

Commission Regulation (EU) 2016/583 of 15 April 2016 amending Regulation (EU) No 1332/2011 laying down common airspace usage requirements and operating procedures for airborne collision avoidance (Text with EEA relevance)

COMMISSION REGULATION (EU) 2016/583

of 15 April 2016

amending Regulation (EU) No 1332/2011 laying down common airspace usage requirements and operating procedures for airborne collision avoidance

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 216/2008 of the European Parliament and of the Council of 20 February 2008 on common rules in the field of civil aviation and establishing a European Aviation Safety Agency, and repealing Council Directive 91/670/EEC, Regulation (EC) No 1592/2002 and Directive 2004/36/EC⁽¹⁾, and in particular Article 8(5) and 9(4) thereof,

Whereas:

- (1) Commission Regulation (EU) No 1332/2011⁽²⁾ requires turbine-powered aeroplanes, with a maximum certificated take-off mass (MCTOM) of more than 5 700 kg or authorised to carry more than 19 passengers to be equipped with a new software version 7.1 of the airborne collision avoidance system (ACAS II) to avoid mid-air collision. This requirement also applies to operators of certain aeroplanes registered in a third country.
- (2) Regulation (EU) No 1332/2011 also requires Union air operators who are subject to Council Regulation (EEC) No 3922/91⁽³⁾ to install the new software version 7.1 of ACAS II on their aeroplanes. However, this provision is obsolete as Regulation (EEC) No 3922/91 no longer applies to those operators since its Annex III has been deleted. Commission Regulation (EU) No 965/2012⁽⁴⁾ now applies to those operators instead and contains the necessary rules in this regard. The obsolete provision of Regulation (EU) No 1332/2011 should therefore be deleted.
- (3) Regulation (EU) No 1332/2011 contains rules on operational procedures applicable in situations where ACAS II gives indication to the flight crew recommending a manoeuvre to ensure separation of the aeroplane from all threats or to maintain existing separation (resolution advisory). As those rules are safety-critical both for pilots and controllers, especially as regards the interface between them, they are better addressed in Commission Implementing Regulation (EU) No 923/2012⁽⁵⁾ instead. Therefore, the rules related to such operational procedures set out in Regulation (EU) No 1332/2011 should be deleted.
- (4) Regulation (EU) No 1332/2011 should therefore be amended accordingly.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EU) 2016/583, Introductory Text. (See end of Document for details)

- (5) The measures provided for in this Regulation are based on the opinion⁽⁶⁾ issued by the European Aviation Safety Agency in accordance with Articles 17(2)(b) and 19(1) of Regulation (EC) No 216/2008.
- (6) The measures provided for in this Regulation are in accordance with the opinion of the Committee established by Article 65 of Regulation (EC) No 216/2008,

HAS ADOPTED THIS REGULATION:

Changes to legislation: There are currently no known outstanding effects for the
