
Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not currently available on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

Commission Implementing Regulation (EU) 2015/2450 of 2
December 2015 laying down implementing technical standards with
regard to the templates for the submission of information to the
supervisory authorities according to Directive 2009/138/EC of the
European Parliament and of the Council (Text with EEA relevance)

COMMISSION IMPLEMENTING REGULATION (EU) 2015/2450

of 2 December 2015

laying down implementing technical standards with regard to the templates
for the submission of information to the supervisory authorities according
to Directive 2009/138/EC of the European Parliament and of the Council

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2009/138/EC of 25 November 2009 of the European Parliament and of the Council on the taking up and pursuit of the business of Insurance and Reinsurance (Solvency II)⁽¹⁾, and in particular the third subparagraph of Article 35(10), the third subparagraph of Article 244(6) and the second subparagraph of Article 245(6) thereof,

Whereas:

- (1) For the purposes of facilitating effective supervision of insurance and reinsurance undertakings, it is appropriate to establish the templates for the submission of information referred to in Article 35(1) and (2) of Directive 2009/138/EC for individual undertakings and in Article 244(2) and Article 245(2) of that Directive for groups to the supervisory authorities.
- (2) An adequate level of detail of the information to be submitted is crucial for a proper implementation of a risk-based supervisory review process. The templates are a visual representation of the information to be reported and specify the level of detail of that information.
- (3) The harmonisation of the templates to be used when submitting information to supervisory authorities is an essential instrument to promote supervisory convergence. For this reason the information to be reported in accordance with Directive 2009/138/EC should be submitted as specified in the templates provided for by this Regulation.
- (4) In practice, the information will be reported in electronic form as set out in Article 313 of Commission Delegated Regulation (EU) 2015/35⁽²⁾.
- (5) Insurance and reinsurance undertakings and groups should only submit the information applicable for their business. For example, certain options provided for by Directive 2009/138/EC, like the use of the matching adjustment for the calculation of the technical

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not currently available on legislation.gov.uk. ~~provisions of the use of a full or partial internal model or of underwriting specific~~

- parameters for the calculation of the solvency capital requirement, affect the scope of the information to be submitted. In most cases, only a subset of the templates provided for in this Regulation should be submitted, as not all the templates are applicable for all undertakings.
- (6) The provisions of this Regulation are closely linked to each other, since they all deal with the submission of information from insurance and reinsurance undertakings and groups to the supervisory authorities. To ensure coherence between those provisions, which should enter into force at the same time, to facilitate a comprehensive understanding of those provisions and to ensure easy access to them by persons subject to the reporting obligations, including investors not established in the Union, it is desirable to include all the implementing technical standards required by Article 35(10), Article 244(6) and Article 245(6) of Directive 2009/138/EC in a single Regulation.
 - (7) This Regulation is based on the draft implementing technical standards submitted by the European Insurance and Occupational Pensions Authority to the Commission.
 - (8) The European Insurance and Occupational Pensions Authority has conducted open public consultations on the draft implementing technical standards on which this Regulation is based, analysed the potential related costs and benefits and requested the opinion of the Insurance and Reinsurance Stakeholder Group established in accordance with Article 37 of Regulation (EU) No 1094/2010 of the European Parliament and of the Council⁽³⁾.
 - (9) In order to ensure that supervisory reporting is effectively applied in a uniform manner from the date on which the reporting obligations apply, this Regulation should enter into force as soon as possible and apply from 1 January 2016,

HAS ADOPTED THIS REGULATION:

Modifications etc. (not altering text)

- C1** The “appropriate regulator” has power to make such provision as they consider appropriate by means of an instrument in writing to prevent, remedy or mitigate any failure of the provisions of this Regulation to operate effectively or any other deficiency arising from the withdrawal of the United Kingdom from the EU, see [The Financial Regulators' Powers \(Technical Standards etc.\) \(Amendment etc.\) \(EU Exit\) Regulations 2018 \(S.I. 2018/1115\), regs. 2, 3, Sch. GENERAL PROVISIONS AND SUPERVISORY REPORTING REQUIREMENTS

Article 1 U.K.

Subject matter

This Regulation lays down implementing technical standards on regular supervisory reporting by establishing the templates for the submission of information to the supervisory authorities referred to in Article 35(1) and (2) of Directive 2009/138/EC for individual insurance and reinsurance undertakings and in Article 244(2) and Article 245(2) of Directive 2009/138/EC for groups.

Article 2 U.K.

Supervisory reporting formats

Insurance and reinsurance undertakings, participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit the information referred to in this Regulation in the data exchange formats and representations determined by the supervisory authorities or by the group supervisor and in accordance with the following specifications:

- (a) data points with the data type 'monetary' shall be expressed in units with no decimals with the exception of templates S.06.02, S.08.01, S.08.02 and S.11.01, which shall be expressed in units with two decimals;
- (b) data points with the data type 'percentage' shall be expressed as per unit with four decimals;
- (c) data points with the data type 'integer' shall be expressed in units with no decimals^[F1];
- (d) ^[F2]all data points shall be expressed as positive values except in the following cases:
 - (i) they are of an opposite nature from the natural amount of the item;
 - (ii) the nature of the data point allows for positive and negative values to be reported;
 - (iii) a different reporting format is required by the respective instructions set out in the Annexes.]

Textual Amendments

- F1** Substituted by Commission Implementing Regulation (EU) 2018/1844 of 23 November 2018 amending and correcting Implementing Regulation (EU) 2015/2450 laying down implementing technical standards with regard to the templates for the submission of information to the supervisory authorities in accordance with Directive 2009/138/EC of the European Parliament and of the Council (Text with EEA relevance).
- F2** Inserted by Commission Implementing Regulation (EU) 2018/1844 of 23 November 2018 amending and correcting Implementing Regulation (EU) 2015/2450 laying down implementing technical standards with regard to the templates for the submission of information to the supervisory authorities

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. No. 2018/138) or by the European Parliament and of the Council (Text with legislative procedure) of relevant amending instruments can be found on their website/s. (See end of Document for details)

Article 3 **U.K.**

Currency

1 For the purposes of this Regulation ‘reporting currency’, unless otherwise required by the supervisory authority, shall be:

- a for individual reporting, the currency used for the preparation of the insurance or reinsurance undertaking's financial statements;
- b for group reporting, the currency used for the preparation of the consolidated financial statements.

2 Data points with the data type ‘monetary’ shall be reported in the reporting currency, which requires the conversion of any other currency into the reporting currency unless otherwise stated in this Regulation.

3 When expressing the value of any asset or liability denominated in a currency other than the reporting currency, the value shall be converted into the reporting currency as if the conversion had taken place at the closing rate on the last day for which the appropriate rate is available in the reporting period to which the asset or liability relates.

4 When expressing the value of any income or expense, the value shall be converted into the reporting currency using such basis of conversion as that used for accounting purposes.

[^{F2}4a When expressing the values of historical data denominated in a currency other than the reporting currency, such values related to previous reporting periods shall be converted into the reporting currency based on the closing rate on the last day of the period being reported for which the conversion rate is available.]

5 The conversion into the reporting currency shall be calculated by applying the exchange rate from the same source as that used for the insurance or reinsurance undertaking's financial statements in the case of individual reporting or for the consolidated financial statements in the case of group reporting, unless otherwise required by the supervisory authority.

Textual Amendments

- F2** Inserted by Commission Implementing Regulation (EU) 2018/1844 of 23 November 2018 amending and correcting Implementing Regulation (EU) 2015/2450 laying down implementing technical standards with regard to the templates for the submission of information to the supervisory authorities in accordance with Directive 2009/138/EC of the European Parliament and of the Council (Text with EEA relevance).

Article 4 **U.K.**

Re-submission of data

Insurance and reinsurance undertakings, participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall re-submit as soon as practicable the information reported using the templates referred to in this Regulation when the information originally reported has materially

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (Exit Regulations) 2019, reg. 2(1), 2(2), 2(3), 2(4) and 2(5), which may be amended and corrected by the Prudential Regulation Authority. These amendments and corrections are published on their website/s. (See end of Document for details)

CHAPTER II **U.K.**

QUANTITATIVE REPORTING TEMPLATES FOR INDIVIDUAL UNDERTAKINGS

Article 5 **U.K.**

Quantitative templates for the opening information for individual undertakings

Insurance and reinsurance undertakings shall submit the information referred to in Article 314(1)(a) and (c) of Commission Delegated Regulation (EU) 2015/35 using the following templates:

- (a) template S.01.01.03 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex II;
- (b) template S.01.02.01 of Annex I, specifying basic information on the undertaking and the content of reporting in general, following the instructions set out in section S.01.02 of Annex II;
- (c) template S.01.03.01 of Annex I, specifying basic information on the ring-fenced funds and matching adjustment portfolios, following the instructions set out in section S.01.03 of Annex II;
- (d) template S.02.01.02 of Annex I, specifying balance sheet information using the valuation in accordance with Article 75 of Directive 2009/138/EC, following the instructions set out in section S.02.01 of Annex II to this Regulation;
- (e) template S.23.01.01 of Annex I, specifying information on own funds, following the instructions set out in section S.23.01 of Annex II;
- (f) where the undertaking uses the standard formula for the calculation of the Solvency Capital Requirement, template S.25.01.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.01 of Annex II;
- (g) where the undertaking uses the standard formula and a partial internal model for the calculation of the Solvency Capital Requirement, template S.25.02.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.02 of Annex II;
- (h) where the undertaking uses a full internal model for the calculation of the Solvency Capital Requirement, template S.25.03.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.03 of Annex II;
- (i) where insurance and reinsurance undertakings are engaged in only life or only non-life insurance or reinsurance activity, template S.28.01.01 of Annex I, specifying the Minimum Capital Requirement, following the instructions set out in section S.28.01 of Annex II;
- (j) where insurance undertakings are engaged in both life and non-life insurance activity, template S.28.02.01 of Annex I, specifying the Minimum Capital Requirement, following the instructions set out in section S.28.02 of Annex II.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not currently available on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

Article 6 **U.K.**

Quarterly quantitative templates for individual undertakings

1 Insurance and reinsurance undertakings shall submit quarterly, unless the scope or frequency of the reporting is limited in accordance with Article 35(6) of Directive 2009/138/EC, the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- a template S.01.01.02 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex II;
- b template S.01.02.01 of Annex I, specifying basic information on the undertaking and the content of reporting in general, following the instructions set out in section S.01.02 of Annex II;
- c template S.02.01.02 of Annex I, specifying balance sheet information using the valuation in accordance with Article 75 of Directive 2009/138/EC, following the instructions set out in section S.02.01 of Annex II to this Regulation;
- d template S.05.01.02 of Annex I, specifying information on premiums, claims and expenses applying the valuation and recognition principles used in the undertaking's financial statements for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.05.01 of Annex II to this Regulation;
- e template S.06.02.01 of Annex I, providing an item-by-item list of assets, following the instructions set out in section S.06.02 of Annex II and using the Complementary Identification Code ('CIC code') as set out in Annex V and defined in Annex VI;
- f where the ratio of collective investments held by the undertaking to total investments is higher than 30 %, template S.06.03.01 of Annex I, providing information on the look-through of all collective investments held by the undertaking, following the instructions set out in section S.06.03 of Annex II;
- g template S.08.01.01 of Annex I, providing an item-by-item list of open positions of derivatives, following the instructions set out in section S.08.01 of Annex II and using the CIC code as set out in Annex V and defined in Annex VI;
- h template S.08.02.01 of Annex I, providing an item-by-item list of derivatives closed during the reporting period, following the instructions set out in section S.08.02 of Annex II and using the CIC code as set out in Annex V and defined in Annex VI;
- i template S.12.01.02 of Annex I, specifying information on the technical provisions relating to life insurance and health insurance pursued on a similar technical basis to that of life insurance ('health SLT') for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.12.01 of Annex II to this Regulation;
- j template S.17.01.02 of Annex I, specifying information on non-life technical provisions for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.17.01 of Annex II to this Regulation;
- k template S.23.01.01 of Annex I, specifying information on own funds, following the instructions set out in section S.23.01 of Annex II;
- l where insurance and reinsurance undertakings are engaged in only life or only non-life insurance or reinsurance activity, template S.28.01.01 of Annex I, specifying the Minimum Capital Requirement, following the instructions set out in section S.28.01 of Annex II;

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019 and EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019, where insurance undertakings are engaged in both life and non-life insurance activity, following the instructions set out in section S.28.02 of Annex II.

2 For the purposes of point (f) of paragraph 1, the ratio of collective investments held by the undertaking to total investments shall be determined by the sum of items C0010/R0180, collective investment undertakings included in item C0010/R0220 and collective investment undertakings included in item C0010/R0090 of template S.02.01.02, divided by the sum of items C0010/R0070 and C0010/R0220 of template S.02.01.02.

Article 7 **U.K.**

Simplifications allowed on quarterly reporting for individual undertakings

1 With regard to the information referred to in point (c) of Article 6(1), quarterly measurements may rely on estimates and estimation methods to a greater extent than measurements of annual financial data. The measurement procedures for the quarterly reporting shall be designed to ensure that the resulting information is reliable and complies with the standards laid down in Directive 2009/138/EC and that all material information that is relevant for the understanding of the data is reported.

2 When submitting the information referred to in points (i) and (j) of Article 6(1), insurance and reinsurance undertakings may apply simplified methods in the calculation of the technical provisions.

Article 8 **U.K.**

Annual quantitative templates for individual undertakings — Basic information and content of submission

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) template S.01.01.01 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex II;
- (b) template S.01.02.01 of Annex I, specifying basic information on the undertaking and the content of the reporting in general, following the instructions set out in section S.01.02 of Annex II;
- (c) template S.01.03.01 of Annex I, specifying basic information on the ring-fenced funds and matching adjustment portfolios, following the instructions set out in section S.01.03 of Annex II.

Article 9 **U.K.**

Annual quantitative templates for individual undertakings — Balance sheet and other general information

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019 (S.I. 2019/1111).

- (a) template S.02.01.01 of Annex I, specifying balance sheet information using the valuation in accordance with Article 75 of Directive 2009/138/EC and the valuation following the undertaking's financial statements, following the instructions set out in section S.02.01 of Annex II to this Regulation;
- (b) template S.02.02.01 of Annex I, specifying information on assets and liabilities by currency, following the instructions set out in section S.02.02 of Annex II;
- (c) template S.03.01.01 of Annex I, specifying general information on off-balance sheet items, following the instructions set out in section S.03.01 of Annex II;
- (d) template S.03.02.01 of Annex I, providing a list of off-balance sheet unlimited guarantees received, following the instructions set out in section S.03.02 of Annex II;
- (e) template S.03.03.01 of Annex I, providing a list of off-balance sheet unlimited guarantees provided, following the instructions set out in section S.03.03 of Annex II;
- (f) template S.04.01.01 of Annex I, specifying information on activity by country, including EEA and non-EEA, applying the valuation and recognition principles used in the undertaking's financial statements for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.04.01 of Annex II to this Regulation;
- (g) template S.04.02.01 of Annex I, specifying information on class 10 in Part A of Annex I of Directive 2009/138/EC, excluding carrier's liability, following the instructions set out in section S.04.02 of Annex II to this Regulation;
- (h) template S.05.01.01 of Annex I, specifying information on premiums, claims and expenses applying the valuation and recognition principles used in the undertaking's financial statements for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.05.01 of Annex II to this Regulation;
- (i) template S.05.02.01 of Annex I, specifying information on premiums, claims and expenses by country, applying the valuation and recognition principles used in the undertaking's financial statements, following the instructions set out in section S.05.02 of Annex II.

Article 10 U.K.

Annual quantitative templates for individual undertakings — Investments information

Insurance and reinsurance undertakings shall submit annually, unless exempted under Article 35(7) of Directive 2009/138/EC in relation to a specific template, the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) where the undertaking is exempted from the annual submission of information in templates S.06.02.01 or S.08.01.01 in accordance with Article 35(7) of Directive 2009/138/EC, template S.06.01.01 of Annex I to this Regulation, providing summary information of assets, following the instructions set out in section S.06.01 of Annex II to this Regulation;
- (b) where the undertaking is exempted from reporting the template S.06.02.01 in relation to the last quarter in accordance with Article 35(6) of Directive 2009/138/EC, template S.06.02.01 of Annex I to this Regulation, providing an item-by-item list of assets,

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations, following the instructions set out in section S.06.02 of Annex I to this Regulation and legislation using the CIC code as set out in Annex V and defined in Annex VI of this Regulation.

- (c) where the undertaking is exempted from reporting the template S.06.03.01 in relation to the last quarter in accordance with Article 35(6) of Directive 2009/138/EC or has not reported it quarterly because the ratio of collective investments held by the undertaking to total investments, as referred to in Article 6(1)(f) of this Regulation, is not higher than 30 %, template S.06.03.01 of Annex I to this Regulation, providing information on the look-through of all collective investments held by the undertakings, following the instructions set out in section S.06.03 of Annex II to this Regulation;
- (d) where the value of structured products, determined as the sum of assets classified in categories 5 and 6, as defined in Annex V, represents more than 5 % of the total investments as reported in items C0010/R0070 and C0010/R0220 of template S.02.01.01, template S.07.01.01 of Annex I, providing an item-by-item list of structured products, following the instructions set out in section S.07.01 of Annex II;
- (e) where the undertakings are exempted from reporting the template S.08.01.01 in relation to the last quarter in accordance with Article 35(6) of Directive 2009/138/EC, template S.08.01.01 of Annex I to this Regulation, providing an item-by-item list of open positions of derivatives, following the instructions set out in section S.08.01 of Annex II to this Regulation and using the CIC code as set out in Annex V and defined in Annex VI to this Regulation;
- (f) where the undertakings are exempted from reporting the template S.08.02.01 in relation to the last quarter in accordance with Article 35(6) of Directive 2009/138/EC, template S.08.02.01 of Annex I to this Regulation, providing an item-by-item list of derivatives closed during the reporting period, following the instructions set out in section S.08.02 of Annex II to this Regulation and using the CIC code as set out in Annex V and defined in Annex VI to this Regulation;
- (g) template S.09.01.01 of Annex I, specifying information on income, gains and losses in the reporting period by asset category as defined in Annex IV, following the instructions set out in section S.09.01 of Annex II;
- (h) where the value of the underlying securities, on and off balance sheet, involved in lending or repurchase agreements, for contracts with maturity dates falling after the reporting reference date, represents more than 5 % of the total investments as reported in items C0010/R0070 and C0010/R0220 of template S.02.01.01, template S.10.01.01 of Annex I, providing an item-by-item list of securities lending and repurchase agreements, on and off-balance sheet, following the instructions set out in section S.10.01 of Annex II;
- (i) template S.11.01.01 of Annex I, providing an item-by-item list of assets held as collateral, consisting of all types of off-balance sheet asset categories held as collateral, following the instructions set out in section S.11.01 of Annex II.

Article 11 U.K.

Annual quantitative templates for individual undertakings — Technical provisions information

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019 (S.I. 2019/1111) reg. 1, 3, specifying information on life and health SLT technical provisions by lines of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.12.01 of Annex II to this Regulation;

- (a) template S.12.01.01 of Annex I, specifying information on life and health SLT technical provisions by lines of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.12.01 of Annex II to this Regulation;
- (b) template S.12.02.01 of Annex I, specifying information on life and health SLT technical provisions by country, following the instructions set out in section S.12.02 of Annex II;
- (c) template S.13.01.01 of Annex I, specifying information on the projection of best estimate future cash flows of the life business, following the instructions set out in section S.13.01 of Annex II;
- (d) template S.14.01.01 of Annex I, specifying information on life obligations analysis, including life insurance and reinsurance contracts and annuities stemming from non-life contracts, by product and by homogeneous risk group issued by the undertaking, following the instructions set out in section S.14.01 of Annex II;
- (e) template S.15.01.01 of Annex I, specifying information on description of the guarantees of variable annuities by product issued by the undertaking under direct insurance business, following the instructions set out in section S.15.01 of Annex II;
- (f) template S.15.02.01 of Annex I, specifying information on the hedging of guarantees of variable annuities by product issued by the undertaking under direct insurance business, following the instructions set out in section S.15.02 of Annex II;
- (g) template S.16.01.01 of Annex I, specifying information on annuities stemming from non-life insurance obligations issued by the undertaking under direct insurance business originating annuities, regarding all lines of business as defined in Annex I to Delegated Regulation (EU) 2015/35 and additionally by currency, following the instructions set out in section S.16.01 of Annex II to this Regulation; the information by currency shall only be reported where the best estimate for the annuity claims provisions on a discounted basis from one non-life line of business represents more than 3 % of the total best estimate for all annuity claims provisions, with the following split:
- (i) amounts for the reporting currency;
 - (ii) amounts for any currency that represents more than 25 % of the best estimate for the annuity claims provisions on a discounted basis in the original currency from that non-life line of business;
 - (iii) amounts for any currency that represents less than 25 % of the best estimate for the annuity claims provisions (discounted basis) in the original currency from that non-life line of business but more than 5 % of total best estimate for all annuity claims provisions;
- (h) template S.17.01.01 of Annex I, specifying information on non-life technical provisions by lines of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.17.01 of Annex II to this Regulation;
- (i) template S.17.02.01 of Annex I, specifying information on non-life technical provisions referred to direct insurance business by country, following the instructions set out in section S.17.02 of Annex II;

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

- (j) ~~template S.18.01.01 of Annex I, specifying information on the projection of future cash flows based on best estimate of the non-life business, following the instructions set out in section S.18.01 of Annex II;~~
- (k) template S.19.01.01 of Annex I, specifying information on non-life insurance claims in the format of development triangles, for the total of each non-life line of business as defined in Annex I to Delegated Regulation (EU) 2015/35 and additionally by currency, following the instructions set out in section S.19.01 of Annex II to this Regulation; the information by currency shall only be reported where the total gross best estimate for one non-life line of business represents more than 3 % of the total gross best estimate of the claims provision, with the following split:
- (i) amounts for the reporting currency;
 - (ii) amounts for any currency that represents more than 25 % of the gross best estimate of the claims provisions in the original currency from that non-life line of business;
 - (iii) amounts for any currency that represents less than 25 % of the gross best estimate of the claims provisions in the original currency from that non-life line of business but more than 5 % of total gross best estimate of the claims provisions in the original currency;
- (l) template S.20.01.01 of Annex I, specifying information on the development of the distribution of the claims incurred at the end of the financial year for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.20.01 of Annex II to this Regulation;
- (m) template S.21.01.01 of Annex I, specifying information on loss distribution risk profile of non-life business for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.21.01 of Annex II to this Regulation;
- (n) template S.21.02.01 of Annex I, specifying information on the non-life underwriting risks, following the instructions set out in section S.21.02 of Annex II;
- (o) template S.21.03.01 of Annex I, specifying information on non-life underwriting risks by sum insured by line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions in S.21.03 of Annex II to this Regulation.

Article 12 U.K.

Annual quantitative templates for individual undertakings — Long-term guarantees information

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) template S.22.01.01 of Annex I, specifying information on the impact of the long term guarantees and transitional measures, following the instructions set out in section S.22.01 of Annex II;
- (b) template S.22.04.01 of Annex I, specifying information on the interest rate transitional measure, following the instructions set out in section S.22.04 of Annex II;

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019, e.g. specifying information on the transitional measure on technical provisions, following the instructions set out in section S.22.05 of Annex II.

- (c) template S.22.05.01 of Annex I, specifying information on the transitional measure on technical provisions, following the instructions set out in section S.22.05 of Annex II;
- (d) template S.22.06.01 of Annex I, specifying information on the best estimate subject to volatility adjustment by country and currency, following the instructions set out in section S.22.06 of Annex II.

Article 13 U.K.

Annual quantitative templates for individual undertakings — Own funds and participations information

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) template S.23.01.01 of Annex I, specifying information on own funds, following the instructions set out in section S.23.01 of Annex II;
- (b) template S.23.02.01 of Annex I, providing detailed information on own funds by tiers, following the instructions set out in section S.23.02 of Annex II;
- (c) template S.23.03.01 of Annex I, specifying information on annual movements on own funds, following the instructions set out in section S.23.03 of Annex II;
- (d) template S.23.04.01 of Annex I, providing a list of items on own funds, following the instructions set out in section S.23.04 of Annex II;
- (e) template S.24.01.01 of Annex I, specifying information on participations held by the undertaking and an overview of the calculation for the deduction from own funds related to participations in financial and credit institutions, following the instructions set out in section S.24.01 of Annex II.

Article 14 U.K.

Annual quantitative templates for individual undertakings — Solvency Capital Requirement information

1 Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- a where the undertaking uses the standard formula for the calculation of the Solvency Capital Requirement, template S.25.01.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.01 of Annex II;
- b where the undertaking uses the standard formula and a partial internal model for the calculation of the Solvency Capital Requirement, template S.25.02.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.02 of Annex II;
- c where the undertaking uses a full internal model for the calculation of the Solvency Capital Requirement, template S.25.03.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.03 of Annex II;
- d template S.26.01.01 of Annex I, specifying information on market risk, following the instructions set out in section S.26.01 of Annex II;

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date.

Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation

Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

~~EU template S.26.03.01 of Annex I, specifying information on counterparty default risk, following the instructions set out in section S.26.03 of Annex II, (See end of Document for details)~~

- f template S.26.03.01 of Annex I, specifying information on life underwriting risk, following the instructions set out in section S.26.03 of Annex II;
- g template S.26.04.01 of Annex I, specifying information on health underwriting risk, following the instructions set out in section S.26.04 of Annex II;
- h template S.26.05.01 of Annex I, specifying information on non-life underwriting risk, following the instructions set out in section S.26.05 of Annex II;
- i template S.26.06.01 of Annex I, specifying information on operational risk, following the instructions set out in section S.26.06 of Annex II;
- j template S.26.07.01 of Annex I, specifying information on the simplifications used in the calculation of the Solvency Capital Requirement, following the instructions set out in section S.26.07 of Annex II;
- k template S.27.01.01 of Annex I, specifying information on non-life catastrophe risk, following the instructions set out in section S.27.01 of Annex II.

2 In case of existence of ring-fenced funds or matching adjustment portfolios, the templates referred to in points (d) to (k) of paragraph 1 shall not be reported for the entity as a whole.

3 Where a partial internal model is used, the templates referred to in points (d) to (k) of paragraph 1 shall only be reported in relation to the risks covered by the standard formula, unless otherwise decided on the basis of Article 19.

4 Where a full internal model is used, the templates referred to in points (d) to (k) of paragraph 1 shall not be reported.

Article 15 **U.K.**

Annual quantitative templates for individual undertakings — Minimum capital requirement information

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) where insurance and reinsurance undertakings are engaged in only life or only non-life insurance or reinsurance activity, template S.28.01.01 of Annex I, specifying the Minimum Capital Requirement, following the instructions set out in section S.28.01 of Annex II;
- (b) where insurance undertakings are engaged in both life and non-life insurance activity, template S.28.02.01 of Annex I, specifying the Minimum Capital Requirement, following the instructions set out in section S.28.02 of Annex II.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not currently available on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

Article 16 U.K.

Annual quantitative templates for individual undertakings — Variation analysis information

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) template S.29.01.01 of Annex I, specifying information on the variation of the excess of assets over liabilities during the reporting year providing a summary of main sources of this variation, following the instructions set out in section S.29.01 of Annex II;
- (b) template S.29.02.01 of Annex I, specifying information on the part of variation of the excess of assets over liabilities during the reporting year explained by investments and financial liabilities, following the instructions set out in section S.29.02 of Annex II;
- (c) templates S.29.03.01 and S.29.04.01 of Annex I, specifying information on the part of variation of the excess of assets over liabilities during the reporting year explained by technical provisions, following the instructions set out in section S.29.03 and S.29.04 of Annex II.

Article 17 U.K.

Annual quantitative templates for individual undertakings — Reinsurance and special purpose vehicles information

Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 using the following templates:

- (a) template S.30.01.01 of Annex I, specifying information on facultative covers in the next reporting year covering information on the 10 most important risks in terms of reinsured exposure for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35 for which facultative reinsurance is used, following the instructions set out in section S.30.01 of Annex II to this Regulation;
- (b) template S.30.02.01 of Annex I, specifying information on shares of reinsurers of facultative covers in the next reporting year covering information on the 10 most important risks in terms of reinsured exposure for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.30.02 of Annex II to this Regulation;
- (c) template S.30.03.01 of Annex I, specifying information on the outgoing reinsurance program in the next reporting year covering prospective information on reinsurance treaties the period of validity of which includes or overlaps the next reporting year, following the instructions set out in section S.30.03 of Annex II;
- (d) template S.30.04.01 of Annex I, specifying information on the outgoing reinsurance program in the next reporting year covering prospective information on reinsurance treaties the period of validity of which includes or overlaps the next reporting year, following the instructions set out in section S.30.04 of Annex II;

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019 (S.I. 2019/1093).

- (e) ~~template S.31.01.01 of Annex I, specifying information on the share of reinsurers, following the instructions set out in section S.31.01 of Annex II,~~
- (f) template S.31.02.01 of Annex I, specifying information on special purpose vehicles from the perspective of the insurance or reinsurance undertaking transferring risk to the special purpose vehicles, following the instructions set out in section S.31.02 of Annex II.

Article 18 U.K.

Annual quantitative templates for individual undertakings — ring-fenced funds, material matching adjustment portfolios and remaining part information

1 Insurance and reinsurance undertakings shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35 in relation to each material ring-fenced fund, each material matching adjustment portfolio and the remaining part, using the following templates:

- a template SR.01.01.01 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex II;
- b for each material ring-fenced fund and for the remaining part, template SR.02.01.01 of Annex I, specifying balance sheet information using both the valuation in accordance with Article 75 of Directive 2009/138/EC and the valuation following the undertaking's financial statements, following the instructions set out in section S.02.01 of Annex II to this Regulation;
- c template SR.12.01.01 of Annex I, specifying information on life and health SLT technical provisions for each line of business as defined in Annex I of Delegated Regulation (EU) 2015/35, following the instructions set out in section S.12.01 of Annex II to this Regulation;
- d template SR.17.01.01 of Annex I, specifying information on non-life technical provisions for each line of business as defined in Annex I of Delegated Regulation (EU) 2015/35, following the instructions set out in section S.17.01 of Annex II to this Regulation;
- e template SR.22.02.01 of Annex I, specifying information on the projection of future cash flows for the best estimate calculation by each material matching adjustment portfolio, following the instructions set out in section S.22.02 of Annex II;
- f template SR.22.03.01 of Annex I, specifying information on the matching adjustment portfolios by each material matching adjustment portfolio, following the instructions set out in section S.22.03 of Annex II;
- g where the undertaking uses the standard formula for the calculation of the Solvency Capital Requirement, template SR.25.01.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.01 of Annex II;
- h where the undertaking uses the standard formula and a partial internal model for the calculation of the Solvency Capital Requirement, template SR.25.02.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.02 of Annex II;
- i where the undertaking uses a full internal model for the calculation of the Solvency Capital Requirement, template SR.25.03.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.03 of Annex II;
- j template SR.26.01.01 of Annex I, specifying information on market risk, following the instructions set out in section S.26.01 of Annex II;

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019, and by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019, following the instructions set out in section S.26.02 of Annex II. (See end of Document for details)

- l template SR.26.02.01 of Annex I, specifying information on counterparty default risk, following the instructions set out in section S.26.02 of Annex II;
 - m template SR.26.03.01 of Annex I, specifying information on life underwriting risk, following the instructions set out in section S.26.03 of Annex II;
 - n template SR.26.04.01 of Annex I, specifying information on health underwriting risk, following the instructions set out in section S.26.04 of Annex II;
 - o template SR.26.05.01 of Annex I, specifying information on non-life underwriting risk, following the instructions set out in section S.26.05 of Annex II;
 - p template SR.26.06.01 of Annex I, specifying information on operational risk, following the instructions set out in section S.26.06 of Annex II;
 - q template SR.26.07.01 of Annex I, specifying information on the simplifications used in the calculation of the Solvency Capital Requirement, following the instructions set out in section S.26.07 of Annex II;
 - r template SR.27.01.01 of Annex I, specifying information on non-life catastrophe risk, following the instructions set out in section S.27.01 of Annex II.
- 2 Where a partial internal model is used, the templates referred to in points (j) to (q) shall only be reported in relation to the risks covered by the standard formula, unless otherwise decided on the basis of Article 19.
- 3 Where a full internal model is used, the templates referred to in points (j) to (q) shall not be reported.

Article 19 U.K.

Annual quantitative templates for individual undertakings — internal model users

Insurance and reinsurance undertakings that calculate the Solvency Capital Requirement using an approved partial or full internal model shall agree with its supervisory authority on the templates to be submitted annually in relation to the information on the Solvency Capital Requirement.

Article 20 U.K.

Annual quantitative templates for individual undertakings — intra-group-transactions information

Insurance and reinsurance undertakings which are not part of a group referred to in points (a), (b) or (c) of Article 213(2) of Directive 2009/138/EC and the parent undertaking of which is a mixed-activity insurance holding company shall submit annually the information referred to in the second subparagraph of Article 245(2) of that Directive, in conjunction with Article 265 of that Directive, using the following templates:

- (a) template S.36.01.01 of Annex I, specifying information on significant intra-group-transactions, involving equity-type transactions, debt and asset transfer, following the instructions set out in section S.36.01 of Annex II;
- (b) template S.36.02.01 of Annex I, specifying information on significant intra-group-transactions on derivatives, including the guarantees supporting any derivatives instruments, following the instructions set out in section S.36.02 of Annex II;

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019/1013 of Annex 1, specifying information on significant intra-group transactions of reinsurance, following the instructions set out in section S.36.03 of Annex II;

- (c) ~~template S.36.03.01 of Annex I, specifying information on significant intra-group transactions of reinsurance, following the instructions set out in section S.36.03 of Annex II;~~
- (d) template S.36.04.01 of Annex I, specifying information on significant intra-group transactions on internal cost sharing, contingent liabilities other than derivatives and off-balance sheet items and other types of intra-group transactions, following the instructions set out in section S.36.04 of Annex II.

Article 21 **U.K.**

Quantitative templates for individual undertakings — intra-group transactions information

Insurance and reinsurance undertakings which are not part of a group referred to in points (a), (b) or (c) of Article 213(2) of Directive 2009/138/EC and the parent undertaking of which is a mixed-activity insurance holding company shall report very significant intra-group transactions referred to in the second subparagraph of Article 245(2) of that Directive, in conjunction with Article 265 of that Directive, and intra-group transactions to be reported in all circumstances referred to in Article 245(3) of that Directive, in conjunction with Article 265 of that Directive, as soon as practicable using the relevant templates among templates S.36.01.01 to S.36.04.01 of Annex I to this Regulation, following the instructions set out in section S.36.01 to S.36.04 of Annex II to this Regulation.

CHAPTER III **U.K.**

QUANTITATIVE REPORTING TEMPLATES FOR GROUPS

Article 22 **U.K.**

Quantitative templates for the opening information for groups

1 Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit the information referred to in Article 314(1) (a) and (c) of Delegated Regulation (EU) 2015/35, in conjunction with Article 375(1) of that Delegated Regulation, using the following templates:

- a template S.01.01.06 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex III;
- b template S.01.02.04 of Annex I, specifying basic information on the group and the content of the reporting in general, following the instructions set out in section S.01.02 of Annex III;
- c template S.01.03.04 of Annex I, specifying basic information on the ring-fenced funds and the matching adjustment portfolios, following the instructions set out in section S.01.03 of Annex III;
- d template S.02.01.02 of Annex I, specifying balance sheet information, following the instructions set out in section S.02.01 of Annex III;
- e template S.23.01.04 of Annex I, specifying information on own funds, following the instructions set out in section S.23.01 of Annex III;

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date.

Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation

Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

where the group uses the standard formula for the calculation of the Solvency Capital Requirement, template S.25.01.04 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.01 of Annex III;

- g where the group uses the standard formula and a partial internal model for the calculation of the Solvency Capital Requirement, template S.25.02.04 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.02 of Annex III;
- h where the group uses a full internal model for the calculation of the Solvency Capital Requirement, template S.25.03.04 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.03 of Annex III;
- i template S.32.01.04 of Annex I, specifying information on the insurance and reinsurance undertakings in the scope of the group, following the instructions set out in section S.32.01 of Annex III;
- j template S.33.01.04 of Annex I, specifying information on requirements of insurance and reinsurance undertakings in the scope of the group, following the instructions set out in section S.33.01 of Annex III;
- k template S.34.01.04 of Annex I, specifying information on other regulated financial undertakings and other non-regulated financial undertakings including insurance holding companies and mixed financial holding companies, following the instructions set out in section S.34.01 of Annex III.

2 The templates referred to in points (c), (d), (f), (g) and (h) of paragraph 1 shall only be submitted by participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies which, for the calculation of group solvency, use method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive.

Article 23 U.K.

Quarterly quantitative templates for groups

1 Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit quarterly, unless the scope or the frequency of the reporting is limited in accordance with the second subparagraph of Article 254(2) of Directive 2009/138/EC, the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- a template S.01.01.05 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex III;
- b template S.01.02.04 of Annex I, specifying basic information on the group and the content of the reporting in general, following the instructions set out in section S.01.02 of Annex III;
- c where, for the calculation of group solvency, the group uses method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive, template S.02.01.02 of Annex I to this Regulation, specifying balance sheet information using the valuation in accordance with Article 75 of Directive 2009/138/EC, following the instructions set out in section S.02.01 of Annex III to this Regulation;
- d template S.05.01.02 of Annex I, specifying information on premiums, claims and expenses for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35 using the valuation and recognition principles used in the consolidated

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations, following the instructions set out in section S.05.01 of Annex III to this Regulation. Significant amending instruments can be found on their website/s. (See end of Document for details)

- e template S.06.02.04 of Annex I, providing an item-by-item list of assets, following the instructions set out in section S.06.02 of Annex III and using the CIC code as set out in Annex V and defined in Annex VI;
- f where the ratio of collective investments held by the group to total investments is higher than 30 %, template S.06.03.04 of Annex I, providing information on the look-through of all collective investments held by the group, following the instructions set out in section S.06.03 of Annex III;
- g template S.08.01.04 of Annex I, providing an item-by-item list of open positions of derivatives, following the instructions set out in section S.08.01 of Annex III and using the CIC code as set out in Annex V and defined in Annex VI;
- h template S.08.02.04 of Annex I, providing an item-by-item list of transactions of derivatives during the reporting year, following the instructions set out in section S.08.02 of Annex III and using the CIC code as set out in Annex V and defined in Annex VI;
- i template S.23.01.04 of Annex I, specifying information on own funds, following the instructions set out in section S.23.01 of Annex III.

2 For the purposes of point (f) of paragraph 1, where for the calculation of group solvency method 1 as defined in Article 230 of Directive 2009/138/EC is used exclusively, the ratio of collective investments held by the group to total investments shall be determined by the sum of items C0010/R0180, collective investment undertakings included in item C0010/R0220 and collective investment undertakings included in item C0010/R0090 of template S.02.01.02, divided by the sum of items C0010/R0070 and C0010/R0220 of template S.02.01.02. Where, for the calculation of group solvency, method 1 is used in combination with method 2 as defined in Article 233 of Directive 2009/138/EC, or method 2 is used exclusively, the ratio shall be calculated in accordance with the first sentence and adjusted in order to capture the required items of all entities included in the scope of template S.06.02.04.

Article 24 **U.K.**

Simplifications allowed on quarterly reporting for groups

With regard to the information referred to in point (c) of Article 23(1), quarterly measurements may rely on estimates and estimation methods to a greater extent than measurements of annual financial data. The measurement procedures for the quarterly reporting shall be designed to ensure that the resulting information is reliable and complies with the standards laid down in Directive 2009/138/EC and that all material information that is relevant for the understanding of the data is reported.

Article 25 **U.K.**

Annual quantitative templates for groups — Basic information and content of submission

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019, and any subsequent amendments thereto. (See end of Document for details)

- (a) ~~template S.01.01.04 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex III;~~
- (b) template S.01.02.04 of Annex I, specifying basic information on the undertaking and the content of the reporting in general, following the instructions set out in section S.01.02 of Annex III;
- (c) where, for the calculation of group solvency, the group uses method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive, template S.01.03.04 of Annex I to this Regulation, specifying basic information on the ring-fenced funds and matching adjustment portfolios, following the instructions set out in section S.01.03 of Annex III to this Regulation.

Article 26 U.K.

Annual quantitative templates for groups — Balance sheet and other general information

1 Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- a template S.02.01.01 of Annex I, specifying balance sheet information using both the valuation in accordance with Article 75 of Directive 2009/138/EC and the valuation following the consolidated financial statements, following the instructions set out in section S.02.01 of Annex III;
- b template S.02.02.01 of Annex I, specifying information on assets and liabilities by currency, following the instructions set out in section S.02.02 of Annex III;
- c template S.03.01.04 of Annex I, specifying general information on off-balance sheet items, following the instructions set out in section S.03.01 of Annex III;
- d template S.03.02.04 of Annex I, providing a list of off-balance sheet unlimited guarantees received, following the instructions set out in section S.03.02 of Annex III;
- e template S.03.03.04 of Annex I, providing a list of off-balance sheet unlimited guarantees provided, following the instructions set out in section S.03.03 of Annex III;
- f template S.05.01.01 of Annex I, specifying information on premiums, claims and expenses for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35 applying the valuation and recognition principles used in the consolidated financial statements, following the instructions set out in section S.05.01 of Annex III to this Regulation;
- g template S.05.02.01 of Annex I, specifying information on premiums, claims and expenses by country applying the valuation and recognition principles used in the consolidated financial statements, following the instructions set out in section S.05.02 of Annex III.

2 The templates referred to in points (a) and (b) of paragraph 1 shall only be submitted by participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies which, for the calculation of group solvency, use method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not currently available on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

Article 27 U.K.

Annual quantitative templates for groups — Investments information

1 Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall, unless exempted under the third subparagraph of Article 254(2) of Directive 2009/138/EC in relation to a specific template, submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- a where the group is exempted from the annual submission of information in templates S.06.02.04 or S.08.01.04 in accordance with the third subparagraph of Article 254(2) of Directive 2009/138/EC, template S.06.01.01 of Annex I to this Regulation, providing summary information of assets, following the instructions set out in section S.06.01 of Annex III to this Regulation;
- b where the group is exempted from reporting the template S.06.02.04 in relation to the last quarter in accordance with the second subparagraph of Article 254(2) of Directive 2009/138/EC, template S.06.02.04 of Annex I to this Regulation, providing an item-by-item list of assets, following the instructions set out in section S.06.02 of Annex III to this Regulation;
- c where the group is exempted from reporting the template S.06.03.04 in relation to the last quarter in accordance with the second subparagraph of Article 254(2) of Directive 2009/138/EC, or has not reported it quarterly because the ratio of collective investment held by the group to total investments, as referred to in Article 23(1)(f) of this Regulation, is not higher than 30 %, template S.06.03.04 of Annex I to this Regulation, providing information on the look-through of all collective investments held by the undertakings, following the instructions set out in section S.06.03 of Annex III to this Regulation;
- d where the ratio of the value of structured products held by the group to total investments is higher than 5 %, template S.07.01.04 of Annex I, providing an item-by-item list of structured products, following the instructions set out in section S.07.01 of Annex III;
- e where the group is exempted from reporting the template S.08.01.04 in relation to the last quarter in accordance with the second subparagraph of Article 254(2) of Directive 2009/138/EC, template S.08.01.04 of Annex I to this Regulation, providing an item-by-item list of open positions of derivatives, following the instructions set out in section S.08.01 of Annex III to this Regulation;
- f where the group is exempted from reporting the template S.08.02.04 in relation to the last quarter in accordance with the second subparagraph of Article 254(2) of Directive 2009/138/EC, template S.08.02.04 of Annex I to this Regulation, providing an item-by-item list of transactions of derivatives, following the instructions set out in section S.08.02 of Annex III to this Regulation;
- g template S.09.01.04 of Annex I, specifying information on income, gains and losses in the reporting period by asset category as defined in Annex IV, following the instructions set out in section S.09.01 of Annex III;
- h where the ratio of the value of underlying securities, on and off balance sheet, involved in lending or repurchase agreements, for contracts with maturity dates falling after the reporting reference date, to the total investments is higher than 5 %, template S.10.01.04 of Annex I, providing an item-by-item list securities lending and repurchase agreements on and off-balance sheet, following the instructions set out in section S.10.01 of Annex III;

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019, providing an up-to-date list of assets held as collateral, consisting of all types of off-balance sheet asset categories held as collateral, following the instructions set out in section S.11.01 of Annex III.

2 For the purposes of point (d) of paragraph 1, where for the calculation of group solvency method 1 as defined in Article 230 of Directive 2009/138/EC is used exclusively, the ratio of the value of structured products held by the group to total investments shall be determined by the sum of assets classified in categories 5 and 6, as defined in Annex IV to this Regulation, divided by the sum of items C0010/R0070 and C0010/R0020 of template S.02.01.01. Where, for the calculation of group solvency, method 1 is used in combination with method 2 as defined in Article 233 of Directive 2009/138/EC, or method 2 is used exclusively, the ratio shall be calculated in accordance with the first sentence and adjusted in order to capture the required items of all entities included in the scope of template S.06.02.04.

3 For the purposes of point (h) of paragraph 1, where for the calculation of group solvency method 1 as defined in Article 230 of Directive 2009/138/EC is used exclusively, the ratio shall be determined by the sum of the underlying securities, on and off balance sheet, involved in lending or repurchase agreements, for contracts with maturity dates falling after the reporting reference date, divided by the sum of items C0010/R0070 and C0010/R0220 of template S.02.01.01. Where, for the calculation of group solvency, method 1 is used in combination with method 2 as defined in Article 233 of Directive 2009/138/EC, or method 2 is used exclusively, the ratio shall be calculated in accordance with the first sentence and adjusted in order to capture the required items of all entities included in the scope of template S.06.02.04.

Article 28 **U.K.**

Annual quantitative templates for groups — Variable annuities information

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- (a) template S.15.01.04 of Annex I, specifying information on the description of the guarantees of variable annuities by product issued under direct business by undertakings in the scope of the group and established outside the EEA, following the instructions set out in section S.15.01 of Annex III;
- (b) template S.15.02.04 of Annex I, specifying information on the hedging of guarantees of variable annuities by product issued under direct business by undertakings in the scope of the group and established outside the EEA, following the instructions set out in section S.15.02 of Annex III.

Article 29 **U.K.**

Annual quantitative templates for groups — Long term guarantees information

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using template S.22.01.04 of Annex I to this Regulation, specifying information on the impact of the long term guarantees and

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (transitional measures) following the instructions set out in section S.22.01 of Annex III to this Regulation. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

Article 30 **U.K.**

Annual quantitative templates for groups — Own funds information

1 Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- a template S.23.01.04 of Annex I, specifying information on own funds, following the instructions set out in section S.23.01 of Annex III;
- b template S.23.02.04 of Annex I, providing detailed information on own funds by tiers, following the instructions set out in section S.23.02 of Annex III;
- c template S.23.03.04 of Annex I, specifying information on annual movements on own funds, following the instructions set out in section S.23.03 of Annex III;
- d template S.23.04.04 of Annex I, providing a list of items on own funds, following the instructions set out in section S.23.04 of Annex III.

2 The templates referred to in points (b) and (c) of paragraph 1 shall only be submitted by participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies which, for the calculation of group solvency, use method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive.

Article 31 **U.K.**

Annual quantitative templates for groups — Solvency Capital Requirement information

1 Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies which, for the calculation of group solvency, use method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive, shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- a where the group uses the standard formula for the calculation of the Solvency Capital Requirement, template S.25.01.04 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.01 of Annex III;
- b where the group uses the standard formula and a partial internal model for the calculation of the Solvency Capital Requirement, template S.25.02.04 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.02 of Annex III;
- c where the group uses a full internal model for the calculation of the Solvency Capital Requirement, template S.25.03.04 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.03 of Annex III;
- d template S.26.01.04 of Annex I, specifying information on market risk, following the instructions set out in section S.26.01 of Annex III;
- e template S.26.02.04 of Annex I, specifying information on counterparty default risk, following the instructions set out in section S.26.02 of Annex III;

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019.

template S.26.03.04 of Annex I, specifying information on life underwriting risk, following the instructions set out in section S.26.03 of Annex III,
legislation following the instructions set out in section S.26.03 of Annex III, (See end of Document for details)

- g template S.26.04.04 of Annex I, specifying information on health underwriting risk, following the instructions set out in section S.26.04 of Annex III;
 - h template S.26.05.04 of Annex I, specifying information on non-life underwriting risk, following the instructions set out in section S.26.05 of Annex III;
 - i template S.26.06.04 of Annex I, specifying information on operational risk, following the instructions set out in section S.26.06 of Annex III;
 - j template S.26.07.04 of Annex I, specifying information on the simplifications used in the calculation of the Solvency Capital Requirement, following the instructions set out in section S.26.07 of Annex III;
 - k template S.27.01.04 of Annex I, specifying information on non-life catastrophe risk, following the instructions set out in section S.27.01 of Annex III.
- 2 In case of existence of ring-fenced funds or matching adjustment portfolios, the templates referred to in points (d) to (k) of paragraph 1 shall not be reported for the group as a whole.
- 3 Where a partial internal model is used, the templates referred to in points (d) to (k) of paragraph 1 shall only be reported in relation to the risks covered by the standard formula, unless otherwise decided on the basis of Article 35.
- 4 Where a full internal model is used, the templates referred to in points (d) to (k) of paragraph 1 shall not be reported.

Article 32 U.K.

Annual quantitative templates for groups — Reinsurers and special purpose vehicles information

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- (a) template S.31.01.04 of Annex I, specifying information on share of reinsurers, following the instructions set out in section S.31.01 of Annex III;
- (b) template S.31.02.04 of Annex I, specifying information on special purpose vehicles from the perspective of the insurance or reinsurance undertaking transferring risk to the special purpose vehicles, following the instructions set out in section S.31.02 of Annex III.

Article 33 U.K.

Annual quantitative templates for groups — Group specific information

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation using the following templates:

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019 (S.I. No. 115) and by the Prudential Regulation Authority (EU Exit) Regulations 2019 (S.I. No. 116).

- (a) ~~template S.32.01.04 of Annex 2, specifying information on the insurance and reinsurance undertakings in the scope of the group, following the instructions set out in section S.32.01 of Annex III;~~
- (b) template S.33.01.04 of Annex I, specifying information on requirements of insurance and reinsurance undertakings in the scope of the group, following the instructions set out in section S.33.01 of Annex III;
- (c) template S.34.01.04 of Annex I, specifying information on financial undertakings other than insurance and reinsurance undertakings, and on non-regulated undertakings carrying out financial activities as defined in Article 1(52) of Delegated Regulation (EU) 2015/35, following the instructions set out in section S.34.01 of Annex III;
- (d) template S.35.01.04 of Annex I, specifying information on technical provisions of undertakings of the group, following the instructions set out in section S.35.01 of Annex III;
- (e) template S.36.01.01 of Annex I, specifying information on significant intra-group-transactions involving equity-type transactions, debt and asset transfer, above the threshold determined by the group supervisor in accordance with Article 245(3) of Directive 2009/138/EC, following the instructions set out in section S.36.01 of Annex III to this Regulation;
- (f) template S.36.02.01 of Annex I, specifying information on significant intra-group-transactions on derivatives, including the guarantees supporting any derivatives instruments, above the threshold determined by the group supervisor in accordance with Article 245(3) of Directive 2009/138/EC, following the instructions set out in section S.36.02 of Annex III to this Regulation;
- (g) template S.36.03.01 of Annex I, specifying information on significant intra-group-transactions on reinsurance, above the threshold determined by the group supervisor in accordance with Article 245(3) of Directive 2009/138/EC, following the instructions set out in section S.36.03 of Annex III to this Regulation;
- (h) template S.36.04.01 of Annex I, specifying information on significant intra-group-transactions on internal cost sharing, contingent liabilities (other than derivatives) and off-balance sheet items and other types of intra-group transactions, above the threshold determined by the group supervisor in accordance with Article 245(3) of Directive 2009/138/EC, following the instructions set out in section S.36.04 of Annex III to this Regulation;
- (i) template S.37.01.04 of Annex I, specifying information on significant risk concentrations, above the threshold determined by the group supervisor in accordance with Article 244(3) of Directive 2009/138/EC, following the instructions set out in section S.37.01 of Annex III to this Regulation.

Article 34 **U.K.**

Annual quantitative templates for groups — ring-fenced funds, material matching adjustment portfolios and remaining part information

1 Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies which, for the calculation of group solvency, use method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive, shall submit annually the information

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019, and by the Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates in relation to all material ring-fenced funds and all material matching adjustment portfolios related to the part that is consolidated as referred to in points (a) and (c) of Article 335(1) of Delegated Regulation (EU) 2015/35, as well as in relation to the remaining part:

- a template SR.01.01.04 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex III;
 - b where the group uses the standard formula for the calculation of the Solvency Capital Requirement, template SR.25.01.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.01 of Annex III;
 - c where the group uses the standard formula and a partial internal model for the calculation of the Solvency Capital Requirement, template SR.25.02.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.02 of Annex III;
 - d where the group uses a full internal model for the calculation of the Solvency Capital Requirement, template SR.25.03.01 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.03 of Annex III;
 - e template SR.26.01.01 of Annex I, specifying information on market risk, following the instructions set out in section S.26.01 of Annex III;
 - f template SR.26.02.01 of Annex I, specifying information on counterparty default risk, following the instructions set out in section S.26.02 of Annex III;
 - g template SR.26.03.01 of Annex I, specifying information on life underwriting risk, following the instructions set out in section S.26.03 of Annex III;
 - h template SR.26.04.01 of Annex I, specifying information on health underwriting risk, following the instructions set out in section S.26.04 of Annex III;
 - i template SR.26.05.01 of Annex I, specifying information on non-life underwriting risk, following the instructions set out in section S.26.05 of Annex III;
 - j template SR.26.06.01 of Annex I, specifying information on operational risk following, the instructions set out in section S.26.06 of Annex III;
 - k template SR.26.07.01 of Annex I, specifying information on the simplifications used in the calculation of the Solvency Capital Requirement, following the instructions set out in section S.26.07 of Annex III;
 - l template SR.27.01.01 of Annex I, specifying information on non-life catastrophe risk, following the instructions set out in section S.27.01 of Annex III.
- 2 Where a partial internal model is used, the templates referred to in points (e) to (l) of paragraph 1 shall only be reported in relation to the risks covered by the standard formula, unless otherwise decided on the basis of Article 35.
- 3 Where a full internal model is used, the templates referred to in points (e) to (l) of paragraph 1 shall not be reported.
- 4 Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies which, for the calculation of group solvency, use method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive, shall, in addition to the information submitted using templates referred to in paragraph 1, annually submit balance sheet information in relation to all material ring-fenced funds related to the part that is consolidated as referred to in points (a) or (c) of Article 335(1) of Delegated Regulation (EU) 2015/35, as well as in relation to the remaining part, as referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using template SR.02.01.01

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (Amendment etc.) of Annex I to this Regulation, following the instructions set out in section S.02.01 of Annex III to this Regulation. Relevant amending instruments can be found on their website/s. (See end of Document for details)

Article 35 **U.K.**

Annual quantitative templates for groups — internal model users

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies that calculate the Solvency Capital Requirement using an approved partial or full internal model shall agree with its group supervisor the templates to be submitted annually in relation to the information on the Solvency Capital Requirement.

Article 36 **U.K.**

Quantitative templates for groups — intra-group transactions and risk concentrations

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall report:

- (a) significant and very significant intra-group transactions referred to in the first and second subparagraphs of Article 245(2) of Directive 2009/138/EC and intra-group transactions to be reported in all circumstances referred to in Article 245(3) of that Directive using, as appropriate, templates S.36.01.01, S.36.02.01, S.36.03.01 and S.36.04.01 of Annex I to this Regulation, following the instructions set out in section S.36.01 to S.36.04 of Annex III to this Regulation;
- (b) significant risk concentrations referred to in Article 244(2) of Directive 2009/138/EC and risk concentrations to be reported in all circumstances referred to in Article 244(3) of that Directive using template S.37.01.04 of Annex I to this Regulation, following the instructions set out in section S.37.01 of Annex III to this Regulation.

CHAPTER IV **U.K.**

FINAL PROVISION

Article 37 **U.K.**

Entry into force

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall apply from 1 January 2016.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not currently available on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

ANNEX II **U.K.**

Instructions regarding reporting templates for individual undertakings

This Annex contains additional instructions in relation to the templates included in Annex I of this Regulation. The first column of the tables identifies the items to be reported by identifying the columns and rows as showed in the template in Annex I.

Templates which shall be filled in in accordance with the instructions of the different sections of this Annex are referred to as ‘this template’ throughout the text of the Annex.

S.01.01 — Content of the submission

General comments:

This section relates to opening, quarterly and annual submission of information for individual entities, ring fenced–funds, matching portfolios and remaining part.

When a special justification is needed, the explanation is not to be submitted within the reporting template but shall be part of the dialogue between undertakings and national competent authorities.

	ITEM	INSTRUCTIONS
Z0010	Ring–fenced fund/matching portfolio/remaining part	Identifies whether the reported figures are with regard to a ring–fenced fund (‘RFF’), matching adjustment portfolio (‘MAP’) or to the

Status: Point in time view as at 31/12/2020.

S.01.03 — Basic Information — RFF and matching adjustment portfolios

General comments:

This section relates to opening and annual submission of information for individual entities.

All ring-fenced funds and matching portfolios should be identified regardless if they are material for the purposes of submission of information.

In the first table all ring-fenced funds and matching adjustments portfolios shall be reported. In case a ring-fenced fund has a matching portfolio not covering the full RFF three funds have to be identified, one for the RFF, other for the MAP inside the RFF and other for the remaining part of the fund (vice-versa for the situations where a MAP has a RFF).

In the second table the relations between the funds as explained in previous paragraph are explained. Only the funds with such relations shall be reported in the second table.

	ITEM	INSTRUCTIONS
	List of all RFF/MAP (overlaps allowed)	
C0040	Fund /Portfolio Number	Number which is attributed by the undertaking,

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments correspond to the unique number assigned to each ring-fenced fund and matching adjustment portfolio. Details of relevant amending instruments can be found on their website legislation.gov.uk.

		fenced fund and matching adjustment portfolio. This number has to be consistent over time and shall be used to identify the ring fenced funds and the matching portfolio number in other templates.
C0050	Name of ring-fenced fund/Matching adjustment portfolio	Indicate the name of the ring fenced fund and matching adjustment portfolio. When possible (if linked to a commercial product) the commercial name shall be used. If not possible, e.g. if the fund is linked to several commercial products, a different name shall be used. The name shall be unique and be kept consistent over time.
C0060	RFF/MAP/Remaining part of a fund	Indicate if it is a ring fenced fund or a matching portfolio. In the cases where other funds are included within one fund this cell shall identify the type of each fund or sub-fund. One of the options in the following closed list shall be used: <ul style="list-style-type: none"> 1 — Ring-fenced fund 2 — Matching portfolio 3 — Remaining part of a fund
C0070	RFF/MAP with sub RFF/MAP	Identify if the fund identified has other funds embedded. One of the options in the following closed list shall be used: <ul style="list-style-type: none"> 1 — Fund with other funds embedded 2 — Not a fund with other funds embedded Only the 'mother' fund shall be identified with option 1.
C0080	Material	Indicate if the ring-fenced fund or a matching portfolio

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are material for the purposes of detailed submission of details) legislation.gov.uk. Details of relevant amending instruments can be found on their website.

		information. One of the options in the following closed list shall be used: 1 — Material 2 — Not material In case of fund with other funds embedded, this item is to be reported only for the 'mother' fund.
C0090	Article 304	Indicate whether the RFF is under Article 304 of Solvency II Directive. One of the following option shall be used: 1 — RFF under Article 304 — with the option for the equity risk sub-module 2 — RFF under Article 304 — without the option for the equity risk sub-module 3 — RFF not under Article 304
List of RFF/MAP with sub RFF/MAP		
C0100	Number of RFF/MAP with sub RFF/MAP	For the funds with other funds embedded (option 1 reported in item C0070) identify the number as defined for item C0040. The fund shall be repeated for as many rows as needed to report the funds embedded.
C0110	Number of sub RFF/MAP	Identify the number of the funds embedded in other funds as defined for item C0040.
C0120	Sub RFF/MAP	Identify if the nature of the fund embedded in other funds. One of the options in the following closed list shall be used: 1 — Ring-fenced fund 2 — Matching portfolio

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

S.02.01 Exit Balance sheet (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not currently available on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

General comments:

This section relates to opening, quarterly and annual submission of information for individual entities, ring fenced–funds and remaining part.

The ‘Solvency II value’ column (C0010) shall be completed using the valuation principles set out in the Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency 2 Technical Standards and Guidelines.

With regards to the ‘Statutory accounts value’ column (C0020), recognition and valuation methods are the ones used by undertakings in their statutory accounts in accordance with the local GAAP or IFRS if accepted as local GAAP. In template SR.02.01 this column is only applicable if the development of financial statements by RFF is required by national law.

The default instruction is that each item shall be reported in the ‘Statutory accounts value’ column, separately. However, in the ‘Statutory accounts value’ column the dotted rows were introduced in order to enable the reporting of aggregated figures if the split figures are not available.

	ITEM	INSTRUCTIONS
Assets		
Z0020	Ring–fenced fund or remaining part	Identifies whether the reported figures are with regard to a RFF or to the remaining part. One of the options in the following closed list shall be used: 1 — RFF 2 — Remaining part
Z0030	Fund number	When item Z0020 = 1, this is a unique number of fund, as attributed by the undertaking. It shall remain unvarying over time. It shall not be re–used for any other fund. [^{F11} The number shall be used consistently across all templates, where relevant, to identify that fund.] When item Z0020 = 2, then report ‘0’
C0020/R0010	Goodwill	Intangible asset that arises as the result of a business combination and that represents the economic value of assets that cannot be individually identified or separately recognised in a business combination.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

C0020/R0020	Deferred acquisition costs	Acquisition costs relating to contracts in force at the
		balance sheet date which are carried forward from one reporting period to subsequent reporting periods, relating to the unexpired periods of risks. In relation to life business, acquisition costs are deferred when it is probable that they will be recovered.
C0010–C0020/R0030	Intangible assets	Intangible assets other than goodwill. An identifiable non-monetary asset without physical substance.
C0010–C0020/R0040	Deferred tax assets	Deferred tax assets are the amounts of income taxes recoverable in future periods in respect of: (a) deductible temporary differences; (b) the carryforward of unused tax losses; and/or (c) the carryforward of unused tax credits.
C0010–C0020/R0050	Pension benefit surplus	This is the total of net surplus related to employees' pension scheme.
C0010–C0020/R0060	Property, plant & equipment held for own use	Tangible assets which are intended for permanent use and property held by the undertaking for own use. It includes also property for own use under construction.
C0010–C0020/R0070	Investments (other than assets held for index-linked and unit-linked contracts)	This is the total amount of investments, excluding assets held for index-linked and unit-linked contracts.
C0010–C0020/R0080	Property (other than for own use)	Amount of the property, other than for own use. It includes also property under construction other than for own use.
C0010–C0020/R0090	Holdings in related undertakings, including participations	Participations as defined in Article 13(20) and 212 (2) and holdings in related

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are available on legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (See end of Document for details)

		2009/138/EC. When part of the assets regarding participation and related undertakings refer to unit and index linked contracts, these parts shall be reported in 'Assets held for index-linked and unit-linked contracts' in C0010-C0020/R0220.
C0010-C0020/R0100	Equities	This is the total amount of equities, listed and unlisted. With regard to 'statutory accounts values' column (C0020), where the split between listed and unlisted is not available, this item shall reflect the sum.
C0010-C0020/R0110	Equities — listed	Shares representing corporations' capital, e.g. representing ownership in a corporation, negotiated on a regulated market or on a multilateral trading facility, as defined by Directive 2004/39/EC. It shall exclude holdings in related undertakings, including participations. With regard to 'statutory accounts values' column (C0020), where the split between listed and unlisted is not available, this item shall not be reported.
C0010-C0020/R0120	Equities — unlisted	Shares representing corporations' capital, e.g. representing ownership in a corporation, not negotiated on a regulated market or on a multilateral trading facility, as defined by Directive 2004/39/EC. It shall exclude holdings in related undertakings, including participations. With regard to 'statutory accounts values' column (C0020), where the split

Status: Point in time view as at 31/12/2020.

C0020/R1000	Excess of assets over liabilities (statutory accounts value)	This is the total of excess of assets over liabilities of statutory accounts value column.

S.02.02 — Assets and liabilities by currency

General comment:

This section relates to annual submission of information for individual entities.

This template is to be filled in accordance to the Balance sheet (S.02.01). Valuation principles are laid down in Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency II Technical Standards and Guidelines.

This template is not required to be submitted if one single currency represents more than 90 % of assets and also of liabilities.

If submitted, information on the reporting currency shall always be reported regardless of the amount of assets and liabilities. Information reported by currency shall at least represent 90 % of the total assets and of the total liabilities. The remaining 10 % shall be aggregated. If a specific currency has to be reported for either assets or liabilities to comply with the 90 % rule then that currency shall be reported for both assets and liabilities.

	ITEM	INSTRUCTIONS
C0010/R0010	Currencies	Identify the ISO 4217 alphabetic code of each currency to be reported.

S.03.01 — Off-balance sheet items — General

General comments:

This section relates to annual submission of information for individual entities.

This section includes the information referring to off-balance sheet items and the maximum and solvency II value of contingent liabilities in Solvency II balance sheet.

As regards the Solvency II value, the instructions define the items from a recognition perspective. Valuation principles are laid down in Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency II Technical Standards and Guidelines.

Guarantees require the issuer to make specified payments to reimburse the holder for a loss it incurs if a specified debtor fails to make payment when due under the original or modified terms of a debt instrument. These guarantees can have various legal forms, such as financial

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019. ~~These items shall not include guarantees stemming from insurance contracts which are recognised in technical provisions.~~

A contingent liability is defined as:

- a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- b) a present obligation that arises from past events even if:
 - i. it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - ii. the amount of the obligation cannot be measured with sufficient reliability.

Collateral is an asset with a monetary value or a commitment that secure the lender against the defaults of the borrower.

The guarantees listed in this template are not reported in S.03.02 and S.03.03. This means that only limited guarantees are to be reported in this template.

	ITEM	INSTRUCTIONS
C0010/R0010	Maximum value — Guarantees provided by the undertaking, including letters of credit	Sum of all possible cash outflows related to guarantees if events triggering guarantees were all to happen in relation to guarantees provided by the undertaking to another party. It includes cash-flows related to letter of credit. In case any guarantee is also identified as contingent liability under R0310, the maximum amount shall also be included in this row.

		flows required to settle the contingent liability over the lifetime of that contingent liability, discounted at the relevant risk-free interest rate term structure) of contingent liabilities that are valued in Solvency II Balance Sheet as defined in Article 11 of the Delegated Regulation (EU) 2015/35.
C0010/R0400	Maximum value — Total Contingent liabilities	Total maximum possible value regardless of their probability (i.e. future cash flows required to settle the contingent liability over the lifetime of that contingent liability, discounted at the relevant risk-free interest rate term structure) of contingent liabilities..
C0020/R0310	Value of guarantee/collateral/contingent liabilities — Contingent liabilities not in Solvency II Balance Sheet	Solvency II value of the contingent liabilities not in Solvency II Balance Sheet.
C0020/R0330	Value of guarantee/collateral/contingent liabilities — Contingent liabilities in Solvency II Balance Sheet	Solvency II value of the contingent liabilities in Solvency II Balance Sheet. This value shall only be reported in relation to contingent liabilities for which a value in item C0010/R0330 in S.03.01 was reported. If this value is lower than C0010/R0740 in S.02.01 an explanation shall be provided in the narrative reporting.

S.03.02 — Off Balance-sheet items — list of unlimited guarantees received

General comments:

This section relates to annual submission of information for individual entities.

As regards the Solvency II value, the instructions define the items from a recognition perspective. Valuation principles are laid down in Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency II Technical Standards and Guidelines.

Unlimited guarantees refer to guarantees with unlimited amount, regardless of the date being limited or unlimited.

The guarantees listed in this template are not reported in S.03.01.

Status: Point in time view as at 31/12/2020.

S.03.03 — Off Balance-sheet items — List of unlimited guarantees provided by the undertaking

General comments:

This section relates to annual submission of information for individual entities.

As regards the Solvency II value, the instructions define the items from a recognition perspective. Valuation principles are laid down in Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency II Technical Standards and Guidelines.

Unlimited guarantees refer to guarantees with unlimited amount, regardless of the date being limited or unlimited.

The guarantees listed in this template are not reported in S.03.01.

	ITEM	INSTRUCTIONS
C0010	Code of guarantee	Code of guarantee provided. This number, attributed by the undertaking, must be unique and consistent over time. It shall not be reused for other guarantees.
C0020	Name of receiver of guarantee	Identification of the name of the receiver of the guarantee.
C0030	Code of receiver of guarantee	Identification code of receiver of guarantee using the using the Legal Entity Identifier (LEI) if available. If none is available this item shall not be reported.
C0040	Type of code of receiver of guarantee	Identification of the code used for the 'code of receiver of guarantee' item. One of the options in the following closed list shall be used: 1 — LEI 9 — None
C0050	Receiver of guarantee belonging to the same group	Indication if the receiver of the guarantee belongs to the same group as undertaking. One of the options in the following closed list shall be used: 1 — Belonging to the same group

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not currently being implemented in this version of the legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

C0060	Triggering event(s) of guarantee	<p>List of triggering events. One of the options in the following closed list shall be used:</p> <ul style="list-style-type: none"> 1 — Bankruptcy filing ISDA credit event 2 — Downgrading by a rating agency 3 — Fall of SCR below a threshold but higher than 100 % 4 — Fall of MCR below a threshold but higher than 100 % 5 — Breach of SCR 6 — Breach of MCR 7 — Non-payment of a contractual obligation 8 — Fraud 9 — Breach of contractual obligation linked with the disposal of assets 10 — Breach of contractual obligation linked with the acquisition of assets 0 — Other
C0070	Estimation of the maximum value of guarantee	Sum of all possible cash flows if events triggering guarantees were all to happen in relation to guarantees provided by the undertaking to another party
C0080	Specific triggering event(s) of guarantee	Description of the triggering event in case undertakings selected '0 — Other' for item C0060 'Triggering event(s) of guarantee'
C0090	Effective date of guarantee	Identify the ISO 8601 (yyyy-mm-dd) code of the date

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. S.04.01 — Activity by country

General comments:

This section relates to annual submission of information for individual entities.

[^{F6}This template is to be reported from an accounting perspective, i.e.: Local GAAP or IFRS if accepted as local GAAP. It shall however be fulfilled using the lines of business as defined in Annex I to Delegated Regulation (EU) 2015/35. Undertakings shall use the recognition and valuation basis as for the published financial statements, no new recognition or re-valuation is required, except for the classification between investment contracts and insurance contracts when this is applicable in the financial statements. This template shall include all insurance business regardless of the possible different classification between investment contracts and insurance contracts applicable in the financial statements.]

When the insurance and reinsurance undertaking has business outside the home-country information shall be reported distinguishing between the home country, each of the other countries belonging to the European Economic Area and material non-EEA countries;

- a) The information in relation to EEA countries shall cover the following:
 - i. Business underwritten by the undertaking in the country where it is established;
 - ii. Business underwritten by the undertaking under freedom to provide services ('FPS') in other EEA members;
 - iii. Business underwritten by each EEA branch in the country where they are established;
 - iv. Business underwritten by each EEA branch under freedom to provide services in other EEA members;
 - v. Premiums written in the country under freedom to provide services by the undertaking or any of the undertaking's EEA branches;
- b) Material non-EEA shall be reported when needed to report at least 90 % of the gross written premiums or if gross written premiums of a non-EEA country are higher than 5 % of the total gross written premiums;
- c) The information not reported by non-EEA country shall be reported as a sum. The localisation of business by country shall depend on where the business is underwritten, meaning that the business performed by a branch under FPS shall be reported under the country where the branch is established.

Information shall include direct business and accepted reinsurance business and be presented gross, without deduction of reinsurance ceded.

S.05.02 — Premiums, claims and expenses by country

General comments:

This section relates to annual submission of information for individual entities. [F⁴The template is not due when the thresholds for reporting by country described below are not applicable, i.e. the home country represents 90 % or more of the total gross written premiums.]

This template shall be reported from an accounting perspective, i.e.: Local GAAP or IFRS if accepted as local GAAP The template is based on a year-to-date basis Undertakings shall use the recognition and valuation basis as for the published financial statements, no new recognition or re-valuation is required [F¹¹]. [F⁴, except for the classification between investment contracts and insurance contracts when this is applicable in the financial statements. This template shall include all insurance business regardless of the possible different classification between investment contracts and insurance contracts applicable in the financial statements.]

The following criteria for the classification by country shall be used:

- The information, provided by country, shall be completed for the five countries with the biggest amount of gross written premiums in addition to the home country or until reaching 90 % of the total gross written premiums;
- For the direct insurance business for the lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, ‘Medical expense’, ‘Income protection’, ‘Workers' compensation’, ‘Fire and other damage to property’ and ‘Credit and suretyship’ information shall be reported by country where the risk is situated as defined in Article 13 (13) of Directive 2009/138/EC;
- For direct insurance business for all other line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, information shall be reported by country where the contract was entered into;
- For proportional and non-proportional reinsurance information shall be reported by country of localisation of the ceding undertaking.

For the purposes of this template ‘country where the contract was entered into’ means:

- a) The country where the insurance undertaking is established (home country) when the contract was not sold through a branch or freedom to provide services;
- b) The country where the branch is located (host country) when the contract was sold through a branch;
- c) The country where the freedom to provide services was notified (host country) when the contract was sold through freedom to provide services.
- d) If an intermediary is used or in any other situation, it is a), b) or c) depending on who sold the contract.

Status: Point in time view as at 31/12/2020.

S.06.01 — Summary of assets

General comments:

This section relates to annual submission of information for individual entities. This template is relevant only for the insurance and reinsurance undertakings exempted from the annual submission of information in templates S.06.02 or S.08.01 in accordance with Article 35 (7) of Directive 2009/138/EC.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation.

This template contains a summary of information on assets and derivatives regarding the undertaking as a whole, including assets and derivatives held in unit linked and index linked contracts.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations, registered with the Secretary of State under the Regulatory Procedure Regulations 2017 (SI 2017/1003) or by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations, registered with the Secretary of State under the Regulatory Procedure Regulations 2017 (SI 2017/1003) or by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations, registered with the Secretary of State under the Regulatory Procedure Regulations 2017 (SI 2017/1003). Items shall be reported with positive values, unless its Solvency II value is negative (e.g. the case of derivatives that are a liability of the undertaking). (See end of Document for details)

	ITEM	INSTRUCTIONS
C0010 to C0060/R0010	Assets listed	Value of listed assets by portfolio. For the purpose of this template an asset is considered as being listed if it is negotiated on a regulated market or on a multilateral trading facility, as defined by Directive 2004/39/EC. Portfolio corresponds to the distinction between life, non-life, ring-fenced funds, other internal funds, shareholder's funds and general (no split). The split by portfolio is not mandatory, except for identifying ring fenced funds, but shall be made if the undertaking uses it internally. When an undertaking does not apply a split by portfolio 'general' shall be used.
C0010 to C0060/R0020	Assets that are not listed in a stock exchange	Value of assets not listed in a stock exchange, by portfolio. For the purpose of this template, not listed assets are the ones that are not negotiated on a regulated market or on a multilateral trading facility, as defined by Directive 2004/39/EC. Portfolio corresponds to the distinction between life, non-life, ring-fenced funds, other internal funds, shareholder's funds and general (no split). The split by portfolio is not mandatory, except for identifying ring-fenced funds, but shall be made if the undertaking uses it internally. When an undertaking does not apply a split by portfolio 'general' shall be used.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. C0010 to C0060/R0120	Properties	Value of assets classifiable under asset category 9 of Annex IV — Assets Categories, by portfolio. Portfolio corresponds to the distinction between life, non-life, ring-fenced funds, other internal funds, shareholder's funds and general (no split). The split by portfolio is not mandatory, except for identifying ring fenced funds, but shall be made if the undertaking uses it internally. When an undertaking does not apply a split by portfolio 'general' shall be used.
C0010 to C0060/R0130	Other investments	Value of assets classifiable under asset category 0 of Annex IV — Assets Categories, by portfolio. Portfolio corresponds to the distinction between life, non-life, ring-fenced funds, other internal funds, shareholder's funds and general (no split). The split by portfolio is not mandatory, except for identifying ring fenced funds, but shall be made if the undertaking uses it internally. When an undertaking does not apply a split by portfolio 'general' shall be used.
C0010 to C0060/R0140	Futures	Value of assets classifiable under asset category A of Annex IV — Assets Categories, by portfolio. Portfolio corresponds to the distinction between life, non-life, ring-fenced funds, other internal funds, shareholder's funds and general (no split).

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments apply to the split by portfolio on legislation.gov.uk. Details of relevant amending instruments can be found on their website (S.I. 2018/1115, reg. 2, Sch. Pt. 2). The split by portfolio is not mandatory, except for details)

		identifying ring fenced funds, but shall be made if the undertaking uses it internally. When an undertaking does not apply a split by portfolio 'general' shall be used.
C0010 to C0060/R0150	Call options	Value of assets classifiable under asset category B of Annex IV — Assets Categories, by portfolio. Portfolio corresponds to the distinction between life, non-life, ring-fenced funds, other internal funds, shareholder's funds and general (no split). The split by portfolio is not mandatory, except for identifying ring fenced funds, but shall be made if the undertaking uses it internally. When an undertaking does not apply a split by portfolio 'general' shall be used.
C0010 to C0060/R0160	Put options	Value of assets classifiable under asset category C of Annex IV — Assets Categories, by portfolio. Portfolio corresponds to the distinction between life, non-life, ring-fenced funds, other internal funds, shareholder's funds and general (no split). The split by portfolio is not mandatory, except for identifying ring fenced funds, but shall be made if the undertaking uses it internally. When an undertaking does not apply a split by portfolio 'general' shall be used.
C0010 to C0060/R0170	Swaps	Value of assets classifiable under asset category D of Annex IV — Assets Categories, by portfolio. Portfolio corresponds to the distinction between life, non-life, ring-fenced funds, other internal funds, shareholder's funds and general (no split).

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments apply to the split by portfolio on legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (See end of Document for details)

		identifying ring fenced funds, but shall be made if the undertaking uses it internally. When an undertaking does not apply a split by portfolio 'general' shall be used.
C0010 to C0060/R0180	Forwards	Value of assets classifiable under asset category E of Annex IV — Assets Categories, by portfolio. Portfolio corresponds to the distinction between life, non-life, ring-fenced funds, other internal funds, shareholder's funds and general (no split). The split by portfolio is not mandatory, except for identifying ring fenced funds, but shall be made if the undertaking uses it internally. When an undertaking does not apply a split by portfolio 'general' shall be used.
C0010 to C0060/R0190	Credit derivatives	Value of assets classifiable under asset category F of Annex IV — Assets Categories, by portfolio. Portfolio corresponds to the distinction between life, non-life, ring-fenced funds, other internal funds, shareholder's funds and general (no split). The split by portfolio is not mandatory, except for identifying ring fenced funds, but shall be made if the undertaking uses it internally. When an undertaking does not apply a split by portfolio 'general' shall be used.

S.06.02 — List of assets

General comments:

This section relates to quarterly and annual submission of information for individual entities.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to Complementary Identification Code ('CIC') refer to Annex VI — CIC table of this Regulation.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

This template shall be the list of all assets included in the Balance-sheet, classifiable as asset categories 0 to 9 of Annex IV Lending Assets Categories of this Regulation. In particular, in case of securities lending and repurchase agreements the underlying securities that are kept in the Balance-sheet shall be reported in this template.

This template contains an item-by-item list of assets held directly by the undertaking (i.e. not on a look-through basis), classifiable as asset categories 0 to 9 (in case of unit-linked and index-linked product managed by the (re)insurance undertaking, the assets to be reported are also only the ones covered by asset categories 0 to 9, e.g. recoverables and liabilities related to this products shall not be reported), with the following exceptions:

- a) Cash shall be reported in one row per currency, for each combination of items C0060, C0070, C0080 and C0090;
- b) Transferable deposits (cash equivalents) and other deposits with maturity of less than one year shall be reported in one row per pair of bank and currency, for each combination of items C0060, C0070, C0080, C0090 and C0290;
- c) Mortgages and loans to individuals, including loans on policies, shall be reported in two rows, one row regarding loans to administrative, management and supervisory body, for each combination of items C0060, C0070, C0080, C0090 and C0290 and another regarding loans to other natural persons, for each combination of items C0060, C0070, C0080, C0090 and C0290;
- d) Deposits to cedants shall be reported in one single line, for each combination of items C0060, C0070, C0080 and C0090;
- e) Plant and equipment for the own use of the undertaking shall be reported in one single line, for each combination of items C0060, C0070, C0080 and C0090.

This template comprises two tables: Information on positions held and Information on assets.

[^{F3}On the table Information on positions held, each asset shall be reported separately in as many lines as needed in order to properly fill in all non-monetary variables with the exception of item 'Quantity', requested in that table. If for the same asset two values can be attributed to one variable, then this asset needs to be reported in more than one line.]

On the table Information on assets, each asset shall be reported separately, with one row for each asset, filling in all applicable variables requested in that table.

The information regarding the external rating (C0320) and nominated External Credit Assessment Institutions ('ECAI') (C0330) may be limited (not reported) in the following circumstances:

- a) through a decision of the national supervisory authority ('NSA') under Article 35 (6) and (7) of the Directive 2009/138/EC; or
- b) through a decision of the national supervisory authority in the cases where the insurance and reinsurance undertakings have in place outsourcing arrangements in the area of investments that lead to this specific information not being available directly to the undertaking.

	ITEM	INSTRUCTIONS
Information on positions held		
C0040	Asset ID Code	Asset ID code using the following priority:

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not yet in force on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

Pt. 2. These amendments need to be attributed for the purpose of SCR calculation. (See end of Document for details) legislation.gov.uk. Details of relevant amending instruments can be found on their website.

Identify the credit quality step attributed to the asset, as defined by Article 109a(1) of Directive 2009/138/EC. The credit quality step shall in particular reflect any readjustments to the credit quality made internally by the undertakings that use the standard formula. This item is not applicable to assets for which undertakings using internal model use internal ratings. If undertakings using internal model do not use internal rating, this item shall be reported. One of the options in the following closed list shall be used:

- 0 – [^{F8}Credit quality step 0
- 1 – Credit quality step 1
- 2 – Credit quality step 2
- 2a – Credit quality step 2 due to the application of Article 176a of Delegated Regulation (EC) No 2015/35 for unrated bonds and loans
- 3 – Credit quality step 3
- 3a – Credit quality step 3 due to the application of the simplified calculation under Article 105a of Delegated Regulation (EC) No 2015/35
- 3b – Credit quality step 3 due to the application of Article 176a of Delegated Regulation (EC) No 2015/35 for unrated bonds and loans

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not reflected by this legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (See end of Document for details)

		4 – Credit quality step 4 5 – Credit quality step 5 6 – Credit quality step 6 9 – No rating available]
C0350	Internal rating	[^{F11} Only applicable to CIC categories 1, 2, 5 and 6.] [^{F6} Applicable at least to CIC categories 1, 2, 5, 6 and 8 (Mortgages and Loans, other than mortgages and loans to natural persons), where available.]
C0360	Duration	Only applies to CIC categories 1, 2, 4 (when applicable, e.g. for collective investment undertaking mainly invested in bonds), 5 and 6. Asset duration, defined as the 'residual modified duration' (modified duration calculated based on the remaining time for maturity of the security, counted from the reporting reference date). For assets without fixed maturity the first call date shall be used. The duration shall be calculated based on economic value.
C0370	Unit Solvency II price	Amount in reporting currency for the asset, if relevant. This item shall be reported if a 'quantity' (C0130) has been provided in the first part of the template ('Information on positions held'). This item shall not be reported if item Unit percentage of par amount Solvency II price (C0380) is reported.
C0380	Unit percentage of par amount Solvency II price	[^{F3} Amount in percentage of par value, clean price without accrued interest, for the asset, if relevant. This item shall be reported if a 'par amount' information (C0140) has been provided in the first part of the template

		<p>category 71 and 9. This item shall not be reported if item Unit Solvency II price (C0370) is reported.]</p>
C0390	Maturity date	<p>Only applicable for CIC categories 1, 2, 5, 6, and 8, CIC 74 and CIC 79. Identify the ISO 8601 (yyyy-mm-dd) code of the maturity date. It corresponds always to the maturity date, even for callable securities. The following shall be considered:</p> <ul style="list-style-type: none"> — For perpetual securities use '9999-12-31' — For CIC category 8, regarding loans and mortgages to individuals, the weighted (based on the loan amount) remaining maturity is to be reported.

S.06.03 — Collective investment undertakings — look-through approach

General comments:

This section relates to quarterly and annual submission of information for individual entities.

This template contains information on the look through of collective investment undertakings or investments packaged as funds, including when they are participations, by underlying asset category, country of issue and currency. [F6 Considering proportionality and specific instructions of the template, the look through shall be performed until the asset categories, countries and currencies are identified. In case of funds of funds the look-through shall follow the same approach.]

[F1 The template shall include information corresponding to 100 % of the value invested in collective investment undertakings. However, for the identification of countries the look-through shall be implemented in order to identify the exposures of 90 % of the total value of the funds minus the amounts relating to CIC 8 and 9, and for the identification of currencies the look-through shall be implemented in order to identify the exposures of 90 % of the total value of the funds. Undertakings shall ensure that the 10 % not identified by country is diversified across geographical areas, for example that not more than 5 % is in one single country. The look-through shall be applied by undertakings starting from the major, considering the amount invested, to the lowest single fund and the approach shall be kept consistent over time.]

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (Exit) Regulations 2015.

Quarterly information shall only be reported when the ratio of collective investments undertakings held by the undertaking to total investments, measured as the ratio between item C0010/R0180 of template S.02.01 plus collective investments undertakings included in item C0010/R0220 of template S.02.01 plus collective investments undertakings included in item C0010/R0090 and the sum of item C0010/R0070 and C0010/RC0220 of template S.02.01, is higher than 30 %.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

S.07.01 — Structured products

General comments:

This section relates to annual submission of information for individual entities.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

This template contains an item-by-item list of structured products held directly by the undertaking in its portfolio (i.e. not on a look-through basis). Structured products are defined as assets falling into the asset categories 5 (Structured notes) and 6 (Collateralised securities).

This template shall only be reported when the amount of structured products, measured as the ratio between assets classified as asset categories 5 (Structured notes) and 6 (Collateralised securities) as defined in Annex IV — Asset Categories of this Regulation and the sum of item C0010/R0070 and C0010/R0220 of template S.02.01, is higher than 5 %.

In some cases the types of structured products (C0070) identify the derivative embedded in the structured product. In this case this classification shall be used when the structured product has the referred derivative embedded.

	ITEM	INSTRUCTIONS
C0040	Asset ID Code	<p>The Identification code of the structured product, as reported in S.06.02. using the following priority:</p> <p>— ISO 6166 ISIN when available</p>

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. If information is not defined in the contract this item shall not be reported. This item is not applicable for non-credit structured product.
C0180	Attachment point	The contractually defined loss percentage (reported as a decimal) above which the losses affect the structured product, if applicable, for CIC categories 5 (Structured notes) and 6 (Collateralised securities). This item is not applicable for non-credit structured product.
C0190	Detachment point	The contractually defined loss percentage (reported as a decimal) above which

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments do not affect the structured product, if applicable, for CIC categories 5 (Structured notes) and 6 (Collateralised securities). This item is not applicable for non-credit structured product.

		<p>the losses cease to affect the structured product, if applicable, for CIC categories 5 (Structured notes) and 6 (Collateralised securities). This item is not applicable for non-credit structured product.</p>

S.08.01 — Open derivatives

General comments:

This section relates to quarterly and annual submission of information for individual entities.

The derivatives categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation. This template contains an item-by-item list of derivatives held directly by the undertaking (i.e. not on a look-through basis), classifiable as asset categories A to F.

[^{F3}Derivatives are considered assets if their Solvency II value is positive or zero. They are considered liabilities if their Solvency II value is negative. Both derivatives considered as assets or considered as liabilities shall be included.]

Information shall include all derivatives contracts that existed during the reporting period and were not closed prior to the reporting reference date.

If there are frequent trades on the same derivative, resulting in multiple open positions, the derivative can be reported on an aggregated or net basis, as long as all the relevant characteristics are common and following the specific instruction for each relevant item.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

A derivative is a financial instrument or other contract with all three of the following characteristics:

- a) Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the 'underlying').
- b) It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- c) It is settled at a future date.

This template comprises two tables: Information on positions held and Information on derivatives.

[^{F1}On the table Information on positions held, each derivative shall be reported separately in as many rows as needed in order to properly fill in all non-monetary variables, requested in that table. If for the same derivative two values can be attributed to one variable, then this derivative needs to be reported in more than one line.]

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

In particular for derivatives that have more than a pair of currencies, it shall be split into the pair components and reported in different rows. Details can be found on their website/s. (See end of Document for details)

On the table Information on derivative, each derivative shall be reported separately, with one row for each derivative, filling in all variables requested in that table.

The information regarding the External rating (C0290) and Nominated ECAI (C0300) may be limited (not reported) in the following circumstances:

- c) through a decision of the national supervisory authority under Article 35 (6) and (7) of the Directive 2009/138/EC; or
- d) through a decision of the national supervisory authority in the cases where the insurance and reinsurance undertakings have in place outsourcing arrangements in the area of investments that lead to this specific information not being available directly to the undertaking.

Pt. 2. These amendments are not currently available on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

		Derivative floating for-floating
C0150	Premium paid to date	[^{F6} The payment made (if bought), for options and also up-front and periodical premium amounts paid for swaps, since the moment the undertaking entered into the derivative contract.]
C0160	Premium received to date	[^{F6} The payment received (if sold), for options and also up-front and periodical premium amounts received for swaps, since the moment the undertaking entered into the derivative contract.]
C0170	Number of contracts	Number of similar derivative contracts reported in the line. It shall be the number of contracts entered into. For Over-The-Counter derivatives, e.g., one swap contract, '1' shall be reported, if ten swaps with the same characteristics, '10' shall be reported. The number of contracts shall be the ones outstanding at the reporting date.
C0180	Contract size	Number of underlying assets in the contract (e.g. for equity futures it is the number of equities to be delivered per derivative contract at maturity, for bond futures it is the reference amount underlying each contract). The way the contract size is defined varies according with the type of instrument. For futures on equities it is common to find the contract size defined as a function of the number of shares underlying the contract. For futures on bonds, it is the bond nominal amount underlying the contract.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments only apply to instruments made on or after 12 July 2018. Details of relevant amending instruments can be found on their websites (see end of Document for details)

C0190	Maximum loss under unwinding event	Maximum amount of loss if an unwinding event occurs. Applicable to CIC category F. Where a credit derivative is 100 % collateralised, the maximum loss under an unwinding event is zero.
C0200	Swap outflow amount	Amount delivered under the swap contract (other than premiums), during the reporting period. Corresponds to interest paid for IRS and amounts delivered for currency swaps, credit swaps, total return swaps and other swaps. In the cases where the settlement is made on a net basis then only one of the items C0200 and C0210 shall be reported.
C0210	Swap inflow amount	Amount received under the swap contract (other than premiums), during the reporting period. Corresponds to interest received for IRS and amounts received for currency swaps, credit swaps, total return swaps and other swaps. In the cases where the settlement is made on a net basis then only one of the items C0200 and C0210 shall be reported.
C0220	Initial date	Identify the ISO 8601 (yyyy-mm-dd) code of the date when obligations under the contract come into effect. When various dates occur for the same derivative, report only the one regarding the first trade date of the derivative and only one row for each derivative (no different rows for each trade) reflecting the total amount invested in that derivative

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are being made to the original legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (See end of Document for details)

		In case of novation, the novation date becomes the trade date for that derivative.
C0230	Duration	Derivative duration, defined as the residual modified duration, for derivatives for which a duration measure is applicable. Calculated as the net duration between in and out flows from the derivative, when applicable.
C0240	Solvency II value	Value of the derivative as of the reporting date calculated as defined by Article 75 of the Directive 2009/138/EC. It can be positive, negative or zero.
C0250	Valuation method	Identify the valuation method used when valuing derivatives. One of the options in the following closed list shall be used: 1 — quoted market price in active markets for the same assets or liabilities 2 — quoted market price in active markets for similar assets or liabilities 3 — alternative valuation methods 6 — Market valuation according to Article 9(4) of Delegated Regulation (EU) 2015/35

(See end of Document for details)

C0430	Maturity date	Identify the contractually defined ISO 8601 (yyyy-mm-dd) code of the date of close of the derivative contract, whether at maturity date, expiring date for options (European or American), etc.
-------	---------------	---

S.08.02 — Derivatives Transactions

General comments:

This section relates to quarterly and annual submission of information for individual entities.

The derivatives categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex V — CIC table of this Regulation.

This template contains an item-by-item list of closed derivatives held directly by the undertaking (i.e. not on a look-through basis), classifiable as asset categories A to F. When a contract is still open but has been reduced in size the closed portion shall be reported.

Derivatives are considered assets if their Solvency II value is positive or zero. ^[F6]They are considered liabilities if their Solvency II value is negative.] Both derivatives considered as assets or considered as liabilities shall be included.

Closed derivatives are the ones that were open at some point of the reference period (i.e. last quarter if template is submitted quarterly or last year if template is only submitted annually) but were closed before the end of the reporting period.

If there are frequent trades on the same derivative, the derivative can be reported on an aggregated or net basis (indicating only the first and the last trade dates), as long as all the relevant characteristics are common and following the specific instruction for each relevant item.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

A derivative is a financial instrument or other contract with all three of the following characteristics:

- d) Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the 'underlying').
- e) It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- f) It is settled at a future date.

This template comprises two tables: Information on positions held and Information on derivatives.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

[^{F1} On the table Information on positions held, each derivative shall be reported separately in as many rows as needed in order to properly fill in all non-monetary variables, requested in that table.] If for the same derivative two values can be attributed to one variable, then this derivative needs to be reported in more than one line.

In particular, for derivatives that have more than a pair of currencies, it shall be split into the pair components and reported in different rows.

On the table Information on derivative, each derivative shall be reported separately, with one row for each derivative, filling in all variables requested in that table.

	ITEM	INSTRUCTIONS
	Information on positions held	
C0040	Derivative ID Code	Derivative ID code using the following priority: — ISO 6166 code of ISIN when available — Other recognised codes (e.g.: CUSIP, Bloomberg Ticker, Reuters RIC) — Code attributed by the undertaking, when the options above are not available, and must be consistent over time
C0050	Derivative ID Code type	Type of ID Code used for the 'Derivative ID Code' item. One of the options in the following closed list shall be used: 1 — ISO/6166 for ISIN 2 — CUSIP (The Committee on Uniform Securities Identification Procedures number assigned by the CUSIP Service Bureau for U.S. and Canadian companies) 3 — SEDOL (Stock Exchange Daily Official List for the London Stock Exchange)

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments do not affect the consolidated legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (See end of Document for details)

		<p>A seller of a swap owns the security or notional amount at the contract inception and agrees to deliver during the contract term that security or notional amount, including any other outflows related to the contract, when applicable. A buyer of a swap will own the security or the notional amount at the end of the derivatives contact and will receive during the contract term that security or notional amount, including any other inflows related to the contract, when applicable. One of the options in the following closed list shall be used, with the exception of Interest Rate Swaps:</p> <ul style="list-style-type: none"> 1 — Buyer 2 — Seller <p>For interest rate swaps one of the options in the following closed list shall be use:</p> <ul style="list-style-type: none"> 3 — FX–FL: Deliver fixed–for–floating 4 — FX–FX: Deliver fixed–for–fixed 5 — FL–FX: Deliver floating–for–fixed 6 — FL–FL: Deliver floating–for–floating
C0140	Premium paid to date	<p>[^{F6}The payment made (if bought), for options and also up–front and periodical premium amounts paid for swaps, since the moment the undertaking entered into the derivative contract.]</p>
C0150	Premium received to date	<p>[^{F6}The payment received (if sold), for options and also up–front and periodical premium amounts received</p>

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments will be made from the moment legislation.gov.uk. Details of relevant amending instruments can be found on their website.

		the derivative contract.]
C0160	Profit and loss to date	[^{F6} Amount of profit and loss arising from the derivative since the moment the undertaking entered into the derivative contract, realised at the closing/maturing date. Corresponds to the difference between the value (price) at sale date and the value (price) at acquisition date.] This amount could be positive (profit) or negative (loss).
C0170	Number of contracts	Number of similar derivative contracts reported in the line. For Over-The-Counter derivatives, e.g., one swap contract, 1 shall be reported, if ten swaps with the same characteristics, 10 shall be reported. The number of contracts shall be the ones entered into and that were closed at the reporting date.
C0180	Contract size	Number of underlying assets in the contract (e.g. for equity futures it is the number of equities to be delivered per derivative contract at maturity, for bond futures it is the reference amount underlying each contract). The way the contract size is defined varies according with the type of instrument. For futures on equities it is common to find the contract size defined as a function of the number of shares underlying the contract. For futures on bonds, it is the bond nominal amount underlying the contract. Only applicable for futures and options.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

C0190	Maximum loss under an unwinding event	Maximum amount of loss if an unwinding event occurs.
		Applicable to CIC category F.
C0200	Swap outflow amount	Amount delivered under the swap contract (other than premiums), during the reporting period. Corresponds to interest paid for IRS and amounts delivered for currency swaps, credit swaps, total return swaps and other swaps. In the cases where the settlement is made on a net basis then only one of the items C0200 and C0210 shall be reported.
C0210	Swap inflow amount	Amount received under the swap contract (other than premiums), during the reporting period. Corresponds to interest received for IRS and amounts received for currency swaps, credit swaps, total return swaps and other swaps. In the cases where the settlement is made on a net basis then only one of the items C0200 and C0210 shall be reported.
C0220	Initial date	Identify the ISO 8601 (yyyy-mm-dd) code of the date when obligations under the contract come into effect. When various trades occur for the same derivative, report only the one regarding the first trade date of the derivative and only one row for each derivative (no different rows for each trade) reflecting the total amount invested in that derivative considering the different dates of trade. In case of novation, the novation date becomes the trade date for that derivative.

S.09.01 — Information on gains/income and losses in the period

General comments:

This section relates to annual submission of information for individual entities.

This template contains information on gains/income and losses by asset category (including derivatives). i.e., no item-by-item reporting is required. The asset categories considered in this template are the ones defined in Annex IV — Assets Categories.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

	ITEM	INSTRUCTIONS
C0040	Asset category	Identify the asset categories present in the portfolio. Use the categories defined in Annex IV — Assets Categories.
C0050	Portfolio	Distinction between life, non-life, shareholder's funds, other internal funds, general (no split) and ring fenced funds. One of the options in the following closed list shall be used: <ul style="list-style-type: none"> 1 — Life 2 — Non-life 3 — Ring fenced funds 4 — Other internal funds 5 — Shareholders' funds 6 — General The split is not mandatory, except for identifying ring fenced funds, but shall be reported if the undertaking uses it internally. When an undertaking does not apply a split 'general' must be used.
C0060	Asset held in unit linked and index linked contracts	Identify the assets that are held by unit linked and index linked contracts. One of the options in the following closed list shall be used:

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not currently in force or indexed on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

		2 — Neither unit-linked nor index-linked
C0070	Dividends	Amount of dividends earned over the reporting period, i.e. dividends received less the right to receive a dividend already recognised at the beginning of the reporting period, plus the right to receive a dividend recognised at the end of the reporting period. Applicable to dividend paying assets such as equity, preferred securities and collective investment undertakings. Includes also dividends received from assets that have been sold or matured.
C0080	Interest	Amount of interest earned, i.e. interest received less accrued interest at the start of the period plus accrued interest at the end of the reporting period. Includes interest received when the asset is sold/ matured or when the coupon is received. Applicable to coupon and interest paying assets such as bonds, loans and deposits.
C0090	Rent	Amount of rent earned i.e. rent received less accrued rent at the start of the period plus accrued rent at the end of the reporting period. Includes also rents received when the asset is sold or matured. Only applicable to properties, regardless of the function.
C0100	Net gains and losses	Net gains and losses resulting from assets sold or matured during the reporting period. The gains and losses are calculated as the difference between selling or maturity

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments will be in force from 1 January 2021. Details of relevant amending instruments can be found on their website (legislation.gov.uk). Details of relevant amending instruments can be found on their website (legislation.gov.uk).

		<p>value and the value according to Article 75 of Directive 2009/138/EC at the end of the prior reporting year (or, in case of assets acquired during the reporting period, the acquisition value). The net value can be positive, negative or zero. [F6This calculation shall be performed without interest accrued.]</p>
C0110	Unrealised gains and losses	<p>Unrealised gains and losses resulting from assets not sold nor matured during the reporting period. The unrealised gains and losses are calculated as the difference between the value according to Article 75 of Directive 2009/138/EC at the end of the reporting year end and the value according to Article 75 of Directive 2009/138/EC at the end of the prior reporting year (or, in case of assets acquired during the reporting period, the acquisition value). The net value can be positive, negative or zero. [F6This calculation shall be performed without interest accrued.]</p>

S.10.01 — Securities lending and repos

General comments:

This section relates to annual submission of information for individual entities.

This template contains an item-by-item list of securities lending transactions and repurchase agreements (buyer and seller) contracts, held directly by the undertaking (i.e. not on a look-through basis), which include also the liquidity swaps referred to in Article 309 (2)(f) of the Delegated Regulation (EU) 2015/35.

It shall be reported only when the value of the underlying securities on and off balance sheet involved in lending or repurchase agreements, with maturity date falling after the reporting reference date represent more than 5 % of the total investments as reported in C0010/R0070 and C0010/R0220 of template S.02.01.

All contracts that are on the balance sheet or off balance sheet shall be reported. The information shall include all contracts in the reporting period regardless of whether they were open or closed

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations. For contracts which are part of a roll-over strategy, where they substantially are the same transaction, only open positions shall be reported. (See end of Document for details)

A repurchase agreement (repo) is defined as the sale of securities together with an agreement for the seller to buy back the securities at a later date. Securities lending is defined as the lending of securities by one party to another, which requires that the borrower provides the lender with collateral.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

Each repo and securities lending contract shall be reported in as many rows as needed to provide the information requested. If for one item one option fits one part of the instrument being reported and a different option fits the other part then the contract needs to be unbundled unless is stated otherwise in the instructions.

	ITEM	INSTRUCTIONS
C0040	Portfolio	Distinction between life, non-life, shareholder's funds, general (no split) and ring fenced funds. One of the options in the following closed list shall be used: <ol style="list-style-type: none"> 1 — Life 2 — Non-life: 3 — Ring fenced funds 4 — Other internal fund 5 — Shareholders' funds 6 — General The split is not mandatory, except for identifying ring fenced funds, but shall be reported if the undertaking uses it internally. When an undertaking does not apply a split 'general' must be used. For assets held off-balance sheet this item shall not be reported.
C0050	Fund number	Applicable to assets held in ring fenced funds or other internal funds (defined according to national markets). Number which is attributed by the undertaking, corresponding to the unique

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments will be incorporated into the legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (This number has to be

		consistent over time and shall be used to identify the funds in other templates. It shall not be re-used for a different fund. (This number has to be)
C0060	Asset category	Identify the asset category of the underlying asset lent/provided as part of a securities lending transactions or repurchase agreements. Use the categories defined in Annex IV — Assets Categories of this Regulation.
C0070	Counterparty Name	Name of the counterparty of the contract. When available, this item corresponds to the entity name in the LEI database. When not available, corresponds to the legal name.
C0080	Counterparty code	Identification code of the counterparty using the Legal Entity Identifier (LEI) if available. If none is available, this item shall not be reported.
C0090	Type of counterparty code	Identification of the code used for the 'Counterparty Code' item. One of the options in the following closed list shall be used: 1 — LEI 9 — None
C0100	Counterparty asset category	Identify the most significant asset category borrowed/received as part of a securities lending transactions or repurchase agreements. Use the asset categories defined in Annex IV — Assets Categories of this Regulation.
C0110	Asset held in unit-linked and index-linked contracts	Identify if the underlying asset identified in C0060 is held by unit linked and index

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are available on www.legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (The options in the following

		<p>closed list shall be used:</p> <ol style="list-style-type: none"> 1 — Unit-linked or index-linked 2 — Neither unit-linked nor index-linked
C0120	Position in the contract	<p>Identify whether the undertaking is a buyer or seller in the repo or a lender or borrower in the securities lending. One of the options in the following closed list shall be used:</p> <ol style="list-style-type: none"> 1 — Buyer in a repo 2 — Seller in a repo 3 — Lender in a securities lending 4 — Borrower in a securities lending
C0130	Near leg amount	<p>Represents the following amounts:</p> <ul style="list-style-type: none"> — Buyer in a repo: amount received at the contract inception — Seller in a repo: amount ceded at the contract inception — Lender in a securities lending: amount received as guarantee at the contract inception — Borrower in a securities lending: amount or market value of the securities received at the contract inception
C0140	Far leg amount	<p>This item is only applicable for repos and represents the following amounts:</p> <ul style="list-style-type: none"> — Buyer in a repo: amount ceded at the contract maturity — Seller in a repo: amount received

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not at the contract on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of document for details)

C0150	Start date	Identify the ISO 8601 (yyyy–mm–dd) code of the contract start date. The contract start date refers to the date when obligations under the contract come into effect.
C0160	Maturity date	Identify the ISO 8601 (yyyy–mm–dd) code of the contract closing date. Even if the contract is on an open call basis, there is usually a date when the contract expires. In these cases this date must be reported, if no call occurs before. An agreement is considered closed when it has matured, a call occurs or the agreement is cancelled. For contracts with no defined maturity date report '9999–12–31'.
C0170	Solvency II Value	This item is only applicable for contracts that are still open at the reporting date. Value of the repo or securities lending contract, following Article 75 of Directive 2009/138/EC rules for valuation of contracts. This value can be positive, negative or zero.

S.11.01 — Assets held as collateral

General comments:

This section relates to annual submission of information for individual entities.

This template contains an item–by–item list of off–balance sheet assets held as collateral for covering balance sheet assets held directly by the undertaking (i.e. not on a look–through basis).

It consists of detailed information from the perspective of the assets held as collateral and not from the perspective of the collateral arrangement.

If there is a pool of collaterals or a collateral arrangement comprising multiple assets, as many rows as the assets in the pool or arrangement shall be reported.

This template comprises two tables: Information on positions held and Information on assets.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

On the table Information on positions held, each asset held as collateral shall be reported separately on as many rows as needed in order to properly fill in all variables requested in that table. If for the same asset two values can be attributed to one variable, then this asset needs to be reported in more than one line. [F²Real estate held as collateral of the mortgages related to individuals shall be reported in one single line.]

On the table Information on assets, each asset held as collateral shall be reported separately, with one row for each asset, filling in all variables requested in that table.

All items except items 'Type of asset for which the collateral is held' (C0140), 'Name of the counterparty pledging the collateral' (C0060) and 'Name of the group of the counterparty pledging the collateral' (C0070) relate to information on the assets held as collateral. Item C0140 relates to the asset on the balance sheet for which the collateral is held while items C0060 and C0070 relate to the counterparty pledging the collateral.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are available at www.legislation.gov.uk. Details of relevant amending instruments can be found on their websites. **most representative risk to which the asset is exposed to)**

C0260	Unit price	Unit price of the asset, if relevant. This item shall not be reported if item Unit percentage of par amount Solvency II price (C0270) is reported.
C0270	Unit percentage of par amount Solvency II price	[^{F3} Amount in percentage of par value, clean price without accrued interest, for the asset, if relevant. This item shall be reported if a 'par amount' information (C0100) has been provided in the first part of the template ('Information on positions held') except for CIC category 71 and 9. This item shall not be reported if item Unit Solvency II price (C0260) is reported.]
C0280	Maturity date	Only applicable for CIC categories 1, 2, 5, 6 and 8, and CIC 74 and CIC 79. Identify the ISO 8601 (yyyy-mm-dd) code of the maturity date. Corresponds always to the maturity date, even for callable securities. The following shall be considered: — For perpetual securities use '9999-12-31' — For CIC category 8, regarding loans and mortgages to individuals, the weighted (based on the loan amount) remaining maturity is to be reported.

S.12.01 — Life and Health SLT Technical Provisions

General comments:

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

This section relates to quarterly and annual submission of information for individual entities, ring fenced funds, matching adjustment portfolios and remaining part. (See end of Document for details)

Undertakings may apply appropriate approximations in the calculation of the technical provisions as referred to in Article 21 of Delegated Regulation (EU) 2015/35. In addition, Article 59 of the Delegated Regulation (EU) 2015/35 may be applied to calculate the risk margin during the financial year.

Line of business for life obligations: The lines of business, referred to in Article 80 of the Directive 2009/138/EC, as defined in Annex I to Delegated Regulation (EU) 2015/35. The segmentation shall reflect the nature of the risks underlying the contract (substance), rather than the legal form of the contract (form). By default, where an insurance or reinsurance contract covers risks across the lines of business undertakings shall, where possible, unbundled the obligations into the appropriate lines of business (Article 55 of Delegated Regulation (EU) 2015/35).

Lines of business 'Index-linked and unit-linked insurance', 'Other life insurance' and 'Health insurance' are split between 'Contracts without options and guarantees' and 'Contracts with options or guarantees'. For this split the following shall be considered:

- 'Contracts without options and guarantees' shall include the amounts related to contracts without any financial guarantees or contractual options, meaning that the technical provision calculation does not reflect the amount of any financial guarantees or contractual options. Contracts with non-material contractual options or financial guarantees that are not reflected in the technical provisions calculation shall also be reported in this column;
- 'Contracts with options or guarantees' shall include contracts that have either financial guarantees, contractual options, or both as far as the technical provision calculation reflect the existence of those financial guarantees or contractual options.

The information reported shall be gross of reinsurance as information on Recoverables from reinsurance/SPV and Finite reinsurance is requested in specific rows.

The information to be reported between R0010 and R0100 shall be after the volatility adjustment, the matching adjustment and the transitional adjustment to the relevant risk-free interest rate term structure if applied but shall not include the transitional deduction to technical provisions. The amount of transitional deduction to technical provisions is requested separately between rows R0110 and R0130.

	ITEM	INSTRUCTIONS
Z0020	Ring Fenced Fund/Matching adjustment portfolio or remaining part	Identifies whether the reported figures are with regard to a RFF, matching adjustment portfolio or to the remaining part. One of the options in the following closed list shall be used: 1 — RFF/MAP 2 — Remaining part
Z0030	Fund/Portfolio number	Identification number for a ring fenced fund or matching adjustment portfolio. This number is attributed by the undertaking and must be

Gross Best Estimate for Cash flow, Cash out-flows, Future discretionary benefits — Insurance with profit participation

Amount of discounted Cash out-flows (payments to policyholders and beneficiaries) for future discretionary benefits, regarding line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, 'Insurance with profit participation'. Future Discretionary Benefits means future benefits other than index-linked or unit-linked benefits of insurance or reinsurance contracts which have one of the following characteristics:

- a) The benefits are legally or contractually based on one or several of the following results:
 - i. the performance of a specified group of contracts or a specified type of contract or a single contract;
 - ii. the realised or unrealised investment return on a specified pool of assets held by the insurance or reinsurance undertaking;
 - iii. the profit or loss

Status: Point in time view as at 31/12/2020.

S.12.02 Life and Health SA/Technical Provisions by Country

General comments:

[^{F6}This section relates to annual submission of information for individual entities. The template is not due when the thresholds for reporting by country described below are not applicable, i.e. the home country represents 100 % of the sum of the technical provisions calculated as a whole and gross best estimate. When this amount is higher than 90 % but lower than 100 % then only R0010, R0020 and R0030 shall be reported.]

Undertakings shall take into account all the obligations in different currencies and convert them into the reporting currency.

The information by country shall be reported according to the following specifications:

- a) Information on the home country shall be always reported regardless of the amount of technical provisions calculated as a whole and gross best estimate;
- b) Information reported by country shall at least represent 90 % of the sum of the technical provisions calculated as a whole and gross best estimate of any line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35;
- c) If a specific country has to be reported for a particular line of business to comply with sub-paragraph b) then that country shall be reported for all lines of business;
- d) The other countries shall be reported aggregated in ‘other-EEA’ or ‘other-non EEA’
- e) For direct business information shall be reported by country where the contract was entered into;
- f) For proportional and non-proportional reinsurance information shall be reported by country of localisation of the ceding undertaking.

For the purposes of this template ‘country where the contract was entered into’ means:

- a) The country where the insurance undertaking is established (home country) when the contract was not sold through a branch or freedom to provide services;
- b) The country where the branch is located (host country) when the contract was sold through a branch;
- c) The country where the freedom to provide services was notified (host country) when the contract was sold through freedom to provide services.
- d) If an intermediary is used or in any other situation, it is a), b) or c) depending on who sold the contract.

The information to be reported shall include the volatility adjustment, the matching adjustment, the transitional adjustment to the relevant risk-free interest rate term structure and the transitional deduction to technical provisions.

S.13.01 — Projection of future gross cash flows (Best Estimate –life)

General comments:

This part of Annex II relates to annual submission of information for individual entities.

This template shall include information only in relation to the best estimates. The cash flows to be reported are gross of reinsurance and undiscounted.

Cash-flow projections such as central scenarios can be used as no perfect reconciliation with Best Estimate calculation is required. If difficult to project some future cash-flows like collective Future Discretionary Benefits the undertaking shall report the cash flow it effectively uses for calculating the Best Estimate.

All cash flows expressed in different currencies shall be considered and converted in the reporting currency using the exchange rate at the reporting date

In case the undertaking uses simplifications for the calculation of technical provisions, for which an estimate of the expected future cash-flows arising from the contracts are not calculated, the information shall be reported only in those cases where more than 10 % of total technical provisions have a settlement period longer than 24 months.

S.14.01 — Life obligations analysis

General comments:

This section relates to annual submission of information for individual entities.

This template includes information about life insurance contracts (direct business and accepted reinsurance) and also includes annuities stemming from non-life contracts (which are also analysed in S.16.01). All insurance contracts shall be reported even if classified as investments contract on accounting basis. In case of products unbundled, the different parts of the product shall be reported in different rows, using different ID codes.

Columns C0010 to C0080 shall be reported by product.

Columns C0090 to C0160 characterise the product.

Columns C0170 to C0210 shall be reported by Homogeneous Risk Group.

	ITEM	INSTRUCTIONS
Portfolio		
C0010	Product ID code	Internal product ID code used by the undertaking for the product. If a code is already in use or is attributed by the competent authority for supervisory purposes that code shall be used. Different products are characterised according to cells C0090 to C0160. The ID code shall be consistent over time. [F ⁴ In the cases where the same product needs to be reported in more than one row the content of C0010 (and C0090) shall follow the specific pattern: {ID code of product}/+/{number of version}. For example 'AB222/+/3'.]
C0020	Fund number	Applicable to products that are part of ring fenced funds or other internal funds (defined according to national markets). This number is attributed by the undertaking and shall be consistent over

The ID code shall be consistent over time. Identify the HRG for each product that is considered for the purposes of calculating the technical provisions.

S.15.01 — Description of the guarantees of variable annuities

General comments:

This section relates to annual submission of information for individual entities.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

This template shall only be reported in relation to the direct business by insurance companies that have variable annuities portfolios. (See end of Document for details)

Variable annuities are unit-linked life insurance contracts with investment guarantees which, in exchange for single or regular premiums, allow the policyholder to benefit from the upside of the unit but be partially or totally protected when the unit loses value.

If Variable Annuities policies are split between two insurance undertakings, for instance a life company and a non-life company for the variable annuities guarantee, the company with the guarantee shall report this template. Only one row per product shall be reported.

	ITEM	INSTRUCTIONS
C0040	Product ID code	Internal product ID code used by the undertaking for the product. If a code is already in use or is attributed by the competent authority for supervisory purposes that code shall be used.
C0050	Product denomination	Commercial name of product (undertaking-specific)
C0060	Description of the product	General qualitative description of the product. If a product code is attributed by the competent authority for supervisory purposes, the description of product type for that code shall be used.
C0070	Initial date of guarantee	The ISO 8601 (yyyy-mm-dd) code of the initial date of the cover.
C0080	Final date of guarantee	The ISO 8601 (yyyy-mm-dd) code of the final date of the cover.
C0090	Type of guarantee	The following closed list shall be used: 1 — Guaranteed minimum death benefit 2 — Guaranteed minimum accumulation benefit 3 — Guaranteed minimum income benefit 4 — Guaranteed minimum withdrawal benefits 9 — Other

Status: Point in time view as at 31/12/2020.		
Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115) regs. 2-3 Sch. Pt. 2. These amendments are not currently available on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)		
C0100	Guaranteed level	Indicate the level of the guaranteed benefit.
C0110	Description of the guarantee	General description of the guarantees. This shall include at least the capital accumulation mechanisms (e.g. roll-up, ratchet, step-up, reset), its frequency (infra-annual, annual, x-yearly), the base for computation of guaranteed levels (e.g. premium paid, premium paid net of expenses and/or withdrawals and/or paid-ups, premium increased by the capital accumulation mechanism), the guaranteed conversion factor, other general information about how the guarantee works.

S.15.02 — Hedging of guarantees of variable annuities

General comments:

This section relates to annual submission of information for individual entities.

This template shall only be reported in relation to the direct business by insurance companies that have Variable Annuities portfolios.

Variable annuities are unit-linked life insurance contracts with investment guarantees which, in exchange for single or regular premiums, allow the policyholder to benefit from the upside of the unit but be partially or totally protected when the unit loses value.

If Variable Annuities policies are split between two insurance undertakings, for instance a life company and a non-life company for the Variable Annuities guarantee, the company with the guarantee shall report this template. Only one row per product shall be reported.

	ITEM	INSTRUCTIONS
C0040	Product ID code	Internal product ID code used by the undertaking for the product. If a code is already in use or is attributed by the competent authority for supervisory purposes that code shall be used. The ID code shall be consistent over time and for the individual reporting correspond with the ID code reported in S.14.01 (C0010) and S.15.01 (C0020).

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

Pt 2. These amendments are not currently available on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)</p>		
C0130	Economic result without hedging	<p>The economic result that the guarantee of the policies has generated during the reporting year if there is no hedging strategy in place, or would have generated without it if there is one in place.</p> <p>It shall be equal to: written premium/fees for the guarantee, minus expenses incurred to the guarantee, minus claims due to the guarantee, minus variation of guarantee technical provisions.</p>
C0140	Economic result with hedging	<p>[^{F1}The 'economic result' that the guarantee of the policies has generated during the reporting year considering the result of the hedging strategy. Where hedging is performed for a portfolio of products, for instance in cases where hedge instruments may not be allocated to specific products, the undertaking shall allocate the effect of hedging to the different products using the weight of each product in the 'Economic result without hedging' (C0110). This is not to be reported in case the undertaking has no hedging program itself, but only reinsures the guarantee part.]</p>

S.16.01. — Information on annuities stemming from Non-Life Insurance obligations

General comments:

This section relates to annual submission of information for individual undertakings.

This template shall be reported only for annuities formally settled stemming from non-life contracts and relating to health insurance obligations and relating to insurance obligations other than health insurance obligations.

Undertakings are required to report data on an accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, provided that they use the same year consistently, year on year.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

~~This template shall be reported by non-life line of business as defined in Annex I to Delegated Regulation (EU) 2015/35, originating the annuity and by currency. Considering the following specifications:~~

- i. If the best estimate for the annuity claims provisions on a discounted basis from one non-life line of business represents more than 3 % of the total best estimate for all annuity claims provisions the information shall be reported with the following split by currencies in addition to the total for the line of business:
 - a) Amounts for the reporting currency;
 - b) [^{F6}Amounts for any currency that represents more than 25 % of the best estimate for the annuity claims provisions on a discounted basis from that non-life line of business; or
 - c) Amounts for any currency that represents less than 25 % of the best estimate for the annuity claims provisions (discounted basis) from that non-life line of business but more than 5 % of total best estimate for all annuity claims provisions.]
- ii. If the best estimate for the annuity claims provisions on a discounted basis from one non-life line of business represents less than 3 % of the total best estimate for all annuity claims provisions no currency split is required, only the total for the line of business shall be reported;
- iii. The information shall be reported in the original currency of the contracts unless otherwise specified.

This template is interlinked with the non-Life template S.19.01. The sum of technical provisions in templates S.16.01 and S.19.01 for one non-life line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, represents the total claims best estimate originating from this line of business (also refer log to template S.19.01). All or part of an obligation moves from S.19.01 into S.16.01, when both of the conditions below are met:

- i. All or part of the obligation has been formally settled as an annuity; and
- ii. a best estimate of an obligation formally settled as an annuity can be established using life techniques.

Formally settled as an annuity typically means that a legal process has ordered that the beneficiary is to receive payments as an annuity.

In the event that after an obligation has been formally settled as an annuity some of that obligation subsequently ends up being settled via a lump sum payment that was not in the original annuity payment order, that lump sum would be recorded as a payment in template S.16.01; i.e. there is no movement of claims data out of template S.16.01 and into S.19.01.

[^{F10}

Year N is the reporting year.

C0020–C0080/R0200	Total	Total amount of the undiscounted development result for all accident/underwriting years.

Textual Amendments

- F12** Inserted by [Commission Implementing Regulation \(EU\) 2016/1868 of 20 October 2016 amending and correcting Implementing Regulation \(EU\) 2015/2450 laying down implementing technical standards with regard to the templates for the submission of information to the supervisory authorities according to Directive 2009/138/EC of the European Parliament and of the Council \(Text with EEA relevance\).](#)

S.17.01 — Non–life Technical Provisions

General comments:

This section relates to quarterly and annual submission of information for individual entities, ring fenced–funds, matching adjustment portfolios and remaining part.

Undertakings may apply appropriate approximations in the calculation of the technical provisions as referred to in Article 21 of Delegated Regulation (EU) 2015/35. In addition, Article 59 of the Delegated Regulation (EU) 2015/35 may be applied to calculate the risk margin during the financial year.

Line of Business for non–life obligations: The lines of business, referred to in Article 80 of the Directive 2009/138/EC, as defined in Annex I to Delegated Regulation (EU) 2015/35, referred to direct business/accepted proportional reinsurance and accepted non–proportional reinsurance. The segmentation shall reflect the nature of the risks underlying the contract (substance), rather than the legal form of the contract (form).

Health direct insurance business pursued on a non–similar technical basis to life insurance shall be segmented into Non–Life line of business 1 to 3.

Accepted proportional reinsurance shall be considered together with the direct business in the C0020 to C0130.

The information to be reported between R0010 and R0280 shall be after the volatility adjustment, the matching adjustment and the transitional adjustment to the relevant risk-free interest rate term structure if applied but shall not include the transitional deduction to technical provisions. The amount of transitional deduction to technical provisions is requested separately between rows R0290 and R0310.

<p>Status: Point in time view as at 31/12/2020.</p> <p>Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. These amendments will be applied to the text of the Regulation as it appears in legislation.gov.uk. Details of relevant amendments can be found at <https://www.legislation.gov.uk/ukdsi/2018/0001/eng/si20181093>.

	and accepted reinsurance business.	provisions, for each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, regarding direct business and accepted reinsurance business.
C0180/R0230	Total Non–Life obligations, Best Estimate of Claims Provisions, Recoverables from Finite Reinsurance before adjustment for expected losses.	The total amount of Recoverables from Finite Reinsurance before adjustment for expected losses, referred to the Best Estimate for Claims Provisions.
C0020 to C0170/R0240	Best Estimate of Claims provisions, Total recoverable from reinsurance/SPV and Finite re after the adjustment for expected losses due to counterparty default — Direct and accepted reinsurance business	The amount recoverable from reinsurance/SPV and Finite re after the adjustment for expected losses due to counterparty default, for each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, regarding direct and accepted reinsurance business.
C0180/R0240	Total Non–Life obligations, Best Estimate of Claims Provisions, Recoverable from reinsurance/SPV and Finite re after the adjustment for expected losses due to counterparty default.	The total amount of Recoverable from reinsurance/SPV and Finite re after the adjustment for expected losses due to counterparty default, referred to the Best Estimate for Claims Provisions.
C0020 to C0170/R0250	Net best estimate of Claims provisions — Direct and accepted reinsurance business	The amount of net best estimate for claims provisions, for each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, regarding direct and accepted reinsurance business.
C0180/R0250	Total Non–Life obligations, Net best estimate of Claims Provisions	The total amount of net Best Estimate for Claims Provisions.
C0020 to C0170/R0260	Total best estimate, Gross — Direct and accepted reinsurance business	The amount of Total gross best estimate, for each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35,

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments apply to the UK. (For details of the amendments see [legislation.gov.uk](https://www.legislation.gov.uk). Details of relevant amending instruments can be found on their websites.) (For details of the amendments regarding direct and accepted reinsurance business, see [legislation.gov.uk](https://www.legislation.gov.uk).)

C0180/R0260	Total Non–Life obligations, Total Best Estimate, Gross	The total amount of Gross Best Estimate (sum of the Premium Provision and Claims Provisions).
C0020 to C0170/R0270	Total best estimate, Net — Direct and accepted reinsurance business	The amount of Total net best estimate, for each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, regarding direct and accepted reinsurance business.
C0180/R0270	Total Non–Life obligations, Total Best Estimate, Net	The total amount of Net Best Estimate (sum of the Premium Provision and Claims Provisions).
C0020 to C0170/R0280	Technical provisions calculated as a sum of a best estimate and a risk margin — Risk margin	The amount of risk margin, as required by Directive 2009/138/EC (Article 77 (3)). The risk margin is calculated to whole portfolio of (re)insurance obligations and then allocated to each single line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, regarding direct business and accepted reinsurance business.
C0180/R0280	Total Non–Life obligations, Total risk margin	The total amount of risk margin, as required by Directive 2009/138/EC (Article 77 (3)).
Amount of the transitional on Technical Provisions		
C0020 to C0170/R0290	Amount of the transitional on Technical Provisions — Technical Provisions calculated as a whole	Amount of the transitional deduction to Technical Provisions allocated to the technical provisions calculated as a whole, per each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35. [^{F3} This value shall be reported as a negative value when it reduces the technical provisions.]

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. 		provisions/transition adjustment to the relevant risk-free interest rate term structure, the amount reported in this item shall reflect the value without both the transitional adjustment to the relevant risk-free interest rate term structure and without the volatility adjustment.
C0180/R0490	Technical provisions without volatility adjustment and without others transitional measures — Total Non–Life obligation	Indicate the total amount, for all lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, of technical provisions without volatility adjustment. In the cases where the same best estimates were also subject to the transitional deduction to technical provisions/transition adjustment to the relevant risk-free interest rate term structure, the amount reported in this item shall reflect the value without both the transitional adjustment to the relevant risk-free interest rate term structure and without the volatility adjustment.

S.17.02 — Non-Life Technical Provisions — By country

General comments:

[^{F6}This section relates to annual submission of information for individual entities. The template is not due when the thresholds for reporting by country described below are not applicable, i.e. the home country represents 100 % of the sum of the technical provisions calculated as a whole and gross best estimate. When this amount is higher than 90 % but lower than 100 % then only R0010, R0020 and R0030 shall be reported.]

Health direct insurance business pursued on a non–similar technical basis to life insurance shall be segmented into Non–Life line of business 1 to 3.

Undertakings shall take into account all the obligations in different currencies and convert them into the reporting currency.

The information by country shall be reported according to the following:

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019.

- a) Information on the home country shall be always reported regardless of the amount of Technical Provisions as a whole and Gross Best Estimate (referred to direct business);
- b) Information reported by country shall at least represent 90 % of the total Technical Provisions as a whole and Gross Best Estimate (referred to direct business) of any line of business;
- c) If a specific country has to be reported for a particular line of business to comply with sub-paragraph b) then that country shall be reported for all lines of business;
- d) The other countries shall be reported aggregated in 'other-EEA' or 'other-non EEA';
- e) For the direct insurance business for the lines of business 'Medical expense', 'Income protection', 'Workers' compensation', 'Fire and other damage to property' and 'Credit and suretyship' information shall be reported by country where the risk is situated as defined in Article 13 (13) of Directive 2009/138/EC;
- f) For direct insurance business for all other lines of business not referred in sub-paragraph e) information shall be reported by country where the contract was entered into;

For the purposes of this template 'country where the contract was entered into' means:

- o) The country where the insurance undertaking is established (home country) when the contract was not sold through a branch or freedom to provide services;
- p) The country where the branch is located (host country) when the contract was sold through a branch;
- q) The country where the freedom to provide services was notified (host country) when the contract was sold through freedom to provide services.
- r) If an intermediary is used or in any other situation, it is a), b) or c) depending on who sold the contract.

The information to be reported shall include the volatility adjustment, the matching adjustment, the transitional adjustment to the relevant risk-free interest rate term structure and the transitional deduction to technical provisions.

	ITEM	INSTRUCTIONS
C0010/R0040	Country 1 ...	Report the country ISO 3166-1 alpha-2 code of each required country, row by row.
C0020 to C0130/R0010	Gross TP calculated as a whole and Gross BE for different countries — Home country	Amount of gross technical provision calculated as a whole and gross best estimate, by country where the risk is situated or country where the contract was entered into when the country is the Home country, for each Line of Business, regarding direct business only (excluding accepted reinsurance).

Status: Point in time view as at 31/12/2020.

S.18.01 — Projection of future cash flows (Best Estimate — Non Life)

General Comments:

This section relates to annual submission of information for individual undertakings.

This template applies only to Best Estimate and the following shall be considered:

- All cash flows expressed in different currencies shall be considered and converted in the reporting currency using the exchange rate at the reporting date;
- The cash flows shall be reported gross of reinsurance and undiscounted;
- In case the undertaking uses simplifications for the calculation of technical provisions, for which an estimate of the expected future cash-flows arising from the contracts are not calculated, the information shall be reported only in those cases where more than 10 % of technical provisions have a settlement period longer than 24 months.

	ITEM	INSTRUCTIONS
C0010/R0010 to R0310	Best Estimate Premium Provision (Gross) — Cash out-flows — Future Benefits	Amounts of all the expected payments to policyholders and beneficiaries as defined in Article 78 (3) of Directive 2009/138/EC, referred to the whole portfolio of non-life obligations falling within the contract boundary, used in the calculation of premium provisions, from year 1 to year 30 and from year 31 and after.
C0020/R0010 to R0310	Best Estimate Premium Provision (Gross) — Cash out-flows — Future expenses and other cash-out flows	Amount of expenses that will be incurred in servicing insurance and reinsurance obligations as defined in Article 78 (1) of Directive 2009/138/EC and in Article 31 of Delegated Regulation (EU) 2015/35 and other cash-out flow items such as taxation payments which are charged to policyholders used in the calculation of premium provisions, referred to the whole portfolio of non-life obligations from year 1 to

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments have not yet been incorporated into legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (See end of Document for details)

C0030/R0010 to R0310	Best Estimate Premium Provision (Gross) — Cash in-flows — Future Premiums	Amounts of all the future premiums stemming from existing policies, excluding the past-due premiums, referred to the whole portfolio of non-life obligations, used in the calculation of premium provisions, from year 1 to year 30 and from year 31 and after.
C0040/R0010 to R0310	Best Estimate Premium Provision (Gross) — Cash in-flows — Other cash-in flows	Amount of recoverables from salvages and subrogations and other cash-in flows (not including investment returns), used in the calculation of premium provisions, referred to the whole portfolio of non-life obligations from year 1 to year 30 and from year 31 and after.
C0050/R0010 to R0310	Best Estimate Claims Provision (Gross) — Cash out-flows — Future Benefits	Amounts of all the expected payments to policyholders and beneficiaries as defined in Article 78 (3) of Directive 2009/138/EC, referred to the whole portfolio of non-life obligations and relating existing contracts, used in the calculation of claims provisions, from year 1 to year 30 and from year 31 and after.
C0060/R0010 to R0310	Best Estimate Claims Provision (Gross) — Cash out-flows — Future Expenses and other cash-out flows	Amount of expenses that will be incurred in servicing insurance and reinsurance obligations as defined in Article 78 (1) of Directive 2009/138/EC and other cash-flow items such as taxation payments which are charged to policyholders used in the calculation of claims provisions, referred to the whole portfolio of non-life obligations from year 1 to year 30 and from year 31 and after.

<i>Status: Point in time view as at 31/12/2020.</i>		
<i>Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. Pt. 2. These amendments are not currently available on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)</i>		
C0070/R0010 to R0310	Best Estimate Claims Provision (Gross) — Cash in-flows — Future premiums	Amounts of all the future premiums stemming from existing policies, excluding the past-due premiums, referred to the whole portfolio of non-life obligations used in the calculation of claims provisions, from year 1 to year 30 and from year 31 and after.
C0080/R0010 to R0310	Best Estimate Claims Provision (Gross) — Cash in-flows — Other cash-in flows	Amount of recoverables from salvages and subrogations and other cash-in flows (not including investment returns), used in the calculation of claims provisions, referred to the whole portfolio of non-life obligations and relating existing contracts, from year 1 to year 30 and from year 31 and after.
C0090/R0010 to R0310	Total recoverable from reinsurance (after the adjustment)	Amount of undiscounted cash-flows expected for each year from year 1 to year 30 and from year 31 and after. The future cash-flows undiscounted from amounts recoverables from reinsurance and SPVs/ Finite Re, including ceded intra group reinsurance, including future reinsurance premiums. Amount shall be reported net of adjustment for counterparty default risk.

S.19.01 — Non-life insurance claims

General comments:

This section relates to annual submission of information for individual entities.

Claims development triangles show the insurer's estimate of the cost of claims (claims paid and claims provisions under Solvency II valuation principle) and how this estimate develops over time.

Three set of triangles are required regarding claims paid, best estimate of claims provisions and RBNS claims.

This template shall be reported for each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, and material considering the following specifications:

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2019.

- i. ~~reporting by line of business, it is required to report lines of business 1–2 (as reported in S. 17.01) for both direct and accepted proportional reinsurance (to be reported together) and lines of business 25–28 for accepted non-proportional reinsurance;~~
- ii. If the total gross best estimate for one non-life line of business represents more than 3 % of the total gross best estimate of the claims provision the information shall be reported with the following split by currencies in addition to the total for the line of business:
- Amounts in the reporting currency;
 - [^{F6}Amounts for any currency that represents more than 25 % of the gross best estimate of the claims provisions from that non-life line of business; or
 - Amounts for any currency that represents less than 25 % of the gross best estimate of the claims provisions from that non-life line of business but more than 5 % of total gross best estimate of the claims provisions.]
- iii. If the total gross best estimate for one non-life line of business represents less than 3 % of the total gross best estimate of the claims provision no currency split is required, only the total for the line of business shall be reported.
- iv. The information by currency shall be reported in the original currency of the contracts unless otherwise specified.

Undertakings are required to report data on an accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, provided that they use the same year consistently, year on year.

The default length of run-off triangle is 15 + 1 years for all lines of business but the reporting requirement is based on the undertakings' claims development (if length of the claims settlement cycle is shorter than 15 years, undertakings are required to report according to the internal shorter development).

Historical data, starting from the first time application of Solvency II, are required for claims paid and RBNS claims but not for Best Estimate of Claims Provision. For the compilation of the historical data for claims paid and RBNS claims the same approach concerning the length of triangle for the on-going reporting will be applied (i.e. the shorter between 15 + 1 years and the undertakings' claims settlement cycle).

All or part of an obligation moves from S.19.01 into S.16.01, when both of the conditions below are met:

- All or part of the obligation has been formally settled as an annuity; and
- a best estimate of an obligation formally settled as an annuity can be established using life techniques.

Formally settled as an annuity typically means that a legal process has ordered that the beneficiary is to receive payments as an annuity.

The sum of provisions in templates S.16.01 and S.19.01 for one non-life line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, represents the total claims reserves originating from this line of business.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

(EU Exit) Regulations 2018 (S.I. 2018/1111) Regs. 2, 3, Sch. Pt. 2. These amendments are available on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not and transport reinsurance on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

		28 — Non-proportional property reinsurance
Z0020	Accident year or Underwriting year	Report the standard used by the undertakings for reporting of claims development. One of the options from the following closed list shall be used: 1 — Accident year 2 — Underwriting year
Z0030	Currency	Identify the ISO 4217 alphabetic code of the currency in which the obligation is denominated. This item shall be filled in with 'Total' when reporting the total for the line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35.
Z0040	Currency conversion	Identify if the information reported by currency is being reported in the original currency (default) or in the reporting currency (otherwise specified). The following close list shall be used: 1 — Original currency 2 — Reporting currency Only applicable when reporting by currency.
C0010 to C0160/ R0100 to R0250	Gross Claims Paid (non-cumulative) –Triangle	The Gross Claims Paid, net of salvage and subrogation, excluding expenses, in a triangle showing the developments of the gross claims payment already made: for each of the accident/underwriting years from N-14 (and prior) and all previous reporting periods to — including — N (last reporting year) report the payments already made

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments correspond to each development year (which legislation.gov.uk. Details of relevant amending instruments can be found on their website) (which details)

		is the delay between the accident/underwriting date and the payment date). The data are in absolute amount, non-cumulative and undiscounted. The amount includes all the elements that compose the claim itself but excludes any expenses.
C0170/ R0100 to R0260	Gross Claims Paid (non-cumulative) — In current year	Total 'Current year' reflects the last diagonal (all data referred to last reporting year) from [F ⁶ R0100] to R0250. R0260 is the total of [F ⁶ R0100] to R0250.
C0180/ R0100 to R0260	Gross Claims Paid — Sum of years (cumulative)	[F ³ Total 'Sum of all years' contains the sum of all data in rows (sum of all payments referred to the accident/underwriting year), including total.]
C0200 to C0350/ R0100 to R0250	Gross undiscounted Best Estimate Claims Provisions — Triangle	Triangles of undiscounted best estimate of claims provisions, gross of reinsurance for each of the accident/underwriting years from N-14 (and prior) and all previous reporting periods to — including — N (last reporting year). The best estimate for claims provision relates to claims events occurred before or at the valuation date, whether the claims arising from these events have been reported or not. The data are in absolute amount, non-cumulative and undiscounted.
C0360/ R0100 to R0260	Gross Best Estimate Claims Provisions — Year end (discounted data)	Total 'Year end' reflects the last diagonal but on a discounted basis (all data referred to last reporting year) from [F ⁶ R0100] to R0250.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are available on legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (See end of Document for details)

C0400 to C0550/ R0100 to R0250	Gross Reported but not Settled Claims (RBNS) — Triangle	Triangles for each of the accident/underwriting years from N–14 (and prior) and all previous reporting periods to — including — N (last reporting year) of provisions in respect of claim events that have happened and been reported to the insurer, but have not yet been settled, excluding incurred but not reported claims ('IBNR'). These may be case-by-case reserves estimated by claim handlers and do not need to be on a best estimate Solvency II basis. The reported but not settled claims ('RBNS') shall be measured using consistent reserve strength over time. The data are in absolute amount, non-cumulative and undiscounted. The amount includes all the elements that compose the claim itself but excludes any expenses.
C0560/ R0100 to R0260	Gross Reported but not Settled Claims (RBNS) — Year end (discounted data)	[^{F6} Total 'Year end' reflects the last diagonal but on a discounted basis (all data referred to last reporting year) from R0100 to R0250.] R0260 is the total of [^{F6} R0100] to R0250.
C0600 to C0750/ R0300 to R0450	[^{F6} Reinsurance Recoveries (non-cumulative) — Triangle]	[^{F6} Triangles for each of the accident/underwriting years from N–14 (and prior) and all previous reporting periods to — including — N (last reporting year) of payments (claims paid by reinsurer plus reinsurance recoverables), reported in the 'Gross Claims Paid (non-cumulative)', covered by a reinsurance contract. The amounts of reinsurance recoverables shall be

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are available on legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (See end of Document for details)

		counterparty default.] The amount includes all the elements that compose the claim itself but excludes any expenses.
C0760/ R0300 to R0460	Reinsurance Recoveries received (non-cumulative) — In current year	Total 'Current year' reflects the last diagonal (all data referred to last reporting year) from [F6R0300] to R0450. R0460 is the total of [F6R0300] to R0450. The amount includes all the elements that compose the claim itself but excludes any expenses.
C0770/ R0300 to R0450	Reinsurance Recoveries received — Sum of years (cumulative)	Total 'Sum of years' contains the sum of all data in rows (sum of all payments referred to the i-accident/underwriting year), including total.
C0800 to C0950/ R0300 to R0450	Undiscounted Best Estimate Claims Provisions — Reinsurance recoverable — Triangle	Provisions referred to the amounts recoverable from reinsurance contracts and special purpose vehicles. In the triangle is required to reported undiscounted data, while the column 'Year end' will contain data on discounted basis. The amounts shall be considered after the adjustment for the counterparty default.
C0960/ R0300 to R0460	Best Estimate Claims Provisions — Reinsurance recoverable — Year end (discounted data)	Total 'Year end' reflects the last diagonal but a on discounted basis (all data referred to last reporting year) from [F6R0300] to R0450. R0460 is the total of [F6R0300] to R0450.
C1000 to C1150/ R0300 to R0450	Reinsurance RBNS Claims — Triangle	Triangles for each of the accident/underwriting years from N-14 (and prior) and all previous reporting periods to — including — N (last

S.20.01 — Development of the distribution of the claims incurred

General comments:

This section provides an overview about the run-off/movement of non-life claims portfolios, in terms of both claims paid (split by different type of claims) and RBNS claims (as defined in S.19.01).

This template must be filled for each Line of Business (12 line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, in total) with regards to gross direct business (i.e. undertakings are exempted to report the accepted — proportional and non-proportional — business); in case of RBNS denominated in different currencies, it is required to report only the total in the reporting currency.

With regard to the number of claims to be reported, undertakings will use their specific definition or, if available, specification existing at national level (for instance requirement laid down by the National Supervisory Authority). However, each claim shall be reported once [F⁴ by Line of Business]. If any claim is closed and reopened during the year, it shall not be reported in the column 'Reopen Claims during the year' but it shall be reported in relevant column regarding 'Open Claims at the beginning of the year' or 'Claims reported during the year'.

Undertakings are required to report data on accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, provided that they use the same year consistently, year on year.

As per the number of years to be reported, the same reporting requirement introduced in S.19.01 applies.

S.21.01 — Loss distribution risk profile

General comments:

This section relates to annual submission of information for individual undertakings.

The information shall be filled in relation to non-life business (including health insurance business other than that pursued on a similar basis to that of life insurance ('Non-SLT Health')) only for the direct business. There shall be a separate template for each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35.

[^{F6}The loss distribution profile non-life shows the distribution, in (predefined) brackets, of the accumulated claims incurred at the end of the reporting year.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

~~Accumulated claims incurred means the sum of gross claims paid and gross reported but not settled claims (RBNs) on a case by case basis for each and every single claim open or closed, which belongs to a specific accident year ('AY')/underwriting year ('UWY') (AY/UWY). Claims incurred amounts include all the elements that compose the claim itself but excludes any expenses except those attributable to specific claims. Data regarding claims shall be reported net of salvage and subrogation. Historical data, starting from the first time application of Solvency II, is required.]~~

Undertakings are required to report data on an accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, provided that they use the same year consistently, year on year.

The default brackets to be used are defined in euros. For different reporting currencies each relevant supervisory authority shall define the equivalent options for the amounts to be used in the 20 brackets.

An undertaking may use undertaking specific brackets, in particular when incurred losses are lower than EUR 100 000. The brackets chosen shall be used consistently over the reporting periods, unless the distribution of claims changes significantly. In this case the undertaking shall notify the supervisory authority in advance, unless already specified by the supervisory authority.

	ITEM	INSTRUCTIONS
Z0010	Line of business	Identification of the line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, reported. Pt. 2. These amendments are available on legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (See end of Document for details)

		For smaller claims estimations (e.g. default amount) are allowed as long as it is in line with the amounts considered in run-off triangles reported in Non-life Insurance Claims Information (template S.19.01). [^{F6} Accumulated claims incurred means the sum of gross claims paid and gross reported but not settled claims (RBNS) on a case by case basis for each and every single claim, open and closed, which belongs to a specific accident year/underwriting year (AY/UWY).]
C0050, C0070, C0090, C0110, C0130, C0150, C0170, C0190, C0210, C0230, C0250, C0270, C0290, C0310, C0330/R0300	Number of claims AY/UWY year N:N-14 — Total	Total of the accumulated and aggregated number of claims for all brackets for each of the years N to N-14.
C0060, C0080, C0100, C0120, C0140, C0160, C0180, C0200, C0220, C0240, C0260, C0280, C0300, C0320, C0340/R0300	Total claims incurred AY/UWY year N:N-14 — Total	Total of the accumulated and aggregated claims incurred for all brackets for each of the years N to N-14.

S.21.02 — Underwriting risks non-life

General comments:

This section relates to annual submission of information for individual undertakings.

Template shall be filled in relation to non-life business (including Non-SLT Health) only for direct business.

In this template the 20 biggest single underwriting risks, based on net retention, across all lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, shall be reported. If the 2 biggest single underwriting risks for any of the lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35 are not covered through the above methodology, then they shall be reported in addition. In case a single underwriting risk of a specific line of business forms part of the top 20, the same risk of the affected line of business must only be filled in once.

Net retention of the single underwriting risk means the maximum possible liability of the undertaking after the recoverables from reinsurers (including SPV and Finite Reinsurance) and the original deductible of the policyholder has been taken into account. In case the net retention is equal for too many risks the policy with the highest Sum insured shall be used as a second criteria. In case the Sum insured is also the same and the most appropriate risk considering the risk profile of the undertaking must be used as the ultimate criteria.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

(EU Exit) Regulations 2018 (S.I. 2018/1111) Regs. 2, 3, Sch. Pt. 2. These amendments are available on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

C0010	Risk identification code	INSTRUCTIONS The code is a unique
		identifying number assigned by the undertaking that identifies the risk and shall remain unchanged for subsequent annual reports.
C0020	Identification of the company/person to which the risk relates	If the risk relates to a company identify the name of the company to whom the risk relates. If the risk relates to a natural person, pseudonymise the original policy number and report pseudonymised information. Pseudonymous data refer to data that cannot be attributed to a specific individual without the use of additional information, as long as such additional information is kept separately. Consistency over time shall be insured. It implies that if a single underwriting risk appears from one year to another, it shall receive the same pseudonymised format.
C0030	Description risk	The description of the risk. Depending on the line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, report the type of company, building or occupation of the specific risk insured.
C0040	Line of business	Identification of the line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35. The following closed list shall be used: 1 — Medical expense insurance 2 — Income protection insurance 3 — Workers' compensation insurance 4 — Motor vehicle liability insurance

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not currently in force. (See end of Document for details) [legislation.gov.uk](https://www.legislation.gov.uk). Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

		<p>6 — Marine, aviation and transport insurance</p> <p>7 — Fire and other damage to property insurance</p> <p>8 — General liability insurance</p> <p>9 — Credit and suretyship insurance</p> <p>10 — Legal expenses insurance</p> <p>11 — Assistance</p> <p>12 — Miscellaneous financial loss</p>
C0050	Description risk category covered	The description of the risk category covered is entity specific and is not mandatory. Also the term 'risk category' isn't based on Level 1 and 2 terminologies but can be considered as an extra possibility the give additional information about the underwriting risk(s).
C0060	Validity period (start date)	Identify the ISO 8601 (yyyy-mm-dd) code of the date of commencement of the specific cover, i.e., date when the cover took effect.
C0070	Validity period (expiry date)	Identify the ISO 8601 (yyyy-mm-dd) code of the final expiry date of the specific cover.
C0080	Currency	[^{F3} Identify the ISO 4217 alphabetic code of the original currency.]
C0090	Sum insured	The highest amount that the insurer can be obliged to pay out under the policy. The insured sum relates to the underwriting risk. Where the policy covers a number of exposures/risks across the country the individual underwriting risk with the highest net retention

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments shall be specified. If the risk has been accepted on a re-
[legislation.gov.uk](https://www.legislation.gov.uk). Details of relevant amending instruments can be found on their websites. (See end of Document for details)

		insurance basis, the insured sum indicates the maximum liability of the reporting non-life insurer. In case of a joint several liability, the part belonging to a defaulting co-insurer must be included as well.
C0100	Original deductible policyholder	Part of the sum insured which is retained by the policyholder.
C0110	Type of underwriting model	Type of underwriting model which is used to estimate the exposure of the underwriting risk and the need for reinsurance protection. One of the options in the following closed list shall be used: 1 — Sum Insured: the highest amount that the insurer can be obliged to pay out according to the original policy. Sum insured must also be filled when type of underwriting model is not applicable 2 — Maximum Possible Loss: loss which may occur when the most unfavourable circumstances being more or less exceptionally combined, the fire is only stopped by impassable obstacles or lack of substance. 3 — Probable Maximum Loss: defined as the estimate of the largest loss from a single fire or peril to be expected, assuming the worst

Pt. 2. These amendments are not as a result of a single incident on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

		<p>considered to be within the realms of probability taking into account all factors likely to increase or lessen the extent of the loss, but excluding such coincidences and catastrophes which may be possible but remain unlikely.</p> <p>5 — Other: defined as other possible underwriting models used. The type of ‘other’ underwriting model applied must be explained in the Regular Supervisory Report</p> <p>Although abovementioned definitions are used for the line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, ‘Fire and other damage to property insurance’, similar definitions might be in place for other lines of business.</p>
C0120	Amount underwriting model	<p>Maximum loss amount of the single underwriting risk which is the result of the underwriting model applied. In case no specific type of underwriting model is used the amount must be equal to the sum insured reported in C0090 minus the original deductible reported in C0100.</p>
C0130	Sum reinsured on a facultative basis, with all reinsurers	<p>Part of the sum insured that the insurer has reinsured on a facultative basis (by treaty and/or by individual cover) with the reinsurers. When the facultative cover is not placed for 100 % but only for 80 %</p>

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments do not apply to the 20% not placed shall be considered as retention. (See end of Document for details) legislation.gov.uk. Details of relevant amending instruments can be found on their websites.

C0140	Sum reinsured, other than on facultative basis, with all reinsurers	Part of the sum insured that the insurer has reinsured through traditional reinsurance treaties or another basis (including SPV and Finite Reinsurance) other than facultative reinsurance.
C0150	Net retention of the insurer	The net amount for which the insurer acts as risk carrier, i.e.: part of the sum insured that exceeds the original deductible of the policyholder and is not reinsured.

S.21.03 — Non-life distribution of underwriting underwriting risks — by sum insured

General comments:

This section relates to annual submission of information for individual undertakings.

The template is retrospective and shall be filled in relation to non-life business (including Non-SLT Health) only for the direct business and only for the Non-life Lines of Business (lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35).

The underwriting risk portfolio is the distribution, in (predefined) brackets, of the sum insured of each and every single underwriting risk which have been accepted by the undertaking. The underwriting risk portfolio is per line of business. However, whereas some lines of business are reportable on a compulsory basis for all member states, the individual member states may also require compulsory basis reporting for further lines of business where deemed to be relevant. For certain lines of business, the template would not be applicable. (See also item Line of business).

The default brackets to be used are defined in euros. For different reporting currencies each relevant supervisory authority shall define the equivalent options for the amounts to be used in the 20 brackets.

An undertaking may use undertaking specific brackets, in particular when sum insured is lower than EUR 100 000. The brackets chosen shall be used consistently over the reporting periods, unless the distribution of claims changes significantly. In this case the undertaking shall notify the supervisory authority in advance, unless already specified by the supervisory authority.

By default the reference date shall be the end of the reporting year, however if duly justified, the undertaking may choose the reference date of collecting the information from the policy administration. This means that the underwriting risk portfolio can be based for example on the same reference date that is used to collect similar information for the renewal of reinsurance treaties and facultative cover.

The sum insured relates to each and every individual underwriting risk, only looking at the main coverage of the policy per line of business, and means the highest amount that the insurer can be obliged to pay out. This means:

- If the sum insured of the additional cover for 'Theft' is lower than the sum insured of the main cover for 'Fire and other damage' (both belonging to the same line of business), the highest sum insured must be taken.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

— (EU Exit) Regulations 2019, and any subsequent amending instruments can be found on their website/s. (See end of Document for details)

- A policy cover comprising a number of buildings across the country/our fleet etc. must be broken down.
- If the risk has been accepted on a co-insurance basis, the insured sum indicates the maximum liability of the reporting non-life insurer.
- In case of joint liability through co-insurance, the part belonging to a defaulting co-insurer must be included in the sum insured as well.

S.22.01 — Impact of long term guarantees measures and transitionals

General comments:

This section relates to annual submission of information for individual entities.

This template is relevant when at least one long term guarantee measure or transitional is used by the undertaking.

This template shall reflect the impact on the financial positions when no transitional is used and each LTG measures or transitional is set to zero. [F⁶For that purpose, a cumulative step-by-step approach shall be followed taking out each transitional and LTG measure one by one and without recalculating the impact of the remaining measures after each step.]

The impacts need to be reported positive if they increase the amount of the item being reported and negative if they decrease the amount of the item (e.g. if amount of SCR increases or if amount of Own Funds increases then positive values shall be reported).

	ITEM	INSTRUCTIONS
C0010/R0010	Amount with LTG measures and transitionals — Technical Provisions	[F ⁶ Total amount of gross technical provisions] including long term guarantee measures and transitional measures
C0020/R0010	Without transitional on technical provisions — Technical Provisions	[F ⁶ Total amount of gross technical provisions] without the adjustment due to the transitional deduction to technical provisions, but keeping adjustments due to the volatility adjustment and the matching adjustment.

Status: Point in time view as at 31/12/2020.

There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

C0020/R0010 to R0450 (S.I. 2015/2450, reg. 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000) (See end of Document for details)

C0020/R0010 to R0450	Projection of future cash–flows at the end of the reporting period — Longevity, mortality and revision obligations cash outflows	Future cash out–flows related to the longevity, mortality and revision benefits of insurance and reinsurance obligations for each matching portfolio and split by year of due payment of the cash flow, counting the periods of 12 months from the date of reference of the reporting.
C0030/R0010 to R0450	Projection of future cash–flows at the end of the reporting period — Expenses cash outflows	Future cash out–flows related to the expenses of insurance and reinsurance obligations for each matching portfolio and split by year of due payment of the cash flow, counting the periods of 12 months from the date of reference of the reporting.
C0040/R0010 to R0450	Projection of future cash–flows at the end of the reporting period — De–risked Assets cash–flows	Cash flows (out–flows and in–flows) of assets linked to each matching portfolio and split by year of due payment or receipt of the cash flow. These flows shall be appropriately corrected to take into account the probability of default or the portion of the long term average of the spread over the risk–free interest rate as set out in Article 53 of Delegated Regulation (EU) 2015/35.
C0050/R0010 to R0450	Mismatch during reporting period — Positive undiscounted mismatch (inflows > outflows)	If the frequency is lower than yearly then report the sum of the positive undiscounted mismatches (inflows > outflows) through the year of each row. Positive mismatches for some periods shall not be netted off of negative mismatches.
C0060/R0010 to R0450	Mismatch during reporting period — Negative undiscounted mismatch (inflows < outflows)	If the frequency is lower than yearly then report the sum of the deficit undiscounted mismatches (inflows < outflows) through the year of each row. Negative mismatches for some periods shall not

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments have not been reflected in this legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (See end of Document for details)

S.22.03 – Information on the matching adjustment calculation

General comments:

This section relates to annual submission of information for individual entities.

This template shall be reported by each matching portfolio approved by the supervisory authority.

	ITEM	INSTRUCTIONS
Z0010	Matching portfolio	Indicate the number which is attributed by the undertaking, corresponding to the unique number assigned to each matching portfolio. This number has to be consistent over time and shall be used to identify the matching portfolio number in other templates.
Overall calculation of the matching adjustment		
C0010/R0010	Annual effective rate applied to the CF of the obligations	The annual effective rate, calculated as the single discount rate that, where applied to the cash flows ('CF') of the portfolio of insurance or reinsurance obligations, results in a value that is equal to the value in accordance with Article 75 of Directive 2009/138/EC of the portfolio of assigned assets.
C0010/R0020	Annual effective rate of the best estimate	The annual effective rate, calculated as the single discount rate that, where applied to the cash flows of the portfolio of insurance or reinsurance obligations, results in a value that is equal to the value of the best estimate of the portfolio of insurance or reinsurance obligations where the time value of money is taken into account using the basic risk-free interest rate term structure.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

C0010/R0030 Regulations 2018 (S.I. 2018/1115), arts 2, 3 (Sch. Pt. 1). These amendments are not currently available on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

	<p>Probability of default used to de-risk assets cash flows</p>	<p>The probability of default corresponds to the amount expressed as a financial percentage (same format as for rows R0010 and R0020) used to adjust the assets cash flows of the assigned portfolio of assets pursuant to Article 53 of Delegated Regulation (EU) 2015/35. 'De-risked assets cash flows' means 'expected assets cash-flows' as referred to in Article 53 of Delegated Regulation (EU) 2015/35. This amount shall not include the increase reported in row R0050.</p>
<p>C0010/R0040</p>	<p>Portion of the fundamental spread not reflected when de-risking assets cash flows</p>	<p>Portion of the fundamental spread that has not been reflected in the adjustment to the cash-flows of the assigned portfolio of assets as set out in Article 53 of Delegated Regulation (EU) 2015/35. This amount shall be expressed as a financial percentage (same format as rows R0010 and R0020). This amount shall not include the increase reported in row R0050.</p>
<p>C0010/R0050</p>	<p>Increase of fundamental spread for sub investment grade assets</p>	<p>Increase of the fundamental spread for sub-investment grade assets expressed as a financial percentage (same format as rows R0010, R0020 and R0120). The increase of the probability of default for sub investment grade assets shall be considered in the de-risking of cash flows.</p>
<p>C0010/R0060</p>	<p>Matching adjustment to the risk free rate</p>	<p>[^{F1}Matching adjustment to the risk free rate for the reported portfolio, reported in basis points using decimal notation, e.g. 100bp reported as 0.01.]</p>

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

Eligibility criteria using SCR mortality stress Sch. Pt. 2. These amendments are not currently available on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

Portfolio	Mortality risk stress for the purpose of the matching adjustment	Increase of the gross best estimate calculated with the basic risk free rate following a mortality risk stress compared to the gross best estimate calculated with the basic risk rate, as set out in Article 77b (1–f) of Directive 2009/138/EC and Article 52 of Delegated Regulation (EU) 2015/35.
C0010/R0070		
C0010/R0080	Market value of the assets of the portfolio	Solvency II value of the assets of the portfolio.
C0010/R0090	Market value of assets linked to inflation	Solvency II value of the assets with return linked to inflation (Article 77b (1) of Directive 2009/138/EC).
C0010/R0100	Best estimate linked to inflation	Amount of best estimate of cash flows of the insurance or reinsurance obligations that depend on inflation.
C0010/R0110	Market value assets where third party can change the cash flows	Value of the assets where third party can change the cash flows (Article 77b (1) of Directive 2009/138/EC).
C0010/R0120	Return on assets — portfolio assets	Identify the de-risked Internal Rate of Return ('IRR') of the assets linked to any matching adjustment portfolio measured as the discount rate at which the present value of the cash outflows of an asset equals the present value of its de-risked cash inflows.
C0010/R0130	Market value of surrendered contracts	Value of the best estimate of the insurance and reinsurance obligations stemming from contracts underlying each matching adjustment portfolio which have been surrendered during the reporting period.
C0010/R0140	Number of surrender options exercised	Number of surrender options exercised during the reporting period related to insurance

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments and reinsurance obligations of each matching portfolio. Details of relevant amending instruments can be found on their website (https://www.legislation.gov.uk).

C0010/R0150	Market value of assets covering surrendered contracts	Value of the assets, valued in accordance with Article 75 of the Directive 2009/138/EC, covering the insurance and reinsurance obligations surrendered at the time the surrender options were exercised.
C0010/R0160	Amount paid to policyholders	Value of the amount paid to policyholders according to their surrender rights. This amount differs from row R0130 and R0150 where the surrender clause of the contract does not give the policyholder the right to receive the full amount in those rows.
Liabilities		
C0010/R0170	Duration	Measure equivalent to Macaulay duration for liabilities considering all cash flows of insurance or reinsurance obligations arising from portfolios where the matching adjustment has been used.

S.22.04 — Information on the transitional on interest rates calculation

General comments:

This section relates to annual submission of information for individual entities.

This template shall be reported by currency for which the transitional adjustment to the relevant risk-free interest rate term structure is applied. When filling C0020 only the guaranteed Best Estimate of obligations stemming from products providing a guaranteed rate shall be considered. The Future Discretionary Benefits shall not be considered.

The assessment to distinguish between the Solvency I interest rate intervals might be done by Homogeneous Risk Groups (HRG).

	ITEM	INSTRUCTIONS

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are available at www.legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (Structure is applied.)

C0010/R0010	Solvency I interest rate	The interest rate (as a decimal) as determined by the insurance or reinsurance undertaking in accordance with the laws, regulations and administrative provisions which are adopted pursuant to Article 20 of Directive 2002/83/EC at the last date of the application of that Directive.
C0010/R0020	Annual effective rate	The annual effective rate, calculated as the single discount rate that, where applied to the cash flows of the portfolio of admissible insurance and reinsurance obligations, results in a value that is equal to the value of the best estimate of the portfolio of admissible insurance and reinsurance obligations where the time value of money is taken into account using the relevant risk-free interest rate term structure referred to in Article 77(2) of Directive 2009/138/EC.
C0010/R0030	Portion of the difference applied at the reporting date	Percentage (as a decimal) of the difference between the Solvency I interest rate (R0010) and the Annual effective rate (R0020) (e.g. 1,00 at the beginning of the transitional period and 0,00 at the end).
C0010/R0040	Adjustment to risk free rate	Transitional adjustment to the risk free rate expressed as a percentage (as a decimal).
Solvency I interest rate		
C0020/R0100	Best estimate — Up to 0.5 per cent	Value of the best estimate of the insurance and reinsurance obligations for which the interest rate as determined by the insurance or reinsurance undertaking in accordance with the laws, regulations

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments and administrative provisions are adopted pursuant to Article 20 of Directive 2002/83/EC at the last date of the application of that Directive was up to 0,5 % (inclusive). Only the guaranteed Best Estimate of obligations stemming from products providing a guaranteed rate shall be considered. The Future Discretionary Benefits shall not be considered.

		to Article 20 of Directive 2002/83/EC at the last date of the application of that Directive was up to 0,5 % (inclusive). Only the guaranteed Best Estimate of obligations stemming from products providing a guaranteed rate shall be considered. The Future Discretionary Benefits shall not be considered.
C0020/R0110 to R0200	Best estimate — Best estimate	Value of the best estimate of the insurance and reinsurance obligations for which the interest rate as determined by the insurance or reinsurance undertaking in accordance with the laws, regulations and administrative provisions which are adopted pursuant to Article 20 of Directive 2002/83/EC at the last date of the application of that Directive was in the correspondent interval. The lower reference is exclusive and the higher reference is inclusive. Only the guaranteed Best Estimate of obligations stemming from products providing a guaranteed rate shall be considered. The Future Discretionary Benefits shall not be considered.
C0020/R0210	Best estimate — Above 8.0 per cent	Value of the best estimate of the insurance and reinsurance obligations for which the interest rate as determined by the insurance or reinsurance undertaking in accordance with the laws, regulations and administrative provisions which are adopted pursuant to Article 20 of Directive 2002/83/EC at the last date of the application of that Directive was above 8,0 % (exclusive).

Status: Point in time view as at 31/12/2020.

S.22.06 — Best estimate subject to volatility adjustment by country and currency

General comments:

This section relates to annual submission of information for individual entities.

This template shall only be reported by insurance and reinsurance undertakings that apply volatility adjustment in accordance with Article 77d of the Directive 2009/138/EC.

This template shall reflect the gross best estimate of insurance and reinsurance life obligations subject to volatility adjustment split by currency of the obligations and by country in which the contract was entered into. The best estimate reported shall take into account the volatility adjustment. The best estimate subject to any matching adjustment shall not be reported in this template.

[^{F1}Information shall be reported in relation to material obligations in countries and currencies for which a currency volatility adjustment, and a country increase if applicable, is applied until 90 % of the total best estimate subject to volatility adjustment is reported by currency and country.]

	ITEM	INSTRUCTIONS

R0090/C0590	Total participations in related undertakings that are not financial and credit institutions — Type 1 Equity — of which non-strategic	This is the total value of Type 1 Equities held in non-strategic participations in undertakings which are not financial and credit institutions. Type 1 equity has the meaning as defined in Article 168 (2) of Delegated Regulation (EU) 2015/35. This is the sum of C0550.
R0090/C0600	Total participations in related undertakings that are not financial and credit institutions — Type 2 Equity — of which non-strategic	This is the total value of Type 2 Equities held in non-strategic participations in undertakings which are not financial and credit institutions. This is the sum of C0560.
R0090/C0610	Total participations in related undertakings that are not financial and credit institutions — Subordinated liabilities — of which non-strategic	This is the total value of subordinated liabilities held in non-strategic participations in undertakings which are not financial and credit institutions. This is the sum of C0570.
Total		
C0620	Total of all participations	This is the total value of all participations.

S.25.01 — Solvency Capital Requirement — for undertakings on Standard Formula

General comments:

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.)

This section relates to opening and annual submission of information for individual entities, ring-fenced funds, matching adjustment portfolios and remaining part. (See end of Document for details)

Template SR.25.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of template S.01.03.

Where the entity has MAP or RFF (except those under the scope of Article 304 of Directive 2009/138/EC) when reporting at the level of the whole undertaking, the notional Solvency Capital Requirement ('nSCR') at risk module level and the loss-absorbing capacity (LAC) of technical provisions and deferred taxes to be reported shall be calculated as follows:

- Where the undertaking applies the full adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level the nSCR is calculated as if no loss of diversification exists and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part;
- Where the undertaking applies the Simplification at risk sub-module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR is calculated considering a direct summation at sub-module level method and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part,
- Where the undertaking applies the simplification at risk module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR is calculated considering a direct summation at module level method and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part.

The adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level shall be allocated (C0050) to the relevant risk modules (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk). The amount to be allocated to each relevant risk module shall be calculated as follows:

- q ^{F3}

$$\text{Calculation of } q \text{ factor}^{F3} = \frac{\text{adjustment}}{BSCR - nSCR_{int}}$$
, where
 - *adjustment* = Adjustment calculated according to one of the three methods referred above
 - *BSCR* = Basic solvency capital requirement calculated according to the information reported in this template (C0040/R0100)
 - *nSCR_{int}* = nSCR for intangible assets risk according to the information reported in this template (C0040/R0070)]
- Multiplication of this 'q factor' by the nSCR of each relevant risk module (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk)

Pt. 2. These amendments will be published on www.legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (See end of Document for details) **represent the SCR as if there was no loss of diversification.**

R0010–R0050/C0040	Gross solvency capital requirement	Amount of the gross capital charge for each risk module, as calculated using the standard formula. The difference between the net and the gross SCR is the consideration of the future discretionary benefits according to Article 205 of Delegated Regulation (EU) 2015/35. This amount shall fully consider diversification effects according to Article 304 of Directive 2009/138/EC where applicable. These cells do not include the allocation of the adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level. These figures represent the SCR as if there was no loss of diversification.
R0010–R0050/C0050	Allocation of RFF adjustment due to RFF and Matching adjustments portfolios	Part of the adjustment allocated to each risk module according to the procedure described in the general comments. This amount shall be positive.
R0060/C0030	Net solvency capital requirement Diversification	Amount of the diversification effects between Basic SCR of net risk modules due to the application of the correlation matrix defined in Annex IV of Directive 2009/138/EC. This amount shall be reported as a negative value.
R0060/C0040	Gross solvency capital requirement Diversification	Amount of the diversification effects between Basic SCR of gross risk modules due to the application of the correlation matrix defined in Annex IV of Directive 2009/138/EC. This amount shall be reported as a negative value.
R0070/C0030	Net solvency capital requirement Intangible asset risk	Amount of the capital charge, after the adjustment for the loss-absorbing capacity of

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are available on www.legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (Details)

		calculated using the standard formula.
R0070/C0040	Gross solvency capital requirement Intangible assets risk	The future discretionary benefits according to Article 205 of the Delegated Regulation (EU) 2015/35 for intangible assets risk is zero under standard formula, hence R0070/C0040 equals R0070/C0030.
R0100/C0030	Net solvency capital requirement — Basic Solvency Capital Requirement	Amount of the basic capital requirements, after the consideration of future discretionary benefits according to Article 205 of Delegated Regulation (EU) 2015/35, as calculated using the standard formula. This amount shall fully consider diversification effects according to Article 304 of Directive 2009/138/EC where applicable. This cell does not include the allocation of the adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level. These figures represent the SCR as if there was no loss of diversification. This amount shall be calculated as a sum of the net capital charges for each risk module within the standard formula, including adjustment for diversification effect within standard formula.
R0100/C0040	Gross solvency capital requirement — Basic Solvency Capital Requirement	Amount of the basic capital requirements, before the consideration of future discretionary benefits according to Article 205 of Delegated Regulation (EU) 2015/35, as calculated using the standard formula. This amount shall fully consider diversification effects according to Article

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are available at www.legislation.gov.uk. Details of relevant amending instruments can be found on their websites where applicable. (for details)

		This cell does not include the allocation of the adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level. These figures represent the SCR as if there was no loss of diversification. This amount shall be calculated as a sum of the gross capital charges for each risk module within the standard formula, including adjustment for diversification effect within standard formula
Calculation of Solvency Capital Requirement		
R0120/C0100	Adjustment due to RFF/MAP nSCR aggregation	Adjustment to correct the bias on SCR calculation due to aggregation of RFF/MAP nSCR at risk module level. This amount shall be positive.
R0130/C0100	Operational risk	Amount of the capital requirements for operational risk module as calculated using the standard formula.
R0140/C0100	Loss-absorbing capacity of technical provisions	Amount of the adjustment for loss-absorbing capacity of technical provisions calculated according to the standard formula. This amount shall be reported as a negative value. At RFF/MAP level and at entity level where there are no RFF (other than those under Article 304 of Directive 2009/138/EC) nor MAP it is the maximum between zero and the amount corresponding to the minimum between the amount of technical provisions without risk margin in relation to future discretionary benefits net of reinsurance and the difference between gross and net basic solvency capital requirement.

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not reflected in this legislation.gov.uk. Details of relevant amending instruments can be found on their websites. **Where there are RFF (other than those under Article 304)**

		of Directive 2009/138/EC) or MAP, this amount shall be calculated as the sum of the loss-absorbing capacity of technical provisions of each RFF/MAP and remaining part, taking into account the net future discretionary benefits as a top limit.
R0150/C0100	Loss-absorbing capacity of deferred taxes	Amount of the adjustment for loss-absorbing capacity of deferred taxes calculated according to the standard formula. This amount shall be negative.
R0160/C0100	Capital requirement for business operated in accordance with Art. 4 of Directive 2003/41/EC	Amount of the capital requirement, calculated according to the rules stated in article 17 of Directive 2003/41/EC, for ring-fenced funds relating to pension business operated under article 4 of Directive 2003/41/EC to which transitional measures are applied. This item is to be reported only during the transitional period.
R0200/C0100	Solvency capital requirement excluding capital add-on	Amount of the total diversified SCR before any capital add-on.
R0210/C0100	Capital add-ons already set	Amount of capital add-on that had been set at the reporting reference date. It will not include capital add-ons set between that date and the submission of the data to the supervisory authority, nor any set after the submission of the data.
R0220/C0100	Solvency capital requirement	Amount of the Solvency Capital Requirement.
Other information on SCR		
R0400/C0100	Capital requirement for duration-based equity risk sub-module	Amount of the capital requirement for duration-

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. 		years. Amount of losses allocated to the years after next year.
R0690/C0130	Maximum LAC DT	Maximal amount of loss-absorbing capacity of deferred taxes, that could be available, before the assessment whether the increase in net deferred tax assets can be used for the purposes of the adjustment, as provided for in Article 207(2) of Delegated Regulation (EU) 2015/35.]

S.25.02 — Solvency Capital Requirement — for undertakings using the standard formula and partial internal model

General comments:

This section relates to opening and annual submission of information for individual entities, ring fenced–funds, matching adjustment portfolios and remaining part.

The components to be reported shall be agreed between national supervisory authorities and insurance and reinsurance undertakings.

Template SR.25.02 shall be reported by ring–fenced fund, matching adjustment portfolio and the remaining part for every undertaking under a partial internal model. This includes undertakings where a partial internal model is applied to a full ring–fenced fund and/or matching adjustment portfolio while the other ring–fenced funds and/or matching adjustment portfolios are under the standard formula. This template shall be reported for all sub–funds of a material RFF/MAP as identified in the second table of S.01.03.

For those undertakings under a partial internal model to which the adjustment due to the aggregation of the nSCR of RFF/MAP is applicable, where the entity has MAP or RFF (except those under the scope of Article 304 of Directive 2009/138/EC) when reporting at the level of the whole undertaking, the nSCR at risk module level and the loss–absorbing capacity (LAC) of technical provisions and deferred taxes to be reported shall be calculated as follows:

- Where the undertaking applies the full adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level: the nSCR is calculated as if no RFF and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part;
- Where the undertaking applies the Simplification at risk sub–module level to aggregate the nSCR of the RFF/MAP at entity level the the nSCR and LAC are calculated considering a direct summation at sub–module level method,
- Where the undertaking applies the Simplification at risk module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR and LAC are calculated considering a direct summation at module level method.

The adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level shall be allocated (C0060) to the relevant risk modules (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non–life underwriting risk) when calculated according to the standard formula. The amount to be allocated to each relevant risk module shall be calculated as follows:

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are not currently available on legislation.gov.uk. Details of amendments can be found on their website/s. (See end of Document for details)

, where

- $adjustment$ = Adjustment calculated according to one of the three methods referred above
- $BSCR'$ = Basic solvency capital requirement calculated according the information reported in this template
- $nSCR_{int}$ = nSCR for intangible assets risk according to the information reported in this template
- Multiplication of this 'q factor' by the nSCR of each relevant risk module (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk)

	ITEM	INSTRUCTIONS
Z0020	Ring-fenced fund, matching adjustment portfolio or Remaining Part	Identifies whether the reported figures are with regard to a RFF, matching adjustment portfolio or to the remaining part. One of the options in the following closed list shall be used: 1 — RFF/MAP 2 — Remaining part
Z0030	Fund/Portfolio number	When item Z0020 = 1, identification number for a ring fenced fund or matching adjustment portfolio. This number is attributed by the undertaking and must be consistent over time and with the fund/portfolio number reported in other templates. [^{F11} When item Z0020 = 2, then report '0']
C0010	Unique number of component	Unique number of each component agreed with their national supervisory authority to identify uniquely components from their model. This number shall always be used with the appropriate component description reported in each item. Where the partial internal model allow the same split by risk module as the one in the standard

S.25.03 — Solvency Capital Requirement — for undertakings using full internal model

General comments:

This section relates to opening and annual submission of information for individual entities, ring fenced–funds, matching adjustment portfolios and remaining part.

The components to be reported shall be agreed between national supervisory authorities and insurance and reinsurance undertakings.

Template SR.25.03 has to be filled in for each ring–fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part for every undertaking under a full internal model. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub–funds of a material RFF/MAP as identified in the second table of S.01.03.

	ITEM	INSTRUCTIONS
Z0020	Ring–fenced fund, matching adjustment portfolio or Remaining Part	Identifies whether the reported figures are with regard to a RFF, matching adjustment portfolio or to the remaining part. One of the options in the following closed list shall be used: 1 — RFF/MAP 2 — Remaining part
Z0030	Fund/Portfolio number	When item Z0020 = 1, identification number for a

R0140/C0100 Regulations 2018 (S.I. 2018/1115, regs. 2-8, Sch. Pt. 2) These amendments are not currently available on legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

R0060/C0100	Diversification	The total amount of the diversification among components reported in C0030 calculated using the full internal model. This amount does not include diversification effects inside each component, which shall be embedded in the values reported in C0030. This amount shall be negative.
R0160/C0100	Capital requirement for business operated in accordance with Art. 4 of Directive 2003/41/EC	Amount of the capital requirement, calculated according to the rules stated in article 17 of Directive 2003/41/EC, for ring-fenced funds relating to pension business operated under article 4 of Directive 2003/41/EC to which transitional measures are applied. This item is reported only during the transitional period.
R0200/C0100	Solvency capital requirement, excluding capital add-on	Amount of the total diversified SCR before any capital add-on.
R0210/C0100	Capital add-ons already set	Amount of capital add-on that had been set at the reporting reference date. It will not include capital add-ons set between that date and the submission of the data to the supervisory authority, nor any set after the submission of the data.
R0220/C0100	Solvency capital requirement	Amount of total SCR calculated using full internal model.
Other information on SCR		
R0300/C0100	Amount/estimate of the overall loss-absorbing capacity of technical provisions	Amount/Estimate of the overall adjustment for loss-absorbing capacity of technical provisions, including the part embedded in each component and the

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) EUR 2015 No. 2450 may be subject to amendment by EU Exit Instruments made by the Prudential Regulation Authority under powers set out in The Financial Regulators' Powers (Technical Standards etc.) (Amendment etc.) (EU Exit) Regulations 2018 (S.I. 2018/1115), regs. 2, 3, Sch. Pt. 2. These amendments are reported as a single component on legislation.gov.uk. Details of relevant amending instruments can be found on their websites. (See end of Document for details)

R0310/C0100	Amount/estimate of the overall loss-absorbing capacity of deferred taxes	Amount/Estimate of the overall adjustment for loss-absorbing capacity of deferred taxes, including the part embedded in each component and the part reported as a single component.
R0410/C0100	Total amount of notional Solvency Capital Requirements for remaining part	Amount of the notional SCRs of remaining part when undertaking has RFF.
R0420/C0100	Total amount of Notional Solvency Capital Requirements for ring fenced funds	Amount of the sum of notional SCRs of all ring-fenced funds when undertaking has RFF (other than those related to business operated in accordance with article 4 of Directive 2003/41/EC (transitional)).
R0430/C0100	Total amount of Notional Solvency Capital Requirements for matching adjustment portfolios	Amount of the sum of notional SCRs of all matching adjustment portfolios.
R0440/C0100	Diversification effects due to RFF nSCR aggregation for article 304	Amount of the adjustment for a diversification effect between ring fenced funds under Article 304 of Directive 2009/138/EC and remaining part where applicable.
R0460/C0100	Net future discretionary benefits	Amount of technical provisions without risk margin in relation to future discretionary benefits net of reinsurance.
^{F5} R0590/C0109	Approach based on average tax rate	One of the options in the following closed list shall be used: 1 – Yes 2 – No 3 – Not applicable as the adjustment for the loss-absorbing capacity of deferred tax (LAC DT) is not used (in this case)

Status: Point in time view as at 31/12/2020.

Changes to legislation: Commission Implementing Regulation (EU) 2015/2450 is up to date with all changes known to be in force on or before 18 July 2024. Pt. 2. These amendments increase net deferred tax assets can be used for the purposes of the adjustment as provided for in Article 207(2) of Delegated Regulation (EU) 2015/35]

S.26.01 — Solvency Capital Requirement — Market risk

General comments:

This section relates to annual submission of information for individual entities, ring fenced—funds, matching adjustment portfolios and remaining part.

The template SR.26.01.01 has to be filled in for each ring—fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub—funds of a material RFF/MAP as identified in the second table of S.01.03.

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

	ITEM	INSTRUCTIONS
Z0010	Article 112	Identifies whether the reported figures have been requested under Article 112(7), to provide an estimate of the SCR using standard formula. One of the options in the following closed list shall be used: 1 — Article 112(7) reporting 2 — Regular reporting
Z0020	Ring—fenced fund, matching adjustment portfolio or remaining part	Identifies whether the reported figures are with regard to a RFF, matching adjustment portfolio or to the remaining part. One of the options in the following closed list shall be used: 1 — RFF/MAP 2 — Remaining part
Z0030	Fund/Portfolio number	When item Z0020 = 1, identification number for a ring fenced fund or matching adjustment portfolio. This number is attributed by the

 legislation.gov.uk. Details of relevant amending instruments can be found on their website/s. (See end of Document for details)

R0040/C0010	Captives simplifications — market risk concentration	Identify whether a captive undertaking used simplifications for the calculation of market risk concentration. The following options shall be used: 1 — Simplifications used 2 — Simplifications not used
Interest rate risk		
R0100/C0060	Absolute value after shock — Net solvency capital requirement — interest rate risk	This is the net capital charge for interest rate risk, i.e. after adjustment for the loss absorbing capacity of technical provisions. If R0020/C0010=1, this item represents the net capital charge for interest rate risk calculated using simplified calculations for captive undertakings.
R0100/C0080	Absolute value after shock — Gross solvency capital requirement— interest rate risk	This is the gross capital charge for interest rate risk, i.e. before the loss absorbing capacity of technical provisions. If R0020/C0010=1, this item represents the gross capital charge for interest rate risk calculated using simplified calculations for captive undertakings.
R0110–R0120/C0020	Initial absolute values before shock — Assets — Interest rate risk — interest rate down/up shock	This is the total value of the assets sensitive to interest rate down/up risk, before shock. Recoverables from reinsurance and SPVs shall not be included in this cell.
R0110–R0120/C0030	Initial absolute values before shock — Liabilities — Interest rate risk — interest rate down/up shock	This is the total value of the liabilities sensitive to interest rate down/up risk, before shock. The amount of TP shall be net of reinsurance and SPV recoverables.

Status: Point in time view as at 31/12/2020.
