- For the direct insurance business for the lines of business 'Medical expense', 'Income protection', 'Workers' compensation', 'Fire and other damage to property' and 'Credit and suretyship' information shall be disclosed by country where the risk is situated as defined in Article 13 (13) of Directive 2009/138/EC;
- For direct insurance business for all other lines of business, information shall be disclosed by country where the contract was entered into;
- For proportional and non-proportional reinsurance information shall be disclosed by country of localisation of the ceding undertaking.

For the purposes of this template 'country where the contract was entered into' means:

- (a) The country where the insurance undertaking is established (home country) when the contract was not sold through a branch or freedom to provide services;
- (b) The country where the branch is located (host country) when the contract was sold through a branch;
- (c) The country where the freedom to provide services was notified (host country) when the contract was sold through freedom to provide services.
- (d) If an intermediary is used or in any other situation, it is a), b) or c) depending on who sold the contract.

S.12.01 — Life and Health SLT Technical Provisions

General comments:

This section relates to annual disclosure of information for individual entities.

Undertakings may apply appropriate approximations in the calculation of the technical provisions as referred to in Article 21 of Delegated Regulation (EU) 2015/35. In addition, Article 59 of the Delegated Regulation (EU) 2015/35 may be applied to calculate the risk margin during the financial year.

Line of Business for life obligations: The lines of business, referred to in Article 80 of the Directive 2009/138/EC, as defined in the Annex I of Delegated Regulation (EU) 2015/35. The segmentation shall reflect the nature of the risks underlying the contract (substance), rather than the legal form of the contract (form). By default, where an insurance or reinsurance contract covers risks across the lines of business undertakings shall, where possible, unbundled the obligations into the appropriate lines of business (Article 55 of Delegated Regulation (EU) 2015/35).

Lines of business ‘Index-linked and unit-linked insurance’, ‘Other life insurance’ and ‘Health insurance’ are split between ‘Contracts without options and guarantees’ and ‘Contracts with options or guarantees’. For this split the following should be considered:

- ‘Contracts without options and guarantees’ should include the amounts related to contracts without any financial guarantees or contractual options, meaning that the technical provision calculation does not reflect the amount of any financial guarantees or contractual options.
- Contracts with non-material contractual options or financial guarantees that are not reflected in the technical provisions calculation should also be disclosed in this column;
- ‘Contracts with options or guarantees’ should include contracts that have either financial guarantees, contractual options, or both as far as the technical provision calculation reflect the existence of those financial guarantees or contractual options.

The information disclosed should be gross of reinsurance as information on Recoverables from reinsurance/SPV and Finite reinsurance is requested in specific rows.

The information to be disclosed between R0010 and R0100 shall be after the volatility adjustment, the matching adjustment and the transitional adjustment to the relevant risk-free interest rate term structure if applied but shall not include the transitional deduction to technical provisions. The amount of transitional deduction to technical provisions is requested separately between rows R0110 and R0130.

This section relates to annual disclosure of information for individual entities.

Undertakings may apply appropriate approximations in the calculation of the technical provisions as referred to in Article 21 of Delegated Regulation (EU) 2015/35. In addition, Article 59 of the Delegated Regulation 2015/35 may be applied to calculate the risk margin during the financial year.

Line of Business for non-life obligations: The lines of business, referred to in Article 80 of the Directive 2009/138/EC, as defined in the Annex I of Delegated Regulation (EU) 2015/35 referred to direct business/accepted proportional reinsurance and accepted non-proportional reinsurance. The segmentation shall reflect the nature of the risks underlying the contract (substance), rather than the legal form of the contract (form).

Health direct insurance business other than that pursued on a similar basis to that of life insurance shall be segmented into Non-Life lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, 1 to 3.

Accepted proportional reinsurance shall be considered together with the direct business in the C0020 to C0130.

The information to be disclosed between R0010 and R0280 shall be after volatility adjustment, matching adjustment and transitional adjustment to the relevant risk-free interest rate term structure if applied but shall not include the transitional deduction to technical provisions. The amount of transitional deduction to technical provisions is requested separately between rows R0290 and R0310.

S.19.01. — Non–life insurance claims

This section relates to annual disclosure of information for individual entities.

Claims development triangles show the insurer's estimate of the cost of claims (claims paid and claims provisions under Solvency II valuation principle) and how this estimate develops over time.

Undertakings are required to disclose data on an accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use then the undertaking may use accident or underwriting year according to how they manage each line of business, provided that they use the same year consistently, year on year.

This template shall be disclosed for the total for non–life business but split by underwriting year and accident year if different bases are used by the undertaking.

The default length of run–off triangle is 10+1 years but the disclosure requirement is based on the undertakings' claims development (if length of the claims settlement cycle is shorter than 10 years, undertakings are required to disclose according to the internal shorter development).

Historical data, starting from the first time application of Solvency II, are required for claims paid (i.e. the complete set shall be disclosed,) but not for Best Estimate of Claims Provision. For the compilation of the historical data for claims paid the same approach concerning the length of triangle for the on–going disclosure will be applied (i.e. the shorter between 10+1 years and the undertakings' claims settlement cycle).

S.22.01 — Impact of long term guarantees measures and transitionals

General comments:

This template relates to annual disclosure of information for individual entities.

This template is relevant when at least one long term guarantee measure or transitional is used by the undertaking.

This template shall reflect the impact on the financial positions when no transitional is used and each LTG measures or transitional is set to zero. For that purpose, a step-by-step approach should be followed taking out each transitional and LTG measure one by one and without recalculating the impact of the remaining measures after each step.

The impacts need to be disclosed positive if they increase the amount of the item being disclosed and negative if they decrease the amount of the item (e.g. if amount of SCR increases or if amount of Own Funds increases then positive values should be disclosed).

This section relates to annual disclosure of information for individual entities.

In particular, S.28.01 is to be submitted by insurance and reinsurance undertakings other than insurance undertakings engaged in both life and non-life insurance activity. These undertakings shall submit S.28.02 instead.

This template shall be completed on the basis of Solvency II valuation, i.e. written premiums are defined as the premiums due to be received by the undertaking in the period (as defined in article 1(11) of Delegated Regulation (EU) 2015/35).

All references to technical provisions address technical provisions after application of Long Term Guarantee measures and transitionals.

The calculation of MCR combines a linear formula with a floor of 25 % and a cap of 45 % of the SCR. The MCR is subject to an absolute floor depending on the nature of the undertaking (as defined in Article 129 (1) (d) of the Directive 2009/138/EC).

S.28.02. — Minimum Capital Requirement — Both life and non-life insurance activity

General comments:

This section relates to annual disclosure of information for individual entities.

In particular, S.28.02 is to be submitted by insurance undertakings engaged in both life and non-life insurance activity. Insurance and reinsurance undertakings other than insurance undertakings engaged in both life and non-life insurance activity shall submit S.28.01 instead.

This template shall be completed on the basis of Solvency II valuation, i.e. written premiums are defined as the premiums due to be received by the undertaking in the period (as defined in article 1(11) of Delegated Regulation (EU) 2015/35).

All references to technical provisions address technical provisions after application of Long Term Guarantee measures and transitionals.

The calculation of MCR combines a linear formula with a floor of 25 % and a cap of 45 % of the SCR. The MCR is subject to an absolute floor depending on the nature of the undertaking (as defined in Article 129 (1) (d) of the Directive 2009/138/EC).
