additional allocation referred to in Article 14, a Member State shall submit the following information to the Commission:

- a the list of vessels flying its flag and participating in trials on fully documented fisheries;
- b the specifications of the remote electronic monitoring equipment installed on board those vessels;
- c the capacity, type and specification of gears used by those vessels;
- d the estimated discards for each type of vessel participating in the trials;
- e the amount of catches of the stock subject to the relevant TAC made in 2014 by the vessels participating in the trials.

Article 16

Processing of personal data

To the extent that the recordings obtained in accordance with Article 15(1)(a) of this Regulation involve the processing of personal data within the meaning of Directive 95/46/EC, that Directive shall apply to the processing of such data.

Article 17

Withdrawal of additional allocations

Where a Member State detects that a vessel participating in trials on fully documented fisheries fails to comply with the conditions set out in Article 15, it shall immediately withdraw the additional allocation granted to that vessel and exclude it from participation in those trials for the remainder of the year 2015.

Article 18

Scientific review of discard assessments

The Commission may request any Member State that avails itself of this Chapter to submit its assessment of the discards produced per type of vessel to a scientific advisory body for review, in order to monitor the implementation of the requirement set out in Article 15(1)(b)(i). In the absence of an assessment confirming such discards, the Member State concerned shall take any appropriate measure to ensure compliance with that requirement and shall inform the Commission thereof.

1^{F4} Article 18a

Flexibility in the fixing of fishing opportunities of certain stocks

1 This Article shall apply to the following stocks:

- a mackerel in zones IIIa and IV; Union waters of IIa, IIIb, IIIc and IIId;
- b mackerel in areas VI, VII, VIIIa, VIIIb, VIIIc and VIIIe; Union and international waters of Vb; international waters of IIa, XII and XIV;
- c mackerel in Norwegian waters of IIa and IVa;

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- d herring in Union, Norwegian and international waters of I and II;
- e herring in the North Sea north of 53° N;
- f herring in areas IVc and VIId;
- g herring in zones VIIa, VIIg, VIIh, VIIj and VIIk;
- h horse mackerel in Union waters of IIa, IVa, VI, VIIa-c, VIIe-k, VIIIa, VIIIb, VIIIc and VIIIe; in Union and international waters of Vb; in international waters of XII and XIV.

2 Any quantities up to 25 % of a Member State's initial quota of the stocks identified in points (d) to (h) of paragraph 1 that have not been used in 2015 shall be added for the purpose of calculating the quota of the Member State concerned for the relevant stock for 2016. That percentage shall be 17,5 % for stocks identified in points (a) to (c) of paragraph 1. Any quantities transferred to other Member States pursuant to Article 16(8) of Regulation (EU) No 1380/2013 and any quantities deducted pursuant to Articles 37, 105 and 107 of Regulation (EC) No 1224/2009 shall be taken into account for the purpose of establishing quantities used and quantities not used under this paragraph.

3 Where a Member State has used the option provided for in paragraph 2 of this Article in respect of a particular stock, no other flexibility as regards a carry-over of unused fishing opportunities shall apply in respect of that stock.]

Textual Amendments

- F4** Inserted by [Council Regulation \(EU\) 2015/2072 of 17 November 2015 fixing for 2016 the fishing opportunities for certain fish stocks and groups of fish stocks applicable in the Baltic Sea and amending Regulations \(EU\) No 1221/2014 and \(EU\) 2015/104.](#)

CHAPTER III

Fishing authorisations in third-country waters

Article 19

Fishing authorisations

1 The maximum number of fishing authorisations for Union vessels fishing in waters of a third country is set out in Annex III.

2 Where one Member State transfers quota to another Member State ('swap') in the fishing areas set out in Annex III of this Regulation on the basis of Article 16(8) of Regulation (EU) No 1380/2013, the transfer shall include an appropriate transfer of fishing authorisations and shall be notified to the Commission. However, the total number of fishing authorisations for each fishing area, as set out in that Annex, shall not be exceeded.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

CHAPTER IV

Fishing opportunities in waters of regional fisheries management organisations

Article 20

Quota transfers and exchanges

1 Where, under the rules of a regional fisheries management organisation ('RFMO'), quota transfers or exchanges between the Contracting Parties to the RFMO are permitted, a Member State ('the Member State concerned') may discuss with a Contracting Party to the RFMO and, as appropriate, establish a possible outline of an intended quota transfer or exchange.

2 Upon notification to the Commission by the Member State concerned, the Commission may endorse the outline of the intended quota transfer or exchange that the Member State has discussed with the relevant Contracting Party to the RFMO. Thereupon, the Commission shall exchange, without undue delay, the consent to be bound by such quota transfer or exchange with the relevant Contracting Party to the RFMO. The Commission shall then give notification of the agreed quota transfer or exchange to the secretariat of the RFMO in accordance with the rules of that organisation.

3 The Commission shall inform the Member States of the agreed quota transfer or exchange.

4 The fishing opportunities received from or transferred to the relevant Contracting Party to the RFMO under the quota transfer or exchange shall be deemed to be quotas allocated to, or deducted from, the allocation of the Member State concerned, as of the moment that the quota transfer or exchange takes effect in accordance with the terms of the agreement reached with the relevant Contracting Party to the RFMO or in accordance with the rules of the relevant RFMO, as appropriate. Such allocation shall not change the existing distribution key for the purpose of allocating fishing opportunities among Member States in accordance with the principle of relative stability of fishing activities.

Section 1

ICCAT Convention Area

Article 21

Fishing, farming and fattening capacity limitations for bluefin tuna

1 The number of Union bait boats and trolling boats authorised to fish actively for bluefin tuna between 8 kg/75 cm and 30 kg/115 cm in the Eastern Atlantic shall be limited as set out in point 1 of Annex IV.

2 The number of Union coastal artisanal fishing vessels authorised to fish actively for bluefin tuna between 8 kg/75 cm and 30 kg/115 cm in the Mediterranean shall be limited as set out in point 2 of Annex IV.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

3 The number of Union vessels fishing for bluefin tuna in the Adriatic Sea for farming purposes authorised to fish actively for bluefin tuna between 8 kg/75 cm and 30 kg/115 cm shall be limited as set out in point 3 of Annex IV.

4 The number and total capacity in gross tonnage of fishing vessels authorised to fish for, retain on board, tranship, transport, or land bluefin tuna in the eastern Atlantic and Mediterranean shall be limited as set out in point 4 of Annex IV.

5 The number of traps engaged in the eastern Atlantic and Mediterranean bluefin tuna fishery shall be limited as set out in point 5 of Annex IV.

6 The bluefin tuna farming capacity, the fattening capacity and the maximum input of wild caught bluefin tuna allocated to the farms in the eastern Atlantic and Mediterranean shall be limited as set out in point 6 of Annex IV.

Article 22

Recreational and sport fisheries

Where appropriate, Member States shall allocate a specific quota for recreational and sport fisheries from their quotas allocated in Annex ID.

Article 23

Sharks

1 Retaining on board, transshipping or landing any part or whole carcass of bigeye thresher sharks (*Alopias superciliosus*) in any fishery shall be prohibited.

2 It shall be prohibited to undertake a directed fishery for species of thresher sharks of the *Alopias* genus.

3 Retaining on board, transshipping or landing any part or whole carcass of hammerhead sharks of the *Sphyrnidae* family (except for the *Sphyrna tiburo*) in association with fisheries in the ICCAT Convention Area shall be prohibited.

4 Retaining on board, transshipping or landing any part or whole carcass of oceanic whitetip sharks (*Carcharhinus longimanus*) taken in any fishery shall be prohibited.

5 Retaining on board silky sharks (*Carcharhinus falciformis*) taken in any fishery shall be prohibited.

Section 2

CCAMLR Convention Area

Article 24

Prohibitions and catch limitations

1 Direct fishing of the species set out in Part A of Annex V, shall be prohibited in the zones and during the periods set out therein.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

2 For exploratory fisheries, the TACs and by-catch limits set out in Part B of Annex V, shall apply in the subareas set out therein.

Article 25

Exploratory fisheries

1 Only those Member States which are members of the CCAMLR Commission may participate in longline exploratory fisheries for *Dissostichus* spp. in FAO subareas 88.1 and 88.2 as well as in divisions 58.4.1, 58.4.2 and 58.4.3a outside areas of national jurisdiction in 2015. If such a Member State intends to participate in such fisheries, it shall notify the CCAMLR Secretariat in accordance with Articles 7 and 7a of Regulation (EC) No 601/2004 and in any case no later than 1 June 2015.

2 With regard to FAO subareas 88.1 and 88.2 as well as divisions 58.4.1, 58.4.2 and 58.4.3a TACs and by-catch limits per subarea and division, and their distribution among Small Scale Research Units (SSRUs) within each of them, shall be as set out in Part B of Annex V. Fishing in any SSRU shall cease when the reported catch reaches the specified TAC, and the SSRU shall be closed to fishing for the remainder of the season.

3 Fishing shall take place over as large a geographical and bathymetric range as possible to obtain the information necessary to determine fishery potential and to avoid over-concentration of catch and fishing effort. However, fishing in FAO subareas 88.1 and 88.2 as well as in divisions 58.4.1, 58.4.2 and 58.4.3a shall be prohibited in depths less than 550 m.

Article 26

Krill fishery during the 2015/2016 fishing season

1 Only those Member States which are members of the CCAMLR Commission may fish for krill (*Euphausia superba*) in the CCAMLR Convention Area during the 2015/2016 fishing season. If such a Member State intends to fish for krill in the CCAMLR Convention Area, it shall notify the Commission, no later than 1 May 2015 and using the format laid down in Part C of Annex V to this Regulation, of its intention to fish for krill. On the basis of the information provided by Member States, the Commission shall submit the notifications to the CCAMLR Secretariat no later than 30 May 2015.

2 The notification referred to in paragraph 1 of this Article shall include the information provided for in Article 3 of Regulation (EC) No 601/2004 for each vessel to be authorised by the Member State to participate in the krill fishery.

3 A Member State intending to fish for krill in the CCAMLR Convention Area shall only notify its intention to do so in respect of authorised vessels either flying its flag at the time of the notification or flying the flag of another CCAMLR member that are expected, at the time the fishery takes place, to be flying the flag of that Member State.

4 Member States shall be entitled to authorise participation in a krill fishery by vessels other than those notified to CCAMLR Secretariat in accordance with paragraphs 1, 2 and 3 of this Article, if an authorised vessel is prevented from participation due to legitimate operational reasons or *force majeure*. In such circumstances the Member States concerned shall immediately inform the CCAMLR Secretariat and the Commission, providing:

- a full details of the intended replacement vessel(s), including information provided for in Article 3 of Regulation (EC) No 601/2004;

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- b a comprehensive account of the reasons justifying the replacement and any relevant supporting evidence or references.

5 Member States shall not authorise a vessel on any CCAMLR illegal, unreported and unregulated (IUU) Vessel List to participate in krill fisheries.

Section 3

IOTC Convention Area

Article 27

Limitation of fishing capacity of vessels fishing in the IOTC Convention Area

1 The maximum number of Union vessels fishing for tropical tunas in the IOTC Convention Area and the corresponding capacity in gross tonnage shall be as set out in point 1 of Annex VI.

2 The maximum number of Union vessels fishing for swordfish (*Xiphias gladius*) and albacore (*Thunnus alalunga*) in the IOTC Convention Area and the corresponding capacity in gross tonnage shall be as set out in point 2 of Annex VI.

3 Member States may re-allocate vessels assigned to one of the two fisheries referred to in paragraphs 1 and 2 to the other fishery, provided that they can demonstrate to the Commission that this change does not lead to an increase of fishing effort on the fish stocks involved.

4 Member States shall ensure that, where there is a proposed transfer of capacity to their fleet, vessels to be transferred are on the IOTC Record of Vessels or on the record of vessels of other tuna regional fisheries organisations. Furthermore, no vessels featuring on the list of vessels engaged in IUU fishing activities (IUU vessels) of any RFMO may be transferred.

5 In order to take into account the implementation of the development plans submitted to the IOTC, Member States may only increase their fishing capacity beyond the ceilings referred to in paragraphs 1 and 2 within the limits set out in those plans.

Article 28

Sharks

1 Retaining on board, transshipping or landing any part or whole carcass of thresher sharks of all the species of the *Alopiidae* family in any fishery shall be prohibited.

2 Retaining on board, transshipping or landing any part or whole carcass of oceanic whitetip sharks (*Carcharhinus longimanus*) in any fishery shall be prohibited, except for vessels under 24 metres overall length engaged solely in fishing operations within the Exclusive Economic Zone (EEZ) of the Member State whose flag they fly, and provided that their catch is destined solely for local consumption.

3 When accidentally caught, species referred to in paragraph 1 and 2 shall not be harmed. Specimens shall be promptly released.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Section 4

SPRFMO Convention Area

Article 29

Pelagic fisheries — capacity limitation

Member States having actively exercised pelagic fisheries activities in the SPRFMO Convention Area in 2007, 2008 or 2009 shall limit the total level of gross tonnage of vessels flying their flag and fishing for pelagic stocks in 2015 to the total Union level of 78 600 gross tonnage in that area.

Article 30

Pelagic fisheries — TACs

1 Only Member States having actively exercised pelagic fisheries activities in the SPRFMO Convention Area in 2007, 2008 or 2009, as specified in Article 29, may fish for pelagic stocks in that area in accordance with the TACs set out in Annex IJ.

2 The fishing opportunities set out in Annex IJ may only be fished under the condition that Member States send the list of vessels actively fishing or engaged in transshipment in the SPRFMO Convention Area, records from vessel monitoring systems (VMS), monthly catch reports and, where available, port calls at the latest by the fifth day of the following month to the Commission, in order to communicate them to the SPRFMO Secretariat.

Article 31

Bottom fisheries

Member States with a track record in bottom fishing catch or effort in the SPRFMO Convention Area over the period from 1 January 2002 to 31 December 2006 shall limit their bottom fishing catch or effort in 2015 in the Convention Area to those parts of the Convention Area where bottom fishing has occurred in that period and to a level that does not exceed the annual average levels of catches or effort parameters over the period from 1 January 2002 to 31 December 2006.

Section 5

IATTC Convention Area

Article 32

Purse-seine fisheries

1 The fishing by purse-seine vessels for yellowfin tuna (*Thunnus albacares*), bigeye tuna (*Thunnus obesus*) and skipjack tuna (*Katsuwonus pelamis*) shall be prohibited:

- a from 29 July to 28 September 2015 or from 18 November 2015 to 18 January 2016 in the area defined by the following limits:

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- the Pacific coastlines of the Americas,
 - longitude 150° W,
 - latitude 40° N,
 - latitude 40° S;
- b from 29 September to 29 October 2015 in the area defined by the following limits:
- longitude 96° W,
 - longitude 110° W,
 - latitude 4° N,
 - latitude 3° S.
- 2 The Member States concerned shall notify the Commission of the selected period of closure referred to in paragraph 1 before 1 April 2015. All the purse-seine vessels of the Member States concerned shall stop purse-seine fishing in the areas defined in paragraph 1 during the selected period.
- 3 Purse-seine vessels fishing for tuna in the IATTC Convention Area shall retain on board and then land or tranship all yellowfin, bigeye and skipjack tuna caught.
- 4 Paragraph 3 shall not apply in the following cases:
- a where the fish is considered unfit for human consumption for reasons other than size; or
 - b during the final set of a trip when there may be insufficient well space remaining to accommodate all the tuna caught in that set.

Article 33

Prohibition of fishing for oceanic whitetip sharks

- 1 It shall be prohibited to fish for oceanic whitetip sharks (*Carcharhinus longimanus*) in the IATTC Convention Area, and to retain on board, to tranship, to store, to offer to sell, to sell or to land any part or whole carcass of oceanic whitetip sharks in that area.
- 2 When accidentally caught, the species referred to in paragraph 1 shall not be harmed. Specimens shall be promptly released by vessel operators, who shall also:
- a record the number of releases with indication of status (dead or alive);
 - b report the information specified in paragraph (a) to the Member State of which they are nationals. Member States shall transmit the information collected during the previous year to the Commission by 31 January 2015.

Section 6

SEAFO Convention Area

Article 34

Prohibition of fishing for deep water sharks

Directed fishing for the following deep water sharks in the SEAFO Convention Area shall be prohibited:

- skates (*Rajidae*),
- spiny dogfish (*Squalus acanthias*),

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- blurred smooth lanternshark (*Etmopterus bigelowi*),
- shorttail lanternshark (*Etmopterus brachyurus*),
- great lanternshark (*Etmopterus princeps*),
- smooth lanternshark (*Etmopterus pusillus*),
- ghost catshark (*Apristurus manis*),
- velvet dogfish (*Scymnodon squamulosus*),
- deep-sea sharks of the *Selachimorpha* super-order.

Section 7

WCPFC Convention Area

Article 35

Conditions for bigeye tuna, yellowfin tuna, skipjack tuna and south Pacific albacore fisheries

- 1 Member States shall ensure that the number of fishing days allocated to purse-seine vessels fishing for bigeye tuna (*Thunnus obesus*), yellowfin tuna (*Thunnus albacares*) and skipjack tuna (*Katsuwonus pelamis*) in the part of the WCPFC Convention Area in the high seas and located between 20° N and 20° S does not exceed 403 days. In these fisheries, it shall be prohibited to set a purse seine on a school of tuna associated with a whale shark (*Rhincodon typus*) if the animal is sighted prior to the commencement of the set.
- 2 Union vessels shall not target south Pacific albacore (*Thunnus alalunga*) in the WCPFC Convention Area south of 20° S.
- 3 Member States shall ensure that catches of bigeye tuna (*Thunnus obesus*) by longliners do not exceed 2,000 tonnes in 2015.

Article 36

Closed area for FAD fishing

- 1 In the part of the WCPFC Convention Area located between 20° N and 20° S, fishing activities of purse-seine vessels making use of fish aggregating devices (FADs) shall be prohibited between 00:00 hours of 1 July 2015 and 24:00 hours of 31 October 2015. During that period, a purse-seine vessel may only engage in fishing operations within that part of the WCPFC Convention Area if it carries onboard an observer to monitor that the vessel does not, at any time:
 - a deploy or service a FAD or associated electronic device;
 - b fish on schools in association with FADs.
- 2 All purse-seine vessels fishing in the part of the WCPFC Convention Area referred to in paragraph 1 shall retain onboard and land or tranship all bigeye, yellowfin and skipjack tuna caught.
- 3 Paragraph 2 shall not apply in the following cases:
 - a in the final set of a trip, if the vessel has insufficient well space left to accommodate all fish;

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- b where the fish is unfit for human consumption for reasons other than size; or
- c when a serious malfunction of freezer equipment occurs.

Article 37

Overlap area between IATTC and WCPFC

1 Vessels listed exclusively in the WCPFC register shall apply the measures set out in Articles 35 to 38 when fishing in the overlap area between IATTC and WCPFC as defined in Article 4(r).

2 Vessels listed in both the WCPFC register and the IATTC register and vessels listed exclusively in the IATTC register shall apply the measures set out in Article 32(1)(a) and (2) to (4) and Article 33 when fishing in the overlap area between IATTC and WCPFC as defined in Article 4(r).

Article 38

Limitations to the number of Union vessels authorised to fish swordfish

The maximum number of Union vessels authorised to fish for swordfish (*Xiphias gladius*) in areas south of 20° S of the WCPFC Convention Area shall be as indicated in Annex VII.

Article 39

Silky sharks and oceanic whitetip sharks

1 Retaining on board, transshipping, storing or landing any part or whole carcass of the following species in the WCPFC Convention Area shall be prohibited:

- a silky sharks (*Carcharhinus falciformis*),
- b oceanic whitetip sharks (*Carcharhinus longimanus*)

2 When accidentally caught, species referred to in paragraph 1 shall not be harmed. Specimens shall be promptly released.

Section 8

Bering Sea

Article 40

Prohibition on fishing in the high seas of the Bering Sea

Fishing for pollock (*Theragra chalcogramma*) in the high seas of the Bering Sea shall be prohibited.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

TITLE III

FISHING OPPORTUNITIES FOR THIRD-COUNTRY VESSELS IN UNION WATERS

Article 41

TACs

Fishing vessels flying the flag of Norway and fishing vessels registered in the Faroe Islands shall be authorised to make catches in Union waters within the TACs set out in Annex I to this Regulation and subject to the conditions provided for in this Regulation and Chapter III of Regulation (EC) No 1006/2008.

Article 42

Fishing authorisations

The maximum number of fishing authorisations for third-country vessels fishing in Union waters is laid down in Annex VIII.

Article 43

Conditions for landing catches and by-catches

The conditions specified in Article 7 shall apply to catches and by-catches of third-country vessels fishing under the authorisations specified in Article 42.

Article 44

Prohibitions

1 It shall be prohibited for third-country vessels to fish for, to retain on board, to tranship or to land the following species whenever they are found in Union waters:

- a starry ray (*Amblyraja radiata*) in Union waters of ICES divisions IIa, IIIa and VIId and ICES subarea IV;
- b the following species of sawfish in Union waters:
 - (i) narrow sawfish (*Anoxypristis cuspidate*);
 - (ii) dwarf sawfish (*Pristis clavata*);
 - (iii) smalltooth sawfish (*Pristis pectinata*);
 - (iv) largetooth sawfish (*Pristis pristis*);
 - (v) green sawfish (*Pristis zijsron*);
- c basking shark (*Cetorhinus maximus*) and white shark (*Carcharodon carcharias*) in Union waters;
- d common skate (*Dipturus batis*) complex (*Dipturus cf. flossada* and *Dipturus cf. intermedia*) in Union waters of ICES division IIa and ICES subareas III, IV, VI, VII, VIII, IX and X;

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- e tope shark (*Galeorhinus galeus*) when taken with longlines in Union waters of ICES division IIa and ICES subareas I, IV, V, VI, VII, VIII, XII and XIV;
 - f smooth lanternshark (*Etmopterus pusillus*) in Union waters of ICES division IIa and ICES subareas I, IV, V, VI, VII, VIII, XII and XIV;
 - g kitefin shark (*Dalatias licha*), birdbeak dogfish (*Deania calcea*), leafscale gulper shark (*Centrophorus squamosus*), great lanternshark (*Etmopterus princeps*) and Portuguese dogfish (*Centroscymnus coelolepis*) in Union waters of ICES division IIa and ICES subareas I, IV and XIV;
 - h porbeagle (*Lamna nasus*) in Union waters;
 - i reef manta ray (*Manta alfredi*) in Union waters;
 - j giant manta ray (*Manta birostris*) in Union waters;
 - k the following species of *Mobula* rays in Union waters:
 - (i) devil fish (*Mobula mobular*);
 - (ii) lesser Guinean devil ray (*Mobula rochebrunei*);
 - (iii) spinetail mobula (*Mobula japanica*);
 - (iv) smoohtail mobula (*Mobula thurstoni*);
 - (v) longhorned mobula (*Mobula eregoodootenkee*);
 - (vi) Munk's devil ray (*Mobula munkiana*);
 - (vii) Chilean devil ray (*Mobula tarapacana*);
 - (viii) shortfin devil ray (*Mobula kuhlii*);
 - (ix) lesser devil ray (*Mobula hypostoma*);
 - l thornback ray (*Raja clavata*) in Union waters of ICES division IIIa;
 - m Norwegian skate (*Raja (Dipturus) nidarosiensis*) in Union waters of ICES divisions VIa, VIb, VIIa, VIIb, VIIc, VIIE, VIIf, VIIg, VIIh and VIIk;
 - n undulate ray (*Raja undulata*) in Union waters of ICES subareas VI, IX and X and white skate (*Raja alba*) in Union waters of ICES subareas VI, VII, VIII, IX and X;
 - o guitarfishes (*Rhinobatidae*) in Union waters of ICES subareas I, II, III, IV, V, VI, VII, VIII, IX, X and XII;
 - p angel shark (*Squatina squatina*) in Union waters.
- 2 When accidentally caught, the species referred to in paragraph 1 shall not be harmed. Specimens shall be promptly released.

TITLE IV

FINAL PROVISIONS

Article 45

Committee procedure

- 1 The Commission shall be assisted by the Committee for Fisheries and Aquaculture established by Regulation (EU) No 1380/2013. That committee shall be a committee within the meaning of Regulation (EU) No 182/2011.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

2 Where reference is made to this paragraph, Article 5 of Regulation (EU) No 182/2011 shall apply.

Article 46

Amendment to Regulation (EU) No 43/2014

In paragraph 1 of Article 18a of Regulation (EU) No 43/2014 the following point is added:

- (o) Northern prawn in area IIIa.

Article 47

Repeal

Council Regulation (EU) No 779/2014 is repealed with effect from 1 January 2015.

Article 48

Entry into force

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 January 2015.

However, Article 8 shall apply from 1 February 2015.

Points (b), (i) and (k) of Article 12 and points (b), (i) and (k) of Article 44 shall apply from 8 February 2015.

Article 46 shall apply from 1 January 2014.

[^{XI}The provisions on fishing opportunities set out in Articles 24, 25 and 26 and] Annexes IE and V for the CCAMLR Convention Area shall apply from the dates specified therein.

Editorial Information

- XI** Substituted by [Corrigendum to Council Regulation \(EU\) 2015/104 of 19 January 2015 fixing for 2015 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in Union waters and, for Union vessels, in certain non-Union waters, amending Regulation \(EU\) No 43/2014 and repealing Regulation \(EU\) No 779/2014 \(Official Journal of the European Union L 22 of 28 January 2015\)](#).

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

ANNEX I

TACs APPLICABLE TO UNION VESSELS IN AREAS WHERE TACs EXIST BY SPECIES AND BY AREA

The tables in Annexes IA, IB, IC, ID, IE, IF, IG, IJ set out the TACs and quotas (in tonnes live weight, except where otherwise specified) by stock, and conditions functionally linked thereto, where appropriate.

All fishing opportunities set out in this Annex shall be subject to the rules set out in Regulation (EC) No 1224/2009, and in particular Articles 33 and 34 of that Regulation.

The references to fishing zones are references to ICES zones, unless otherwise specified. Within each area, fish stocks are referred to following the alphabetical order of the Latin names of the species. Only Latin names identify species for regulatory purposes; vernacular names are provided for ease of reference.

For the purposes of this Regulation, the following comparative table of Latin names and common names is provided:

Scientific name	Alpha-3 code	Common name
<i>Amblyraja radiata</i>	RJR	Starry ray
<i>Ammodytes</i> spp.	SAN	Sandeels
<i>Argentina silus</i>	ARU	Greater silver smelt
<i>Beryx</i> spp.	ALF	Alfonsinos
<i>Brosme brosme</i>	USK	Tusk
<i>Caproidae</i>	BOR	Boarfish
<i>Centrophorus squamosus</i>	GUQ	Leafscale gulper shark
<i>Centroscymnus coelolepis</i>	CYO	Portuguese dogfish
<i>Chaceon</i> spp.	GER	Deep sea red crab
<i>Chaenocephalus aceratus</i>	SSI	Blackfin icefish
<i>Champscephalus gunnari</i>	ANI	Mackerel icefish
<i>Channichthys rhinoceratus</i>	LIC	Unicorn icefish
<i>Chionoecetes</i> spp.	PCR	Snow crab
<i>Clupea harengus</i>	HER	Herring
<i>Coryphaenoides rupestris</i>	RNG	Roundnose grenadier
<i>Dalatias licha</i>	SCK	Kitefin shark
<i>Deania calcea</i>	DCA	Birdbeak dogfish
<i>[^{F2}Dicentrarchus labrax</i>	BSS	Sea bass]
<i>Dipturus batis</i> (<i>Dipturus</i> cf. <i>flossada</i> and <i>Dipturus</i> cf. <i>intermedia</i>)	RJB	Common skate complex
<i>Dissostichus eleginoides</i>	TOP	Patagonian toothfish

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

<i>Dissostichus mawsoni</i>	TOA	Antarctic toothfish
<i>Dissostichus</i> spp.	TOT	Toothfish
<i>Engraulis encrasicolus</i>	ANE	Anchovy
<i>Etmopterus princeps</i>	ETR	Great lanternshark
<i>Etmopterus pusillus</i>	ETP	Smooth lanternshark
<i>Euphausia superba</i>	KRI	Krill
<i>Gadus morhua</i>	COD	Cod
<i>Galeorhinus galeus</i>	GAG	Tope shark
<i>Glyptocephalus cynoglossus</i>	WIT	Witch flounder
<i>Gobionotothen gibberifrons</i>	NOG	Humped rockcod
<i>Hippoglossoides platessoides</i>	PLA	American plaice
<i>Hippoglossus hippoglossus</i>	HAL	Atlantic halibut
<i>Hoplostethus atlanticus</i>	ORY	Orange roughy
<i>Illex illecebrosus</i>	SQI	Shortfin squid
<i>Lamna nasus</i>	POR	Porbeagle
<i>Lepidonotothen squamifrons</i>	NOS	Grey rockcod
<i>Lepidorhombus</i> spp.	LEZ	Megrims
<i>Leucoraja naevus</i>	RJN	Cuckoo ray
<i>Limanda ferruginea</i>	YEL	Yellowtail flounder
<i>Limanda limanda</i>	DAB	Common dab
<i>Lophiidae</i>	ANF	Anglerfish
<i>Macrourus</i> spp.	GRV	Grenadiers
<i>Makaira nigricans</i>	BUM	Blue marlin
<i>Mallotus villosus</i>	CAP	Capelin
<i>Manta birostris</i>	RMB	Giant manta ray
<i>Martialia hyadesi</i>	SQS	Squid
<i>Melanogrammus aeglefinus</i>	HAD	Haddock
<i>Merlangius merlangus</i>	WHG	Whiting
<i>Merluccius merluccius</i>	HKE	Hake
<i>Micromesistius poutassou</i>	WHB	Blue whiting
<i>Microstomus kitt</i>	LEM	Lemon sole
<i>Molva dypterygia</i>	BLI	Blue ling
<i>Molva molva</i>	LIN	Ling
<i>Nephrops norvegicus</i>	NEP	Norway lobster

Status: Point in time view as at 31/01/2020.**Changes to legislation:** There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

<i>Notothenia rossii</i>	NOR	Marbled rockcod
<i>Pandalus borealis</i>	PRA	Northern prawn
<i>Paralomis</i> spp.	PAI	Crabs
<i>Penaeus</i> spp.	PEN	'Penaeus' shrimps
<i>Platichthys flesus</i>	FLE	European flounder
<i>Pleuronectes platessa</i>	PLE	Plaice
<i>Pleuronectiformes</i>	FLX	Flatfish
<i>Pollachius pollachius</i>	POL	Pollack
<i>Pollachius virens</i>	POK	Saithe
<i>Psetta maxima</i>	TUR	Turbot
<i>Pseudochaenichthys georgianus</i>	SGI	South Georgia icefish
<i>Pseudopentaceros</i> spp.	EDW	Pelagic armourhead
<i>Raja alba</i>	RJA	White skate
<i>Raja brachyura</i>	RJH	Blonde ray
<i>Raja circularis</i>	RJI	Sandy ray
<i>Raja clavata</i>	RJC	Thornback ray
<i>Raja fullonica</i>	RJF	Shagreen ray
<i>Raja (Dipturus) nidarosiensis</i>	JAD	Norwegian skate
<i>Raja microocellata</i>	RJE	Small-eyed ray
<i>Raja montagui</i>	RJM	Spotted ray
<i>Raja undulata</i>	RJU	Undulate ray
<i>Rajiformes</i>	SRX	Skates and rays
<i>Reinhardtius hippoglossoides</i>	GHL	Greenland halibut
<i>Scomber scombrus</i>	MAC	Mackerel
<i>Scophthalmus rhombus</i>	BLL	Brill
<i>Sebastes</i> spp.	RED	Redfish
<i>Solea solea</i>	SOL	Common sole
<i>Solea</i> spp.	SOO	Sole
<i>Sprattus sprattus</i>	SPR	Sprat
<i>Squalus acanthias</i>	DGS	Spurdog/dogfish
<i>Tetrapturus albidus</i>	WHM	White marlin
<i>Thunnus maccoyii</i>	SBF	Southern bluefin tuna
<i>Thunnus obesus</i>	BET	Bigeye tuna

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

<i>Thunnus thynnus</i>	BFT	Bluefin tuna
<i>Trachurus murphyi</i>	CJM	Jack mackerel
<i>Trachurus</i> spp.	JAX	Horse mackerel
<i>Trisopterus esmarkii</i>	NOP	Norway pout
<i>Urophycis tenuis</i>	HKW	White hake
<i>Xiphias gladius</i>	SWO	Swordfish

The following comparative table of common names and Latin names is provided exclusively for explanatory purposes:

Alfonsinos	ALF	<i>Beryx</i> spp.
American plaice	PLA	<i>Hippoglossoides platessoides</i>
Anchovy	ANE	<i>Engraulis encrasicolus</i>
Anglerfish	ANF	<i>Lophiidae</i>
Antarctic toothfish	TOA	<i>Dissostichus mawsoni</i>
Atlantic halibut	HAL	<i>Hippoglossus hippoglossus</i>
Bigeye tuna	BET	<i>Thunnus obesus</i>
Birdbeak dogfish	DCA	<i>Deania calcea</i>
Blackfin icefish	SSI	<i>Chaenocephalus aceratus</i>
Blonde ray	RJH	<i>Raja brachyura</i>
Blue ling	BLI	<i>Molva dypterygia</i>
Blue marlin	BUM	<i>Makaira nigricans</i>
Blue whiting	WHB	<i>Micromesistius poutassou</i>
Bluefin tuna	BFT	<i>Thunnus thynnus</i>
Boarfish	BOR	<i>Caproidae</i>
Brill	BLL	<i>Scophthalmus rhombus</i>
Capelin	CAP	<i>Mallotus villosus</i>
Cod	COD	<i>Gadus morhua</i>
Common dab	DAB	<i>Limanda limanda</i>
Common skate complex	RJB	<i>Dipturus batis</i> (<i>Dipturus</i> cf. <i>flossada</i> and <i>Dipturus</i> cf. <i>intermedia</i>)
Common sole	SOL	<i>Solea solea</i>

ANNEX ID

HIGHLY MIGRATORY FISH — ALL AREAS

TACs in these areas are adopted in the framework of international fisheries organisations on tuna fisheries, such as ICCAT.

Species:	Bluefin tuna <i>Thunnus thynnus</i>	Zone:	Atlantic Ocean, east of 45° W, and Mediterranean(BFT/AE45WM)
Cyprus	81,99 ^d		
Greece	152,39		
Spain	2 956,92 ^{bd}		
France	2 917,71 ^{bcd}		
Croatia	461,16 ^f		
Italy	2 302,8 ^{de}		
Malta	188,93 ^d		
Portugal	278,05		
Other Member States	32,97 ^a		
Union	9 372,92 ^{bcde}		
TAC	15 821		Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply

a Except Cyprus, Greece, Spain, France, Croatia, Italy, Malta and Portugal, and exclusively as by-catch.

b Special condition: within this TAC, the following catch limits and allocation between Member States shall apply to catches of bluefin tuna between 8 kg/75 cm and 30 kg/115 cm by the vessels referred to in point 1 of Annex IV (BFT/*8301):

Spain	452,12
France	203,99
Union	656,10

c Special condition: within this TAC, the following catch limits and allocation between Member States shall apply to catches of bluefin tuna weighing no less than 6,4 kg or measuring no less than 70 cm by the vessels referred to in point 1 of Annex IV (BFT/*641):

France	100,00
Union	100,00

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- d** Special condition: within this TAC, the following catch limits and allocations between Member States shall apply to catches of bluefin tuna between and 8 kg/75 cm and 30 kg/115 cm by the vessels referred to in point 2 of Annex IV (BFT/*8302):

Spain	59,14
France	58,35
Italy	46,06
Cyprus	3,78
Malta	5,56
Union	172,89

- e** Special condition: within this TAC, the following catch limits and allocations between Member States shall apply to catches of bluefin tuna between and 8 kg/75 cm and 30 kg/115 cm by the vessels referred to in point 3 of Annex IV (BFT/*643):

Italy	46,06
Union	46,06

- f** Special Condition: within this TAC, the following catch limits and allocations between Member States shall apply to catches of bluefin tuna between 8 kg/75 cm and 30 kg/115 cm by the vessels referred to in point 3 of Annex IV for farming purposes (BFT/*8303F):

Croatia	415,04
Union	415,04

Species:	Swordfish <i>Xiphias gladius</i>	Zone:	Atlantic Ocean, North of 5° N (SWO/AN05N)
Spain	7 167,47 ^b		
Portugal	1 035,24 ^b		
Other Member States	144,80 ^{ab}		
Union	8 347,5		
TAC	13 700		Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply

- a** Except Spain and Portugal, and exclusively as by-catch.

- b** Special condition: up to 2,39 % of this amount may be fished in the Atlantic Ocean, South of 5° N (SWO/*AS05N).

Species:	Swordfish <i>Xiphias gladius</i>	Zone:	Atlantic Ocean, South
----------	----------------------------------	-------	-----------------------

- a** Special condition: up to 3,51 % of this amount may be fished in the Atlantic Ocean, North of 5° N (SWO/*AN05N).

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

			of 5° N(SWO/ AS05N)

ANNEX IE

ANTARCTIC CAMLR CONVENTION AREA

These TACs, adopted by CCAMLR, are not allocated to the members of CCAMLR and hence the Union's share is undetermined. Catches are monitored by the Secretariat of CCAMLR, which will communicate when fishing shall cease due to TAC exhaustion.

Unless specified otherwise, these TACs are applicable for the period from 1 December 2014 to 30 November 2015.

Species:	Mackerel icefish <i>Chamsocephalus gunnari</i>	Zone:	FAO 48.3 Antarctic(ANI/ F483.)
TAC	2 659		Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply

Species:	Mackerel icefish <i>Chamsocephalus gunnari</i>	Zone:	FAO 58.5.2 Antarctic^a(ANI/ F5852.)
TAC	309		Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply

- a** For the purpose of this TAC, the area open to the fishery is specified as that portion of FAO statistical division 58.5.2 that lies within the area enclosed by a line:
- starting at the point where the meridian of longitude 72° 15' E intersects the Australia-France Maritime Delimitation Agreement Boundary then south along the meridian to its intersection with the parallel of latitude 53° 25' S,
 - then east along that parallel to its intersection with the meridian of longitude 74° E,
 - then northeasterly along the geodesic to the intersection of the parallel of latitude 52° 40' S and the meridian of longitude 76° E,
 - then north along the meridian to its intersection with the parallel of latitude 52° S,
 - then northwesterly along the geodesic to the intersection of the parallel of latitude 51° S with the meridian of longitude 74° 30' E, and
 - then southwesterly along the geodesic to the point of commencement.

Species:	Blackfin icefish <i>Chaenocephalus aceratus</i>	Zone:	FAO 48.3 Antarctic(SSII/ F483.)
TAC	2 200 ^a		Analytical TAC

- a** Exclusively for by-catches. No directed fisheries are permitted under this TAC.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

			Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply
--	--	--	--

a Exclusively for by-catches. No directed fisheries are permitted under this TAC.

Species:	Unicorn icefish <i>Channichthys rhinoceratus</i>	Zone:	FAO 58.5.2 Antarctic(LIC/F5852.)
TAC	150 ^a		Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply

a Exclusively for by-catches. No directed fisheries are permitted under this TAC.

Species:	Patagonian toothfish <i>Dissostichus eleginoides</i>	Zone:	FAO 48.3 Antarctic(TOP/F483.)
TAC	2 400 ^a		Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply

a This TAC is applicable for longline fishery for the period from 16 April to 31 August 2015 and for pot fishery for the period from 1 December 2015 to 30 November 2016.

Special condition:

Within the limits of the abovementioned quota, no more than the quantities given below may be taken in the Subareas specified:

Management Area A: 48° W to 43° 30' W – 52° 30' S to 56° S (TOP/*F483A):	0
Management Area B: 43° 30' W to 40° W – 52° 30' S to 56° S (TOP/*F483B):	720
Management Area C: 40° W to 33° 30' W – 52° 30' S to 56° S (TOP/*F483C):	1 680

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

ANNEX IIA

FISHING EFFORT FOR VESSELS IN THE CONTEXT OF THE MANAGEMENT OF CERTAIN COD, PLAICE AND SOLE STOCKS IN ICES DIVISIONS IIIa, VIa, VIIa, VIIId, ICES SUBAREA IV AND UNION WATERS OF ICES DIVISIONS IIa AND Vb

1. **Scope**

- 1.1. This Annex shall apply to Union vessels carrying on board or deploying any of the gears referred to in point 1 of Annex I to Regulation (EC) No 1342/2008 and present in any of the geographical areas specified in point 2 of this Annex.
- 1.2. This Annex shall not apply to vessels of less than 10 metres' length overall. Those vessels shall not be required to carry fishing authorisations issued in accordance with Article 7 of Regulation (EC) No 1224/2009. Member States concerned shall assess the fishing effort of those vessels by effort groups to which they belong, using appropriate sampling methods. During the management period specified in Article 8 of this Regulation the Commission shall seek scientific advice for evaluating the effort deployment of those vessels, with a view to their future inclusion into the effort regime.

2. **Regulated gears and geographical areas**

For the purposes of this Annex, the gear groupings referred to in point 1 of Annex I to Regulation (EC) No 1342/2008 ('regulated gear') and the groupings of geographical areas referred to in point 2 of that Annex shall apply.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

3. Authorisations

If a Member State deems it appropriate in order to reinforce the sustainable implementation of this effort regime, it may introduce a prohibition to fish with regulated gear in any of the geographical areas to which this Annex applies by any of vessels flying its flag which has no record of such fishing activity, unless it ensures that equivalent capacity, measured in kilowatts, is prevented from fishing in that area.

4. Maximum allowable fishing effort

4.1. The maximum allowable effort referred to in Article 12(1) of Regulation (EC) No 1342/2008 and in Article 9(2) of Regulation (EC) No 676/2007 for the management period specified in Article 8 of this Regulation, for each of the effort groups of each Member State is set out in Appendix 1 to this Annex.

4.2. The maximum levels of annual fishing effort set in accordance with Council Regulation (EC) No 1954/2003⁽³⁵⁾ shall not affect the maximum allowable fishing effort set in this Annex.

5. Management

5.1. Member States shall manage the maximum allowable effort in accordance with the conditions laid down in Article 9 of Regulation (EC) No 676/2007, Article 4 and Articles 13 to 17 of Regulation (EC) No 1342/2008 and Articles 26 to 35 of Regulation (EC) No 1224/2009.

5.2. A Member State may establish management periods for allocating all or parts of the maximum allowable effort to individual vessels or groups of vessels. In such case, the number of days or hours for which a vessel may be present within the area during a management period shall be fixed at the discretion of the Member State concerned. During any such management periods, the Member State concerned may reallocate effort between individual vessels or groups of vessels.

5.3. If a Member State authorises vessels flying its flag to be present within an area by hours, it shall continue measuring the consumption of days in accordance with the conditions referred to in point 5.1. Upon request by the Commission, the Member State concerned shall demonstrate its precautionary measures taken to avoid an excessive consumption of effort within the area due to a vessel terminating presences in the area before the end of a 24-hour period.

6. Fishing effort report

Article 28 of Regulation (EC) No 1224/2009 shall apply to vessels falling under the scope of this Annex. The geographical area referred to in that Article shall be understood, for the purpose of cod management, as each of the geographical areas referred to in point 2 of this Annex.

7. Communication of relevant data

Member States shall transmit to the Commission the data on fishing effort deployed by their fishing vessels in accordance with Articles 33 and 34 of Regulation (EC) No 1224/2009. These data shall be transmitted via the Fisheries Data Exchange System or any future data collection system implemented by the Commission.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

ANNEX IIB

FISHING EFFORT FOR VESSELS IN THE CONTEXT OF THE RECOVERY OF CERTAIN SOUTHERN HAKE AND NORWAY LOBSTER STOCKS IN ICES DIVISIONS VIIIc AND IXa EXCLUDING THE GULF OF CÁDIZ

CHAPTER I

General provisions

1. Scope

This Annex shall apply to Union vessels of 10 metres' length overall or more carrying on board or deploying trawls, Danish seines or similar gears of mesh size equal to or larger than 32 mm and gill-nets of mesh size equal to or larger than 60 mm or bottom longlines in accordance with Regulation (EC) No 2166/2005, and present in ICES divisions VIIIc and IXa excluding the Gulf of Cádiz.

2. Definitions

For the purposes of this Annex:

(a) 'gear grouping' means the grouping consisting of the following two gear categories:

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (i) trawls, Danish seines or similar gears of mesh size equal to or larger than 32 mm and
- (ii) gill-nets of mesh size equal to or larger than 60 mm and bottom longlines;
- (b) ‘regulated gear’ means any of the two gear categories belonging to the gear grouping;
- (c) ‘area’ means ICES divisions VIIIc and IXa excluding the Gulf of Cádiz;
- (d) ‘current management period’ means the period specified in Article 8;
- (e) ‘special conditions’ means the special conditions set out in point 6.1.

3. **Limitation in activity**

Without prejudice to Article 29 of Regulation (EC) No 1224/2009, each Member State shall ensure that, when carrying on board any regulated gear, Union vessels flying its flag shall be present within the area for no more than the number of days specified in Chapter III of this Annex.

CHAPTER II

Authorisations

4. **Authorised vessels**

- 4.1. A Member State shall not authorise fishing with regulated gear in the area by any vessel flying its flag which has no record of such fishing activity in the area in the period from 2002 to 2014, excluding the record of fishing activities as a result of transfer of days between fishing vessels, unless it ensures that equivalent capacity, measured in kilowatts, is prevented from fishing in the area.
- 4.2. A vessel flying the flag of a Member State having no quotas in the area shall not be authorised to fish in the area with regulated gear, unless the vessel is allocated a quota after a transfer as permitted in accordance with Article 16(8) of Regulation (EU) No 1380/2013 and is allocated days at sea in accordance with point 11 or 12 of this Annex.

CHAPTER III

Number of days present within the area allocated to Union vessels

5. **Maximum number of days**

- 5.1. During the current management period, the maximum number of days at sea for which a Member State may authorise a vessel flying its flag to be present within the area having carried on board any regulated gear is shown in Table I.
- 5.2. If a vessel is able to demonstrate that its hake catches represent less than 8 % of the total live weight of fish caught in a given fishing trip, the flag Member State of the vessel shall be allowed not to count the days at sea associated with that fishing trip against the applicable maximum number of days at sea as set out in Table I.

6. **Special conditions for the allocation of days**

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- 6.1. For the purposes of fixing the maximum number of days at sea that a Union vessel may be authorised by its flag Member State to be present within the area, the following special conditions shall apply in accordance with Table I:
- (a) the total landings of hake in the two calendar years 2012 or 2013 made by the vessel concerned shall represent less than 5 tonnes according to the landings in live weight; and
- (b) the total landings of Norway lobster in the years specified in point (a) above made by the vessel concerned shall represent less than 2,5 tonnes according to the landings in live weight.
- 6.2. If a vessel benefits from an unlimited number of days as a result of its compliance with the special conditions, the vessel's landings in the current management period shall not exceed 5 tonnes of the total landings in live weight of hake and 2,5 tonnes of the total landings in live weight of Norway lobster.
- 6.3. When either of the special conditions is not met by a vessel, that vessel shall, with immediate effect, no longer be entitled to the allocation of days corresponding to the given special condition.
- 6.4. The application of the special conditions referred to in point 6.1. may be transferred from one vessel to one or more other vessels which replace that vessel in the fleet, provided that the replacing vessel uses similar gear and does not have in any year of its operation a record of landings of hake and Norway lobster higher than the quantities specified in point 6.1.

Table I

Maximum number of days a vessel may be present within the area by fishing gear per year

Special condition	Regulated gear	Maximum number of days	
	Bottom trawls, Danish seines and similar trawls of mesh size ≥ 32 mm, gill-nets of mesh size ≥ 60 mm and bottom longlines	ES	114
		FR	109
		PT	113
6.1.(a) and 6.1.(b)	Bottom trawls, Danish seines and similar trawls of mesh size ≥ 32 mm, gill-nets of mesh size ≥ 60 mm and bottom longlines	Unlimited	

7. Kilowatt day system

- 7.1. A Member State may manage its fishing effort allocations in accordance with a kilowatt days system. Through that system it may authorise any vessel concerned by any regulated gear and special conditions as set out in Table I to be present within the

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

area for a maximum number of days which is different from that set out in that Table, provided that the overall amount of kilowatt days corresponding to the regulated gear and to the special conditions is respected.

- 7.2. This overall amount of kilowatt days shall be the sum of all individual fishing efforts allocated to the vessels flying the flag of that Member State and qualified for the regulated gear and, where applicable, the special conditions. Such individual fishing efforts shall be calculated in kilowatt days by multiplying the engine power of each vessel by the number of days at sea it would benefit from, according to Table I, if point 7.1. were not applied. For as long as the number of days is unlimited according to Table I, the relevant number of days the vessel would benefit from is 360.
- 7.3. A Member State wishing to benefit from the system referred to in point 7.1. shall submit a request to the Commission, for the regulated gear and special conditions as laid down in Table I, with reports in electronic format containing the details of the calculation based on:
- (a) the list of vessels authorised to fish by indicating their Union fishing fleet register number (CFR) and their engine power;
 - (b) the track record of the years specified in point 6.1.(a) for such vessels reflecting the catch composition defined in the special condition referred to in point 6.1.(a) or (b), if these vessels are qualified for such special conditions;
 - (c) the number of days at sea for which each vessel would have initially been authorised to fish according to Table I and the number of days at sea which each vessel would benefit from in application of point 7.1.
- 7.4. On the basis of that request, the Commission shall assess whether the conditions referred to in point 7 are complied with and, where applicable, may authorise that Member State to benefit from the system referred to in point 7.1.
8. **Allocation of additional days for permanent cessation of fishing activities**
- 8.1. An additional number of days at sea on which a vessel may be authorised by its flag Member State to be present within the area when carrying on board any regulated gear may be allocated to a Member State by the Commission on the basis of permanent cessations of fishing activities that have taken place during the preceding management period, either in accordance with Article 23 of Council Regulation (EC) No 1198/2006⁽³⁶⁾ or Council Regulation (EC) No 744/2008⁽³⁷⁾. Permanent cessations resulting from any other circumstances may be considered by the Commission on a case-by-case basis, following a written and duly motivated request from the Member State concerned. Such written request shall identify the vessels concerned and confirm, for each of them, that they shall never return to fishing activities.
- 8.2. The effort expended in 2003 measured in kilowatt days of the withdrawn vessels using the regulated gear shall be divided by the effort expended by all vessels using that gear during 2003. The additional number of days at sea shall be then calculated by multiplying the ratio so obtained by the number of days that would have been allocated according to Table I. Any part of a day resulting from that calculation shall be rounded to the nearest whole day.
- 8.3. Points 8.1. and 8.2. shall not apply where a vessel has been replaced in accordance with point 3 or 6.4., or when the withdrawal has already been used in previous years to obtain additional days at sea.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- 8.4. A Member State wishing to benefit from the allocations referred to in point 8.1. shall submit a request to the Commission, by 15 June of the current management period, with reports in electronic format containing, for the gear grouping and special conditions as laid down in Table I, the details of the calculation based on:
- (a) lists of withdrawn vessels with their Union fishing fleet register number (CFR) and their engine power;
 - (b) the fishing activity deployed by such vessels in 2003 calculated in days at sea according to the grouping of fishing gears and, if necessary, special conditions.
- 8.5. On the basis of such a request by a Member State the Commission may, by means of implementing acts, allocate that Member State a number of days additional to that referred to in point 5.1. for that Member State. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 45(2).
- 8.6. During the current management period, a Member State may re-allocate those additional days at sea to all or part of the vessels remaining in fleet and qualified for the regulated gears. Additional days stemming from a withdrawn vessel that benefited from a special condition referred to in point 6.1.(a) or (b) may not be allocated to a vessel remaining active that does not benefit from a special condition.
- 8.7. When the Commission allocates additional days at sea due to a permanent cessation of fishing activities during the preceding management period, the maximum number of days per Member State and gear shown in Table I shall be adjusted accordingly for the current management period.
9. **Allocation of additional days for enhanced scientific observer coverage**
- 9.1. Three additional days on which a vessel may be present within the area when carrying on board any regulated gear may be allocated to a Member State by the Commission on the basis of an enhanced programme of scientific observer coverage in partnership between scientists and the fishing industry. Such a programme shall focus in particular on levels of discarding and on catch composition and shall go beyond the requirements on data collection, as laid down in Regulation (EC) No 199/2008⁽³⁸⁾ and its implementing rules for national programmes.
- 9.2. Scientific observers shall be independent from the owner, the master of the vessel and any crew member.
- 9.3. A Member State wishing to benefit from the allocations referred to in point 9.1. shall submit a description of its enhanced scientific observer coverage programme to the Commission for approval.
- 9.4. On the basis of that description, and after consultation with STECF, the Commission may, by means of implementing acts, allocate the Member State concerned a number of days additional to that referred to in point 5.1. for that Member State and for the vessels, the area and gear concerned by the enhanced programme of scientific observers. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 45(2).
- 9.5. If an enhanced scientific observer coverage programme submitted by a Member State has been approved by the Commission in the past and the Member State concerned wishes to continue its application without changes, it shall inform the Commission of the continuation of that programme four weeks before the beginning of the period for which the programme applies.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

CHAPTER IV

Management

10. General obligation

Member States shall manage the maximum allowable effort in accordance with the conditions laid down in Article 8 of Regulation (EC) No 2166/2005 and Articles 26 to 35 of Regulation (EC) No 1224/2009.

11. Management periods

- 11.1. A Member State may divide the days present within the area set out in Table I into management periods of durations of one or more calendar months.
- 11.2. The number of days or hours for which a vessel may be present within the area during a management period shall be fixed by the Member State concerned.
- 11.3. Where a Member State authorises vessels flying its flag to be present within the area by hours, the Member State shall continue measuring the consumption of days as specified in point 10. Upon request by the Commission, the Member State shall demonstrate its precautionary measures taken to avoid an excessive consumption of days within the area due to a vessel terminating presences in the area before the end of a 24-hour period.

CHAPTER V

Exchanges of fishing effort allocations

12. Transfer of days between fishing vessels flying the flag of a member state

- 12.1. A Member State may permit any fishing vessel flying its flag to transfer days present within the area for which it has been authorised to another vessel flying its flag within the area, provided that the product of the days received by a vessel multiplied by its engine power in kilowatts (kilowatt days) is equal to or less than the product of the days transferred by the donor vessel and the engine power in kilowatts of that vessel. The engine power in kilowatts of the vessels shall be that recorded for each vessel in the Union fishing fleet register.
- 12.2. The total number of days present within the area transferred in accordance with point 12.1., multiplied by the engine power in kilowatts of the donor vessel, shall not be higher than the donor vessel's average annual days track record in the area as verified by the fishing logbook in the years specified in point 6.1.(a) multiplied by the engine power in kilowatts of that vessel.
- 12.3. The transfer of days as described in point 12.1. shall be permitted between vessels operating with any regulated gear and during the same management period.
- 12.4. The transfer of days is only permitted for vessels benefiting from an allocation of fishing days without special conditions.
- 12.5. On request from the Commission, Member States shall provide information on the transfers that have taken place. The format of spreadsheets for the collection and transmission of information referred to in this point may be established by the Commission, by means of implementing acts. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 45(2).

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

13. **Transfer of days between fishing vessels flying the flag of different member states**

Member States may permit the transfer of days present within the area for the same management period and within the area between any fishing vessels flying their flags provided that points 4.1. and 4.2. and 12 apply *mutatis mutandis*. Where Member States decide to authorise such a transfer, they shall notify the Commission, before the transfer takes place, of the details of the transfer, including the number of days to be transferred, the fishing effort and, where applicable, the fishing quotas relating thereto.

CHAPTER VI

Reporting obligations

14. **Fishing effort report**

Article 28 of Regulation (EC) No 1224/2009 shall apply to vessels falling under the scope of this Annex. The geographical area referred to in that Article shall be understood as the area specified in point 2 of this Annex.

15. **Collection of relevant data**

Member States shall collect on a quarterly basis the information about total fishing effort deployed within the area for towed gears and static gears, effort deployed by vessels using different types of gear in the area, and the engine power of those vessels in kilowatt days, on the basis of information used for the management of fishing days present within the area as set out in this Annex.

16. **Communication of relevant data**

Upon request from the Commission, Member States shall make available to the Commission a spreadsheet with data specified in point 15 in the format specified in Tables II and III by sending it to the appropriate electronic mailbox address, which shall be communicated to the Member States by the Commission. Member States shall, upon the Commission's request, send detailed information to the Commission on effort allocated and consumed covering all or parts of the current and the precedent management periods, using the data format specified in Tables IV and V.

ANNEX IIC

FISHING EFFORT FOR VESSELS IN THE CONTEXT OF THE MANAGEMENT OF WESTERN CHANNEL SOLE STOCKS IN ICES DIVISION VIIe

CHAPTER I

General provisions

1. Scope

- 1.1. This Annex shall apply to Union vessels of 10 metres length overall or more carrying on board or deploying beam trawls of mesh size equal to or greater than 80 mm and static nets including gill-nets, trammel-nets and tangle-nets with mesh size equal to or less than 220 mm in accordance with Regulation (EC) No 509/2007, and present in ICES division VIIe.
- 1.2. Vessels fishing with static nets with mesh size equal to or larger than 120 mm and with track records of less than 300 kg live weight of sole per year during the three previous years, according to their fishing records, shall be exempt from the application of this Annex subject to the following conditions:
 - (a) such vessels caught less than 300 kg live weight of sole during the 2014 management period;
 - (b) such vessels do not tranship any fish at sea to another vessel;

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (c) by 31 July 2015 and 31 January 2016 each Member State concerned makes a report to the Commission on these vessels' catch records for sole in the three previous years as well as on catches of sole in 2015.

Where any of these conditions is not met, the vessels concerned shall cease to be exempt from the application of this Annex, with immediate effect.

2. Definitions

For the purposes of this Annex the following definitions shall apply:

- (a) 'gear grouping' means the grouping consisting of the following two gear categories:
- (i) beam trawls of mesh size equal to or greater than 80 mm and
 - (ii) static nets, including gill-nets, trammel nets and tangle-nets, with mesh size equal to or less than 220 mm;
- (b) 'regulated gear' means any of the two gear categories belonging to the gear grouping;
- (c) 'area' means ICES division VIIe;
- (d) 'current management period' means the period from 1 February 2015 to 31 January 2016.

3. Limitation in activity

Without prejudice to Article 29 of Regulation (EC) No 1224/2009, each Member State shall ensure that, when carrying on board any regulated gear, Union vessels flying its flag and registered in the Union shall be present within the area for no more than the number of days set out in Chapter III of this Annex.

CHAPTER II

Authorisations

4. Authorised vessels

- 4.1 A Member State shall not authorise fishing with regulated gear in the area by any vessel flying its flag which has no record of such fishing activity in the area in the period from 2002 to 2014, excluding the record of fishing activities as a result of transfer of days between fishing vessels, unless it ensures that equivalent capacity, measured in kilowatts, is prevented from fishing in the area.
- 4.2 However, a vessel with a track record of using a regulated gear may be authorised to use a different fishing gear, provided that the number of days allocated to this latter gear is greater than or equal to the number of days allocated to the regulated gear.
- 4.3 A vessel flying the flag of a Member State having no quotas in the area shall not be authorised to fish in the area with regulated gear, unless the vessel is allocated a quota after a transfer as permitted in accordance with Article 16(8) of Regulation (EU) No 1380/2013 and is allocated days at sea in accordance with point 10 or 11 of this Annex.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

CHAPTER III

Number of days present within the area allocated to Union vessels

5. Maximum number of days

During the current management period, the maximum number of days at sea for which a Member State may authorise a vessel flying its flag to be present within the area having carried on board any regulated gear is shown in Table I.

TABLE I

Maximum number of days a vessel may be present within the area by category of regulated gear per year

Regulated gear	Maximum number of days	
Beam trawls of mesh size \geq 80 mm	BE	164
	FR	175
	UK	207
Static nets with mesh size \leq 220 mm	BE	164
	FR	178
	UK	164

6. Kilowatt day system

- 6.1. During the current management period, a Member State may manage its fishing effort allocations in accordance with a kilowatt days system. Through that system it may authorise any vessel concerned by any regulated gear as set out in Table I to be present within the area for a maximum number of days which is different from that set out in that Table, provided that the overall amount of kilowatt days corresponding to the regulated gear is respected.
- 6.2. This overall amount of kilowatt days shall be the sum of all individual fishing efforts allocated to the vessels flying the flag of that Member State and qualified for the regulated gear. Such individual fishing efforts shall be calculated in kilowatt days by multiplying the engine power of each vessel by the number of days at sea it would benefit from, according to Table I, if point 6.1. were not applied.
- 6.3. A Member State wishing to benefit from the system referred to in point 6.1. shall submit a request to the Commission, for the regulated gear as laid down in Table I, with reports in electronic format containing the details of the calculation based on:
 - (a) the list of vessels authorised to fish by indicating their Union fishing fleet register number (CFR) and their engine power;
 - (b) the number of days at sea for which each vessel would have initially been authorised to fish according to Table I and the number of days at sea which each vessel would benefit from in application of point 6.1.
- 6.4. On the basis of that request, the Commission shall assess whether the conditions referred to in point 6 are complied with and, where applicable, may authorise that Member State to benefit from the system referred to in point 6.1.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

7. **Allocation of additional days for permanent cessation of fishing activities**
 - 7.1. An additional number of days at sea on which a vessel may be authorised by its flag Member State to be present within the area when carrying on board any regulated gear may be allocated to a Member State by the Commission on the basis of permanent cessations of fishing activities that have taken place during the preceding management period either in accordance with Article 23 of Regulation (EC) No 1198/2006 or Regulation (EC) No 744/2008. Permanent cessations resulting from any other circumstances may be considered by the Commission on a case-by-case basis, following a written and duly motivated request from the Member State concerned. Such written request shall identify the vessels concerned and confirm, for each of them, that they shall never return to fishing activities.
 - 7.2. The effort expended in 2003 measured in kilowatt days of the withdrawn vessels using a given gear grouping shall be divided by the effort expended by all vessels using that gear grouping during 2003. The additional number of days at sea shall be then calculated by multiplying the ratio so obtained by the number of days that would have been allocated according to Table I. Any part of a day resulting from that calculation shall be rounded to the nearest whole day.
 - 7.3. Points 7.1. and 7.2. shall not apply where a vessel has been replaced in accordance with point 4.2., or when the withdrawal has already been used in previous years to obtain additional days at sea.
 - 7.4. A Member State wishing to benefit from the allocations referred to in point 7.1. shall submit a request to the Commission, by 15 June of the current management period, with reports in electronic format containing for the gear grouping as laid down in Table I, the details of the calculation based on:
 - (a) lists of withdrawn vessels with their Union fishing fleet register number (CFR) and their engine power;
 - (b) the fishing activity deployed by such vessels in 2003 calculated in days at sea according to the grouping of fishing gears.
 - 7.5. On the basis of such a request by a Member State the Commission may, by means of implementing acts, allocate that Member State a number of days additional to that referred to in point 5 for that Member State. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 45(2).
 - 7.6. During the current management period, a Member State may re-allocate those additional days at sea to all or part of the vessels remaining in fleet and qualified for the regulated gears.
 - 7.7. When the Commission allocates additional days at sea due to a permanent cessation of fishing activities during the preceding management period the maximum number of days per Member State and gear shown in Table I shall be adjusted accordingly for the current management period.
8. **Allocation of additional days for enhanced scientific observer coverage**
 - 8.1. Three additional days on which a vessel may be present within the area when carrying on board any regulated gear may be allocated between 1 February 2014 and 31 January 2015 to a Member State by the Commission on the basis of an enhanced programme of scientific observer coverage in partnership between scientists and the fishing industry. Such a programme shall focus in particular on levels of discarding and on catch

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- composition and go beyond the requirements on data collection, as laid down in Regulation (EC) No 199/2008 and its implementing rules for national programmes.
- 8.2. Scientific observers shall be independent from the owner, the master of the fishing vessel and any crew member.
 - 8.3. A Member State wishing to benefit from the allocations referred to in point 8.1. shall submit a description of its enhanced scientific observer coverage programme to the Commission for approval.
 - 8.4. On the basis of that description, and after consultation with STECF, the Commission may, by means of implementing acts, allocate the Member State concerned a number of days additional to that referred to in point 5 for that Member State and for the vessels, the area and gear concerned by the enhanced programme of scientific observers. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 45(2).
 - 8.5. If an enhanced scientific observer coverage programme submitted by a Member State has been approved by the Commission in the past and the Member State concerned wishes to continue its application without changes, it shall inform the Commission of the continuation of that programme four weeks before the beginning of the period for which the programme applies.

CHAPTER IV

Management

9. General obligation

Member States shall manage the maximum allowable effort in accordance with Articles 26 to 35 of Regulation (EC) No 1224/2009.

10. Management periods

- 10.1. A Member State may divide the days present within the area set out in Table I into management periods of durations of one or more calendar months.
- 10.2. The number of days or hours for which a vessel may be present within the area during a management period shall be fixed by the Member State concerned.
- 10.3. Where a Member State authorises vessels flying its flag to be present within the area by hours, the Member State shall continue measuring the consumption of days as specified in point 9. Upon request by the Commission, the Member State shall demonstrate its precautionary measures taken to avoid an excessive consumption of days within the area due to a vessel terminating presences in the area before the end of a 24-hour period.

CHAPTER V

Exchanges of fishing effort allocations

11. Transfer of days between fishing vessels flying the flag of a member state

- 11.1. A Member State may permit any fishing vessel flying its flag to transfer days present within the area for which it has been authorised to another vessel flying its flag within

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

the area, provided that the product of the days received by a vessel multiplied by its engine power in kilowatts (kilowatt days) is equal to or less than the product of the days transferred by the donor vessel and the engine power in kilowatts of that vessel. The engine power in kilowatts of the vessels shall be that recorded for each vessel in the Union fishing fleet register.

- 11.2. The total number of days present within the area transferred in accordance with point 11.1., multiplied by the engine power in kilowatts of the donor vessel, shall not be higher than the donor vessel's average annual days track record in the area as verified by the fishing logbook in the years 2001, 2002, 2003, 2004 and 2005 multiplied by the engine power in kilowatts of that vessel.
- 11.3. The transfer of days as described in point 11.1. shall be permitted between vessels operating with any regulated gear and during the same management period.
- 11.4. On request from the Commission, Member States shall provide information on the transfers that have taken place. Formats of spreadsheet for the collection and transmission of information referred to in this point may be established by the Commission, by means of implementing acts. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 45(2).

12. **Transfer of days between fishing vessels flying the flag of different member states**

Member States may permit transfer of days present within the area for the same management period and within the area between any fishing vessels flying their flags provided that points 4.2., 4.4., 5, 6 and 10 apply *mutatis mutandis*. Where Member States decide to authorise such a transfer, they shall notify the Commission before the transfer takes place, the details of the transfer, including the number of days to be transferred, the fishing effort and, where applicable, the fishing quotas relating thereto.

CHAPTER VI

Reporting obligations

13. **Fishing effort report**

Article 28 of Regulation (EC) No 1224/2009 shall apply to vessels falling under the scope of this Annex. The geographical area referred to in that Article shall be understood as the area specified in point 2 of this Annex.

14. **Collection of relevant data**

Member States shall collect on a quarterly basis the information about total fishing effort deployed within the area for towed gears and static gears, effort deployed by vessels using different types of gear in the area, and the engine power of those vessels in kilowatt days, on the basis of information used for the management of fishing days present within the area as set out in this Annex.

15. **Communication of relevant data**

Upon request from the Commission, Member States shall make available to the Commission a spreadsheet with data specified in point 14 in the format specified in Tables II and III by sending it to the appropriate electronic mailbox address, which shall be communicated to the Member States by the Commission. Member States shall, upon the Commission's request, send detailed

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

information to the Commission on effort allocated and consumed covering all or parts of the 2013 and 2014 management periods, using the data format specified in Tables IV and V.

ANNEX IID

MANAGEMENT AREAS FOR SANDEEL IN ICES DIVISIONS IIa, IIIa AND ICES SUBAREA IV

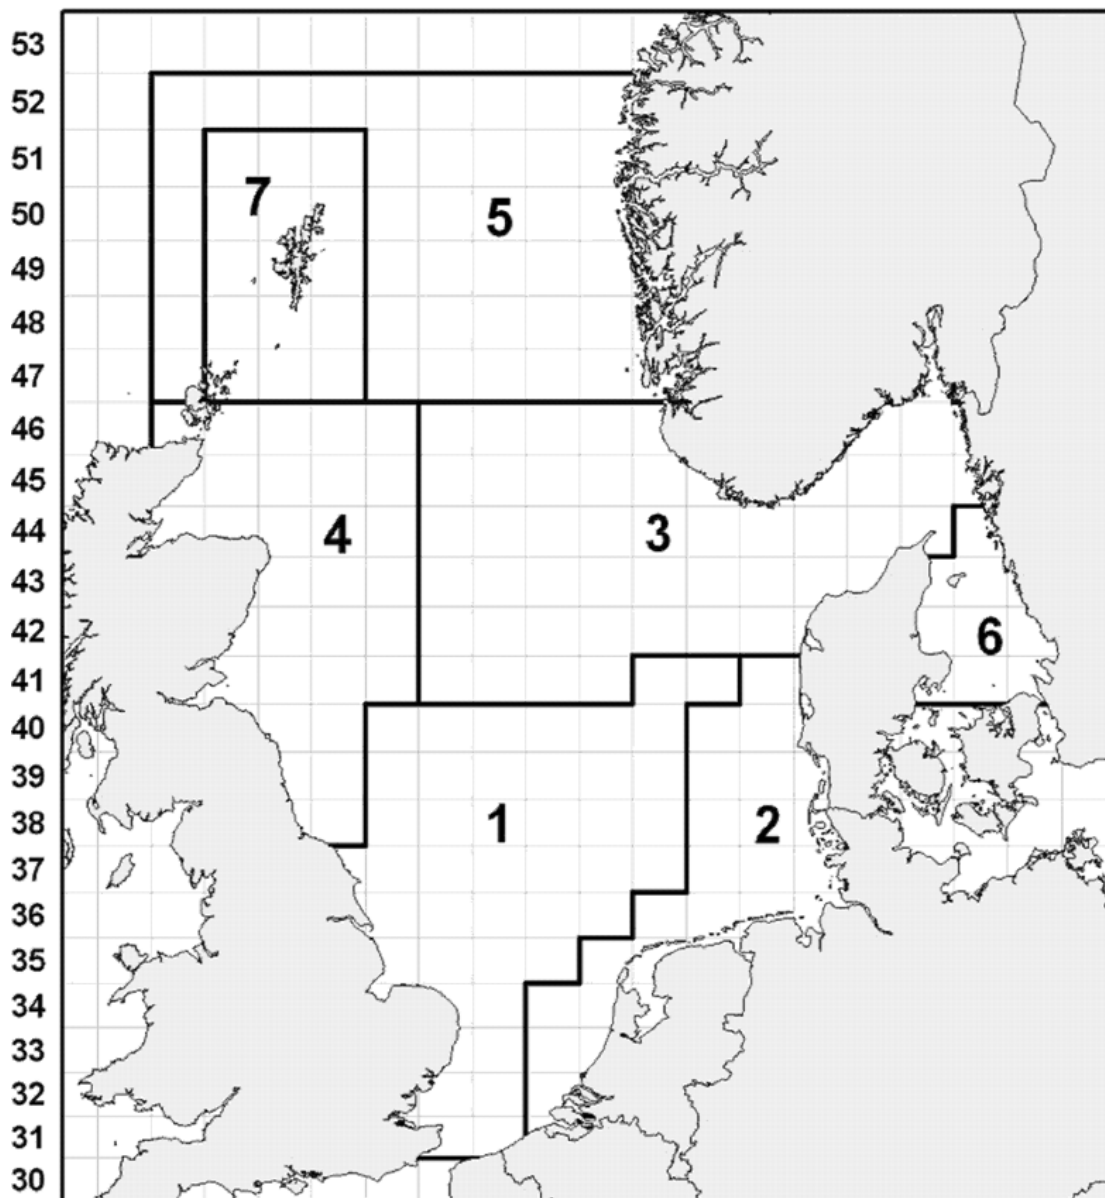

For the purposes of the management of the fishing opportunities of sandeel in ICES divisions IIa, IIIa and ICES subarea IV fixed in Annex IA, the management areas within which specific catch limits apply are defined as shown below and in the Appendix to this Annex:

Sandeel management area	ICES statistical rectangles
1	31-34 E9-F2; 35 E9- F3; 36 E9-F4; 37 E9-F5; 38-40 F0-F5; 41 F5-F6
2	31-34 F3-F4; 35 F4-F6; 36 F5-F8; 37-40 F6-F8; 41 F7-F8
3	41 F1-F4; 42-43 F1-F9; 44 F1-G0; 45-46 F1-G1; 47 G0
4	38-40 E7-E9; 41-46 E6-F0
5	47-51 E6 + F0-F5; 52 E6-F5
6	41-43 G0-G3; 44 G1
7	47-51 E7-E9

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

[^{F6}ANNEX IV

ICCAT CONVENTION AREA⁽³⁹⁾

1. Maximum number of Union bait boats and trolling boats authorised to fish actively for bluefin tuna between 8 kg/75 cm and 30 kg/115 cm in the Eastern Atlantic

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

France	37
Union	37

2. Maximum number of Union coastal artisanal fishing vessels authorised to fish actively for bluefin tuna between 8 kg/75 cm and 30 kg/115 cm in the Mediterranean

Spain	84
France	94
Italy	30
Cyprus	6 ^a
Malta	28 ^b
Union	242

a This figure may increase by 10, if Cyprus decides to replace the purse seine vessel by 10 longline vessels as indicated in footnote 5 to table A of section 4.

b This figure may increase by 10, if Malta decides to replace the purse seine vessel by 10 longline vessels as indicated in footnote 7 to table A of section 4.

3. Maximum number of Union vessels authorised to fish actively for bluefin tuna between 8 kg/75 cm and 30 kg/115 cm in the Adriatic Sea for farming purposes

Croatia	11
Italy	12
Union	23

4. Maximum number and total capacity in gross tonnage of fishing vessels of each Member State that may be authorised to fish for, retain on board, tranship, transport, or land bluefin tuna in the Eastern Atlantic and Mediterranean

TABLE A

Number of fishing vessels ^a							
	Cyprus ^b	Greece ^c	Croatia	Italy	France	Spain	Malta ^d
a	The numbers in this Table A of section 4 may be further increased, provided that the international obligations of the Union are complied with.						
b	One medium size purse seiner may be replaced by no more than 10 longline vessels.						
c	One medium size purse seiner may be replaced by no more than 10 artisanal vessels or by one small size purse seiner and three artisanal vessels.						
d	One medium size purse seiner may be replaced by no more than 10 longline vessels.						
e	Polyvalent vessels, using multi-gear equipment.						
f	Trolling liners fishing in the Eastern Atlantic.						
g	Polyvalent vessels, using multi-gear equipment (longline, handline, trolling line).						

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

a Except for scientific research purposes.

b Excluding waters subject to national jurisdiction (EEZs).

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

PART B

TACs AND BY-CATCH LIMITS FOR EXPLORATORY FISHERIES IN THE CCAMLR CONVENTION AREA IN 2014/15

Subarea Division	Region	Season	SSRUs		Dissostichus spp. catch limit (in tonnes)	By-catch catch limit (in tonnes) ^a											
			SSRU	Limit		Skates and rays	Macrourus spp.	Other species									
58.4.1.	Whole Division	1 December 2014 to 30 November 2015	A, B,	0	724	50	116	100 (distribute in 20s, 20 per SSRU except the closed one (ABF))									
			C ^b	252													
			D	42													
			E	315													
			G ^b	68													
H ^b	42																
58.4.2.	Whole Division	1 December 2014 to 30 November 2015	A	0	35	50	20	20									
			B, C, D	0													
			(including 58.4.2_1)	35													
58.4.3a.	Whole Division	1 December 2014 to 30 November 2015	Not relevant		32	50	26	20									
88.1.	Whole Subarea	1 December 2014 to 31 August 2015	A, D, E, F, M	0	3 044 ^c	152		430		160							
			B, C, G	371								A, D, E, F, M	0	A, D, E, F, M	0	A, D, E, F, M	0
			H, I, K	2 099								B, C, G	50	B, C, G	40	B, C, G	60

- a** Rules for catch limits for by-catch species per SSRU, applicable within total by-catch limits per Subarea:
 — skates and rays: 5 % of the catch limit for *Dissostichus* spp. or 50 tonnes, whichever is greater;
 — *Macrourus* spp.: 16 % of the catch limit for *Dissostichus* spp. or 20 tonnes, whichever is greater, except in Statistical Division 58.4.3a and Statistical Subarea 88.1;
 — other species combined: 20 tonnes per SSRU.

b Includes a catch limit of 42 tonnes to permit Spain to undertake a depletion experiment in 2014/2015.

c A research catch limit of 200 tonnes is set aside for a research survey in Subarea 88.2 SSRUs A and B.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

			J, L	306		H, I, K	112	H, I, K	320	H, I, K	60
						J, L	50	J, L	70	J, L	40
88.2.	South of 65° S	1 December 2014 to 31 August 2015	A, B,	0	619	50		99		120

	E	From 70° 50' S 130° W, due east to 120° W, due south to coast, westward along coast to 130° W, due north to 70° 50' S.
	F	From 70° 50' S 120° W, due east to 110° W, due south to coast, westward along coast to 120° W, due north to 70° 50' S.
	G	From 70°50' S 110° W, due east to 105° W, due south to coast, westward along coast to 110° W, due north to 70° 50' S.
	H	From 65° S 150° W, due east to 105° W, due south to 70° 50' S, due west to 150° W, due north to 65° S.
	I	From 60° S 150° W, due east to 105° W, due south to 65° S, due west to 150°W, due north to 60° S.
88.3	A	From 60° S 105° W, due east to 95° W, due south to coast, westward along coast to 105° W, due north to 60° S.

Status: Point in time view as at 31/01/2020.

Changes to legislation: *There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

	B	From 60° S 95° W, due east to 85° W, due south to coast, westward along coast to 95° W, due north to 60° S.
	C	From 60° S 85° W, due east to 75° W, due south to coast, westward along coast to 85° W, due north to 60° S.
	D	From 60° S 75° W, due east to 70° W, due south to coast, westward along coast to 75° W, due north to 60° S.

PART C

ANNEX 21-03/A

**NOTIFICATION OF INTENT TO PARTICIPATE
 IN A FISHERY FOR *EUPHAUSIA SUPERBA***

General information

Member:

Fishing season:

Name of vessel:

Expected level of catch (tonne):

Intended fishing subareas and divisions

This conservation measure applies to notifications of intentions to fish for krill in Subareas 48.1, 48.2, 48.3 and 48.4 and Divisions 58.4.1 and 58.4.2. Intentions to fish for krill in other subareas and divisions must be notified under Conservation Measure 21-02.

Subarea/Division	Tick the appropriate boxes
48.1	#
48.2	#
48.3	#
48.4	#
58.4.1	#
58.4.2	#

Fishing technique:	Tick the appropriate boxes
	#Conventional trawl
	#Continuous fishing system
	#Pumping to clear codend
	#Other method: Please specify

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Product types and methods for direct estimation of green weight of krill caught

Product type	Method for direct estimation of green weight of krill caught, where relevant (refer to Annex 21-03/B) ^a
Whole frozen	
Boiled	
Meal	
Oil	
Other product, please specify	
a If the method is not listed in Annex 21-03/B, then please describe in detail	

Net configuration

Net measurements	Net 1		Net 2		Other net(s)	
	Outer ^b	Inner ^b	Outer ^b	Inner ^b	Outer ^b	Inner ^b
Net opening (mouth)						
Maximum vertical opening (m)						
Maximum horizontal opening (m)						
Net circumference at mouth ^a (m)						
Mouth area (m ²)						
Panel average mesh size^c (mm)	Outer^b	Inner^b	Outer^b	Inner^b	Outer^b	Inner^b
1st panel						
2nd panel						

a Expected in operational conditions.

b Size of outer mesh, and inner mesh where a liner is used.

c Inside measurement of stretched mesh based on the procedure in Conservation Measure 22-01.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

3rd panel						
...						
Final panel (Codend)						

a Expected in operational conditions.

b Size of outer mesh, and inner mesh where a liner is used.

c Inside measurement of stretched mesh based on the procedure in Conservation Measure 22-01.

Net diagram(s):

For each net used, or any change in net configuration, refer to the relevant net diagram in the CCAMLR fishing gear library if available (www.ccamlr.org/node/74407), or submit a detailed diagram and description to the forthcoming meeting of WG-EMM. Net diagrams must include:

1. Length and width of each trawl panel (in sufficient detail to allow calculation of the angle of each panel with respect to water flow.)
2. Mesh size (inside measurement of stretched mesh based on the procedure in Conservation Measure 22-01), shape (e.g. diamond shape) and material (e.g. polypropylene).
3. Mesh construction (e.g. knotted, fused).
4. Details of streamers used inside the trawl (design, location on panels, indicate 'nil' if streamers are not in use); streamers prevent krill fouling the mesh or escaping.

Marine mammal exclusion device

Device diagram(s):

For each type of device used, or any change in device configuration, refer to the relevant diagram in the CCAMLR fishing gear library if available (www.ccamlr.org/node/74407), or submit a detailed diagram and description to the forthcoming meeting of WG-EMM.

Collection of acoustic data

Provide information on the echosounders and sonars used by the vessel.

Type (e.g. echosounder, sonar)			
Manufacturer			
Model			
Transducer frequencies (kHz)			

Collection of acoustic data (detailed description):

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Outline steps which will be taken to collect acoustic data to provide information on the distribution and abundance of Euphausia superba and other pelagic species such as myctophiids and salps (SC-CAMLR-XXX, paragraph 2.10)

ANNEX 21-03/B

GUIDELINES FOR ESTIMATING THE GREEN WEIGHT OF KRILL CAUGHT

Method	Equation (kg)	Parameter			
		Description	Type	Estimation method	Unit
Holding tank volume	$W * L * H * \rho * 1\,000$	W=tank width	Constant	Measure at the start of fishing	m
		L=tank length	Constant	Measure at the start of fishing	m
		ρ =volume-to-mass conversion factor	Variable	Volume-to-mass conversion	kg/litre
		H=depth of krill in tank	Haul-specific	Direct observation	m
Flow meter ^a	$V * F_{krill} * \rho$	V=volume of krill and water combined	Haul ^a -specific	Direct observation	litre
		F_{krill} =fraction of krill in the sample	Haul ^a -specific	Flow meter volume correction	—
		ρ =volume-to-mass conversion factor	Variable	Volume-to-mass conversion	kg/litre
Flow meter ^b	$(V * \rho) - M$	V=volume of krill paste	Haul ^a -specific	Direct observation	litre

a Individual haul when using a conventional trawl, or integrated over a six-hour period when using the continuous fishing system.

b Individual haul when using a conventional trawl, or a two-hour period when using the continuous fishing system.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

		M=amount of water added to the process, converted to mass	Haul ^a -specific	Direct observation	kg
		ρ =density of krill paste	Variable	Direct observation	kg/litre
Flow scale	$M * (1 - F)$	M=mass of krill and water combined	Haul ^b -specific	Direct observation	kg
		F =fraction of water in the sample	Variable	Flow scale mass correction	—
Plate tray	$(M - M_{tray}) * N$	M_{tray} =mass of empty tray	Constant	Direct observation prior to fishing	kg
		M=mean mass of krill and tray combined	Variable	Direct observation, prior to freezing with water drained	kg
		N=number of trays	Haul-specific	Direct observation	—
Meal conversion	$M_{meal} * MCF$	M_{meal} =mass of meal produced	Haul-specific	Direct observation	kg
		MCF =meal conversion factor	Variable	Meal to whole krill conversion	—
Codend volume	$W * H * L * \rho * \pi/4 * 1000$	W=codend width	Constant	Measure at the start of fishing	m
		H=codend height	Constant	Measure at the start of fishing	m

a Individual haul when using a conventional trawl, or integrated over a six-hour period when using the continuous fishing system.

b Individual haul when using a conventional trawl, or a two-hour period when using the continuous fishing system.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

		ρ =volume-to-mass conversion factor	Variable	Volume-to-mass conversion	kg/litre
		L =codend length	Haul-specific	Direct observation	m
Other	Please specify				

a Individual haul when using a conventional trawl, or integrated over a six-hour period when using the continuous fishing system.

b Individual haul when using a conventional trawl, or a two-hour period when using the continuous fishing system.

Observation steps and frequency

Holding tank volume

At the start of fishing	Measure the width and length of the holding tank (if the tank is not rectangular in shape, then additional measurements may be required; precision $\pm 0,05$ m)
Every month ^a	Estimate the volume-to-mass conversion derived from the drained mass of krill in a known volume (e.g. 10 litres) taken from the holding tank
Every haul	Measure the depth of krill in the tank (if krill are held in the tank between hauls, then measure the difference in depth; precision $\pm 0,1$ m) Estimate the green weight of krill caught (using equation)

Flow meter^a

Prior to fishing	Ensure that the flow meter is measuring whole krill (i.e. prior to processing)
More than once per month ^a	Estimate the volume-to-mass conversion (ρ) derived from the drained mass of krill in a known volume (e.g. 10 litres) taken from the flow meter
Every haul ^b	Obtain a sample from the flow meter and: measure the volume (e.g. 10 litres) of krill and water combined

a A new period will commence when the vessel moves to a new subarea or division.

b Individual haul when using a conventional trawl, or integrated over a six-hour period when using the continuous fishing system.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

	estimate the flow meter volume correction derived from the drained volume of krill
	Estimate the green weight of krill caught (using equation)
Flow meter^b	
Prior to fishing	Ensure that both flow meters (one for the krill product and one for the water added) are calibrated (i.e. show the same, correct reading)
Every week ^a	Estimate the density (ρ) of the krill product (ground krill paste) by measuring the mass of a known volume of krill product (e.g. 10 litres) taken from the corresponding flow meter
Every haul ^b	Read both flow meters, and calculate the total volumes of the krill product (ground krill paste) and that of the water added; density of the water is assumed to be 1 kg/litre
	Estimate the green weight of krill caught (using equation)
Flow scale	
Prior to fishing	Ensure that the flow scale is measuring whole krill (i.e. prior to processing)
Every haul ^b	Obtain a sample from the flow scale and:
	measure the mass of krill and water combined
	estimate the flow scale mass correction derived from the drained mass of krill
	Estimate the green weight of krill caught (using equation)
Plate tray	
Prior to fishing	Measure the mass of the tray (if trays vary in design, then measure the mass of each type; precision $\pm 0,1$ kg)
Every haul	Measure the mass of krill and tray combined (precision $\pm 0,1$ kg)
a	A new period will commence when the vessel moves to a new subarea or division.
b	Individual haul when using a conventional trawl, or integrated over a six-hour period when using the continuous fishing system.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

	Count the number of trays used (if trays vary in design, then count the number of trays of each type)
	Estimate the green weight of krill caught (using equation)
Meal conversion	
Every month ^a	Estimate the meal to whole krill conversion by processing 1 000 to 5 000 kg (drained mass) of whole krill
Every haul	Measure the mass of meal produced
	Estimate the green weight of krill caught (using equation)
Codend volume	
At the start of fishing	Measure the width and height of the codend (precision $\pm 0,1$ m)
Every month ^a	Estimate the volume-to-mass conversion derived from the drained mass of krill in a known volume (e.g. 10 litres) taken from the codend
Every haul	Measure the length of codend containing krill (precision $\pm 0,1$ m)
	Estimate the green weight of krill caught (using equation)
a	A new period will commence when the vessel moves to a new subarea or division.
b	Individual haul when using a conventional trawl, or integrated over a six-hour period when using the continuous fishing system.

[^{F6}ANNEX VI

IOTC CONVENTION AREA

1. Maximum number of Union vessels authorised to fish for tropical tunas in the IOTC Convention Area

Member State	Maximum number of vessels	Capacity (gross tonnage)
Spain	22	61 364
France	27	45 383
Portugal	5	1 627
Italy	1	2 137
Union	55	110 511

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

2. Maximum number of Union vessels authorised to fish for swordfish and albacore in the IOTC Convention Area

Member State	Maximum number of vessels	Capacity (gross tonnage)
Spain	27	11 590
France	41 ^a	7 882
Portugal	15	6 925
United Kingdom	4	1 400
Union	87	27 797

^a This figure does not include vessels registered in Mayotte; it may be increased in the future in accordance with Mayotte's fleet development plan.

3. The vessels referred to in point 1 shall also be authorised to fish for swordfish and albacore in the IOTC Convention Area.
4. The vessels referred to in point 2 shall also be authorised to fish for tropical tunas in the IOTC Convention Area.]

ANNEX VII

WCPFC CONVENTION AREA

Maximum number of Union vessels authorised to fish for swordfish in areas south of 20° S of the WCPFC Convention Area

Spain	14
Union	14

[^{F1}ANNEX VIII

QUANTITATIVE LIMITATIONS OF FISHING AUTHORISATIONS FOR THIRD-COUNTRY VESSELS FISHING IN UNION WATERS

Flag State	Fishery	Number of fishing authorisations	Maximum number of vessels present at any time
Norway	Herring, north of 62° 00' N	To be established	To be established
Faroe Islands	Mackerel, VIa (north of 56° 30' N), IIa, IVa (north of 59° N)	14	14

Status: Point in time view as at 31/01/2020.

Changes to legislation: *There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

Horse mackerel, IV, VIa (north of 56° 30' N), VIIe, VIIf, VIIh		
Herring, north of 62° 00' N	20	
Herring, IIIa	4	4
Industrial fishing for Norway pout, IV, VIa (north of 56° 30' N) (including unavoidable by-catches of blue whiting)	14	14
Ling and tusk	20	10
Blue whiting, II, IVa, V, VIa (north of 56° 30' N), VIb, VII (west of 12° 00' W)	20	20
Blue ling	16	16]

Status: Point in time view as at 31/01/2020.

Changes to legislation: *There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

- (1) Regulation (EU) No 1380/2013 of the European Parliament and of the Council of 11 December 2013 on the Common Fisheries Policy, amending Council Regulations (EC) No 1954/2003 and (EC) No 1224/2009 and repealing Council Regulations (EC) No 2371/2002 and (EC) No 639/2004 and Council Decision 2004/585/EC (OJ L 354, 28.12.2013, p. 22).
- (2) Council Regulation (EU) No 779/2014 of 17 July 2014 fixing the fishing opportunities for anchovy in the Bay of Biscay for the 2014/15 fishing season (OJ L 212, 18.7.2014, p. 1).
- (3) Council Regulation (EC) No 2166/2005 of 20 December 2005 establishing measures for the recovery of the Southern hake and Norway lobster stocks in the Cantabrian Sea and Western Iberian peninsula and amending Regulation (EC) No 850/98 for the conservation of fishery resources through technical measures for the protection of juveniles of marine organisms (OJ L 345, 28.12.2005, p. 5).
- (4) Council Regulation (EC) No 509/2007 of 7 May 2007 establishing a multi-annual plan for the sustainable exploitation of the stock of sole in the Western Channel (OJ L 122, 11.5.2007, p. 7).
- (5) Council Regulation (EC) No 676/2007 of 11 June 2007 establishing a multiannual plan for fisheries exploiting stocks of plaice and sole in the North Sea (OJ L 157, 19.6.2007, p. 1).
- (6) Council Regulation (EC) No 1300/2008 of 18 December 2008 establishing a multi-annual plan for the stock of herring distributed to the west of Scotland and the fisheries exploiting that stock (OJ L 344, 20.12.2008, p. 6).
- (7) Council Regulation (EC) No 1342/2008 of 18 December 2008 establishing a long-term plan for cod stocks and the fisheries exploiting those stocks and repealing Regulation (EC) No 423/2004 (OJ L 348, 24.12.2008, p. 20).
- (8) Council Regulation (EC) No 302/2009 of 6 April 2009 concerning a multiannual recovery plan for bluefin tuna in the eastern Atlantic and Mediterranean, amending Regulation (EC) No 43/2009 and repealing Regulation (EC) No 1559/2007 (OJ L 96, 15.4.2009, p. 1).
- (9) Council Regulation (EC) No 811/2004 of 21 April 2004 establishing measures for the recovery of the northern hake stock (OJ L 150, 30.4.2004, p. 1).
- (10) Council Regulation (EC) No 388/2006 of 23 February 2006 establishing a multiannual plan for the sustainable exploitation of the stock of sole in the Bay of Biscay (OJ L 65, 7.3.2006, p. 1).
- (11) Council Regulation (EC) No 847/96 of 6 May 1996 introducing additional conditions for year-to-year management of TACs and quotas (OJ L 115, 9.5.1996, p. 3).
- (12) Council Regulation (EC) No 754/2009 of 27 July 2009 excluding certain groups of vessels from the fishing effort regime laid down in Chapter III of Regulation (EC) No 1342/2008 (OJ L 214, 19.8.2009, p. 16).
- (13) Council Regulation (EC) No 1224/2009 of 20 November 2009 establishing a Community control system for ensuring compliance with the rules of the common fisheries policy, amending Regulations (EC) No 847/96, (EC) No 2371/2002, (EC) No 811/2004, (EC) No 768/2005, (EC) No 2115/2005, (EC) No 2166/2005, (EC) No 388/2006, (EC) No 509/2007, (EC) No 676/2007, (EC) No 1098/2007, (EC) No 1300/2008, (EC) No 1342/2008 and repealing Regulations (EEC) No 2847/93, (EC) No 1627/94 and (EC) No 1966/2006 (OJ L 343, 22.12.2009, p. 1).
- (14) Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data (OJ L 281, 23.11.1995, p. 31).
- (15) Agreement on fisheries between the European Economic Community and the Kingdom of Norway (OJ L 226, 29.8.1980, p. 48).
- (16) Agreement on fisheries between the European Economic Community, of the one part, and the Government of Denmark and the Home Government of the Faeroe Islands, of the other part (OJ L 226, 29.8.1980, p. 12).
- (17) Fisheries Partnership Agreement between the European Community on the one hand, and the Government of Denmark and the Home Rule Government of Greenland, on the other hand (OJ L 172, 30.6.2007, p. 4) and Protocol setting out the fishing opportunities and financial contribution provided for in that Agreement (OJ L 293, 23.10.2012, p. 5).
- (18) Council Regulation (EU) No 1385/2013 of 17 December 2013 amending Council Regulations (EC) No 850/98 and (EC) No 1224/2009, and Regulations (EC) No 1069/2009, (EU) No 1379/2013 and

Status: Point in time view as at 31/01/2020.

Changes to legislation: *There are outstanding changes not yet made to Council Regulation (EU) 2015/104. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

- (EU) No 1380/2013 of the European Parliament and of the Council, following the amendment of the status of Mayotte with regard to the European Union (OJ L 354, 28.12.2013, p. 86).
- (19) OJ L 6, 10.1.2012, p. 9.
- (20) Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13).
- (21) Commission Regulation (EC) No 517/2008 of 10 June 2008 laying down detailed rules for the implementation of Council Regulation (EC) No 850/98 as regards the determination of the mesh size and assessing the thickness of twine of fishing nets (OJ L 151, 11.6.2008, p. 5).
- (22) Regulation (EC) No 218/2009 of the European Parliament and of the Council of 11 March 2009 on the submission of nominal catch statistics by Member States fishing in the north-east Atlantic (OJ L 87, 31.3.2009, p. 70).
- (23) Regulation (EC) No 216/2009 of the European Parliament and of the Council of 11 March 2009 on the submission of nominal catch statistics by Member States fishing in certain areas other than those of the North Atlantic (OJ L 87, 31.3.2009, p. 1).
- (24) Regulation (EC) No 217/2009 of the European Parliament and of the Council of 11 March 2009 on the submission of catch and activity statistics by Member States fishing in the north-west Atlantic (OJ L 87, 31.3.2009, p. 42).
- (25) Concluded by Council Decision 2002/738/EC (OJ L 234, 31.8.2002, p. 39).
- (26) The Union acceded by Council Decision 86/238/EEC (OJ L 162, 18.6.1986, p. 33).
- (27) Council Regulation (EC) No 601/2004 of 22 March 2004 laying down certain control measures applicable to fishing activities in the area covered by the Convention on the conservation of Antarctic marine living resources and repealing Regulations (EEC) No 3943/90, (EC) No 66/98 and (EC) No 1721/1999 (OJ L 97, 1.4.2004, p. 16).
- (28) Concluded by Council Decision 2006/539/EC (OJ L 224, 16.8.2006, p. 22).
- (29) The Union acceded by Council Decision 95/399/EC (OJ L 236, 5.10.1995, p. 24).
- (30) Concluded by Council Decision 2008/780/EC (OJ L 268, 9.10.2008, p. 27).
- (31) The Union acceded by Council Decision 2005/75/EC (OJ L 32, 4.2.2005, p. 1).
- (32) Council Regulation (EC) No 1006/2008 of 29 September 2008 concerning authorisations for fishing activities of Community fishing vessels outside Community waters and the access of third-country vessels to Community waters, amending Regulations (EEC) No 2847/93 and (EC) No 1627/94 and repealing Regulation (EC) No 3317/94 (OJ L 286, 29.10.2008, p. 33).
- (33) Council Regulation (EC) No 2347/2002 of 16 December 2002 establishing specific access requirements and associated conditions applicable to fishing for deep-sea stocks (OJ L 351, 28.12.2002, p. 6).
- (34) Council Regulation (EC) No 850/98 of 30 March 1998 for the conservation of fishery resources through technical measures for the protection of juveniles of marine organisms (OJ L 125, 27.4.1998, p. 1).
- (35) Council Regulation (EC) No 1954/2003 of 4 November 2003 on the management of the fishing effort relating to certain Community fishing areas and resources and modifying Regulation (EC) No 2847/93 and repealing Regulations (EC) No 685/95 and (EC) No 2027/95 (OJ L 289, 7.11.2003, p. 1).
- (36) Council Regulation (EC) No 1198/2006 of 27 July 2006 on the European Fisheries Fund (OJ L 223, 15.8.2006, p. 1).
- (37) Council Regulation (EC) No 744/2008 of 24 July 2008 instituting a temporary specific action aiming to promote the restructuring of the European Community fishing fleets affected by the economic crisis (OJ L 202, 31.7.2008, p. 1).
- (38) Council Regulation (EC) No 199/2008 of 25 February 2008 concerning the establishment of a Community framework for the collection, management and use of data in the fisheries sector and support for scientific advice regarding the Common Fisheries Policy (OJ L 60, 5.3.2008, p. 1).
