Article 1	Establishment of the harmonised efficiency reference values
Article 2	Correction factors for the harmonised efficiency reference values for separate production of electricity
Article 3	Application of the harmonised efficiency reference values for the separate production of electricity
Article 4	Application of the harmonised efficiency reference values for the separate production of heat
Article 5	Retrofitting of a cogeneration unit
Article 6	Fuel mix
Article 7	Repeal
Article 8	Entry into force and application
	Signature

ANNEX I

Harmonised efficiency reference values for separate production of electricity

ANNEX II

Harmonised efficiency reference values for separate production of heat

ANNEX III

Correction factors relating to the average climatic situation and method for establishing climate zones for the application of the harmonised efficiency reference values for separate production of electricity

- (a) Correction factors relating to the average climatic situation
Example:
- (b) Ambient temperature correction applies only to gaseous fuels (G10, G11,...
- (c) Method for establishing climate zones:
Example:

ANNEX IV

Correction factors for Article 2(1) losses for the application of the harmonised efficiency reference values for separate production of electricity
Example:
