

Commission Delegated Regulation (EU) 2015/1186 of 24 April 2015 supplementing
Directive 2010/30/EU of the European Parliament and of the Council with
regard to the energy labelling of local space heaters (Text with EEA relevance)

Article 1

Subject matter and scope

This Regulation establishes requirements for the energy labelling of, and the provision of supplementary product information on local space heaters with a nominal heat output of 50 kW or less.

This Regulation shall not apply to:

- (a) electric local space heaters;
- (b) local space heaters using a vapour compression cycle or sorption cycle for the generation of heat driven by electric compressors or fuel;
- (c) solid fuel local space heaters that are specified for the combustion of non-woody biomass only;
- (d) local space heaters specified for purposes other than indoor space heating to reach and maintain a certain thermal comfort of human beings by means of heat convection or heat radiation;
- (e) local space heaters that are specified for outdoor use only;
- (f) local space heaters of which the direct heat output is less than 6 % of the combined direct and indirect heat output at nominal heat output;
- (g) solid fuel local space heaters that are not factory assembled, or are not provided as prefabricated components or parts by a single manufacturer which are to be assembled on site;
- (h) luminous local space heaters and tube local space heaters;
- (i) air heating products;
- (j) sauna stoves.

Changes to legislation:

There are currently no known outstanding effects for the Commission Delegated Regulation (EU) 2015/1186, Article 1.
