

COMMISSION IMPLEMENTING REGULATION (EU) 2015/2258**of 4 December 2015****amending Regulation (EC) No 798/2008 as regards imports and transit of single consignments of less than 20 units of poultry other than ratites, hatching eggs and day-old chicks thereof****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 2009/158/EC of 30 November 2009 on animal health conditions governing intra-Community trade in, and imports from third countries of, poultry and hatching eggs ⁽¹⁾, and in particular Articles 23(1), 24(2), 25, 26(2) and 28(2) thereof,

Whereas:

- (1) Commission Regulation (EC) No 798/2008 ⁽²⁾ lays down veterinary certification requirements for imports into and transit through the Union of poultry, hatching eggs, day-old chicks and specified pathogen-free eggs ('the commodities'). It provides that the commodities are only to be imported into and transit through the Union from the third countries, territories, zones or compartments listed in the table in Part 1 of Annex I thereto.
- (2) Article 5(1) and (3) of that Regulation lay down the animal and public health conditions for imports and transit of commodities which according to Article 5(2) shall not apply to consignments of less than 20 units of poultry other than ratites, hatching eggs and day-old chicks thereof.
- (3) Article 5(3)(d) of that Regulation refers to restrictions in relation to the approval by the Commission of a salmonella control programme under Regulation (EC) No 2160/2003 of the European Parliament and of the Council ⁽³⁾ for imports of certain commodities from third countries. The salmonella control status and related restrictions are indicated in column 9 of the table in Part 1 of Annex I to Regulation (EC) No 798/2008.
- (4) Article 1(3) of Regulation (EC) No 2160/2003 states that this Regulation does not apply to primary production of poultry for private domestic use or leading to the direct supply, by the producer, of small quantities of primary products to the final consumer or to local retail establishments directly supplying the primary products to the final consumer.
- (5) Article 14(1) of Regulation (EC) No 798/2008 lays down the specific conditions for imports of certain commodities as regards the requirements after import as detailed in Annexes VIII and IX to that Regulation. According to Article 14(2) these conditions shall not apply to consignments of less than 20 units of poultry other than ratites, hatching eggs and day-old chicks thereof.
- (6) In order to ensure a uniform application of Union legislation to imports of single consignments of less than 20 units of poultry other than ratites, hatching eggs and day-old chicks thereof, it is appropriate to amend Articles 5 and 14 of Regulation (EC) No 798/2008 in order to define which conditions should be met for such consignments.
- (7) The amendment to Article 5 should provide that the requirements of Articles 6 and 7 for laboratory testing procedures and disease reporting applicable for imports of poultry other than ratites, hatching eggs and day-old chicks thereof, should also be met for imports into and transit through the Union of single consignments of less than 20 units of these commodities as these measures significantly reduce the risk of disease introduction via these commodities.

⁽¹⁾ OJ L 343, 22.12.2009, p. 74.

⁽²⁾ Commission Regulation (EC) No 798/2008 of 8 August 2008 laying down a list of third countries, territories, zones or compartments from which poultry and poultry products may be imported into and transit through the Community and the veterinary certification requirements (OJ L 226, 23.8.2008, p. 1).

⁽³⁾ Regulation (EC) No 2160/2003 of the European Parliament and of the Council of 17 November 2003 on the control of salmonella and other specified food-borne zoonotic agents (OJ L 325, 12.12.2003, p. 1).

- (8) Article 5 should also be amended to indicate that the conditions concerning the approval of a salmonella control programme and related restrictions for imports and transit do not apply to primary production of poultry for private domestic use or leading to the direct supply, by the producer, of small quantities of primary products to the final consumer or to local retail establishments directly supplying the primary products to the final consumer. However, a laboratory test as laid down in Annex III to Regulation (EC) No 798/2008 should be carried out before dispatch of such consignments.
- (9) With regard to the third country's salmonella control status a footnote (6) should be inserted in column 9 of Part 1 of Annex I to Regulation (EC) No 798/2008 indicating that compliance with salmonella control programmes is not required under the above conditions.
- (10) In view of scientific developments in laboratory techniques and due to new legal requirements, the requirements for sampling and testing for 'Salmonella of public health significance' laid down in point 7 of Section I of Annex III to Regulation (EC) No 798/2008 should be updated and refer to the sampling protocol laid down in point 2.2 of the Annex to Commission Regulation (EU) No 200/2010 ⁽¹⁾.
- (11) The veterinary certificates for imports and transit of breeding and productive poultry (BPP), day-old chicks (DOC) and hatching eggs (HEP) do not foresee certification for the specific requirements that must be met for consignments of less than 20 units of poultry other than ratites, hatching eggs and day-old chicks thereof. It is therefore appropriate to establish a model veterinary certificate 'LT20' which contains the animal and public health requirements applicable to such consignments.
- (12) Part 1 of Annex I to Regulation (EC) No 798/2008 should be amended to indicate in column 4 from which third countries, territories, zones or compartments, imports of single consignments of less than 20 units of poultry other than ratites, hatching eggs and day-old chicks thereof may be authorised in accordance with the requirements set out in the model veterinary certificate 'LT20'.
- (13) In addition, outdated references to Union acts in Annexes III, VIII and IX to Regulation (EC) No 798/2008 should be updated.
- (14) Regulation (EC) No 798/2008 should therefore be amended accordingly.
- (15) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EC) No 798/2008 is amended as follows:

- (1) Article 5 is replaced by the following:

'Article 5

Conditions for imports and transit

1. Commodities imported into and transiting through the Union shall comply with the following:
 - (a) the conditions laid down in Articles 6 and 7 and in Chapter III;
 - (b) the additional guarantees, as specified in column 5 of the table in Part 1 of Annex I;
 - (c) the specific conditions set out in column 6, and where appropriate, the closing dates set out in column 6A and the opening dates set out in column 6B, of the table in Part 1 of Annex I;

⁽¹⁾ Commission Regulation (EU) No 200/2010 of 10 March 2010 implementing Regulation (EC) No 2160/2003 of the European Parliament and of the Council as regards a Union target for the reduction of the prevalence of *Salmonella* serotypes in adult breeding flocks of *Gallus gallus* (OJ L 61, 11.3.2010, p. 1).

(d) the conditions in relation to the approval of a salmonella control programme and related restrictions which shall only apply when indicated in the appropriate column of the table in Part 1 of Annex I;

(e) the animal health additional guarantees, where required by the Member State of destination and referred to in the certificate.

2. The following conditions set out in paragraph 1 shall not apply to single consignments of less than 20 units of poultry other than ratites, hatching eggs and day-old chicks thereof:

(a) point (b);

(b) point (d) when destined for primary production of poultry for private domestic use or leading to the direct supply, by the producer, of small quantities of primary products as referred to in Article 1(3) of Regulation (EC) No 2160/2003.'

(2) Article 14 is replaced by the following:

'Article 14

Specific conditions for imports of poultry, hatching eggs and day-old chicks

1. In addition to the conditions laid down in Chapters II and III, the following specific conditions shall apply to imports of:

(a) breeding and productive poultry other than ratites, hatching eggs and day-old chicks thereof, the requirements set out in Annex VIII;

(b) ratites for breeding and production, hatching eggs and day-old chicks thereof, the requirements set out in Annex IX.

2. The specific conditions referred to in paragraph 1(a) and (b) shall not apply to single consignments of less than 20 units of poultry other than ratites, hatching eggs and day-old chicks thereof. However, the requirements applicable after import set out in Section II of Annex VIII shall apply to those consignments.'

(3) Annexes I, III, VIII and IX are amended in accordance with the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the third day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 4 December 2015.

For the Commission
The President
Jean-Claude JUNCKER

ANNEX

Annexes I, III, VIII and IX to Regulation (EC) No 798/2008 are amended as follows:

(1) Annex I is amended as follows:

(a) Part 1 is replaced by the following:

(1) Commodities, including those transported on the high seas, produced before this date may be imported into the Union during a period of 90 days from this date.

(2) Only commodities produced after this date may be imported into the Union.

(3) In accordance with the agreement between the European Union and the Swiss Confederation on trade in agricultural products (OJ L 114, 30.4.2002, p. 132).

(4) The former Yugoslav Republic of Macedonia: the definitive nomenclature for this country will be agreed following current negotiations at UN level.

(5) Hereafter understood as the State of Israel, excluding the territories under Israeli administration since June 1967, namely the Golan Heights, the Gaza Strip, East Jerusalem and the rest of the West Bank.

(6) Restrictions relating to salmonella control programmes as listed in Part 2 do not apply for single consignments of less than 20 units of poultry other than ratites, hatching eggs and day-old chicks thereof, when destined for primary production of poultry for private domestic use or leading to the direct supply, by the producer, of small quantities of primary products to the final consumer or to local retail establishments directly supplying the primary products to the final consumer and certified in accordance with the model veterinary certificate LT20.⁶

(b) Part 2 is amended as follows:

- (i) in the section listing the Model veterinary certificates, the following entry is inserted after the entry for 'SRA': Model veterinary certificate for slaughter ratites and before the entry for 'POU': Model veterinary certificate for meat of poultry:

"LT20": Model veterinary certificate for single consignments of less than 20 units of poultry other than ratites, hatching eggs and day-old chicks thereof

- (ii) the following Model veterinary certificate for single consignments of less than 20 units of poultry other than ratites, hatching eggs and day-old chicks thereof 'LT20' is inserted after the Model veterinary certificate for slaughter ratites 'SRA' and before the Model veterinary certificate for meat of poultry 'POU':

Model veterinary certificate for single consignments of less than 20 units of poultry other than ratites, hatching eggs and day-old chicks thereof (LT20)

| II.4 | Additional health requirements | | |
| | I, the undersigned official veterinarian, further certify that: | | |
| (3) (7) | II.4.1 although the use of vaccines against Newcastle disease which do not fulfil the specific requirements of Annex VI (II) to Regulation (EC) No 798/2008 is not prohibited in: | | |
| | (1) the territory of code | | |
| | (2) [the poultry and the flocks it comes from:] | | |
| | (3) [the day-old chicks have hatched from eggs coming from flocks, which:] | | |
| | (3) [the hatching eggs have been collected from flocks, which:] | | |
| | (a) has not been vaccinated for at least the previous 12 months with such vaccines; | | |
| | (b) underwent a virus isolation test for Newcastle disease, carried out in an official laboratory not earlier than 14 days preceding consignment on a random sample of cloacal swabs from at least 60 birds in each flock and in which no avian paramyxoviruses with an Intracerebral Pathogenicity Index (ICPI) of more than 0,4 were found; | | |
| | (c) has not been in contact during the last 60 days before consignment with poultry which does not fulfil the conditions in (a) and (b); | | |
| | (d) has been kept in isolation under official surveillance on the establishment of origin in the 14-day period mentioned in (b);] | | |
| II.5. | Animal transport Attestation | | |
| | I, the undersigned official veterinarian, further certify that the: | | |
| (3) (8) | II.5.1 poultry described in this certificate are transported in crates or cages which: | | |
| | (i) are designed to prevent any excrement escaping and reduce to a minimum any loss of feathers during transport; | | |
| | (ii) allow visual inspection of the poultry; | | |
| | (iii) allow cleansing and disinfection; | | |
| | (iv) have been cleansed and disinfected before loading in accordance with the instructions of the competent authority; and which:] | | |
| (3) (8) | II.5.1 day-old chicks described in this certificate are transported in perfectly clean, disposable boxes used for the first time which are designed to prevent any excrement escaping and reduce to a minimum any loss of feathers during transport; and which:] | | |
| (3) | II.5.1 hatching eggs are transported in perfectly clean, disposable boxes used for the first time which:] | | |
| | (i) contain only poultry other than ratites, day-old chicks or hatching eggs thereof of the same species, category and type coming from the same holding; | | |
| | (ii) bear the following information: | | |
| | — the name of the country, territory or zone of consignment, | | |
| | — the species of poultry concerned, | | |
| | — the number of poultry, chicks or eggs, as appropriate, | | |
| | — the category and type of production for which they are intended, | | |
| | — the name and address of the holding of origin and in case of day-old chicks of the hatchery, | | |
| | — the Member State of destination; and which:] | | |
| | are closed in accordance with the instructions of the competent authority to avoid any possibility of substitution of the contents; and | | |
| | are transported in containers and vehicles which have been cleansed and disinfected before loading in accordance with the instructions of the competent authority. | | |
| Notes: | This certificate applies to single consignments of less than 20 units of poultry other than ratites, hatching eggs and day-old chicks thereof as referred to in Article 5 of Regulation (EC) No 798/2008. | | |

COUNTRY:

| II. Health information | II.a. Certificate reference number | II.b. |
|--|------------------------------------|-------|
| Part I: | | |
| — Box I.8: Provide the code for the country or zone of origin, if necessary, as defined under code of column 2 of Part 1 of Annex I to Regulation (EC) No 798/2008. | | |
| — Box I.11: Name and address of the holding of origin and, as appropriate, the name and the address of the hatchery in case of day-old chicks. | | |
| — Box I.15: Indicate the registration number(s) of railway wagons and lorries, the name of the ship and, if known, the flight number of aircraft. In the case of transport in containers or boxes, the total number of these and their registration and where there is a serial number of the seal it has to be indicated in box I.23. | | |
| — Box I.19: Use the appropriate Harmonised System (HS) code of the World Customs Organisation: 01.05, 01.06.39 or 04.07. | | |
| Part II: | | |
| (1) Code of the territory as it appears in column 2 of Part 1 of Annex I to Regulation (EC) No 798/2008. | | |
| (2) Keep as appropriate. | | |
| (3) Keep if appropriate. | | |
| (4) This guarantee applies only for poultry belonging to the species of <i>Gallus gallus</i> and turkeys. | | |
| (5) Restrictions relating to the approval by the Commission of a salmonella control programme as listed in Part 2 of Annex I do not apply for single consignments of less than 20 units of poultry other than ratites, hatching eggs and day-old chicks thereof, when destined for primary production of poultry for private domestic use or leading to the direct supply, by the producer, of small quantities of primary products to the final consumer or to local retail establishments directly supplying the primary products to the final consumer provided they were subjected to testing before dispatch in accordance with point (7) of Section I of Annex III to Regulation (EC) No 798/2008. | | |
| If any of the testing results were positive for the serotypes below during the life of the flock, indicate as positive: | | |
| — flocks of breeding poultry: <i>Salmonella</i> Hadar, <i>Salmonella</i> Virchow and <i>Salmonella</i> Infantis; | | |
| — flocks of productive poultry: <i>Salmonella</i> Enteritidis and <i>Salmonella</i> Typhimurium. | | |
| (6) Delete if consignment is not intended for Finland or Sweden. | | |
| (7) This guarantee is required only for poultry other than ratites, hatching eggs or day-old chicks thereof coming from countries, territories or zones where Article 13(1) of Regulation (EC) No 798/2008 applies. | | |
| (8) Please note that according to Regulation (EC) No 1/2005 poultry or day-old chicks will be checked by Member States' competent authorities if they are fit to continue the journey after entry into the Union. In the case the requirements are not fulfilled, the animals need to be unloaded and further measures taken. | | |
| (9) For countries or territories with the entry 'N' in column 6 of Part 1 of Annex I to Regulation (EC) No 798/2008, for single consignments consisting of less than 20 units of poultry other than ratites, hatching eggs and day-old chicks thereof (LT20) only, this means that in the case of an outbreak of Newcastle disease as defined in Regulation (EC) No 798/2008 then the country code or territory code shall continue to be used but this will exclude any area under official restrictions, by the third country concerned in relation to Newcastle disease, at the date of issue of this certificate. | | |
| (10) This guarantee is only required for poultry other than ratites, hatching eggs and day-old chicks thereof when coming from countries, territories or zones with the entry 'X' in column 5 of Part 1 of Annex I to Regulation (EC) No 798/2008. | | |
| This certificate is valid for 10 days. | | |

(2) In Annex III, Section I is amended as follows:

- (a) In the third indent of point (2), the reference to Directive '90/539/EEC' is replaced by the reference to Directive '2009/158/EC';
- (b) In the first indent of point (3), the reference to Directive '90/539/EEC' is replaced by the reference to Directive '2009/158/EC';
- (c) In the first indent of point (4), the reference to Directive '90/539/EEC' is replaced by the reference to Directive '2009/158/EC';
- (d) In the first indent of point (5), the reference to Directive '90/539/EEC' is replaced by the reference to Directive '2009/158/EC';
- (e) In point (6), the reference to Directive '90/539/EEC' is replaced by the reference to Directive '2009/158/EC';
- (f) Point (7) is replaced by the following:

'7. *Salmonella of public health significance*

Sampling shall be carried out in accordance with the sampling protocol laid down in point 2.2 of the Annex to Commission Regulation (EU) No 200/2010.

The detection method recommended by the EU reference laboratory (EURL) for salmonella in Bilthoven, the Netherlands, or an equivalent method shall be used. That method is described in the current version of Annex D of ISO 6579 (2002): "Detection of *Salmonella* spp. in animal faeces and in samples of the primary production stage". For that detection method, a semi-solid medium (modified semi-solid Rappaport-Vassiladis medium, MSRV) is used as the single selective enrichment medium.

Serotyping shall be carried out following the Kauffmann-White scheme or an equivalent method.'

(3) Annex VIII is amended as follows:

- (a) In point (1) of Section I, the reference to Directive '90/539/EEC' is replaced by the reference to Directive '2009/158/EC';
 - (b) In point (2) of Section II, the reference to Directive '90/539/EEC' is replaced by the reference to Directive '2009/158/EC'.
- (4) In point (c) of Section IV of Annex IX, the reference to Directive '90/539/EEC' is replaced by the reference to Directive '2009/158/EC'.
-
