## CHAPTER I

**GENERAL PROVISIONS AND SUPERVISORY REPORTING REQUIREMENTS***Article 1***Subject matter**

This Regulation lays down implementing technical standards on regular supervisory reporting by establishing the templates for the submission of information to the supervisory authorities referred to in Article 35(1) and (2) of Directive 2009/138/EC for individual insurance and reinsurance undertakings and in Article 244(2) and Article 245(2) of Directive 2009/138/EC for groups.

*Article 2***Supervisory reporting formats**

Insurance and reinsurance undertakings, participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit the information referred to in this Regulation in the data exchange formats and representations determined by the supervisory authorities or by the group supervisor and in accordance with the following specifications:

- (a) data points with the data type ‘monetary’ shall be expressed in units with no decimals with the exception of templates S.06.02, S.08.01, S.08.02 and S.11.01, which shall be expressed in units with two decimals;
- (b) data points with the data type ‘percentage’ shall be expressed as per unit with four decimals;
- (c) data points with the data type ‘integer’ shall be expressed in units with no decimals;

**▼M3**

- (d) all data points shall be expressed as positive values except in the following cases:
  - (i) they are of an opposite nature from the natural amount of the item;
  - (ii) the nature of the data point allows for positive and negative values to be reported;
  - (iii) a different reporting format is required by the respective instructions set out in the Annexes.

**▼B***Article 3***Currency**

1. For the purposes of this Regulation ‘reporting currency’, unless otherwise required by the supervisory authority, shall be:

- (a) for individual reporting, the currency used for the preparation of the insurance or reinsurance undertaking's financial statements;
- (b) for group reporting, the currency used for the preparation of the consolidated financial statements.

2. Data points with the data type ‘monetary’ shall be reported in the reporting currency, which requires the conversion of any other currency into the reporting currency unless otherwise stated in this Regulation.

3. When expressing the value of any asset or liability denominated in a currency other than the reporting currency, the value shall be converted into the reporting currency as if the conversion had taken place at the closing rate on the last day for which the appropriate rate is available in the reporting period to which the asset or liability relates.

4. When expressing the value of any income or expense, the value shall be converted into the reporting currency using such basis of conversion as that used for accounting purposes.

**▼M3**

4a. When expressing the values of historical data denominated in a currency other than the reporting currency, such values related to previous reporting periods shall be converted into the reporting currency based on the closing rate on the last day of the period being reported for which the conversion rate is available.

**▼B**

5. The conversion into the reporting currency shall be calculated by applying the exchange rate from the same source as that used for the insurance or reinsurance undertaking's financial statements in the case of individual reporting or for the consolidated financial statements in the case of group reporting, unless otherwise required by the supervisory authority.

*Article 4***Re-submission of data**

Insurance and reinsurance undertakings, participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall re-submit as soon as practicable the information reported using the templates referred to in this Regulation when the information originally reported has materially changed in relation to the same reporting period after the last submission to the supervisory authorities or to the group supervisor.

## CHAPTER II

- (c) template S.01.03.04 of Annex I, specifying basic information on the ring-fenced funds and the matching adjustment portfolios, following the instructions set out in section S.01.03 of Annex III;
- (d) template S.02.01.02 of Annex I, specifying balance sheet information, following the instructions set out in section S.02.01 of Annex III;
- (e) template S.23.01.04 of Annex I, specifying information on own funds, following the instructions set out in section S.23.01 of Annex III;

**▼B**

- (f) where the group uses the standard formula for the calculation of the Solvency Capital Requirement, template S.25.01.04 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.01 of Annex III;
- (g) where the group uses the standard formula and a partial internal model for the calculation of the Solvency Capital Requirement, template S.25.02.04 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.02 of Annex III;
- (h) where the group uses a full internal model for the calculation of the Solvency Capital Requirement, template S.25.03.04 of Annex I, specifying the Solvency Capital Requirement, following the instructions set out in section S.25.03 of Annex III;
- (i) template S.32.01.04 of Annex I, specifying information on the insurance and reinsurance undertakings in the scope of the group, following the instructions set out in section S.32.01 of Annex III;
- (j) template S.33.01.04 of Annex I, specifying information on requirements of insurance and reinsurance undertakings in the scope of the group, following the instructions set out in section S.33.01 of Annex III;
- (k) template S.34.01.04 of Annex I, specifying information on other regulated financial undertakings and other non-regulated financial undertakings including insurance holding companies and mixed financial holding companies, following the instructions set out in section S.34.01 of Annex III.

2. The templates referred to in points (c), (d), (f), (g) and (h) of paragraph 1 shall only be submitted by participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies which, for the calculation of group solvency, use method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive.

*Article 23***Quarterly quantitative templates for groups**

1. Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit quarterly, unless the scope or the frequency of the reporting is limited in accordance with the second subparagraph of Article 254(2) of Directive 2009/138/EC, the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- (a) template S.01.01.05 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex III;

**▼B**

- (b) template S.01.02.04 of Annex I, specifying basic information on the group and the content of the reporting in general, following the instructions set out in section S.01.02 of Annex III;
- (c) where, for the calculation of group solvency, the group uses method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive, template S.02.01.02 of Annex I to this Regulation, specifying balance sheet information using the valuation in accordance with Article 75 of Directive 2009/138/EC, following the instructions set out in section S.02.01 of Annex III to this Regulation;
- (d) template S.05.01.02 of Annex I, specifying information on premiums, claims and expenses for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35 using the valuation and recognition principles used in the consolidated financial statements, following the instructions set out in section S.05.01 of Annex III to this Regulation;
- (e) template S.06.02.04 of Annex I, providing an item-by-item list of assets, following the instructions set out in section S.06.02 of Annex III and using the CIC code as set out in Annex V and defined in Annex VI;
- (f) where the ratio of collective investments held by the group to total investments is higher than 30 %, template S.06.03.04 of Annex I, providing information on the look-through of all collective investments held by the group, following the instructions set out in section S.06.03 of Annex III;
- (g) template S.08.01.04 of Annex I, providing an item-by-item list of open positions of derivatives, following the instructions set out in section S.08.01 of Annex III and using the CIC code as set out in Annex V and defined in Annex VI;
- (h) template S.08.02.04 of Annex I, providing an item-by-item list of transactions of derivatives during the reporting year, following the instructions set out in section S.08.02 of Annex III and using the CIC code as set out in Annex V and defined in Annex VI;
- (i) template S.23.01.04 of Annex I, specifying information on own funds, following the instructions set out in section S.23.01 of Annex III.

2. For the purposes of point (f) of paragraph 1, where for the calculation of group solvency method 1 as defined in Article 230 of Directive 2009/138/EC is used exclusively, the ratio of collective investments held by the group to total investments shall be determined by the sum of items C0010/R0180, collective investment undertakings included in item C0010/R0220 and collective investment undertakings included in item C0010/R0090 of template S.02.01.02, divided by the

sum of items C0010/R0070 and C0010/R0220 of template S.02.01.02. Where, for the calculation of group solvency, method 1 is used in combination with method 2 as defined in Article 233 of Directive 2009/138/EC, or method 2 is used exclusively, the ratio shall be calculated in accordance with the first sentence and adjusted in order to capture the required items of all entities included in the scope of template S.06.02.04.

*Article 24***Simplifications allowed on quarterly reporting for groups**

With regard to the information referred to in point (c) of Article 23(1), quarterly measurements may rely on estimates and estimation methods to a greater extent than measurements of annual financial data. The measurement procedures for the quarterly reporting shall be designed to ensure that the resulting information is reliable and complies with the standards laid down in Directive 2009/138/EC and that all material information that is relevant for the understanding of the data is reported.

*Article 25***Annual quantitative templates for groups — Basic information and content of submission**

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- (a) template S.01.01.04 of Annex I, specifying the content of the submission, following the instructions set out in section S.01.01 of Annex III;
- (b) template S.01.02.04 of Annex I, specifying basic information on the undertaking and the content of the reporting in general, following the instructions set out in section S.01.02 of Annex III;
- (c) where, for the calculation of group solvency, the group uses method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive, template S.01.03.04 of Annex I to this Regulation, specifying basic information on the ring-fenced funds and matching adjustment portfolios, following the instructions set out in section S.01.03 of Annex III to this Regulation.

*Article 26***Annual quantitative templates for groups — Balance sheet and other general information**

1. Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- (a) template S.02.01.01 of Annex I, specifying balance sheet information using both the valuation in accordance with Article 75 of Directive 2009/138/EC and the valuation following the consolidated financial statements, following the instructions set out in section S.02.01 of Annex III;
- (b) template S.02.02.01 of Annex I, specifying information on assets and liabilities by currency, following the instructions set out in section S.02.02 of Annex III;
- (c) template S.03.01.04 of Annex I, specifying general information on off-balance sheet items, following the instructions set out in section S.03.01 of Annex III;
- (d) template S.03.02.04 of Annex I, providing a list of off-balance sheet unlimited guarantees received, following the instructions set out in section S.03.02 of Annex III;
- (e) template S.03.03.04 of Annex I, providing a list of off-balance sheet unlimited guarantees provided, following the instructions set out in section S.03.03 of Annex III;
- (f) template S.05.01.01 of Annex I, specifying information on premiums, claims and expenses for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35 applying the valuation and recognition principles used in the consolidated financial statements, following the instructions set out in section S.05.01 of Annex III to this Regulation;
- (g) template S.05.02.01 of Annex I, specifying information on premiums, claims and expenses by country applying the valuation and recognition principles used in the consolidated financial statements, following the instructions set out in section S.05.02 of Annex III.

2. The templates referred to in points (a) and (b) of paragraph 1 shall only be submitted by participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies which, for the calculation of group solvency, use method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive.

**▼B***Article 27***Annual quantitative templates for groups — Investments information**

1. Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall, unless exempted under the third subparagraph of Article 254(2) of Directive 2009/138/EC in relation to a specific template, submit annually the information referred to in Article 304(1)(d) of Delegated Regulation (EU) 2015/35, in conjunction with Article 372(1) of that Delegated Regulation, using the following templates:

- (a) where the group is exempted from the annual submission of information in templates S.06.02.04 or S.08.01.04 in accordance with the third subparagraph of Article 254(2) of Directive 2009/138/EC, template S.06.01.01 of Annex I to this Regulation, providing summary information of assets, following the instructions set out in section S.06.01 of Annex III to this Regulation;
- (b) where the group is exempted from reporting the template S.06.02.04 in relation to the last quarter in accordance with the second subparagraph of Article 254(2) of Directive 2009/138/EC, template S.06.02.04 of Annex I to this Regulation, providing an item-by-item list of assets, following the instructions set out in section S.06.02 of Annex III to this Regulation;
- (c) where the group is exempted from reporting the template S.06.03.04 in relation to the last quarter in accordance with the second subparagraph of Article 254(2) of Directive 2009/138/EC, or has not reported it quarterly because the ratio of collective investment held by the group to total investments, as referred to in Article 23(1)(f) of this Regulation, is not higher than 30 %, template S.06.03.04 of Annex I to this Regulation, providing information on the look-through of all collective investments held by the undertakings, following the instructions set out in section S.06.03 of Annex III to this Regulation;
- (d) where the ratio of the value of structured products held by the group to total investments is higher than 5 %, template S.07.01.04 of Annex I, providing an item-by-item list of structured products, following the instructions set out in section S.07.01 of Annex III;
- (e) where the group is exempted from reporting the template S.08.01.04 in relation to the last quarter in accordance with the second subparagraph of Article 254(2) of Directive 2009/138/EC, template S.08.01.04 of Annex I to this Regulation, providing an item-by-item list of open positions of derivatives, following the instructions set out in section S.08.01 of Annex III to this Regulation;

**▼B**

- (f) where the group is exempted from reporting the template S.08.02.04 in relation to the last quarter in accordance with the second subparagraph of Article 254(2) of Directive 2009/138/EC, template S.08.02.04 of Annex I to this Regulation, providing an item-by-item list of transactions of derivatives, following the instructions set out in section S.08.02 of Annex III to this Regulation;
  
- (g) template S.09.01.04 of Annex I, specifying information on income, gains and losses in the reporting period by asset category as defined in Annex IV, following the instructions set out in section S.09.01 of Annex III;
  
- (h) where the ratio of the value of underlying securities, on and off balance sheet, involved in lending or repurchase agreements, for contracts with maturity dates falling after the reporting reference date, to the total investments is higher than 5 %, template S.10.01.04 of Annex I, providing an item-by-item list securities lending and repurchase agreements on and off-balance sheet, following the instructions set out in section S.10.01 of Annex III;
  
- (i) template S.11.01.04 of Annex I, providing an item-by-item list of assets held as collateral, consisting of all types of off-balance sheet asset categories held as collateral, following the instructions set out in section S.11.01 of Annex III.

2. For the purposes of point (d) of paragraph 1, where for the calculation of group solvency method 1 as defined in Article 230 of Directive 2009/138/EC is used exclusively, the ratio of the value of structured products held by the group to total investments shall be determined by the sum of assets classified in categories 5 and 6, as defined in Annex IV to this Regulation, divided by the sum of items C0010/R0070 and C0010/R0020 of template S.02.01.01. Where, for the calculation of group solvency, method 1 is used in combination with method 2 as defined in Article 233 of Directive 2009/138/EC, or method 2 is used exclusively, the ratio shall be calculated in accordance with the first sentence and adjusted in order to capture the required items of all entities included in the scope of template S.06.02.04.

3. For the purposes of point (h) of paragraph 1, where for the calculation of group solvency method 1 as defined in Article 230 of Directive 2009/138/EC is used exclusively, the ratio shall be determined by the sum of the underlying securities, on and off balance sheet, involved in lending or repurchase agreements, for contracts with maturity dates falling after the reporting reference date, divided by the sum of items C0010/R0070 and C0010/R0220 of template S.02.01.01. Where, for the calculation of group solvency, method 1 is used in combination with method 2 as defined in Article 233 of Directive 2009/138/EC, or method 2 is used exclusively, the ratio shall be calculated in accordance with the first sentence and adjusted in order to capture the required items of all entities included in the scope of template S.06.02.04.

**▼ B****S.01.03 — Basic Information — RFF and matching adjustment portfolios****General comments:**

This section relates to opening and annual submission of information for individual entities.

All ring-fenced funds and matching portfolios should be identified regardless if they are material for the purposes of submission of information.

**▼B**

In the first table all ring-fenced funds and matching adjustments portfolios shall be reported. In case a ring-fenced fund has a matching portfolio not covering the full RFF three funds have to be identified, one for the RFF, other for the MAP inside the RFF and other for the remaining part of the fund (vice-versa for the situations where a MAP has a RFF).

In the second table the relations between the funds as explained in previous paragraph are explained. Only the funds with such relations shall be reported in the second table.

	ITEM	INSTRUCTIONS

**S.02.01 — Balance sheet****General comments:**

This section relates to opening, quarterly and annual submission of information for individual entities, ring fenced-funds and remaining part.

The ‘Solvency II value’ column (C0010) shall be completed using the valuation principles set out in the Directive2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency 2 Technical Standards and Guidelines.

With regards to the ‘Statutory accounts value’ column (C0020), recognition and valuation methods are the ones used by undertakings in their statutory accounts in accordance with the local GAAP or IFRS if accepted as local GAAP. In template SR.02.01 this column is only applicable if the development of financial statements by RFF is required by national law.

The default instruction is that each item shall be reported in the ‘Statutory accounts value’ column, separately. However, in the ‘Statutory accounts value’ column the dotted rows were introduced in order to enable the reporting of aggregated figures if the split figures are not available.

**S.02.02 — Assets and liabilities by currency****General comment:**

This section relates to annual submission of information for individual entities.

This template is to be filled in accordance to the Balance sheet (S.02.01). Valuation principles are laid down in Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency II Technical Standards and Guidelines.

This template is not required to be submitted if one single currency represents more than 90 % of assets and also of liabilities.

If submitted, information on the reporting currency shall always be reported regardless of the amount of assets and liabilities. Information reported by currency shall at least represent 90 % of the total assets and of the total liabilities. The remaining 10 % shall be aggregated. If a specific currency has to be reported for either assets or liabilities to comply with the 90 % rule then that currency shall be reported for both assets and liabilities.

**S.03.01 — Off-balance sheet items — General****General comments:**

This section relates to annual submission of information for individual entities.

This section includes the information referring to off-balance sheet items and the maximum and solvency II value of contingent liabilities in Solvency II balance sheet.

As regards the Solvency II value, the instructions define the items from a recognition perspective. Valuation principles are laid down in Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency II Technical Standards and Guidelines.

Guarantees require the issuer to make specified payments to reimburse the holder for a loss it incurs if a specified debtor fails to make payment when due under the original or modified terms of a debt instrument. These guarantees can have various legal forms, such as financial guarantees, letters of credit, credit default contracts. These items shall not include guarantees stemming from insurance contracts, which are recognised in technical provisions.

A contingent liability is defined as:

- a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- b) a present obligation that arises from past events even if:
  - i. it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
  - ii. the amount of the obligation cannot be measured with sufficient reliability.

**▼ B**

Collateral is an asset with a monetary value or a commitment that secure the lender against the defaults of the borrower.

The guarantees listed in this template are not reported in S.03.02 and S.03.03. This means that only limited guarantees are to be reported in this template.

**S.05.02 — Premiums, claims and expenses by country****General comments:**

This section relates to annual submission of information for individual entities.  
► **M2** The template is not due when the thresholds for reporting by country described below are not applicable, i.e. the home country represents 90 % or more of the total gross written premiums. ◀

This template shall be reported from an accounting perspective, i.e.: Local GAAP or IFRS if accepted as local GAAP. The template is based on a year-to-date basis. Undertakings shall use the recognition and valuation basis as for the published financial statements, no new recognition or re-valuation is required ► **M2**, except for the classification between investment contracts and insurance contracts when this is applicable in the financial statements. This template shall include all insurance business regardless of the possible different classification between investment contracts and insurance contracts applicable in the financial statements. ◀

The following criteria for the classification by country shall be used:

- The information, provided by country, shall be completed for the five countries with the biggest amount of gross written premiums in addition to the home country or until reaching 90 % of the total gross written premiums;
- For the direct insurance business for the lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, ‘Medical expense’, ‘Income protection’, ‘Workers’ compensation’, ‘Fire and other damage to property’ and ‘Credit and suretyship’ information shall be reported by country where the risk is situated as defined in Article 13 (13) of Directive 2009/138/EC;
- For direct insurance business for all other line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, information shall be reported by country where the contract was entered into;

**▼ B**

— For proportional and non-proportional reinsurance information shall be reported by country of localisation of the ceding undertaking.

For the purposes of this template ‘country where the contract was entered into’ means:

- a) The country where the insurance undertaking is established (home country) when the contract was not sold through a branch or freedom to provide services;
- b) The country where the branch is located (host country) when the contract was sold through a branch;
- c) The country where the freedom to provide services was notified (host country) when the contract was sold through freedom to provide services.
- d) If an intermediary is used or in any other situation, it is a), b) or c) depending on who sold the contract.

**S.06.02 — List of assets****General comments:**

This section relates to quarterly and annual submission of information for individual entities.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to Complementary Identification Code ('CIC') refer to Annex VI — CIC table of this Regulation.

**▼B**

This template shall reflect the list of all assets included in the Balance-sheet classifiable as asset categories 0 to 9 of Annex IV — Assets Categories of this Regulation. In particular in case of securities lending and repurchase agreements the underlying securities that are kept in the Balance-sheet shall be reported in this template.

This template contains an item-by-item list of assets held directly by the undertaking (i.e. not on a look-through basis), classifiable as asset categories 0 to 9 (in case of unit-linked and index-linked product managed by the (re)insurance undertaking, the assets to be reported are also only the ones covered by asset categories 0 to 9, e.g. recoverables and liabilities related to this products shall not be reported), with the following exceptions:

- a) Cash shall be reported in one row per currency, for each combination of items C0060, C0070, C0080 and C0090;
- b) Transferable deposits (cash equivalents) and other deposits with maturity of less than one year shall be reported in one row per pair of bank and currency, for each combination of items C0060, C0070, C0080, C0090 and C0290;
- c) Mortgages and loans to individuals, including loans on policies, shall be reported in two rows, one row regarding loans to administrative, management and supervisory body, for each combination of items C0060, C0070, C0080, C0090 and C0290 and another regarding loans to other natural persons, for each combination of items C0060, C0070, C0080, C0090 and C0290;
- d) Deposits to cedants shall be reported in one single line, for each combination of items C0060, C0070, C0080 and C0090;
- e) Plant and equipment for the own use of the undertaking shall be reported in one single line, for each combination of items C0060, C0070, C0080 and C0090.

This template comprises two tables: Information on positions held and Information on assets.

**▼MI**

On the table Information on positions held, each asset shall be reported separately in as many lines as needed in order to properly fill in all non-monetary variables with the exception of item 'Quantity', requested in that table. If for the same asset two values can be attributed to one variable, then this asset needs to be reported in more than one line.

**▼B**

On the table Information on assets, each asset shall be reported separately, with one row for each asset, filling in all applicable variables requested in that table.

The information regarding the external rating (C0320) and nominated External Credit Assessment Institutions ('ECAI') (C0330) may be limited (not reported) in the following circumstances:

- a) through a decision of the national supervisory authority ('NSA') under Article 35 (6) and (7) of the Directive 2009/138/EC; or
- b) through a decision of the national supervisory authority in the cases where the insurance and reinsurance undertakings have in place outsourcing arrangements in the area of investments that lead to this specific information not being available directly to the undertaking.

**S.06.03 — Collective investment undertakings — look-through approach****General comments:**

This section relates to quarterly and annual submission of information for individual entities.

This template contains information on the look through of collective investment undertakings or investments packaged as funds, including when they are participations, by underlying asset category, country of issue and currency.

► **M2** Considering proportionality and specific instructions of the template, the look through shall be performed until the asset categories, countries and currencies are identified. In case of funds of funds the look-through shall follow the same approach. ◀

**▼ M3**

The template shall include information corresponding to 100 % of the value invested in collective investment undertakings. However, for the identification of countries the look-through shall be implemented in order to identify the exposures of 90 % of the total value of the funds minus the amounts relating to CIC 8 and 9, and for the identification of currencies the look-through shall be implemented in order to identify the exposures of 90 % of the total value of the funds. Undertakings shall ensure that the 10 % not identified by country is diversified across geographical areas, for example that not more than 5 % is in one single country. The look-through shall be applied by undertakings starting from the major, considering the amount invested, to the lowest single fund and the approach shall be kept consistent over time.

**▼ B**

Quarterly information shall only be reported when the ratio of collective investments undertakings held by the undertaking to total investments, measured as the ratio between item C0010/R0180 of template S.02.01 plus collective investments undertakings included in item C0010/R0220 of template S.02.01 plus collective investments undertakings included in item C0010/R0090 and the sum of item C0010/R0070 and C0010/RC0220 of template S.02.01, is higher than 30 %.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

**S.08.01 — Open derivatives****General comments:**

This section relates to quarterly and annual submission of information for individual entities.

The derivatives categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation. This template contains an item-by-item list of derivatives held directly by the undertaking (i.e. not on a look-through basis), classifiable as asset categories A to F.

**▼ M1**

Derivatives are considered assets if their Solvency II value is positive or zero. They are considered liabilities if their Solvency II value is negative. Both derivatives considered as assets or considered as liabilities shall be included.

**▼ B**

Information shall include all derivatives contracts that existed during the reporting period and were not closed prior to the reporting reference date.

**▼ B**

If there are frequent trades on the same derivative, resulting in multiple open positions, the derivative can be reported on an aggregated or net basis, as long as all the relevant characteristics are common and following the specific instruction for each relevant item.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

A derivative is a financial instrument or other contract with all three of the following characteristics:

- a) Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the ‘underlying’).
- b) It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- c) It is settled at a future date.

This template comprises two tables: Information on positions held and Information on derivatives.

**▼ M3**

On the table Information on positions held, each derivative shall be reported separately in as many rows as needed in order to properly fill in all non-monetary variables, requested in that table. If for the same derivative two values can be attributed to one variable, then this derivative needs to be reported in more than one line.

**▼ B**

In particular, for derivatives that have more than a pair of currencies, it shall be split into the pair components and reported in different rows.

On the table Information on derivative, each derivative shall be reported separately, with one row for each derivative, filling in all variables requested in that table.

The information regarding the External rating (C0290) and Nominated ECAI (C0300) may be limited (not reported) in the following circumstances:

- c) through a decision of the national supervisory authority under Article 35 (6) and (7) of the Directive 2009/138/EC; or
- d) through a decision of the national supervisory authority in the cases where the insurance and reinsurance undertakings have in place outsourcing arrangements in the area of investments that lead to this specific information not being available directly to the undertaking.

C0160	Premium received to date	► <b>M2</b> The payment received (if sold), for options and also up-front and periodical premium amounts received for swaps, since the moment the undertaking entered into the derivative contract. ◀
C0170	Number of contracts	Number of similar derivative contracts reported in the line. It shall be the number of contracts entered into. For Over-The-Counter derivatives, e.g., one swap contract, '1' shall be reported, if ten swaps with the same characteristics, '10' shall be reported.  The number of contracts shall be the ones outstanding at the reporting date.
C0180	Contract size	Number of underlying assets in the contract (e.g. for equity futures it is the number of equities to be delivered per derivative contract at maturity, for bond futures it is the reference amount underlying each contract).  The way the contract size is defined varies according with the type of instrument. For futures on equities it is common to find the contract size defined as a function of the number of shares underlying the contract.  For futures on bonds, it is the bond nominal amount underlying the contract.  Only applicable for futures and options.
C0190	Maximum loss under unwinding event	Maximum amount of loss if an unwinding event occurs. Applicable to CIC category F.  Where a credit derivative is 100 % collateralised, the maximum loss under an unwinding event is zero.
C0200	Swap outflow amount	Amount delivered under the swap contract (other than premiums), during the reporting period. Corresponds to interest paid for IRS and amounts delivered for currency swaps, credit swaps, total return swaps and other swaps.  In the cases where the settlement is made on a net basis then only one of the items C0200 and C0210 shall be reported.
C0210	Swap inflow amount	Amount received under the swap contract (other than premiums), during the reporting period. Corresponds to interest received for IRS and amounts received for currency swaps, credit swaps, total return swaps and other swaps.  In the cases where the settlement is made on a net basis then only one of the items C0200 and C0210 shall be reported.

C0420	Swap received currency	Identify the ISO 4217 alphabetic code of the currency of the swap notional amount (only for currency swaps and currency and interest rate swaps).
C0430	Maturity date	Identify the contractually defined ISO 8601 (yyyy-mm-dd) code of the date of close of the derivative contract, whether at maturity date, expiring date for options (European or American), etc.

**S.08.02 — Derivatives Transactions****General comments:**

This section relates to quarterly and annual submission of information for individual entities.

The derivatives categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex V — CIC table of this Regulation.

This template contains an item-by-item list of closed derivatives held directly by the undertaking (i.e. not on a look-through basis), classifiable as asset categories A to F. When a contract is still open but has been reduced in size the closed portion shall be reported.

**▼ B**

Derivatives are considered assets if their Solvency II value is positive or zero. ► **M2** They are considered liabilities if their Solvency II value is negative. ◀ Both derivatives considered as assets or considered as liabilities shall be included.

Closed derivatives are the ones that were open at some point of the reference period (i.e. last quarter if template is submitted quarterly or last year if template is only submitted annually) but were closed before the end of the reporting period.

If there are frequent trades on the same derivative, the derivative can be reported on an aggregated or net basis (indicating only the first and the last trade dates), as long as all the relevant characteristics are common and following the specific instruction for each relevant item.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

A derivative is a financial instrument or other contract with all three of the following characteristics:

- d) Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the ‘underlying’).
- e) It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- f) It is settled at a future date.

This template comprises two tables: Information on positions held and Information on derivatives.

► **M3** On the table Information on positions held, each derivative shall be reported separately in as many rows as needed in order to properly fill in all non-monetary variables, requested in that table. ◀ If for the same derivative two values can be attributed to one variable, then this derivative needs to be reported in more than one line.

In particular, for derivatives that have more than a pair of currencies, it shall be split into the pair components and reported in different rows.

On the table Information on derivative, each derivative shall be reported separately, with one row for each derivative, filling in all variables requested in that table.

**S.10.01 — Securities lending and repos****General comments:**

This section relates to annual submission of information for individual entities.

This template contains an item-by-item list of securities lending transactions and repurchase agreements (buyer and seller) contracts, held directly by the undertaking (i.e. not on a look-through basis), which include also the liquidity swaps referred to in Article 309 (2)(f) of the Delegated Regulation (EU) 2015/35.

It shall be reported only when the value of the underlying securities on and off balance sheet involved in lending or repurchase agreements, with maturity date falling after the reporting reference date represent more than 5 % of the total investments as reported in C0010/R0070 and C0010/R0220 of template S.02.01.

All contracts that are on the balance sheet or off balance sheet shall be reported. The information shall include all contracts in the reporting period regardless of whether they were open or closed at the reporting date. For contracts which are part of a roll-over strategy, where they substantially are the same transaction, only open positions shall be reported.

A repurchase agreement (repo) is defined as the sale of securities together with an agreement for the seller to buy back the securities at a later date. Securities lending is defined as the lending of securities by one party to another, which requires that the borrower provides the lender with collateral.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

Each repo and securities lending contract shall be reported in as many rows as needed to provide the information requested. If for one item one option fits one part of the instrument being reported and a different option fits the other part then the contract needs to be unbundled unless is stated otherwise in the instructions.

**S.11.01 — Assets held as collateral****General comments:**

This section relates to annual submission of information for individual entities.

This template contains an item-by-item list of off-balance sheet assets held as collateral for covering balance sheet assets held directly by the undertaking (i.e. not on a look-through basis).

**▼ B**

It consists of detailed information from the perspective of the assets held as collateral and not from the perspective of the collateral arrangement.

If there is a pool of collaterals or a collateral arrangement comprising multiple assets, as many rows as the assets in the pool or arrangement shall be reported.

This template comprises two tables: Information on positions held and Information on assets.

On the table Information on positions held, each asset held as collateral shall be reported separately in as many rows as needed in order to properly fill in all variables requested in that table. If for the same asset two values can be attributed to one variable, then this asset needs to be reported in more than one line. ► **M3** Real estate held as collateral of the mortgages related to individuals shall be reported in one single line. ◀

On the table Information on assets, each asset held as collateral shall be reported separately, with one row for each asset, filling in all variables requested in that table.

All items except items 'Type of asset for which the collateral is held' (C0140), 'Name of the counterparty pledging the collateral' (C0060) and 'Name of the group of the counterparty pledging the collateral' (C0070) relate to information on the assets held as collateral. Item C0140 relates to the asset on the balance sheet for which the collateral is held while items C0060 and C0070 relate to the counterparty pledging the collateral.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

**S.12.01 — Life and Health SLT Technical Provisions****General comments:**

This section relates to quarterly and annual submission of information for individual entities, ring fenced–funds, matching adjustment portfolios and remaining part.

Undertakings may apply appropriate approximations in the calculation of the technical provisions as referred to in Article 21 of Delegated Regulation (EU) 2015/35. In addition, Article 59 of the Delegated Regulation (EU) 2015/35 may be applied to calculate the risk margin during the financial year.

Line of business for life obligations: The lines of business, referred to in Article 80 of the Directive 2009/138/EC, as defined in Annex I to Delegated Regulation (EU) 2015/35. The segmentation shall reflect the nature of the risks underlying the contract (substance), rather than the legal form of the contract (form). By default, where an insurance or reinsurance contract covers risks across the lines of business undertakings shall, where possible, unbundled the obligations into the appropriate lines of business (Article 55 of Delegated Regulation (EU) 2015/35).

Lines of business ‘Index–linked and unit–linked insurance’, ‘Other life insurance’ and ‘Health insurance’ are split between ‘Contracts without options and guarantees’ and ‘Contracts with options or guarantees’. For this split the following shall be considered:

**▼ B**

- ‘Contracts without options and guarantees’ shall include the amounts related to contracts without any financial guarantees or contractual options, meaning that the technical provision calculation does not reflect the amount of any financial guarantees or contractual options. Contracts with non-material contractual options or financial guarantees that are not reflected in the technical provisions calculation shall also be reported in this column;
- ‘Contracts with options or guarantees’ shall include contracts that have either financial guarantees, contractual options, or both as far as the technical provision calculation reflect the existence of those financial guarantees or contractual options.

The information reported shall be gross of reinsurance as information on Recoverables from reinsurance/SPV and Finite reinsurance is requested in specific rows.

The information to be reported between R0010 and R0100 shall be after the volatility adjustment, the matching adjustment and the transitional adjustment to the relevant risk-free interest rate term structure if applied but shall not include the transitional deduction to technical provisions. The amount of transitional deduction to technical provisions is requested separately between rows R0110 and R0130.

**S.12.02 — Life and Health SLT Technical Provisions — by Country****General comments:****▼ M2**

This section relates to annual submission of information for individual entities. The template is not due when the thresholds for reporting by country described below are not applicable, i.e. the home country represents 100 % of the sum of the technical provisions calculated as a whole and gross best estimate. When this amount is higher than 90 % but lower than 100 % then only R0010, R0020 and R0030 shall be reported.

**▼ B**

Undertakings shall take into account all the obligations in different currencies and convert them into the reporting currency.

**▼ B**

The information by country shall be reported according to the following specifications:

- ▶ **M2** a ◀ Information on the home country shall be always reported regardless of the amount of technical provisions calculated as a whole and gross best estimate;
- ▶ **M2** b ◀ Information reported by country shall at least represent 90 % of the sum of the technical provisions calculated as a whole and gross best estimate of any line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35;
- ▶ **M2** c ◀ If a specific country has to be reported for a particular line of business to comply with sub-paragraph b) then that country shall be reported for all lines of business;
- ▶ **M2** d ◀ The other countries shall be reported aggregated in ‘other-EEA’ or ‘other-non EEA’
- ▶ **M2** e ◀ For direct business information shall be reported by country where the contract was entered into;
- ▶ **M2** f ◀ For proportional and non-proportional reinsurance information shall be reported by country of localisation of the ceding undertaking.

For the purposes of this template ‘country where the contract was entered into’ means:

- ▶ **M2** a ◀ The country where the insurance undertaking is established (home country) when the contract was not sold through a branch or freedom to provide services;
- ▶ **M2** b ◀ The country where the branch is located (host country) when the contract was sold through a branch;
- ▶ **M2** c ◀ The country where the freedom to provide services was notified (host country) when the contract was sold through freedom to provide services.
- ▶ **M2** d ◀ If an intermediary is used or in any other situation, it is a), b) or c) depending on who sold the contract.

The information to be reported shall include the volatility adjustment, the matching adjustment, the transitional adjustment to the relevant risk-free interest rate term structure and the transitional deduction to technical provisions.

**S.13.01 — Projection of future gross cash flows (Best Estimate –life)****General comments:**

This part of Annex II relates to annual submission of information for individual entities.

This template shall include information only in relation to the best estimates. The cash flows to be reported are gross of reinsurance and undiscounted.

Cash-flow projections such as central scenarios can be used as no perfect reconciliation with Best Estimate calculation is required. If difficult to project some future cash-flows like collective Future Discretionary Benefits the undertaking shall report the cash flow it effectively uses for calculating the Best Estimate.

All cash flows expressed in different currencies shall be considered and converted in the reporting currency using the exchange rate at the reporting date

In case the undertaking uses simplifications for the calculation of technical provisions, for which an estimate of the expected future cash-flows arising from the contracts are not calculated, the information shall be reported only in those cases where more than 10 % of total technical provisions have a settlement period longer than 24 months.

**S.15.01 — Description of the guarantees of variable annuities****General comments:**

This section relates to annual submission of information for individual entities.

This template shall only be reported in relation to the direct business by insurance companies that have variable annuities portfolios.

Variable annuities are unit-linked life insurance contracts with investment guarantees which, in exchange for single or regular premiums, allow the policyholder to benefit from the upside of the unit but be partially or totally protected when the unit loses value.

If Variable Annuities policies are split between two insurance undertakings, for instance a life company and a non-life company for the variable annuities guarantee, the company with the guarantee shall report this template. Only one row per product shall be reported.

**S.16.01. — Information on annuities stemming from Non-Life Insurance obligations****General comments:**

This section relates to annual submission of information for individual undertakings.

This template shall be reported only for annuities formally settled stemming from non-life contracts and relating to health insurance obligations and relating to insurance obligations other than health insurance obligations.

Undertakings are required to report data on an accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, provided that they use the same year consistently, year on year.

This template shall be reported by non-life line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, originating the annuity and by currency, considering the following specifications:

- i. If the best estimate for the annuity claims provisions on a discounted basis from one non-life line of business represents more than 3 % of the total best estimate for all annuity claims provisions the information shall be reported with the following split by currencies in addition to the total for the line of business:
  - a) Amounts for the reporting currency;

**▼ M2**

- b) Amounts for any currency that represents more than 25 % of the best estimate for the annuity claims provisions on a discounted basis from that non-life line of business; or
- c) Amounts for any currency that represents less than 25 % of the best estimate for the annuity claims provisions (discounted basis) from that non-life line of business but more than 5 % of total best estimate for all annuity claims provisions.

**▼ B**

- ii. If the best estimate for the annuity claims provisions on a discounted basis from one non-life line of business represents less than 3 % of the total best estimate for all annuity claims provisions no currency split is required, only the total for the line of business shall be reported;
- iii. The information shall be reported in the original currency of the contracts unless otherwise specified.

This template is interlinked with the non-Life template S.19.01. The sum of technical provisions in templates S.16.01 and S.19.01 for one non-life line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, represents the total claims best estimate originating from this line of business (also refer log to template S.19.01). All or part of an obligation moves from S.19.01 into S.16.01, when both of the conditions below are met:

- i. All or part of the obligation has been formally settled as an annuity; and
- ii. a best estimate of an obligation formally settled as an annuity can be established using life techniques.

Formally settled as an annuity typically means that a legal process has ordered that the beneficiary is to receive payments as an annuity.

In the event that after an obligation has been formally settled as an annuity some of that obligation subsequently ends up being settled via a lump sum payment that was not in the original annuity payment order, that lump sum would be recorded as a payment in template S.16.01; i.e. there is no movement of claims data out of template S.16.01 and into S.19.01.

**S.17.01 — Non–life Technical Provisions****General comments:**

This section relates to quarterly and annual submission of information for individual entities, ring fenced–funds, matching adjustment portfolios and remaining part.

Undertakings may apply appropriate approximations in the calculation of the technical provisions as referred to in Article 21 of Delegated Regulation (EU) 2015/35. In addition, Article 59 of the Delegated Regulation (EU) 2015/35 may be applied to calculate the risk margin during the financial year.

Line of Business for non–life obligations: The lines of business, referred to in Article 80 of the Directive 2009/138/EC, as defined in Annex I to Delegated Regulation (EU) 2015/35, referred to direct business/accepted proportional reinsurance and accepted non–proportional reinsurance. The segmentation shall reflect the nature of the risks underlying the contract (substance), rather than the legal form of the contract (form).

Health direct insurance business pursued on a non–similar technical basis to life insurance shall be segmented into Non–Life line of business 1 to 3.

Accepted proportional reinsurance shall be considered together with the direct business in the C0020 to C0130.

The information to be reported between R0010 and R0280 shall be after the volatility adjustment, the matching adjustment and the transitional adjustment to the relevant risk-free interest rate term structure if applied but shall not include the transitional deduction to technical provisions. The amount of transitional deduction to technical provisions is requested separately between rows R0290 and R0310.

**▼ B****S.17.02 — Non-Life Technical Provisions — By country****General comments:****▼ M2**

This section relates to annual submission of information for individual entities. The template is not due when the thresholds for reporting by country described below are not applicable, i.e. the home country represents 100 % of the sum of the technical provisions calculated as a whole and gross best estimate. When this amount is higher than 90 % but lower than 100 % then only R0010, R0020 and R0030 shall be reported.

**▼ B**

Health direct insurance business pursued on a non-similar technical basis to life insurance shall be segmented into Non-Life line of business 1 to 3.

Undertakings shall take into account all the obligations in different currencies and convert them into the reporting currency.

The information by country shall be reported according to the following:

- a) Information on the home country shall be always reported regardless of the amount of Technical Provisions as a whole and Gross Best Estimate (referred to direct business);
- b) Information reported by country shall at least represent 90 % of the total Technical Provisions as a whole and Gross Best Estimate (referred to direct business) of any line of business;
- c) If a specific country has to be reported for a particular line of business to comply with sub-paragraph b) then that country shall be reported for all lines of business;
- d) The other countries shall be reported aggregated in 'other-EEA' or 'other-non EEA';
- e) For the direct insurance business for the lines of business 'Medical expense', 'Income protection', 'Workers' compensation', 'Fire and other damage to property' and 'Credit and suretyship' information shall be reported by country where the risk is situated as defined in Article 13 (13) of Directive 2009/138/EC;
- f) For direct insurance business for all other lines of business not referred in sub-paragraph e) information shall be reported by country where the contract was entered into;

For the purposes of this template 'country where the contract was entered into' means:

- o) The country where the insurance undertaking is established (home country) when the contract was not sold through a branch or freedom to provide services;
- p) The country where the branch is located (host country) when the contract was sold through a branch;
- q) The country where the freedom to provide services was notified (host country) when the contract was sold through freedom to provide services.
- r) If an intermediary is used or in any other situation, it is a), b) or c) depending on who sold the contract.

The information to be reported shall include the volatility adjustment, the matching adjustment, the transitional adjustment to the relevant risk-free interest rate term structure and the transitional deduction to technical provisions.

**S.18.01 — Projection of future cash flows (Best Estimate — Non Life)****General Comments:**

This section relates to annual submission of information for individual undertakings.

This template applies only to Best Estimate and the following shall be considered:

- All cash flows expressed in different currencies shall be considered and converted in the reporting currency using the exchange rate at the reporting date;
- The cash flows shall be reported gross of reinsurance and undiscounted;
- In case the undertaking uses simplifications for the calculation of technical provisions, for which an estimate of the expected future cash-flows arising from the contracts are not calculated, the information shall be reported only in those cases where more than 10 % of technical provisions have a settlement period longer than 24 months.

**S.19.01 — Non-life insurance claims****General comments:**

This section relates to annual submission of information for individual entities.

Claims development triangles show the insurer's estimate of the cost of claims (claims paid and claims provisions under Solvency II valuation principle) and how this estimate develops over time.

Three set of triangles are required regarding claims paid, best estimate of claims provisions and RBNS claims.

This template shall be reported for each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, and material considering the following specifications:

- i. reporting by line of business: it is required to report lines of business 1–12 (as reported in S.17.01) for both direct and accepted proportional reinsurance (to be reported together) and lines of business 25–28 for accepted non-proportional reinsurance;
- ii. If the total gross best estimate for one non-life line of business represents more than 3 % of the total gross best estimate of the claims provision the information shall be reported with the following split by currencies in addition to the total for the line of business:
  - a) Amounts in the reporting currency;

**▼ M2**

- b) Amounts for any currency that represents more than 25 % of the gross best estimate of the claims provisions from that non-life line of business; or
- c) Amounts for any currency that represents less than 25 % of the gross best estimate of the claims provisions from that non-life line of business but more than 5 % of total gross best estimate of the claims provisions.

**▼ B**

- iii. If the total gross best estimate for one non-life line of business represents less than 3 % of the total gross best estimate of the claims provision no currency split is required, only the total for the line of business shall be reported.
- iv. The information by currency shall be reported in the original currency of the contracts unless otherwise specified.

Undertakings are required to report data on an accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, provided that they use the same year consistently, year on year.

**▼ B**

The default length of run-off triangle is 15 + 1 years for all lines of business but the reporting requirement is based on the undertakings' claims development (if length of the claims settlement cycle is shorter than 15 years, undertakings are required to report according to the internal shorter development).

Historical data, starting from the first time application of Solvency II, are required for claims paid and RBNS claims but not for Best Estimate of Claims Provision. For the compilation of the historical data for claims paid and RBNS claims the same approach concerning the length of triangle for the on-going reporting will be applied (i.e. the shorter between 15 + 1 years and the undertakings' claims settlement cycle).

All or part of an obligation moves from S.19.01 into S.16.01, when both of the conditions below are met:

- iii. All or part of the obligation has been formally settled as an annuity; and
- iv. a best estimate of an obligation formally settled as an annuity can be established using life techniques.

Formally settled as an annuity typically means that a legal process has ordered that the beneficiary is to receive payments as an annuity.

The sum of provisions in templates S.16.01 and S.19.01 for one non-life line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, represents the total claims reserves originating from this line of business.

**S.20.01 — Development of the distribution of the claims incurred****General comments:**

This section provides an overview about the run-off/movement of non-life claims portfolios, in terms of both claims paid (split by different type of claims) and RBNS claims (as defined in S.19.01).

This template must be filled for each Line of Business (12 line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, in total) with regards to gross direct business (i.e. undertakings are exempted to report the accepted — proportional and non-proportional — business); in case of RBNS denominated in different currencies, it is required to report only the total in the reporting currency.

**▼ B**

With regard to the number of claims to be reported, undertakings will use their specific definition or, if available, specification existing at national level (for instance requirement laid down by the National Supervisory Authority). However, each claim shall be reported once ► **M2** by Line of Business ◀. If any claim is closed and reopened during the year, it shall not be reported in the column 'Reopen Claims during the year' but it shall be reported in relevant column regarding 'Open Claims at the beginning of the year' or 'Claims reported during the year'.

Undertakings are required to report data on accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, provided that they use the same year consistently, year on year.

As per the number of years to be reported, the same reporting requirement introduced in S.19.01 applies.

**S.21.01 — Loss distribution risk profile****General comments:**

This section relates to annual submission of information for individual undertakings.

The information shall be filled in relation to non-life business (including health insurance business other than that pursued on a similar basis to that of life insurance ('Non-SLT Health')) only for the direct business. There shall be a separate template for each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35.

**▼ M2**

The loss distribution profile non-life shows the distribution, in (predefined) brackets, of the accumulated claims incurred at the end of the reporting year.

Accumulated claims incurred means the sum of gross claims paid and gross reported but not settled claims (RBNS) on a case by case basis for each and every single claim, open or closed, which belongs to a specific accident year ('AY')/underwriting year ('UWY') (AY/UWY). Claims incurred amounts include all the elements that compose the claim itself but excludes any expenses except those attributable to specific claims. Data regarding claims shall be reported net of salvage and subrogation. Historical data, starting from the first time application of Solvency II, is required.

**▼ B**

Undertakings are required to report data on an accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, provided that they use the same year consistently, year on year.

The default brackets to be used are defined in euros. For different reporting currencies each relevant supervisory authority shall define the equivalent options for the amounts to be used in the 20 brackets.

An undertaking may use undertaking specific brackets, in particular when incurred losses are lower than EUR 100 000. The brackets chosen shall be used consistently over the reporting periods, unless the distribution of claims changes significantly. In this case the undertaking shall notify the supervisory authority in advance, unless already specified by the supervisory authority.

**S.21.02 — Underwriting risks non-life****General comments:**

This section relates to annual submission of information for individual undertakings.

Template shall be filled in relation to non-life business (including Non-SLT Health) only for direct business.

In this template the 20 biggest single underwriting risks, based on net retention, across all lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, shall be reported. If the 2 biggest single underwriting risks for any of the lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35 are not covered through the above methodology, then they shall be reported in addition. In case a single underwriting risk of a specific line of business forms part of the top 20, the same risk of the affected line of business must only be filled in once.

Net retention of the single underwriting risk means the maximum possible liability of the undertaking after the recoverables from reinsurers (including SPV and Finite Reinsurance) and the original deductible of the policyholder has been taken into account. In case the net retention is equal for too many risks the policy with the highest Sum insured shall be used as a second criteria. In case the Sum insured is also the same and the most appropriate risk considering the risk profile of the undertaking must be used as the ultimate criteria.

	ITEM	INSTRUCTIONS
C0010	Risk identification code	The code is a unique identifying number assigned by the undertaking that identifies the risk and shall remain unchanged for subsequent annual reports.
C0020	Identification of the company/ person to which the risk relates	If the risk relates to a company identify the name of the company to whom the risk relates.  If the risk relates to a natural person, pseudonymise the original policy number and report pseudonymised information. Pseudonymous data refer to data that cannot be attributed to a specific individual without the use of additional information, as long as such additional information is kept separately. Consistency over time shall be insured. It implies that if a single underwriting risk appears from one year to another, it shall receive the same pseudonymised format.
C0030	Description risk	The description of the risk. Depending on the line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, report the type of company, building or occupation of the specific risk insured.

		<p>2 — Maximum Possible Loss: loss which may occur when the most unfavourable circumstances being more or less exceptionally combined, the fire is only stopped by impassable obstacles or lack of substance.</p> <p>3 — Probable Maximum Loss: defined as the estimate of the largest loss from a single fire or peril to be expected, assuming the worst single impairment of primary private fire protection systems but with secondary protection systems or organizations (such as emergency organizations and private and/or public fire department response) functioning as intended. Catastrophic conditions like explosions resulting from massive release of flammable gases, which might involve large areas of the plant, detonation of massive explosives, seismic disturbances, tidal waves or flood, falling aircraft, and arson committed in more than one area are excluded in this estimate. This definition is a hybrid form between Maximum Possible Loss and Estimated Maximum Loss that is generally accepted and frequently used by insurers, reinsurers and reinsurance brokers</p> <p>4 — Estimated Maximum Loss: loss that could reasonably be sustained from the contingencies under consideration, as a result of a single incident considered to be within the realms of probability taking into account all factors likely to increase or lessen the extent of the loss, but excluding such coincidences and catastrophes which may be possible but remain unlikely.</p> <p>5 — Other: defined as other possible underwriting models used. The type of 'other' underwriting model applied must be explained in the Regular Supervisory Report</p> <p>Although abovementioned definitions are used for the line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, 'Fire and other damage to property insurance', similar definitions might be in place for other lines of business.</p>
C0120	Amount underwriting model	Maximum loss amount of the single underwriting risk which is the result of the underwriting model applied. In case no specific type of underwriting model is used the amount must be equal to the sum insured reported in C0090 minus the original deductible reported in C0100.
C0130	Sum reinsured on a facultative basis, with all reinsurers	Part of the sum insured that the insurer has reinsured on a facultative basis (by treaty and/or by individual cover) with the reinsurers. When the facultative cover is not placed for 100 % but only for 80 % the 20 % not placed shall be considered as retention.
C0140	Sum reinsured, other than on facultative basis, with all reinsurers	Part of the sum insured that the insurer has reinsured through traditional reinsurance treaties or another basis (including SPV and Finite Reinsurance) other than facultative reinsurance.
C0150	Net retention of the insurer	The net amount for which the insurer acts as risk carrier, i.e.: part of the sum insured that exceeds the original deductible of the policyholder and is not reinsured.

**▼B****S.21.03 — Non-life distribution of underwriting underwriting risks — by sum insured****General comments:**

This section relates to annual submission of information for individual undertakings.

The template is retrospective and shall be filled in relation to non-life business (including Non-SLT Health) only for the direct business and only for the Non-life Lines of Business (lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35).

The underwriting risk portfolio is the distribution, in (predefined) brackets, of the sum insured of each and every single underwriting risk which have been accepted by the undertaking. The underwriting risk portfolio is per line of business. However, whereas some lines of business are reportable on a compulsory basis for all member states, the individual member states may also require compulsory basis reporting for further lines of business where deemed to be relevant. For certain lines of business, the template would not be applicable. (See also item Line of business).

The default brackets to be used are defined in euros. For different reporting currencies each relevant supervisory authority shall define the equivalent options for the amounts to be used in the 20 brackets.

An undertaking may use undertaking specific brackets, in particular when sum insured is lower than EUR 100 000. The brackets chosen shall be used consistently over the reporting periods, unless the distribution of claims changes significantly. In this case the undertaking shall notify the supervisory authority in advance, unless already specified by the supervisory authority.

By default the reference date shall be the end of the reporting year, however if duly justified, the undertaking may choose the reference date of collecting the information from the policy administration. This means that the underwriting risk portfolio can be based for example on the same reference date that is used to collect similar information for the renewal of reinsurance treaties and facultative cover.

The sum insured relates to each and every individual underwriting risk, only looking at the main coverage of the policy per line of business, and means the highest amount that the insurer can be obliged to pay out. This means:

- If the sum insured of the additional cover for 'Theft' is lower than the sum insured of the main cover for 'Fire and other damage' (both belonging to the same line of business), the highest sum insured must be taken.
- A policy cover comprising a number of buildings across the country/car fleet etc must be broken down.
- If the risk has been accepted on a co-insurance basis, the insured sum indicates the maximum liability of the reporting non-life insurer.
- In case of joint liability through co-insurance, the part belonging to a defaulting co-insurer must be included in the sum insured as well.

**S.22.01 — Impact of long term guarantees measures and transitionals****General comments:**

This section relates to annual submission of information for individual entities.

This template is relevant when at least one long term guarantee measure or transitional is used by the undertaking.

This template shall reflect the impact on the financial positions when no transitional is used and each LTG measures or transitional is set to zero.

► **M2** For that purpose, a cumulative step-by-step approach shall be followed taking out each transitional and LTG measure one by one and without recalculating the impact of the remaining measures after each step. ◀

The impacts need to be reported positive if they increase the amount of the item being reported and negative if they decrease the amount of the item (e.g. if amount of SCR increases or if amount of Own Funds increases then positive values shall be reported).

#### S.22.04 — Information on the transitional on interest rates calculation

##### General comments:

This section relates to annual submission of information for individual entities.

This template shall be reported by currency for which the transitional adjustment to the relevant risk-free interest rate term structure is applied. When filling C0020 only the guaranteed Best Estimate of obligations stemming from products providing a guaranteed rate shall be considered. The Future Discretionary Benefits shall not be considered.

The assessment to distinguish between the Solvency I interest rate intervals might be done by Homogeneous Risk Groups (HRG).

**S.25.01 — Solvency Capital Requirement — for undertakings on Standard Formula****General comments:**

This section relates to opening and annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.25.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of template S.01.03.

Where the entity has MAP or RFF (except those under the scope of Article 304 of Directive 2009/138/EC) when reporting at the level of the whole undertaking, the notional Solvency Capital Requirement ('nSCR') at risk module level and the loss-absorbing capacity (LAC) of technical provisions and deferred taxes to be reported shall be calculated as follows:

- Where the undertaking applies the full adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level the nSCR is calculated as if no loss of diversification exists and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part;
- Where the undertaking applies the Simplification at risk sub-module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR is calculated considering a direct summation at sub-module level method and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part,
- Where the undertaking applies the simplification at risk module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR is calculated considering a direct summation at module level method and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part.

**▼ B**

The adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level shall be allocated (C0050) to the relevant risk modules (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk). The amount to be allocated to each relevant risk module shall be calculated as follows:

**▼ M1**

- Calculation of 'q factor' =  $\frac{adjustment}{BSCR' - nSCR_{int}}$ , where
- *adjustment* = Adjustment calculated according to one of the three methods referred above
  - *BSCR'* = Basic solvency capital requirement calculated according to the information reported in this template (C0040/R0100)
  - *nSCR<sub>int</sub>* = nSCR for intangible assets risk according to the information reported in this template (C0040/R0070)

**▼ B**

- Multiplication of this 'q factor' by the nSCR of each relevant risk module (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk)

R0460/C0100	Net future discretionary benefits	Amount of technical provisions without risk margin in relation to future discretionary benefits net of reinsurance.

**▼ B****S.25.02 — Solvency Capital Requirement — for undertakings using the standard formula and partial internal model****General comments:**

This section relates to opening and annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

The components to be reported shall be agreed between national supervisory authorities and insurance and reinsurance undertakings.

Template SR.25.02 shall be reported by ring-fenced fund, matching adjustment portfolio and the remaining part for every undertaking under a partial internal model. This includes undertakings where a partial internal model is applied to a full ring-fenced fund and/or matching adjustment portfolio while the other ring-fenced funds and/or matching adjustment portfolios are under the standard formula. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

For those undertakings under a partial internal model to which the adjustment due to the aggregation of the nSCR of RFF/MAP is applicable, where the entity has MAP or RFF (except those under the scope of Article 304 of Directive 2009/138/EC) when reporting at the level of the whole undertaking, the nSCR at risk module level and the loss-absorbing capacity (LAC) of technical provisions and deferred taxes to be reported shall be calculated as follows:

- Where the undertaking applies the full adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level: the nSCR is calculated as if no RFF and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part;
- Where the undertaking applies the Simplification at risk sub-module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR and LAC are calculated considering a direct summation at sub-module level method,
- Where the undertaking applies the Simplification at risk module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR and LAC are calculated considering a direct summation at module level method.

The adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level shall be allocated (C0060) to the relevant risk modules (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk) when calculated according to the standard formula. The amount to be allocated to each relevant risk module shall be calculated as follows:

- Calculation of 'q factor' =  $\frac{adjustment}{BSCR' - nSCR_{int}}$ , where

- *adjustment* = Adjustment calculated according to one of the three methods referred above

- *BSCR'* = Basic solvency capital requirement calculated according the information reported in this template

▼ B

—  $nSCR_{int}$  = nSCR for intangible assets risk according to the information reported in this template

— Multiplication of this ‘q factor’ by the nSCR of each relevant risk module (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk)

Z0020	Ring-fenced fund, matching adjustment portfolio or Remaining Part	Identifies whether the reported figures are with regard to a RFF, matching adjustment portfolio or to the remaining part. One of the options in the following closed list shall be used:  1 — RFF/MAP  2 — Remaining part
Z0030	Fund/Portfolio number	When item Z0020 = 1, identification number for a ring fenced fund or matching adjustment portfolio. This number is attributed by the undertaking and must be consistent over time and with the fund/portfolio number reported in other templates.  ► <u>M2</u> ◀
C0010	Unique number of component	Unique number of each component agreed with their national supervisory authority to identify uniquely components from their model. This number shall always be used with the appropriate component description reported in each item. Where the partial internal model allow the same split by risk module as the one in the standard formula, the following numbers of components shall be used:  — 1 — Market risk — 2 — Counterparty default risk — 3 — Life underwriting risk — 4 — Health underwriting risk — 5 — Non-life underwriting risk — 6 — Intangible asset risk — 7 — Operational risk — 8 — LAC Technical Provisions (negative amount) — 9 — LAC Deferred Taxes (negative amount)  Where standard formula risk modules cannot be reported, undertaking shall attribute a number to each component different from 1 to 7.  This number shall always be used with the appropriate component description reported in each item C0030. The numbers of the components shall be kept consistent over time.
C0020	Components description	Identification, using free text, of each of the components that can be identified by the undertaking. These components shall be aligned with standard formula risk modules if possible according to the partial internal model. Each component shall be identified using a separate entry. Undertakings shall identify and report components consistently across different reporting periods, unless there has been some change to the internal model affecting the categories.

**▼ B****S.26.01 — Solvency Capital Requirement — Market risk****General comments:**

This section relates to annual submission of information for individual entities, ring fenced–funds, matching adjustment portfolios and remaining part.

The template SR.26.01.01 has to be filled in for each ring–fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub–funds of a material RFF/MAP as identified in the second table of S.01.03.

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

**S.26.02 — Solvency Capital Requirement — Counterparty default risk****General comments**

This section relates to annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.26.02.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

All values shall be reported net of reinsurance and other risk mitigating techniques.

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

**S.26.04 — Solvency Capital Requirement — Health underwriting risk****General Comments:**

This section relates to annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.26.04.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

All values shall be reported net of reinsurance and other risk mitigating techniques.

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

**S.26.05 — Solvency Capital Requirement — Non-Life underwriting risk****General comments:**

This section relates to annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.26.05.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

All values shall be reported net of reinsurance and other risk mitigating techniques.

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

**S.27.01 — Solvency Capital Requirement — Non-life and health catastrophe risk****General comments:**

This section relates to annual submission of information for individual entities, ring fenced–funds, matching adjustment portfolios and remaining part.

Template SR.27.01 has to be filled in for each ring–fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub–funds of a material RFF/MAP as identified in the second table of S.01.03.

**▼ B**

This template is designed to allow an understanding of how the catastrophe risk module of the SCR has been calculated and what are the main drivers.

For every type of catastrophe risk the risk mitigating effect of the undertaking's specific reinsurance contracts and special purpose vehicles must be determined. This calculation is prospective and must be based on the reinsurance program of the next reporting year as described in the reinsurance templates for Facultative covers (S.30.01 and S.30.02) and Outgoing reinsurance program in the next reporting year (S.30.03 and S.30.04).

Undertakings need to estimate their recoveries from risk mitigation in line with the Directive 2009/138/EC, Delegated Regulation (EU) 2015/35 and any relevant technical standard. Undertakings shall complete the catastrophe reporting template only to the granularity required to perform this calculation.

Under the non-life and health underwriting risk modules, catastrophe risk is defined as the risk of loss, or of adverse change in the value of insurance liabilities, resulting from significant uncertainty of pricing and provisioning assumptions related to extreme or exceptional events as set out in Article 105(2)(b) and (4)(c) of the Directive 2009/138/EC.

The reported capital requirements reflects the capital requirements before and after risk mitigation which is the risk mitigating effect of the undertaking's specific reinsurance contracts and special purpose vehicles. The reported capital requirement after risk mitigation is before the loss absorbing capacity of technical provisions. The default value of the risk mitigation shall be reported as a positive value in order to be deducted.

In case the diversification effect reduces the capital requirement the default value of the diversification shall be reported as a negative value.

**S.29.01 — Excess of Assets over Liabilities****General comments:**

This section relates to annual submission of information for individual entities.

This template, together with S.29.02 to S.29.04, explains the variation of Excess of Assets over Liabilities by reconciling the different sources of movements (please see the five main sources in b) below). In these templates, creation of value needs to be reported (such as income from investments).

The content of this template covers:

- a) A presentation of all variations in Basic Own fund items during the reporting period. It isolates the variation of the Excess of Assets over Liabilities as part of this total variation. This first analysis is entirely performed based on information also reported in template S.23.01 (year N and N-1).
- b) A summary of the 5 main sources affecting the variation of the Excess of Assets over Liabilities between the prior and the last reporting periods (cells C0030/R0190 to C0030/R0250):

— The variation related to investments and financial liabilities — detailed in template S.29.02,

— The variation related to technical provisions — detailed in templates S.29.03 and S.29.04,

— The variation of 'pure' capital items, which is not directly influenced by the business carried on (e.g., variations in ordinary shares numbers and values); these variations are analysed in detail within template S.23.03;

— Other main variations linked to tax and dividend distribution, namely:

— Variation in Deferred Tax position

— Income Tax of the reporting period

— Dividend distribution

— Other variations not explained elsewhere.

**S.29.02 — Excess of Assets over Liabilities — explained by investments and financial liabilities****General comments:**

This section relates to annual submission of information for individual entities.

This template focuses on changes in the Excess of Assets over Liabilities due to investments and financial liabilities.

**▼ M3**

The scope of this template:

- i. Includes investments;
- ii. Includes liabilities position of derivatives (as investments);
- iii. Includes Own shares;
- iv. Includes Financial liabilities (comprising subordinated liabilities);
- v. Includes assets held for unit-linked and index-linked funds;
- vi. Excludes property held for own use.

**▼ B**

For all these items, the template covers the investments held at closing date of the prior reporting period (N-1) and the investments acquired/issued during the reporting period (N).

**▼ M3**

The difference between template S.29.02 (last table) and information in template S.09.01 is the inclusion of the revenue from own shares and the exclusion of Property held for own use. The purpose of the template is to provide a detailed understanding of the changes in the Excess of Assets over Liabilities related to investments, considering:

- i. Movements in valuation with an impact on the Excess of Assets over Liabilities (e.g. realised gains and losses from sales, but also valuation differences);
- ii. Revenues triggered by investments;
- iii. Expenses related to investments (including interest charges on financial liabilities.).

**▼ B**

**S.29.03 — Excess of Assets over Liabilities — explained by technical provisions****General comments:**

This section relates to annual submission of information for individual entities.

This template focuses on changes in the Excess of Assets over Liabilities due to technical provisions (TP). The scope of technical provisions includes risks captured through Best Estimate (BE) and Risk margin, and those captured through TP calculated as a whole.

As regards the order of calculation in the table ‘breakdown of Variation in Best Estimate’, presentation of the order is not deemed prescriptive as to the order in which the calculation is performed, as long as the content of the different cells indeed reflect the purpose and definition of these cells.

Undertakings are required to report data on accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, provided that they use the same year consistently, year on year.

The purpose of the template is to provide a detailed understanding of the changes in the Excess of Assets over Liabilities related to technical provisions, considering:

— Changes in TP captions;

**▼ B**

- Changes in technical flows of the period;
- A detailed breakdown of the variation of Best Estimate — gross of reinsurance by sources of changes (such as new business, changes in assumptions, experience, etc.).

**▼ M3**

The accepted reinsurance on unit-linked and index-linked business shall be included within the template.

**Of which the following breakdown of Variation in Best Estimate — analysis per UWY if applicable — Gross of reinsurance**

C0010–C0020/ R0010	Opening Best Estimate	Amount of Best Estimate — gross of reinsurance — as stated in the Balance Sheet at closing year N–1 related to those lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, for which an underwriting year approach (UWY) is used for Best Estimate calculation.
C0010–C0020/ R0020	Exceptional elements triggering restating of opening Best Estimate	Amount of adjustment to opening Best Estimate due to elements, other than changes in perimeter that led to restate the opening BE.  Shall essentially concern changes in models (in case models are used) for correction of the model and other modifications. It shall not concern changes in assumptions.  These cells are expected to be mostly applicable for Life business.
C0010–C0020/ R0030	Changes in perimeter	Amount of adjustment to opening Best Estimate related to changes in perimeter of the portfolio like sales of (part of) portfolio and purchases. This could also concern changes of perimeter due to liabilities evolving to annuities stemming from Non–Life obligations (triggering some changes from Non–Life to Life).
C0010–C0020/ R0040	Foreign exchange variation	Amount of adjustment to opening Best Estimate related to foreign exchange variation during the period.  In this case the foreign exchange variation is actually meant to be applied to contracts which are taken out in currencies different from the balance sheet currency. For the calculation, the cash–flows of these contracts contained in the opening Best Estimate are simply converted due to the exchange variation.  This item does not address the impact on the cash–flows of the insurance portfolio induced by re–valuation of year N–1 assets due to foreign exchange variation during year N.
C0010–C0020/ R0050	Best Estimate on risks accepted during the period	It represents present expected future cash flows (gross of reinsurance) included in Best Estimate and related to risks accepted during the period.  This shall be considered at the closing date (and not at the actual date of inception of the risks), i.e. this shall form part of the Best Estimate at closing date.  The scope of cash flows refers to Article 77 of Directive 2009/138/EC.
C0010–C0020/ R0060	Variation of Best Estimate due to unwinding of discount rate — risks accepted prior to period	The variation of Best Estimate captured here shall only relate to the unwinding of discount rates, and does not take into account other parameters such as changes in assumptions or discount rates, experience adjustment, etc.  The concept of unwinding may be illustrated as follows: Calculate the Best Estimate of year N–1 again but using the shifted interest rate term structure

C0010–C0020/ R0070	Variation of Best Estimate due to year N projected in and out flows — risks accepted prior to period	<p>Premiums, claims, and surrenders that were forecasted on the Opening Best Estimate as to be paid during the year, will not be in the closing Best Estimate anymore as they would have been paid/received during the year. C0010–C0020/ R0090	Variation of Best Estimate due to changes in non-economic assumptions — risks accepted prior to period	<p>► <b>M3</b> It mainly refers to changes in best estimate not driven by realised technical flows and changes in assumptions directly linked to insurance risks (i.e. lapse rates), which can be referred to as non-economic assumptions. ◀</p> <p>In order to isolate the strict scope of variation due to changes in assumptions, the calculation may be as follows:</p> <p>► <b>M1</b> — Consider the opening Best Estimate (cell C0010/R0010) including the adjustment to opening Best Estimate (cell C0010/R0010 to R0040) and the impact of unwinding of year N projected cash-flows (C0010/R0060 to R0080 and C0020/R0060 to R0080 respectively); ◀</p> <ul style="list-style-type: none"> <li>— Based on this figure, run calculations with new assumptions not related to discount rates — that applied at year end N (if any)</li> </ul> <p>This will provide the variation of Best Estimate strictly related to changes in these assumptions. This section relates to annual submission of information for individual entities.

This template shall ► **M2** ————— ◀ be completed on the basis of Solvency II valuation, i.e. written premiums are defined as the premiums due to be received by the undertaking in the period. Applying this definition means that written premiums in the given year are the premiums actually due to be received in that year, regardless of the coverage period. The definition of written premiums is consistent with the definition of ‘premium receivables’.

**S.30.01 — Facultative covers for non-life and life business basic data****General comments:**

This section relates to annual submission of information for individual entities.

This template is relevant to insurance and reinsurance undertakings which reinsure and/or retrocede business on a facultative basis.

It shall be filled by the non-life and life insurance and reinsurance undertakings with information on facultative covers in the next reporting year, covering information on the 10 most important risks in terms of reinsured exposure for each line of business, as defined in Annex 1 to Delegated Regulation (EU) 2015/35 (e.g. in cases where the risks accepted do not fit in the regular policy acceptance and could only be accepted in case part of the risk is reinsured on a facultative basis). Each facultative risk is submitted to the reinsurer and terms and conditions of the facultative reinsurance are negotiated individually for each policy. Treaties that automatically cover risks are out of scope of this template and must be reported in S.30.03.

There shall be one separate template for each line of business. For each line of business, a selection must be made of the 10 most important risks in terms of reinsured exposure (part of sum insured transferred to all reinsurers) on a facultative basis. Furthermore, each underwriting risk shall have a unique code specified by the 'risk identification code'.

**▼ M3**

This template is prospective (to be in line with S.30.03) and as such shall reflect the reinsurance treaties effective and valid during the next reporting year for the selected 10 most important risks in terms of reinsured exposure for each line of business. Undertakings shall report the most important risks of the next reporting period which are covered by reinsurance treaties valid during the next reporting period. If reinsurance strategy changes materially after the validity date or if the renovation of the reinsurance contracts are performed later than the reporting date and before next 1 January, the information on this template shall be re-submitted when adequate.

**▼ B**

Facultative placements covering different lines of business shall also appear in the various relevant line of business if they are ranked within the 10 biggest risks of the same line of business.

**S.30.02 — Facultative covers for non-life and life business shares data****General comments:**

This section relates to annual submission of information for individual entities.

This template is relevant to insurance and reinsurance undertakings which reinsure and/or retrocede business on a facultative basis.

It shall be filled by the non-life and life insurance and reinsurance undertakings with information on shares of reinsurers of facultative covers in the next reporting year covering information on the 10 most important risks in terms of reinsured exposure, for each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, (e.g. in cases where the risks accepted do not fit in the regular policy acceptance and could only be accepted in case part of the risk is reinsured on a facultative basis). Each facultative risk is submitted to the reinsurer and terms and conditions of the facultative reinsurance are negotiated individually for each policy. Treaties that automatically cover risks are out of scope of this template and must be reported in S.30.03.

There shall be one separate template for each line of business. For each line of business, a selection must be made of the 10 most important risks in terms of reinsured exposure (part of sum insured transferred to all reinsurers) on a facultative basis. Furthermore, each underwriting risk shall have a unique code specified by the 'risk identification code'. Each chosen risk shall be separated to get unique conditions for a contract in a single line. ► **M2** Where a facultative cover as reported in template S.30.01 is related to more than one reinsurance undertaking, this template shall be filled in with as many rows as the number of reinsurance undertakings involved for the specific facultative cover. ◀

**▼ M3**

This template is prospective (to be in line with S.30.03) and as such shall reflect the reinsurance treaties effective and valid during the next reporting year for the selected 10 most important risks in terms of reinsured exposure for each line of business. Undertakings shall report the most important risks of the next reporting period which are covered by reinsurance treaties valid during the next reporting period. If reinsurance strategy changes materially after the validity date or if the renovation of the reinsurance contracts are performed later than the reporting date and before next 1 January, the information on this template shall be re-submitted when adequate.

**▼ B**

Facultative placements covering different lines of business shall also appear in the various relevant lines of business if they are ranked within the 10 biggest risks of the same line of business.

This template shall be filled in for each reinsurer that accepted the facultative cover.

**S.31.01 — Share of reinsurers (including Finite Reinsurance and SPV's)****General comments:**

This section relates to annual submission of information for individual entities.

This template shall be filled by the insurance and reinsurance undertakings where a recoverable is recognised in relation to the reinsurer (even if all contracts with that reinsurer have terminated) and whose reinsurer is reducing the gross technical provisions as per end of the reporting year.

The template collects information on reinsurers and not on separate treaties. All ceded technical provisions, including those ceded under Finite reinsurance (as defined in S.30.03 Column C0060), must be completed. This also means that if an SPV or a syndicate of Lloyd's acts as a reinsurer the SPV or the syndicate must be listed.

**▼ B****S.31.02 — Special Purpose Vehicles****General comments:**

This section relates to annual submission of information for individual entities.

This template is relevant for each insurance or reinsurance undertaking transferring risk(s) to a Special Purpose Vehicle (SPV), to ensure sufficient disclosure has been made where SPVs are used as alternative risk transfer methods to traditional reinsurance treaties.

The template applies to the use of:

- a) SPVs defined under Article 13(26) and authorised under Article 211(1) of Directive 2009/138/EC;
- b) SPVs meeting conditions of Article 211(3) of Directive 2009/138/EC;
- c) SPVs regulated by third country supervisors where these meet equivalent measures to the conditions set out in Article 211(2) of Directive 2009/138/EC;
- d) Other SPVs, not meeting the definitions above, where risks are transferred under arrangements with the economic substance of a reinsurance contract.

The template covers risk mitigation techniques (recognised or not) carried out by the (re)insurance undertaking whereby a SPV assumes risks from the reporting undertaking through a reinsurance contract; or assume insurance risks from the reporting undertaking transferred through a similar arrangement that is 'reinsurance like'.

**S.36.01 — IGT — Equity-type transactions, debt and asset transfer****General comments:**

This section relates to annual submission of information for individual entities.

The purpose of this template is to collect information according to Article 265 of Directive 2009/138/EC on all (significant, very significant and transactions required to be reported in all circumstances) IGTs related to equity, debt, reciprocal financing and asset transfers related transactions within a group according to Article 213 (2)(d) of Directive 2009/138/EC. These include, but are not limited to:

- equity and other capital items including participations in related entities and transfer shares of related entities of the group;
- debt including bonds, loans, collateralised debt, and other transactions of similar nature e.g. with periodic pre-determined interest or coupon or premium payments for a pre-determined period of time.
- other asset transfer such as transfer of properties and transfer of shares of other companies unrelated (i.e. outside) to the group.

The insurance undertaking is expected to complete this template for all significant, very significant and transactions required to be reported in all circumstances for IGTs between the individual undertaking and the mixed-activity insurance holding company and its related undertakings.

This template shall include IGTs that were:

- in-force at the start of the reporting period.
- incepted during the reporting period and outstanding at the reporting date.
- incepted and expired/matured during the reporting period.

Where similar transactions with a related entity may be excluded from IGT reporting when considered individually against the thresholds for significant and very significant, these transactions must nevertheless be individually reported where collectively they are at or above the corresponding threshold values for significant or very significant IGTs.

**▼ B**

Each transaction shall be reported separately.

Any additions/top-ups to significant IGTs shall be reported as a separate IGT, even if the top-up in its own right falls below the significant threshold limit. For example, if an undertaking increases the initial loan amount to another related undertaking the addition to the loan should be recorded as a separate item with its issue date as the date of the top-up.

Where the transaction value is different for two transacting parties (e.g. a EUR 10 m transaction between A and B where A records EUR 10 m but B only receive EUR 9,5 m because of transactions costs, of say EUR 0,5 m has been expensed) the template shall record the maximum amount as the transaction amount, in this case EUR 10 m.

Where there is a chain of related IGTs (say A invests in B and B invests in C), each link of the chain needs to be reported as a separate IGT.

**S.36.03 — IGT — Internal reinsurance****General comments:**

This section relates to annual submission of information for individual entities.

**▼ M1**

The purpose of this template is to collect information on all IGTs (significant, very significant and transactions required to be reported in all circumstances) related to internal reinsurance within a group identified according to Article 213(2)(d) of Directive 2009/138/EC. These include, but are not limited to:

**▼ B**

- reinsurance treaties between related undertakings;
- facultative reinsurance between related undertakings; and
- any other transaction that results in transferring underwriting risk (insurance risk) between related undertakings.

The insurance undertaking is expected to complete this template for all significant, very significant and transactions required to be reported in all circumstances for IGTs between the individual undertaking and the mixed-activity insurance holding company and its related undertakings.

This template shall include IGTs that were:

- in-force at the start of the reporting period.
- inception during the reporting period and outstanding at the reporting date.
- inception and expired/matured during the reporting period.

Where similar transactions with a related entity may be excluded from IGT reporting when considered individually against the thresholds for significant and very significant, these transactions must nevertheless be individually reported where collectively they are at or above the corresponding threshold values for significant or very significant IGTs.

Each transaction shall be reported separately. Undertakings shall report as many rows as needed to properly identify the transaction, including if different types of reinsurance contracts/treaties are used.

Any additions/top-ups to significant IGTs shall be reported as a separate IGT, even if the top-up in its own right falls below the significant threshold limit. For example, if an undertaking increases the initial loan amount to another related undertaking the addition to the loan shall be recorded as a separate item with its issue date as the date of the top-up.

Where the transaction value is different for two transacting parties (e.g. a EUR 10 m transaction between A and B where A records EUR 10 m but B only receive EUR 9,5 m because of transactions costs, of say EUR 0,5 m has been expensed) the template shall record the maximum amount as the transaction amount, in this case EUR 10 m.

**▼ B**

Where there is a chain of related IGTs (say A invests in B and B invests in C), each link of the chain needs to be reported as a separate IGT.

**S.36.04 — IGT — Cost Sharing, contingent liabilities, off balance sheet and other items****General comments:**

This section relates to annual submission of information for individual entities.

The purpose of this template is to collect information on all other IGTs (significant, very significant and transactions required to be reported in all circumstances) which have not been captured in 36.01 to 36.03 templates within the group according to Article 213 (2) (d) of Directive 2009/138/EC. These include, but not limited to:

- Internal cost sharing;
- Contingent liabilities (other than derivatives);
- Off balance sheet guarantees;

**▼ B**

- Any other transactions between related undertakings or natural persons in scope of the group supervision.

The insurance undertaking is expected to complete this template for all significant, very significant and transactions required to be reported in all circumstances for IGTs between the individual undertaking and the mixed-activity insurance holding company and its related undertakings.

This template shall include IGTs that were:

- in-force at the start of the reporting period.
- inception during the reporting period and outstanding at the reporting date.
- inception and expired/matured during the reporting period.

Where similar transactions with a related entity may be excluded from IGT reporting when considered individually against the thresholds for significant and very significant, these transactions must nevertheless be individually reported where collectively they are at or above the corresponding threshold values for significant or very significant IGTs.

Each transaction shall be reported separately.

Any additions/top-ups to significant IGTs shall be reported as a separate IGT, even if the top-up in its own right falls below the significant threshold limit. For example, if an undertaking increases the initial loan amount to another related undertaking the addition to the loan should be recorded as a separate item with its issue date as the date of the top-up.

Where the transaction value is different for two transacting parties (e.g. a EUR 10 m transaction between A and B where A records EUR 10 m but B only receive EUR 9,5 m because of transactions costs, of say EUR 0,5 m has been expensed) the template should record the maximum amount as the transaction amount, in this case EUR 10 m.

Where there is a chain of related IGTs (say A invests in B and B invests in C), each link of the chain needs to be reported as a separate IGT.

**▼ B****S.01.03 — Basic information — RFF and matching adjustment portfolios****General comments:**

This section relates to opening and annual submission of information for groups.

All ring-fenced funds and matching portfolios should be identified regardless if they are material for the purposes of submission of information.

In the first table all ring-fenced funds and matching adjustments portfolios shall be reported. In case a ring-fenced fund has a matching portfolio not covering the full RFF three funds have to be identified, one for the RFF, other for the MAP inside the RFF and other for the remaining part of the fund (vice-versa for the situations where a MAP has a RFF).

In the second table the relations between the funds as explained in previous paragraph are explained. Only the funds with such relations shall be reported in the second table.

For group reporting the following specific requirements shall be met:

- a) This information is applicable when method 1 as defined in Article 230 of Solvency II Directive is used, either exclusively or in combination with method 2 as defined in Article 233 of Solvency II Directive;
- b) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Solvency II Directive, and;
- c) This information does not apply to groups when method 2 as defined in Article 233 of Solvency II Directive is being used exclusively.

With regards to the ‘Statutory accounts value’ column (C0020), recognition and valuation methods are the ones used by groups in their statutory accounts in accordance with the local GAAP or IFRS if accepted as local GAAP. This column is by default mandatory. In the specific cases where the group does not produce official financial statements according to local GAAP or IFRS the specific situation should be discussed with the group supervisor. In template SR.02.01 this column is only applicable if the development of financial statements by RFF is required by national law.

The default instruction is that each item shall be reported in the ‘Statutory accounts value’ column, separately.

However, in the ‘Statutory accounts value’ column the dotted rows were introduced in order to enable the reporting of aggregated figures if the split figures are not available.

**S.02.02 — Assets and liabilities by currency****General comment:**

This section relates to annual submission of information for groups.

This template is to be filled in accordance to the Balance sheet (S.02.01). Valuation principles are laid down in Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency II Technical Standards and Guidelines.

This template is not required to be submitted if one single currency represents more than 90 % of assets and also of liabilities.

If submitted, information on the reporting currency shall always be reported regardless of the amount of assets and liabilities. Information reported by currency shall at least represent 90 % of the total assets and of the total liabilities. The remaining 10 % shall be aggregated. If a specific currency has to be reported for either assets or liabilities to comply with the 90 % rule then that currency shall be reported for both assets and liabilities.

**S.03.01 — Off-balance sheet items — General****General comments:**

This section relates to annual submission of information for groups.

This template shall include the information referring to off-balance sheet items and the maximum and solvency II value of contingent liabilities in Solvency II balance sheet also. As regards the Solvency II value, the instructions define the items from a recognition perspective. Valuation principles are laid down in Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency II Technical Standards and Guidelines.

**▼ B**

Guarantees require the issuer to make specified payments to reimburse the holder for a loss it incurs if a specified debtor fails to make payment when due under the original or modified terms of a debt instrument. These guarantees can have various legal forms, such as financial guarantees, letters of credit, credit default contracts. These items shall not include guarantees stemming from insurance contracts, which are recognised in technical provisions.

A contingent liability is defined as:

- a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- c) a present obligation that arises from past events even if:
  - iii. it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
  - iv. the amount of the obligation cannot be measured with sufficient reliability.

Collateral is an asset with a monetary value or a commitment that secures the lender against the defaults of the borrower.

**▼ M3**

The guarantees listed in this template are not reported in S.03.02 and S.03.03. This means that only limited guarantees are to be reported in this template. Internal guarantees within the scope of group supervision are not reported in this template.

**▼ B**

At group level, the template is applicable for all entities within the scope of group supervision — including other financial sectors and non-controlled participations — for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

For non-controlled participations guarantees provided and guarantees received are included on a proportional basis when method 1 is applied. When method 2 is applied these guarantees are reported with the total amount.

**S.03.03 — Off-balance-sheet items — List of unlimited guarantees provided by the group****General comments:**

This section relates to annual submission of information for groups.

As regards the Solvency II value, the instructions define the items from a recognition perspective. Valuation principles are laid down in Directive 2009/138/EC, Delegated Regulation (EU) 2015/35, Solvency II Technical Standards and Guidelines.

Unlimited guarantees refer to guarantees with unlimited amount, regardless of the date being limited or unlimited.

The guarantees listed in this template are not reported in S.03.01. At group level, the template is applicable for all entities within the scope of group supervision — including other financial sectors and non-controlled participations — for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Internal guarantees within the scope of group supervision are not reported in this template but reported in the relevant Intra-group transactions (S.36) template.

**S.05.02 — Premiums, claims and expenses by country****General comments:**

This section relates to annual submission of information for groups. ► **M2** The template is not due when the thresholds for reporting by country described below are not applicable, i.e. the home country represents 90 % or more of the total gross written premiums. ◀

This template shall be reported from an accounting perspective, i.e.: Local GAAP or IFRS (if accepted as local GAAP. Groups shall use the recognition and valuation basis as for the published financial statements, no new recognition or re-valuation is required ► **M2** , except for the classification between investment contracts and insurance contracts when this is applicable in the financial statements. This template shall include all insurance business regardless of the possible different classification between investment contracts and insurance contracts applicable in the financial statements. ◀

**▼ M2****▼ B**

This template covers only insurance and reinsurance business within the scope of the consolidated accounting perspective.

**▼B**

The following criteria for the classification by country shall be used:

- The information, provided by country, shall be completed for the five countries with the biggest amount of gross written premiums in addition to the home country or until reaching 90 % of the total gross written premiums;
- For the direct insurance business for the lines of business ‘Medical expense’, ‘Income protection’, ‘Workers’ compensation’, ‘Fire and other damage to property’ and ‘Credit and suretyship’ information shall be reported by country where the risk is situated as defined in Article 13 (13) of Directive 2009/138/EC;
- For direct insurance business for all other lines of business, information shall be reported by country where the contract was entered into;
- For proportional and non-proportional reinsurance information shall be reported by country of localisation of the ceding undertaking.

For the purposes of this template ‘country where the contract was entered into’ means:

- s) The country where the insurance undertaking is established (home country) when the contract was not sold through a branch or freedom to provide services;
- t) The country where the branch is located (host country) when the contract was sold through a branch;
- u) The country where the freedom to provide services was notified (host country) when the contract was sold through freedom to provide services.
- v) If an intermediary is used or in any other situation, it is a), b) or c) depending on who sold the contract.

**S.06.01 — Summary of assets****General comments:**

This section relates to annual submission of information for groups. This template is relevant at the level of the group where all insurance or reinsurance undertakings within the scope of group supervision benefit from the exemption in accordance with Article 35 (7) of Directive 2009/138/EC.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation.

This template contains a summary of information on assets and derivatives regarding the participating insurance or reinsurance undertaking, the insurance holding company or the mixed financial holding company (at a group level), including assets and derivatives held in unit linked and index linked contracts.

Items shall be reported with positive values unless its Solvency II value is negative (e.g. the case of derivatives that are a liability of the undertaking).

**▼ B**

The template is applicable for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the assets and derivatives net of intra-group transactions held within the scope of group supervision.

Where method 2 is used exclusively, the reporting shall include the assets and derivatives held by the participating insurance and reinsurance undertakings, the insurance holding companies, mixed-financial holding companies, subsidiaries and non-controlled participations regardless of the proportional share used. The assets held by undertakings from the other financial sectors shall not be included.

Where a combination of methods 1 and 2 is used, the reporting shall reflect the consolidated position of the assets and derivatives, net of intra-group transactions, held within the scope of group supervision and the assets and derivatives held by the participating insurance or reinsurance undertakings, the insurance holding companies, the mixed financial holding companies, subsidiaries and non-controlled participations regardless of the proportional share used.

**S.06.02 — List of assets****General comments:**

This section relates to quarterly and annual submission of information for groups.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to Complementary Identification Code ('CIC') refer to Annex VI — CIC table of this Regulation.

This template shall reflect the list of all assets included in the Balance-sheet classifiable as asset categories 0 to 9 of Annex IV — Assets Categories of this Regulation. In particular in case of securities lending and repurchase agreements the underlying securities that are kept in the Balance-sheet shall be reported in this template.

**▼ B**

This template contains an item-by-item list of assets held directly by the group (i.e. not on a look-through basis), classifiable as asset categories 0 to 9 (in case of unit-linked and index-linked product managed by the (re)insurance undertaking, the assets to be reported are also only the ones covered by asset categories 0 to 9, e.g. recoverables and liabilities related to this products shall not be reported), with the following exceptions:

- f) Cash shall be reported in one row per currency, for each combination of items C0060, C0070, C0080, and C0090;
- g) Transferable deposits (cash equivalents) and other deposits with maturity of less than one year shall be reported in one row per pair of bank and currency, for each combination of items C0060, C0070, C0080, C0090 and C0290;
- h) Mortgages and loans to individuals, including loans on policies, shall be reported in two rows, one row regarding loans to administrative, management and supervisory body, for each combination of items C0060, C0070, C0080, C0090 and C0290 and another regarding loans to other natural persons, for each combination of items C0060, C0070, C0080, C0090 and C0290;
- i) Deposits to cedants shall be reported in one single line, for each combination of items C0060, C0070, C0080 and C0090;
- j) Plant and equipment for the own use of the undertaking shall be reported in one single line, for each combination of items C0060, C0070, C0080 and C0090.

This template comprises two tables: Information on positions held and Information on assets.

**▼ M1**

On the table Information on positions held, each asset shall be reported separately in as many lines as needed in order to properly fill in all non-monetary variables with the exception of item 'Quantity', requested in that table. If for the same asset two values can be attributed to one variable, then this asset needs to be reported in more than one line.

**▼ B**

On the table Information on assets, each asset shall be reported separately, with one row for each asset, filling in all applicable variables requested in that table.

The template is applicable for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the assets net of intra-group transactions held. The reporting shall be made as follows:

- Item 'Legal name of the undertaking — C0010' and 'Identification code of the undertaking — C0020' shall not be reported;
- The assets held by the participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;

**▼ B**

- The assets held by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- Participations in undertakings consolidated in accordance with Article 335, paragraph 1, (d), (e) and (f) of Delegated Regulation (EU) 2015/35 shall be reported in one row and identify it by using the available options in cell C0310.

Where method 2 is used exclusively, the reporting shall include the detailed list of the assets held by the participating undertakings, the insurance holding companies and subsidiaries and one row for each non-controlled participation. The assets reported shall not take into account the proportional share used for group solvency calculation. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The assets held by the participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The assets held by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;
- Participations in insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are not subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported in one row for each participation;
- The assets held by undertakings from the other financial sectors shall not be included.

Where a combination of methods 1 and 2 is used, one part of the reporting reflects the consolidated position of the assets, net of intra-group transactions, which must be reported and the other part of the reporting shall include the detailed list of the assets held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries and one row for each non-controlled participation, net of intra-group transactions and regardless of the proportional share used.

The first part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- The assets held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The assets held by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;

**▼B**

- Participations in undertakings consolidated in accordance with Article 335, paragraph 1, (d), (e) and (f) of Delegated Regulation (EU) 2015/35 shall be reported in one row and identify it by using the available options in cell C0310;
- Participations in undertakings under method 2 shall be reported one row for each subsidiary and non-controlled participation held and identify it by using the available options in cell C0310.

The second part of the reporting shall include the detailed list of the assets held by the participating undertakings, the insurance holding companies and subsidiaries and one row for each non-controlled participation, regardless of the proportional share used. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The assets held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies under method 2 shall be reported item by item;
- The assets held by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries under method 2 (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;
- Participations in insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are not subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported in one row for each participation;
- The assets held by the undertakings from the other financial sectors shall not be included.

The information regarding the external rating (C0320) and nominated External Credit Assessment Institutions (‘ECAI’) (C0330) may be limited (not reported) in the following circumstances:

- e) through a decision of the national supervisory authority (‘NSA’) under Article 254(2) of the Directive 2009/138/EC; or
- f) through a decision of the national supervisory authority in the cases where the insurance and reinsurance undertakings have in place outsourcing arrangements in the area of investments that lead to this specific information not being available directly to the undertaking.

**S.06.03 — Collective investment undertakings — look-through approach****General comments:**

This section relates to quarterly and annual submission of information for groups.

This template contains information on the look through of collective investment undertakings, or investments packaged as funds and similar undertakings, including when they are participations by underlying asset category, country of issue and currency. ► **M2** Considering proportionality and specific instructions of the template, the look through shall be performed until the asset categories, countries and currencies are identified. In case of funds of funds the look-through shall follow the same approach. ◀

**▼ M3**

The template shall include information corresponding to 100 % of the value invested in collective investment undertakings. However for the identification of countries the look-through shall be implemented in order to identify the exposures of 90 % of the total value of the funds minus the amounts related to CIC 8 and 9, and for the identification of currencies the look-through shall be implemented in order to identify the exposures of 90 % of the total value of the funds. Groups shall ensure that the 10 % not identified by country is diversified across geographical areas, for example that not more than 5 % is in one single country. The look-through shall be applied by groups starting from the major, considering the amount invested, to the lowest single fund and the approach shall be kept consistent over time.

**▼ B**

Quarterly information shall only be reported when the ratio of collective investments undertakings held by the group to total investments, measured as the ratio between item C0010/R0180 of template S.02.01 plus collective investments undertakings included in item C0010/R0220 of template S.02.01 plus collective investments undertakings included in item C0010/R0090 and the sum of item C0010/R0070 and C0010/RC0220 of template S.02.01, is

higher than 30 % when method 1 as defined in Article 230 of Directive 2009/138/EC is used exclusively. When method 1 is used in combination with method 2 as defined in Article 233 of Directive 2009/138/EC or method 2 is used exclusively the ratio needs to be adjusted in order to capture the items of all entities included in the scope of template S.06.02.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

This template shall include the look-through of all collective investment undertakings, or investments packaged as funds and similar undertakings, including when they are participations by underlying asset category, reported item-by-item in S.06.02. If one collective investment undertaking, or investment packaged as fund and similar undertaking is held by many undertakings, in this template it shall be reported only once.

**▼B****S.07.01 — Structured products****General comments:**

This section relates to annual submission of information for groups.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

Structured products are defined as assets falling into the asset categories 5 (Structured notes) and 6 (Collateralised securities).

This template shall only be reported when the amount of structured products, measured as the ratio between assets classified as asset categories 5 (Structured notes) and 6 (Collateralised securities) as defined in Annex IV — Asset Categories of this Regulation and the sum of item C0010/R0070 and C0010/R0220 of template S.02.01, is higher than 5 % when method 1 as defined in Article 230 of Directive 2009/138/EC is used exclusively. When method 1 is used in combination with method 2 as defined in Article 233 of Directive 2009/138/EC or method 2 is used exclusively the ratio needs to be adjusted in order to capture the items of all entities included in the scope of template S.06.02.

In some cases the types of structured products (C0070) identify the derivative embedded in the structured product. In this case this classification shall be used when the structured product has the referred derivative embedded.

The template is applicable for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the structured notes and collateralised securities net of intra-group transactions held within the scope of group supervision in its portfolio. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- The structured products held directly by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The structured products held by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- The structured products held by other related undertakings shall not be included.

**▼B**

Where method 2 is used exclusively, the reporting shall include the detailed list of the structured notes and collateralised securities held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries, and regardless of the proportional share used. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The structured products held directly by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item
- The structured products held by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;
- The structured products held by other related undertakings shall not be included.

Where a combination of methods 1 and 2 is used, one part of the reporting reflects the consolidated position of the structured notes and collateralised securities, net of intra-group transactions, held within the scope of group supervision which must be reported and the other part of the reporting shall include the detailed list of the structured notes and collateralised securities held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries, regardless of the proportional share used.

**S.08.01 — Open derivatives****General comments:**

This section relates to quarterly and annual submission of information for groups.

The derivatives categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation. This template contains an item-by-item list of derivatives held directly by the group (i.e. not on a look-through basis), classifiable as asset categories A to F.

**▼ M1**

Derivatives are considered assets if their Solvency II value is positive or zero. They are considered liabilities if their Solvency II value is negative. Both derivatives considered as assets or considered as liabilities shall be included.

**▼ B**

Information shall include all derivatives contracts that existed during the reporting period and were not closed prior to the reporting reference date.

If there are frequent trades on the same derivative, resulting in multiple open positions, the derivative can be reported on an aggregated or net basis, as long as all the relevant characteristics are common and following the specific instruction for each relevant item.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

**▼ B**

A derivative is a financial instrument or other contract with all three of the following characteristics:

- g) Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the 'underlying').
- h) It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- i) It is settled at a future date.

This template comprises two tables: Information on positions held and Information on derivatives.

**▼ M3**

On the table Information on positions held, each derivative shall be reported separately in as many rows as needed in order to properly fill in all non-monetary variables, requested in that table. If for the same derivative two values can be attributed to one variable, then this derivative needs to be reported in more than one line.

**▼ B**

In particular, for derivatives that have more than a pair of currencies, it shall be split into the pair components and reported in different rows.

On the table Information on derivative, each derivative shall be reported separately, with one row for each derivative, filling in all variables requested in that table.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the derivatives net of intra-group transactions held within the scope of group supervision. The reporting shall be made as follows:

- Item 'Legal name of the undertaking — C0010' and 'Identification code of the undertaking — C0020' shall not be reported;
- The derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The derivatives held by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- The derivatives held by other related undertakings shall not be included

Where method 2 is used exclusively, the reporting shall include the detailed list of the derivatives held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries, regardless of the proportional share used. The reporting shall be made as follows:

- Item 'Legal name of the undertaking — C0010' and 'Identification code of the undertaking — C0020' shall be reported;
- The derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;

**▼B**

- The derivatives held by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;
- The derivatives held by other related undertakings shall not be included.

Where a combination of methods 1 and 2 is used, one part of the reporting shall reflect the consolidated position of the derivatives, net of intra-group transactions held within the scope of group supervision which must be reported and the other part of the reporting shall include the detailed list of the derivatives held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries, regardless of the proportional share used.

The first part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- The derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The derivatives held by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- The derivatives held by other related undertakings shall not be included.

The second part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies under method 2 shall be reported item by item;
- The derivatives held by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries under method 2 (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;
- The derivatives held by other related undertakings under method 2 shall not be included.

The information regarding the External rating (C0290) and Nominated ECAI (C0300) may be limited (not reported) in the following circumstances:

- g) through a decision of the national supervisory authority under Article 254(2) of the Directive 2009/138/EC; or
- h) through a decision of the national supervisory authority in the cases where the insurance and reinsurance undertakings have in place outsourcing arrangements in the area of investments that lead to this specific information not being available directly to the undertaking.

**S.08.02 — Derivatives Transactions****General comments:**

This section relates to quarterly and annual submission of information for groups.

The derivatives categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

This template contains an item-by-item list of closed derivatives held directly by the group (i.e. not on a look-through basis), classifiable as asset categories A to F. When a contract is still open but has been reduced in size the closed portion shall be reported.

**▼ B**

Derivatives are considered assets if their Solvency II value is positive or zero. ► **M2** They are considered liabilities if their Solvency II value is negative. ◀ Both derivatives considered as assets or considered as liabilities shall be included.

Closed derivatives are the ones that were open at some point of the reference period (i.e. last quarter if template is submitted quarterly or last year if template is only submitted annually) but were closed before the end of the reporting period.

If there are frequent trades on the same derivative, the derivative can be reported on an aggregated or net basis (indicating only the first and the last trade dates), as long as all the relevant characteristics are common, and following the specific instruction for each relevant item.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

A derivative is a financial instrument or other contract with all three of the following characteristics:

- j) Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the 'underlying').
- k) It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- l) It is settled at a future date.

This template comprises two tables: Information on positions held and Information on derivatives.

► **M3** On the table Information on positions held, each derivative shall be reported separately in as many rows as needed in order to properly fill in all non-monetary variables requested in that table. ◀ If for the same derivative two values can be attributed to one variable, then this derivative needs to be reported in more than one line.

In particular, for derivatives that have more than a pair of currencies, it shall be split into the pair components and reported in different rows.

On the table Information on derivative, each derivative shall be reported separately, with one row for each derivative, filling in all variables requested in that table.

The template is applicable for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the closed derivatives net of intra-group transactions held within the scope of group supervision. The reporting shall be made as follows:

— Item 'Legal name of the undertaking — C0010' and 'Identification code of the undertaking — C0020' shall not be reported;

**▼B**

- The closed derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The closed derivatives held by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- The closed derivatives held by other related undertakings shall not be included.

Where method 2 is used exclusively, the reporting shall include the detailed list of the closed derivatives held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries, regardless of the proportional share used. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The closed derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The closed derivatives held by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;
- The closed derivatives held by other related undertakings shall not be included.

Where a combination of methods 1 and 2 is used, one part of the reporting shall reflect the consolidated position of the closed derivatives, net of intra-group transactions held within the scope of group supervision which must be reported and the other part of the reporting shall include the closed detailed list of the derivatives held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries, regardless of the proportional share used.

The first part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- The closed derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The closed derivatives held by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;

**▼B**

- The closed derivatives held by other related undertakings shall not be included.

The second part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The closed derivatives held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies under method 2 shall be reported item by item of the closed derivatives held;
- The closed derivatives held by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries under method 2 (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item of the closed derivatives held by undertaking;
- The closed derivatives held by other related undertakings under method 2 shall not be included.

C0140	Premium paid to date	► <b>M2</b> The payment made (if bought), for options and also up–front and periodical premium amounts paid for swaps, since the moment the undertaking entered into the derivative contract. ◀
C0150	Premium received to date	► <b>M2</b> The payment received (if sold), for options and also up–front and periodical premium amounts received for swaps, since the moment the undertaking entered into the derivative contract. ◀
C0160	Profit and loss to date	► <b>M2</b> Amount of profit and loss arising from the derivative since the moment the undertaking entered into the derivative contract, realised at the closing/maturing date. Corresponds to the difference between the value (price) at sale date and the value (price) at acquisition date. ◀  This amount could be positive (profit) or negative (loss).
C0170	Number of contracts	Number of similar derivative contracts reported in the line. For Over–The–Counter derivatives, e.g., one swap contract, 1 shall be reported, if ten swaps with the same characteristics, 10 shall be reported.  The number of contracts shall be the ones entered into and that were closed at the reporting date.
C0180	Contract size	Number of underlying assets in the contract (e.g. for equity futures it is the number of equities to be delivered per derivative contract at maturity, for bond futures it is the reference amount underlying each contract).  The way the contract size is defined varies according with the type of instrument. For futures on equities it is common to find the contract size defined as a function of the number of shares underlying the contract.  For futures on bonds, it is the bond nominal amount underlying the contract.  Only applicable for futures and options.
C0190	Maximum loss under unwinding event	Maximum amount of loss if an unwinding event occurs. Applicable to CIC category F.
C0200	Swap outflow amount	Amount delivered under the swap contract (other than premiums), during the reporting period. Corresponds to interest paid for IRS and amounts delivered for currency swaps, credit swaps, total return swaps and other swaps.  In the cases where the settlement is made on a net basis then only one of the items C0200 and C0210 shall be reported.

**S.09.01 — Information on gains / income and losses in the period****General comments:**

This section relates to annual submission of information for groups.

This template contains information on gains / income and losses by asset category (including derivatives). i.e., no item-by-item reporting is required. The asset categories considered in this template are the ones defined in Annex IV — Assets Categories.

**▼ B**

At group level, the template is applicable for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the portfolios (i.e. net of IGT) within the scope of group supervision. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- Gains/ income and losses of portfolios held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported portfolio by portfolio, each by asset category;
- Gains / income and losses of portfolios held undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported portfolio by portfolio, each by asset category;
- Gains / income and losses of portfolios held by other related undertakings shall not be included;

Where method 2 is used exclusively, the reporting shall include the detailed list of the portfolios held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies and its subsidiaries and their profitability by asset category. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- Gains / income and losses of portfolios held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported portfolio by portfolio, each by asset category;
- Gains / income and losses of portfolios held by subsidiaries (EEA, equivalent non-EEA, non-equivalent non-EEA) shall be reported portfolio by portfolio, each by asset category;
- Gains / income and losses of portfolios held by other related undertakings shall not be included;

Where a combination of methods 1 and 2 is used, one part of the reporting shall reflect the consolidated position of the portfolios (i.e. net of IGT) within the scope of group supervision which must be reported and the other part of the reporting shall include the detailed list of the portfolios held by subsidiaries and their profitability by asset category.

The first part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- Gains/ income and losses of portfolios held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported portfolio by portfolio, each by asset category;

**▼B**

— Gains / income and losses of portfolios held undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported portfolio by portfolio, each by asset category;

— Gains / income and losses of portfolios held by other related undertakings shall not be included;

The second part of the reporting shall be made as follows:

— Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;

— Gains / income and losses of portfolios held by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported portfolio by portfolio, each by asset category;

— Gains / income and losses of portfolios held by subsidiaries (EEA, equivalent non-EEA, non-equivalent non-EEA) shall be reported portfolio by portfolio, each by asset category;

— Gains / income and losses of portfolios held by other related undertakings shall not be included.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

**S.10.01 — Securities lending and repos****General comments:**

This section relates to annual submission of information for groups.

This template contains an item-by-item list of securities lending transactions and repurchase agreements (buyer and seller) contracts, which include also the liquidity swaps referred to in Article 309 (2)(f) of the Delegated Regulation (EU) 2015/35.

It shall be reported only when the value of the underlying securities on and off balance sheet involved in lending or repurchase agreements, with maturity date falling after the reporting reference date represent more than 5 % of the total investments as reported in C0010/R0070 and C0010/R0220 of template S.02.01. when method 1 as defined in Article 230 of Directive 2009/138/EC is used exclusively. When method 1 is used in combination with method 2 as defined in Article 233 of Directive 2009/138/EC or method 2 is used exclusively the ratio needs to be adjusted in order to capture the items of all entities included in the scope of template S.06.02.

All contracts that are on the balance sheet or off balance sheet shall be reported. The information shall include all contracts in the reporting period regardless of whether they were open or closed at the reporting date. For contracts which are part of a roll-over strategy, where they substantially are the same transaction, only open positions shall be reported.

A repurchase agreement (repo) is defined as the sale of securities together with an agreement for the seller to buy back the securities at a later date. Securities lending is defined as the lending of securities by one party to another, which requires that the borrower provides the lender with collateral.

**▼B**

Items shall be reported with positive values unless otherwise stated in the respective instructions.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

Each repo and securities lending contract shall be reported in as many rows as needed to provide the information requested. If for one item one option fits one part of the instrument being reported and a different option fits the other part then the contract needs to be unbundled unless is stated otherwise in the instructions.

The template is applicable for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the repos and securities lending contracts net of intra-group transactions held within the scope of group supervision. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- The repurchase agreements and securities lending contracts held by other related undertakings shall not be included.

Where method 2 is used exclusively, the reporting shall include the detailed list of the repos and securities lending contracts held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and its subsidiaries, regardless of the proportional share used. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item;
- The repurchase agreements and securities lending contracts held by other related undertakings shall not be included.

**▼ B**

Where a combination of methods 1 and 2 is used, one part of the reporting shall reflect the consolidated position of the repos and securities lending contracts, net of intra-group transactions, held within the scope of group supervision which must be reported and the other part of the reporting shall include the detailed list of the repos and securities lending contracts held by the participating undertakings, the insurance holding companies or mixed-financial holding companies and its subsidiaries, regardless of the proportional share used.

The first part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- The repurchase agreements and securities lending contracts held by other related undertakings shall not be included.

The second part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies under method 2 shall be reported item by item;
- The repurchase agreements and securities lending contracts held directly (i.e. not on a look-through basis) by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries under method 2 (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item;
- The repurchase agreements and securities lending contracts held by other related undertakings under method 2 shall not be included.

**S.11.01 — Assets held as collateral****General comments:**

This section relates to annual submission of information for groups.

This template contains an item-by-item list of off-balance sheet assets held as collateral for covering balance sheet.

It consists of detailed information from the perspective of the assets held as collateral and not from the perspective of the collateral arrangement.

If there is a pool of collaterals or a collateral arrangement comprising multiple assets, as many rows as the assets in the pool or arrangement shall be reported.

This template comprises two tables: Information on positions held and Information on assets.

On the table Information on positions held, each asset held as collateral shall be reported separately in as many rows as needed in order to properly fill in all variables requested in that table. If for the same asset two values can be attributed to one variable, then this asset needs to be reported in more than one line. ► **M3** Real estate held as collateral of the mortgages related to individuals shall be reported in one single line. ◀

On the table Information on assets, each asset held as collateral shall be reported separately, with one row for each asset, filling in all variables requested in that table.

**▼ B**

All items except items ‘Type of asset for which the collateral is held’ (C0140), ‘Name of the counterparty pledging the collateral’ (C0060) and ‘Name of the group of the counterparty pledging the collateral’ (C0070) relate to information on the assets held as collateral. Item C0140 relates to the asset on the balance sheet for which the collateral is held while items C0060 and C0070 relate to the counterparty pledging the collateral.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

The template is applicable for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the assets held as collateral within the scope of group supervision net of intra-group transactions. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;

**▼ M1**

- The assets held directly (i.e. not on a look-through basis) as collateral by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The assets held directly (i.e. not on a look-through basis) as collateral by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) in of Delegated Regulation (EU) 2015/35 shall be reported item by item;

**▼ B**

- The assets held as collateral by other related undertakings shall not be included.

Where method 2 is used exclusively, the reporting shall include the detailed list of the assets held as collateral by the participating undertakings, the insurance holding companies and subsidiaries, regardless of the proportional share used. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;

**▼ M1**

- The assets held directly (i.e. not on a look-through basis) as collateral by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies under method 2 shall be reported item by item;
- The assets held directly (i.e. not on a look-through basis) as collateral by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;

**▼ B**

- The assets held as collateral by other related undertakings shall not be included.

Where a combination of methods 1 and 2 is used, one part of the reporting shall reflect the consolidated position of the assets held as collateral within the scope of group supervision, net of intra-group transactions, which must be reported and the other part of the reporting shall include the detailed list of the assets held as collateral by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries, regardless of the proportional share used.

The first part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;

**▼ M1**

- The assets held directly (i.e. not on a look-through basis) as collateral by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The assets held directly (i.e. not on a look-through basis) as collateral by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) in of Delegated Regulation (EU) 2015/35 shall be reported item by item;

**▼ B**

- The assets held as collateral by other related undertakings shall not be included.

The second part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;

**▼ M1**

- The assets held directly (i.e. not on a look-through basis) as collateral by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The assets held directly (i.e. not on a look-through basis) as collateral by insurance and reinsurance undertakings, insurance holding companies, ancillary services undertakings and special purpose vehicle which are subsidiaries under method 2 (European Economic Area, equivalent non-European Economic Area and non-equivalent non-European Economic Area) shall be reported item by item by undertaking;

**▼ B**

- The assets held as collateral by other related undertakings under method 2 shall not be included.

**S.15.01 — Description of the guarantees of variable annuities****General comments:**

This section relates to annual submission of information for groups.

This template shall only be reported by groups in relation to the direct business and only for those entities outside the EEA that have variable annuities portfolios.

Variable annuities are unit-linked life insurance contracts with investment guarantees which, in exchange for single or regular premiums, allow the policyholder to benefit from the upside of the unit but be partially or totally protected when the unit loses value.

If Variable Annuities policies are split between two insurance undertakings, for instance a life company and a non-life company for the variable annuities guarantee, the company with the guarantee shall report this template. Only one row per product shall be reported.

This is not to be reported in case the undertaking has no hedging program itself, but only reinsures the guarantee part. ◀</p>

**S.22.01 — Impact of long term guarantees measures and transitionals****General comments:**

This section relates to annual submission of information for groups.

This template is relevant when at least one long term guarantee measure or transitional is used by any undertaking within the scope of group supervision.

This template shall reflect the impact on the financial positions when no transitional is used and each LTG measures or transitional is set to zero. For that purpose, a step-by-step approach should be followed taking out each transitional and LTG measure one by one and without recalculating the impact of the remaining measures after each step. ► **M2** As it is possible within a group for both types of transitional measure to be applied the template follows a cumulative step by step approach. ◀

**▼ B**

The impacts need to be reported positive if they increase the amount of the item being reported and negative if they decrease the amount of the item (e.g. if amount of SCR increases or if amount of Own Funds increases then positive values shall be reported).

The amounts reported in this template shall be net of Intra Group Transactions.

	ITEM	INSTRUCTIONS
		<p>According to Article 222(4) of the Directive 2009/138/EC, the total non available own funds is calculated, undertaking by undertaking, by adding up own funds indicated in Article 222(2) of the directive (i.e. surplus funds and any subscribed but not paid-up capital) and in Article 330 of Delegated Regulation (EU) 2015/35 (i.e. ancillary own funds, preference shares, subordinated mutual member account, subordinated liabilities and the value of net deferred tax assets). The part of such own funds that exceeds the contribution of the related undertaking to the group SCR cannot be considered as available for covering the group SCR.</p> <p>If the total amount of such own funds does not exceed the contribution of the related undertaking to the group SCR, such limitation doesn't apply.</p>

**S.25.01 — Solvency Capital Requirement — for groups on Standard Formula****General comments:**

This section relates to opening and annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.25.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of template S.01.03.

Template SR.25.01 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

Where the entity has MAP or RFF (except those under the scope of Article 304 of Directive 2009/138/EC) when reporting at the level of the whole undertaking, the notional Solvency Capital Requirement ("nSCR") at risk module level and the loss-absorbing capacity (LAC) of technical provisions and deferred taxes to be reported shall be calculated as follows:

- Where the undertaking applies the full adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level the nSCR is calculated as if no loss of diversification exists and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part;
- Where the undertaking applies the Simplification at risk sub-module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR is calculated considering a direct summation at sub-module level method and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part,

**▼B**

- Where the undertaking applies the simplification at risk module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR is calculated considering a direct summation at module level method and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part.

The adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level shall be allocated (C0050) to the relevant risk modules (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk). The amount to be allocated to each relevant risk module shall be calculated as follows:

**▼M1**

- Calculation of 'q factor' =  $\frac{adjustment}{BSCR' - nSCR_{int}}$ , where

— *adjustment* = Adjustment calculated according to one of the three methods referred above

— *BSCR'* = Basic solvency capital requirement calculated according to the information reported in this template (C0040/R0100)

— *nSCR<sub>int</sub>* = nSCR for intangible assets risk according to the information reported in this template (C0040/R0070)

**▼B**

- Multiplication of this 'q factor' by the nSCR of each relevant risk module (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk)

For group reporting the following specific requirements shall be met:

- a) The information until R0460 is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- b) When combination method is being used, the information until R0460 is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC.

### S.25.02 — Solvency Capital Requirement — for groups using the standard formula and partial internal model

#### General comments:

This section relates to opening and annual submission of information for groups, ring fenced–funds, matching adjustment portfolios and remaining part.

The components to be reported shall be agreed between national supervisory authorities and groups.

Template SR.25.02 shall be reported by ring–fenced fund, matching adjustment portfolio and the remaining part for every group under a partial internal model. This includes undertakings where a partial internal model is applied to a full ring–fenced fund and/or matching adjustment portfolio while the other ring–fenced funds and/or matching adjustment portfolios are under the standard formula. This template shall be reported for all sub–funds of a material RFF/MAP as identified in the second table of S.01.03

Template SR.25.02 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation–based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

**▼ B**

For those undertakings under a partial internal model to which the adjustment due to the aggregation of the nSCR of RFF/MAP is applicable, where the entity has MAP or RFF (except those under the scope of Article 304 of Directive 2009/138/EC) when reporting at the level of the whole undertaking, the nSCR at risk module level and the loss-absorbing capacity (LAC) of technical provisions and deferred taxes to be reported shall be calculated as follows:

- Where the undertaking applies the full adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level: the nSCR is calculated as if no RFF and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part;
- Where the undertaking applies the Simplification at risk sub-module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR and LAC are calculated considering a direct summation at sub-module level method,
- Where the undertaking applies the Simplification at risk module level to aggregate the nSCR of the RFF/MAP at entity level the nSCR and LAC are calculated considering a direct summation at module level method.

The adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level shall be allocated (C0060) to the relevant risk modules (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk) when calculated according to the standard formula. The amount to be allocated to each relevant risk module shall be calculated as follows:

- Calculation of 'q factor' =  $\frac{adjustment}{BSCR' - nSCR_{int}}$ , where
  - *adjustment* = Adjustment calculated according to one of the three methods referred above
  - *BSCR'* = Basic solvency capital requirement calculated according the information reported in this template
  - *nSCR<sub>int</sub>* = nSCR for intangible assets risk according to the information reported in this template
- Multiplication of this 'q factor' by the nSCR of each relevant risk module (i.e. market risk, counterparty default risk, life underwriting risk, health underwriting risk and non-life underwriting risk)

For group reporting the following specific requirements shall be met:

- c) The information until R0470 is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- d) When combination method is being used, the information until R0470 is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC.

**S.25.03 — Solvency Capital Requirement — for groups using full internal model****General comments:**

This section relates to opening and annual submission of information for groups, ring fenced–funds, matching adjustment portfolios and remaining part.

The components to be reported shall be agreed between national supervisory authorities and groups.

Template SR.25.03 has to be filled in for each ring–fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part for every group under a full internal model. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub–funds of a material RFF/MAP as identified in the second table of S.01.03.

Template SR.25.03 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation–based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

For group reporting the following specific requirements shall be met:

- e) The information until R0470 is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- f) When combination method is being used, the information until R0470 is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC.

**S.26.01 — Solvency Capital Requirement — Market risk****General comments:**

This section relates to annual submission of information for groups, ring fenced-funds, matching adjustment portfolios and remaining part.

The template SR.26.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

Template SR.26.01 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

For group reporting the following specific requirements shall be met:

- a) This information is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- b) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC, and;
- c) This information does not apply to groups when method 2 as defined in Article 233 of Directive 2009/138/EC is being used exclusively.

**S.26.02 — Solvency Capital Requirement — Counterparty default risk****General comments**

This section relates to annual submission of information for groups, ring fenced—funds, matching adjustment portfolios and remaining part.

Template SR.26.02 has to be filled in for each ring–fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub–funds of a material RFF/MAP as identified in the second table of S.01.03.

Template SR.26.02 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation–based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

For group reporting the following specific requirements shall be met:

- a) This information is applicable when method 1 as defined in Article 230 of Solvency II Directive is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- b) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC, and;
- c) This information does not apply to groups when method 2 as defined in Article 233 of Directive 2009/138/EC is being used exclusively.

This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

**▼B**

Template SR.26.03 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

All values shall be reported net of reinsurance and other risk mitigating techniques.

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

For group reporting the following specific requirements shall be met:

- a) This information is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- b) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC, and;
- c) This information does not apply to groups when method 2 as defined in Article 233 of Directive 2009/138/EC is being used exclusively.

**S.26.04 — Solvency Capital Requirement — Health underwriting risk****General Comments:**

This section relates to annual submission of information for groups, ring fenced—funds, matching adjustment portfolios and remaining part.

Template SR.26.04 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

Template SR.26.04 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

All values shall be reported net of reinsurance and other risk mitigating techniques.

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

For group reporting the following specific requirements shall be met:

- a) This information is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- b) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC, and;
- c) This information does not apply to groups when method 2 as defined in Article 233 of Directive 2009/138/EC is being used exclusively.

**S.26.05 — Solvency Capital Requirement — Non-Life underwriting risk****General comments:**

This section relates to annual submission of information for groups, ring fenced-funds, matching adjustment portfolios and remaining part.

Template SR.26.05 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

Template SR.26.05 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

All values shall be reported net of reinsurance and other risk mitigating techniques.

Amounts before and after shock shall be filled in with the amount of assets and liabilities sensitive to that shock. For the liabilities the assessment shall be done at the most granular level available between contract and homogeneous risk group. This means that if a contract/HRG is sensitive to a shock the amount of liabilities associated to that contract/HRG shall be reported as amount sensitive to that shock.

For group reporting the following specific requirements shall be met:

- a) This information is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;

**▼ B**

- b) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC, and;
- c) This information does not apply to groups when method 2 as defined in Article 233 of Directive 2009/138/EC is being used exclusively.

**S.27.01 — Solvency Capital Requirement — Non-life and health catastrophe risk****General comments:**

This section relates to annual submission of information for groups, ring fenced—funds, matching adjustment portfolios and remaining part.

Template S.27.01 has to be filled in for each ring-fenced fund (RFF), each matching adjustment portfolio (MAP) and for the remaining part. However, where a RFF/MAP includes a MAP/RFF embedded, the fund should be treated as different funds. This template shall be reported for all sub-funds of a material RFF/MAP as identified in the second table of S.01.03.

Template SR.27.01 is only applicable in relation to RFF/MAP from undertakings consolidated according to Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35, when method 1 (Accounting consolidation-based method) is used, either exclusively or in combination with method 2 (Deduction and aggregation method).

This template is designed to allow an understanding of how the catastrophe risk module of the SCR has been calculated and what are the main drivers.

For every type of catastrophe risk the risk mitigating effect of the undertaking's specific reinsurance contracts and special purpose vehicles must be determined. This calculation is prospective and must be based on the reinsurance program of the next reporting year as described in the reinsurance templates for Facultative covers (S.30.01 and S.30.02 of Annex II) and Outgoing reinsurance program in the next reporting year (S.30.03 and S.30.04 of Annex II).

Undertakings need to estimate their recoveries from risk mitigation in line with the Directive 2009/138/EC, Delegated Regulation (EU) 2015/35 and any relevant technical standard. Undertakings shall complete the catastrophe reporting template only to the granularity required to perform this calculation.

Under the non-life and health underwriting risk modules, catastrophe risk is defined as the risk of loss, or of adverse change in the value of insurance liabilities, resulting from significant uncertainty of pricing and provisioning assumptions related to extreme or exceptional events as set out in Article 105(2)(b) and (4)(c) of the Directive 2009/138/EC.

The reported capital requirements reflects the capital requirements before and after risk mitigation which is the risk mitigating effect of the undertaking's specific reinsurance contracts and special purpose vehicles. The reported capital requirement after risk mitigation is before the loss absorbing capacity of technical provisions. The default value of the risk mitigation shall be reported as a positive value in order to be deducted.

**▼B**

In case the diversification effect reduces the capital requirement the default value of the diversification shall be reported as a negative value.

For group reporting the following specific requirements shall be met:

- d) This information is applicable when method 1 as defined in Article 230 of Directive 2009/138/EC is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- e) When combination method is being used, this information is to be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC, and;
- f) This information does not apply to groups when method 2 as defined in Article 233 of Directive 2009/138/EC is being used exclusively.

**S.31.01 — Share of reinsurers (including Finite Reinsurance and SPV's)****General comments:**

This section relates to annual submission of information for groups.

**▼B**

This template shall be filled by the insurance and reinsurance groups where a recoverable is recognised by related insurance undertakings in relation to the EEA or Non-EEA-reinsurer which is not in the scope of the group (even if all contracts with that reinsurer have terminated) and whose reinsurer is reducing the gross technical provisions as per end of the reporting year.

The template collects information on reinsurers and not on separate treaties. All ceded technical provisions, including those ceded under Finite reinsurance (as defined in S.30.03 Column C0060 of Annex II), shall be completed. This also means that if an SPV or a syndicate of Lloyd's acts as a reinsurer the SPV or the syndicate must be listed.

**S.31.02 — Special Purpose Vehicles****General comments:**

This section relates to annual submission of information for groups.

This template is relevant for each group transferring risk(s) to a Special Purpose Vehicle (SPV), to ensure sufficient disclosure has been made where SPVs are used as alternative risk transfer methods to traditional reinsurance treaties.

The template applies to the use of:

- e) SPVs defined under Article 13 (26) and authorised under Article 211 (1) of Directive 2009/138/EC;
- f) SPVs meeting conditions of Article 211 (3) of Directive 2009/138/EC;
- g) SPVs regulated by third country supervisors where these meet equivalent measures to the conditions set out in Article 211 (2) of Directive 2009/138/EC;
- h) Other SPVs, not meeting the definitions above, where risks are transferred under arrangements with the economic substance of a reinsurance contract.

The template covers risk mitigation techniques (recognised or not) carried out by the (re)insurance undertaking within the scope of group supervision whereby a SPV assumes risks from the undertaking within the scope of group supervision through a reinsurance contract; or assume insurance risks from the undertaking within the scope of group supervision transferred through a similar arrangement that is 'reinsurance like'.

This template shall include data of special purpose vehicles to which the participating insurance or reinsurance undertaking or one of its insurance or reinsurance subsidiaries has transferred risk.

**S.36.01 — IGT — Equity-type transactions, debt and asset transfer****General comments:**

This section relates to annual submission of information for groups.

The purpose of this template is to collect information on all (significant, very significant and transactions required to be reported in all circumstances) IGTs related to equity, debt, reciprocal financing and asset transfers related transactions within a group identified according to Article 213(2)(a) to (c) of Directive 2009/138/EC. These include, but are not limited to:

- equity and other capital items including participations in related entities and transfer shares of related entities of the group;
- debt including bonds, loans, collateralised debt, and other transactions of similar nature e.g. with periodic pre-determined interest or coupon or premium payments for a pre-determined period of time.
- other asset transfer such as transfer of properties and transfer of shares of other companies unrelated (i.e. outside) to the group.

**▼M1****▼B**

This template shall include IGTs that were:

- in-force at the start of the reporting period.
- inception during the reporting period and outstanding at the reporting date.
- inception and expired/matured during the reporting period.

Where similar transactions with a related entity may be excluded from IGT reporting when considered individually against the thresholds for significant and very significant, these transactions must nevertheless be individually reported where collectively they are at or above the corresponding threshold values for significant or very significant IGTs.

**▼ B**

Each transaction shall be reported separately.

Any additions / top-ups to significant IGTs shall be reported as a separate IGT, even if the top-up in its own right falls below the significant threshold limit. For example, if an undertaking increases the initial loan amount to another related undertaking the addition to the loan should be recorded as a separate item with its issue date as the date of the top-up.

Where the transaction value is different for two transacting parties (e.g. a EUR 10 m transaction between A and B where A records EUR 10 m but B only receive EUR 9,5 m because of transactions costs, of say EUR 0,5 m has been expensed) the template shall record the maximum amount as the transaction amount, in this case EUR 10 m.

Where there is a chain of related IGTs (say A invests in B and B invests in C), each link of the chain needs to be reported as a separate IGT.

	ITEM	INSTRUCTIONS
C0110	Transaction Trade date	Identify the ISO 8601 (yyyy-mm-dd) code of the date of the transaction/trade of the derivative contract. For rolled contracts use the initial trade date.
C0120	Maturity date	Identify the ISO 8601 (yyyy-mm-dd) code of the contractually defined date of close of the derivative contract, whether at maturity date, expiring date for options (European or American), etc.
C0130	Currency	Where applicable, identify the ISO 4217 alphabetic code of the currency of the derivative, i.e. currency of the notional amount of the derivative (e.g.: option having as underlying an amount in USD). This item is not applicable for currency swap.
C0140	Notional amount at transaction date	The amount covered or exposed to the derivative at the transaction date, reported in the reporting currency of the group.  For futures and options, corresponds to contract size multiplied by the number of contracts. For swaps and forwards, corresponds to the contract amount.
C0150	Notional amount at reporting date	The amount covered or exposed to the derivative at the reporting date, i.e. the closing balance, reported in the reporting currency of the group.  For futures and options, corresponds to contract size multiplied by the number of contracts. For swaps and forwards, corresponds to the contract amount. Where a transaction has matured/expired during the reporting period before the reporting date, the notional amount at the reporting date will be zero.
C0160	Value of collateral	Value of the collateral pledged on reporting date (zero if derivative has been closed) if applicable, reported in the reporting currency of the group.  If either one of the counter-parties involved in the IGTs is valued in accordance with the Solvency II valuations rules as part of the group solvency calculation then the Solvency II value should be used to value the collateral. At minimum (not an exhaustive list), collateral between the following entities is expected to be valued in accordance with the Solvency II valuation principles:  — EEA insurance and reinsurance undertakings  — EEA Insurance holding companies and mixed financial holding companies.  — Third country insurance, reinsurance, insurance holding companies and mixed financial holding companies included in the group solvency calculation through method 1.  — Third country insurance, reinsurance, insurance holding companies and mixed financial holding companies included in the group solvency calculation through method 2 based in non-equivalent regimes.  Collateral arrangement between other types of undertakings, e.g. IGTs between two credit institutions within a group, may be valued in accordance with the sectoral rules.

**S.36.03 — IGT — Internal reinsurance****General comments:**

This section relates to annual submission of information for groups.

The purpose of this template is to collect information on all IGTs (significant, very significant and transactions required to be reported in all circumstances) related to internal reinsurance within a group identified according to Article 213(2)(a) to (c) of Directive 2009/138/EC. These include, but not limited to:

- reinsurance treaties between related undertakings of a group;
- facultative reinsurance between related undertakings of a group; and
- any other transaction that results in transferring underwriting risk (insurance risk) between related undertakings of a group..

**▼ M1**

\_\_\_\_\_

**▼ B**

This template shall include IGTs that were:

- in-force at the start of the reporting period.
- incepted during the reporting period and outstanding at the reporting date.
- incepted and expired/matured during the reporting period.

**▼ B**

Where similar transactions with a related entity may be excluded from IGT reporting when considered individually against the thresholds for significant and very significant, these transactions must nevertheless be individually reported where collectively they are at or above the corresponding threshold values for significant or very significant IGTs.

Each transaction shall be reported separately. Undertakings shall report as many rows as needed to properly identify the transaction, including if different types of reinsurance contracts/ treaties are used.

Any additions / top-ups to significant IGTs shall be reported as a separate IGT, even if the top-up in its own right falls below the significant threshold limit. For example, if an undertaking increases the initial loan amount to another related undertaking the addition to the loan should be recorded as a separate item with its issue date as the date of the top-up.

Where the transaction value is different for two transacting parties (e.g. a EUR 10 m transaction between A and B where A records EUR 10 m but B only receive EUR 9,5 m because of transactions costs, of say EUR 0,5 m has been expensed) the template should record the maximum amount as the transaction amount, in this case EUR 10 m.

Where there is a chain of related IGTs (say A invests in B and B invests in C), each link of the chain needs to be reported as a separate IGT.

**S.37.01 — Risk concentration****General comments:**

This section relates to annual submission of information for groups.

This template shall include all significant risk concentrations between entities in scope of group supervision and third parties, irrespective of the choice of calculation method or whether sectoral solvency rules have been used for the purposes of the group solvency calculation.

The aim is to list the most important exposure (value of the exposure) by counterparty and by type of exposure (group or/and entity) outside the scope of the re/insurance group (maximum exposure per contract and if a reinsurer fails; off balance sheet risk concentration). It can be understood as the maximum possible exposure on a contractual basis and not necessarily be reflected on the balance sheet, but not taking into account any risk mitigation instruments or techniques. Thresholds can be fixed by the group supervisor after consulting the group itself and the college.
