

Commission Delegated Regulation (EU) 2015/35 of 10 October 2014
supplementing Directive 2009/138/EC of the European Parliament
and of the Council on the taking-up and pursuit of the business of
Insurance and Reinsurance (Solvency II) (Text with EEA relevance)

TITLE I

VALUATION AND RISK-BASED CAPITAL REQUIREMENTS (PILLAR I), ENHANCED
GOVERNANCE (PILLAR II) AND INCREASED TRANSPARENCY (PILLAR III)

CHAPTER I

GENERAL PROVISIONS

SECTION 1

Definitions and general principles

- Article 1 Definitions
- Article 2 Expert judgement

SECTION 2

Technical standards

- Article 3 The PRA's powers to make technical standards and publish technical information
- Article 4 General requirements on the use of credit assessments
- Article 5 Issuers and issue credit assessment
- Article 6 Double credit rating for securitisation positions

CHAPTER II

VALUATION OF ASSETS AND LIABILITIES

- Article 7 Valuation assumptions
- Article 8 Scope
- Article 9 Valuation methodology — general principles
- Article 10 Valuation methodology — valuation hierarchy
- Article 11 Recognition of contingent liabilities
- Article 12 Valuation methods for goodwill and intangible assets
- Article 13 Valuation methods for related undertakings
- Article 14 Valuation methods for specific liabilities
- Article 15 Deferred taxes
- Article 16 Exclusion of valuation methods

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

CHAPTER III

RULES RELATING TO TECHNICAL PROVISIONS

SECTION 1

General provisions

- Article 17 Recognition and derecognition of insurance and reinsurance obligations
Article 18 Boundary of an insurance or reinsurance contract

SECTION 2

Data quality

- Article 19 Data used in the calculation of technical provisions
Article 20 Limitations of data
Article 21 Appropriate use of approximations to calculate the best estimate

SECTION 3

Methodologies to calculate technical provisions

Subsection 1

Assumptions underlying the calculation of technical provisions

- Article 22 General provisions
Article 23 Future management actions
Article 24 Future discretionary benefits
Article 25 Separate calculation of the future discretionary benefits
Article 26 Policyholder behaviour

Subsection 2

Information underlying the calculation of best estimates

- Article 27 Credibility of information

Subsection 3

Cash flow projections for the calculation of the best estimate

- Article 28 Cash flows
Article 29 Expected future developments in the external environment
Article 30 Uncertainty of cash flows
Article 31 Expenses
Article 32 Contractual options and financial guarantees
Article 33 Currency of the obligation
Article 34 Calculation methods
Article 35 Homogeneous risk groups of life insurance obligations
Article 36 Non-life insurance obligations

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

Subsection 4

Risk margin

- Article 37 Calculation of the risk margin
- Article 38 Reference undertaking
- Article 39 Cost-of-Capital rate

Subsection 5

Calculation of technical provisions as a whole

- Article 40 Circumstances in which technical provisions shall be calculated as a whole and the method to be used

Subsection 6

Recoverables from reinsurance contracts and special purpose vehicles

- Article 41 General provisions
- Article 42 Counterparty default adjustment

SECTION 4

Relevant risk-free interest rate term structure

Subsection 1

General provisions

- Article 43 General provisions

Subsection 2

Basic risk free interest rate term structure

- Article 44 Relevant financial instruments to derive the basic risk-free interest rates
- Article 45 Adjustment to swap rates for credit risk
- Article 46 Extrapolation
- Article 47 Ultimate forward rate
- Article 48 Basic risk-free interest rate term structure of currencies pegged to the euro

Subsection 3

Volatility adjustment

- Article 49 Reference portfolios
- Article 50 Formula to calculate the spread underlying the volatility adjustment
- Article 51 Risk-corrected spread

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

Subsection 4

Matching adjustment

- Article 52 Mortality risk stress
- Article 53 Calculation of the matching adjustment
- Article 54 Calculation of the fundamental spread

SECTION 5

Lines of business

- Article 55 Lines of business

SECTION 6

Proportionality and simplifications

- Article 56 Proportionality
- Article 57 Simplified calculation of recoverables from reinsurance contracts and special purpose vehicles
- Article 58 Simplified calculation of the risk margin
- Article 59 Calculations of the risk margin during the financial year
- Article 60 Simplified calculation of the best estimate for insurance obligations with premium adjustment mechanism
- Article 61 Simplified calculation of the counterparty default adjustment

CHAPTER IV

OWN FUNDS

SECTION 1

Determination of own funds

Subsection 1

Supervisory approval of ancillary own funds

- Article 62 Assessment of the application
- Article 63 Assessment of the application — Status of the counterparties
- Article 64 Assessment of the application — Recoverability of the funds
- Article 65 Assessment of the application — Information on the outcome of past calls
- Article 66 Specification of amount relating to an unlimited amount of ancillary own funds
- Article 67 Specification of amount and timing relating to the approval of a method

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

Subsection 2

Own funds treatment of participations

Article 68 Treatment of participations in the determination of basic own funds

SECTION 2

Classification of own funds

Article 69 Tier 1 — List of own-fund items
Article 70 Reconciliation Reserve
Article 71 Tier 1 — Features determining classification
Article 72 Tier 2 Basic own-funds — List of own-fund items
Article 73 Tier 2 Basic own-funds — Features determining classification
Article 74 Tier 2 Ancillary own-funds — List of own-fund items
Article 75 Tier 2 Ancillary own-funds — Features determining classification
Article 76 Tier 3 Basic own-funds— List of own-fund items
Article 77 Tier 3 Basic own-funds— Features determining classification
Article 78 Tier 3 Ancillary own-funds— List of own-funds items
Article 79 Supervisory Authorities approval of the assessment and classification of own-fund items

SECTION 3

Eligibility of own funds

Subsection 1

Ring-fenced funds

Article 80 Ring-fenced funds requiring adjustments
Article 81 Adjustment for ring-fenced funds and matching adjustment portfolios

Subsection 2

Quantitative limits

Article 82 Eligibility and limits applicable to Tiers 1, 2 and 3

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

Calculation of the basic solvency capital requirement

Article 87 The Basic Solvency Capital Requirement shall include a risk module...

Subsection 6

Proportionality and simplifications

Article 88 Proportionality

Article 89 General provisions for simplifications for captives

Article 90 Simplified calculation for captive insurance and reinsurance undertakings of the capital requirement for non-life premium and reserve risk

Article 90a Simplified calculation for discontinuance of insurance policies in the non-life lapse risk sub-module

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

Article 90b	Simplified calculation of the sum insured for natural catastrophe risks
Article 90c	Simplified calculation of the capital requirement for fire risk
Article 91	Simplified calculation of the capital requirement for life mortality risk
Article 92	Simplified calculation of the capital requirement for life longevity risk
Article 93	Simplified calculation of the capital requirement for life disability-morbidity risk
Article 94	Simplified calculation of the capital requirement for life-expense risk
Article 95	Simplified calculation of the capital requirement for permanent changes in lapse rates
Article 95a	Simplified calculation of the capital requirement for risks in the life lapse risk sub-module
Article 96	Simplified calculation of the capital requirement for life-catastrophe risk
Article 96a	Simplified calculation for discontinuance of insurance policies in the NSLT health lapse risk sub-module
Article 97	Simplified calculation of the capital requirement for health mortality risk
Article 98	Simplified calculation of the capital requirement for health longevity risk
Article 99	Simplified calculation of the capital requirement for medical expense disability-morbidity risk
Article 100	Simplified calculation of the capital requirement for income protection disability-morbidity risk
Article 101	Simplified calculation of the capital requirement for health expense risk
Article 102	Simplified calculation of the capital requirement for SLT health lapse risk
Article 102a	Simplified calculation of the capital requirement for risks in the SLT health lapse risk sub-module
Article 103	Simplified calculation of the capital requirement for interest rate risk for captive insurance or reinsurance undertakings
Article 104	Simplified calculation for spread risk on bonds and loans
Article 105	Simplified calculation for captive insurance or reinsurance undertakings of the capital requirement for spread risk on bonds and loans
Article 105a	Simplified calculation for the risk factor in the spread risk sub-module and the market risk concentration sub-module
Article 106	Simplified calculation of the capital requirement for market risk concentration for captive insurance or reinsurance undertakings
Article 107	Simplified calculation of the risk mitigating effect for reinsurance arrangements or securitisation
Article 108	Simplified calculation of the risk mitigating effect for proportional reinsurance arrangements
Article 109	Simplified calculations for pooling arrangements
Article 110	Simplified calculation — grouping of single name exposures
Article 111	Simplified calculation of the risk mitigating effect
Article 111a	Simplified calculation of the risk-mitigating effect on underwriting risk

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

- Article 112 Simplified calculation of the risk adjusted value of collateral to take into account the economic effect of the collateral
 Article 112a Simplified calculation of the loss-given-default for reinsurance
 Article 112b Simplified calculation of the capital requirement for counterparty default risk on type 1 exposures

Subsection 7

Scope of the underwriting risk modules

- Article 113 For the calculation of the capital requirements for non-life underwriting...

SECTION 2

Non-life underwriting risk module

- Article 114 Non-life underwriting risk module
 Article 115 Non-life premium and reserve risk sub-module
 Article 116 Volume measure for non-life premium and reserve risk
 Article 117 Standard deviation for non-life premium and reserve risk
 Article 118 Non-life lapse risk sub-module
 Article 119 Non-life catastrophe risk sub-module
 Article 120 Natural catastrophe risk sub-module
 Article 121 Windstorm risk sub-module
 Article 122 Earthquake risk sub-module
 Article 123 Flood risk sub-module
 Article 124 Hail risk sub-module
 Article 125 Subsidence risk sub-module
 Article 126 Interpretation of catastrophe scenarios
 Article 127 Sub-module for catastrophe risk of non-proportional property reinsurance
 Article 128 Man-made catastrophe risk sub-module
 Article 129 Motor vehicle liability risk sub-module
 Article 130 Marine risk sub-module
 Article 131 Aviation risk sub-module
 Article 132 Fire risk sub-module
 Article 133 Liability risk sub-module
 Article 134 Credit and suretyship risk sub-module
 Article 135 Sub-module for other non-life catastrophe risk

SECTION 3

Life underwriting risk module

- Article 136 Correlation coefficients
 Article 137 Mortality risk sub-module
 Article 138 Longevity risk sub-module
 Article 139 Disability-morbidity risk sub-module
 Article 140 Life-expense risk sub-module
 Article 141 Revision risk sub-module
 Article 142 Lapse risk sub-module
 Article 143 Life-catastrophe risk sub-module

SECTION 4

Health underwriting risk module

Article 144	Health underwriting risk module
Article 145	NSLT health underwriting risk sub-module
Article 146	NSLT health premium and reserve risk sub-module
Article 147	Volume measure for NSLT health premium and reserve risk
Article 148	Standard deviation for NSLT health premium and reserve risk
Article 149	Health risk equalisation systems
Article 150	NSLT health lapse risk sub-module
Article 151	SLT health underwriting risk sub-module
Article 152	Health mortality risk sub-module
Article 153	Health longevity risk sub-module
Article 154	Health disability-morbidity risk sub-module
Article 155	Capital requirement for medical expense disability-morbidity risk
Article 156	Capital requirement for income protection disability-morbidity risk
Article 157	Health expense risk sub-module
Article 158	Health revision risk sub-module
Article 159	SLT health lapse risk sub-module
Article 160	Health catastrophe risk sub-module
Article 161	Mass accident risk sub-module
Article 162	Accident concentration risk sub-module
Article 163	Pandemic risk sub-module

SECTION 5

Market risk module

Subsection 1

Correlation coefficients

Article 164	(1) The market risk module shall consist of all of...
-------------	---

Subsection 1a

Qualifying infrastructure investments

Article 164a	Qualifying infrastructure investments
Article 164b	Qualifying infrastructure corporate investments

Subsection 2

Interest rate risk sub-module

Article 165	General provisions
Article 166	Increase in the term structure of interest rates
Article 167	Decrease in the term structure of interest rates

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

Subsection 3

Equity risk sub-module

Article 168	General provisions
Article 168a	Qualifying unlisted equity portfolios
Article 169	Standard equity risk sub-module
Article 170	Duration-based equity risk sub-module
Article 171	Strategic equity investments
Article 171a	Long-term equity investments
Article 172	Symmetric adjustment of the equity capital charge
Article 173	Criteria for the use of transitional measure for standard equity risk

Subsection 4

Property risk sub-module

Article 174	The capital requirement for property risk referred to in point...
-------------	---

Subsection 5

Spread risk sub-module

Article 175	Scope of the spread risk sub-module
Article 176	Spread risk on bonds and loans
Article 176a	Internal assessment of credit quality steps of bonds and loans
Article 176b	Requirements for an undertaking's own internal credit assessment of bonds and loans
Article 176c	Assessment of credit quality steps of bonds and loans based on an approved internal model
Article 177	Spread risk on securitisation positions: general provisions
Article 178	Spread risk on securitisation positions: calculation of the capital requirement
Article 178a	Spread risk on securitisation positions: transitional provisions
Article 179	Spread risk on credit derivatives
Article 180	Specific exposures
Article 181	Application of the spread risk scenarios to matching adjustment portfolios

Subsection 6

Market risk concentrations sub-module

Article 182	Single name exposure
Article 183	Calculation of the capital requirement for market risk concentration
Article 184	Excess exposure
Article 185	Relative excess exposure thresholds
Article 186	Risk factor for market risk concentration
Article 187	Specific exposures

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. SECTION 9

Adjustment for the loss-absorbing capacity of technical provisions and deferred taxes

- Article 205 General provisions
- Article 206 Adjustment for the loss-absorbing capacity of technical provisions
- Article 207 Adjustment for the loss-absorbing capacity of deferred taxes

SECTION 10

Risk mitigation techniques

- Article 208 Methods and Assumptions
- Article 209 Qualitative Criteria
- Article 210 Effective Transfer of Risk
- Article 211 Risk-Mitigation techniques using reinsurance contracts or special purpose vehicles
- Article 212 Financial Risk-Mitigation techniques
- Article 213 Status of the counterparties
- Article 214 Collateral Arrangements
- Article 215 Guarantees

SECTION 11

Ring fenced funds

- Article 216 Calculation of the Solvency Capital Requirement in the case of ring-fenced funds and matching adjustment portfolios
- Article 217 Solvency Capital Requirement calculation method for ring-fenced funds and matching adjustment portfolios

SECTION 12

Undertaking-specific parameters

- Article 218 Subset of standard parameters that may be replaced by undertaking-specific parameters
- Article 219 Data criteria
- Article 220 Standardised methods to calculate the undertaking-specific parameters

SECTION 13

Procedure for updating correlation parameters

- Article 221 (1) The PRA must collect the quantitative undertaking-specific data necessary...

CHAPTER VI

SOLVENCY CAPITAL REQUIREMENT — FULL AND PARTIAL INTERNAL MODELS

SECTION 1

Definitions

Article 222 Materiality

SECTION 2

Use test

Article 223 Use of the internal model
Article 224 Fit to the business
Article 225 Understanding of the internal model
Article 226 Support of decision-making and integration with risk management
Article 227 Simplified calculation

SECTION 3

Statistical quality standards

Article 228 Probability distribution forecast
Article 229 Adequate, applicable and relevant actuarial techniques
Article 230 Information and assumptions used for the calculation of the probability distribution forecast
Article 231 Data used in the internal model
Article 232 Ability to rank risk
Article 233 Coverage of all material risks
Article 234 Diversification effects
Article 235 Risk-mitigation techniques
Article 236 Future management actions
Article 237 Understanding of external models and data

SECTION 4

Calibration standards

Article 238 (A1) Where insurance and reinsurance undertakings cannot derive the Solvency...

SECTION 5

Integration of partial internal models

Article 239 (1) In order to fully integrate a partial internal model...

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

SECTION 6

Profit and loss attribution

Article 240 (1) For the purpose of profit and loss attribution in...

SECTION 7

Validation standards

Article 241 Model validation process
Article 242 Validation tools

SECTION 8

Documentation standards

Article 243 General provisions
Article 244 Minimum content of the documentation
Article 245 Circumstances under which the internal model does not work effectively
Article 246 Changes to the internal model

SECTION 9

External models and data

Article 247 Insurance and reinsurance undertakings shall monitor any potential limitations arising...

CHAPTER VII

MINIMUM CAPITAL REQUIREMENT

Article 248 Minimum Capital Requirement
Article 249 Linear Minimum Capital Requirement
Article 250 Linear formula component for non-life insurance and reinsurance obligations
Article 251 Linear formula component for life insurance and reinsurance obligations
Article 252 Minimum Capital Requirement: composite insurance undertakings
Article 253 Absolute floor of the Minimum Capital Requirement

CHAPTER VIII

INVESTMENTS IN SECURITISATION POSITIONS

Article 254 Risk retention requirements relating to the originators, sponsors or original lenders
Article 255 Exemptions to risk retention requirements
Article 256 Qualitative requirements relating to insurance and reinsurance undertakings

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

Article 257 Requirements for investments in securitisation that no longer comply with the risk-retention and qualitative requirements

CHAPTER IX

SYSTEM OF GOVERNANCE

SECTION 1

Elements of the system of governance

Article 258 General governance requirements
Article 259 Risk Management System
Article 260 Risk management areas
Article 261 Risk management in undertakings providing loans and/or mortgage insurance or reinsurance
Article 261a Risk management for qualifying infrastructure investments or qualifying infrastructure corporate investments
Article 262 Overall solvency needs
Article 263 Alternative methods for valuation
Article 264 Valuation of technical provisions — validation
Article 265 Valuation of technical provisions — documentation
Article 266 Internal control system
Article 267 Internal control of valuation of assets and liabilities

SECTION 2

Functions

Article 268 Specific provisions
Article 269 Risk management function
Article 270 Compliance function
Article 271 Internal audit function
Article 272 Actuarial function

SECTION 3

Fit and proper requirements

Article 273 (1) Insurance and reinsurance undertakings shall establish, implement and maintain...

SECTION 4

Outsourcing

Article 274 (1) Any insurance or reinsurance undertaking which outsources or proposes...

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

SECTION 5

Remuneration policy

Article 275 (1) When establishing and applying the remuneration policy referred to...

CHAPTER X

CAPITAL ADD-ON

SECTION 1

Circumstances for imposing a capital add-on

Article 276 Assessment of a significant deviation as regards the SCR
Article 277 Assessment of a significant deviation as regards the governance
Article 278 Assessment of a significant deviation as regards adjustments to the relevant risk-free rate and transitional measures
Article 279 Add-ons in relation to deviations from Solvency Capital Requirement assumptions
Article 280 Assessment of the requirement to use an internal model
Article 281 Appropriate timeframe for adapting the internal model

SECTION 2

Methodologies for calculating capital add-ons

Article 282 Calculation of add-ons in relation to deviations from SCR assumptions
Article 283 Scope and approach of modifications as regards a deviation from SCR assumptions
Article 284 Calculation of add-ons in relation to adjustments to the relevant risk-free rate or transitional measures
Article 285 Scope and approach of modifications as regards adjustments to the relevant risk-free rate and transitional measures
Article 286 Calculation of add-ons in relation to deviations from governance standards
Article 287 Apportionment of add-ons for undertakings which simultaneously pursue life and non-life insurance activities

CHAPTER XI

EXTENSION OF THE RECOVERY PERIOD

Article 288 Assessment of exceptional adverse situations
Article 289 Factors and criteria to determine the extension of the recovery period

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. SECTION 2

Deadlines and means of communication

- Article 312 Deadlines
- Article 313 Means of communication
- Article 314 Transitional information requirements

CHAPTER XIV

TRANSPARENCY AND ACCOUNTABILITY OF SUPERVISORY AUTHORITIES

- Article 315 Confidential information
- Article 316 Aggregate statistical data
- Article 317 Means of disclosure

CHAPTER XV

SPECIAL PURPOSE VEHICLES

SECTION 1

Authorization

- Article 318 The authorisation of a special purpose vehicle by the supervisory...

SECTION 2

Mandatory contract conditions

- Article 319 Fully Funded
- Article 320 Effective transfer of risk
- Article 321 Rights of the providers of debt or financing mechanisms

SECTION 3

System of governance

- Article 322 Fit and proper requirements of persons who effectively run a special purpose vehicle
- Article 323 Fit and proper requirements for shareholders or members with a qualifying holding
- Article 324 Sound administrative and accounting procedures, adequate internal control mechanisms and risk-management requirements

SECTION 4

Supervisory reporting

- Article 325 Supervisory reporting

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

SECTION 5

Solvency requirements

- Article 326 Solvency requirements
- Article 327 Solvency requirements on investments

TITLE II

INSURANCE GROUPS

CHAPTER I

SOLVENCY CALCULATION AT GROUP LEVEL

SECTION 1

Group solvency: choice of calculation method and general principles

- Article 328 Choice of method
- Article 329 Treatment of specific related undertakings
- Article 330 Availability at group level of the eligible own funds of related undertakings

SECTION 2

Group solvency: calculation methods

- Article 331 Classification of own-fund items of related insurance and reinsurance undertakings at group level
- Article 332 Classification of own-fund items of related third-country insurance or reinsurance undertakings at group level
- Article 333 Classification of own-fund items of insurance holding companies, mixed financial holding companies, and subsidiary ancillary services undertakings at group level
- Article 334 Classification of own-fund items of residual related undertakings
- Article 335 Method 1: determination of consolidated data
- Article 336 Method 1: Calculation of the consolidated group Solvency Capital Requirement
- Article 337 Method 1: determination of the local currency for the purposes of the currency risk calculation
- Article 338 Method 1: group-specific parameters
- Article 339 Method 1: best estimate
- Article 340 Method 1: Risk margin
- Article 341 Combination of methods 1 and 2: minimum consolidated group Solvency Capital Requirement
- Article 342 Method 2: Elimination of intra-group creation of capital in relation to the best estimate

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. CHAPTER II

INTERNAL MODELS FOR THE CALCULATION OF THE CONSOLIDATED GROUP SOLVENCY CAPITAL REQUIREMENT

SECTION 1

Full and partial internal models used to calculate only the group solvency capital requirement

- Article 343 Application for the use of an internal model to calculate only the consolidated group Solvency Capital Requirement
- Article 344 Assessment of the application for the use of an internal model to calculate only the consolidated group Solvency Capital Requirement
- Article 345 Decision on the application and transitional plan to extend the scope of a partial internal model used to calculate only the consolidated group Solvency Capital Requirement
- Article 346 Use test for internal models used to calculate only the consolidated group Solvency Capital Requirement

SECTION 2

Use of a group internal model

- Article 347 Application to use a group internal model
- Article 348 Assessment of the completeness of an application to use a group internal model
- Article 349 Decision on the application and transitional plan to extend the scope of the model
- Article 350 Use test for group internal models

CHAPTER III

SUPERVISION OF GROUP SOLVENCY FOR GROUPS WITH CENTRALISED RISK MANAGEMENT

- Article 351 Assessment of conditions: criteria
- Article 352 Assessment of conditions: procedures
- Article 353 Assessment of an emergency situation: criteria

CHAPTER IV

COORDINATION OF GROUP SUPERVISION

SECTION 1

Group specific parameters

- Article 354 Definition of significant branches
- Article 355 Coordination arrangements
- Article 356 Supervisory approval of group-specific parameters

Changes to legislation: Commission Delegated Regulation (EU) 2015/35 is up to date with all changes known to be in force on or before 28 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations.
